To value truck freight, we used the rates reported in a September 1991 cable from the U.S. Consulate in Indonesia submitted for the Final Determination of Sales at Less Than Fair Value: Certain Carbon Steel Butt-Weld Pipe Fittings from the People’s Republic of China, 58 FR 47859 (Sep. 20, 1993), which was placed on the record of this review. We adjusted these rates to reflect inflation through the end of the POR using Indonesian WPI published by the IMF.

Currency Conversion
We made currency conversions in accordance with section 773A of the Act based on the rates certified by the Federal Reserve Bank.

Preliminary Results of Review
We preliminarily determine that the following dumping margins exist:

Parties to the proceeding may request disclosure within 10 days of the date of publication of this notice in accordance with 19 CFR 351.224(b). Any interested party may request a hearing within 30 days of publication in accordance with 19 CFR 351.310(c). Any hearing, if requested, will be held 37 days after the publication of this notice, or the first workday thereafter. Interested parties may submit case briefs within 30 days of the date of publication of this notice in accordance with 19 CFR 351.309(b)(2)(ii). Rebuttal briefs, which must be limited to issues raised in the case briefs, may be filed not later than 35 days after the date of publication. The Department will publish a notice of final results of this administrative review, which will include the results of its analysis of issues raised in any such comments.

The Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b), we calculated importer-specific duty assessment rates based on the ratio of the total amount of antidumping duties calculated for the examined sales to quantity of the sales used to calculate those duties. This rate will be assessed uniformly on all entries of that particular importer for that class or kind of merchandise made during the POR. The Department will issue appraisement instructions directly to the U.S. Customs Service.

Furthermore, the following deposit rate will be effective upon publication of the final results of this administrative review for all shipments of paintbrushes from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for the reviewed firms will be the rates established in the final results of this review except that no deposit will be required for firms with de minimis margins, i.e., margins less than 0.5 percent; (2) for previously-reviewed PRC and non-PRC exporters with separate rates, the cash deposit rate will be the company-specific rate established for the most recent period; (3) for all other PRC exporters, the rate will be the PRC-wide rate, which is 351.92 percent; and (4) for all other non-PRC exporters of subject merchandise from the PRC, the cash deposit rate will be the rate applicable to the PRC supplier of that exporter.

These deposit rates, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1677a(1)) and 19 CFR 351.213 and 351.221.

Joseph A. Spetrini,
Acting Assistant Secretary for Import Administration.
