However, should petitioners or other interested parties provide a reasonable basis to believe or suspect that there exists a pattern of importation of such products for other than those applications, end-use certification for the importation of such products may be required. Final Results of Review

We find that only merchandise produced and exported by the Stelco Group is excluded from the antidumping duty order. For a complete discussion of the basis of this decision, see the *Preliminary Results*. Because we received no comments, other than those supporting the Department's preliminary results, we have adopted the same position in these final results.

Effective as of the date of these final results, we will instruct CBP to continue to liquidate without regard to antidumping duties subject merchandise produced and exported by the Stelco Group. For all merchandise produced but not exported by the Stelco Group we will instruct CBP to collect a cash deposit equal to the rate established for the exporter, or if the exporter does not have its own rate, the "All Others" rate of 8.11 percent. Furthermore, for the period prior to the effective date of the final results of this changed circumstances review, we will instruct CBP to liquidate any entries of merchandise produced by Stelco, regardless of exporter, without regard to antidumping duties.

We are issuing and publishing this finding and notice in accordance with sections 751(b)(1) and 777(i)(1) of the Act and sections 351.216 and 351.221(c)(3) of the Department's regulations.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-557-812]

Notice of Amended Final Determination of Sales at Not Less Than Fair Value: Certain Color Television Receivers From Malaysia

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* May 7, 2004.

FOR FURTHER INFORMATION CONTACT: Mike Strollo or Gregory Kalbaugh at (202) 482-0629 and (202) 482-3693, respectively, AD/CVD Enforcement, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Amendment to Final Results

In accordance with section 735 of the Tariff Act of 1930, as amended (the Act), on April 16, 2004, the Department published the final determination in the less-than-fair-value investigation on certain color televisions from Malaysia. See *Notice of Final Determination of Sales at Not Less Than Fair Value: Certain Color Television Receivers from Malaysia* (69 FR 20592). On April 16, 2004, we received an allegation, timely filed pursuant to 19 CFR 351.224(c)(2), from Funai Electric (Malaysia) Sdn. Bhd. (Funai Malaysia), the sole respondent, that the Department made a ministerial error in its final determination. We did not receive comments from the petitioners (*i.e.*, Five Rivers Electronic Innovations, LLC, the International Brotherhood of Electrical Workers, and the Industrial Division of the Communications Workers of America). After analyzing Funai Malaysia's submission, we have determined, in accordance with 19 CFR 351.224, that a ministerial error was made in our final margin calculation for Funai Malaysia. Specifically, we find that we failed to revise our surrogate direct and indirect selling expenses for the domestic market to use the company-specific data of Formosa Prosonic Industries, the same company from which the profit ratio was derived.

For a detailed discussion of the ministerial error noted above, as well as

the Department's analysis, see the memorandum to Jeffrey May from the team, dated April 28, 2004.

Therefore, in accordance with 19 CFR 351.224(e), we are amending the final determination in the less-than-fair-value investigation on certain color television receivers from Malaysia. The margin for Funai Malaysia remains *de minimis*. The revised weighted-average dumping margin is as follows:

| Manufacturer/exporter | Original margin (percent) | Revised margin (percent) |
|---|---------------------------|--------------------------|
| Funai Electric (Malaysia) Sdn. Bhd (Funai Malaysia) | 0.75 | 0.47 |

Scope of the Investigation

For purposes of this investigation, the term "certain color television receivers" includes complete and incomplete direct-view or projection-type cathode-ray tube color television receivers, with a video display diagonal exceeding 52 centimeters, whether or not combined with video recording or reproducing apparatus, which are capable of receiving a broadcast television signal and producing a video image. Specifically excluded from this investigation are computer monitors or other video display devices that are not capable of receiving a broadcast television signal.

The color television receivers subject to this investigation are currently classifiable under subheadings 8528.12.2800, 8528.12.3250, 8528.12.3290, 8528.12.4000, 8528.12.5600, 8528.12.3600, 8528.12.4400, 8528.12.4800, and 8528.12.5200 of the *Harmonized Tariff Schedule of the United States* ("HTSUS"). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the merchandise under investigation is dispositive.

This investigation and notice are in accordance with sections 735(d) and 777(i) of the Act.

Dated: April 30, 2004.
