Title: Universal Service—Health Care Providers Universal Service Program.

Form No.: FCC Forms 465, 466, 466-A, 467, and 468.

Estimated Annual Burden: 5255

respondents; 1.85 hours per response (avg.); 9755 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; third party disclosure.

Description: The Telecommunications Act of 1996 (1996 Act) directed the Commission to initiate a rulemaking reform to our system of universal service so that universal service is preserved and advanced as markets move toward competition. On May 8, 1997, the Commission adopted rules providing, among other things, that rural health care providers receive access to advanced telecommunications services at rates that are reasonably comparable to those available in urban areas. All rural health care providers planning to order eligible telecommunications services at discounted rates under the universal service program must file the following forms: FCC Form 465, Description of Service Requested & Certification. Rural health care providers ordering discounted telecommunications services under the universal service program must submit FCC Form 465, Description of Service Requested and Certification to the Administrator. Rural health care providers must certify their eligibility to receive discounted telecommunications services. 47 CFR 54.615(c). The Administrator will then post a description of the services sought on a website for all potential competing service providers to see and respond to as if they were requests for proposals (RFPs). (No. of respondents: 1200; hours per response: 2.5 hours; total annual burden: 3000 hours). b. FCC Form 466, Funding Request and Certification. Rural health care providers that have ordered telecommunications under the universal service discount program must file FCC Form 466, Funding Request and Certification Form, with the Administrator. The data reported will be used to ensure that health care providers have selected the most cost-effective method of providing the requested services. 47 CFR 54.603(b)(4). (No. of respondents: 1350; hours per response: 2 hours; total annual burden: 2700 hours). c. FCC Form 466-A, Internet Toll Charge Discount Request.

If a rural health care provider is only seeking support for toll charges to access the Internet, it must submit Form 466-A. (No. of respondents: 5; hours per response: 1 hour; total annual burden: 5 hours). d. FCC Form 467, Connection Certification. Rural health care providers participating in the universal service support mechanism must submit Form 467 to inform the Administrator that they have begun to receive, or have stopped receiving, the telecommunications services for which universal service support has been allocated. The data reported will be used to ensure that universal service support is distributed to telecommunications carriers serving eligible health care providers pursuant to 47 CFR 54.611. (No. of respondents: 1350; hours per response: 1.5 hours; total annual burden: 2025 hours). e. FCC Form 468, Telecommunications Carrier Form. Rural health care providers ordering telecommunications services under the universal service support mechanism must submit FCC Form 468, Telecommunications Carrier Form to the Administrator. The data reported will be used to ensure that the telecommunications carrier receives the appropriate amount of credit for providing telecommunications services to eligible health care providers. 47 CFR 54.605-611. (No. of respondents: 1350; hours per response: 1.5 hours; total annual burden: 2025 hours). Obligation to respond: Required to obtain or retain benefits.

OMB Control No.: 3060-0292.

Title: Part 69—Access Charges.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 5832 respondents; 4.74 hours per response (avg.); 27,702 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; monthly; annually; biennially.

Description: Part 69 of the Commission's rules and regulations establishes the rules for access charges for interstate or foreign access provided by telephone companies on or after January 1, 1984. Part 69 essentially consists of rules or the procedures for the computation of access charges. (a) Section 69.3 requires the biennial or annual submission of access charge tariffs. (b) Section 69.116(c) and 69.117(c) require local exchange carriers to file information with NECA semi-annually pertaining to the number of lines in their study areas and the interexchange carriers to which such

lines are presubscribed. This information will be used by NECA to assess revenue requirements needed to fund the Universal Service Fund and Lifeline Assistance programs. (c) Section 69.104(k)(1) requires that a state or local telephone company wishing to implement an end user common line reduction or waiver for its subscribers file information with the Commission demonstrating that its state lifeline assistance plan meets certain criteria. This is a one-time filing requirement which is effective until December 31, 1997. (d) Section 69.104(l) requires local telephone carriers to calculate for NECA their projected revenue requirements for the lifeline assistance program until December 31, 1997. (e) Section 69.605 requires carriers who are participating in the pool to report access revenues and cost data so that NECA may compute monthly pool revenues distributions. The information is used to compute charges in tariffs for access service (or origination and termination) and to compute revenue pool distributions. Neither process could be implemented without the information. Obligation to respond: Required to obtain or retain benefits.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Description: In CC Docket No. 98-147, the Commission solicited comment on whether requesting carriers should receive demographic and other information from incumbent local exchange carriers (ILECs) to determine whether they wish to collocate at particular remote terminations. In CC Docket No. 98-96, comment was sought on whether ILECs should provide certain notifications to completing carriers. If adopted, the proposed requirements will implement section 706 of the Communications Act of 1934, as amended, to promote deployment of advanced services without significantly degrading the performance of other services. Obligation to respond: Mandatory.
