SUPPLEMENTARY INFORMATION: The Salton Sea is an artificially maintained inland body of water located in the southeastern corner of California, southeast of Palm Springs, and spans Riverside and Imperial counties. Scientific, environmental, and engineering studies have been conducted for the SSRP to address environmental issues that have arisen since the creation of the sea. Five project alternatives have been developed to address project goals. The DEIS/DEIR describes and presents the environmental effects of the five alternatives as well as the No Action Alternative.

Requests To Testify: Those wishing to request, in advance, a time to make comments at the hearings prior to the hearing dates should write or call Ms. Nadine Mupas, Salton Sea Authority, 78–401 Highway 111, Suite T, La Quinta, CA 92253, telephone: (760) 564–4888. Requests to speak may also be made at each session; those requesters will be called to speak after the advance requests.

Oral comments will be limited to 5 minutes per individual. The meeting facilitator will allow any speaker to provide additional oral comments after all persons wishing to comment have been heard.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–863 (Preliminary)]

Citric Acid and Sodium Citrate From China

Determination

On the basis of the record developed in the subject investigation, the United States International Trade Commission determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. §1673(a)), that there is no reasonable indication that an industry in the United States is threatened with material injury, or that the establishment of an industry in the United States is materially retarded, by reason of imports from China of citric acid and sodium citrate, provided for in subheadings 2918.1400 and 2918.1510 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Background

On December 15, 1999, a petition was filed with the Commission and the Department of Commerce by Archer Daniels Midland Co., Decatur, IL; Cargill, Inc., Naperville, IL; and Tate & Lyle Citric Acid, Inc., Decatur, IL, alleging that an industry in the United States is threatened with material injury by reason of LTFV imports of citric acid and sodium citrate from China. Accordingly, effective December 15, 1999, the Commission instituted antidumping duty investigation No. 731–TA–863 (Preliminary).

Notice of the institution of the Commission’s investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC,
