Needs and Uses: The United States Constitution mandates that a census of the Nation's population and housing be taken every 10 years. Title 13 of the United States Code specifies that in addition to the 50 states and the District of Columbia, the census should include Puerto Rico, the U.S. Virgin Islands,

American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands. These areas, with the exception of Puerto Rico, are collectively referred to as the Island Areas. This OMB submission covers the Island Areas only. The forms for Puerto Rico have been submitted separately. The Census Bureau's goal in Census 2000 is to take the most accurate and cost-effective census possible. The importance of an accurate decennial census cannot be overstated. Island Areas census data will be used by Federal agencies to fulfill many statutory data requirements and by the Island Areas to administer governmental programs.

Two questionnaires will be used in the Island Areas enumeration—one for the U.S. Virgin Islands, and one for the remaining Island Areas. The content of the questionnaires was developed in consultation with the Interagency Committees of the various Island Areas. Many of the questions are the same as those on the stateside questionnaires; others have been modified as recommended by the Island Areas Interagency Committees to reflect the unique social, economic, and climatic characteristics of these areas. The U.S. Virgin Islands questionnaire is more similar to the stateside forms. Only long form questionnaires will be administered in the Island Areas. A short reinterview will be administered to a small sample of respondents to assure data quality.

Affected Public: Individuals or households.

Frequency: One-time.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C., Sections 141 and 191.

OMB Desk Officer: Nancy Kirkendall, (202) 395-7313.
