DEPARTMENT OF THE INTERIOR

Utah Reclamation Mitigation and Conservation Commission

Central Utah Project Completion Act

AGENCY: Department of the Interior. Office of the Assistant Secretary—Water and Science; and the Utah Reclamation Mitigation and Conservation Commission (Commission).

ACTION: Notice of availability, Draft Environmental Impact Statement (DEIS), Lower Duchesne river Wetlands Mitigation Project, Duchesne and Uintah Counties, Utah.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, as amended, the Central Utah Project Completion Act Office, and the Utah Reclamation Mitigation and Conservation Commission (Commission), propose to create, restore, and otherwise enhance riparian wetland habitats along the Duchesne River, Utah, as partial mitigation for the Bonneville Unit, Central Utah Project (CUP). This project has been planned in conjunction with the Ute Indian Tribe of the Uintah and Ouray Agency and is intended to fulfill long-standing commitments to mitigate for impacts to Ute Indian tribal and non-tribal wetland-wildlife habitats arising from construction and operation of the Bonneville Unit, and to provide additional wetland/wildlife benefits to the Ute Indian Tribe.

A Proposed Action and two alternatives are evaluated, along with

the No Action Alternative, in the DEIS. Under the Proposed Action, approximately 7,790 acres of land composed of Ute Indian Tribal trust lands, up to 2,154 acres of fee lands to be acquired by the Federal Government, and a 1,087-acre parcel of existing Federal land would be acquired and/or developed into a cohesive wetlands management unit. A portion of the water currently managed by the Bureau of Indian Affairs for the Uinta Indian Irrigation Project would be utilized, along with water available under rights owned by the Federal Government, and any water acquired with fee lands, to improve existing, and restore prior existing, wetlands throughout the property. In general, the lands would be improved and managed for fish and wildlife habitat and wetland resources in a manner that replaces wetland resources, especially Ute Indian Tribal resources, lost or adversely impacted by the Bonneville Unit, CUP. All project lands would be managed by the Ute Indian Tribe under management agreements with the Joint Lead Agencies to achieve the prescribed wetlands-associated fish and wildlife benefits, and for other wetland/wildlife-related tribal benefits. The alternatives included in the DEIS are similar to the Proposed Action, differing only in the acreage amounts and locations.

The public is invited to submit comments on the adequacy of the DEIS and the assessment of environmental impacts. Comments received in response to this notice will be part of the public record and available for public review pursuant to the Freedom of Information Act (5 U.S.C. 552) and may be released to the public upon request. This will normally include names, addresses, and any other personal information be withheld from such releases by so indicating in their letter of comment or by means of separate written communication.

DATES: The DEIS will be available for public review and comment for a minimum of forty-five (45) calendar days following the publication of this notice. The deadline for submittal of written comments on the DEIS will be stated on the cover sheet of the document and noted in the transmittal letter to all reviewers.

Comments on the DEIS may also be presented verbally or in writing at the public meetings to be held at the vicinity of the project. Public meetings are being held to present the evaluation of environmental impacts to the public and provide additional opportunity for public comment on the project. The places, dates, and times of public

meetings will be noted in the transmittal letter to all reviewers and announced in local newspapers.

Public meetings will be held at the following locations:

December 16, 2003: West Junior High School, East Highway 40, Fort Duchesne, Utah 84026.

December 17, 2003: Crossroads Senior Center, 50 East 200 South, Roosevelt, Utah 84066.

December 18, 2003: State Office, Bureau of Land Management, Third Floor Conference Room, 324 South State Street, Salt Lake City, Utah 84138.

All meetings will begin at 6 pm and conclude at 8 pm.

ADDRESSES: Comments on the DEIS should be addressed to: Mr. Ron Groves, Director, Wisiups Wetlands Project, Ute Indian Tribe, PO Box 190, Ft. Duchesne, Utah 84026.

FOR FURTHER INFORMATION CONTACT: Copies of the Draft EIS and the resource technical reports can be obtained by contacting Mr. Ron Groves, Director, Wisiups Wetlands Project, Ute Indian Tribe, PO Box 190, Ft. Duchesne, Utah 84026, Telephone: (435) 722-5867, E-mail address: wetlands@ubtanet.com.

SUPPLEMENTARY INFORMATION:

Background

On or about September 6, 1999, oil was spilled from the dredge vessel M/V *Stuyvesant* into the Pacific Ocean offshore of Humboldt Bay in the State of California. Oil was spread by tide, currents and winds and washed ashore along the coasts of Humboldt and Del Norte Counties. The oil affected a number of natural resources, including seabirds, shorebirds, marine waters, and beaches. This oil spill is hereafter referred to as the "Incident."

Pursuant to section 1006 of the Oil Pollution Act (OPA), 33 U.S.C. 2701 *et seq.*, Federal and State trustees (Trustees) for natural resources are authorized to assess natural resource damages resulting from oil spills into navigable waters and to develop and implement a plan for restoration of such injured resources. The Trustees for this Incident are the U.S. Fish and Wildlife Service (Department of the Interior), the California Department of Fish and Game, and the California State Lands Commission. The Natural Resource Damage Assessment Regulations under OPA, 15 CFR part 990 (the "NRDA regulations"), provide that the Trustees are to prepare a Notice of Intent to Conduct Restoration Planning (Notice) if they determine certain conditions have been met and if they decide to quantify the injuries to natural resources and to develop a restoration plan.

This Notice is to announce, pursuant to § 990.44 of the NRDA regulations, that the Trustees, having collected and analyzed data, intend to proceed with restoration planning actions to address injuries to natural resources resulting from the Incident. The purpose of this restoration planning effort is to further evaluate injuries to natural resources and services and to use that information to determine the need for, type of, and scale of restoration actions.
