NUCLEAR REGULATORY COMMISSION

Applications for Licenses To Export Nuclear Material

Pursuant to 10 CFR 110.70(b) "Public notice of receipt of an application", please take notice that the Nuclear Regulatory Commission has received the following application for an export license. Copies of the application are on file in the Nuclear Regulatory Commission's Public Document Room located at 2120 L Street, N.W., Washington, D.C.

A request for a hearing or petition for leave to intervene may be filed within 30 days after publication of this notice in the Federal Register. Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner upon the applicant, the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555; the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555; and the Executive Secretary, U.S. Department of State, Washington, DC 20520.

In its review of the applications for licenses to export nuclear grade graphite and heavy water as defined in 10 CFR Part 110 and noticed herein, the Commission does not evaluate the health, safety or environmental effects in the recipient nation of the material to be exported. The information concerning the application follows.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–443; License No. NPF–86]

Notice is hereby given that by Petition dated March 31, 1999, David A. Lochbaum (Petitioner), acting on behalf of the Union of Concerned Scientists (UCS), has requested that the U.S. Nuclear Regulatory Commission (NRC) take action with regard to the Seabrook Station, Unit No. 1, operated by North Atlantic Energy Service Corporation. Petitioner requests three specific actions: (1) That the NRC take enforcement action against individuals alleged to have unlawfully discriminated against a contract electrician in violation of 10 CFR 50.7; (2) that the NRC take enforcement action against individuals alleged to have created a false record in violation of 10 CFR 50.9; and (3) that the Petitioner be granted permission to attend an upcoming predecisional enforcement conference between the NRC and the licensee on these matters. The Petitioner specifically requested that the NRC ban any individuals who engaged in wrongdoing in the above matters from working in licensed activities for a period of at least 5 years. As the basis for the request, the Petitioner states that the NRC notified the owner of the Seabrook Station, in a letter dated March 16, 1999, that an NRC investigation documented in Office of Investigation Report No. 1–98–005 concluded that (1) an electrician was terminated as a result of raising a safety concern and (2) a false record was created.

The Petitioner's request for enforcement action is being treated pursuant to 10 CFR 2.206 of the Commission's regulations. The request for enforcement action has been referred to the Director of the Office of Enforcement. As provided by section 2.206, appropriate action will be taken on this petition within a reasonable time.

The Petitioner's request to attend the upcoming predecisional enforcement conference with the licensee is not considered to be a request for enforcement action pursuant to 10 CFR 2.206, and it is denied. As stated in Section V of the Commission's "General Statement of Policy and Procedures for NRC Enforcement Actions" (Enforcement Policy), predecisional enforcement conferences are a meeting between the NRC staff and the licensee. As stated in the Enforcement Policy, these meetings will normally be closed to public observation when the enforcement action being contemplated by the NRC staff is based on the findings of an OI investigation report that has not been publically disclosed or when the enforcement action being contemplated may be taken against an individual. I find no reason in this case to make an exception to the Commission's stated policy of keeping these types of meetings closed to public observation.

A copy of the petition is available for inspection at the Commission's Public Document Room at 2120 L Street, N.W., Washington, DC 20555−0001.

Dated at Rockville, Maryland, this 20th day of April, 1999.

For the Nuclear Regulatory Commission.

James Lieberman,
Director, Office of Enforcement.

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

SUMMARY: In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections. Comments are invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Title and Purpose of Information Collection: Request for Review of Part B Medicare Claim; OMB 3220–0100 Under Section 7(d) of the Railroad Retirement Act (RRA), the RRB administers the
