

by OMB under OMB control number 3060-0666 and is not being modified by the Second Report and Order and Order on Reconsideration in CC Docket No. 92-77. It is being consolidated with and is now approved under OMB control number 3060-0717 as suggested by OMB. (No. of respondents: 630; annual burden per respondent: 2 secs per call; total annual burden: 666,666).

The new information disclosure rules will make it easier for callers using operator services provided at call aggregator phones, and prison-inmate phones, to obtain immediately the cost of the call, prior to the call being connected. This should eliminate the surprise that many consumers encounter upon subsequently receiving the bill or bills containing what they believe to be excessive charges or surcharges for such calls. Further, requiring that carriers divulge this information without the consumer having to dial a separate telephone number more readily enables consumers to obtain valuable information necessary in making the decision whether to have that carrier carry the call at the identified rates. OSPs are required under Section 226(h)(1) of the Communications Act to file informational tariffs with the Commission and to update these tariffs regularly. The tariffs are filed to protect consumers from unfair and deceptive practices relating to their use of operator services to place interstate telephone calls; and to ensure that consumers have the opportunity to make informed choices in making such calls. Obligation to comply: mandatory.

OMB Control No.: 3060-0817.

Expiration Date: 05/31/2001.

Title: Computer III Further Remand Proceedings: BOC Provision of Enhanced Services (ONA Requirements), CC Docket No. 95-20.

Form No.: N/A.

Respondents: Businesses or other for profit entities.

Estimated Annual Burden: 5 respondents; 2 hours per response (avg.); 20 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; semi-annually.

Description: In the Further Notice of Proposed Rulemaking issued in CC Docket Nos. 95-20 and 98-10, the Commission seeks to eliminate outdated, unnecessary regulations, while continuing to protect against potential anticompetitive behavior by the Bell operating companies (BOCs) in the provision of information services. In fulfillment of this goal, the Commission

proposed and OMB approved the following collection of information from BOCs: *Open Network Architecture (ONA) Reporting Requirements*: The Commission sought comment on whether we should modify current ONA reporting requirements by reducing the frequency of semi-annual reporting to annual, whether the current quarterly installation and maintenance reports and accompanying annual affidavits are necessary or effective for the nondiscrimination obligations of *Computer III*, whether the separate subsidiary network information disclosure rules should continue to apply to BOCs with *Computer II* subsidiaries, whether the "all-carrier rule" should continue to apply to all carriers, other than incumbent LECs, owning basic transmission facilities, or whether the Commission should eliminate current ONA reporting requirements on the BOCs and GTE. In the FNPRM, the Commission tentatively concludes that the BOCs should be permitted to make one consolidated filing (or posting) for all generic information they currently submit in their semi-annual ONA reports. If adopted, the proposed collections would be used to ensure that BOCs and GTE comply with the *Computer III*, ONA requirements as modified by the FNPRM, and with the Communications Act, as amended, and with Commission policies and regulations. Obligation to respond: mandatory.

Public reporting burden for the collections of information is as noted above. Send comments regarding the burden estimate or any other aspect of the collections of information, including suggestions for reducing the burden to Performance Evaluation and Records Management, Washington, D.C. 20554.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.
