Executive Order 12866

This rule has been determined to be significant and was reviewed by the Office of Management and Budget (OMB) under Executive Order 12866. Pursuant to Sec. 6(a)(3) of Executive Order 12866, NRCS conducted an economic analysis of the potential impacts associated with this proposed rule. Regulatory Flexibility Act

Therefore, the Regulatory Flexibility Act is not applicable to this proposed rule. The Department of Agriculture (USDA) is not required by 5 U.S.C. 553 or any other provisions of law to publish a notice of proposed rulemaking with respect to the subject matter of this rule.

National Environmental Policy Act

The Conservation of Private Grazing Land (CPGL) program does not consist of financial assistance nor does it provide NRCS with the authority or opportunity to control the actions of private landowners and managers. The CPGL program provides NRCS with the authority to make recommendations to landowners and managers about techniques to improve the quality of their grazing lands. The landowners and managers are responsible for determining which actions to take. There is no specific Federal action that would affect the human environment; therefore, there is no basis on which to conduct a meaningful analysis of environmental effects. In addition, neither the CPGL Program, nor this regulation, result in any irretrievable commitment of resources.

Paperwork Reduction Act

No substantive changes have been made to this rule which will affect the record-keeping requirements and estimated burdens previously reviewed and approved under OMB control number 0578-0013.

Unfunded Mandates Reform Act of 1995
