

Federal Register

5-27-04

Vol. 69 No. 103

Thursday

May 27, 2004

Pages 30151-30552

The **FEDERAL REGISTER** (ISSN 0097-6326) is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is the exclusive distributor of the official edition. Periodicals postage is paid at Washington, DC.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, www.archives.gov.

The seal of the National Archives and Records Administration authenticates the **Federal Register** as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge as one of the databases on GPO Access, a service of the U.S. Government Printing Office.

The online edition of the **Federal Register** www.access.gpo.gov/nara, available through GPO Access, is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6 a.m. each day the **Federal Register** is published and includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward.

For more information about GPO Access, contact the GPO Access User Support Team, call toll free 1-888-293-6498; DC area 202-512-1530; fax at 202-512-1262; or via email at gpoaccess@gpo.gov. The Support Team is available between 7:00 a.m. and 9:00 p.m. Eastern Time, Monday–Friday, except official holidays.

The annual subscription price for the **Federal Register** paper edition is \$749 plus postage, or \$808, plus postage, for a combined **Federal Register**, **Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is \$165, plus postage. Six month subscriptions are available for one-half the annual rate. The prevailing postal rates will be applied to orders according to the delivery method requested. The price of a single copy of the daily **Federal Register**, including postage, is based on the number of pages: \$11 for an issue containing less than 200 pages; \$22 for an issue containing 200 to 400 pages; and \$33 for an issue containing more than 400 pages. Single issues of the microfiche edition may be purchased for \$3 per copy, including postage. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard, American Express, or Discover. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954; or call toll free 1-866-512-1800, DC area 202-512-1800; or go to the U.S. Government Online Bookstore site, [bookstore@gpo.gov](http://bookstore.gpo.gov).

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 69 FR 12345.

Postmaster: Send address changes to the Superintendent of Documents, Federal Register, U.S. Government Printing Office, Washington DC 20402, along with the entire mailing label from the last issue received.

Rules and Regulations

Federal Register

Vol. 69, No. 103

Thursday, May 27, 2004

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

10 CFR Part 431

Energy Conservation Program for Certain Industrial Equipment: Granting of the Application for Interim Waiver and Publishing of the Petition for Waiver of GSW Water Heating From the DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters (Case No. WH-014)

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver and solicitation of comments; grant of interim waiver.

SUMMARY: Today's notice grants an Interim Waiver to GSW Water Heating (GSW) and publishes GSW's Petition for Waiver from the existing Department of Energy (the Department or DOE) test procedure for commercial water heaters. GSW claims that it cannot demonstrate compliance with the new energy efficiency requirements for commercial water heating products that became effective October 29, 2003, for some of its water heater models, using the current test procedure. The test procedure for measuring compliance with the new standards was published as a proposed rule on August 9, 2000, and has not yet been finalized. As part of today's action, the Department is also soliciting comments, data, and information with respect to the Petition for Waiver.

DATES: The Department will accept comments, data, and information with respect to this Petition for Waiver on or before June 28, 2004.

ADDRESSES: You may submit comments, identified by Case No. WH-014, by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- E-mail: commercialwaterheaterwaiver@ee.doe.gov. Include Case No. WH-014 in the subject line of the message.

- Mail: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2J, Commercial Water Heater Waiver, Case No. WH-014, 1000 Independence Avenue, SW., Washington, DC 20585-0121. Telephone: (202) 586-2945. Please submit one signed paper original.

- Hand Delivery/Courier: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Building Technologies Program, Room 1J-018, 1000 Independence Avenue, SW., Washington, DC 20585.

To read background documents or comments received, go to the U.S. Department of Energy, Forrestal Building, Room 1J-018 (Resource Room of the Building Technologies Program), 1000 Independence Avenue, SW., Washington, DC, (202) 586-9127, between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays. Please call Ms. Brenda Edwards-Jones at the above telephone number for additional information regarding visiting the Resource Room. Please note: The Department's Freedom of Information Reading Room (formerly Room 1E-190 at the Forrestal Building) is no longer housing rulemaking materials.

FOR FURTHER INFORMATION CONTACT: Mohammed Khan, Project Manager, U.S. Department of Energy, Building Technologies Program, Mail Stop EE-2J, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585-0121, (202) 586-7892; e-mail: Mohammed.Khan@ee.doe.gov; or Francine Pinto, Esq., or Thomas DePriest, Esq., U.S. Department of Energy, Office of General Counsel, Mail Stop GC-72, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585-0103, (202) 586-9507; e-mail: Francine.Pinto@hq.doe.gov, or Thomas.DePriest@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Title III of the Energy Policy and Conservation Act (EPCA) sets forth a variety of provisions concerning energy efficiency. Part B of

Title III (42 U.S.C. 6291-6309) provides for the "Energy Conservation Program for Consumer Products Other than Automobiles." Part C of Title III (42 U.S.C. 6311-6317) provides for a program entitled, "Certain Industrial Equipment," which is similar to the program in Part B, and which includes commercial air conditioning equipment, packaged boilers, water heaters, and other types of commercial equipment.

Today's notice involves commercial equipment under Part C, which specifically provides for definitions, test procedures, labeling requirements, energy conservation standards, and information and reports from manufacturers. With respect to test procedures, Part C generally authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results that reflect energy efficiency, energy use and estimated annual operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6314)

For commercial water heaters, EPCA provides that DOE's test procedure shall be that generally accepted industry test procedure developed or recognized by the Air-Conditioning and Refrigeration Institute (ARI) or by the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE), as referenced in ASHRAE/Illuminating Engineers Society (IES) Standard 90.1 and in effect on June 30, 1992. (42 U.S.C. 6314(a)(4)(A)) This statute also provides that if this industry test procedure is amended, the Secretary of Energy shall amend DOE's test procedure to be consistent with the amended industry test procedure, unless the Secretary determines that such a modified test procedure does not meet the statutory criteria. (42 U.S.C. 6314(a)(4)(B))

The current DOE test procedure that is applicable to this equipment is the one referenced in the version of ASHRAE/IES 90.1 in effect in 1992, the American National Standards Institute (ANSI)/Canadian Standards Association (CSA) Standard Z21.10.3-1990. In response to ASHRAE's amendment to this standard, the Department issued a Notice of Proposed Rulemaking to adopt an updated test procedure for commercial water heaters, ANSI/CSA Standard Z21.10.3-1998, which is referenced in ASHRAE/IES Standard 90.1-1999. (65 FR 48852, August 9,

2000) The Department, however, has not taken final action with respect to the proposed rule. Thus, the Standard Z21.10.3-1990 remains the applicable test procedure.

In January 2001, the Department adopted the AHSRAE 90.1-1999 energy efficiency standards for commercial gas-fired and oil-fired water heaters as new Federal efficiency standards effective October 29, 2003. (66 FR 3335, January 12, 2001.) Because the Department has not yet issued a final rule on its proposal for an updated test procedure for commercial water heaters, commercial water heater manufacturers must demonstrate compliance with the new energy efficiency standards using the existing DOE test procedure.

The Department is required to make adjustments to its regulations, as necessary, to prevent special hardship, inequity or unfair distribution of burdens. (42 U.S.C. 7194) Currently, the Department has regulatory provisions in 10 CFR 430.27 and 10 CFR 431.29 allowing a waiver from test procedure requirements for covered consumer products and electric motors. There are no specific waiver provisions for other covered commercial equipment. However, the Department proposed waiver provisions for covered commercial equipment on December 13, 1999 (64 FR 69597), as part of the commercial furnace test procedure rule, and the Department expects to publish a final rule codifying this process in 10 CFR 431.201. Until that occurs, DOE will use the waiver provisions for consumer products and electric motors for waivers involving other covered commercial equipment. These waiver provisions are substantively identical.

The waiver provisions allow the Assistant Secretary for Energy Efficiency and Renewable Energy to waive temporarily the test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics that prevent testing according to the prescribed test procedures, or when the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption as to provide materially inaccurate comparative data. (See 10 CFR 430.27(a)(1), 10 CFR 431.29(a)(1).) Waivers generally remain in effect until final test procedure amendments become effective, thereby resolving the problem that is the subject of the waiver.

DOE will grant an Interim Waiver if it determines that the applicant will experience economic hardship if the Application for Interim Waiver is denied, if it appears likely that the

Petition for Waiver will be granted, and/or the Assistant Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the Petition for Waiver. (See 10 CFR 430.27(g).) An Interim Waiver remains in effect for a period of 180 days or until DOE issues its determination on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180 days, if necessary.

On July 31, 2003, GSW filed a Petition for Waiver and Application for Interim Waiver from the "DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters," referenced in the version of ASHRAE 90.1 in effect in 1992, ANSI/CSA Z21.10.3-1990. It requested permission to use ASHRAE Standard 118.1-2003 as an alternate test procedure for its water heating products having the following model numbers: JW80-160N, JW80-199N, JW80-160NH, JW80-199NH, JW100-160N, JW100-199N, JW100-160NH, JW100-199NH, JW70-250N, JW70-300N, JW70-360N, JW70-250NH, JW70-300NH, and JW70-360NH.

In its petition, GSW seeks a waiver from the applicable test procedure because GSW asserts that the current DOE test procedure is incompatible with the new DOE energy efficiency standards, which became effective on October 29, 2003. GSW also states that the above-specified models of water heating products do not meet the new energy efficiency requirements using the current test procedure.

Due to the fact that DOE has experienced delays in publishing a final rule for the test procedure for commercial water heating products, and also recognizes that certain basic models of commercial water heaters are allegedly not compliant with the new energy efficiency standards absent a waiver from the current DOE test procedure, the Department has decided to grant this interim waiver to ensure that such models do not become noncompliant. However, the Department believes the appropriate alternate is the test procedure published in the August 9, 2000, proposed rule, which incorporates by reference ANSI/CSA Standard Z21.10.3-1998, the applicable industry standard referenced by ASHRAE/IES Standard 90.1-1999. EPCA requires the Department, for certain commercial equipment, to amend its test procedures consistent with amended ASHRAE or ARI industry test procedures. (42 U.S.C. 6314(4)(B)) Because ASHRAE Standard 118.1-2003 is not referenced in the amended ASHRAE Standard 90.1-1999, it would be inconsistent with the statutory

language of EPCA to use it as an alternate test procedure as GSW requests.

The most significant differences between the protocols presented in the proposed August 9, 2000, DOE test procedure and those presented in ASHRAE Standard 118.1-2003 are the duration requirements for the Standby Loss Test; other differences are minimal. The ANSI/CSA Standard Z21.10.3-1998 test procedure specifies that the Standby Loss Test shall continue until the first cutout occurs following 24 hours from the time data collection is initiated. Because it is possible for some water heaters to not experience the cutout until days beyond the 24 hour limit, the industry test standard, ASHRAE Standard 118.1-2003, includes a 48-hour limit to preclude undue test burdens. The inclusion of a 48-hour provision in the proposed DOE test procedure was suggested by the Gas Appliance Manufacturers Association (GAMA) and the California Energy Commission (CEC) in comments submitted in response to the August 9, 2000, proposed rule. The Department agrees with the need for the additional test duration requirement and believes that the evidence in the record is clear and convincing that without the 48-hour termination provision, the standby loss test procedure in the ANSI/CSA Standard Z21.10.3-1998 can pose undue burdens on manufacturers. Therefore, this waiver authorizes the use of ANSI/CSA Standard Z21.10.3-1998, and regarding the Standby Loss Test in section 2.10 of ANSI/CSA Standard Z21.10.3-1998, adds the requirement that the standby loss test duration shall be the shorter of either, (1) until the first cutout following 24 hours from the initiation of data collection, or (2) until 48 hours from the initiation of data collection if the water heater is not in the heating mode at that time.

After careful consideration of all the material that was submitted by GSW and others, the Department has decided to grant this interim waiver for the public policy reason that it is not desirable to make certain models of commercial water heaters noncompliant with the applicable energy efficiency standards given that the appropriate test procedure is not yet finalized. Hence, it is ordered that:

(1) The "Application for Interim Waiver" filed by GSW is hereby granted for the basic models of water heating equipment as follows: JW80-160N, JW80-199N, JW80-160NH, JW80-199NH, JW100-160N, JW100-199N, JW100-160NH, JW100-199NH, JW70-250N, JW70-300N, JW70-360N, JW70-

250NH, JW70–300NH, and JW70–360NH.

(2) GSW is permitted the use of ANSI/CSA Standard Z21.10.3–1998 to establish compliance with the efficiency standards for its water heating products manufactured after October 29, 2003.

Further, regarding the Standby Loss Test, section 2.10 of ANSI/CSA Standard Z21.10.3–1998, the use of an additional test duration requirement is permitted as follows: The standby loss test duration shall be the shorter of either, (i) until the first cutout following 24 hours from the initiation of data collection, or (ii) until 48 hours from the initiation of data collection if the water

heater is not in the heating mode at that time.

This Interim Waiver is based upon the presumed validity of statements and all allegations submitted by the company.

This Interim Waiver may be removed or modified at any time upon a determination that the factual basis underlying the Application is incorrect.

This Interim Waiver shall remain in effect for a period of 180 days after issuance or until DOE acts on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180-day period, if necessary. DOE is hereby publishing the “Petition for Waiver” in its entirety. (See 10 CFR

430.27(b).) The Petition contains no confidential information. The Department solicits comments, data, and information respecting the Petition.

Any person submitting written comments to DOE concerning either the Petition for Waiver or Interim Waiver must also send a copy of such comments to the petitioner. 10 CFR 430.27(b)(1)(iv) and 430.27(d).

Issued in Washington, DC, on May 21, 2004.

David K. Garman,

Assistant Secretary, Energy Efficiency and Renewable Energy.

BILLING CODE 6450–01–P

Re: Petition for Waiver and Application for Interim Waiver

Dear Sir:

GSW Water Heating respectfully submits this Petition for Waiver and Application for Interim Waiver pursuant to Title 10 CFR Part 431.29. The waiver is requested from the uniform federal test procedures for measuring efficiency of commercial water heaters referenced in 42 U.S.C. Section 6314(a)(4)(A). This petition affects the following water heater models:

Model Numbers: JW80-160N, JW80-199N, JW80-160NH, JW80-199NH, JW100-160N, JW100-199N, JW100-160NH, JW100-199NH, JW70-250N, JW70-300N, JW70-360N, JW70-250NH, JW70-300NH, JW70-360NH

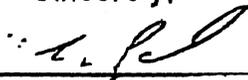

In the January 12, 2001 Federal Register, DOE published a final rule adopting ASHRAE Standard 90.1-1999 energy efficiency standards for 18 product categories of commercial heating and air conditioning equipment as uniform national standards pursuant to the Energy Policy and Conservation Act (EPCA), as amended by the Energy Policy Act of 1992 (EPACT). These new mandatory national minimum standards are applicable to commercial water heating products manufactured after October 29, 2003 (i.e. two years after the October 29, 2001 effective date specified in ASHRAE Standard 90.1-1999).

The Notices of Proposed Rules (NOPRs) to adopt new test procedures corresponding with the new efficiency standards related to boilers and water heaters were issued August 9, 2000, but the final rules have still not been issued. This delay in implementation of the new test procedures forces water heater manufacturers to continue to test products to the current federal test procedures in order to meet the new federal efficiency standards.

Due to the incompatibility of the current test procedures with the new federal efficiency standards, we might be unable to meet the new efficiency requirements using the current test procedure for these products. Exhibit A demonstrates the differences between the current federal test procedures, and those contained in ASHRAE 90.1-1999, and our proposed alternate test method, ASHRAE 118.1-2003. Pursuant to 42 U.S.C. Section 6314 (a)(4)(B), DOE is required by law to adopt ASHRAE Standard 118.1-2003, *Method of Testing for Rating Commercial Gas, Electric, and Oil Service Water Heating Equipment*, as the federal test procedure for commercial water heaters unless DOE can justify by clear and convincing evidence adoption of an alternative test procedure for these products. We respectfully request that DOE allow use of ASHRAE Standard 118.1-2003 to test commercial water heaters.

Manufacturers who market similar products, see Exhibit B, are being sent a copy of this petition. If any further information is required, please contact me.

Sincerely,

(Name)

Fred Eng Supv.

Re: Petition for Waiver and Application for Interim Waiver

Dear Sir:

GSW Water Heating respectfully submits this Petition for Waiver and Application for Interim Waiver pursuant to Title 10 CFR Part 431.29. The waiver is requested from the uniform federal test procedures for measuring efficiency of commercial water heaters referenced in 42 U.S.C. Section 6314(a)(4)(A). This petition affects the following water heater models:

Model Numbers: 100-250, 100-199, 65-360, 65-370, 85-360, 85-370, 75-250, 82-250, 75-199, 82-199, 65-120, 65-300, 65-310, 85-300, 85-310, 80-390, 80-400, 100-390, 100-400

NOTE: Prefix of JWF, Suffix of N, P or Nox

Model Numbers: 100T250, 100T199, 65T370, 80T250, 80T199, 65T120, 75T300, 80T399

Note: Prefix of DCG3, Suffix of N, P or NO

The above models are currently in development and will be certified in the near future.

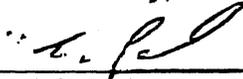

In the January 12, 2001 Federal Register, DOE published a final rule adopting ASHRAE Standard 90.1-1999 energy efficiency standards for 18 product categories of commercial heating and air conditioning equipment as uniform national standards pursuant to the Energy Policy and Conservation Act (EPCA), as amended by the Energy Policy Act of 1992 (EPACT). These new mandatory national minimum standards are applicable to commercial water heating products manufactured after October 29, 2003 (i.e. two years after the October 29, 2001 effective date specified in ASHRAE Standard 90.1-1999).

The Notices of Proposed Rules (NOPRs) to adopt new test procedures corresponding with the new efficiency standards related to boilers and water heaters were issued August 9, 2000, but the final rules have still not been issued. This delay in implementation of the new test procedures forces water heater manufacturers to continue to test products to the current federal test procedures in order to meet the new federal efficiency standards.

Due to the incompatibility of the current test procedures with the new federal efficiency standards, we might be unable to meet the new efficiency requirements using the current test procedure for these products. Exhibit A demonstrates the differences between the current federal test procedures, and those contained in ASHRAE 90.1-1999, and our proposed alternate test method, ASHRAE 118.1-2003. Pursuant to 42 U.S.C. Section 6314 (a)(4)(B), DOE is required by law to adopt ASHRAE Standard 118.1-2003, *Method of Testing for Rating Commercial Gas, Electric, and Oil Service Water Heating Equipment*, as the federal test procedure for commercial water heaters unless DOE can justify by clear and convincing evidence adoption of an alternative test procedure for these products. We respectfully request that DOE allow use of ASHRAE Standard 118.1-2003 to test commercial water heaters.

Manufacturers who market similar products, see Exhibit B, are being sent a copy of this petition. If any further information is required, please contact me.

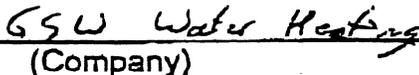

Sincerely,

BILLING CODE 6450-01-C

DEPARTMENT OF ENERGY**Office of Energy Efficiency and Renewable Energy****10 CFR Part 431**

Energy Conservation Program for Certain Industrial Equipment: Granting of the Application for Interim Waiver and Publishing of the Petition for Waiver of Heat Transfer Products, Inc. From the DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters (Case No. WH-015)

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver and solicitation of comments; grant of interim waiver.

