Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared September 20, 1999 Through September 24, 1999 pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 10, 1999 (63 FR 17856).

Draft EISs

ERP No. D-AFS-J65311-MT Rating EC2, Good Creek Resource Management Project, Implementation, Vegetation Treatments and Other Activities to Restore Watershed, Flathead National Forest, Tally Lake Ranger District, Flathead County, MT.

Summary: EPA expressed environmental concerns regarding increased water yield, channel erosion, and water quality impacts. EPA recommended that the Forest Service pick and chose and combine treatment

methods and units from among alternatives to create a new modified preferred alternative to better optimize and balance resource and environmental trade offs. EPA requested additional information to help assess and mitigate potential impacts of the management actions.

ERP No. D-COE-E39050-FL Rating EC2, Herbert Hoover Dike Major Rehabilitation Evaluation Study, Improvements to the Breach of Reach One, Lake Okeechobee, FL.

Summary: EPA expressed concern regarding impacts to recreation/ infrastructure features, erosion control and loss of project effectiveness during heavy rain/or backpumping. EPA requested that these issues be addressed in the final document.

ERP No. D-FHW-E40779-NC Rating EO2, Fayetteville Outer Loop Corridor Study, Transportation Improvement Program (TIP) Cape Fear River, Cumberland, Hoke and Robeson Counties, NC.

Summary: EPA expressed objections due to substantial impacts to water/ wetland resources and social impacts (relocations, noise and community disruption). EPA is requesting further analysis of secondary project impacts, reconsideration of each interchange location and is requesting additional data on potential impacts to minority and low income neighborhood.

ERP No. DR-BIA-K61146-CA Rating EC2, Programmatic—Cabazon Resource Recovery Park Section 6 General Plan, Cabazon Indian Reservation, Implementation, Approval of Master Lease and NPDES Permit, the City of Mecca, Riverside County, CA.

Summary: EPA expressed environmental concerns regarding potential cumulative impacts associated with component facilities at the resource recovery park that may contaminate groundwater, emit hazardous air pollutants and/or generate hazardous waste. EPA requested a clear commitment that future site-specific facilities and projects raising these concerns are subject to subsequent environmental documentation under the National Environmental Policy Act.

ERP No. DS-IBR-K39045-CA Rating LO, Programmatic EIS—Central Valley Project Improvement Act (CVPIA) of 1992 Implementation, Additional Information for the Project Simulation Model (PROSIM) Hydrology, Central Valley, Trinity Contra Costa, Alameda, Santa Clara and San Benito Counties, CA.

Summary: Because of the limited scope of the Supplemental DPEIS and the good description of implications of the revised PROSIM analysis, we have

not identified any potential environmental impacts and have no objections to the revised PROSIM analysis. This lack of objections does not extend to the Environmental Concerns expressed on the broader DPEIS CVPIA which evaluated potential effects of various CVPIA Alternatives.

Final EISs

ERP No. F-BLM-J65298-CO Yankee Gulch Sodium Minerals Project, To Produce Sodium Products, Piceance Basin, Right-of-Way Permit and COE Section 404 Permit, Rio Blanch County, CO.

Summary: EPA continues to express concern regarding the need to protect ground water from spills and to ensure adequate reclamation bonding coverage.

ERP No. F-COE-K67041-CA Morrison Creek Mining Reach Downstream (South) of Jackson Highway, Mining and Reclamation Project, COE Section 404 Permit Issuance, Sacramento County, CA.

Summary: EPA continues to object to the preferred alternative since it has not been demonstrated that the preferred alternative is the least damaging practicable alternative. EPA believes that other alternatives would have fewer impacts on waters of the United States

ERP No. F-GSA-E11044-TN Volunteer Army Ammunition Plant, Disposal and Transfer Ownership of Property to Other Federal Agencies and Private Entities, City of Chattanooga's, Hamilton County, TN.

Summary: EPA continues to be concerned that all environmental impacts were not fully addressed. To this end, EPA looks forward to working with GSA in the future to help identify project-specific impacts and the avoidance, minimization and mitigation during the scoping and NEPA review process.

ERP No. F-NPS-A61319-00 Oregon, California, Mormon Pioneer and Pony Express National Historic Trails, Implementation, Comprehensive Management and Use Plan, OR, CA, MO, IA, IL, KS, NB, CO, WY, ID, WA, UT and NV.

Summary: EPA supports the preferred alternative.

Dated: October 5, 1999.

II. Meeting Information

A. What Will be Discussed at the Public Meeting?

The Agency notes in the Rodenticide Cluster Reregistration Eligibility Decision (RED) document that there are primary and secondary wildlife incidents involving rodenticides that the Agency would continue to evaluate before taking any further regulatory action. Since August 1998 the Agency has collected data and conducted further analysis. The Agency is initiating a one-day public meeting to discuss available data and to gather any further information regarding risks posed to birds and non-target mammals from rodenticides. Based on all available data, risk mitigation measures to protect birds and non-target mammals could be implemented in the amended RED this fall, if warranted.

The meeting will involve and potentially affect products with the following active ingredients: brodifacoum, bromadiolone, bromethalin, chlorophacinone, cholecalciferol, difethialone, diphacinone (and its sodium salt), pival (and its sodium salt), warfarin (and its sodium salt) and/or zinc phosphide.
