

furnishing system, cease to be eligible for tax-exempt treatment. SDG&E has advised the ISO that SDG&E local furnishing debt currently includes approximately \$168 million relating to its transmission facilities and \$518 million relating to its distribution facilities.

SDG&E has requested a ruling from the IRS that neither the execution and implementation of the Transmission Control Agreement nor the implementation, on January 1, 2001, of a state-wide transmission Access Charge under tariffs accepted for filing in Docket No. ER00-2019 conflicts with the local furnishing requirements. To assure, however, that, if a favorable ruling on either request is not forthcoming, at least the \$518 million in bonds relating to SDG&E distribution system will remain tax-exempt, the application seeks an order, effective with the effective date of the Transmission Control Agreement, directing SDG&E to perform the stated transmission services. Anticipating that a statewide transmission Access Charge will take effect on January 1, 2001, the application requests that such an order issue prior to that date. SDG&E waives its right to a prior request and to a proposed order.

The ISO states that this filing has been served upon SDG&E, the Public Utilities Commission of the State of California, and the California Electricity Oversight Board.

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before December 15, 2000. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.
