NUCLEAR REGULATORY COMMISSION

[Docket No. 030-31174, License No. 07-
28386-01, EA NO. 98-061]

Koch Engineering Company, Inc., Newark, Delaware; Order Imposing a Civil Monetary Penalty

I

Koch Engineering Company, Inc.
(Licensee) is the holder of Byproduct
Materials License No. 07-28386-01

(License) issued by the Nuclear
Regulatory Commission (NRC or
Commission) on July 24, 1989, and most
recently renewed by the NRC on August
28, 1995. The License authorizes the
Licensee to possess and use certain
byproduct materials in accordance with
the conditions specified therein at its
facilities in Newark, Delaware, Canton,
Michigan, and temporary job sites
anywhere in the United States where
the U.S. Nuclear Regulatory
Commission maintains jurisdiction.

II

A special inspection of the Licensee's
activities was conducted on September
15, 1997, to review the circumstances
associated with an event involving the
shipment of a package of radioactive
material (3 cesium-137 sources) via
Federal Express from the Licensee's
facility in Newark, Delaware to
Wilmington, North Carolina. The
package was empty upon arrival in
North Carolina, and the sources were
later found at a Federal Express facility
in Memphis, Tennessee. The NRC
inspection was continued in the Region
I office on January 20, 1998, to review
evaluations of doses received by Federal
Express workers as a result of the event.
The results of this inspection indicated
that the Licensee had not conducted its
activities in full compliance with NRC
requirements. A written Notice of
Violation and Proposed Imposition of
Civil Penalty (Notice) was served upon
the Licensee by letter dated March 13,
1998. The Notice states the nature of
the violations, the provisions of the NRC
requirements that the Licensee violated,
and the amount of the civil penalty
proposed for the violation.

The Licensee responded to the Notice
in letters, dated April 8 and 9, 1998. In
its responses, the Licensee admits the
violations, but disputes the Severity
Level of the violation that resulted in
the issuance of the civil penalty and
requests that the proposed penalty of
\$4,400 be reconsidered.

III

After consideration of the Licensee's
response and the statements of fact,
explanation, and argument contained
therein, the NRC staff has determined,
as set forth in the Appendix to this
Order, that the Licensee has not
provided an adequate basis for reducing
the Severity Level of the violation or for
withdrawal of the civil penalty
associated with this violation.
Therefore, a civil penalty in the amount
of \$4,400 should be imposed.
