

subjects. An intent-to-treat group is scheduled to receive intensive case management consisting of an intensive TASC case management model during the one-year period of supervision followed by an additional three years of less intensive case management services. A control group will receive treatment as usual, consisting of the TASC case management model now in place. The evaluation procedures will consist of a baseline interview and follow-up interviews over a 4-year period that tracks outcomes to the point at which subjects are eligible for sealing of records. Follow-up interviews and file studies will test for a wide array of possible effects, including recidivism,

employment, education, drug use, family relationships, support of children, mental and physical health, HIV/AIDS risk factors, assumption of personal responsibility and life adjustment factors.

The evaluation will involve 880 projected participants over a four-year period. Evaluation interviews will take place at baseline, 6 months, 12 months, and 42 months. Each interview will last 1½ to 2 hours depending on the memory and speed of the respondents. The interview goal is a minimum 80% completion rate. Interview data will be supplemented by a file study of arrest records and the number of criminal records expunged. Additionally, two

focus groups of clients in the intent to treat group will be conducted in each county at 3, 6, 12, 18, 24, and 30 months to provide feedback on client perceptions of the case management programs. One group at each site will consist of clients in compliance with the program and one group will consist of clients not in compliance. Groups will consist of 8 to 10 participants chosen at random from the compliant and noncompliant clients. Additional file study data will be gathered on the number of case management sessions and the number and frequency of other interventions in the intent-to-treat and control groups.

Data collection	Number of respondents	Responses/ respondent	Hours per response	Total hr. burden
Baseline Interview	880	1	1.37	1,206
Follow-up Battery: 6-, 12-, & 42-month	880	3	1.85	4,884
Client Focus Groups: 3-, 6-, 12-, 18-, 24- & 30-month	120	1	1.50	180
File Data Collection (Staff Time) MCSIS, Ohio DRC, TASC	3	3	2.00	18
Quality Assurance (Treatment Program Staff) Multimodality Quality Assurance (MQA)	6	1	.75	5
Stake Holders:				
Workshops/meetings evaluation form	18	10	.08	14
Attitudes Towards Sealing Records	18	3	.08	4
Stakeholders Focus Group	12	1	1.50	18
Total Burden	925	6,329
4-Year Annual Average	925	1,582

Send comments to Nancy Pearce, SAMHSA Reports Clearance Officer, Room 16-105, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: January 6, 2003.

Richard Kopanda,

Executive Officer, SAMHSA.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Evaluation of Mentoring and Family Strengthening Youth Substance Abuse Prevention Initiatives—New—The basis for the current cross-site evaluation originates from two previous efforts funded by SAMHSA’s Center for Substance Abuse Prevention (CSAP) aimed at providing prevention services for high-risk youth: (1) Project Youth Connect—Mentoring and (2) Parent and Family Strengthening. The Project Youth Connect Program, funded in 1998, was designed to determine the effectiveness of a paid mentor/advocate model in improving life achievement outcomes for youth 9 to 15 years of age and their families. The Parent/Family Strengthening Program was designed to present science-based program models that would be selected for implementation within local communities. Funding for the parent/family strengthening program was distributed in two cohorts, with Cohort 1 receiving funding in 1998 and Cohort 2 receiving funding in 1999. Both cohorts were funded for a period of 24 months to address the gap between effective family-based prevention interventions and their availability in States, communities and other organizations.

The goal of the current cross-site evaluation seeks to build upon these previous efforts by evaluating the impact of a three-year Mentoring and Family Strengthening prevention program targeting high-risk youth and their caregivers on reducing risk factors related to, and enhancing protective factors against, substance abuse. Seven mentoring and nine family strengthening study sites were funded by SAMHSA/CSAP as of September 2001 to participate in this cross-site study. The primary objectives of the cross-site evaluation are to: (1) Assess the process of implementing program models with diverse target groups, (2) measure the effectiveness of specified intervention strategies such as cultural enrichment activities, educational and vocational resources, or computer-based curricula, and (3) determine the success of the Mentoring and Family Strengthening Programs in delaying, preventing, and/or reducing the use of alcohol, tobacco, and other drugs (ATOD) among youth and caregivers at risk for such behaviors. Conducting this evaluation will assist SAMHSA/CSAP in promoting and disseminating optimally effective prevention programs.

