Correction

The filing fee for applications for exempt wholesale generator status in § 381.801 of the Commission's regulations was incorrectly listed in the final rule updating filing fees issued on August 11, 1999. (64 FR 44,652 (Aug. 17, 1999)). The correct filing fee is \$1,530.

§ 381.801 [Corrected]

On page 44,653, in the third column, correct amendment 8 to § 381.801 by correcting "\$ 1,460" to read "\$ 1,530."

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Food and Drug Administration****21 CFR Part 177**

[Docket No. 89F-0338]

Indirect Food Additives: Polymers**AGENCY:** Food and Drug Administration, HHS.**ACTION:** Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of fumaric acid grafted onto certain olefin polymers, and maleic anhydride grafted onto ethylene-vinyl acetate copolymers for use in contact with food. This action is in response to a petition filed by E. I du Pont de Nemours and Co.

DATES: This regulation is effective August 30, 1999; submit written objections and requests for a hearing September 29, 1999. The Director of the Office of the **Federal Register** approves the incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51 of certain publications in § 177.1350 (b)(2), effective August 30, 1999.

ADDRESSES: Submit written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852.

FOR FURTHER INFORMATION CONTACT: Vir D. Anand, Center for Food Safety and Applied Nutrition (HFS-215), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-418-3081.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of August 31, 1989 (54 FR 36053), FDA announced that a food additive petition (FAP 9B4163) had been filed by E. I. du Pont de Nemours and Co., 1007 Market St., Wilmington, DE 19898 (presently, c/o Keller and Heckman, 1001 G St. NW., suite 500 West, Washington, DC 20001). The petition proposed to amend the food additive regulations in § 177.1350 *Ethylene-vinyl acetate copolymers* (21 CFR 177.1350) and § 177.1520 *Olefin polymers* (21 CFR 177.1520) to provide for the safe use of fumaric acid and maleic anhydride grafted onto certain olefin polymers and maleic anhydride grafted onto ethylene-vinyl acetate copolymers for use in contact with food. In a subsequent submission, the petitioner withdrew its request for the proposed use of maleic anhydride grafted onto olefin polymers. In this final rule the agency is, therefore, providing for the use of only fumaric acid grafted onto olefin polymers.

FDA has evaluated data in the petition and other relevant material. Based on this information, the agency concludes that the proposed use of the additives is safe, that the additives will achieve their intended technical effects, and therefore, that the regulations in §§ 177.1350 and 177.1520 should be amended as set forth in this document.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition by appointment with the information contact person listed previously. As provided in 21 CFR 171.1(h), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has determined under 21 CFR 25.31(i) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

Any person who will be adversely affected by this regulation may at any time on or before September 29, 1999 file with the Dockets Management Branch (address above) written objection thereto. Each objection shall
