[Announcement 98082]

National Minority Organizations Strategies for the Prevention and Control of Diabetes, The National Diabetes Education Program; Notice of Availability of Fiscal Year 1998 Funds**Introduction**

The Centers for Disease Control and Prevention (CDC) announces the availability of funds for fiscal year (FY) 1998 for the award of cooperative agreements to national minority organizations (NMOs) for National Diabetes Education Program (NDEP) activities related to the prevention and control of diabetes within special populations groups disproportionately burdened by this chronic disease (i.e. Black or African-American, Hispanic or Latinos, Asian, Native Hawaiian or Other Pacific Islanders, and American Indian or Alaska Native). These awards will assist NMOs to reach their targeted populations with culturally and linguistically appropriate NDEP prevention and control messages through community-based intervention approaches and delivery channels.

CDC is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a national activity to reduce morbidity and mortality and to improve the quality of life. This announcement is related to the priority area of Diabetes and Chronic Disabling Conditions. (To order a copy of Healthy People 2000, see the section "Where To Obtain Additional Information".)

Authority

This program is authorized under Sections 301(a) and 317(k)(2) [42 U.S.C. 241(a) and 247b (k) (2)] of the Public Health Service Act, as amended. Applicable program regulations are found in 45 CFR Part 74.

Smoke-Free Workplace

CDC strongly encourages all grant recipients to provide a smoke-free workplace and to promote the nonuse of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive federal funds in which education, library, day care, health care, or early childhood development services are provided to children.
