I. Funding Opportunity Description

Executive Summary: The Office of Refugee Resettlement (ORR) announces that applications will be accepted from public and private non-profit organizations, including faith-Based and community organizations, under a standing announcement for Wilson/Fish projects which propose alternative approaches to serving refugees. The purpose of Wilson/Fish projects is to provide integrated services and cash assistance to refugees in order to increase refugees’ prospects for early employment and self-sufficiency, reduce their level of welfare dependence and promote coordination among voluntary resettlement agencies and service providers. Projects will be accepted under either of two categories: (1) Projects to establish or maintain a refugee program in a State where the State is not participating in the refugee program or is withdrawing from the refugee program or a portion of the program; and (2) projects to provide an alternative to the existing system of assistance and services to refugees. Funding is available to these projects under the “Wilson/Fish” authority. This notice replaces the notice published in the Federal Register of April 22, 1999 (64 FR 19793).

The Office of Refugee Resettlement (ORR) announces that applications will be accepted from public and private non-profit organizations including faith-based and community organizations, under this standing announcement for Wilson/Fish projects which propose alternative approaches to serving refugees. Projects will be accepted under either of two categories: (1) Projects to establish or maintain a refugee program in a State where the State is not participating in the refugee program or is withdrawing from the refugee program or a portion of the program; and (2) projects to provide an alternative to the existing system of assistance and services to refugees.

Category One of this announcement provides an opportunity for an applicant(s) to continue the provision of refugee program services and assistance, including refugee cash and medical assistance, employment and other social services and targeted assistance in a State when the State elects to discontinue participation in the program or is not currently participating in the program. This category may also be used when a State elects to cease participation in all of the above components except for medical assistance and preventive health and where the Director of ORR believes that continued resettlement of refugees in that State is in the best interests of the government. A consortium of voluntary agencies, a lead voluntary agency, or another public or private non-profit agency may apply to administer and provide services and assistance to refugees in the State or local geographic area.

Category Two provides interested applicants an opportunity to implement alternative projects to promote refugee self-sufficiency. Some examples include: (1) Where assistance and services for refugees receiving refugee cash assistance (RCA) and those receiving Temporary Assistance for Needy Families (TANF) could be provided in a better coordinated, effective, and efficient manner; (2) where TANF-eligible refugees may not have access to timely, culturally and linguistically compatible services or employment and training programs; (3) where the regulatory options for delivery of services and assistance to refugees do not present the most effective resettlement in that location, and where resettlement could be made more effective through the implementation of an alternative project; (4) where refugees, particularly in two-parent families, are in danger of becoming dependent upon welfare and using the full-time period of assistance allowed under the TANF program in a State, thereby removing the ability of the family to access TANF as a safety net in the future; (5) where the continuity of services from the time of arrival until the attainment of self-sufficiency needs to be strengthened; or (6) where it is in the best interest of refugees to receive assistance and services outside the traditional welfare system.

At a minimum, applicants are expected to propose a range of services and financial assistance generally comparable to those currently available to eligible refugees in the State.

Applicants in Category One may propose to transfer and serve in the Wilson/Fish project those clients who have not completed their period of eligibility under the existing RCA program. Applicants in Category Two...
must propose an alternative project for refugees in one or more geographic areas and cover, at a minimum, all newly arriving refugees in a geographic area of the cash assistance type proposed, e.g., all refugees otherwise eligible for RCA and/or TANF (referred to as “RCA-type” or “TANF-type” refugees). No projects in either category may propose transferring to the Wilson/Fish project refugees who are already enrolled in the TANF program.

Services and assistance under these awards are intended to help refugees attain self-sufficiency within the period of support defined by 45 CFR 400.211. This period is currently eight months after arrival. We expect that most funded projects funded will provide services and assistance to refugees for this period of time, as needed.

ORR will entertain proposals, subject to the availability of appropriated funds, to provide interim cash support to refugees who would otherwise be eligible for the Temporary Assistance for Needy Families (TANF) program, in addition to those refugees who would otherwise be eligible for the Refugee Cash Assistance (RCA) program.

Consistent with section 412(e)(7)(B) of the Immigration and Nationality Act (INA), refugees in projects funded under this announcement will be precluded from receiving cash assistance under the TANF program or the RCA program during the period of support provided under the Wilson/Fish project. If alternative medical assistance is included, participants will be precluded from receiving RMA or Medicaid during the period of support provided under the Wilson/Fish project.

