Meeting Agenda

This meeting will focus on non-cancer respiratory effects associated with exposure to metalworking fluids including respiratory irritation, asthma, and hypersensitivity pneumonitis. Early detection methods for these disorders will be discussed. Other items for discussion are: the changing nature of metalworking fluid components including biocides, microorganisms, and new components (such as anti-misting agents); OSHA's regulatory and nonregulatory options for reducing dermatitis by using coolant management; and some discussion of the cancer studies presented in the NIOSH Criteria Document on Metalworking Fluids.

Public Participation

Written data, views, or comments for consideration by the MWFSAC on the various agenda items listed above may be submitted, preferably with 25 copies, to Dr. Peter Infante at the address provided above. Submissions received by June 15, 1998, will be provided to the members of the committee and will be included in the record of the meeting. Requests to make oral presentations to the Committee may be granted if time permits. Anyone wishing to make an oral presentation to the Committee on any of the agenda items noted above should notify Dr. Peter Infante at the address listed above. The request should state the amount of time desired, the capacity in which the person will appear, and a brief outline of the content of the presentation.