The CSAP GPRA Adult and Youth questionnaires, which have been approved by OMB (OMB No. 0930-0208) for use in all CSAP prevention services programs, will be used to measure ATOD use and risk factors associated with ATOD abuse among program participants and comparison subjects. Scales from the CSAP Core Measures list (OMB No. 0930-0230) and the CSAP National Youth Survey (OMB No. 0930-0178) will be used to measure other important risk and protective factors. The cross-site instrument (containing CSAP GPRA, scales from the CSAP Core Measures list, and scales from the CSAP National Youth Survey) is augmented with additional scales in order to measure other important risk factors such as family conflict and parental stress. Protective factors that serve to guard against ATOD abuse include educational aspirations, school connectedness, and family cohesion. Data will also be gathered from program

reports using a "dosage form" that will document services provided to youth and their adult caregivers.

The evaluation data will be collected through self-report questionnaires administered to program and comparison youth and adults, and to Mentors at the Mentoring Study Sites. Each youth and adult in the intervention and comparison group will complete questionnaires at three different times: (1) Baseline, (2) program exit and (3) 6-month follow up. Each Mentor will complete a background information form at baseline; mentees will complete a questionnaire about their mentor at program exit and at 6-month follow up. The dosage form will be completed by Mentors and Family Strengthening program staff on a weekly basis for program youth and adults.

Sample size, respondent burden, and intrusiveness have been minimized to be consistent with the cross-site evaluation objectives. Procedures are

employed to safeguard the privacy and confidentiality of participants. Every effort has been made to coordinate cross-site data collection with local data collection efforts in order to minimize respondent burden. Pilot tests assisted in controlling burden and ensuring the user-relevance of questions.

Evaluation results will have significant implications for the substance abuse prevention field, the allocation of grant funds, and evaluation activities conducted by multiple Federal, state, and local government agencies. Results will be used to develop federal policy in support of SAMHSA/CSAP program initiatives, inform the public of lessons learned and findings, improve existing programs, and promote replication and dissemination of effective prevention strategies.

The following table shows the estimated annualized burden for data collection.

Response type	Number of respondents	Responses/ respondent	Average burden/ response (hrs.)	Total burden hours
*Youth (intervention and comparison)	2,500	3	.50	3,750
*Adult Family Strengthening (intervention and comparison)	1,250	3	.50	1,875
**Adult Mentoring	1,250	3	.667	2,501
Mentor Information Form	121	1	.167	20
Mentee Measure Form	692	2	.250	346
Weekly Dosage Form—Family Strengthening Staff	46	4,000	.083	15,272
Weekly Dosage Form—paid mentors	21	18,900	.083	32,943
Weekly Dosage Form—volunteer mentors	100	200	.083	1,660
Total	5,167	58,367
3-Yr. Average Annual	1,722	19,456

* Average response burden does not include the 20 minutes for completing the CSAP GPRA Tool (OMB No. 0930-0208) or 10 minutes for completing questions that are part of the Core Measures (OMB No. 0930-0230) for the Youth Questionnaires and the Adult Family Strengthening Questionnaire.

** The Adult Mentoring Questionnaire does not include CSAP GPRA Tool.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Allison Herron Eydt, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: January 2, 2003.

Richard Kopanda,

Executive Officer, SAMHSA.

BILLING CODE 4162-20-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4809-N-02]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

EFFECTIVE DATE: January 10, 2003.

FOR FURTHER INFORMATION CONTACT: Mark Johnston, Department of Housing and Urban Development, Room 7262, 451 Seventh Street SW., Washington,

DC 20410; telephone (202) 708-1234; TTY number for the hearing- and speech-impaired (202) 708-2565, (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.