Applications will be screened and evaluated as indicated in this program announcement. Awards will be contingent on the outcome of the competition and the availability of funds.

ORR encourages prospective applicants to consult with ORR during the development of the application.

Program Purpose

The purpose of the announcement is to enable applicants to implement alternative projects under one of two categories in order to provide interim financial assistance, social services and case management to refugees in a manner that encourages self-sufficiency, reduces the likelihood of welfare dependency and fosters greater coordination among resettlement agencies and service providers in a community. ORR is interested in projects which optimize all available resources—from Federal and State governments and the community—to make the resettlement period as beneficial as possible. An integrated system of assistance and services is an essential characteristic of a Wilson/Fish project.

Although ORR has included the provision of medical assistance as an allowable activity under this announcement, the best medical assistance option available in most circumstances is the existing State-administered program of refugee medical assistance or Medicaid. The option to provide medical assistance under this announcement is available under two circumstances: (a) Primarily for Category One projects where a State chooses to discontinue participation in all areas of the refugee program, including the provision of refugee medical assistance; and (b) under Category Two, in the event that there are significant problems in the provision of medical assistance to refugees in a State and where an alternative private medical assistance plan or provider is available which is able to provide a more appropriate and a timely range of services for refugees at an affordable cost.

In the case where an alternative medical assistance system is approved, refugee participants would not be permitted to receive Medicaid or RMA during the period of support provided under the Wilson/Fish project because they would be receiving comparable medical assistance.

Legislative Authority

In October, 1984, Congress amended the Immigration and Nationality Act to provide authority for the Secretary of Health and Human Services to implement alternative projects for refugees. This provision, known as the Wilson/Fish Amendment, 8 U.S.C. 1522(e)(7), provided:

(7)(A) The Secretary shall develop and implement alternative projects for refugees who have been in the United States less than thirty-six months, under which refugees are provided interim support, medical services, support services, and case management, as needed, in a manner that encourages self-sufficiency, reduces welfare dependency, and fosters greater coordination among the resettlement agencies and service providers * * *

(B) Refugees covered under such alternative projects shall be precluded from receiving cash or medical assistance under any other paragraph of this subsection or under title XIX or part A of title IV of the Social Security Act * * *

(D) To the extent that the use of such funds is consistent with the purposes of such provisions, funds appropriated under section 414(a) of this Act, part A of title IV of the Social Security Act, or title XIX of such Act, may be used for the purpose of implementing and evaluating alternative projects under this paragraph.

Funding Availability

ORR will consider requests for funding based on the merits of the proposals. Requests do not have to be limited to the amount being spent for current assistance and services, but such amounts will be one of the measures used in considering the reasonableness of the request.

Interim cash and medical assistance under the Wilson/Fish program will be provided from funds appropriated under the Transitional Assistance and Medical Services (TAMS) line item. Funds for social services under the Wilson/Fish program will be provided separately through the formula refugee social services grant. Social services funding will be based upon each State’s allocation listed in the Final Social Services Notice.

Applicants are encouraged to cover all or a portion of the costs of interim financial support in this program for TANF-eligible refugees by either seeking a relevant portion of State and Federal TANF funds from the State TANF agency, or seeking State-only funds which may be counted under certain circumstances toward the State’s maintenance of effort (MOE) requirement. Those refugees supported by Federal or State TANF funds would be subject to TANF participation and work requirements, while refugees supported with State-only funds would not be subject to TANF rules. Medical services for TANF-eligible refugees must be charged to the State Medicaid program if otherwise eligible.

Definition of Terms

Interim Financial Support: To provide financial assistance adequate to meet the basic needs of refugees otherwise eligible for RCA and/or TANF at a level generally comparable to assistance allowable under those programs. The greater part of this assistance is expected to be provided in the form of cash payments to refugees, but may also include incentive bonuses for early employment or payment for work-related expenses such as transportation or tools.

III. Eligibility Information

1. Eligible Applicants: State governments;
   County governments;
   Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education;
   Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education;
   Others.

   Additional Information of Eligibility:

   Proof of non-profit status is any one of the following:
   (a) A reference to the applicant organization’s listing in the Internal Revenue Service’s (IRS) most recent list of tax-exempt organizations described in the IRS code.
   (b) A copy of a currently valid IRS tax exemption certificate.
   (c) A statement from a State taxing body, State Attorney General, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals.

