

records covered by the GRS, records that may be organized or maintained in a way that make application of the GRS inappropriate, or records where the content or organization of the files may vary significantly from agency to agency, such as records relating to the selection of political appointees (see NARA Bulletin 95-6).

This schedule adds a new item to GRS 1-16, 18, and 23, to authorize disposal of the source records used to produce records maintained in those GRS recordkeeping systems, *after* a recordkeeping copy has been produced. These source records will include electronic copies generated using electronic mail, word processing, and other office automation systems. This authority is needed because the electronic copy that remains on the office automation system is a record, in addition to the record in the recordkeeping system.

This new item is appropriate for inclusion in the revised GRS because the GRS only will apply to administrative records. This new item is recommended because, unlike unique agency program records, NARA believes that the electronic copies of records covered by the GRS have insufficient value for continued retention once the recordkeeping copies are produced. (This authority would not be added to GRS 17 and 21 because they cover cartographic, architectural, and audiovisual records. Even though such nontextual records may be generated in digital format, NARA needs to conduct further study before determining whether disposition authorities for electronic copies should be added to these two GRS. GRS 19, Research and Development Records, was withdrawn in a previous edition of the GRS, and NARA has decided to withdraw GRS 22, Inspector General Records, in the next edition.)

The new item would align the disposition authority for electronic copies and other source records with records documenting a specific administrative function, as opposed to providing one GRS authority across functional areas, as was done in the 1995 edition of GRS 20. It will provide authority for deletion of the source records, including those that are maintained on office automation applications apart from an agency recordkeeping system. The new item will be applicable to source records in all physical formats that the agency does not maintain in a recordkeeping system. However, the item will authorize deletion of source records maintained apart from the recordkeeping system only *after* a recordkeeping copy is

produced. The item will not apply to the records in a recordkeeping system.

Dated: October 7, 1998.

Michael J. Kurtz,

Assistant Archivist for Records Services—Washington, DC.
