approval of an information collection requirement must be renewed at least once every three years.

The Federal Register Notice with a 60-day comment period soliciting comments on this information collection was published on March 9, 1998 [63 FR 11472].

DATES: Comments on this notice must be received on or before August 31, 1998.

FOR FURTHER INFORMATION CONTACT: Copies of the DOT information collection requests submitted to OMB may be obtained from Ms. Judith Street, Federal Aviation Administration, Corporate Information Division, ABC-100, 800 Independence Ave., SW., (202) 267-9895, Washington, DC 20591.

SUPPLEMENTARY INFORMATION:

Federal Aviation Administration (FAA)

Title: Fuel Venting and Exhaust Emission Requirements for Turbine Engine Powered Airplanes.

OMB Control Number: 2120–0508.

Form(s): N/A.

Type of Request: Revision of a currently approved collection.

Affected Public: Business or other for profit.

Abstract: This is a labeling requirement to put the date of manufacture and compliance status on the identification plate and is intended to minimize the effort required to determine whether a turbojet engine may legally be installed and operate on a aircraft in the United States as required by 14 CFR part 45.

Estimated Burden: The estimated total annual burden is 100 hours.

ADDRESSES: Written comments on the DOT information collection request should be forwarded, within 30 days of publication, to the Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, Washington, DC 20503, ATTN: FAA Desk Officer. Written comments to OMB are best assured of having their full effect when OMB receives them within 30 days of publication. If you anticipate submitting substantive comments, but find that more than 10 days from the date of publication are needed to prepare them, please notify the OMB official of your intent immediately.

Comments are invited on: Whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department’s estimate of the burden of the proposed information collections; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Phillip A. Leach, Clearance Officer, United States Department of Transportation.

BILLING CODE 4910–62–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner’s arguments in favor of relief.

The Longhorn Railway Company

[Waiver Petition Docket Number RSGM–98–2)

The Longhorn Railway Company (LHRR) seeks a permanent waiver of compliance with the Safety Glazing Standards, 49 CFR 223.11(c), which requires certified glazing in all locomotive windows, except those locomotives used in yard service. The LHRR seeks this waiver for locomotive number ECRX 8. The locomotive, a GP7 was built in 1965 and re-built in March 1997, and was never equipped with FRA certified glazing. The locomotive operator indicates that the locomotive will be utilized between the Union Pacific interchange at McNeal, Elgin, and Giddings, Texas, and Burlington Northern Santa Fe at Elgin, Texas, through Central Texas from Giddings to Llano approximately 162 miles.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number RSGM–98–2) and must be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, FRA, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9:00 a.m.–5:00 p.m.) at FRA’s temporary docket room located at 1120 Vermont Avenue, N.W., Room 7051, Washington, D.C. 20005.

Edward R. English, Director, Office of Safety Assurance and Compliance.

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of the Federal safety laws and regulations. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and
the petitioner’s arguments in favor of relief.

Paducah & Louisville Railway, Inc.

Paducah & Louisville Railway, Inc. (PL) seeks a waiver of compliance from 49 CFR 229.131, Railroad Locomotive Safety Standards, Cabs and Cab Equipment—Sanders. Section 229.131 states: “Except for MU locomotives, each locomotive shall be equipped with operable sanders that deposit sand on each rail in front of the first power operated wheel set in the direction of movement.” PL would like to disable sanding equipment on six locomotives to test a new technology adhesion device. The test period would last for one year. The test locomotives would be operated in unit coal train service between Madisonville, (mile post JK 149) and Louisville, Kentucky (mile post J 1.9). The locomotives would be monitored daily. Each of the test locomotives would be equipped with four Centrac Very High Positive Friction (VHPF) traction enhancer devices. The VHPF traction enhancer is a solid friction modifier that provides continuous treatment of the wheel/rail interface through spring loaded devices.

Lake Terminal Railroad Company

Lake Terminal Railroad Company (LT) seeks a waiver of compliance from 49 CFR 229.131, Railroad Locomotive Safety Standards, Cabs and Cab Equipment—Sanders. Section 229.131 states: “Except for MU locomotives, each locomotive shall be equipped with operable sanders that deposit sand on each rail in front of the first power operated wheel set in the direction of movement.” LT would like to disable sanding equipment on six switching locomotives to test a new technology adhesion device. The test period would last for one year. The test locomotives would be operated in yard service and the locomotives would be monitored daily. Each of the test locomotives would be equipped with four Centrac Very High Positive Friction (VHPF) traction enhancer devices. The VHPF traction enhancer is a solid friction modifier that provides continuous treatment of the wheel/rail interface through spring loaded devices.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request. All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number H–98–4), and must be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, FRA, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9:00 a.m.–5:00 p.m.) at FRA’s docket facility located at 1120 Vermont Avenue, N.W., Room 7051, Washington, D.C. 20005.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

CSX Transportation, Inc.—Abandonment Exemption—in Washington County, IL

CSX Transportation, Inc. (CSXT) has filed a notice of exemption under 49 CFR part 1152 Subpart F—Exempt Abandonments to abandon a 2.9-mile line of its railroad between milepost OOH–445.7 at Okawville and milepost OOH–448.6 at the end of the track at Venedy, in Washington County, IL. The line traverses United States Postal Service Zip Codes 62214 and 62271. CSXT has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) there is no overhead traffic moving over the line; (3) no formal complaint filed by a user of rail service on the line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Surface Transportation Board (Board) or with any U.S. District Court or has been decided in favor of complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental reports), 49 CFR 1105.8 (historic reports), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(3) (notice to governmental agencies) have been met.

As a condition to this exemption, any employee adversely affected by the