   (e) Any of the items in the subparagraphs immediately above for an agency or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

   Because a Wilson/Fish project will have a potential impact on a State’s or locality’s budgetary needs for cash assistance and/or medical assistance, as well as social services, a non-State applicant must coordinate its activities with the State Refugee Coordinator in the development and implementation of an alternative project under Category Two of this announcement. State applicants should also coordinate their proposed activities with other participants in refugee resettlement such as voluntary resettlement agencies, mutual assistance associations, community and faith-based organizations.

   Private, nonprofit organizations are encouraged to submit with their applications the survey located under “Grant Related Documents and Forms” titled “Survey for Private, Non-Profit Grant Applicants” at http://www.acf.hhs.gov/programs/ofd/forms.htm

4. Intergovernmental Review

State Single Point of Contact (SPOC), Notification Under Executive Order 12372

This program is covered under Executive Order (E.O.) 12372, “Intergovernmental Review of Federal Programs”, and 45 CFR Part 100, “Intergovernmental Review of Department of Health and Human Services Programs and Activities”. Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of January, 2003, of the most recent SPOC list, the following jurisdictions have elected not to participate in the Executive Order process. Applicants from these jurisdictions or for projects administered by federally-recognized Indian Tribes need take no action in regard to E.O. 12372: Alabama, Alaska, Arizona, Colorado, Connecticut, Hawaii, Idaho, Indiana, Kansas, Louisiana, Massachusetts, Minnesota, Montana, Nebraska, New Jersey, New York, Ohio, Oklahoma, Oregon, Palau, Pennsylvania, South Dakota, Tennessee, Vermont, Virginia, Washington and Wyoming.

Although the jurisdictions listed above no longer participate in the process, entities which have met the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. All remaining jurisdictions participate in the Executive Order process and have established SPOCs. Applicants from participating jurisdictions should contact their SPOCs as soon as possible to alert them of the prospective applications and receive instructions. Applicants must submit any required material to the SPOCs as soon as possible so that the program office can obtain and review SPOC comments as part of the award process. The applicant must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards.

SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the “accommodate or explain” rule.

When comments are submitted directly to ACF, they should be addressed to: Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, 370 L’Enfant Promenade, SW., Mail Stop 6G–462, Washington, DC 20447. The official list, including addresses, of the jurisdictions elected to participate in E.O. 12372 can be found at [http://www.whitehouse.gov/omb/grants/s poc.html](http://www.whitehouse.gov/omb/grants/s poc.html).
A list of the Single Points of Contact for each State and Territory is included with the application materials in this announcement.

5. Funding Restrictions
Pre-award costs cannot be charged to this grant.

V. Application Review Information
1. Criteria
Public reporting burden for this collection of information is estimated to average 20 hours per overall response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. The following information collections are included in the program announcement: The Uniform Project Description is approved under OMB control number 0970–0139, which expires 3/31/2004.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Purpose
The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, all information requested through each specific evaluation criteria should be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application.

General Instructions
ACF is particularly interested in specific factual information and statements of measurable goals in quantitative terms. Project descriptions are evaluated on the basis of substance, not length. Extensive exhibits are not required. Cross referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grant funded activity should be placed in an appendix.

Pages should be numbered and a table of contents should be included for easy reference.

General Instructions for Preparing a Full Project Description
Introduction
Applicants required to submit a full project description shall prepare the project description statement in accordance with the following instructions and the specified evaluation criteria. The instructions give a broad overview of what your project description should include while the evaluation criteria expands and clarifies more program-specific information that is needed.

Project Summary/Abstract
Provide a summary of the project description (a page or less) with reference to the funding request.

Objectives and Need for Assistance
Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Results or Benefits Expected
Identify the results and benefits to be derived. All applicants will be required to establish proposed performance goals for each of the six ORR performance outcome measures for the upcoming Federal fiscal year. Proposed performance goals must be included in the application for each performance measure. The six ORR performance measures are: entered employments, cash assistance reductions due to employment, cash assistance terminations due to employment, 90-day employment retentions, average wage at placement, and entered employments with available health benefits. Wilson/Fish program activity and progress achieved toward meeting performance outcome goals are to be reported quarterly on the ORR-6, the “Quarterly Performance Report.” Identify other benefits refugees will realize as a result of the Wilson/Fish project, including enhanced acculturation and other social adjustment measures. Describe how and what data will be collected and how this data will be used to analyze project results. Describe the plan and schedule for project monitoring.

Approach
Outline a plan of action which describes the scope and detail of how
the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors which might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished. When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any “collection of information that is conducted or sponsored by ACF.”

