SUPPLEMENTARY INFORMATION: Three federal actions underlie the proposed construction of a 20,000 seat outdoor amphitheatre in the southeastern portion of the Muckleshoot Indian Reservation, between the cities of Auburn and Enumclaw, King County, Washington. Two of these are Bureau of Indian Affairs (BIA) actions, the taking into trust of approximately 346 acres of Indian-owned fee lands within the exterior boundaries of the reservation and the approval of a management agreement, under 25 U.S.C. 81, between the Tribe and Bill Graham Presents (BGP), under which the Tribe would own and BGP would manage the facility. The third federal action is the issuance of a wetland fill permit, under section 404 of the Clean Water Act (33 U.S.C. 1251 *et seq.*), by the U.S. Army Corps of Engineers. The BIA, as lead agency, prepared the DEIS in cooperation with the Corps of Engineers, the U.S. Environmental Protection Agency and the Washington Department of Transportation (WSDOT). Cooperation with WSDOT enables them to use this DEIS to meet the requirements of the State of Washington's Environmental Policy Act.

The DEIS presents a preferred alternative, the no action alternative and three other action alternatives. The preferred alternative calls for developing approximately 73 acres for the 20,000 seat amphitheatre, support facilities and surface parking, plus 17 acres for landscaping and buffers, including a shielding berm along the southern boundary. The amphitheatre will consist of a main stage, 10,000 seat bowl with fixed seating, a grass berm for informal lawn seating and an open air roof over the stage and fixed seating. Support facilities will include a ticket and administrative office, a loading dock, a hospitality area for performers, a restaurant, cafes, concession stands and public rest rooms.
