Factors which the appropriate FBIIC member agency will consider in determining whether individual organizations play a significant role in an essential market, service or system include consideration of whether the organization: (1) Is a registered securities or futures exchange, self-regulatory organization, registered securities clearing agency/depository and futures clearinghouse, and their critical service providers and utilities; (2) acts as market utility for effecting payments or clearance and settlement of transactions; (3) processes a large aggregate value of daily payments; (4) provides critical services or systems to financial institutions; (5) has a national or large regional presence in one or more product lines; or (6) demonstrates other

facts or circumstances that suggest facilitating the organization's access to the GETS priority service in times of national emergency would serve to maintain the national economic posture.

Organizations seeking GETS sponsorship should complete the attached FBIIC Request for GETS Sponsorship and submit it to their primary financial regulator. Requesting organizations must support their request for sponsorship under the general NS/EP criteria stated above.

The FBIIC agencies may contact those organizations that clearly qualify under these criteria and inform them of the availability of GETS Sponsorship.¹⁴

Individuals being nominated for GETS usage should be limited to those individuals

who play critical roles in the organization's business continuity or crisis response management structure.

SUPPLEMENTARY INFORMATION:**I. Background**

Section 403(r)(4)(A)(iii) of the Federal Food, Drug and Cosmetic Act (the act) (21 U.S.C. 343(r)(4)(A)(iii)), provides

that any person may petition the Secretary of Health and Human Services (and by delegation FDA) for permission to use an implied claim characterizing the level of a nutrient (nutrient content claim) in a brand name. Under § 101.69(o)(3) (21 CFR 101.69(o)(3)), FDA will publish a notice of the petition in the **Federal Register** announcing its availability to the public and seeking comment on the petition. Within 100 days of the date of receipt of a petition accepted for review, FDA will notify the petitioner by letter of its decision to: (1) Grant the petitioner permission to use the proposed brand name, if such use is not misleading, specifying any conditions or limitations on such use, or (2) deny the petition, stating the reasons for the denial.

FDA must grant the petition if it finds that the petitioned claim is not misleading and is consistent with terms defined by regulation under section 403(r)(2)(A)(i) of the act. If FDA fails to notify the petitioner of its decision to grant or deny the petition within the 100-day period, the petition shall be considered to be granted. We have determined this 100-day deadline to be January 15, 2003.

II. Nutrient Content Claim in a Brand Name Petition

In accordance with § 101.69(o), Carbolite's petition for a nutrient content claim in a brand name must identify the implied nutrient content claim for CARBOLITE, the nutrient the claim is intended to characterize (sugar), the corresponding term for characterizing the level of such nutrient as defined by a regulation under section 403(r)(2)(A)(i) of the act ("zero sugar" (also referred to as "sugar free" and defined in 21 CFR 101.60(c)(1)) and "reduced sugar" (defined in 21 CFR 101.60(c)(5))), and the brand name of which the implied claim is intended to be a part—CARBOLITE. The petition states that the petitioner seeks permission "to use the company brand name 'CARBOLITE' for its line of 'zero sugar' and 'reduced sugar' food products."
