SUPPLEMENTARY INFORMATION:

Collection Title: Employer Information Report (EEO-1).

OMB-Number: 0346-0007.

Frequency of Report: Annual.

Type of Respondent: Private employer with 100 or more employees and some federal government contractors and first-tier contractors with 50 or more employees.

Description of Affected Public: Private industry employers and businesses, private institutions and organizations, and farms.

Number of Responses: 170,000 (revised).

Reporting Hours: 402,700 (revised).

Number of Forms: 1.

Federal Cost: \$834,635.

Abstract: Section 709(c) of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-8(c), requires employers to make and keep records relevant to a determination of whether unlawful employment practices have or are being committed and to make reports therefrom as required by the EEOC. Accordingly, the EEOC has issued regulations which set forth the reporting requirements for various kinds of employers. Employers in the private sector with 100 or more employees and some federal contractors with 50 or more employees have been required to submit EEO-1 reports annually since 1966. The individual reports are confidential.

EEO-1 data are used by the EEOC to investigate charges of discrimination against employers in private industry. In addition, the data are used to support EEOC decisions and conciliations, and for research. The data are shared with the Office of Federal Contract Compliance Programs (OFCCP) in the U.S. Department of Labor, and several other federal agencies. Pursuant to section 709(d) of Title VII of the Civil Rights Act of 1964, as amended, EEO-1 data are also shared with 86 State and Local Fair Employment Practices Agencies (FEPAs).

Burden Statement: The estimated number of respondents included in the annual EEO-1 survey is 45,000 private employers. The estimated number of responses per respondent averages between 3 and 4 EEO-1 reports. The number of annual responses is approximately 170,000 hours and the

total annual burden is estimated to be 402,700 hours. This represents a reduction of 61,000 hours from the previous EEO-1 information collection request and is due to increased computerization. In order to help further reduce burden, respondents are encouraged to report data on electronic media such as magnetic tapes or interactive diskettes.

For the Commission.

Dated: October 4, 1999.

Ida L. Castro,

Chairwoman.