SUMMARY: Today's notice grants an Interim Waiver to Heat Transfer Products, Inc. (HTP) and publishes HTP's Petition for Waiver from the existing Department of Energy (the Department or DOE) test procedure for commercial water heaters. HTP claims that it cannot demonstrate compliance with the new energy efficiency requirements for commercial water heating products that became effective October 29, 2003, for some of its water heater models, using the current test procedure. The test procedure for measuring compliance with the new

standards was published as a proposed rule on August 9, 2000, and has not yet been finalized. As part of today's action, the Department is also soliciting comments, data, and information with respect to the Petition for Waiver.

DATES: The Department will accept comments, data, and information with respect to this Petition for Waiver on or before June 28, 2004.

ADDRESSES: You may submit comments, identified by Case No. WH-015, by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- E-mail: commercialwaterheaterwaiver@ee.doe.gov. Include Case No. WH-015 in the subject line of the message.

- Mail: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2J, Commercial Water Heater Waiver, Case No. WH-015, 1000 Independence Avenue, SW., Washington, DC 20585-0121. Telephone: (202) 586-2945. Please submit one signed paper original.

- Hand Delivery/Courier: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Building Technologies Program, Room 1J-018, 1000 Independence Avenue, SW., Washington, DC 20585.

To read background documents or comments received, go to the U.S. Department of Energy, Forrestal Building, Room 1J-018 (Resource Room of the Building Technologies Program), 1000 Independence Avenue, SW., Washington, DC, (202) 586-9127, between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

Please call Ms. Brenda Edwards-Jones at the above telephone number for additional information regarding visiting the Resource Room. Please note: The Department's Freedom of Information Reading Room (formerly Room 1E-190 at the Forrestal Building) is no longer housing rulemaking materials.

FOR FURTHER INFORMATION CONTACT:

Mohammed Khan, U.S. Department of Energy, Building Technologies Program, Mail Stop EE-2J, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585-0121, (202) 586-7892; e-mail: Mohammed.Khan@ee.doe.gov; or Francine Pinto, Esq., or Thomas DePriest, Esq., U.S. Department of Energy, Office of General Counsel, Mail Stop GC-72, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585-0103, (202) 586-9507; e-mail: Francine.Pinto@hq.doe.gov, or Thomas.DePriest@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Title III of the Energy Policy and Conservation Act (EPCA) sets forth a variety of provisions concerning energy efficiency. Part B of Title III (42 U.S.C. 6291-6309) provides for the "Energy Conservation Program for Consumer Products Other than Automobiles." Part C of Title III (42 U.S.C. 6311-6317) provides for a program entitled, "Certain Industrial Equipment," which is similar to the program in Part B, and which includes commercial air conditioning equipment, packaged boilers, water heaters, and other types of commercial equipment.

Today's notice involves commercial equipment under Part C, which

specifically provides for definitions, test procedures, labeling requirements, energy conservation standards, and information and reports from manufacturers. With respect to test procedures, Part C generally authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results that reflect energy efficiency, energy use and estimated annual operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6314.)

For commercial water heaters, EPCA provides that DOE's test procedure shall be that generally accepted industry test procedure developed or recognized by the Air-Conditioning and Refrigeration Institute (ARI) or by the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE), as referenced in ASHRAE/Illuminating Engineers Society (IES) Standard 90.1 and in effect on June 30, 1992. (42 U.S.C. 6314(a)(4)(A).) This statute also provides that if this industry test procedure is amended, the Secretary of Energy shall amend DOE's test procedure to be consistent with the amended industry test procedure, unless the Secretary determines that such a modified test procedure does not meet the statutory criteria. (42 U.S.C. 6314(a)(4)(B).)

The current DOE test procedure that is applicable to this equipment is the one referenced in the version of ASHRAE/IES 90.1 in effect in 1992, the American National Standards Institute (ANSI)/Canadian Standards Association (CSA) Standard Z21.10.3-1990. In response to ASHRAE's amendment to this standard, the Department issued a Notice of Proposed Rulemaking to adopt an updated test procedure for commercial water heaters, ANSI/CSA Standard Z21.10.3-1998, which is referenced in ASHRAE/IES Standard 90.1-1999. (65 FR 48852, August 9, 2000) The Department however, has not taken final action with respect to the proposed rule. Thus, the Standard Z21.10.3-1990 remains the applicable test procedure.

In January 2001, the Department adopted the AHSRAE 90.1-1999 energy efficiency standards for commercial gas-fired and oil-fired water heaters as new Federal efficiency standards effective October 29, 2003. (66 FR 3335, January 12, 2001.) Because the Department has not yet issued a final rule on its proposal for an updated test procedure for commercial water heaters, commercial water heater manufacturers must demonstrate compliance with the new energy efficiency standards using the existing DOE test procedure.

The Department is required to make adjustments to its regulations, as necessary, to prevent special hardship, inequity or unfair distribution of burdens. (42 U.S.C. 7194.) Currently, the Department has regulatory provisions in 10 CFR 430.27 and 10 CFR 431.29 allowing a waiver from test procedure requirements for covered consumer products and electric motors. There are no specific waiver provisions for other covered commercial equipment. However, the Department proposed waiver provisions for covered commercial equipment on December 13, 1999 (64 FR 69597), as part of the commercial furnace test procedure rule, and the Department expects to publish a final rule codifying this process in 10 CFR 431.201. Until that occurs, DOE will use the waiver provisions for consumer products and electric motors for waivers involving other covered commercial equipment. These waiver provisions are substantively identical.

The waiver provisions allow the Assistant Secretary for Energy Efficiency and Renewable Energy to waive temporarily the test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics that prevent testing according to the prescribed test procedures, or when the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption as to provide materially inaccurate comparative data. (See 10 CFR 430.27 (a)(1), 10 CFR 431.29 (a)(1).) Waivers generally remain in effect until final test procedure amendments become effective, thereby resolving the problem that is the subject of the waiver.

DOE will grant an Interim Waiver if it determines that the applicant will experience economic hardship if the Application for Interim Waiver is denied, if it appears likely that the Petition for Waiver will be granted, and/or the Assistant Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the Petition for Waiver. (See 10 CFR 430.27 (g).) An Interim Waiver remains in effect for a period of 180 days or until DOE issues its determination on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180 days, if necessary.

On July 30, 2003, HTP filed a Petition for Waiver and Application for Interim Waiver from the "DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters," referenced in the version of ASHRAE 90.1 in effect in 1992, ANSI/CSA

Z21.10.3-1990. It requested permission to use ASHRAE Standard 118.1-2003 as an alternate test procedure for its water heating products having the following model numbers: SSV199-45, SSV160-45, SSV130-45, SSVH130-45, SSV100-45, SSV90-45, SSVH90-45, SSV199-80, SSVH199-80, SSV160-80, SSV130-80, SSV199-119, SSV160-119, SV130-119, SA199-45, SA160-45, SA130-45, SA-90-45, SE199-45, SE199-80, SE199-119, HE45-199, HE45-160, HE45-130, HE45-100, HE80-199, HE80-160, HE80-130, HE119-199, HE119-160, and HE119-130.

In its petition, HTP seeks a waiver from the applicable test procedure because HTP asserts that the current DOE test procedure is incompatible with the new DOE energy efficiency standards, which became effective on October 29, 2003. HTP also states that the above-specified models of water heating products do not meet the new energy efficiency requirements using the current test procedure.

Due to the fact that DOE has experienced delays in publishing a final rule for the test procedure for commercial water heating products, and also recognizes that certain basic models of commercial water heaters are allegedly not compliant with the new energy efficiency standards absent a waiver from the current DOE test procedure, the Department has decided to grant this interim waiver to ensure that such models do not become noncompliant. However, the Department believes the appropriate alternate is the test procedure published in the August 9, 2000, proposed rule, which incorporates by reference ANSI/CSA Standard Z21.10.3-1998, the applicable industry standard referenced by ASHRAE/IES Standard 90.1-1999. EPCA requires the Department, for certain commercial equipment, to amend its test procedures consistent with amended ASHRAE or ARI industry test procedures. (42 U.S.C. 6314(4)(B)) Because ASHRAE Standard 118.1-2003 is not referenced in the amended ASHRAE Standard 90.1-1999, it would be inconsistent with the statutory language of EPCA to use it as an alternate test procedure as HTP requests.

The most significant differences between the protocols presented in the proposed August 9, 2000, DOE test procedure and those presented in ASHRAE Standard 118.1-2003 are the duration requirements for the Standby Loss Test; other differences are minimal. The ANSI/CSA Standard Z21.10.3-1998 test procedure specifies that the Standby Loss Test shall continue until the first cutout occurs following 24 hours from

the time data collection is initiated. Because it is possible for some water heaters to not experience the cutout until days beyond the 24 hour limit, the industry test standard, ASHRAE Standard 118.1-2003, includes a 48-hour limit to preclude undue test burdens. The inclusion of a 48-hour provision in the proposed DOE test procedure was suggested by the Gas Appliance Manufacturers Association (GAMA) and the California Energy Commission (CEC) in comments submitted in response to the August 9, 2000, proposed rule. The Department agrees with the need for the additional test duration requirement and believes that the evidence in the record is clear and convincing that without the 48-hour termination provision, the standby loss test procedure in the ANSI/CSA Standard Z21.10.3-1998 can pose undue burdens on manufacturers. Therefore, this waiver authorizes the use of ANSI/CSA Standard Z21.10.3-1998, and regarding the Standby Loss Test in section 2.10 of ANSI/CSA Standard Z21.10.3-1998, adds the requirement that the standby loss test duration shall be the shorter of either, (1) until the first cutout following 24 hours from the initiation of data collection, or (2) until 48 hours from the initiation of data collection if the water heater is not in the heating mode at that time.

After careful consideration of all the material that was submitted by HTP and others, the Department has decided to grant this interim waiver for the public policy reason that it is not desirable to make certain models of commercial water heaters noncompliant with the applicable energy efficiency standards given that the appropriate test procedure is not yet finalized. Hence, it is ordered that:

(1) The "Application for Interim Waiver" filed by HTP is hereby granted for the basic models of water heating equipment as follows: SSV199-45, SSV160-45, SSV130-45, SSVH130-45, SSV100-45, SSV90-45, SSVH90-45, SSV199-80, SSVH199-80, SSV160-80, SSV130-80, SSV199-119, SSV160-119, SV130-119, SA199-45, SA160-45, SA130-45, SA-90-45, SE199-45, SE199-80, SE199-119, HE45-199, HE45-160, HE45-130, HE45-100, HE80-199, HE80-160, HE80-130, HE119-199, HE119-160, and HE119-130.

(2) HTP is permitted the use of ANSI/CSA Standard Z21.10.3-1998 to establish compliance with the efficiency standards for its water heating products manufactured after October 29, 2003. Further, regarding the Standby Loss Test, section 2.10 of ANSI/CSA Standard Z21.10.3-1998, the use of an additional test duration requirement is permitted as follows: The standby loss test duration shall be the shorter of

either, (i) until the first cutout following 24 hours from the initiation of data collection, or (ii) until 48 hours from the initiation of data collection if the water heater is not in the heating mode at that time.

This Interim Waiver is based upon the presumed validity of statements and all allegations submitted by the company. This Interim Waiver may be removed or modified at any time upon a determination that the factual basis underlying the Application is incorrect.

This Interim Waiver shall remain in effect for a period of 180 days after issuance or until DOE acts on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180-day period, if necessary. DOE is hereby publishing the "Petition for Waiver" in its entirety. (See 10 CFR 430.27(b).) The Petition contains no confidential information. The Department solicits comments, data, and information respecting the Petition.

Any person submitting written comments to DOE concerning either the Petition for Waiver or Interim Waiver must also send a copy of such comments to the petitioner. 10 CFR 430.27(b)(1)(iv) and 430.27(d).

Issued in Washington, DC, on May 21, 2004.

David K. Garman,

Assistant Secretary, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

July 30, 2003

Mr. David Garman
Assistant Secretary, Energy Efficiency
and Renewable Energy

Re: Petition for Waiver and Application for Interim Waiver

Dear Sir:

Heat Transfer Products respectfully submits this Petition for Waiver and Application for Interim Waiver pursuant to Title 10 CFR part 431.29. Waiver is requested from the uniform federal test procedures for measuring efficiency of commercial water heaters referenced in 42 U.S.C. Section 6314(a)(4)(A). This petition affects the following water heater models:

Model Numbers:

Heat Transfer Products - Super-Stor, Voyager, Sanitizer

SSV199-45	SSVH90-45	SSV160-119
SSV160-45	SSV199-80	SSV130-119
SSV130-45	SSVH199-80	SA199-45
SSVH130-45	SSV160-80	SA160-45
SSV100-45	SSV130-80	SA130-45
SSV90-45	SSV199-119	SA-90-45

National Combustion Co., Inc. - Tradename for Natco, Super-E, Voyager, Super-Stor

SE199-45
SE199-80
SE199-119

Rheem Mfg. Co., Water Heater Division - Tradename for Advantage Plus

HE45-199	HE80-160
HE45-160	HE80-130
HE45-130	HE119-199
HE45-100	HE119-160
HE80-199	HE119-130

In the January 12, 2001 Federal Register, DOE published a final rule adopting ASHRAE Standard 90.1-1999 energy efficiency standards for 18 product categories of commercial heating and air conditioning equipment as uniform national standards pursuant to the Energy Policy and Conservation Act (EPCA), as amended by the Energy Policy Act of 1992 (EPACT). These new mandatory national minimum standards are applicable to commercial water heating products manufactured after October 29, 2003 (i.e. two years after the October 29, 2001 effective date specified in ASHRAE Standard 90.1-1999)

The Notices of Proposed Rules (NOPRs) to adopt new test procedures corresponding with the new efficiency standards related to boilers and water heaters were issued August 9, 2000, but the final rules have still not been issued. This delay in implementation of the new test procedures forces water heater manufacturers to continue to test products to the current federal test procedures in order to meet the new federal efficiency standards.

Due to the incompatibility of the current test procedures with the new federal efficiency standards, we are unable to meet the new efficiency requirements using the current test procedure for these products. Exhibit A demonstrates the differences between the current federal test procedures, and those contained in ASHRAE 90.1-1999, and our proposed alternate test method, ASHRAE 118.1-2003. Pursuant to 42 U.S.C. Section 6314 (a)(4)(B), DOE is required by law to adopt ASHRAE Standard 118.1-2003, *Method of Testing for Rating Commercial Gas, Electric, and Oil Service Water Heating Equipment*, as the federal test procedure for commercial water heaters unless DOE can justify by clear and convincing evidence adoption of an alternative test procedure for these products. We respectfully request that DOE allow use of ASHRAE Standard 118.1-2003 to test commercial water heaters.

Manufacturers who market similar products are being sent a copy of this petition. If any further information is required, please contact me.

Sincerely,

Patricia H. Apperson
Design Engineering
Heat Transfer Products, Inc.

BILLING CODE 6450-01-C

DEPARTMENT OF ENERGY**Office of Energy Efficiency and Renewable Energy****10 CFR Part 431**

Energy Conservation Program for Certain Industrial Equipment: Granting of the Application for Interim Waiver and Publishing of the Petition for Waiver of Rheem Water Heaters From the DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters (Case No. WH-017)

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver and solicitation of comments; grant of interim waiver.

SUMMARY: Today's notice grants an Interim Waiver to Rheem Water Heaters (RWH) and publishes RWH's Petition for Waiver from the existing Department of Energy (the Department or DOE) test procedure for commercial water heaters. RWH claims that it cannot demonstrate compliance with the new energy efficiency requirements for commercial water heating products that became effective October 29, 2003, for some of its water heater models, using the current test procedure. The test procedure for measuring compliance with the new standards was published as a proposed rule on August 9, 2000, and has not yet been finalized. As part of today's action, the Department is also soliciting comments, data, and information with respect to the Petition for Waiver.

DATES: The Department will accept comments, data, and information with respect to this Petition for Waiver on or before June 28, 2004.

ADDRESSES: You may submit comments, identified by Case No. WH-017, by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- E-mail: commercialwaterheaterwaiver@ee.doe.gov. Include Case No. WH-017 in the subject line of the message.
- Mail: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2J, Commercial Water Heater Waiver, Case No. WH-017, 1000 Independence Avenue, SW., Washington, DC 20585-0121. Telephone: (202) 586-2945. Please submit one signed paper original.
- Hand Delivery/Courier: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Building Technologies Program, Room 1J-018, 1000 Independence Avenue, SW., Washington, DC 20585.

To read background documents or comments received, go to the U.S. Department of Energy, Forrestal Building, Room 1J-018 (Resource Room

of the Building Technologies Program), 1000 Independence Avenue, SW., Washington, DC, (202) 586-9127, between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays. Please call Ms. Brenda Edwards-Jones at the above telephone number for additional information regarding visiting the Resource Room. Please note: The Department's Freedom of Information Reading Room (formerly Room 1E-190 at the Forrestal Building) is no longer housing rulemaking materials.

FOR FURTHER INFORMATION CONTACT:

Mohammed Khan, U.S. Department of Energy, Building Technologies Program, Mail Stop EE-2J, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585-0121, (202) 586-7892; e-mail:

Mohammed.Khan@ee.doe.gov; or Francine Pinto, Esq., or Thomas DePriest, Esq., U.S. Department of Energy, Office of General Counsel, Mail Stop GC-72, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585-0103, (202) 586-9507; e-mail: *Francine.Pinto@hq.doe.gov*, or *Thomas.DePriest@hq.doe.gov*.

SUPPLEMENTARY INFORMATION: Title III of the Energy Policy and Conservation Act (EPCA) sets forth a variety of provisions concerning energy efficiency. Part B of Title III (42 U.S.C. 6291-6309) provides for the "Energy Conservation Program for Consumer Products Other than Automobiles." Part C of Title III (42 U.S.C. 6311-6317) provides for a program entitled, "Certain Industrial Equipment," which is similar to the program in Part B, and which includes commercial air conditioning equipment, package boilers, water heaters, and other types of commercial equipment.

Today's notice involves commercial equipment under Part C, which specifically provides for definitions, test procedures, labeling requirements, energy conservation standards, and information and reports from manufacturers. With respect to test procedures, Part C generally authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results that reflect energy efficiency, energy use and estimated annual operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6314)

For commercial water heaters, EPCA provides that DOE's test procedure shall be that generally accepted industry test procedure developed or recognized by the Air-Conditioning and Refrigeration Institute (ARI) or by the American

Conditioning Engineers (ASHRAE), as referenced in ASHRAE/Illuminating Engineers Society (IES) Standard 90.1 and in effect on June 30, 1992. (42 U.S.C. 6314(a)(4)(A)) This statute also provides that if this industry test procedure is amended, the Secretary of Energy shall amend DOE's test procedure to be consistent with the amended industry test procedure, unless the Secretary determines that such a modified test procedure does not meet the statutory criteria. (42 U.S.C. 6314(a)(4)(B))

The current DOE test procedure that is applicable to this equipment is the one referenced in the version of ASHRAE/IES 90.1 in effect in 1992, the American National Standards Institute (ANSI)/Canadian Standards Association (CSA) Standard Z21.10.3-1990. In response to ASHRAE's amendment to this standard, the Department issued a Notice of Proposed Rulemaking to adopt an updated test procedure for commercial water heaters, ANSI/CSA Standard Z21.10.3-1998, which is referenced in ASHRAE/IES Standard 90.1-1999. (65 FR 48852, August 9, 2000) The Department however, has not taken final action with respect to the proposed rule. Thus, the Standard Z21.10.3-1990 remains the applicable test procedure.

