II. Reregistration Eligibility Decision

The Agency has issued a Reregistration Eligibility Decision (RED) document for the pesticidal active ingredient chlorothalonil. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting a reregistration program to reevaluate existing

pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of chlorothalonil is substantially complete.

All registrants of products containing the above listed active ingredient have been sent the chlorothalonil RED document and must respond to labeling requirements and product specific data requirements (if applicable) within 8 months of receipt. Products containing other active ingredients will not be reregistered until those other active ingredients are determined to be eligible for reregistration.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing this RED as a final document with a 60-day comment period. Although the 60-day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments will be carefully considered by the Agency.

III. Public Record and Electronic Submission

The official record for this notice, as well as the public version, has been established for this notice under docket control number "OPP-34185" (including comments and data submitted electronically as described below). SUMMARY: In the *Federal Register* of May 19, 1999 (64 FR 27266) (FRL-6078-1), EPA announced that the State of Arkansas had submitted an application for EPA approval to administer and enforce training and certification requirements, training program accreditation requirements, and work practice standards for lead-based paint activities in target housing and child-occupied facilities under section 402 of the Toxic Substances Control Act (TSCA). This notice also extends the date for submission of requests for a public hearing to June 4, 1999. If a public hearing is not requested, this meeting time and place will be canceled. Therefore, individuals are advised to verify the status of the public hearing by contacting Jeffrey Robinson (name, telephone number, and address are provided in the "FOR FURTHER INFORMATION CONTACT" section of this notice) after June 4, 1999, and before the June 11, 1999 public hearing date.
