

will be reported in ANR's 1998 annual report of NGPA Section 311 construction.

ANR states it delivers natural gas at the Land O' Lakes Interconnection under its Rate Schedule ITS, and that the, on behalf of, entity for whom natural gas is transported at that interconnection is Transok, Inc., an intrastate pipeline company located in Tulsa, Oklahoma. It is further stated the pursuant to Section 284.102(d)(3) of the Commission's regulations, ANR received the, on behalf of, certification from its shipper by a letter submitted on November 20, 1997.

ANR indicates that the authorization that it is seeking in this request, will eliminate the current restriction on its usage, i.e., to qualifying transactions under NGPA Section 311, thereby providing greater service flexibility and choices for the market. It is stated that the operation of the Land O' Lakes Interconnection will have no adverse impact on annual entitlement of any of ANR's existing customers. ANR further states that the authorization to operate this existing interconnection, under the provisions of Section 7 of the NGA, will not impact ANR's gas supply situation and that deliveries of natural gas at this point can be made without detriment or disadvantage to any existing customer of ANR.

It is stated that the volumes to be delivered are within the certified entitlement of the customer.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
