

performed by the DOE's Central Characterization Project (CCP) staff at the Argonne National Laboratory-East (ANL-E) in accordance with Condition 3 of the WIPP certification. We will evaluate the adequacy, implementation, and effectiveness of the CCP technical activities contracted by the ANL-E for characterization of the disposal of retrievably-stored debris waste at the WIPP. The overall program adequacy and effectiveness of CCP/ANL-E documents will be based on the following DOE-provided documents: (1) CCP-PO-001—Revision 4, 5/31/02—CCP Transuranic Waste Characterization Quality Assurance Project Plan and (2) CCP-PO-002—Revision 4, 5/17/02—CCP Transuranic Waste Certification Plan. EPA has placed these DOE-provided documents pertinent to the ANL-E inspection in the public docket described in **ADDRESSES**. The documents are included in item II-A2-40 in Docket A-98-49. In accordance with 40 CFR 194.8, EPA is providing the public 30 days to comment on these documents. The inspection is scheduled to take place the week of September 9, 2002.

EPA will inspect the following technical elements for characterizing retrievably-stored TRU debris and solid waste: data validation and verification, acceptable knowledge, nondestructive assay (NDA-WIT and APNEA), Digital Radiography/Computed Tomography, visual examination, and data tracking and reporting via the WIPP Waste Information System.

If EPA determines as a result of the inspection that the proposed CCP waste characterization processes and programs used at ANL-E adequately control the characterization of transuranic waste, we will notify DOE by letter and place the letter in the official Air Docket in Washington, DC, as well as in the informational docket locations in New Mexico. A letter of approval will allow DOE to ship transuranic waste from ANL-E to the WIPP. The EPA will not make a determination of compliance prior to the inspection or before the 30-day comment period has closed.

Information on the certification decision is filed in the official EPA Air Docket, Docket No. A-93-02 and is available for review in Washington, DC, and at three EPA WIPP informational docket locations in New Mexico. The dockets in New Mexico contain only major items from the official Air Docket in Washington, DC, plus those documents added to the official Air Docket since the October 1992 enactment of the WIPP LWA.

Dated: August 9, 2002.

Robert Brenner,

Acting Assistant Administrator for Air and Radiation.

Waste Characterization Program Documents Applicable to Transuranic Radioactive Waste From the Los Alamos National Laboratory for Disposal at the Waste Isolation Pilot Plant

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability; opening of public comment period.

SUMMARY: The Environmental Protection Agency (EPA) is announcing the availability of, and soliciting public comments for 30 days on, Department of Energy (DOE) documents applicable to characterization of transuranic (TRU) radioactive waste at the Los Alamos National Laboratory (LANL) proposed for disposal at the Waste Isolation Pilot Plant (WIPP). The documents (Item II-A2-41, Docket A-98-49) are available for review in the public dockets listed in **ADDRESSES**. EPA will conduct an inspection of waste characterization systems and processes at LANL to verify that the site can characterize transuranic waste in accordance with EPA's WIPP compliance criteria. EPA will perform this inspection the week of August 26, 2002.

DATES: EPA is requesting public comment on the documents. Comments must be received by EPA's official Air Docket on or before September 16, 2002.

ADDRESSES: Comments should be submitted to: EPA Docket Center (EPA/DC), Air and Radiation Docket, Docket No. A-98-49, EPA West, Mail Code 6102T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460. The DOE documents are available for review in the official EPA Air Docket in Washington, DC, Docket No. A-98-49, Category II-A2, and at the following three EPA WIPP informational docket locations in New Mexico: in Carlsbad at the Municipal Library, Hours: Monday-Thursday, 10 am-9 pm, Friday-Saturday, 10 am-6 pm, and Sunday 1 pm-5 pm; in Albuquerque at the Government Publications Department, Zimmerman Library, University of New Mexico, Hours: vary by semester; and in Santa

Fe at the New Mexico State Library, Hours: Monday-Friday, 9 am-5 pm.

As provided in EPA's regulations at 40 CFR part 2, and in accordance with normal EPA docket procedures, if copies of any docket materials are requested, a reasonable fee may be charged for photocopying. Air Docket A-98-49 in Washington, DC, accepts comments sent electronically or by fax (fax: 202-566-1741; e-mail: a-and-r-docket@epa.gov).

FOR FURTHER INFORMATION CONTACT: Mr. Ed Feltcorn, Office of Radiation and Indoor Air, (202) 564-9422. You can also call EPA's toll-free WIPP Information Line, 1-800-331-WIPP or visit our Website at <http://www.epa.gov/radiation/wipp>.

SUPPLEMENTARY INFORMATION:

Background

DOE is developing the WIPP near Carlsbad in southeastern New Mexico as a deep geologic repository for disposal of TRU radioactive waste. As defined by the WIPP Land Withdrawal Act (LWA) of 1992 (Public Law 102-579), as amended (Public Law 104-201), TRU waste consists of materials containing elements having atomic numbers greater than 92 (with half-lives greater than twenty years), in concentrations greater than 100 nanocuries of alpha-emitting TRU isotopes per gram of waste. Much of the existing TRU waste consists of items contaminated during the production of nuclear weapons, such as rags, equipment, tools, and sludges.

On May 13, 1998, EPA announced its final compliance certification decision to the Secretary of Energy (published May 18, 1998, 63 FR 27354). This decision stated that the WIPP will comply with EPA's radioactive waste disposal regulations at 40 CFR part 191, subparts B and C.