In January 2001, the Department adopted the ASHRAE 90.1-1999 energy efficiency standards for commercial gas-fired and oil-fired water heaters as new Federal efficiency standards effective October 29, 2003. (66 FR 3335, January 12, 2001.) Because the Department has not yet issued a final rule on its proposal for an updated test procedure for commercial water heaters, commercial water heater manufacturers must demonstrate compliance with the new energy efficiency standards using the existing DOE test procedure.

The Department is required to make adjustments to its regulations, as necessary, to prevent special hardship, inequity or unfair distribution of burdens. (42 U.S.C. 7194) Currently, the Department has regulatory provisions in 10 CFR 430.27 and 10 CFR 431.29 allowing a waiver from test procedure requirements for covered consumer products and electric motors. There are no specific waiver provisions for other covered commercial equipment. However, the Department proposed waiver provisions for covered commercial equipment on December 13, 1999 (64 FR 69597), as part of the commercial furnace test procedure rule, and the Department expects to publish a final rule codifying this process in 10 CFR 431.201. Until that occurs, DOE will use the waiver provisions for

consumer products and electric motors for waivers involving other covered commercial equipment. These waiver provisions are substantively identical.

The waiver provisions allow the Assistant Secretary for Energy Efficiency and Renewable Energy to waive temporarily the test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics that prevent testing according to the prescribed test procedures, or when the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption as to provide materially inaccurate comparative data. (See 10 CFR 430.27 (a)(1), 10 CFR 431.29 (a)(1).) Waivers generally remain in effect until final test procedure amendments become effective, thereby resolving the problem that is the subject of the waiver.

DOE will grant an Interim Waiver if it determines that the applicant will experience economic hardship if the Application for Interim Waiver is denied, if it appears likely that the Petition for Waiver will be granted, and/or the Assistant Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the Petition for Waiver. (See 10 CFR 430.27 (g).) An Interim Waiver remains in effect for a period of 180 days or until DOE issues its determination on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180 days, if necessary.

On September 2, 2003, RWH filed a Petition for Waiver and Application for Interim Waiver from the "DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters," referenced in the version of ASHRAE 90.1 in effect in 1992, ANSI/CSA Z21.10.3-1990. It requested permission to use ANSI/CSA Z21.10.3-1998 as an alternate test procedure for its water heating products having the following model numbers: *50-98, *75-125, *82-156, *37-160, *76-180, *37-200, *76-200, *91-200, *100-200**, *72-250**, *100-250*, 100-270**, *72-300**, *91-300**, *100-310**, *65-360**, *65-400**, *85-400**, *100-400**, GX90-550**, GX90-640**, GX90-715**, GX90-500**, GX90-600**, and GX90-680** for which, RWH states, "The * may be replaced by a 'G', 'GN', 'T' or 'TN' which represents trade brands of Rheem (G) and Richmond (T). (N) represents a natural gas only model. The ** may be replaced by an 'A' which represents ASME."

In its petition, RWH seeks a waiver from the applicable test procedure because RWH asserts that the current DOE test procedure is incompatible with the new DOE energy efficiency standards, which became effective on October 29, 2003. RWH also states that the above-specified models of water heating products do not meet the new energy efficiency requirements using the current test procedure.

Due to the fact that DOE has experienced delays in publishing a final rule for the test procedure for commercial water heating products, and also recognizes that certain basic models of commercial water heaters are allegedly not compliant with the new energy efficiency standards absent a waiver from the current DOE test procedure, the Department has decided to grant this interim waiver to ensure that such models do not become noncompliant. The Department believes the appropriate alternate is the test procedure published in the August 9, 2000, proposed rule, which incorporates by reference ANSI/CSA Standard Z21.10.3-1998, the applicable industry standard referenced by ASHRAE/IES Standard 90.1-1999. EPCA requires the Department, for certain commercial equipment, to amend its test procedures consistent with amended ASHRAE or ARI industry test procedures. (42 U.S.C. 6314(4)(B))

The most significant differences between the protocols presented in the proposed August 9, 2000, DOE test procedure and the current DOE test procedure, ANSI/CSA Z21.10.3-1990, are the duration requirements for the Standby Loss Test; other differences are minimal. The ANSI/CSA Standard Z21.10.3-1998 test procedure specifies that the Standby Loss Test shall continue until the first cutout occurs following 24 hours from the time data collection is initiated. This 24-hour requirement was created to reduce test burdens; the duration requirement specified in the ANSI/CSA Z21.10.3-1990 test procedure is 48 hours minimum. However, because it is possible for some water heaters to not experience the cutout until days beyond

the 24 hour limit, a newer industry test standard, ASHRAE Standard 118.1-2003, which ASHRAE Standard 90.1 currently does not reference, includes a 48-hour limit to preclude undue test burdens. The inclusion of a 48-hour provision in the DOE test procedure was suggested by the Gas Appliance Manufacturers Association (GAMA) and the California Energy Commission (CEC) in comments submitted in response to the August 9, 2000, proposed rule. The Department agrees with the need for the additional test duration requirement and believes that the evidence in the record is clear and convincing that without the 48-hour termination provision, the standby loss test procedure in the ANSI/CSA Standard Z21.10.3-1998 can pose undue burdens on manufacturers. Therefore, this waiver authorizes the use of ANSI/CSA Standard Z21.10.3-1998, and regarding the Standby Loss Test in section 2.10 of ANSI/CSA Standard Z21.10.3-1998, adds the requirement that the standby loss test duration shall be the shorter of either, (1) until the first cutout following 24 hours from the initiation of data collection, or (2) until 48 hours from the initiation of data collection if the water heater is not in the heating mode at that time.

After careful consideration of all the material that was submitted by RWH and others, the Department has decided to grant this interim waiver for the public policy reason that it is not desirable to make certain models of commercial water heaters noncompliant with the applicable energy efficiency standards given that the appropriate test procedure is not yet finalized. Hence, it is ordered that:

(1) The "Application for Interim Waiver" filed by RWH is hereby granted for the basic models of water heating equipment as follows: *50-98, *75-125, *82-156, *37-160, *76-180, *37-200, *76-200, *91-200, *100-200**, *72-250**, *100-250*, 100-270**, *72-300**, *91-300**, *100-310**, *65-360**, *65-400**, *85-400**, *100-400**, GX90-550**, GX90-640**, GX90-715**, GX90-500**, GX90-600**, and GX90-680** for which,

RWH states, "The * may be replaced by a 'G', 'GN', 'T' or 'TN' which represents trade brands of Rheem (G) and Richmond (T). (N) represents a natural gas only model. The ** may be replaced by an 'A' which represents ASME."

(2) RWH is permitted the use of ANSI/CSA Standard Z21.10.3-1998 to establish compliance with the efficiency standards for its water heating products manufactured after October 29, 2003. Further, regarding the Standby Loss Test, section 2.10 of ANSI/CSA Standard Z21.10.3-1998, the use of an additional test duration requirement is permitted as follows: The standby loss test duration shall be the shorter of either, (i) until the first cutout following 24 hours from the initiation of data collection, or (ii) until 48 hours from the initiation of data collection if the water heater is not in the heating mode at that time.

This Interim Waiver is based upon the presumed validity of statements and all allegations submitted by the company. This Interim Waiver may be removed or modified at any time upon a determination that the factual basis underlying the Application is incorrect.

This Interim Waiver shall remain in effect for a period of 180 days after issuance or until DOE acts on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180-day period, if necessary. DOE is hereby publishing the "Petition for Waiver" in its entirety. (See 10 CFR 430.27(b).) The Petition contains no confidential information. The Department solicits comments, data, and information respecting the Petition.

Any person submitting written comments to DOE concerning either the Petition for Waiver or Interim Waiver must also send a copy of such comments to the petitioner. 10 CFR 430.27(b)(1)(iv) and 430.27(d).

Issued in Washington, DC, on May 21, 2004.

David K. Garman,

Assistant Secretary, Energy Efficiency and Renewable Energy.

Re: Petition for Waiver and Application for Interim Waiver

Dear Sir:

Rheem Water Heaters respectfully submits this Petition for Waiver and Application for Interim Waiver pursuant to Title 10 CFR Part 431.29. Waiver is requested from the uniform federal test procedures for measuring efficiency of commercial water heaters referenced in 42 U.S.C. Section 6314(a)(4)(A). This petition affects the following water heater models:

Base Model Number	Fuel Type	Rated Storage Volume (Gallons)	Input Rate (MBTUH)
*50-98	LP/Nat. Gas	50	98
*75-125	LP/Nat. Gas	75	125
*82-156	LP/Nat. Gas	82	156
*37-160	LP/Nat. Gas	37	160
*76-180	LP/Nat. Gas	76	180
*37-200	LP/Nat. Gas	35	199.9
*76-200	LP/Nat. Gas	76	199.9
*91-200	LP/Nat. Gas	91	199.9
*100-200 **	LP/Nat. Gas	100	199.9
*72-250 **	LP/Nat. Gas	72	250
*100-250 *	LP/Nat. Gas	100	250
*100-270 **	LP/Nat. Gas	100	270
*72-300 **	LP/Nat. Gas	72	300
*91-300 **	LP/Nat. Gas	91	300
*100-310 **	LP/Nat. Gas	100	310
*65-360 **	LP/Nat. Gas	65	360
*65-400 **	LP/Nat. Gas	65	399.9
*85-400 **	LP/Nat. Gas	85	399.9
*100-400 **	LP/Nat. Gas	100	399.9
GX90-550 **	Natural Gas	90	550
GX90-640 **	Natural Gas	90	640
GX90-715 **	Natural Gas	90	715
GX90-500 **	LP Gas	90	500
GX90-600 **	LP Gas	90	600
GX90-680 **	LP Gas	90	680

* The * may be replaced by a "G", "GN", "T" or "TN" which represents trade brands Rheem (G) and Richmond (T). (N) represents a natural gas only model.

** The ** may be replaced by an "A" which represents ASME.

September 2, 2003

Page 2 of 4

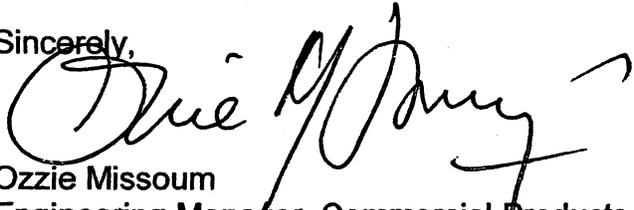

In the January 12, 2001 Federal Register, DOE published a final rule adopting ASHRAE Standard 90.1-1999 energy efficiency standards for 18 product categories of commercial heating and air conditioning equipment as uniform national standards pursuant to the Energy Policy and Conservation Act (EPCA), as amended by the Energy Policy Act of 1992 (EPACT). These new mandatory national minimum standards are applicable to commercial water heating products manufactured after October 29, 2003 (i.e. two years after the October 29, 2001 effective date specified in ASHRAE Standard 90.1-1999).

The Notices of Proposed Rules (NOPRs) to adopt new test procedures corresponding with the new efficiency standards related to boilers and water heaters were issued August 9, 2000, but the final rules have still not been issued. This delay in implementation of the new test procedures forces water heater manufacturers to continue to test products to the current federal test procedures in order to meet the new federal efficiency standards.

Due to the incompatibility of the current test procedures with the new federal efficiency standards, we are unable to meet the new efficiency requirements using the current test procedure for these products. Exhibit A demonstrates the differences between the current federal test procedures and those contained in ASHRAE 90.1-1999. Pursuant to 42 U.S.C. Section 6314 (a)(4)(B), DOE is required by law to adopt ANSI Z21.10.3-1998, *Volume III, Storage Water Heaters, With Input Ratings Above 75,000 Btu Per Hour, Circulating and Instantaneous*, as the federal test procedure for commercial water heaters unless DOE can justify by clear and convincing evidence adoption of an alternative test procedure for these products. We respectfully request that DOE allow use of ANSI Z21.10.3-1998 to test commercial water heaters.

Manufacturers who market similar products are being sent a copy of this petition. If any further information is required, please contact me.

Sincerely,

Ozzie Missoum
Engineering Manager, Commercial Products

DEPARTMENT OF ENERGY**10 CFR Part 431****Office of Energy Efficiency and Renewable Energy; Energy Conservation Program for Certain Industrial Equipment: Granting of the Application for Interim Waiver and Publishing of the Petition for Waiver of Bock Water Heaters, Inc. From the DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters (Case No. WH-018)**

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver and solicitation of comments; grant of interim waiver.

SUMMARY: Today's notice grants an Interim Waiver to Bock Water Heaters, Inc. (BWH) and publishes BWH's Petition for Waiver from the existing Department of Energy (the Department or DOE) test procedure for commercial water heaters. BWH claims that it cannot demonstrate compliance with the new energy efficiency requirements for commercial water heating products that became effective October 29, 2003, for some of its water heater models, using the current test procedure. The test procedure for measuring compliance with the new standards was published as a proposed rule on August 9, 2000, and has not yet been finalized. As part of today's action, the Department is also soliciting comments, data, and information with respect to the Petition for Waiver.

DATES: The Department will accept comments, data, and information with respect to this Petition for Waiver on or before June 28, 2004.

ADDRESSES: You may submit comments, identified by Case No. WH-018, by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

- E-mail: commercialwaterheaterwaiver@ee.doe.gov. Include Case No. WH-018 in the subject line of the message.

- Mail: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2J, Commercial Water Heater Waiver, Case No. WH-018, 1000 Independence Avenue, SW., Washington, DC, 20585-0121. Telephone: (202) 586-2945. Please submit one signed paper original.

- Hand Delivery/Courier: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Building Technologies Program,

Room 1J-018, 1000 Independence Avenue, SW., Washington, DC, 20585.

To read background documents or comments received, go to the U.S. Department of Energy, Forrestal Building, Room 1J-018 (Resource Room of the Building Technologies Program), 1000 Independence Avenue, SW., Washington, DC, (202) 586-9127, between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays. Please call Ms. Brenda Edwards-Jones at the above telephone number for additional information regarding visiting the Resource Room. Please note: The Department's Freedom of Information Reading Room (formerly Room 1E-190 at the Forrestal Building) is no longer housing rulemaking materials.

FOR FURTHER INFORMATION CONTACT:

Mohammed Khan, U.S. Department of Energy, Building Technologies Program, Mail Stop EE-2J, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585-0121, (202) 586-7892; e-mail:

Francine.Pinto@hq.doe.gov, or

Thomas.DePriest@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Title III of the Energy Policy and Conservation Act (EPCA) sets forth a variety of provisions concerning energy efficiency. Part B of Title III (42 U.S.C. 6291-6309) provides for the "Energy Conservation Program for Consumer Products Other than Automobiles." Part C of Title III (42 U.S.C. 6311-6317) provides for a program entitled, "Certain Industrial Equipment," which is similar to the program in Part B, and which includes commercial air conditioning equipment, packaged boilers, water heaters, and other types of commercial equipment.

Today's notice involves commercial equipment under Part C, which specifically provides for definitions, test procedures, labeling requirements, energy conservation standards, and information and reports from manufacturers. With respect to test procedures, Part C generally authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results that reflect energy efficiency, energy use and estimated annual operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6314)

For commercial water heaters, EPCA provides that DOE's test procedure shall be that generally accepted industry test procedure developed or recognized by the Air-Conditioning and Refrigeration Institute (ARI) or by the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE), as referenced in ASHRAE/Illuminating Engineers Society (IES) Standard 90.1 and in effect on June 30, 1992. (42 U.S.C. 6314(a)(4)(A)) This statute also provides that if this industry test procedure is amended, the Secretary of Energy shall amend DOE's test procedure to be consistent with the amended industry test procedure, unless the Secretary determines that such a modified test procedure does not meet the statutory criteria. (42 U.S.C. 6314(a)(4)(B))

The current DOE test procedure that is applicable to this equipment is the one referenced in the version of ASHRAE/IES 90.1 in effect in 1992, the American National Standards Institute (ANSI)/Canadian Standards Association (CSA) Standard Z21.10.3-1990. In response to ASHRAE's amendment to this standard, the Department issued a Notice of Proposed Rulemaking to adopt an updated test procedure for commercial water heaters, ANSI/CSA Standard Z21.10.3-1998, which is referenced in ASHRAE/IES Standard 90.1-1999. (65 FR 48852, August 9, 2000) The Department however, has not taken final action with respect to the proposed rule. Thus, the Standard Z21.10.3-1990 remains the applicable test procedure.

In January 2001, the Department adopted the AHSRAE 90.1-1999 energy efficiency standards for commercial gas-fired and oil-fired water heaters as new Federal efficiency standards effective October 29, 2003. (66 FR 3335, January 12, 2001) Because the Department has not yet issued a final rule on its proposal for an updated test procedure for commercial water heaters, commercial water heater manufacturers must demonstrate compliance with the new energy efficiency standards using the existing DOE test procedure.

The Department is required to make adjustments to its regulations, as necessary, to prevent special hardship, inequity or unfair distribution of burdens. (42 U.S.C. 7194) Currently, the Department has regulatory provisions in 10 CFR 430.27 and 10 CFR 431.29 allowing a waiver from test procedure requirements for covered consumer products and electric motors. There are no specific waiver provisions for other covered commercial equipment. However, the Department proposed waiver provisions for covered

commercial equipment on December 13, 1999 (64 FR 69597), as part of the commercial furnace test procedure rule, and the Department expects to publish a final rule codifying this process in 10 CFR 431.201. Until that occurs, DOE will use the waiver provisions for consumer products and electric motors for waivers involving other covered commercial equipment. These waiver provisions are substantively identical.

The waiver provisions allow the Assistant Secretary for Energy Efficiency and Renewable Energy to waive temporarily the test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics that prevent testing according to the prescribed test procedures, or when the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption as to provide materially inaccurate comparative data. (See 10 CFR 430.27 (a)(1), 10 CFR 431.29 (a)(1).) Waivers generally remain in effect until final test procedure amendments become effective, thereby resolving the problem that is the subject of the waiver.

DOE will grant an Interim Waiver if it determines that the applicant will experience economic hardship if the Application for Interim Waiver is denied, if it appears likely that the Petition for Waiver will be granted, and/or the Assistant Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the Petition for Waiver. (See 10 CFR 430.27 (g).) An Interim Waiver remains in effect for a period of 180 days or until DOE issues its determination on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180 days, if necessary.

On September 10, 2003, BWH filed a Petition for Waiver and Application for Interim Waiver from the "DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters," referenced in the version of ASHRAE 90.1 in effect in 1992, ANSI/CSA Z21.10.3-1990. It requested permission to use ASHRAE Standard 118.1-2003 as an alternate test procedure for its water heating products having the following model numbers: 71PG, 120PG, 190PG, 241PG, 361PG, 70G-190SD, 75G-145D/SD, and 100G-180SD.

