

Affected entities: Entities potentially affected by this action are new and used car dealers, gas service stations, top and body repair shops, and general automotive repair shops (including air conditioning and radiator specialty shops).

Title: Information Collection Activities Associated with EPA's Mobile Air Conditioner Retrofitting Program (OMB Control Number 2060-0350; EPA ICR Number 1774.03 expiring 9/30/2003).

Abstract: Section 612 of the Clean Air Act (CAA) requires EPA to promulgate rules making it unlawful to replace any ozone-depleting substance with any substitute that the Administrator determines may present adverse effects to human health or the environment where the Administrator has identified an alternative that (1) reduces the overall risk to human health and the environment, and (2) is currently or potentially available. In 1994, the Significant New Alternatives Policy (SNAP) Program was enacted, enabling the Agency to review available substitutes for ozone-depleting substances and determine their acceptability. The SNAP program includes review of potential alternatives to ozone-depleting refrigerants used for air conditioning motor vehicles. EPA is concerned that the existence of several substitutes in this end-use may increase the likelihood of significant refrigerant cross-contamination and potential failure of both air conditioning systems and recovery/recycling equipment. In addition, continuing the smooth transition to the use of substitutes strongly depends on the continued purity of the recovered, recycled and/or reclaimed R-12 supply. The purpose of this Information Collection Request (ICR) is to estimate the burden associated with the 40 Code of Federal Regulations (CFR) Part 82 requirement that service technicians label mobile air conditioners with information about new refrigerants when they retrofit a system. These labels acknowledge that the retrofitting has been completed and that the mobile air conditioner should no longer use chlorofluorocarbon (CFC) refrigerant. In addition, the labels provide essential information to technicians about the specific refrigerant used in the air conditioning system. The following information is required on the label:

- The name and address of the technician and the company performing the retrofit.
- The date of the retrofit.
- The trade name, charge amount, and, when applicable, the numerical designation of the refrigerant as

determined under the latest version of Standard 34 of the American Society of Heating, Refrigerating, and Air-conditioning Engineers (ASHRAE), Inc.

- The type, manufacturer, and amount of lubricant used.
- If the refrigerant is or contains an ozone-depleting substance, the phrase "ozone depleter".
- If the refrigerant displays flammability limits as measured according to latest version of Standard E681 of the American Society for Testing and Materials (ASTM) International, the statement "This refrigerant is FLAMMABLE. Take appropriate precautions."

This information assists the technician in avoiding service practices that might result in cross-contamination, system failure and/or system performance degradation. Responses to the collection information are mandatory (section 612 of the CAA and 40 CFR part 82). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The U.S. Department of Labor statistics indicate there are 168,630 automotive body and related repairers (Standard Occupation Classification [SOC] System Code Number 49-3021) and 701,150 automotive service technicians and mechanics (SOC Code Number 49-3023) in the U.S., some of whom will be responsible for retrofitting an estimated 3,000,000 motor vehicle air conditioners by September 30, 2006, the date this ICR will expire. EPA estimates the time to

complete and apply the label at 5 minutes per instance, making the total burden 250,000 hours. At an average labor rate of \$70 per hour, the overall cost associated with the burden hours is \$17,500,000. The cost for designing, typesetting, printing and distributing 3,000,000 labels is estimated to be \$300,000 (\$0.10 per label). Adding the labor and capital costs together yields a total cost burden of \$17,800,000. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: June 19, 2003.

Edward Callahan,

Acting Director, Office of Atmospheric Programs.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 04, 2003 (68 FR 16511).

Draft EISs

ERP No. D-AFS-J65380-UT Rating EC2, Prima East Clear Creek Federal No. 22-42 Gas Exploration Well, Application for Permit to Drill (APD) including a Surface Use Plan of Operations, Approval, Castle Valley

Ridge, Ferron/Price Ranger District, Manti-La Sal National Forest, Carbon and Emery Counties, UT.

Summary: EPA expressed environmental concerns with potential direct and indirect adverse environmental impacts from gas development and road construction in an Inventoried Roadless Area. The final EIS should include additional information regarding the management of produced water and impacts to aquatic resources, soils and water quality as well as from OHV use.

ERP No. D-DOE-E09809-SC Rating EC1, Savannah River Site Construction and Operation of a Mixed Oxide (MOX) Fuel Fabrication Facility, NUREG-1767, Aiken, Barnwell and Allendale Counties, SC.

Summary: EPA is pleased with the quality of this draft EIS, especially the mitigation plans. However, EPA is concerned possible impacts from the hazardous and radioactive wastes generated during operation of the proposed facility.

ERP No. D-NPS-K65251-AZ Rating LO, Petrified Forest National Park General Management Plan Revision, Implementation, Navajo and Apache Counties, AZ.

Summary: EPA expressed a lack of objections to the proposed plan, but recommended more detailed information in the Final EIS regarding mitigation measures that will be used to protect water quality from facility improvement activities.

ERP No. DR-DOE-A09824-00 Rating EC2, Hanford Site Solid (Radioactive and Hazardous) Waste Program, New Information on Waste Management Alternatives, Waste Management Practices Enhancement for Low-Level Radioactive Waste, Mixed Low-Level Radioactive Waste and Transuranic Waste, Richland, Benton County, WA.

