DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Permit Application and Safe Harbor Agreement Between the Fish and Wildlife Service and Caroline H. Paterson and Thomas W. Paterson

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and 30-day public comment period.

SUMMARY: Caroline H. and Thomas W. Paterson (Applicants) have applied to the U.S. Fish and Wildlife Service (Service) for an incidental take permit pursuant to Section 10(a)(1)(A) of the Endangered Species Act (Act). The Applicants have been assigned permit number TE–035920–0. The requested permit, which is for a period of 30 years, would authorize the take of the following species: endangered southwestern willow flycatcher and Mexican gray wolf; threatened bald eagle, Mexican spotted owl, and loach minnow. The proposed take could occur as a result of conservation measures implemented on Spur Ranch, consisting of riparian restoration activities along Centerfire Creek, including planting native vegetation; grade control structures in Centerfire Creek to control erosion and downcutting; and upland management activities designed to improve overall habitat health, including prescribed burning, selective timber harvesting, and controlled grazing. Currently, none of the species mentioned above are known to occur on the property. The Applicants in cooperation with the Service have prepared the Safe Harbor Agreement (SHA) to provide a conservation benefit to the species and allow for the take of these species. Based upon guidance in the Service’s June 17, 1999, Final Safe Harbor Policy, if a SHA and associated permit are not expected to individually or cumulatively have a significant impact on the quality of the human environment or other natural resources, the Agreement/permit may be categorically excluded from undergoing National Environmental Policy Act review. The Spur Ranch SHA qualifies as a “Low Effect” SHA, thus, this action is a categorical exclusion. The “Low Effect” determination for the Spur...