In its petition, BWH seeks a waiver from the applicable test procedure because BWH asserts that the current DOE test procedure is incompatible with the new DOE energy efficiency standards, which became effective on

October 29, 2003. BWH also states that the above-specified models of water heating products do not meet the new energy efficiency requirements using the current test procedure.

Due to the fact that DOE has experienced delays in publishing a final rule for the test procedure for commercial water heating products, and also recognizes that certain basic models of commercial water heaters are allegedly not compliant with the new energy efficiency standards absent a waiver from the current DOE test procedure, the Department has decided to grant this interim waiver to ensure that such models do not become noncompliant. However, the Department believes the appropriate alternate is the test procedure published in the August 9, 2000, proposed rule, which incorporates by reference ANSI/CSA Standard Z21.10.3-1998, the applicable industry standard referenced by ASHRAE/IES Standard 90.1-1999. EPCA requires the Department, for certain commercial equipment, to amend its test procedures consistent with amended ASHRAE or ARI industry test procedures. (42 U.S.C. 6314(4)(B)) Because ASHRAE Standard 118.1-2003 is not referenced in the amended ASHRAE Standard 90.1-1999, it would be inconsistent with the statutory language of EPCA to use it as an alternate test procedure as BWH requests.

The most significant differences between the protocols presented in the proposed August 9, 2000, DOE test procedure and those presented in ASHRAE Standard 118.1-2003 are the duration requirements for the Standby Loss Test; other differences are minimal. The ANSI/CSA Standard Z21.10.3-1998 test procedure specifies that the Standby Loss Test shall continue until the first cutout occurs following 24 hours from the time data collection is initiated. Because it is possible for some water heaters to not experience the cutout until days beyond the 24 hour limit, the industry test standard, ASHRAE Standard 118.1-2003, includes a 48-hour limit to preclude undue test burdens. The inclusion of a 48-hour provision in the proposed DOE test procedure was suggested by the Gas Appliance Manufacturers Association (GAMA) and the California Energy Commission (CEC) in comments submitted in response to the August 9, 2000, proposed rule. The Department agrees with the need for the additional test duration requirement and believes that the evidence in the record is clear and convincing that without the 48-hour termination provision, the standby loss test procedure in the ANSI/CSA

Standard Z21.10.3-1998 can pose undue burdens on manufacturers. Therefore, this waiver authorizes the use of ANSI/CSA Standard Z21.10.3-1998, and regarding the Standby Loss Test in section 2.10 of ANSI/CSA Standard Z21.10.3-1998, adds the requirement that the standby loss test duration shall be the shorter of either, (1) until the first cutout following 24 hours from the initiation of data collection, or (2) until 48 hours from the initiation of data collection if the water heater is not in the heating mode at that time.

After careful consideration of all the material that was submitted by BWH and others, the Department has decided to grant this interim waiver for the public policy reason that it is not desirable to make certain models of commercial water heaters noncompliant with the applicable energy efficiency standards given that the appropriate test procedure is not yet finalized. Hence, it is ordered that:

(1) The "Application for Interim Waiver" filed by BWH is hereby granted for the basic models of water heating equipment as follows: 71PG, 120PG, 190PG, 241PG, 361PG, 70G-190SD, 75G-145D/SD, and 100G-180SD.

(2) BWH is permitted the use of ANSI/CSA Standard Z21.10.3-1998 to establish compliance with the efficiency standards for its water heating products manufactured after October 29, 2003. Further, regarding the Standby Loss Test, section 2.10 of ANSI/CSA Standard Z21.10.3-1998, the use of an additional test duration requirement is permitted as follows: The standby loss test duration shall be the shorter of either, (i) until the first cutout following 24 hours from the initiation of data collection, or (ii) until 48 hours from the initiation of data collection if the water heater is not in the heating mode at that time.

This Interim Waiver is based upon the presumed validity of statements and all allegations submitted by the company. This Interim Waiver may be removed or modified at any time upon a determination that the factual basis underlying the Application is incorrect.

This Interim Waiver shall remain in effect for a period of 180 days after issuance or until DOE acts on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180-day period, if necessary. DOE is hereby publishing the "Petition for Waiver" in its entirety. (See 10 CFR 430.27(b)) The Petition contains no confidential information. The Department solicits comments, data, and information respecting the Petition.

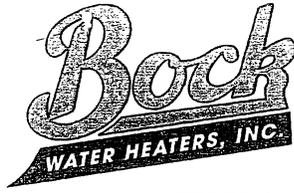

Any person submitting written comments to DOE concerning either the Petition for Waiver or Interim Waiver must also send a copy of such comments to the petitioner. 10 CFR 430.27(b)(1)(iv) and 430.27(d).

Issued in Washington, DC, on May 21, 2004.

David K. Garman,

Assistant Secretary, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

110 South Dickinson Street
Madison, Wisconsin 53703

September 10, 2003

Mr. David Garman
Assistant Secretary, Energy Efficiency
and Renewable Energy
United States Department of Energy
1000 Independence Avenue, SW
Washington, DC 20585

Re: Petition for Waiver and Application for Interim Waiver

Dear Sir:

Bock Water Heaters, Inc. respectfully submits this Petition for Waiver and Application for Interim Waiver pursuant to Title 10 CFR Part 431.29. Waiver is requested from the uniform federal test procedures for measuring efficiency of commercial water heaters referenced in 42 U.S.C. Section 6314(a)(4)(A). This petition affects the following water heater models:

<u>Model</u>	<u>Fuel</u>	<u>Volume</u>	<u>Input Rate (MBTU/h)</u>
71PG	Nat. / LPG	70	173
120PG	Nat. / LPG	119	155
190PG	Nat. / LPG	119	190
241PG	Nat. / LPG	100	277
361PG	Nat. / LPG	90	415
70G-190SD	Nat. / LPG	68	199
75G-145D/SD	Nat. / LPG	74	140
100G-180SD	Nat. / LPG	100	199

In the January 12, 2001 Federal Register, DOE published a final rule adopting ASHRAE Standard 90.1-1999 energy efficiency standards for 18 product categories of commercial heating and air conditioning equipment as uniform national standards pursuant to the Energy Policy and Conservation Act (EPCA), as amended by the Energy Policy Act of 1992 (EPACT). These new mandatory national minimum standards are applicable to commercial water heating products manufactured after October 29, 2003 (i.e. two years after the October 29, 2001 effective date specified in ASHRAE Standard 90.1-1999).

Page 2

The Notices of Proposed Rules (NOPRs) to adopt new test procedures corresponding with the new efficiency standards related to boilers and water heaters were issued August 9, 2000, but the final rules have still not been issued. This delay in implementation of the new test procedures forces water heater manufacturers to continue to test products to the current federal test procedures in order to meet the new federal efficiency standards.

Due to the incompatibility of the current test procedures with the new federal efficiency standards, we are unable to meet the new efficiency requirements using the current test procedure for these products. Exhibit A demonstrates the differences between the current federal test procedures, and those contained in ASHRAE 90.1-1999, and our proposed alternate test method, ASHRAE 118.1-2003. Pursuant to 42 U.S.C. Section 6314 (a)(4)(B), DOE is required by law to adopt ASHRAE Standard 118.1-2003, *Method of Testing for Rating Commercial Gas, Electric, and Oil Service Water Heating Equipment*, as the federal test procedure for commercial water heaters unless DOE can justify by clear and convincing evidence adoption of an alternative test procedure for these products. We respectfully request that DOE allow use of ASHRAE Standard 118.1-2003 to test commercial water heaters.

We also request that the Department, upon receipt of this letter, provide an estimated date for a decision on the waiver request. Manufacturers who market similar products, see Exhibit B, are being sent a copy of this petition. If any further information is required, please contact me.

Sincerely,

George M. Kusterer
Director of Technical Services
Bock Water Heaters

DEPARTMENT OF ENERGY**Office of Energy Efficiency and Renewable Energy****10 CFR Part 431****Energy Conservation Program for Certain Industrial Equipment: Granting of the Application for Interim Waiver and Publishing of the Petition for Waiver of A.O. Smith Water Products Company from the DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters (Case No. WH-019)**

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver and solicitation of comments; grant of interim waiver.

SUMMARY: Today's notice grants an Interim Waiver to A.O. Smith Water Products Company (AOS) and publishes AOS's Petition for Waiver from the existing Department of Energy (the Department or DOE) test procedure for commercial water heaters. AOS claims that it cannot demonstrate compliance with the new energy efficiency requirements for commercial water heating products that became effective October 29, 2003, for some of its water heater models, using the current test procedure. The test procedure for measuring compliance with the new standards was published as a proposed rule on August 9, 2000, and has not yet been finalized. As part of today's action, the Department is also soliciting comments, data, and information with respect to the Petition for Waiver.

DATES: The Department will accept comments, data, and information with respect to this Petition for Waiver on or before June 28, 2004.

ADDRESSES: You may submit comments, identified by Case No. WH-019, by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

- E-mail: commercialwaterheaterwaiver@ee.doe.gov. Include Case No. WH-019 in the subject line of the message.

- Mail: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2J, Commercial Water Heater Waiver, Case No. WH-019, 1000 Independence Avenue, SW., Washington, DC 20585-0121. Telephone: (202) 586-2945. Please submit one signed paper original.

- Hand Delivery/Courier: Ms. Brenda Edwards-Jones, U.S. Department of

Energy, Building Technologies Program, Room 1J-018, 1000 Independence Avenue, SW., Washington, DC 20585.

To read background documents or comments received, go to the U.S. Department of Energy, Forrestal Building, Room 1J-018 (Resource Room of the Building Technologies Program), 1000 Independence Avenue, SW., Washington, DC, (202) 586-9127, between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays. Please call Ms. Brenda Edwards-Jones at the above telephone number for additional information regarding visiting the Resource Room. Please note: The Department's Freedom of Information Reading Room (formerly Room 1E-190 at the Forrestal Building) is no longer housing rulemaking materials.

Mohammed.Khan@ee.doe.gov; or Francine Pinto, Esq., or Thomas DePriest, Esq., U.S. Department of Energy, Office of General Counsel, Mail Stop GC-72, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585-0193, (202) 586-9507; e-mail:

Francine.Pinto@hq.doe.gov, or Thomas.DePriest@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Title III of the Energy Policy and Conservation Act (EPCA) sets forth a variety of provisions concerning energy efficiency. Part B of Title III (42 U.S.C. 6291-6309) provides for the "Energy Conservation Program for Consumer Products Other than Automobiles." Part C of Title III (42 U.S.C. 6311-6317) provides for a program entitled, "Certain Industrial Equipment," which is similar to the program in Part B, and which includes commercial air conditioning equipment, packaged boilers, water heaters, and other types of commercial equipment.

Today's notice involves commercial equipment under Part C, which specifically provides for definitions, test procedures, labeling requirements, energy conservation standards, and information and reports from manufacturers. With respect to test procedures, Part C generally authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results that reflect energy efficiency, energy use and estimated annual operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6314)

For commercial water heaters, EPCA provides that DOE's test procedure shall be that generally accepted industry test procedure developed or recognized by the Air-Conditioning and Refrigeration Institute (ARI) or by the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE), as referenced in ASHRAE/Illuminating Engineers Society (IES) Standard 90.1 and in effect on June 30, 1992. (42 U.S.C. 6314(a)(4)(A)) This statute also provides that if this industry test procedure is amended, the Secretary of Energy shall amend DOE's test procedure to be consistent with the amended industry test procedure, unless the Secretary determines that such a modified test procedure does not meet the statutory criteria. (42 U.S.C. 6314(a)(4)(B))

The current DOE test procedure that is applicable to this equipment is the one referenced in the version of ASHRAE/IES 90.1 in effect in 1992, the American National Standards Institute (ANSI)/Canadian Standards Association (CSA) Standard Z21.10.3-1990. In response to ASHRAE's amendment to this standard, the Department issued a Notice of Proposed Rulemaking to adopt an updated test procedure for commercial water heaters, ANSI/CSA Standard Z21.10.3-1998, which is referenced in ASHRAE/IES Standard 90.1-1999. (65 FR 48852, August 9, 2000) The Department however, has not taken final action with respect to the proposed rule. Thus, the Standard Z21.10.3-1990 remains the applicable test procedure.

In January 2001, the Department adopted the AHSRAE 90.1-1999 energy efficiency standards for commercial gas-fired and oil-fired water heaters as new Federal efficiency standards effective October 29, 2003. (66 FR 3335, January 12, 2001) Because the Department has not yet issued a final rule on its proposal for an updated test procedure for commercial water heaters, commercial water heater manufacturers must demonstrate compliance with the new energy efficiency standards using the existing DOE test procedure.

The Department is required to make adjustments to its regulations, as necessary, to prevent special hardship, inequity or unfair distribution of burdens. (42 U.S.C. 7194) Currently, the Department has regulatory provisions in 10 CFR 430.27 and 10 CFR 431.29 allowing a waiver from test procedure requirements for covered consumer products and electric motors. There are no specific waiver provisions for other covered commercial equipment. However, the Department proposed waiver provisions for covered

commercial equipment on December 13, 1999 (64 FR 69597), as part of the commercial furnace test procedure rule, and the Department expects to publish a final rule codifying this process in 10 CFR 431.201. Until that occurs, DOE will use the waiver provisions for consumer products and electric motors for waivers involving other covered commercial equipment. These waiver provisions are substantively identical.

The waiver provisions allow the Assistant Secretary for Energy Efficiency and Renewable Energy to waive temporarily the test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics that prevent testing according to the prescribed test procedures, or when the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption as to provide materially inaccurate comparative data. (See 10 CFR 430.27(a)(1), 10 CFR 431.29(a)(1).) Waivers generally remain in effect until final test procedure amendments become effective, thereby resolving the problem that is the subject of the waiver.

DOE will grant an Interim Waiver if it determines that the applicant will experience economic hardship if the Application for Interim Waiver is denied, if it appears likely that the Petition for Waiver will be granted, and/or the Assistant Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the Petition for Waiver. (See 10 CFR 430.27(g).) An Interim Waiver remains in effect for a period of 180 days or until DOE issues its determination on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180 days, if necessary.

On August 6, 2003, AOS filed a Petition for Waiver and Application for Interim Waiver from the "DOE Uniform Federal Test Procedure for Measuring Efficiency of Commercial Water Heaters," referenced in the version of ASHRAE 90.1 in effect in 1992, ANSI/CSA Z21.10.3-1990. It requested permission to use ASHRAE Standard 118.1-2003 as an alternate test procedure for its water heating products having the following model numbers: BTF-75, BT-80, BT-100, BTI-80, BTI-100, BTN-80, BTN-100, BTP-140-140, BTP-140-199, BTP-140-255, BTH-300-970, COF-199, COF245, COF-315, COF-455, BTI-120-10075, BTI-154-10075, BTI-180-10075, BTI-199-10075, BTI-200-10075, BTI-250-10075, BTI-275-10075, BTI-310-10075, BTI-366-

10075, BTI-400-10075, BTN-180-10475, BTN-310-10075, BTR-15475, BTR-18075, BTR-19775, BTR-19875, BTR-19975, and BTR-20075.

In its petition, AOS seeks a waiver from the applicable test procedure because AOS asserts that the current DOE test procedure is incompatible with the new DOE energy efficiency standards, which became effective on October 29, 2003. AOS also states that the above-specified models of water heating products do not meet the new energy efficiency requirements using the current test procedure.

Due to the fact that DOE has experienced delays in publishing a final rule for the test procedure for commercial water heating products, and also recognizes that certain basic models of commercial water heaters are allegedly not compliant with the new energy efficiency standards absent a waiver from the current DOE test procedure, the Department has decided to grant this interim waiver to ensure that such models do not become noncompliant. However, the Department believes the appropriate alternate is the test procedure published in the August 9, 2000, proposed rule, which incorporates by reference ANSI/CSA Standard Z21.10.3-1998, the applicable industry standard referenced by ASHRAE/IES Standard 90.1-1999. EPCA requires the Department, for certain commercial equipment, to amend its test procedures consistent with amended ASHRAE or ARI industry test procedures. (42 U.S.C. 6314(4)(B)) Because ASHRAE Standard 118.1-2003 is not referenced in the amended ASHRAE Standard 90.1-1999, it would be inconsistent with the statutory language of EPCA to use it as an alternate test procedure as AOS requests.

The most significant differences between the protocols presented in the proposed August 9, 2000, DOE test procedure and those presented in ASHRAE Standard 118.1-2003 are the duration requirements for the Standby Loss Test; other differences are minimal. The ANSI/CSA Standard Z21.10.3-1998 test procedure specifies that the Standby Loss Test shall continue until the first cutout occurs following 24 hours from the time data collection is initiated. Because it is possible for some water heaters to not experience the cutout until days beyond the 24 hour limit, the industry test standard, ASHRAE Standard 118.1-2003, includes a 48-hour limit to preclude undue test burdens. The inclusion of a 48-hour provision in the proposed DOE test procedure was suggested by the Gas Appliance Manufacturers Association

(GAMA) and the California Energy Commission (CEC) in comments submitted in response to the August 9, 2000, proposed rule. The Department agrees with the need for the additional test duration requirement and believes that the evidence in the record is clear and convincing that without the 48-hour termination provision, the standby loss test procedure in the ANSI/CSA Standard Z21.10.3-1998 can pose undue burdens on manufacturers. Therefore, this waiver authorizes the use of ANSI/CSA Standard Z21.10.3-1998, and regarding the Standby Loss Test in section 2.10 of ANSI/CSA Standard Z21.10.3-1998, adds the requirement that the standby loss test duration shall be the shorter of either, (1) until the first cutout following 24 hours from the initiation of data collection, or (2) until 48 hours from the initiation of data collection if the water heater is not in the heating mode at that time.

After careful consideration of all the material that was submitted by AOS and others, the Department has decided to grant this interim waiver for the public policy reason that it is not desirable to make certain models of commercial water heaters noncompliant with the applicable energy efficiency standards given that the appropriate test procedure is not yet finalized. Hence, it is ordered that:

(1) The "Application for Interim Waiver" filed by AOS is hereby granted for the basic models of water heating equipment as follows:

BTF-75, BT-80, BT-100, BTP-140-140, BTP-140-199, BTP-140-255, BTH-300-970, COF-199, COF245, COF-315, COF-455, BTI-120-10075, BTI-154-10075, BTI-180-10075, BTI-199-10075, BTI-200-10075, BTI-250-10075, BTI-275-10075, BTI-310-10075, BTI-366-10075, BTI-400-10075, BTN-180-10475, BTN-310-10075, BTR-15475, BTR-18075, BTR-19775, BTR-19875, BTR-19975, and BTR-20075.

(2) AOS is permitted the use of ANSI/CSA Standard Z21.10.3-1998 to establish compliance with the efficiency standards for its water heating products manufactured after October 29, 2003. Further, regarding the Standby Loss Test, section 2.10 of ANSI/CSA Standard Z21.10.3-1998, the use of an additional test duration requirement is permitted as follows: The standby loss test duration shall be the shorter of either, (i) until the first cutout following 24 hours from the initiation of data collection, or (ii) until 48 hours from the initiation of data collection if the water heater is not in the heating mode at that time.

This Interim Waiver is based upon the presumed validity of statements and all allegations submitted by the company. This Interim Waiver may be removed or modified at any time upon a determination that the factual basis underlying the Application is incorrect.

