

warehousing and light industrial activities. The proposed expansion site is located within the North Shore Economic Development Zone, established by the State of New York, and within the proposed New York City Waterfront Revitalization Program. No specific manufacturing requests are being made at this time. Such requests would be made to the Board on a case-by-case basis.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties.

Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is April 20, 1998. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to May 4, 1998).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

Office of the New York City Economic Development Corporation, 110 William Street, 5th Floor, New York, New York 10038.

Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th & Pennsylvania Avenue, NW, Washington, DC 20230.

Dated: February 6, 1998.

Dennis Puccinelli,

Acting Executive Secretary.

Industrial Nitrocellulose From the United Kingdom: Notice of Extension of Time Limits for Preliminary Results of Antidumping Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limits for preliminary results of antidumping duty administrative review.

EFFECTIVE DATE: February 17, 1998.

FOR FURTHER INFORMATION CONTACT: Gideon Katz or Maureen Flannery, AD/

CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC. 20230; telephone: (202) 482-5255 or (202) 482-3020, respectively.

The Applicable Statute

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act and all citations to the regulations are to 19 CFR Part 351.

Extension of Time Limits for Preliminary Results

The Department of Commerce has received a request to conduct an administrative review of the antidumping duty order on industrial nitrocellulose from the United Kingdom. On August 28, 1997, the Department initiated this administrative review covering the period July 1, 1996 through June 30, 1997.

Because of the complexity of certain issues in this case, it is not practicable to complete this review within the time limits mandated by section 751(a)(3)(A) of the Act (see Memorandum from Joseph Spetrini to Robert LaRussa, Re: Extension of Time Limit for Administrative Review of Industrial Nitrocellulose from the United Kingdom). Therefore, in accordance with that section and 19 CFR 351.213(g)(2), the Department is extending the time limits for the preliminary results to June 1, 1998, and for the final results to 120 days after the publication of the preliminary results. These extensions of time limits are in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(g)(2).

Dated: February 5, 1998.

Joseph A. Spetrini,

Deputy Assistant Secretary for AD/CVD Enforcement III.

Physics Laboratory 1998 Summer Undergraduate Research Fellowships (SURF)—Partnerships in Atomic, Molecular and Optical (AMO) Physics and Materials Science and Engineering Laboratory (MSEL) 1998 Summer Undergraduate Research Fellowships (SURF)

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: Through Summer Undergraduate Research Fellowships (SURF), the programs "SURFing the Physics Lab: A Partnership for AMO Physics" and "SURFing the Materials Science and Engineering Laboratory" will provide an opportunity for the Physics Laboratory (PL) and the Materials Science and Engineering Laboratory (MSEL) of the National Institute of Standards and Technology (NIST) and the National Science Foundation (NSF) to join in partnership with American colleges and universities to encourage outstanding undergraduate students to pursue careers in science and engineering. The MSEL program will function by providing research opportunities with internationally known NIST scientists in the fields of ceramics, solid state chemistry, metallurgy, polymers, neutron condensed matter science, and materials reliability. The PL program will function by exposing students to world class atomic, molecular, optical (AMO) and radiation physicists and facilities in the NIST Physics Laboratory, and by strengthening undergraduate AMO physics curricula by forming the basis for ongoing collaborations. The NIST Program Directors will work with physics and materials science department chairs and directors of multi-disciplinary centers of excellence to identify outstanding undergraduates (including graduating seniors) who would benefit from off-campus summer research in an honors academy environment. Each program recommends that a group of two candidates plus one alternate be nominated by each institution, although larger or smaller groups will be given equal consideration. For the PL program the selected group of about twenty-five (25) students will spend approximately twelve (12) weeks at the Physics
