[Docket No. RP99-301-111]

#### ANR Pipeline Company; Notice of Negotiated Rate Filing

April 8, 2004.

Take notice that on April 2, 2004, ANR Pipeline Company (ANR) tendered for filing and approval amendments to two agreements for service under Rate Schedule FSS between ANR and Wisconsin Public Service Corporation which change the contract quantities and rates under the two negotiated rate agreements between the parties.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's rules and regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary. [Docket No. RP04-254-000]

#### City of Hamilton, Ohio v. Texas Eastern Transmission, L.P.; Notice of Complaint

April 9, 2004.

Take notice that on April 7, 2004, the City of Hamilton, Ohio (Hamilton) filed a complaint against Texas Eastern Transmission, L.P. (Texas Eastern) pursuant to sections 5(a), 13, 14, and 16 of the Natural Gas Act, 15 U.S.C. 717d(a), 717l, 717m, and 717o, and rule 206 of the rules and regulations of the Federal Energy Regulatory Commission, 18 CFR 385.206 (2003). Hamilton alleges that Texas Eastern is violating Commission policy on market center development by employing a rate design and applying its tariff provisions in a way that severely impedes the natural formation of market centers and inhibits the flexible commercial interchange of natural gas. Hamilton alleges further that Texas Eastern's rate structure requires customers to pay for more transportation that they need because it is based on overly-expansive zones. Hamilton also alleges that Texas Eastern's rates violate the Commission's regulations by constraining shippers' rights to segmentation due to application of multiple fuel use charges, and violate the Commission's policies regarding backhauls.

Any person desiring to be heard or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding.

Any person wishing to become a party must file a motion to intervene. The answer to the complaint and all comments, interventions or protests must be filed on or before the comment date. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "e-Library" link. Enter the docket number excluding the last three digits in the docket number field to access the document. ### Federal Energy Regulatory Commission

[Docket No. CP04-98-000]

#### Southern Star Central Gas Pipeline, Inc.; Notice of Application

April 8, 2004.

On March 30, 2004, Southern Star Central Gas Pipeline, Inc. (Southern Star), 3800 Frederica Street, Owensboro, Kentucky 43201, filed an application in the above referenced docket, pursuant to sections 7(b) of the Natural Gas Act (NGA), and part 157 of the Federal Energy Regulatory Commission's (Commission) rules and regulations for an order permitting and approving the abandonment of four Type 26 compressor engines and auxiliary equipment at the Hugoton Compressor Station located in Grant County, Kansas. Southern Star states that the four Cooper Bessemer Type 26 compressor engines are no longer required to provide the service for which they were originally installed due to production decline from the Kansas-Hugoton Gas Field. Southern Star asserts that the horsepower additions at the Hugoton station approved by the Commission in 1968 and 1997 are more than sufficient to move Southern Star's current

contractual obligations as well as any anticipated future volumes. Furthermore, the Type 26 compressor engines are now inefficient to operate and maintain and, consequently, are no longer used and useful.

Southern Star states that the reclaim will include the twelve (12) engines previously abandoned and disconnected in 1968 and 1997 that still remain in the same place. The building housing of all of the Type 26 engines will be removed except for one section that will be used for storage. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "e-Library" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (866) 208-3676, or for TTY, (202) 502-8659.

Any questions regarding this application should be directed to David N. Roberts, Manager, Regulatory Affairs, at (270) 853-4654.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 385.214 or 385.211) and the regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing

comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

#### Styrka Energy Fund Ltd., Styrka Energy Fund LLC; Notice Of Issuance Of Order

April 9, 2004.

Styrka Energy Fund Ltd. and Styrka Energy Fund LLC (together, Styrka) filed applications for market-based rate authority, with accompanying rate schedules. The proposed market-based rate schedules provide for wholesale sales of capacity, energy and ancillary services at market-based rates. Styrka also requested waiver of various Commission regulations. In particular, Styrka requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liability by Styrka.