Summary: EPA is pleased that the revised draft EIS responds to issues we raised in our review of the earlier draft, particularly the analysis of new alternatives. EPA is still concerned, however, that the EIS provides insufficient information to differentiate the environmental effects among alternatives and to ensure compliance with environmental standards. EPA recommends that the final EIS provide additional groundwater analysis and impact information. Also, the final EIS should further describe mitigation measures and their effectiveness in the environmental consequences chapter.

Final EISs

ERP No. F-AFS-J65363-MT Post Fire Vegetation and Fuels Management

Project, Fuel Reduction, Bark Beetle Sanitation and Maintenance, and/or Restoration of Vegetative Communities, Beaverhead Deerlodge National Forest, Wisdom and Pintler Ranger Districts, Beaverhead and Deerlodge Counties, MT.

Summary: EPA supports the elimination of proposed riparian harvests, and noted that activities need to be consistent with Montana's development of TMDLs and water quality restoration plans for 303(d) listed waters. EPA also recommended consideration of additional seeding and revegetation on barren hillsides.

Dated: June 24, 2003.

Joseph C. Montgomery,

Director, NEPA Compliance Division, Office of Federal Activities.

Environmental Impact Statements; Notice of Availability

Responsible Agency: Office of Federal Activities, General Information (202) 202-564-7167 or <http://www.epa.gov/compliance/nepa/>.

Weekly receipt of Environmental Impact Statements Filed June 16, 2003 Through June 20, 2003 Pursuant to 40 CFR 1506.9.:

EIS No. 030285, Draft EIS, BLM, OR, Travis Tyrrell Seed Orchard Integrated Pest Management (IPM) Program, Implementation, Eugene District, Lorne, Lane County, OR, Comment Period Ends: August 25, 2003, Contact: Glenn Miller (541) 683-6445.

EIS No. 030286, Draft EIS, BLM, OR, Provolt Seed Orchard Integrated Pest Management (IPM) Program, Implementation, Grants Pass, Medford District, Jackson and Josephine Counties, OR and Charles A. Sprague Seed Orchard Integrated Pest Management (IPM) Program, Implementation, Merlin, Medford District, Josephine County, OR, Comment Period Ends: August 25, 2003, Contact: Harvey Koester (541) 618-2401.

EIS No. 030287, Draft EIS, BLM, OR, Walter H. Horning Seed Orchard Integrated Pest Management (IPM) Program, Implementation, Colton, Salem District, Clackamas County, OR, Comment Period Ends: August 25, 2003, Contact: Greg Tylor (503) 630-8406.

EIS No. 030288, Draft EIS, NPS, TX, Big Bend National Park General Management Plan, Implementation,

Brewster County, TX, Comment Period Ends: August 25, 2003, Contact: John King (915) 477-1101.

EIS No. 030289, Final Supplement, COE, TX, OK, Red River Chloride Control Project, Authorization to Reduce the National Occurring Levels of Chloride in the Wichita River Only Portion, North, Middle and South Forks, Wichita River and Red River, Implementation, Tulsa District, Wichita County, TX, Wait Period Ends: July 28, 2003, Contact: David L. Combs (918) 669-7660. This document is available on the Internet at: <http://www.swt.usace.army.mil/LIBRARY/library.CFM>.

EIS No. 030290, Draft EIS, FRC, NY, St. Lawrence-FDR Hydroelectric Project, Application for New License (Relicense), (FERC No. 200-036), Located on the St. Lawrence River, Messina, NY, Comment Period Ends: August 11, 2003, Contact: Ed Lee (202) 502-6082. This document is available on the Internet at: (<http://www.ferc.gov>)

EIS No. 030291, Draft EIS, USN, CA, Military Family Housing (MFH) in the San Diego Region, Construction of a 1,600 MFH Units, Three MFH Sites are located in the Marine Corps Air Station (MCAS), Miramar in the City of San Diego, San Diego County, CA, Comment Period Ends: August 11, 2003, Contact: Sheila Donovan (619) 532-2518.

EIS No. 030292, Final EIS, USN, CA, Naval Station Treasure Island Disposal and Reuse Property, Implementation, Local Redevelopment Authority (LRA), City of San Francisco, San Francisco County, CA, Wait Period Ends: July 28, 2003, Contact: Timarie Seneca (619) 532-0955.

EIS No. 030293, Final EIS, TVA, TN, Rarity Pointe Commercial Recreation and Residential Development on Tellico Reservoir Project, Request for TVA's Land and Approval of Water Use Facilities, Tellico Reservoir, Loudon County, TN, Wait Period Ends: July 28, 2003, Contact: Richard L. Toennisson (865) 632-8517. This document is available on the Internet at: <http://www.tva.gov/environment/reports/index.htm>.

EIS No. 030294, Draft EIS, COE, NJ, Union Beach Community Project, To Provide Hurricane and Storm Damage Reduction to Residential, Commercial and Recreational Resources, Located along the Raritan Bay and Sandy Hook Bay Shoreline, Monmouth County, NJ, Comment Period Ends: August 11, 2003, Contact: Mark H. Burlas (212) 264-4663.
