

*Estimated number of respondents:* 105,000.

*Estimated time per response:* 10 minutes.

*Frequency of response:* On occasion (when respondent wishes to search for or order copies of Pension, Bounty Land Warrant Application files, and pre-WWI Military Service records).

*Estimated total annual burden hours:* 17,500.

*Abstract:* The NATF forms 85 and 86 replace the currently used NATF form 80, National Archives Order for Copies of Veterans Records. The NATF form 85 will be used by researchers to request that NARA search for and make copies of pages from pension and bounty land warrant application files in the custody of the National Archives. The NATF form 86 will be used by researchers to request that NARA search for and make copies of pages of military service records from the pre-WWI (pre-1917) time period. Submission of requests on a form is necessary to handle in a timely fashion the volume of requests received for these records (approximately 52,000 per year for the NATF 85 and approximately 53,000 per year for the NATF 86) and the need to obtain specific information from the researcher to search for the records sought. The form will be printed on carbonless paper as a multi-part form to allow the researcher to retain a copy of his request and NARA to respond to the researcher on the results of the search or to bill for copies if the researcher wishes to order the copies. As a convenience, the form will allow researchers to provide credit card information to authorize billing and expedited mailing of the copies. NARA is working towards accepting electronic submission of requests and we intend to address security of financial information and other issues as we continue our efforts to increase electronic access to NARA and its holdings.
