[Program Announcement 98070]

Evaluation of Violence Prevention Programs for High-Risk Youth

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1998 funds for a cooperative agreement program for the Evaluation of Violence Prevention Programs. This program addresses the "Healthy People 2000" priority area of Violent and Abusive Behavior.

The purpose of this cooperative agreement is to support the implementation and evaluation of interventions which are designed to prevent violence-related injuries among high-risk youth (ages 13-21). For the purpose of this announcement, high-risk youth does not include youth that are detained.

Applicants may propose to implement and evaluate interventions to prevent injuries due to interpersonal youth (ages 13-21) violence. The aim for these interventions is to reduce the risk of violence related injury among high-risk youth and refers to impact assessment of efforts to target youths (ages 13-21) who are in alternative schools, or have been injured in a violent incident or have received treatment for a violence related assault or trauma.

B. Eligible Applicants

Applications may be submitted by public and private nonprofit organizations and by governments and their agencies; that is, universities, colleges, research institutions, hospitals, other public and private nonprofit organizations, and State and local governments or their bona fide agents.

Note: Pub. L. 104-65, which became effective January 1, 1996, states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 which engages in lobbying activities shall not be eligible to receive Federal funds constituting an award, grant (cooperative agreement), contract, loan, or any other form.

C. Availability of Funds

Approximately \$1,500,000 is available in FY 1998 to fund approximately four awards. It is expected that the average award will be \$375,000 ranging from \$350,000 to \$400,000. It is expected that the awards will begin on or about September 30, 1998 and will be made for a 12-month budget period within a project period of up to three years. Funding estimates may change.

Non-competing continuation awards for new budget periods within an approved project period are made on the basis of satisfactory performance and availability of funds.

Funding Preferences

In making awards, priority consideration will be given to ensuring geographic balance, a representative mixture of target groups, diversity of intervention strategies, and settings. Priority will be given to proposed projects evaluating efforts to reduce risk of violence related injury among high-risk youth.

D. Cooperative Activities

In conducting activities to achieve the purpose of this program, the recipient will be responsible for the activities under A. (Recipient Activities), and CDC will be responsible for the activities listed under B. (CDC Activities).

1. Recipient Activities

- a. Develop and implement an intervention protocol.
- b. Develop and pilot test data collection instruments.

- e. Develop collaborative relationships with voluntary, community-based public and private organizations and agencies already involved in preventing violence.
- f. Compile and disseminate the results from the project.

2. CDC Activities

- a. Collaborate on the development of the intervention protocol.
- b. Provide technical assistance on the development and evaluation of the data collection instruments.
