Fish and Wildlife Service

Notice of Intent To Prepare a Supplement to a Final Environmental Impact Statement

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent to prepare a supplement to a final environmental impact statement.

SUMMARY: This notice advises the public that the Fish and Wildlife Service and National Marine Fisheries Service (Services) intend to prepare draft and final Supplemental Environmental Impact Statements (Supplement) pertaining to the Plum Creek Timber Company, Cascade Timberlands Habitat Conservation Plan (Plan). The Plan was accepted by the Services and an Incidental Take Permit (Permit) was originally issued in June 1996 for Plum Creek lands located in King and Kittitas Counties, Washington. The Supplement will address Plum Creek's request for HCP modification associated with a potential land exchange with the U.S. Forest Service (Forest Service). The Final Environmental Impact Statement (Statement) associated with the original Plan is not being re-opened or re-analyzed, and the decisions based on the original Statement are not being reconsidered.

The Services are furnishing this notice in order to advise other agencies and the public of our intentions. Formal public scoping will not be conducted, consistent with 40 CFR 1502.9(c)(4). However, public review and comment periods will be provided for the draft and final Supplement and their availability will be announced in the **Federal Register**.

ADDRESSES: Requests for information should be sent to William Vogel, Wildlife Biologist, Fish and Wildlife Service, 510 Desmond Drive, S.E., Suite 102, Lacey, Washington, 98503-1273, (telephone: 360/753-9440; facsimile: 360/534-9331); or Bob Turner, Habitat Conservation Plan Program Manager, National Marine Fisheries Service, 510 Desmond Drive, S.E., Suite 103, Lacey, Washington, 98503-1273 (telephone: 360/753-6054; facsimile: 360/753-9517).

SUPPLEMENTARY INFORMATION: The June 1996 Plum Creek Plan applied to a 169,177-acre Project Area located within a 418,690-acre Planning Area. The Planning Area is located within east King County and west Kittitas County, Washington, and is bisected by U.S. Interstate 90.

The potential land exchange would result in a transfer to the Forest Service of up to 54,000 acres of the 169,177-acre Project Area previously covered by Plum Creek's Permit and Plan, and the transfer of up to 12,000 acres of Forest Service lands within the 418,690-acre Planning Area to Plum Creek. If modified, the Plum Creek permit area would consist of approximately 127,000 acres.

The Permit allows Plum Creek to incidentally take threatened and endangered fish and wildlife and requires Plum Creek to implement a habitat-based, prescriptive management plan designed to minimize and mitigate such take. The 1996 Plan considered that Plum Creek lands managed under the Plan and Permit would likely change as a result of future land exchanges with the Forest Service. Consequently, the Plan and associated Implementation Agreement provide procedures and criteria to modify the Plan to accommodate the exchange of lands. The Plan describes two scenarios for land exchanges with the Forest Service whereby "the biological integrity of the Plan would be either maintained or improved."

The Supplemental Environmental Impact Statement will analyze Plum Creek's proposal in order to determine the environmental impact (beneficial or adverse) which would result from implementation of the Plan modification, as compared to the

original federal action (approval and implementation of the original Plan and issuance of an Incidental Take Permit).

Questions concerning this proposed action and the environmental review should be directed to the Fish and Wildlife Service or National Marine Fisheries Service at the address or telephone number provided above.

The environmental review of this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 USC 4321 *et seq.*), National Environmental Policy Act Regulations (40 CFR 1500-1508), other appropriate Federal laws and regulations, and policies and procedures of the Services for compliance with those regulations.

Dated: November 25, 1998.

Thomas J. Dwyer,

Acting Regional Director, Region 1, Portland, Oregon.
