SUPPLEMENTARY INFORMATION:

Title: Report of DBE Awards and Commitments.

OMB Control Number: 2105-0510.

Expiration Date: (Not Applicable).

Type of Request: Extension for and revision to a currently approved information collection.

Abstract: 49 CFR part 23 establishes requirements for the Department of Transportation (DOT) so as to comply with the mandates of the Intermodal Surface Transportation and Efficiency Act (ISTEA) of 1991 (Pub. L. 102-240, December 18, 1991). 49 CFR part 23.49(a) requires that DOT and its Operating Administrations develop a recordkeeping system to monitor, assess and identify contract awards and progress in achieving DBE subcontract goals. In addition, Pub. L. 102-240 section 1003(b) requires that each state annually survey and compile a list of small business concerns and the location of such concerns, and notify the Secretary of Transportation of the percentage of such concerns controlled by women and by socially and economically disadvantaged individuals other than women. If these reporting requirements were not available, firms controlled by minorities would not achieve the fullest possible participation in DOT programs, and the Department would not be able to identify its recipients and evaluate the extent to which financial assistance recipients have been awarded a reasonable amount.

In order to minimize the burden on DOT recipients the Department has limited its informational request and reporting frequency to that necessary to meet its program and administrative monitoring requirements. The informational request consists of 17 data items on one page and one attachment, to be completed on an annual, semi-annual or quarterly basis. It is the overall long range objective of DOT to permit all DOT recipients to report on a yearly basis depending upon their past experience in meeting their goals.

Respondents: DOT financially-assisted state and local transportation agencies.

Estimated Number of Respondents: 1,057.
