

determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for REGT to appear or be represented at the hearing.

David P. Boergers,

Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP99-551-000]

Tennessee Gas Pipeline Company; Notice of Application

June 16, 1999.

Take notice that on June 10, 1999, Tennessee Gas Pipeline Company (Tennessee), 1001 Louisiana Street, P.O. Box 2511, Houston, Texas 77002, filed in Docket No. CP99-551-000, an application pursuant to Section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Federal Energy Regulatory Commission's (Commission) regulations, for a certificate of public convenience and necessity authorizing Tennessee to increase the maximum allowable operating pressure (MAOP) for Tennessee's existing La Gloria Line, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.us.online/rims.htm> (call 202-208-2222 for assistance).

Tennessee proposes to increase the MAOP of its 2.4 mile, 4-inch diameter Line No. 403A-100 pipeline (referred to as the La Gloria Line) in Brooks County, Texas, from 765 psig to 891 psig.

Tennessee indicates that the proposed MAOP increase will allow Tennessee to consistently deliver natural gas supplies received on the La Gloria Line into its mainline pipeline system. Tennessee further states that the uprate procedures require no construction.

Any person desiring to be heard or making any protest with reference to said application should on or before July 7, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or person to whom the protests are directed. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents issued by the Commission, filed by the applicant, or filed by all other intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must serve copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as filing an original and 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of such comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents, and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents

filed by other parties or issued by the Commission, and will not have the right to seek rehearing or appeal the Commission's final order to a Federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the NGA and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Tennessee to appear or be represented at the hearing.

Linwood A. Watson, Jr.,

Acting Secretary.

[Docket No. RP99-297-000]

Tennessee Gas Pipeline Company; Notice of Final Reconciliation Report

June 16, 1999.

Take notice that on April 29, 1999, Tennessee Gas Pipeline Company (Tennessee), P.O. Box 2511, Houston, Texas 77252, in accordance with Article 1, Section 4 of the July 27, 1994 PGA Stipulation and Agreement (Stipulation) filed its Final Reconciliation Report for its Account No. 191. Tennessee also filed pro-forma tariff sheets to reflect proposed changes to its FERC Gas Tariff as a result of the final reconciliation and termination of Account No. 191. Tennessee submitted this filing as Docket Nos. RP93-147, RP94-201, RP94-175, RP91-203, RP92-132 (Phase III) and CP94-153 (Not Consolidated)—Final Account No. 191 Reconciliation Report.

Tennessee contends that the purpose of the filing is to report adjustments to