This Interim Waiver shall remain in effect for a period of 180 days after issuance or until DOE acts on the Petition for Waiver, whichever is

sooner, and may be extended for an additional 180-day period, if necessary. DOE is hereby publishing the "Petition for Waiver" in its entirety. (See 10 CFR 430.27(b).) The Petition contains no confidential information. The Department solicits comments, data, and information respecting the Petition.

Any person submitting written comments to DOE concerning either the Petition for Waiver or Interim Waiver

must also send a copy of such comments to the petitioner. 10 CFR 430.27(b)(1)(iv) and 430.27(d).

Issued in Washington, DC, on May 21, 2004.

David K. Garman,

Assistant Secretary, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

A.O. SMITH
WATER PRODUCTS
COMPANY
PRODUCT ENGINEERING

August 6, 2003

Mr. David Garman
Assistant Secretary, Energy Efficiency
And Renewable Energy
United States Department of Energy
1000 Independence Avenue, SW
Washington, DC 20585

Re: Petition for Waiver and Application for Interim Waiver

Dear Sir:

A. O. Smith Water Products Company respectfully submits this Petition for Waiver and Application for Interim Waiver pursuant to Title 10 CFR Part 431.29. Waiver is requested from the uniform federal test procedures for measuring efficiency of commercial water heaters referenced in 42 U.S.C. Section 6314(a)(4)(A). This petition affects the basic gas and oil-fired water heater models listed in Exhibit B. The COF series is oil-fired and all the others are gas-fired.

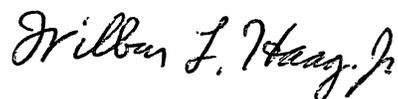

In the January 12, 2001 Federal Register, DOE published in final rule adopting ASHRAE Standard 90.1-1999 energy efficiency standards for 18 product categories of commercial heating and air conditioning equipment as uniform national standards pursuant to the Energy Policy and Conservation Act (EPCA), as amended by the Energy Policy Act of 1992 (EPACT). These new mandatory national minimum standards are applicable to commercial water heating products manufactured after October 29, 2003 (i.e. two years after the October 29, 2001 effective date specified in ASHRAE Standard 90.1-1999).

The Notices of Proposed Rules (NOPRs) to adopt new test procedures corresponding with the new efficiency standards related to boilers and water heaters were issued August 9, 2000, but the final rules have still not been issued. This delay in implementation of the new test procedures forces water heater manufacturers to continue to test products to the current federal test procedures in order to meet the new federal efficiency standards.

Due to the incompatibility of the current test procedures with the new federal efficiency standards, we are unable to meet the new efficiency requirements using the current test procedure for these products. Exhibit A demonstrates the differences between the current federal test procedures, and those contained in ASHRAE 90.1-1999, and our proposed alternate test method, ASHRAE 118.1-2003. Pursuant to 42 U.S.C. Section 6314 (a)(4)(B), DOE is required by law to adopt ASHRAE Standard 118.1-2003, *Method of Testing for Rating Commercial Gas, Electric, and Oil Service Water Heating Equipment*, as the federal test procedure for commercial water heaters unless DOE can justify by clear and convincing evidence adoption of an alternative test procedure for these products. We respectfully request that DOE allow use of ASHRAE Standard 118.1-2003 to test commercial water heaters.

We also request that the Department, upon receipt of this letter, provide an estimated date for a decision on the waiver request. Manufacturers who market similar products are being sent a copy of this petition. If any further information is required, please contact me.

Sincerely,

Wilbur L. Haag, Jr.
Manager, Certification & Standards

FEDERAL RESERVE SYSTEM**12 CFR Part 229****[Regulation CC; Docket No. R-1194]****Availability of Funds and Collection of Checks****AGENCY:** Board of Governors of the Federal Reserve System.**ACTION:** Final rule; correction.

SUMMARY: On May 19, 2004, the Board of Governors published in the **Federal Register** a final rule amending appendix A of Regulation CC. The rule deleted the reference to the Little Rock check processing office of the Federal Reserve Bank of St. Louis and reassigned the Federal Reserve routing symbols currently listed under that office to the St. Louis Reserve Bank's Memphis office and deleted the reference to the Milwaukee check processing office of the Federal Reserve Bank of Chicago and reassigned the Federal Reserve routing symbols currently listed under that office to the head office of the Federal Reserve Bank of Chicago. This document corrects the effective date of the amendment to appendix A under the Seventh Federal Reserve District (Federal Reserve Bank of Chicago). The original amendatory instruction was effective on August 7, 2004. The corrected effective date is July 24, 2004, which coincides with the effective date of the underlying check processing changes in the Seventh District.

DATES: The correction is effective on July 24, 2004.

FOR FURTHER INFORMATION CONTACT: Jack K. Walton II, Assistant Director (202/452-2660), or Joseph P. Baressi, Senior Financial Services Analyst (202/452-3959), Division of Reserve Bank Operations and Payment Systems; or Adrienne G. Threath, Counsel (202/452-3554), Legal Division. For users of Telecommunications Devices for the Deaf (TDD) only, contact 202/263-4869.

SUPPLEMENTARY INFORMATION: In the final rule, FR Doc. 04-11269, published on May 19, 2004, make the following corrections.

Appendix A to Part 229 [Corrected]

On page 28819, in the first column, correct **DATES** to read as follows:

DATES: The amendment to Appendix A under the Seventh Federal Reserve District (Federal Reserve Bank of Chicago) and the Eighth Federal Reserve District (Federal Reserve Bank of St. Louis) is effective on July 24, 2004.

On page 28819, in the second and third columns, correct the third sentence of the third paragraph and the

second sentence of the fourth paragraph of **SUPPLEMENTARY INFORMATION** to read as follows:

SUPPLEMENTARY INFORMATION: * * * The Milwaukee office of the Federal Reserve Bank of Chicago will also cease processing checks on July 24, 2004, and banks with routing symbols currently assigned to that office for check processing purposes will be reassigned to the head office of the Federal Reserve Bank of Chicago. * * *

* * * To coincide with the effective date of the underlying check processing changes, the amendments are effective July 24, 2004. * * *

By order of the Board of Governors of the Federal Reserve System, May 24, 2004.

Jennifer J. Johnson*Secretary of the Board.*

[FR Doc. 04-12042 Filed 5-26-04; 8:45 am]

BILLING CODE 6210-01-P**DEPARTMENT OF TRANSPORTATION****Federal Aviation Administration****14 CFR Part 39**

[Docket No. FAA-2004-17890; Directorate Identifier 2004-CE-14-AD; Amendment 39-13649; AD 2004-11-04]

RIN 2120-AA64

Airworthiness Directives; Eagle Aircraft (Malaysia) Sdn. Bhd Model Eagle 150B Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.**ACTION:** Final rule; request for comments.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for all Eagle Aircraft (Malaysia) Sdn. Bhd (Eagle Aircraft) Model Eagle 150B airplanes. This AD requires you to inspect certain canard inboard flap hinge support brackets (initially prior to further flight and repetitively before the first flight of each day) and perform any necessary follow-up action. This AD is the result of mandatory continuing airworthiness information (MCAI) issued by the airworthiness authorities for Australia and Malaysia. We are issuing this AD to prevent failure of the canard inboard flap hinge support brackets caused by undetected cracks. This failure could result in asymmetric flap deployment and the inability to lower or raise the flaps with consequent loss of control of the airplane.

DATES: This AD becomes effective on June 4, 2004.

As of June 4, 2004, the Director of the Federal Register approved the

incorporation by reference of certain publications listed in the regulation.

We must receive any comments on this AD by June 26, 2004.

ADDRESSES: Use one of the following to submit comments on this AD:

- **DOT Docket Web site:** Go to <http://dms.dot.gov> and follow the instructions for sending your comments electronically.

- **Government-wide rulemaking Web site:** Go to <http://www.regulations.gov> and follow the instructions for sending your comments electronically.

- **Mail:** Docket Management Facility; U.S. Department of Transportation, 400 Seventh Street, SW., Nassif Building, Room PL-401, Washington, DC 20590-001.

- **Fax:** 1-202-493-2251.

- **Hand Delivery:** Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

You may get the service information identified in this AD from Eagle Aircraft, P.O. Box 1028, Pejabat Pos Besar Melaka, 75150 Melaka, Malaysia; telephone: (606) 317-4105; facsimile: (606) 317-7213. You may review copies at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html or call (202) 741-6030.

You may view the AD docket at the Docket Management Facility; U.S. Department of Transportation, 400 Seventh Street, SW., Nassif Building, Room PL-401, Washington, DC, or at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: Doug Rudolph, Aerospace Engineer, FAA, Small Airplane Directorate, 901 Locust, Room 301, Kansas City, Missouri 64106; telephone: (816) 329-4059; facsimile: (816) 329-4090.

SUPPLEMENTARY INFORMATION:**Discussion**

What events have caused this AD?
The Department of Civil Aviation (DCA) for Malaysia recently issued AD No.: CAM AD 001-2004, dated January 19, 2004, against Eagle Aircraft Models X-TS, X-TS 150, and 150B airplanes. CAM AD 001-2004 requires the following for these airplanes that are registered for operation in Malaysia:

—a visual inspection of the gusset weld area of the canard inboard flap hinge support brackets for cracks (cracked, lifted, or missing paint in the area of the weld or suspected cracks);

—a more detailed inspection (using fluorescent penetrant inspection (FPI) methods) if any of the above conditions exist; and

—replacement of any canard inboard flap hinge support bracket with cracks and continued repetitive inspections of the replacement bracket.

The DCA is currently the country with State of Design responsibilities on the affected airplanes. Prior to the DCA, the Civil Aviation Safety Authority (CASA) of Australia had the State of Design responsibilities. During this time, the CASA issued CASA AD/X-TS/5, dated October 2003, to address the unsafe condition and require the above actions on Models XTS-150 and 150B airplanes registered for operation in Australia.

The Australian and Malaysian ADs were issued based on reports of cracks in the gusset weld area of the canard inboard flap hinge support brackets on several of the affected airplanes. Neither authority has been able to attribute the cracks to a specific cause. The probable causes are:

- *manufacturing defects*: the part might have suffered from a burn-through during welding or the outperforming stress relieving process after welding;
- *design problems*: poor distribution of stress concentration could create fatigue hotspots; and
- *operational problems*: pilot exceeds Vfe (flap extension speed), inducing loads higher than the certificated limit load).

In addition, no information exists regarding damage tolerance on these brackets to show the part can absorb any kind of crack without leading to immediate failure.

Based on all of this, the CASA and DCA both issued ADs for their respective countries that require prior to further flight initial inspections and before the first flight of each day repetitive inspections.

The Eagle Aircraft Model Eagle 150B is the only affected airplane model type certificated for operation in the United States. There are currently 11 of these airplanes on the U.S. registry.

What is the potential impact if FAA took no action? Cracks in the canard inboard flap hinge support brackets, if not detected and corrected, could lead to failure of these brackets. This failure could result in asymmetric flap deployment and the inability to lower or raise the flaps with consequent loss of control of the airplane.

Is there service information that applies to this subject? Eagle Aircraft has issued Mandatory Service Bulletin

SB 1109, Revision Original, Effective Date August 29, 2003.

What are the provisions of this service information? The service bulletin includes procedures for performing the actions required by AD No.: CAM AD 001-2004, dated January 19, 2004.

Did the CASA of Australia and the DCA of Malaysia inform the United States under the bilateral airworthiness agreement? The Model Eagle 150B airplanes are manufactured in Australia or Malaysia (with Malaysia having current State of Design responsibilities) and are type-certificated for operation in the United States under the provisions of section 21.29 of the Federal Aviation Regulations (14 CFR 21.29) and the applicable bilateral airworthiness agreement.

Under this bilateral airworthiness agreement, the CASA and DCA have kept us informed of the situation described above.

FAA's Determination and Requirements of This AD

What has FAA decided? We have examined the CASA's and DCA's findings, reviewed all available information, and determined that we need to issue an AD for products of this type design that are certificated for operation in the United States.

Since the unsafe condition described previously is likely to exist or develop on other Eagle Aircraft Model Eagle 150B airplanes of the same type design that are registered in the United States, we are issuing this AD to prevent failure of the canard inboard flap hinge support brackets caused by undetected cracks. This failure could result in asymmetric flap deployment and the inability to lower or raise the flaps with consequent loss of control of the airplane.

What does this AD require? This AD requires you to perform the actions referenced in the previously-referenced service information.

In preparing this rule, we contacted type clubs and aircraft operators to get technical information and information on operational and economic impacts. We did not receive any information through these contacts. If received, we would have included a discussion of any information that may have influenced this action in the rulemaking docket.

Are there differences between this AD and the Malaysian and Australian ADs? Yes. The Australian AD allows an appropriately trained pilot to perform the visual inspections of the canard inboard flap hinge support brackets. Although the Malaysian AD does not specifically state this, it does refer to the Australian AD. Regardless, the Federal

Aviation Regulations (14 CFR 43.3) only allow the pilot to perform preventive maintenance as described in 14 CFR part 43, App. A, paragraph (c). These visual inspections are not considered preventive maintenance under 14 CFR part 43, App. A, paragraph (c). Therefore, an appropriately-rated mechanic must perform all actions of this AD.

How does the revision to 14 CFR part 39 affect this AD? On July 10, 2002, we published a new version of 14 CFR part 39 (67 FR 47997, July 22, 2002), which governs FAA's AD system. This regulation now includes material that relates to altered products, special flight permits, and alternative methods of compliance. This material previously was included in each individual AD. Since this material is included in 14 CFR part 39, we will not include it in future AD actions.

Comments Invited

Will I have the opportunity to comment before you issue the rule? This AD is a final rule that involves requirements affecting flight safety and was not preceded by notice and an opportunity for public comment; however, we invite you to submit any written relevant data, views, or arguments regarding this AD. Send your comments to an address listed under **ADDRESSES**. Include the docket number, "FAA-2004-17890; Directorate Identifier 2004-CE-14-AD" at the beginning of your comments. We will post all comments we receive, without change, to <http://dms.dot.gov>, including any personal information you provide. We will also post a report summarizing each substantive verbal contact with FAA personnel concerning this AD.

Using the search function of our docket Web site, anyone can find and read the comments received into any of our dockets, including the name of the individual who sent the comment (or signed the comment on behalf of an association, business, labor union, etc.). This is docket number FAA-2004-17890; Directorate Identifier 2004-CE-14-AD. You may review the DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477-78) or you may visit <http://dms.dot.gov>.

Are there any specific portions of this AD I should pay attention to? We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of this AD. If you contact us through a nonwritten communication and that contact relates to a substantive part of this AD, we will summarize the contact and place the summary in the docket.

We will consider all comments received by the closing date and may amend this AD in light of those comments and contacts.

Docket Information

Where can I go to view the docket information? You may view the AD docket that contains the AD, any comments received, and any final disposition in person at the DMS Docket Offices between 9 a.m. and 5 p.m. (eastern standard time), Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5227) is located on the plaza level of the Department of Transportation Nassif Building at the street address stated in ADDRESSES. You may also view the AD docket on the Internet at <http://dms.dot.gov>. The comments will be available in the AD docket shortly after the DMS receives them.

Regulatory Findings

Will this AD impact various entities? We have determined that this AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

Will this AD involve a significant rule or regulatory action? For the reasons discussed above, I certify that this AD:

1. Is not a "significant regulatory action" under Executive Order 12866;

2. Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and

3. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared a summary of the costs to comply with this AD and placed it in the AD Docket. You may get a copy of this summary by sending a request to us at the address listed under ADDRESSES. Include "Docket No. FAA-2004-17890; Directorate Identifier 2004-CE-14-AD" in your request.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, under the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

2004-11-04 Eagle Aircraft (Malaysia) SDN. BHD: Amendment 39-13649; Docket No.

FAA-2004-17890; Directorate Identifier 2004-CE-14-AD.

When Does This AD Become Effective?

(a) This AD becomes effective on June 4, 2004.

Are Any Other ADs Affected by This Action?

(b) None.

What Airplanes Are Affected by This AD?

(c) This AD affects Model Eagle 150B airplanes, all serial numbers, that are certificated in any category.

What Is the Unsafe Condition Presented in This AD?

(d) This AD is the result of mandatory continuing airworthiness information (MCAI) issued by the airworthiness authority for Malaysia and Australia. We are issuing this AD to prevent failure of the canard inboard flap hinge support brackets caused by undetected cracks. This failure could result in asymmetric flap deployment and the inability to lower or raise the flaps with consequent loss of control of the airplane.

What Must I Do To Address This Problem?

(e) To address this problem, you must do the following:

Note: The Australian AD allows an appropriately trained pilot to perform the visual inspections of the canard inboard flap hinge support brackets. Although the Malaysian AD does not specifically state this, it does refer to the Australian AD. Regardless, the Federal Aviation Regulations (14 CFR 43.3) only allow the pilot to perform preventive maintenance as described in 14 CFR part 43, App. A, paragraph (c).

These visual inspections are not considered preventive maintenance under 14 CFR part 43, App. A, paragraph (c). Therefore, an appropriately-rated mechanic must perform all actions of this AD.

Actions	Compliance	Procedures
(1) Inspect the gusset weld area of the canard inboard flap hinge support brackets, part number (P/N) 5731D01-05 and P/N 5731D01-02, for cracks (cracked, lifted, or missing paint in the area of the weld or suspected cracks).	Initially inspect prior to the next flight after June 4, 2004 (the effective date of this AD). Repetitively inspect thereafter before the first flight of each day.	Follow Eagle Aircraft Mandatory Service Bulletin SB 1109, Revision Original, Effective Date August 29, 2003.
(2) If cracked, lifted, or missing paint in area of the weld or suspected cracks are found during any inspection required in paragraph (e)(1) of this AD, inspect the affected bracket more fully as specified in the service bulletin.	Prior to further flight after any inspection required by paragraph (e)(1) where cracked, lifted, or missing paint in the area of the weld or suspected cracks are found.	Follow Eagle Aircraft Mandatory Service Bulletin SB 1109, Revision Original, Effective Date August 29, 2003.
(3) If any crack(s) is/are found during any inspection required by this AD, replace the cracked bracket and continue to inspect per paragraphs (e)(1) and (e)(2) of this AD.	Replace prior to further flight after the inspection where cracks are found. Inspect prior to the next flight after June 4, 2004 (the effective date of this AD) and thereafter before the first flight of each day.	Follow Eagle Aircraft Mandatory Service Bulletin SB 1109, Revision Original, Effective Date August 29, 2003.

May I Request an Alternative Method of Compliance?

(f) You may request a different method of compliance or a different compliance time for this AD by following the procedures in 14 CFR 39.19. Unless FAA authorizes otherwise,

send your request to your principal inspector. The principal inspector may add comments and will send your request to the Manager, Standards Office, Small Airplane Directorate, FAA. For information on any already approved alternative methods of

compliance, contact Doug Rudolph, Aerospace Engineer, FAA, Small Airplane Directorate, 901 Locust, Room 301, Kansas City, Missouri 64106; telephone: (816) 329-4059; facsimile: (816) 329-4090.

May I Obtain a Special Flight Permit for This AD?

(g) No. Special flight permits are not allowed for this AD. Part 39 of the Federal Aviation Regulations (14 CFR part 39) provides blanket approval of special flight permits for ADs, unless otherwise specified in the individual AD. The FAA has determined that the safety issue is severe enough that failure of the canard inboard flap hinge support brackets must be prevented and cracks in this area must be detected before further operation.

