**SUPPLEMENTARY INFORMATION:**

**Paperwork Reduction Act of 1995**

This notice announces FCIC's intent to revise the information collection requirements previously approved by OMB under OMB control number 0563-0053 through October 31, 2000. The program changes provide a replant payment if the insured crop is damaged by excess moisture, hail, or blowing sand or soil and is replanted.

Information will need to be collected with respect to the number of acres replanted in order to calculate a replant payment. In addition, the program changes revise the provision used to determine the amount of production to count for cotton and ELS cotton that is eligible for quality adjustment, and proposed a prevented planting coverage of 50 percent for cotton and ELS cotton for 1999 and subsequent crop years. All of the forms cleared under OMB control number 0563-0053 present the minimum information necessary to a determine eligibility and losses qualifying for a payment due to cotton and ELS cotton coverage.

Revised reporting estimates and requirements for usage of OMB control number 0563-0053 have been submitted to OMB for approval under the provisions of 44 U.S.C., chapter 35. The comment period for information collections under the Paperwork Reduction Act of 1995 continues through November 24, 1998.

The FCIC is seeking comments on the following information collection request (ICR). *Title:* Multiple Peril Crop Insurance.

*Respondents/Affected Entities:* Parties affected by the information collection requirements included in this notice are cotton and ELS cotton producers.

*Abstract:* This program changes improve the existing cotton and ELS cotton policy by adding coverage for replanting of the insured crop if damaged by excess moisture, hail, or blowing sand or soil; increasing the price used to calculate quality adjustment from 75 percent of the price quotation for the applicable growth area, adjusted according to the specifications

in the Special Provisions, for cotton or ELS cotton in the area to 100 percent of the price quotation for such cotton; and increasing the amount of prevented planting coverage for cotton and ELS cotton to 50 percent. FCIC believes the program changes will provide better crop insurance coverage to cotton and ELS cotton producers.

*Estimate of Burden:* Public reporting burden for the collection of information on all forms for the insurance of cotton and ELS cotton is estimated at 55.8 minutes per participant because of the high degree of automation associated with the data collection.

*Respondents:* Cotton and ELS cotton producers.

*Estimated Number of Respondents:* 60,795.

*Estimated Number of Responses Per Respondent:* 2.8.

*Estimated Total Annual Burden on Respondents:* 56,496 hours.

FCIC is requesting comments on the following: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information gathering technology.

Comments regarding paperwork reduction should be submitted to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

The Office of Management and Budget (OMB) is required to make a decision concerning the collections of information contained in this rule between 30 and 60 days after submission to OMB. Therefore, a comment to OMB is best assured of having full effect if OMB receives it within 30 days of publication.

Signed in Washington, D.C., on September 21, 1998.
