

**SUPPLEMENTARY INFORMATION:** On June 14, 2000, notice was published in the **Federal Register** (65 FR 37361) that an amendment of Permit No. 909-1465-00, issued September 17, 1999 (64 FR 50494), had been requested by the above-named person. The requested amendment has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act (ESA) of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the Regulations Governing the Taking, Importing, and Exporting of Endangered Fish and Wildlife (50 CFR part 222).

The amendment authorizes the extension of the study for sperm whales only to waters of the Caribbean Sea and mid-western Atlantic with an increase in takes of 250 individuals by biopsy and 750 individuals by incidental harassment over the course of the permit. The amendment also allows for biopsy sampling of female sperm whales with calves present as long as calves are longer than 4.5 meters in length.

Issuance of this permit amendment, as required by the ESA, was based on a finding that such permit amendment (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit amendment, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

**BILLING CODE 3510-DR-F**

**CONSUMER PRODUCT SAFETY COMMISSION**

**Notification of Request for Reinstatement of Approval of Information Collection Requirements—Cellulose Insulation**

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice.

**SUMMARY:** In the **Federal Register** of August 15, 2000 (65 FR 49788), The Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) to announce the agency's intention to seek extension of approval of the collection of information in regulations implementing the Amended Interim Safety Standard for Cellulose Insulation (16 CFR Part 1209). One comment, discussed below, was received from the North American Insulation Manufacturers Association (NAIMA). The Commission now announces that it has submitted to the Office of Management and Budget a request for reinstatement of approval of that collection of information without change for a period of three years from the date of approval.

The cellulose insulation standard prescribes requirements for flammability and corrosiveness of cellulose insulation produced for sale to or use by consumers. The standard requires manufacturers and importers of cellulose insulation to test insulation for resistance to smoldering and small open-flame ignition, and for corrosiveness, and to maintain records of that testing.
