### Federal Open Market Committee; Domestic Policy Directive of November 12, 1997

In accordance with § 271.5 of its rules regarding availability of information (12 CFR part 271), there is set forth below the domestic policy directive issued by the Federal Open Market Committee at its meeting held on November 12, 1997.<sup>1</sup> The directive was issued to the Federal Reserve Bank of New York as follows:

The information reviewed at this meeting suggests that economic activity continued to grow rapidly in recent months. In labor markets, hiring has remained robust and the civilian unemployment rate fell to 4.7 percent in October, its low for the current economic expansion. Industrial production increased very rapidly in the third quarter, and appears to have remained strong in October. Retail sales also rose sharply in the third quarter, though at a moderating pace as the summer progressed. Housing starts, while fluctuating from month to month, were little changed on balance in the third quarter. Business fixed investment posted unusually strong increases in the latest quarter, and available indicators point to further sizable gains in coming months. The nominal deficit on U.S. trade in goods and services widened substantially on average in July and

August from its rate in the second quarter. Price inflation has remained subdued despite some increase in the pace of advance in labor compensation.

Short-term interest rates have registered small mixed changes since the day before the Committee meeting on September 30, 1997, while bond yields have fallen somewhat. Share prices in U.S. equity markets have fluctuated widely in turbulent trading activity and are down on balance over the period; equity markets in other countries, notably in Asia have been volatile as well and some have registered very large declines. In foreign exchange markets, the trade-weighted value of the dollar in terms of the other G-10 currencies declined somewhat on balance over the intermeeting period. The dollar appreciated significantly, however, in terms of the currencies of a number of Asian and Latin American countries.

Growth of M2 and M3 appears to have moderated further in October from the unusually brisk rates of August. For the year through October, M2 expanded at the upper bound of its range for the year and M3 at a rate substantially above the upper bound of its range. Total domestic nonfinancial debt has expanded in recent months at a pace somewhat below the middle of its range.

The Federal Open Market Committee seeks monetary and financial conditions that will foster price stability and promote sustainable growth in output. In furtherance of these objectives, the Committee at its meeting in July reaffirmed the ranges it had established in February for growth of M2 and M3 of 1 to 5 percent and 2 to 6 percent respectively, measured from the fourth quarter of 1996 to the fourth quarter of 1997. The range for growth of total domestic nonfinancial debt was maintained at 3 to 7 percent for the year. For 1998, the Committee agreed on a tentative basis to set the same ranges as in 1997 for growth of the monetary aggregates and debt, measured from the fourth quarter of 1997 to the fourth quarter of 1998. The behavior of the monetary aggregates will continue to be evaluated in the light of progress toward price level stability, movements in their velocities, and developments in the economy and financial markets.

In the implementation of policy for the immediate future, the Committee seeks conditions in reserve markets consistent with maintaining the federal funds rate at an average of around 5-1/2 percent. In the context of the Committee's long-run objectives for price stability and sustainable economic growth, and giving careful consideration to economic, financial, and monetary

The minutes are published in the Federal Reserve Bulletin and in the Board's annual report.

developments, a somewhat higher federal funds rate would or a slightly lower federal funds rate might be acceptable in the intermeeting period. The contemplated reserve conditions are expected to be consistent with moderate growth in M2 and M3 over coming months.

By order of the Federal Open Market Committee, December 22, 1997.

#### Title: Correction Notice for Survey of Biomedical Equipment Manufacturers for Year 2000 Compliance

##### Correction

On December 22, 1997 the Department of Health and Human Services published a document in the Federal Register concerning the survey of biomedical equipment manufacturers for Year 2000 compliance. It is located on page 62 FR 66869. The fourth sentence of the first full paragraph of the second column is incorrect. It reads

“Also, section 518 of the Food, Drug and Cosmetic Act requires notification of users or purchasers when a device presents a reasonable risk of substantial harm to public health.” The sentence should read “Also, section 518 of the Food, Drug and Cosmetic Act requires notification of users and purchasers when a device presents an unreasonable risk of substantial harm to public health.”

Dated: December 23, 1997.

### Notice of a Cooperative Agreement With the Association of Hispanic Colleges and Universities

The Office of Minority Health (OMH), Office of Public Health and Science, announces that it will enter into an umbrella cooperative agreement with the Association of Hispanic Colleges and Universities (HACU). This cooperative agreement will establish the broad programmatic framework in which specific projects can be funded as they are identified during the project period.

The purpose of this cooperative agreement is to assist HACU to expand and exchange its activities relevant to health issues affecting the Hispanic community in areas such as development of member colleges and universities, improving access to and the quality of postsecondary educational opportunities for Hispanic students, and meeting the needs of business, industry, health and government through linkages and expertise. It is anticipated that future activities will focus on programs and policies aimed at improving the overall educational and health status of Hispanics in order to eliminate the educational gaps which exist between Hispanics and others. OMH will provide consultation, including administrative and technical assistance as needed, for the execution and evaluation of all aspects of this cooperative agreement. OMH will also participate and/or collaborate with the awardee in any workshops or symposia to exchange current information, opinions, and research findings during this agreement.

#### Authorizing Legislation

This cooperative agreement is authorized under Section 1707(d)(1) of the Public Health Service Act.

## Background

Recognizing the importance of the educational needs of our Nation's Hispanic community, President Clinton signed Executive Order 12900, Educational Excellence for Hispanic Americans, on February 22, 1994. This Executive Order set in motion a process for interagency collaboration to identify and correct the shortcomings of the educational system serving Hispanic Americans. In keeping with the intent of the Executive Order, the Office of Minority Health will enter into a cooperative agreement with HACU.

Assistance will be provided only to the Hispanic Association of Colleges and Universities. HACU is the national association of institutions of higher education representing 127 Hispanic-serving institutions (HSI), specifically nonprofit, accredited colleges and universities where Hispanic students constitute a minimum of 25% of the total enrollment. No other applications are solicited. HACU is the only organization capable of administering this cooperative agreement because it:

1. Developed and established an infrastructure to coordinate and implement various educational program initiatives to support activities of HSIs of higher education;
2. Established the information sharing capability among the HSIs and adapted for the development of policy recommendations for legislators and policy makers in government, corporations, foundations, and the media;
3. Provides technical assistance and other support to member institutions to obtain grants, contracts, and other financial support;
4. Sponsors national workshops, seminars and conferences on topics specific to the concerned institutions, targeting those activities which enhance Hispanic students and aiding their successful graduation rates;
5. Provides a specialized research capability in organizational characteristics and factors which contribute to Hispanic educational success;
6. Established memoranda of understanding (MOUs) with the Department of Commerce, Interior, Transportation, Energy, and Agriculture, as well as with the U.S. Coast Guard, the Federal Aviation Administration, and Bureau of Land Management, thereby creating partnerships with Federal agencies to diversify their work force;
7. Demonstrated experience in assisting Federal agencies to partner with HSIs to operate a National Internship Program for Hispanic college students; and
