**FEDERAL COMMUNICATIONS COMMISSION**

**Notice of Public Information Collection(s) Submitted to OMB for Review and Approval**

November 26, 1999.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the

information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Written comments should be submitted on or before January 5, 2000. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all comments to Judy Boley, Federal Communications Commission, Room 1-C804, 445 12th Street, SW, Washington, DC 20554 or via the Internet to [jboley@fcc.gov](mailto:jboley@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collection(s), contact Judy Boley at 202-418-0214 or via the Internet at [jboley@fcc.gov](mailto:jboley@fcc.gov).

**SUPPLEMENTARY INFORMATION:**

*OMB Control No.:* 3060-0106.

*Title:* Section 43.61—Reports of

Overseas Telecommunications Traffic.

*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit.

*Number of Respondents:* 400 respondents; 440 total annual responses.  
*Estimated Time Per Response:* 48 hours.

*Frequency of Response:* Quarterly and annual reporting requirements.

*Total Annual Burden:* 21,070 hours.

*Total Annual Cost:* \$377,000.

*Needs and Uses:* The telecommunications traffic data report is an annual reporting requirement imposed on common carriers engaged in the provision of overseas telecommunications services. The reported data is useful for international planning, facility authorization, monitoring emerging developments in communications services, analyzing market structures, tracking the balance of payments in international communications services, and market analysis purposes. Subject carriers are required to submit their annual reports no later than July 31 of each year for the preceding period of January through December. A revised report must be submitted for inaccuracies exceeding five percent of the reported figure by October 31 pursuant to Section 43.61(a)(2).

The Commission and industry members use the data in the facilities

planning and facilities authorization process to estimate traffic and market trends in various regions of the world. Also, the data is used to monitor the development and competitiveness of U.S. international product and geographic markets and to gauge the competitive impact of Commission decisions on these markets. Additionally, the data assists the Commission in tracking the growth in net settlement payments to foreign carriers. It also provides the Commission with information necessary to identify those routes for which settlement rates are at a level low enough to permit relief from certain regulatory requirements, including the prohibition of the use of private lines for the provision of switched, basic services (also referred to as "ISR"). The Commission additionally relies on the annual and quarterly reports to monitor for traffic and revenue distortions on particular routes. These distortions may result from one-way bypass of the Commission's international settlement policy on these routes, which can increase U.S. carrier net settlement payments to their foreign correspondents.

**SUPPLEMENTARY INFORMATION:**

*OMB Control No.:* 3060-0161.  
*Title:* Section 73.61, AM Directional Antenna Field Strength Measurements.  
*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit.

*Number of Respondents:* 1,890.  
*Estimated Time Per Response:* 4 hours.

*Frequency of Response:* Recordkeeping requirement.

*Total Annual Burden:* 36,020 hours.  
*Total Annual Cost:* 0.

*Needs and Uses:* Section 73.61 requires that each AM station using directional antennas make field strength measurements as often as necessary to insure proper directional antenna system operation. Stations not having approved sampling systems make field strength measurements every three months. Stations with approved sampling systems must make field strength measurements as often as necessary. Also, all AM stations using directional antennas must make partial proofs of performance as often as necessary.

The data is used by FCC staff in field inspections/investigations and by AM licensees with directional antennas to ensure that adequate interference protection is maintained between stations and to ensure that such experimentation will not cause interference to other stations.

*OMB Control No.:* 3060-0212.

*Title:* Section 73.2080, Equal Employment Opportunity Program.

*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit, not-for-profit institutions.

*Number of Respondents:* 16,251.

*Estimated Time Per Response:* 52 hours per year.

*Frequency of Response:* Recordkeeping requirement.

*Total Annual Burden:* 845,052 hours.

*Total Annual Cost:* 0.

*Needs and Uses:* Section 73.2080 provides that equal opportunity in employment shall be afforded by all broadcast stations to all qualified persons and no person shall be discriminated against in employment by such stations because of race, color, religion, national origin, or sex.

Section 73.2080 requires that each broadcast station shall establish, maintain, and carry out a program to assure equal opportunity in every aspect of a broadcast station's policy and practice. This section incorporates specific EEO program requirements and general guidelines for meeting those requirements. These guidelines are not intended to be either exclusive or inclusive but simply to provide guidance. This program will provide an appropriate and effective means of informing broadcasters, individuals employed or seeking employment by broadcast stations of its EEO requirements.

The Commission has suspended the enforcement of Section 73.2080(b) and (c) due to the decision in *Lutheran Church—Missouri Synod v. FCC*, wherein the Court of Appeals held that the EEO program requirements of this section were unconstitutional. The enforcement of these requirements is suspended until the Commission revises the EEO rules to be consistent with the Court of Appeals *Lutheran Church* decision. The Commission will make such adjustments to the rule as necessary to conform to the *Lutheran Church* decision consistent with the record in the rulemaking. Until such times the Commission reaches a decision in the outstanding Notice of Proposed Rulemaking (NPRM) concerning the Court of Appeals *Lutheran Church* decision, Section 73.2080 needs to retain its current OMB control number. We note that Section 73.2080(a) remains in effect.

The data will be used by a broadcast licensee in the preparation of the stations' Broadcast Annual Employment Report (FCC Form 395-B) that is submitted annually and the station's EEO Program (FCC Form 396) submitted with the license renewal application. If this information were not maintained,

there could be no assurance that licensees are complying with the EEO rule.

The Commission has suspended the filing of these forms until such time as the Commission reaches a decision in the outstanding NPRM.
