

facilities whereon by any person because of such person's race, creed, color, or national origin, title shall revert to the United States.

The lands are not needed for Federal purposes. Leasing and later patenting is consistent with current Bureau of Land Management policies and land use planning. The estimated intended time of lease issuance is April 15, 1998, with the patent being issued upon substantial development taking place. The proposal serves the public interest since it would provide modern water treatment facilities that would meet the water needs of the public.

Dated: January 22, 1998.

Joel Farrell,

Assistant District Manager for Resources.

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Final Environmental Impact Report/ Final Environmental Impact Statement (FEIR/FEIS) for the Hamilton City Pumping Plant Fish Screen Improvement Project, Central Valley, California

AGENCIES: Bureau of Reclamation, Interior, and the U.S. Army Corps of Engineers, Defense.

ACTION: Notice of availability of final environmental impact report/final environmental impact statement (FEIR/FEIS) FES 98 02.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969 (as amended), the Bureau of Reclamation (Reclamation), the U.S. Army Corps of Engineers (Corps), the Glenn-Colusa Irrigation District (GCID), and the California Department of Fish and Game (DFG) have prepared a FEIR/FEIS for the Hamilton City Pumping Plant Fish Improvement Screen Project (Project). The Project responds to concerns about impacts to salmon and other fish species from water diversion operations at the Hamilton City Pumping Plant.

The FEIR/FEIS analyzes the no-action alternative as well as three action alternatives. The action alternatives would minimize loss of all fish species in the vicinity of the pumping plant diversion while maximizing GCID's capability to divert the full quantity of water to which it is entitled to divert to meet its water supply delivery obligations. The agency-preferred alternative would include an extension of the existing fish screen, internal fish bypasses, improvements to the intake and bypass channel, and a gradient facility.

DATES: No decision will be made on the proposed action until 30 days after release of the FEIR/FEIS. After the 30-day waiting period, Reclamation and the Corps will complete a Record of Decision which states the action that will be implemented and discusses all factors leading to the decision.

ADDRESSES: Requests for copies of the FEIR/FEIS should be submitted to the Fish Screen Improvement Project, Attention: Rick Lind, 455 Capitol Mall, Suite 600, Sacramento, California 95814. His telephone number is (916) 325-4050.