Does This AD Incorporate Any Material by Reference?

(h) You must do the actions required by this AD following the instructions in Eagle Aircraft Mandatory Service Bulletin SB 1109, Revision Original, Effective Date August 29, 2003. The Director of the Federal Register approved the incorporation by reference of this service bulletin in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. You may get a copy from Eagle Aircraft, P.O. Box 1028, Pejabat Pos Besar Melaka, 75150 Melaka, Malaysia; telephone: (606) 317-4105; facsimile: (606) 317-7213. You may review copies at FAA, Central Region, Office of the Regional Counsel, 901 Locust, Room 506, Kansas City, Missouri 64106; or at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html or call (202) 741-6030. You may view the AD docket at the Docket Management Facility; U.S. Department of Transportation, 400 Seventh Street, SW., Nassif Building, Room PL-401, Washington, DC, or on the Internet at <http://dms.dot.gov>.

Is There Other Information That Relates to This Subject?

(i) Malaysian AD No.: CAM AD 001-2004, dated January 19, 2004, and Australian AD No.: CASA AD/X-TS/5, dated October 2003, also address the subject of this AD.

Issued in Kansas City, Missouri, on May 20, 2004.

Dorenda D. Baker,

Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION
Federal Aviation Administration
14 CFR Part 71

[Docket No. FAA-2004-17296; Airspace Docket No. 04-AEA-03]

Amendment of Class E Airspace; Lynchburg, VA

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Final rule.

SUMMARY: This action amends the Class E airspace at Lynchburg, VA. Controlled airspace extending upward from 700 feet Above Ground Level (AGL) is needed to contain aircraft operating into Falwell Airport, Lynchburg, VA, under Instrument Flight Rules (IFR).

EFFECTIVE DATES: 0901 UTC November 25, 2004.

FOR FURTHER INFORMATION CONTACT: Mr. Francis Jordan, Airspace Specialist, Airspace Branch, AEA-520, Air Traffic Division, Eastern Region, Federal Aviation Administration, 1 Aviation Plaza, Jamaica, New York 11434-4809, telephone: (718) 553-4521.

SUPPLEMENTARY INFORMATION:
History

On April 13, 2004, a notice proposing to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by modifying the Class E airspace area at Lynchburg, VA was published in the **Federal Register** (69FR 19360-19361). The proposed action would provide additional controlled airspace to accommodate Standard Instrument Approach Procedures (SIAP), based on area navigation (RNAV), to Falwell Airport. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA on or before May 13, 2004. No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace area designations for airspace extending upward from the surface of the earth are published in paragraph 6005 of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designated listed in this document will be published in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR Part 71) provides controlled Class E airspace extending upward from 700 feet above the surface for aircraft conducting IFR operations within a 6.5-mile radius of Falwell Airport, Lynchburg, VA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not

a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; EO 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amendment]

■ The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, Airspace Designations and Reporting Points, dated September 2, 2003; and effective September 16, 2003, is amended as follows:

Paragraph 6005 Class E Airspace Areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

AEA VA E5 Lynchburg, VA (Revised)

Lynchburg Regional-Preston Glenn Field,
Lynchburg, VA
(Lat. 37°19'36" N., long. 79°12'02" W.)

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2004-17722; Airspace
Docket No. 04-ACE-34]

Modification of Class E Airspace; McCook, NE

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Direct final rule; request for
comments.

SUMMARY: This action amends title 14 Code of Federal Regulations, part 71 (14 CFR 71) by revising Class E airspace areas at McCook, NE. A review of the Class E airspace surface area and the Class E airspace area extending upward from 700 feet above the surface at McCook, NE reveals neither reflects the current McCook Municipal Airport airport reference point (ARP). The Class E airspace surface area does not comply with criteria for extensions and the Class Airspace area extending upward from 700 feet above ground level (AGL) does not comply with criteria for diverse departures. These airspace areas are modified to conform to the criteria in FAA Orders.

DATES: This direct final rule is effective on 0901 UTC, September 30, 2004. Comments for inclusion in the Rules Docket must be received on or before July 26, 2004.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify the docket number FAA-2004-17722/ Airspace Docket No. 04-ACE-34, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

FOR FURTHER INFORMATION CONTACT:

Brenda Mumper, Air Traffic Division, Airspace Branch, ACE-520A, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329-2524.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR part 71 modifies the Class E surface area and the Class E airspace area extending upward from 700 feet above the surface at McCook, NE. An examination of controlled airspace for McCook, NE revealed that the McCook Municipal Airport ARP used in the legal descriptions for both Class E airspace areas is incorrect. Extensions to the Class E surface area are redefined relative to the McCook very high frequency omni-directional range (VOR)/distance measuring equipment (DME) facility and its radials. The Class E airspace area extending upward from 700 feet above the surface is increased from a 6.8-mile radius to a 7.6-mile radius of McCook Municipal Airport in order to comply with the criteria for 700 feet AGL airspace required for diverse departures. These modifications bring the legal descriptions of the McCook, NE Class E airspace areas into compliance with FAA Orders 7400.2E, Procedures for Handling Airspace Matters, and 8260.19C, Flight Procedures and Airspace. Class E airspace areas designed as surface areas are published in Paragraph 6002 of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of the same Order. The Class E airspace designations listed in this document would be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final

rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2004-17722/Airspace Docket No. 04-ACE-34." The postcard will be date/time stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ Accordingly, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, is amended as follows:

Paragraph 6002 Class E Airspace Designated as Surface Areas.

* * * * *

ACE NE E2 McCook, NE

McCook Municipal Airport, NE

(Lat. 40°12'23" N., long. 100°35'32" W.)

McCook VOR/DME

(Lat. 40°12'14" N., long. 100°35'39" W.)

Within a 4.1-mile radius of McCook Municipal Airport and within 1.8 miles each side of the McCook VOR/DME 122° radial extending from the 4.1-mile radius of the airport to 7 miles southeast of the VOR/DME and within 1.8 miles each side of the McCook VOR/DME 326° radial extending from the 4.1-mile radius of the airport to 7 miles northwest of the VOR/DME. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Director.

* * * * *

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ACE NE E5 McCook, NE

McCook Municipal Airport, NE

(Lat. 40°12'23" N., long. 100°35'32" W.)

That airspace extending upward from 700 feet above the surface within a 7.6-mile radius of McCook Municipal Airport.

BILLING CODE 4910–13–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Food and Drug Administration****21 CFR Parts 510 and 558**

[Docket No. 1993P–0174]

Requirements for Liquid Medicated Animal Feed and Free-Choice Medicated Animal Feed

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is changing the regulations for liquid medicated feed and free-choice medicated feed. By changing the regulations for liquid medicated feed, FDA is clarifying: What data are required to demonstrate chemical and physical stability of a drug in liquid feed, how such data may be submitted for use in the new animal drug approval process, and which liquid medicated feeds may be manufactured in a feed manufacturing facility that has not obtained a medicated feed mill license from FDA. By changing the regulations for free-choice medicated feed, FDA is ensuring that they are consistent with the requirements for liquid medicated feed, and that provisions for free-choice medicated feed and liquid medicated feed comply with the terms of the Animal Drug Availability Act (ADAA) of 1996.

DATES: This rule is effective June 28, 2004.

FOR FURTHER INFORMATION CONTACT:

Dragan Momcilovic, Center for Veterinary Medicine (HFV–226), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301–827–0169, e-mail: dmomcilo@cvm.fda.gov.

SUPPLEMENTARY INFORMATION:**I. Background**

In the **Federal Register** of May 28, 2003 (68 FR 31645), FDA proposed changing regulations for liquid medicated feed and free-choice medicated feed and provided 90 days for comments on the proposed changes.

Several events led to the development of the proposed rule. First, an April 30, 1993, citizen petition requested that

FDA amend § 558.5 (21 CFR 558.5) to clarify the information and data needed to demonstrate chemical and positional (physical) stability in liquid medicated feeds and describe circumstances under which a medicated feed application (MFA) will or will not be required. Second, our November 21, 1996 (61 FR 59209) advanced notice of proposed rulemaking, which we issued seeking comments concerning various issues for the development of regulations implementing provisions of ADAA, prompted the Animal Feed Industry Association to propose changes to the new animal drug requirements regarding free choice administration in feeds (§ 510.455 (21 CFR 510.455)). The proposed changes to § 510.455 would adopt the terms of feed mill licensing in accordance with ADAA and allow a feed manufacturer to submit a new animal drug application (NADA) for the approval of a Type A medicated article for use in the subsequent manufacture of a free-choice medicated feed. This document contains the liquid medicated feed and free-choice medicated feed final rules.

II. Summary of the Proposed Rule**A. Liquid Medicated Feed**

The proposed rule had the following objectives: (1) Replaced the references to “medicated feed application” in the current rule with the term “medicated feed mill license,” (2) defined the types of liquid medicated feed covered by this regulation, (3) clarified the types of approvals required for liquid medicated feed, (4) explained that an approval is required for a drug intended for use in a liquid feed and clarifies the procedures and requirements for demonstrating chemical and physical stability of a drug in liquid feed, (5) permitted submission of the stability data through a master file (MF) for reference by a subsequent applicant, (6) explained what information will be included in the published approval of a drug for use in liquid feed, (7) identified the conditions under which an approved medicated feed mill license will be required for the manufacture of a liquid medicated feed, and (8) described the labeling provisions for several drugs approved for use in water but not in liquid feed. We invited comments on whether or not the waiver provision needs to continue to be available because no one has invoked the provision since its inception in 1973.

B. Free-Choice Medicated Feed

The proposed rule had the following objectives: (1) Modified the current rule

by providing a definition of free-choice medicated feed, (2) explained that one of three types of NADAs is required for a drug intended for use in a free-choice feed, (3) specified the data required for such applications and the procedures for their submission, (4) explained how such data must be submitted, (5) stated what information will be included in the published approval of a new animal drug intended for use in free-choice feed, and (6) explained the situations that will require a medicated feed mill license for the manufacture of a free-choice medicated feed.

III. Comments on the Proposed Rule

We received three letters commenting on the proposed rule: Two from trade associations and one from a feed manufacturer. The letters were supportive of the proposed rule. Issues addressed in the comments included waivers from labeling provisions, certified letters containing proprietary information, and the free-choice and liquid feed stability data requirements.

Following is our response to comments, grouped by issue:

A. Waiver From Labeling Provisions

(Comment 1) Two comments stated that the proposed rule should retain the labeling provisions allowing a waiver of warning statements on labels of dry medicated feeds containing bacitracin, oxytetracycline, and/or chlortetracycline, as specified in § 558.5(i). One of the two comments pointed out that the waiver option should be retained because it provides needed information to liquid feed manufacturers while granting appropriate labeling flexibility to new animal drug applicants. The other comment indicated that although the waiver has not been sought in the past, there are indications that several firms are considering to request such a waiver in the future.

We agree with the two comments and are retaining the waiver option in this final rule.

B. Providing a Certified Letter With the Formula and/or Specifications of a Free-Choice or a Liquid Medicated Feed Product

(Comment 2) Two comments expressed concern about our intention, expressed in the preamble of the proposed rule, to provide both the NADA and the MF holder with a certified letter setting forth the formula and/or specifications of a free-choice or a liquid medicated feed product, where the formula and/or specifications are not published in a regulation. The two comments argued that the certified

letter, which contains proprietary information, should only be issued to the MF holder who owns that information, and not to the NADA holder.

We agree with these two comments and intend to provide a certified letter only to the owner of the proprietary formula and/or specifications, who is typically the MF holder.

(Comment 3) Two comments stated that currently there are many free-choice and liquid medicated feed products approved through an MF for which no such certified letters have been provided to the MF holders. In order to avoid possible confusion at feed mill inspections, where some products may have a certified letter and others may not, the two comments stated that FDA should either issue such certified letters to the MF holders of all such previously approved free-choice and liquid medicated feeds, or make it clear in this rule that the certified letter route applies only to free-choice and liquid feeds approved after a certain date.

We intend to provide a certified letter to the owner of the proprietary formula and/or specifications of those free-choice and liquid medicated feed products that are approved after the effective date of this rule. We do not intend to issue certified letters for feed products approved before the effective date of this rule. Firms that are making such feed products must be in compliance with existing requirements and regulations pertaining to the manufacture of those products.

C. The Free-Choice and Liquid Feed Stability Data Requirements

(Comment 4) Two comments stated that the agency should revisit the stability data requirements as well as the consumption data and manufacturing chemistry requirements articulated in the original April 30, 1993, citizen petition and revise the present liquid feed and free choice feed guidances regarding these topics.

This comment falls outside of the scope of this rulemaking. Comments pertaining to FDA guidance documents should be sent to the dockets for those documents. More information on how to submit comments to FDA guidance documents can be found at <http://www.fda.gov/cvm/guidance/guidance.html#purpose>.

IV. Final Rules

The final rules for liquid medicated feed and free-choice medicated feeds adopt the proposed rules without change. For both the liquid medicated feed and free-choice medicated feed final rules, FDA concluded that an

approved medicated feed mill license should be required for facilities that manufacture free-choice or liquid medicated feeds with proprietary formulas and/or specifications. Where the formula and/or specifications are published, FDA has an assurance that medicated feed mills have access to the information necessary to manufacture the approved free-choice or liquid medicated feed. Where the formula and/or specifications are proprietary, medicated feed mills might attempt to manufacture the free choice or liquid medicated feed knowing only that the drug is approved for use in free-choice or liquid medicated feed, but not knowing the formula and/or specifications. Manufacture of such feeds without this crucial information could endanger animal health and public health. Section 510(h) of the act (21 U.S.C. 360(h)) requires that FDA inspect licensed medicated feed mills at least once every 2 years. During such inspections, FDA can ensure that medicated feed mills manufacturing free-choice or liquid medicated feed with proprietary formulas and/or specifications have the approved formula and/or specifications.

V. Environmental Impact

We have carefully considered the potential environmental impacts of this rule and determined under 21 CFR 25.30(h) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This final rule merely clarifies existing regulations concerning liquid medicated feeds and free-choice medicated feeds.

VI. Analysis of Impacts

FDA has examined the impacts of this final rule under Executive Order 12866 and the Regulatory Flexibility Act (5 U.S.C. 601–612), and the Unfunded Mandates Reform Act of 1995 (Public Law 104–4). Executive Order 12866 directs agencies to assess all costs and benefits of available regulatory alternatives and, when regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety, and other advantages, distributive impacts and equity). We believe that this final rule is consistent with the regulatory philosophy and principles identified in Executive Order 12866. We have also determined that the rule is not a significant regulatory action as defined

by the Executive order and so is not subject to review under the Executive order. Under the Regulatory Flexibility Act, if a regulation has a significant impact on a substantial number of small entities, the agency must analyze regulatory options that would minimize the impact on small entities. FDA certifies in accordance with the Regulatory Flexibility Act (5 U.S.C. 601–612) that this rule will not have a significant economic impact on a substantial number of small entities, and therefore, a regulatory flexibility analysis is not required.

Section 202(a) of the Unfunded Mandates Reform Act requires that agencies prepare a written statement of anticipated costs and benefits before proposing any regulation that may result in an expenditure by state, local and tribal governments in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation) in any one year. The Unfunded Mandates Reform Act does not require FDA to prepare a statement of costs and benefits for this final rule because the rule is not expected to result in any 1 year expenditure that would exceed \$100 million adjusted for inflation. The current inflation-adjusted statutory threshold is approximately \$110 million.

The rule is intended to clarify, simplify, and elaborate on the current regulations concerning liquid medicated feeds and free-choice medicated feeds. This rule, which provides more precise and detailed provisions than the previous regulations, responds to requests submitted in citizen petitions and comments by an industry association. It also makes changes to the regulatory language for free-choice medicated feeds in order to be consistent with the ADAA provision that replaced the medicated feed application system with the medicated feed mill licensing system.

We did not receive any comments to the proposed rule that questioned the conclusions of the cost and benefit discussions. Further, changes made to the proposed rule as a result of other comments would not affect these conclusions. As such, we restate them for this final rule.

A. Liquid Medicated Feeds

The final rule for liquid medicated feeds clarifies the types of liquid medicated feeds for which a separate new animal drug approval is necessary and for which a medicated feed mill license is necessary. In particular, it fully elaborates on the procedures and requirements for demonstrating the chemical and physical stability of a drug

in liquid feeds, as well as how the data from such a demonstration can be submitted to the agency.

The rule references requirements under 21 CFR 514.1 that are currently required for the approval of all new animal drugs. As these requirements do not represent a new burden, there is no cost associated with this aspect of the rule. Likewise, the rule adds to the current labeling provisions for certain drugs that are approved for use in animal feed or drinking water but not approved for use in certain liquid feeds. The rule describes the waiver process for the exclusion of certain products from these labeling requirements. Because this waiver process already exists under the current rule, it will not impose any additional cost to industry.

B. Free-Choice Medicated Feed

The revisions to § 510.455 concern free-choice medicated feed and very closely follow the liquid medicated feed proposal. Section 510.455 clarifies and elaborates on the NADA requirements for drugs intended for use in free-choice medicated feeds. In addition, it replaces the language that provided for the medicated feed application with language for the medicated feed mill licensing system that was created by ADAA. Because the estimated costs and benefits of the feed mill licensing system were prepared for the final regulations implementing that system, these costs and benefits are not considered to be effects of this rule. In total, the rule is not expected to impose any new compliance burdens on the industry and is not associated with any costs.

It is possible that the final rule will, in fact, result in some cost savings due to the provision that eliminates the requirement for a medicated feed mill license for the manufacture of some liquid and free-choice medicated feeds that contain a Category I drug. In recent years, we have received an average of 128 medicated feed mill license applications annually. Since the applications do not explicitly specify the types of medicated feed that would be manufactured, we are not able to estimate the size of the decrease in applications that would be expected as a result of the rule. However, we would expect there to be some decrease in applications as some feed mills would be exempted from this requirement in the future. We believe this could lead to a modest cost savings for these feed mills. Further, the increased clarity and simplification of §§ 510.455 and 558.5 would be expected to result in additional cost savings to industry in the preparation of new animal drug

applications to the agency. We cannot precisely quantify such savings, but believe the impact to be modest.

VII. Federalism

FDA has analyzed this final rule in accordance with the principles set forth in Executive Order 13132. FDA has determined that the rule does not contain policies that have substantial direct effects on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. Accordingly, the agency has concluded that the final rule does not contain policies that have federalism implications as defined in the Executive order and, consequently, a federalism summary impact statement is not required.

VIII. Paperwork Reduction Act of 1995

In this final rule, § 558.5 specifies procedures for obtaining a waiver from labeling requirements for certain drugs intended for use in animal feed or drinking water but not approved for use in liquid medicated feed. The following items must be included in a request for waiver: (1) A copy of the product label; (2) a description of the formulation; and (3) information to establish that the physical, chemical, or other properties of the product are such that diversion to use in liquid medicated feeds is unlikely. This information would be collected if the manufacturer or sponsor chose not to include the required warning “FOR USE IN ____ ONLY, NOT FOR USE IN LIQUID MEDICATED FEEDS” on its product label. The sponsor or manufacturers would then need to satisfy the requirements of the waiver section of the regulation. The proposed burden estimate for this collection of information is 5 hours and will be included under the clearance for “New Animal Drug Application,” Office of Management and Budget (OMB) control number 0910–0032. All related data collections are already covered under OMB control number 0910–0032.

