

questionnaire (OMB 0923-0016) to get readers' opinions and evaluations. The survey will be inserted and mailed in each public health assessment. In addition, electronic surveys will be sent to clients and partners requesting ATSDR health consultations and exposure investigations within one month following delivery of product or

service. The survey collects information on (a) affiliation of users, (b) timeliness and effectiveness of these products, and (c) practical utility of these products.

The reader evaluation surveys provide important feedback that enables ATSDR staff to maintain the utility, integrity and standards of its products. Gathering client feedback ensures that appropriate

information is included in these documents and assists in maintaining medical and scientific usefulness. The information will be used to maintain customer satisfaction with these products. There is no cost to respondents.

The estimate annual burden is 172 hours.

Respondents	Number of respondents	Responses per respondent	Avg. burden response (in hrs.)	Total burden (in hrs.)
ATSDR clients and partners	300	1	0.25	75
Librarians	180	1	0.12	22
Individuals completing questionnaires	200	1	0.25	50
Individuals who received but did not complete questionnaires	100	1	0.25	25

Dated: October 30, 2000.

Kathy Cahill,

Associate Director for Policy, Planning, and Evaluation, Centers for Disease Control and Prevention (CDC).

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of

information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-7090. Send written comments to CDC, Desk Officer; Human Resources and Housing Branch, New Executive Office Building, Room 10235; Washington, DC 20503. Written comments should be received within 30 days of this notice.

Proposed Project

Jail STD Prevalence Monitoring System—New—National Center for HIV, STD, and TB Prevention (NCHSTP)

Proposes a 3-year clearance for data collection of the standardized record

layout for the Jail STD Prevalence Monitoring System. This system consists of test data compiled for persons entering corrections facilities. The standard data elements were created in response to the need to systematically assess morbidity in persons entering corrections facilities who are at high risk for STDs and who often do not seek medical care in mainstream medical settings.

Use of these standard data elements will improve surveillance of STDs by allowing for systematic assessment of a high risk population, taking advantage of already computerized data. States that compile data from corrections facilities are encouraged to participate in the system. The estimated annualized burden is 1248 hours.

Respondents	Number of respondents	Average Number of forms/ respondent	Number of responses/ respondent	Average burden/response (in hrs.)
State/local health departments	65	16	1	1.2

Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: Case Plan Section 422,471(a)(16), 475(5)(A) of the Social Security Act.

OMB No.: 0980-0140.

Description: Under section 471(a)(16) of title IV-E of the Social Security Act (the Act), in order for States to be eligible for payments they must have an approved State plan which provides for the development of a case plan (as defined in section 475(1)) for each child receiving foster care maintenance payments, and provides a case review system which meets the requirements in section 475(5) and 475(6). Through the meeting of these requirements, the State also complies, in part, with title IV-B, section 422(b)(10) of the Act (as of 4/1/96), which assures certain protections for children in foster care.

Respondents: State governments.
