ACTION: Agency proposal for the collection of information submitted to the Office of Management and Budget (OMB) for review; comment request.

SUMMARY: In accordance with the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Ch. 35), the Commission has submitted a proposal for the collection of information to OMB for approval. The proposed information collection is a survey to be sent to participants in Commission injury investigations (primarily countervailing duty, antidumping, and safeguard investigations) to obtain feedback on the procedures used by the Commission in the conduct of such investigations. Any comments submitted to OMB on the proposed information collection should be specific, indicating which parts of the survey are objectionable, describing the problem in detail, and including specific revisions or language changes.

DATES: To be assured of consideration, comments should be submitted to OMB on or before June 7, 1999.

FOR FURTHER INFORMATION CONTACT: Copies of the proposed survey and Supporting Statement submitted to OMB are posted on the Commission's World Wide Web site at http://www.usitc.gov or may be obtained from Lynn Featherstone, Office of Investigations, U.S. International Trade Commission, telephone 202–205–3160. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server.

SUPPLEMENTARY INFORMATION: In its Strategic Plan (also available on the agency’s World Wide Web site), the Commission set itself the goal of obtaining feedback on investigative procedures from users of the agency’s import injury investigation process. The proposed 1-page survey seeks to gather that feedback to allow the Commission to ensure that its procedures are fair and equitably implemented.

The survey asks if the Commission’s rules and other written guidance make clear to participants what the Commission expects of them procedurally in an investigation; if there are area(s) where additional guidance would be of benefit to their participation in investigations; if Commission personnel responded to procedural inquiries in a helpful way; if their access to information collected by/ submitted to the Commission was satisfactory; if their opportunity to present information for consideration by the Commission was satisfactory; and if they have any other comments or recommended improvements. It will be sent to firms that have participated in an antidumping, countervailing duty, or safeguard investigation during the period October 1, 1998–September 30, 1999. Responses are voluntary. While the survey will be made available on the Commission's Web site, responses must be in paper form.

The Commission estimates that the survey will impose an average burden of less than 1 response hour each on 50 respondents. No recordkeeping burden is known to result from the proposed collection of information.

Donna R. Koehnke, Secretary.