List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

Geographic Location

Describe the precise location of the project and boundaries of the area to be served by the proposed project. Maps or other graphic aids may be attached.

Additional Information

Following are requests for additional information that need to be included in the application:

Staff and Position Data

Provide a biographical sketch for each key person appointed and a job description for each vacant key position. A biographical sketch will also be required for new key staff as appointed.

Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. Any non-profit organization submitting an application must submit proof of its non-profit status in its application at the time of submission.

The non-profit agency can accomplish this by providing a copy of the applicant’s listing in the Internal Revenue Service’s (IRS) most recent list of tax-exempt organizations described in Section 501(c)(3) of the IRS code, or by providing a copy of the currently valid IRS tax exemption certificate, or by providing a copy of the articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

Third-Party Agreements

Include written agreements between grantees and sub-grantees or subcontractors or other cooperating entities. These agreements must detail scope of work to be performed, work schedules, remuneration, and other terms and conditions that structure or define the relationship.

Letters of Support

Provide statements from community, public and commercial leaders that support the project proposed for funding. All submissions should be included in the application or by application deadline.

Evaluation Criteria

Evaluation Criteria I: Approach (Maximum: 30 points)

The proposed project design is clear, logical, complete and reasonable in terms of (a) the proposed strategies related to the target population, the geographic area to be covered, the adequacy of the system, the policies and administration of interim cash support; (b) the likelihood that the relationship between the cash support and services described will result in a program which delivers quality resettlement and (c) the adequacy of the cash assistance policies and procedures for appeals and fair hearings. The application has included adequate evidence of consultation with other relevant agencies and actors, e.g., the State Coordinator in a non-State application and the voluntary agencies and refugee service providers in a State application. The application will be evaluated on the extent to which it addresses the following:

a. The target population (numbers, ethnicity, and other characteristics such as age, family composition, ability to speak English, and labor skills); and the targeted populations by the anticipated category of public assistance for which the population may otherwise be eligible.

b. The proposed management plan indicating who has fiscal and programmatic responsibility for the overall project and for individual components. Applicant identifies the organizational structure and includes a staffing pattern and key position descriptions. Sources and allocation of funds for administration and staffing should be detailed and clearly shown for each position and activity.

c. The proposed services and how they will be provided, e.g., employment and case management services.

d. The proposed system for providing cash support, including: (i) The income standards for cash assistance eligibility; (ii) payment levels to be provided to cash assistance to eligible refugees; (iii) assurance that the payment levels established are not lower than the State TANF amount; (iv) a detailed description of how benefit payments will be structured, including the employment incentives and/or income disregards to be used, if any; (v) a description of how refugees residing within the project area will have appropriate access to cash assistance and services; (vi) a description of the eligibility criteria; (vii) a description of provisions for sanctions for non-cooperation as required by section 412(e)(2) of the INA; (viii) a description of the constitutionally required due process procedures to be used to ensure appropriate protections and due process for refugees, such as notice of adverse action and the right to mediation (in the case of a failure to accept employability services), a predetermination hearing, and an appeal to an independent entity; and (ix) a description of the procedures to be used to safeguard the disclosure of information on refugee clients.

e. Evaluation Criteria II: Objectives and Need for Assistance (Maximum: 20 points)

The improvements proposed to be implemented by the project are based on a thorough review and description of the current resettlement system in the geographic area to be covered, in terms of the services and assistance available; the ability of refugees to access culturally and linguistically appropriate services; the employment outcomes achieved [types of jobs currently available and length of time after arrival required to obtain these jobs]; and the post-employment services available. The application will be evaluated on the extent to which it clearly describes:

- The improvements to be made by the alternative strategy, stated in terms of the population to be served, assistance and services to be provided, and outcomes to be achieved.

- The planning and preparation for the project, including the primary participants involved in planning for this project and those institutions and organizations consulted, such as the State (if the applicant is applying under category two), refugee mutual assistance associations, local community and faith-based agencies, national voluntary organizations, and other agencies that serve refugees.

Evaluation Criteria III: Organizational Profiles (Maximum: 20 points)

The application must demonstrate that the organization as described has the capacity and resources for effective administration and management of the project, project staff are qualified and have the necessary expertise to manage the project and to deliver bilingual and bicultural services and assistance to refugees in the manner described. The application must describe a system for monitoring and reporting that is attainable and adequate considering the organizational capacity and resources described.