The final WIPP certification decision includes conditions that (1) prohibit shipment of TRU waste for disposal at WIPP from any site other than the Los Alamos National Laboratory (LANL), or of additional waste streams at LANL other than those approved by the certification, until the EPA determines that the site has established and executed a quality assurance program, in accordance with §§ 194.22(a)(2)(i), 194.24(c)(3), and 194.24(c)(5) for waste characterization activities and assumptions (Condition 2 of appendix A to 40 CFR part 194); and (2) prohibit shipment of TRU waste for disposal at WIPP from any site other than LANL, or of additional waste streams at LANL other than those approved by the certification, until the EPA has approved the procedures developed to

comply with the waste characterization requirements of § 194.22(c)(4) (Condition 3 of appendix A to 40 CFR part 194). The EPA's approval process for waste generator sites is described in § 194.8. As part of EPA's decision-making process, the DOE is required to submit to EPA appropriate documentation of quality assurance and waste characterization programs at each DOE waste generator site seeking approval for shipment of TRU radioactive waste to WIPP. In accordance with § 194.8, EPA will place such documentation in the official Air Docket in Washington, DC, and informational dockets in the State of New Mexico for public review and comment.

EPA will perform an inspection of LANL's technical program for waste characterization in accordance with Condition 3 of the WIPP certification. Specifically, we will be examining a new piece of Non-Destructive Assay (NDA) equipment, the Portable Tomographic Gamma Scanner (P-TGS), for characterizing debris and homogeneous solid waste. In addition, we will inspect two new Visual Examination (VE) techniques applied to newly generated debris waste and packaging of sealed sources. The inspection is scheduled to take place the week of August 26, 2002.

EPA has placed a number of DOE-submitted documents pertinent to the inspection in the public docket described in **ADDRESSES**. These documents describe the specific requirements for the new equipment, systems, and processes that are being proposed for the LANL inspection. The documents are listed as Item II-A2-41 in Docket A-98-49. In accordance with 40 CFR 194.8, as amended by the final certification decision, EPA is providing the public 30 days to comment on these documents.

If EPA determines as a result of the inspection that the proposed processes and programs at LANL adequately control the characterization of transuranic waste, we will notify DOE by letter and place the letter in the official Air Docket in Washington, DC, as well as in the informational docket locations in New Mexico. A letter of approval will allow DOE to ship transuranic waste from LANL to the WIPP. The EPA will not make a determination of compliance prior to the inspection or before the 30-day comment period has closed.

Information on the certification decision is filed in the official EPA Air Docket, Docket No. A-93-02 and is available for review in Washington, DC, and at three EPA WIPP informational

docket locations in New Mexico. The dockets in New Mexico contain only major items from the official Air Docket in Washington, DC, plus those documents added to the official Air Docket since the October 1992 enactment of the WIPP LWA.

Dated: August 9, 2002.

Robert Brenner,

Assistant Administrator for Air and Radiation.

[FRL-7258-5]

National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent to delete Operable Unit (OU) No. 2 of the Tex Tin Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region 6 is issuing a notice of intent to delete OU No. 2 of the Tex Tin Superfund Site located in Texas City, Galveston County, Texas from the National Priorities List (NPL) and requests public comments on this notice of intent. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at appendix B of 40 CFR part 300 of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Texas, through the Texas Natural Resource Conservation Commission (TNRCC), have determined that all appropriate response actions under CERCLA, other than operation and maintenance and five-year reviews, have been completed. However, this deletion does not preclude future actions under Superfund, nor does it preclude future actions under the Texas Voluntary Cleanup Program (VCP) for OU No. 2. In the "Rules and Regulations" Section of today's **Federal Register**, we are publishing a direct final notice of deletion of OU No. 2 of the Tex Tin Superfund Site without prior notice of intent to delete because we view this as a noncontroversial revision and anticipate no adverse comment.

We have explained our reasons for this deletion in the preamble to the

direct final deletion. If we receive no adverse comment(s) on this notice of intent to delete or the direct final notice of deletion, we will not take further action on this notice of intent to delete. If we receive adverse comment(s), we will withdraw the direct final notice of deletion and it will not take effect. We will, as appropriate, address all public comments in a subsequent final deletion notice based on this notice of intent to delete. We will not institute a second comment period on this notice of intent to delete. Any parties interested in commenting must do so at this time. For additional information, see the direct final notice of deletion which is located in the Rules section of this **Federal Register**.

DATES: Comments concerning this Site must be received by September 16, 2002.

ADDRESSES: Written comments should be addressed to: Donn Walters, Community Involvement Coordinator, U.S. EPA (6SF-PO), 1445 Ross Avenue—Suite 1200, Dallas, Texas, 75202-2733, (214) 665-6483 or 1-800-533-3508 (toll free).

FOR FURTHER INFORMATION CONTACT: Carlos A. Sanchez, Remedial Project Manager, U.S. EPA (6SF-A), 1445 Ross Avenue—Suite 1200, Dallas, Texas, 75202-2733, (214) 665-8507.

SUPPLEMENTARY INFORMATION: For additional information, see the Direct Final Notice of Deletion which is located in the Rules section of this **Federal Register**.

Information Repositories: Repositories have been established to provide detailed information concerning this decision at the following address: Region 6, 12th Floor Library, 1445 Ross Avenue, Dallas, Texas 75202-2733, (214) 665-6427, Monday through Friday 7:30 am to 4:30 pm; Moore Memorial Public Library, 1701 Ninth Avenue North, Texas City, Texas 77590, (409) 643-5979, Monday through Wednesday 9 a.m. to 9 p.m., Thursday and Friday 9 a.m. to 6 p.m., Saturday 10 a.m. to 4 p.m.; Texas Natural Resource Conservation Commission, Building D, Record Management, Room 190, 12100 North Interstate Highway 35, Austin, Texas 78753, (512) 239-2920, Monday through Friday 8 a.m. to 5 p.m.