IX. Conforming Changes

FDA has made conforming changes in its regulations in 21 CFR 558.95, 558.305, 558.311, 558.342, 558.355, and 558.625 to remove references to the term “medicated feed application.” These conforming changes ensure the accuracy and consistency of the regulations.

List of Subjects

21 CFR Part 510

Administrative practice and procedure, Animal drugs, Labeling,

Reporting and recordkeeping requirements.

21 CFR Part 558

Animal drugs, Animal feeds.

■ Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, 21 CFR parts 510 and 558 are amended as follows:

PART 510—NEW ANIMAL DRUGS

■ 1. The authority citation for 21 CFR part 510 continues to read as follows:

Authority: 21 U.S.C. 321, 331, 351, 352, 353, 360b, 371, 379e.

■ 2. Section 510.455 is revised to read as follows:

§ 510.455 Requirements for free-choice medicated feeds.

(a) *What is free-choice medicated feed?* For the purpose of this part, free-choice medicated feed is medicated feed that is placed in feeding or grazing areas and is not intended to be consumed fully at a single feeding or to constitute the entire diet of the animal. Free-choice feeds include, but are not limited to, medicated blocks (agglomerated feed compressed or rendered into a solid mass and cohesive enough to hold its form), mineral mixes, and liquid feed tank supplements (“lick tank” supplements) containing one or more new animal drugs. The manufacture of medicated free-choice feeds is subject to the current good manufacturing practice regulations in part 225 of this chapter for medicated feeds.

(b) *What types of approvals are required for new animal drugs intended for use in free-choice feed?* New animal drugs intended for use in free-choice feed must be approved for such use under section 512 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360(b)), as:

- (1) An original new animal drug application (NADA),
- (2) A supplemental NADA, or
- (3) An abbreviated NADA.

(c) *What are the approval requirements for new animal drugs intended for use in free-choice feed?* (1) An approval under section 512 of the act is required for any new animal drug intended for use in a free-choice feed.

(2) An approved NADA for a Type A medicated article intended for use in free-choice feed must contain the following information:

(i) Data, or reference to data in a master file (MF), showing that the target animal consumes the new animal drug in the Type C free-choice feed in an amount that is safe and effective (consumption/effectiveness data); and

(ii) Data, or reference to data in a MF, showing the relevant ranges of conditions under which the drug will be chemically and physically stable in the Type C free-choice feed under field conditions.

(d) *How are consumption/effectiveness and/or stability data to be submitted?* The data must be submitted as follows:

- (1) Directly in the NADA, by a sponsor; and/or
- (2) To an MF that a sponsor may then reference in its NADA with written consent of the MF holder.

(e) *What will be stated in the published approval for a new animal drug intended for use in free-choice feed?* The approval of a new animal drug intended for use in free-choice feed, as published in this subchapter, will include:

- (1) The formula and/or specifications of the free-choice medicated feed, where the owner of this information requests such publication, or
- (2) A statement that the approval has been granted for a proprietary formula and/or specifications.

(f) *When is a medicated feed mill license required for the manufacture of a free-choice medicated feed?* An approved medicated feed mill license is required for the manufacture of the following types of feeds:

- (1) All free-choice medicated feeds that contain a Category II drug, and
- (2) Free-choice medicated feeds that contain a Category I drug and use a proprietary formula and/or specifications.

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

■ 3. The authority citation for 21 CFR part 558 continues to read as follows:

Authority: 21 U.S.C. 360b, 371.

■ 4. Section 558.5 is revised to read as follows:

§ 558.5 Requirements for liquid medicated feed.

(a) *What types of liquid medicated feeds are covered by this section?* This section covers the following types of liquid medicated feed:

- (1) Type B feed that is intended for further manufacture of other medicated feeds (§ 558.3(b)(3)) or:
- (2) Type C feed that is intended for the following:

- (i) Further manufacture of another Type C feed, or
- (ii) Top-dressing (adding on top of the usual ration) (§ 558.3(b)(4)).

(b) *How is liquid free-choice medicated feed regulated?* Liquid free-choice medicated feed is covered by this section and by § 510.455.

(c) *What types of approvals are required for new animal drugs intended for use in liquid feed?* New animal drugs intended for use in liquid feed must be approved for such use under section 512 of the act, as:

- (1) An original NADA,
- (2) A supplemental NADA, or
- (3) An abbreviated NADA.

(d) *What are the approval requirements for new animal drugs intended for use in liquid feed?* (1) An approval under section 512 of the act is required for any new animal drug intended for use in a liquid feed; and (2) An approved new animal drug application (NADA) for a drug intended for use in liquid feed must contain the following information:

(i) Data, or a reference to data in a master file (MF), that shows the relevant ranges of conditions under which the drug will be chemically stable in liquid feed under field use conditions; and

(ii) Data, or a reference to data in an MF, that shows that the drug is physically stable in liquid feed under field conditions; or

(iii) Feed labeling with recirculation or agitation directions as follows:

(A) For liquid feeds stored in recirculating tank systems: Recirculate immediately prior to use for not less than 10 minutes, moving not less than 1 percent of the tank contents per minute from the bottom of the tank to the top. Recirculate daily as described even when not used.

(B) For liquid feeds stored in mechanical, air, or other agitation-type tank systems: Agitate immediately prior to use for not less than 10 minutes, creating a turbulence at the bottom of the tank that is visible at the top. Agitate daily as described even when not used.

(e) *How are chemical and physical stability data to be submitted?* The data must be submitted as follows:

- (1) Directly in the NADA,
- (2) By a sponsor, or
- (3) To an MF that a sponsor may then reference in its NADA with written consent of the MF holder.

(f) *What will be stated in the published approval for a new animal drug intended for use in liquid feed?*

The approval of a new animal drug intended for use in liquid feed as published in this subchapter will include the following requirements:

(1) The formula and/or specifications of the liquid medicated feed, where the owner of this information requests such publication; and/or

(2) A statement that the approval has been granted for a proprietary formula and/or specifications.

(g) *When is a medicated feed mill license required for the manufacture of*

a liquid medicated feed? An approved medicated feed mill license is required for the manufacture of the following types of feeds:

- (1) All liquid medicated feeds that contain a Category II drug, and
- (2) Liquid medicated feeds that contain a Category I drug and use a proprietary formula and/or specifications.

(h) *What measures are in place to prevent certain drugs, approved for use in animal feed or drinking water but not in liquid medicated feed, from being diverted to use in liquid feeds?* Any product containing any form of bacitracin, oxytetracycline, or chlortetracycline, intended for oral administration via animal feed and/or drinking water, and not approved for use in a liquid medicated feed must include in its labeling the following statement: "FOR USE IN ___ ONLY. NOT FOR USE IN LIQUID MEDICATED FEEDS." The blank may be filled in with the words: "DRY FEEDS", "DRINKING WATER", or "DRY FEEDS AND DRINKING WATER".

(i) *Can the labeling provisions of paragraph (h) of this section be waived, and how can I apply for a waiver?* (1) The labeling provisions of paragraph (h) of this section may be waived if there is evidence to indicate that it is unlikely a new animal drug would be used in the manufacture of a liquid medicated feed.

(2) To obtain a waiver, you must submit a letter requesting a waiver to the Office of New Animal Drug Evaluation (HFV-100), Center for Veterinary Medicine, Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855.

(3) The letter must include a copy of the product label; a description of the formulation; and information to establish that the physical, chemical, or other properties of the new animal drug are such that diversion to use in liquid medicated feed is unlikely.

(j) *What else do I need to know about the labeling provisions of paragraph (h) of this section?* The labeling provisions of paragraph (h) of this section may be implemented without prior approval as provided for in § 514.8(d) and (e) of this chapter.

§ 558.95 [Amended]

■ 5. Section 558.95 is amended in paragraph (d)(4)(iii)(d) by removing the last sentence.

§ 558.305 [Amended]

■ 6. Section 558.305 is amended in paragraphs (d)(1)(i) and (d)(1)(ii) by removing "Type B" wherever it appears.

■ 7. Section 558.311 is amended by revising paragraph (d); in paragraph

(e)(2)(iv) by removing "; each use of this Type C free-choice feed must be the subject of an approved FD-1900 as provided in § 510.455 of this chapter"; and in paragraph (e)(3)(iv) by removing the last sentence to read as follows:

§ 558.311 Lasalocid.

* * * * *

(d) *Special considerations.* (1) Type C cattle and sheep feeds may be manufactured from lasalocid liquid Type B feeds which have a pH of 4.0 to 8.0 and bear appropriate mixing directions as follows:

(i) For liquid feeds stored in recirculating tank systems: Recirculate immediately prior to use for no less than 10 minutes, moving not less than 1 percent of the tank contents per minute from the bottom of the tank to the top. Recirculate daily as described even when not used.

(ii) For liquid feeds stored in mechanical, air, or other agitation-type tank systems: Agitate immediately prior to use for not less than 10 minutes, creating a turbulence at the bottom of the tank that is visible at the top. Agitate daily as described even when not used.

(2) A physically stable lasalocid liquid feed will not be subject to the requirements for mixing directions prescribed in paragraph (d)(1) of this section provided it has a pH of 4.0 to 8.0 and contains a suspending agent(s) sufficient to maintain a viscosity of not less than 300 centipoises per second for 3 months.

(3) If a manufacturer is unable to meet the requirements of paragraph (d)(1) or (d)(2) of this section, the manufacturer may secure approval of a positionally stable liquid feed by:

(i) Either filing a new animal drug application for the product or establishing a master file containing data to support the stability of its product;

(ii) Authorizing the agency to reference and rely upon the data in the master file to support approval of a supplemental new animal drug application to establish physical stability; and

(iii) Requesting the sponsor of an approved new animal drug application to file a supplement to provide for use of its lasalocid Type A article in the manufacture of the liquid feed specified in the appropriate master file. If the data demonstrate the stability of the liquid feed described in the master file, the supplemental new animal drug application will be approved. The approval will provide a basis for the individual liquid feed manufacturer to manufacture under a medicated feed license the liquid mediated feed

described in the master file. A manufacturer who seeks to market a physically unstable lasalocid liquid feed with mixing directions different from the standard directions established in paragraph (d)(1) of this section may also follow this procedure.

(4) If adequate information is submitted to show that a particular liquid feed containing lasalocid is stable outside the pH of 4.0 to 8.0, the pH restriction described in paragraphs (d)(1) and (d)(2) of this section may be waived.

* * * * *

§ 558.342 [Amended]

■ 8. Section 558.342 is amended in paragraphs (d)(1)(i) and (d)(1)(ii) by removing the phrase "Type B or C"; and in paragraph (d)(2) by removing "positionally" and by adding in its place "physically."

■ 9. Section 558.355 is amended by adding paragraph (d)(12); and by revising paragraphs (f)(3)(i)(b)(1), (f)(3)(i)(b)(2), (f)(3)(ix)(b), (f)(6)(i)(b)(1), and (f)(6)(i)(b)(2) to read as follows:

§ 558.355 Monensin.

* * * * *

(d) * * *

(12) Mixing directions for liquid feeds requiring recirculation or agitation:

(i) For liquid feeds stored in recirculating tank systems: Recirculate immediately prior to use for not less than 10 minutes, moving not less than 1 percent of the tank contents per minute from the bottom of the tank to the top. Recirculate daily as described even when not used.

(ii) For liquid feeds stored in mechanical, air, or other agitation-type tank systems: Agitate immediately prior to use for not less than 10 minutes, creating a turbulence at the bottom of the tank that is visible at the top. Agitate daily as described even when not used.

* * * * *

(f) *Conditions of use.* It is used as follows:

(3) *Cattle*—(i) *Amount per ton.* Monensin, 5-30 grams.

(b) *Limitations.* (1) Feed only to cattle being fed in confinement for slaughter. Feed continuously in complete feed at a rate of 50 to 360 milligrams of monensin per head per day; as monensin sodium. Complete feeds may be manufactured from monensin liquid Type B feeds. The liquid Type B feeds have a pH of 4.3 to 7.1 and their labels must bear appropriate mixing directions as defined in paragraph (d)(12) of this section. The liquid feed must bear caution statement as follows: Inadequate mixing, (recirculation or agitation), of liquid feeds has resulted in increased

monensin concentration which has been fatal to cattle.

(2) An approved physically stable monensin liquid feed will not be subject to the requirements for mixing directions defined in paragraph (d)(12) of this section. A manufacturer may secure approval of a physically stable liquid feed by:

(i) Either filing an NADA for the product or by establishing a master file containing data to support the stability of its product;

(ii) Authorizing the agency to reference and rely upon the data in the master file to support approval of a supplemental NADA to establish physical stability; and

(iii) Requesting No. 000986 in § 510.600(c) of this chapter to file a supplemental NADA to provide for the use of its monensin Type A article in the manufacture of the liquid feed specified in the appropriate master file. If the data demonstrate the stability of the liquid feed described in the master file, the agency will approve the supplemental NADA. The approval will provide a basis for the individual liquid feed manufacturer to manufacture the liquid medicated feed under a medicated feed mill license described in the master file. A manufacturer who seeks to market a physically unstable monensin liquid feed with mixing directions different from the standard established in paragraph (d)(12) of this section may also follow this procedure.

* * * * *
(ix) *Amount.* * * *
* * * * *

(b) *Limitations.* Feed only to cattle being fed in confinement for slaughter. Feed continuously at the rate of 8.2 to 10.2 kilograms (18 to 22.5 pounds) of Type C medicated feed per head per day to supply 240 milligrams of monensin and 90 milligrams of tylosin per head per day; as monensin sodium; as tylosin phosphate. Do not allow horses or other equines access to feeds containing monensin. Ingestion of monensin by equines has been fatal. Safe use in unapproved species and breeding cattle has not been established. The liquid medicated feed must bear expiration date of 14 days after date of manufacture. The mixing directions for this liquid medicated feed stored in recirculation or agitation tank systems are as defined in paragraph (d)(12) of this section.

* * * * *
(6) *Goats*—(i) *Amount per ton.*
Monensin, 20 grams.

* * * * *

(b) *Limitations.* (1) Feed only to goats being fed in confinement. Do not feed to

lactating goats. Feed continuously in Type C feed as monensin sodium. Type C feed may be manufactured from monensin liquid Type B feeds. The liquid Type B feeds have a pH of 4.3 to 7.1 and their labels must bear appropriate mixing directions, as defined in paragraph (d)(12) of this section. The liquid feed must bear caution statement as follows: Inadequate mixing, (recirculation or agitation), of liquid feeds has resulted in increased monensin concentration which could be fatal to goats.

(2) An approved physically stable monensin liquid feed will not be subject to the requirements for mixing directions defined in paragraph (d)(12) of this section. A manufacturer may secure approval of a physically stable liquid feed by:

(i) Either filing an NADA for the product or by establishing a master file containing data to support the stability of its product;

(ii) Authorizing the agency to reference and rely upon the data in the master file to support approval of a supplemental NADA to establish physical stability; and

(iii) Requesting No. 000986 in § 510.600(c) of this chapter to file a supplemental NADA to provide for the use of its monensin Type A article in the manufacture of the liquid feed specified in the appropriate master file. If the data demonstrate the stability of the liquid feed described in the master file, the agency will approve the supplemental NADA. The approval will provide a basis for the individual liquid feed manufacturer to manufacture the liquid medicated feed under a medicated feed mill license described in the master file. A manufacturer who seeks to market a physically unstable monensin liquid feed with mixing directions different from the standard established in paragraph (d)(12) of this section may also follow this procedure.

§ 558.625 [Amended]

■ 10. Section 558.625 is amended in paragraphs (c)(1)(i) and (c)(1)(ii) by removing “Type B” and by removing the phrase “no fewer than 10 minutes” and adding in its place the phrase “not less than 10 minutes”.

Dated: May 18, 2004.

Jeffrey Shuren,

Assistant Commissioner for Policy.

[FR Doc. 04–11943 Filed 5–26–04; 8:45 am]

BILLING CODE 4160–01–S

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[CGD05–04–057]

RIN 1625–AA00

Security Zone; Potomac River, Washington, DC, and Arlington and Fairfax Counties, VA

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary security zone, May 27 through May 30, 2004, encompassing the waters of the Potomac River in order to safeguard a large number of high-ranking officials and spectators attending the dedication of the National World War II Memorial from terrorist acts and incidents. This action is necessary to ensure the safety of persons and property, and prevent terrorist acts or incidents. This rule prohibits vessels and people from entering the security zone and requires vessels and persons in the security zone to depart the security zone, unless specifically exempt under the provisions in this rule or granted specific permission from the Coast Guard Captain of the Port Baltimore.

DATES: This rule is effective from 4 a.m. local time on May 27, 2004, through 10 p.m. local time on May 30, 2004.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket [CGD05–04–057] and are available for inspection or copying at The Ports and Waterways Department of Coast Guard Activities Baltimore between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Ronald L. Houck, at Coast Guard Activities Baltimore, Waterways Management Branch, at telephone number (410) 576–2674.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On May 4, 2004, we published a notice of proposed rulemaking (NPRM) entitled “Security Zone; Potomac River, Washington, DC and Arlington and Fairfax Counties, VA” in the **Federal Register** (69 FR 24552). We received no letters commenting on the proposed rule. No public meeting was requested, and none was held.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for

making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date past May 27, 2004, would be contrary to the public interest because the security zone is needed from 4 a.m. May 27 through 10 p.m. May 29, 2004, to protect the public, high-ranking officials, and ports and waterways of the United States.

Background and Purpose

Terrorist attacks on September 11, 2001, inflicted catastrophic human casualties and property damage. These attacks highlighted the terrorists' ability and desire to utilize multiple means in different geographic areas to increase their opportunities to successfully carry out their mission, thereby maximizing loss of life and destruction of property using multiple terrorist acts.

Since the September 11, 2001 terrorist attacks on the World Trade Center in New York, the Pentagon in Arlington, Virginia and Flight 93 in Pennsylvania, the Federal Bureau of Investigation (FBI) has issued several warnings concerning the potential for additional terrorist attacks within the United States. The threat of maritime attacks is real as evidenced by the October 2002 attack on a tank vessel off the coast of Yemen and the prior attack on the USS COLE. These attacks manifest a continuing threat to U.S. assets as described in the President's finding in Executive Order 13273 of August 21, 2002 (67 FR 56215, September 3, 2002) that the security of the U.S. is endangered by the September 11, 2001 attacks and that such disturbances continue to endanger the international relations of the United States. *See also* Continuation of the National Emergency with Respect to Certain Terrorist Attacks (67 FR 58317, September 13, 2002); Continuation of the National Emergency With Respect To Persons Who Commit, Threaten To Commit, Or Support Terrorism (67 FR 59447, September 20, 2002). The ongoing hostilities in Afghanistan and conflict in Iraq have made it prudent for U.S. ports and waterways to be on a higher state of alert because the Al Qaeda organization and other similar organizations have declared an ongoing intention to conduct armed attacks on U.S. interests worldwide.

