Substitute Second Revised Sheet No. 267

Columbia states that on September 30, 1998, they filed with the Commission tariff sheets to its FERC Gas Tariff, Second Revised Volume No. 1, submitted pursuant to the Commission's Order issued July 15, 1998 in Docket No. RM96-1-008 (Order 587-H), Standards for Business Practices of Interstate Natural Gas Pipelines. By Letter Order issued October 2, 1998, Columbia was directed to correct formatting errors that were encountered on the electronic diskette that was submitted with the September 30, 1998 filing, and to furnish the Commission with a revised diskette. In order to correct these formatting errors, Columbia has had to re-paginate the tariff sheets. The above referenced sheets correct these formatting errors as directed by the Commission.

Columbia states that copies of its filing have been mailed to all firm customers, interruptible customers, and affected state commissions.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Portland General Electric Company, Portland, OR; Smurfit Newsprint Corporation, Oregon City, OR; Notice of Portland General Electric Company and Smurfit Newsprint Corporation's Request To Use Alternative Procedures in Filing a License Application

October 9, 1998.

By letter dated September 1, 1998, Portland General Electric Company (PGE) of Portland, Oregon, and Smurfit Newsprint Corporation of Oregon City, Oregon, co-licensee, have asked to use an alternative procedure in filing an application for a new license for their Willamette Falls Project No. 2233.¹ PGE, acting on behalf of itself and Smurfit, has demonstrated that they have made a reasonable effort to contact the resource agencies, Indian tribes, non-governmental organizations (NGOs), and others who may be affected by their proposal, and has submitted a communication protocol governing how participants in the proposed process may communicate with each other. PGE has also submitted evidence of support for their proposal, and it appears that a consensus exists that the use of an alternative procedure is appropriate in this case.

The purpose of this notice is to invite any additional comments on PGE's request to use the alternative procedure, as required under the final rule for Regulations for the Licensing of Hydroelectric Projects.² Additional notices seeking comments on the specific project proposal, interventions and protests, and recommended terms and conditions will be issued at a later date.

The alternative procedure being requested here combines the pre-filing
