*Estimated Annual Reporting and Recordkeeping "Non-hour" Burden:* We have identified no "non-hour cost" burden.

*Comments:* Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency " \* \* \* to provide notice \* \* \* and otherwise consult with members of the public and affected agencies concerning each proposed collection of information \* \* \*." Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on April 6, 2001, we published a **Federal Register** notice (66 FR 18297) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. We received one comment. We have responded to the comment in our ICR submission for OMB approval. We have posted a copy of the ICR at our Internet web site [http://www.mrm.mms.gov/Laws\\_R\\_D/FRNotices/FRInfColl.htm](http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm). We will also provide a copy of the ICR to you without charge upon request.

If you wish to comment in response to this notice, send your comments directly to the offices listed under the **ADDRESSES** section of this notice. OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by September 10, 2001. The PRA provides that an agency

may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

*Public Comment Policy:* We will post all comments received in response to this notice on our Internet web site at [http://www.mrm.mms.gov/Laws\\_R\\_D/InfoColl/InfoColCom.htm](http://www.mrm.mms.gov/Laws_R_D/InfoColl/InfoColCom.htm) for public review. We also make copies of these comments, including names and addresses of respondents, available for public review during regular business hours at our offices in Lakewood, Colorado.

Individual respondents may request that we withhold their home address from the public record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the public record a respondent's identity, as allowable by law. If you request that we withhold your name and/or address, state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

**DEPARTMENT OF JUSTICE****Antitrust Division****Notice Pursuant to the National Cooperative Research and Production Act of 1993—Aerospace Vehicle Systems Institute (“AVSI”) Cooperative**

Notice is hereby given that, on June 18, 2001, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), Aerospace Vehicle Systems Institute (“AVSI”) Cooperative has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership and project status. The notifications were filed for the purpose of extending the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, TRW Ltd., Shirley, West Midlands, United Kingdom, acting through its TRW Aeronautical Systems division, Solihull, United Kingdom has been added as a party to this venture. Additionally, the AVSI Cooperative intends to undertake the following joint research projects:

“No Fault Found and Maintenance Costs”—To combine avionics component in-service information from systems suppliers, OEMs and airline operators to develop a better understanding of No Fault Found in LRU maintenance operations to improve system/LRU diagnostic and maintenance practices. This data will be used with a standard life cycle cost prediction tool to study how design changes can improve product reliability.

“LRU Reliability Differences Between Business, Commercial & Cargo Jets”—to investigate the in-service performance of selected airplane systems components in diverse operational situations to better understand how varied operational conditions can cause performance degradation or excessive maintenance.

“Wireless Communications for Aircraft Systems”—to develop and validate an analytical/simulation model to predict the performance of wireless communications within the environment of a generic airplane to assess the viability of wireless communication technology to inter link essential or critical aircraft systems.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and the AVSI

Cooperative intends to file additional written notification disclosing all changes in membership.

On November 18, 1998, the AVSI Cooperative filed its original notifications pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on February 18, 1999 (64 FR 8123).

The last notification was filed with the Department on November 7, 2000. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on March 2, 2001 (66 FR 13080).
