

Effects of the Rule

This action results in the removal of the Dismal Swamp southeastern shrew from the List of Endangered and Threatened Wildlife. Federal agencies are no longer required to consult with us to insure that any action they authorize, fund, or carry out is not likely to jeopardize the continued existence of this species. There is no designated critical habitat for this species. Federal restrictions on taking no longer apply. The 1988 amendments to the Act require that all species that have been delisted due to recovery be monitored for at least 5 years following delisting. The Dismal Swamp southeastern shrew is being delisted due to new information. Therefore we do not intend to monitor the species. We believe that sufficient habitat will remain over the long term to allow for the continued viability of this species. Within the Refuge and the Great Dismal Swamp State Park in North Carolina, management will continue to focus on restoring the hydrological regime to as close to historical conditions as possible, and efforts are being made to restore or maintain the habitat mosaic through forestry practices, all of which will benefit the shrew.

Paperwork Reduction Act

Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act, require that Federal agencies obtain approval from OMB before collecting information from the public. Implementation of this rule will not involve any information collection requiring OMB approval under the Paperwork Reduction Act.

National Environmental Policy Act

We have determined that we do not need to prepare an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, in connection with regulations adopted pursuant to section 4(a) of the Act. We published a notice outlining our reasons for this determination in the **Federal Register** on October 25, 1983 (48 FR 49244).

Executive Order 12866

This rule is not subject to review by the OMB under Executive Order 12866.

Regulation Promulgation

Accordingly, we amend part 17, subchapter B of chapter 1, title 50 Code of Federal Regulations, as follows:

PART 17—[AMENDED]

1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 16 U.S.C. 1531–1544; 16 U.S.C. 4201–4245; Pub. L. 99–625, 100 Stat. 3500; unless otherwise noted.

§ 17.11 [Amended]

2. Section 17.11(h) is amended by removing the entry for “Shrew, Dismal Swamp southeastern, *Sorex longirostris fisheri*” under “MAMMALS” from the List of Endangered and Threatened Wildlife.

Dated: January 18, 2000.

Jamie Rappaport Clark,

Director, Fish and Wildlife Service.

BILLING CODE 4310–55–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 00119015–0015–01; I.D. 022200C]

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock by Vessels Not Participating in Cooperatives that are Catching Pollock for Processing by the Inshore Component in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock by vessels not participating in cooperatives that are catching pollock for processing by the inshore component in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary because the interim A/B season allocation of pollock total

allowable catch (TAC) specified for vessels not participating in cooperatives that are catching pollock for processing by the inshore component in the Bering Sea subarea of the BSAI will be reached.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), February 22, 2000, until 1200 hrs, A.l.t., June 10, 2000.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

In accordance with § 679.20(a)(5)(i)(D)(3) and the 2000 TAC amounts for pollock in the Bering Sea subarea (65 FR 4220, January 28, 2000), the A/B season allocation of pollock TAC specified to the vessels not participating in cooperatives catching pollock for processing by the inshore component in the Bering Sea subarea is 11,968 metric tons.

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the A/B season allocation of pollock TAC specified to the vessels not participating in cooperatives that are catching pollock for processing by the inshore component in the Bering Sea subarea will be reached. Therefore, the Regional Administrator is establishing the A/B season allocation of pollock TAC as the directed fishing allowance (§ 679.20(a)(5)(i)(D)(2)). In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance soon will be reached. Consequently, NMFS is prohibiting directed fishing for pollock by vessels not participating in cooperatives that are catching pollock for processing by the inshore component in the Bering Sea subarea.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately in order to prevent exceeding the A/B season

allocation of pollock TAC specified to the vessels not participating in cooperatives catching pollock for processing by the inshore component in the Bering Sea subarea. A delay in the effective date is impracticable and contrary to the public interest. Further delay would only result in overharvest. NMFS finds for good cause that the implementation of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.22 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 22, 2000.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

50 CFR Part 679

[Docket No. 991228352-0012-02; I.D. 022200D]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod in Western and Central Regulatory Area in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Modification of a closure.

SUMMARY: NMFS is opening directed fishing for Pacific cod by catcher vessels

that are non-exempt under the American Fisheries Act (AFA) in the Western and Central Regulatory Areas of the Gulf of Alaska (GOA). This action is necessary to allow non-exempt catcher vessels to participate in the Pacific cod fishery in these areas consistent with regulations implementing the AFA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), February 23, 2000.

FOR FURTHER INFORMATION CONTACT: Andrew Smoker, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The amount of the 2000 GOA AFA catcher vessel sideboard in the Western and Central Regulatory Areas was established by the Emergency Interim Rule to Implement Major Provisions of the American Fisheries Act (65 FR 4520, January 28, 2000) as 1,945 metric tons (mt) and 1,330 mt respectively in accordance with § 679.20(c)(2)(i).

The Administrator, Alaska Region, NMFS (Regional Administrator), has established a Pacific cod directed fishing allowance of 1,745 mt, and set aside the remaining 200 mt as bycatch to support other anticipated groundfish fisheries for this component of the fishery in the Western Regulatory Area. He also has established a directed fishing allowance of 1,130 mt, and set aside the remaining 200 mt as bycatch to support other anticipated groundfish fisheries for this component of the

fishery in the Central Regulatory Area. These areas of the GOA were closed to directed fishing for Pacific cod by non-exempt AFA vessels on January 21, 2000 (65 FR 4520, January 28, 2000).

NMFS has determined that as of February 18, 2000, 1,745 mt remain in the directed fishing allowance for the Western Regulatory Area and 1,130 mt remain in the directed fishing allowance for the Central Regulatory Area. Therefore, NMFS is terminating the previous closure and is opening directed fishing for Pacific cod by catcher vessels that are non-exempt under the AFA in the Western and Central Regulatory Area of the GOA.

Classification

All other closures remain in full force and effect. This action responds to the best available information recently obtained from the fishery. It must be implemented immediately in order to allow participation of catcher vessels that are non-exempt under the AFA. Providing prior notice and opportunity for public comment for this action is impracticable and contrary to the public interest. NMFS finds for good cause that the implementation of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 22, 2000.