Evaluation Criteria IV: Results or Benefits Expected (Maximum: 15 points)

The outcomes proposed are reasonable, and the methodology for collecting outcome and other data are clearly described and adequate. The application establishes proposed performance goals using the six Government Performance and Results Act (GPRA) measures currently in use in the refugee resettlement program. The six ORR performance measures are: The number of employable refugees in the caseload, the number of entered employment, the number of cash assistance reductions due to employment, the number of cash assistance terminations due to employment, the average hourly wage at entered employment, the number of 90-day employment retentions, and the number of entered employment with health benefits available. The application identifies other benefits refugees will realize as a result of the Wilson/Fish project, including enhanced acculturation and other social adjustment measures.

Evaluation Criteria V: Budget and Budget Justification (Maximum: 15 points)

The budget is clear, logical, complete, and reasonable in relation to the expected activities and outcomes. The line-item budget narrative is understandable and adequately justifies the costs proposed. The data provided to justify the budget are consistently and logically presented in terms of the population to be served. ORR is also interested in the following:

- A client loading chart showing the anticipated arrival of clients over the budget period and the projected interim assistance (and medical assistance, if applicable) needed on a monthly basis throughout the year to assist those refugees. Provide assumptions about the length of time clients are expected to need that assistance.

- Identification of administrative costs required for the provision of interim cash assistance and for services separately from those costs projected as part of the overall role of coordinating the refugee program in the geographic area.

- The amount and source of any additional funding, including in-kind contributions, that will help support the project.

4. If medical assistance is proposed, provide a detailed budget and a narrative concerning the underlying assumptions used in developing the budget, such as the system for co-payments and the proposed amounts of co-payments, if applicable, and other variables such as deductibles, premium amounts, prescription costs, etc.

2. Review and Selection Process

Initial ORR Screening

The evaluation criteria were designed to assess the quality of a proposed project, and to determine the likelihood of its success. The evaluation criteria are closely related and are considered as a whole in judging the overall quality of an application. Points are awarded only to applications that are responsive to the evaluation criteria within the context of this program announcement.

SUMMARY: The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS), announces the availability of FY 2004 funds for the State Mental Health Data Infrastructure Grants for Quality Improvement program. A synopsis of this funding opportunity, as well as many other Federal Government funding opportunities, is also available at the Internet site: http://www.grants.gov.

For complete instructions, potential applicants must obtain a copy of SAMHSA’s standard Infrastructure Grants Program Announcement (INF–04 PA [MOD]), and the PHS 5161–1 (Rev. 7/00) application form before preparing and submitting an application. The INF–04 PA (MOD) describes the general program design and provides instructions for applying for all SAMHSA Infrastructure Grants, including the State Mental Health Data Infrastructure Grants for Quality Improvement, additional instructions and specific requirements to the State Mental Health Data Infrastructure.

Grants for Quality Improvement program are described below.

I. Funding Opportunity Description

Authority: Sections 1971 of the Public Health Service Act (42 U.S.C.300y) and 520A of the Public Health Service Act, as amended and subject to the availability of funds.

The State Mental Health DIG program is one of SAMHSA’s Infrastructure Grants programs. SAMHSA’s Infrastructure Grants provide funds to increase the capacity of mental health and/or substance abuse systems to support programs and services. SAMHSA’s State Mental Health DIG program is intended to fund State Mental Health authorities to develop or enhance their data infrastructure to improve management of mental health service delivery. The Data Infrastructure Grants are also a link in CMHS’s ongoing efforts to implement the President’s New Freedom Commission in building community systems of care.

The overall goal of the State Mental Health DIG program is to improve the State and local mental health data infrastructure, with a special focus on implementing new Community Mental Health Services Block Grant (MHBG) measures. The program also is a key element of a broader plan to increase State flexibility and improve accountability, generally referred to as Performance Partnership Block Grants (PPGs). Specific program goals include: adoption of common data and information technology standards at the local level and improvement in program management/decision support, planning, and service quality improvement through better information at both State and local levels. Allowable activities for these grants are limited to activities that will support State and local data infrastructure development. Funds may not be used to pay for computer hardware. Software expenditures will be considered on a case-by-case basis.

Background: Since its inception, CMHS has engaged in the development of statistical data standards and related data infrastructure to assist State mental health agencies, local public providers, and private sector entities in better management and program planning, as well as service quality improvement. Without adequate data systems to record information in a comparable way, there can be no reporting of useful information. Hence, evidence-based management, planning with quantitative information, and good measures of program effectiveness, are only possible if comparable data standards are used to record data. There is great need for sound State and local data infrastructure.