The Captain of the Port is establishing a security zone for the dedication of the National World War II Memorial to address the aforementioned security concerns and to take steps to prevent the catastrophic impact that a terrorist attack against a large gathering of spectators and high-ranking officials at or near the National Mall in Washington, D.C., would have. This temporary security zone applies to all

waters of the Georgetown Channel of the Potomac River, from the surface to the bottom, between the Long Railroad Bridge to the Arlington Memorial Bridge and all waters in between, including the waters of the Georgetown Channel Tidal Basin from May 27 through May 30, 2004. Vessels underway at the time this security zone is implemented will immediately proceed out of the zone. We will issue Broadcast Notices to Mariners to further publicize the security zone. This security zone is issued under authority contained in 50 U.S.C. 191 and 33 U.S.C. 1226.

Except for Public vessels and vessels at berth, mooring or at anchor, this rule temporarily requires all vessels in the designated security zone as defined by this rule to depart the security zone. However, the COTP may, in his discretion, grant waivers or exemptions to this rule, either on a case-by-case basis or categorically to a particular class of vessel that otherwise is subject to adequate control measures.

Discussion of Comments and Changes

The Coast Guard received no comments on the proposed rule during the comment period published in the NPRM. No public meeting was requested, and none was held. As a result, no change from the proposed rule was made.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS).

The Coast Guard received no comments on the proposed rule during the comment period published in the NPRM. As a result, no change to the proposed regulatory text was made.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to operate or transit on the Georgetown Channel of the Potomac River, from the surface to the bottom, between the Long Railroad Bridge (the most eastern bridge of the 5-span, Fourteenth Street Bridge complex) to the Arlington Memorial Bridge and all waters in between, including the waters of the Georgetown Channel Tidal Basin. This security zone will not have a significant economic impact on a substantial number of small entities because vessels with compelling interests that outweigh the port's security needs may be granted waivers from the requirements of the security zone.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104–121), we want to assist small entities in understanding this rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Mr. Ronald L. Houck, at Coast Guard Sector Baltimore, Waterways Management Branch, at telephone number (410) 576–2674.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888-REG-FAIR (1–888–734–3247).

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or

impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not

likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation. This regulation establishes a security zone. A “Categorical Exclusion Determination” is available in the docket where indicated under **ADDRESSES**.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1226,1231; 46 U.S.C. Chapter 701; 50 U.S.C. 191,195; 33 CFR 1.05–

1(g), 6.04–1, 6.04–6, and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

■ 2. Add § 165.T05–057 to read as follows:

§ 165.T05–057 Security Zone; Potomac River, Washington, DC, and Arlington and Fairfax Counties, Virginia.

(a) *Location.* The following area is a security zone: All waters of the Georgetown Channel of the Potomac River, from the surface to the bottom, between the Long Railroad Bridge (the most eastern bridge of the 5-span, Fourteenth Street Bridge complex) to the Arlington Memorial Bridge and all waters in between, including the waters of the Georgetown Channel Tidal Basin.

(b) *Regulations.* (1) Entry into or remaining in this zone is prohibited unless authorized by the Coast Guard Captain of the Port, Baltimore, Maryland. Except for Public vessels and vessels at berth, mooring or at anchor, all vessels in this zone are to depart the security zone. However, the COTP may, in his discretion grant waivers or exemptions to this rule, either on a case-by-case basis or categorically to a particular class of vessel that otherwise is subject to adequate control measures.

(2) Persons desiring to transit the area of the security zone may contact the Captain of the Port at telephone number 410–576–2693 or on VHF channel 16 (157.8 MHz) to seek permission to transit the area. If permission is granted, all persons and vessels must comply with the instructions of the Captain of the Port or his or her designated representative.

(c) *Authority.* In addition to 33 U.S.C. 1231 and 50 U.S.C. 191, the authority for this section includes 33 U.S.C. 1226.

(d) *Effective period.* This section is effective from 4 a.m. local time on May 27, 2004, through 10 p.m. local time on May 30, 2004.

Dated: May 20, 2004.

Evan Q. Kahler,

Commander, U.S. Coast Guard, Acting Captain of the Port, Baltimore, Maryland.

[FR Doc. 04–12009 Filed 5–26–04; 8:45 am]

BILLING CODE 4910–15–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[CGD13-04-022]

RIN 1625-AA00

Security Zone; Portland Rose Festival on Willamette River

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary security zone surrounding the City of Portland's Waterfront Park to include all waters of the Willamette River, from surface to bottom, and shoreline to shoreline between the Hawthorne and Steel bridges and underneath these bridges. The Captain of the Port, Portland, Oregon, is taking this action to safeguard the vessels participating in the Portland Rose Festival from terrorism, sabotage, or other subversive acts while the vessels are moored at Waterfront Park. Entry into this zone is prohibited unless authorized by the Captain of the Port.

DATES: This rule is effective from Sunday, June 13, 2004, until the last vessel departs the Waterfront Park on Tuesday, June 15, 2004.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket CGD13-04-022 and are available for inspection or copying at U.S. Coast Guard Marine Safety Office/Group Portland, 6767 N. Basin Ave, Portland, Oregon 97217 between 7 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant Junior Grade Xochitl Castañeda, c/o Captain of the Port, Portland Oregon at (503) 240-2594.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On May 29, 2003, the Coast Guard published a final rule (68 FR 31978) establishing a security zone. And on March 26, 2004, we published a notice (69 FR 15681) stating that this year the Portland Rose Festival on Willamette River security zone in 33 CFR 165.1312 would be enforced from June 9, 2004, until June 13, 2004.

It has become necessary, however, to extend the time frame from this final rule by 3 days in order to allow for contingency planning. We did not publish a notice of proposed rulemaking

(NPRM) for this regulation. Under 5 U.S.C. 553(b)(B) and 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for not publishing an NPRM and for making this rule effective less than 30 days after publication in the **Federal Register**. Publishing a NPRM and incorporating these events into 33 CFR 165.13-1315 would be contrary to public interest because the dates for this event will not always fall on the same day in future years. In addition, immediate action is necessary to ensure the safety and security of vessels participating in the 2004 Portland Rose Festival in the navigable waters of the United States.

Discussion of Rule

This rule, for safety and security concerns, will control vessel movements in a security zone surrounding vessels participating in the 2004 Portland Rose Festival. U.S. Naval Vessels are covered under 33 CFR part 165 subpart G—Protection of Naval Vessels, however, the Portland Rose Festival is a major maritime event that draws many different vessels including Navy, Coast Guard, Army Corps of Engineers, and Canadian Maritime Forces. It is crucial that the same level of security be provided to all participating vessels. Entry into this zone is prohibited unless authorized by the Captain of the Port, Portland or his designated representatives. Commercial vessels that typically transit this section of the Willamette River are pre-designated and will suffer only minor inconveniences. Recreational vessels may suffer from extended delays and can anticipate a vessel inspection. Recreational vessels are encouraged to avoid this area. Recreational vessels will be allowed into the zone on a case-by-case basis following extensive security measures, and as operations permit. Coast Guard personnel will enforce this security zone and the Captain of the Port may be assisted by other federal, state, or local agencies.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security.

We expect the economic impact of this rule to be so minimal that a full Regulatory Evaluation under the

regulatory policies and procedures of DHS is unnecessary.

This expectation is based on the adequate resources of the Captain of the Port or his designated representatives, which will allow for a quick response to vessels seeking approval to transit through the security zone. For the above reasons, the Coast Guard only anticipates minor economic impact.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which might be small entities: the owners or operators of vessels intending to transit or anchor in this portion of the Willamette River. The likely impacts to small entities include minor time delays, potential inspections, and possibly non-entrance if the Captain of the Port or his designated representatives determines that the vessels participating in the Rose Festival are threatened. The security zone will not have a significant economic impact because adequate resources will allow for a timely response from the Captain of the Port or his designated representatives, to vessels seeking transit through the security zone.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104-121), we want to assist small entities in understanding this rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule will affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and will either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply,

Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have considered the environmental impact of this rule and concluded that, under figure 2–1, paragraph (34)(g), of Commandant Instruction M16475.ID, this rule is categorically excluded from further environmental documentation because the temporary security zone will not last longer than one week in duration. A “Categorical Exclusion Determination” is available in the docket where indicated under **ADDRESSES**.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1226, 1231; 46 U.S.C. Chapter 701; 50 U.S.C. 191, 195; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

■ 2. Temporarily add § 165.T13–004 to read as follows:

§ 165.T13–004 Security Zone; Portland Rose Festival on Willamette River.

(a) *Location.* The following area is a security zone: All waters of the Willamette River, from surface to bottom, between the Hawthorne and Steel bridges and underneath these bridges.

(b) *Effective period.* This section is effective from Sunday, June 13, 2004, until the last vessel departs the Waterfront Park on Tuesday, June 15, 2004.

(c) *Regulations.*

(1) In accordance with § 165.33, entry into this zone is prohibited unless authorized by the Coast Guard Captain of the Port, Portland or his designated

representatives. Section 165.33 also contains other general requirements.

(2) Persons desiring to transit the area of the security zone may contact the Captain of the Port on VHF channel 16 (156.8 MHz) or VHF channel 22A (157.1 MHz) to seek permission to transit the area. If permission is granted, all persons and vessels shall comply with the instructions of the Captain of the Port or his or her designated representative.

Dated: May 18, 2004.

P.D. Jewell,

Captain, U.S. Coast Guard, Captain of the Port, Portland.

[CGD11 04–001]

RIN 1625–AA11

Regulated Navigation Area; San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, Sacramento River, San Joaquin River, and Connecting Waters, CA

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is designating San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, Sacramento River, San Joaquin River, and the connecting waters as a Regulated Navigation Area for the purpose of prohibiting vessels carrying Liquefied Hazardous Gas (LHG) from anchoring in the San Francisco Bay area and requiring them to proceed directly to their intended offload facility. By establishing these requirements, this rule limits the amount of time vessels carrying LHG spend in the heavily populated San Francisco Bay area in order to reduce the chances that vessels carrying LHG could be subject to a terrorist attack or involved in an accident within these waters.

DATES: This rule is effective June 28, 2004.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket CGD11 04–001, and are available for inspection or copying at the Waterways Branch of the Marine Safety Office San Francisco Bay, Coast Guard

Island, Alameda, California, 94501, between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Lieutenant Doug Ebbers, Waterways Management Branch, U.S. Coast Guard Marine Safety Office San Francisco Bay, at (510) 437-3073.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On February 19, 2004, we published a notice of proposed rulemaking (NPRM) entitled "Regulated Navigation Area; San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, Sacramento River, San Joaquin River, and Connecting Waters, CA" in the *Federal Register* (69 FR 7717). In that NPRM, we proposed to designate the listed waters as a Regulated Navigation Area for the purposes of prohibiting vessels carrying LHG from anchoring, requiring them to proceed directly to their intended offload facility, and thereby limiting the amount of time these vessels remained within the heavily populated San Francisco Bay area. We did not receive any letters commenting on the proposed rule. No public hearing was requested, and none was held. We did make one small change in this final rule to expand the definition of LHG to include the hazards normally associated with liquefied hazardous gas.

Penalties for Violating the Regulated Navigation Area

Vessels or persons violating the precepts of this regulated navigation area will be subject to the penalties set forth in 33 U.S.C. 1232 and 50 U.S.C. 192. Pursuant to 33 U.S.C. 1232 any violation of the regulated navigation area described herein, is punishable by civil penalties (not to exceed \$32,500 per violation, where each day of a continuing violation is a separate violation), criminal penalties (imprisonment up to 6 years and a maximum fine of \$250,000), and in rem liability against the offending vessel. Any person who violates this section, using a dangerous weapon, or who engages in conduct that causes bodily injury or fear of imminent bodily injury to any officer authorized to enforce this regulation, also faces imprisonment up to 12 years. Vessels or persons violating this section are also subject to the penalties set forth in 50 U.S.C. 192: Seizure and forfeiture of the vessel to the United States, a maximum criminal fine of \$10,000, and imprisonment up to 10 years.

The Captain of the Port will enforce this regulated navigation area and may

enlist the aid and cooperation of any Federal, State, county, municipal, or private agency to assist in the enforcement of the regulation.

Background and Purpose

Since the September 11, 2001 terrorist attacks on the World Trade Center in New York, the Pentagon in Arlington, Virginia and Flight 93, the Federal Bureau of Investigation (FBI) has issued several warnings concerning the potential for additional terrorist attacks within the United States. In addition, the ongoing hostilities in Afghanistan and the conflict in Iraq have made it prudent for U.S. ports to be on a higher state of alert because Al-Qaeda and other organizations have declared an ongoing intention to conduct armed attacks on U.S. interests worldwide.

The threat of maritime attacks is real as evidenced by the attack on the *USS Cole* and the subsequent attack in October 2002 against a tank vessel off the coast of Yemen. These threats manifest a continuing threat to U.S. assets as described in the President's finding in Executive Order 13273 of August 21, 2002 (67 FR 56215, September 3, 2002) that the security of the U.S. is endangered by the September 11, 2001 attacks and that such aggression continues to endanger the international relations of the United States. See also Continuation of the National Emergency with Respect to Certain Terrorist Attacks (67 FR 58317, September 13, 2002), and Continuation of the National Emergency with Respect to Persons Who Commit, Threaten To Commit, Or Support Terrorism (67 FR 59447, September 20, 2002).

Additionally, the U.S. Maritime Administration (MARAD) in Advisory 02-07 advised U.S. shipping interests to maintain a heightened status of alert against possible terrorist attacks. MARAD more recently issued Advisory 03-05 informing operators of maritime interests of increased threat possibilities to vessels and facilities and a higher risk of terrorist attack to the transportation community in the United States. The ongoing foreign hostilities have made it prudent for U.S. ports and waterways to be on a higher state of alert because the Al-Qaeda organization and other similar organizations have declared an ongoing intention to conduct armed attacks on U.S. interests worldwide.

Collectively, the items noted in the previous discussion represent a hazardous condition threatening the safety of the port and its facilities as well as other users of the waterway. Further, due to increased awareness that future terrorist attacks are possible, the Coast Guard as lead federal agency for

maritime homeland security, has determined that the District Commander must have the means to deter threats to the port while sustaining the flow of commerce. A Regulated Navigation Area is a tool available to the Coast Guard that may be used to control vessel traffic through ports, harbors, or other waters.

As part of the Diplomatic Security and Antiterrorism Act of 1986 (Pub. L. 99-399), Congress amended section 7 of the Ports and Waterways Safety Act (PWSA), 33 U.S.C. 1226, to allow the Coast Guard to take actions, including the establishment of regulated navigation areas, to prevent or respond to acts of terrorism against individuals, vessels, or public or commercial structures. The Coast Guard also has authority to establish regulated navigation areas pursuant to the Act of June 15, 1917, as amended by the Magnuson Act of August 9, 1950 (50 U.S.C. 191 *et seq.*), and implementing regulations promulgated by the President in subparts 6.01 and 6.04 of part 6 of title 33 of the Code of Federal Regulations.

In this particular rulemaking, to address the aforementioned security and safety concerns and to take steps to prevent a terrorist incident involving vessels carrying Liquefied Hazardous Gas (LHG), the Coast Guard is designating San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, Sacramento River, San Joaquin River, and the connecting waters as a Regulated Navigation Area for the purpose of prohibiting vessels carrying LHG from anchoring or unnecessarily remaining within these areas. Since September of 2001, as part of the efforts to increase the safety and security of the Port of San Francisco Bay, the Captain of the Port (COTP) has been issuing COTP Orders to prohibit LHG carrying vessels from anchoring prior to discharging their cargo. As such, this rule codifies the established policy of prohibiting LHG carrying vessels from anchoring in San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, Sacramento River, San Joaquin River, and the connecting waters.

This regulated navigation area is needed to protect the public, ports, and the environment from the potential damage that would be caused if an LHG vessel were to become the target of a subversive act or be involved in an accident or other event of a similar nature. Prohibiting vessels carrying LHG from anchoring unless specifically authorized to do otherwise by the Captain of the Port or his designated representative will limit the amount of time these vessels are underway in the San Francisco Bay area and reduce the

associated potential hazards posed by their cargo. Due to heightened security concerns and the catastrophic impact a terrorist attack on a vessel carrying LHG would have on the vessel, crew, surrounding area and the public, the regulations established by this rule are prudent for this location.

Regulatory Evaluation

This rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not “significant” under the regulatory policies and procedures of the Department of Homeland Security (DHS).

Although this regulation prohibits LHG vessels from anchoring within the regulated navigation area and requires them to proceed directly to their intended offload facility, the effect of this regulation is not significant because vessels carrying LHG have been directed by COTP orders not to anchor within San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, Sacramento River, San Joaquin River, and connecting waters in California since September of 2001. Therefore, this rule is a continuation of the established policy of prohibiting LHG vessels from anchoring in the San Francisco Bay area, and having it published simply removes the need to issue a COTP order each time an LHG vessel enters the bay. In addition, LHG vessels will be allowed to anchor on a case-by-case basis with permission of the Captain of the Port, or his designated representative.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities because the rule only effects LHG vessels within San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, Sacramento River, San Joaquin River, and connecting waters in California, it allows these vessels to complete their

intended purpose of delivering LHG cargo, and the rule is a continuation of a policy that has been in effect since September of 2001.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal Regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–800–REG–FAIR (1–888–734–3247).

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation because we are establishing a Regulated Navigation Area. An “Environmental Analysis Check List” and a draft “Categorical Exclusion Determination” (CED) will be

available in the docket where located under **ADDRESSES**.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and record-keeping requirements, Waterways.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1226, 1231; 46 U.S.C. Chapter 701; 50 U.S.C. 191, 195; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

■ 2. Add § 165.1185, to read as follows:

§ 165.1185 Regulated Navigation Area; San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, Sacramento River, San Joaquin River, and connecting waters in California.

(a) *Location.* All waters of San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, Sacramento River, San Joaquin River, and connecting waters in California are a Regulated Navigation Area.

(b) *Definitions.* “Liquefied hazardous gas (LHG)” is a liquid containing one or more of the products listed in Table 127.005 of 33 CFR 127.005 that is carried in bulk on board a tank vessel as a liquefied gas product. The hazards normally associated with these products include toxic or flammable properties or a combination of both.

(c) *Regulations.* All vessels loaded with a cargo of liquefied hazardous gas (LHG) within this Regulated Navigation Area must proceed directly to their intended cargo reception facility to discharge their LHG cargo, unless:

(1) The vessel is otherwise directed or permitted by the Captain of the Port. The Captain of the Port can be reached at telephone number (415) 399–3547 or on VHF–FM channel 16 (156.8 MHz). If permission is granted, all persons and vessels must comply with the instructions of the Captain of the Port or his or her designated representative.

(2) The vessel is in an emergency situation and unable to proceed as directed in paragraph (a) of this section without endangering the safety of persons, property, or the environment.

Dated: May 17, 2004.

Kevin J. Eldridge,

Rear Admiral, U.S. Coast Guard, District Commander, Eleventh Coast Guard District.

BILLING CODE 4910–15–P

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 7

RIN 1024–AD00

Amistad National Recreation Area, Personal Watercraft Use

AGENCY: National Park Service, Interior.

ACTION: Final rule.

SUMMARY: This rule designates areas where personal watercraft (PWC) may be used in Amistad National Recreation Area, Texas. This rule implements the provisions of the National Park Service (NPS) general regulations authorizing park areas to allow the use of PWC by promulgating a special regulation. The NPS Management Policies 2001 directs individual parks to determine whether PWC use is appropriate for a specific park area based on an evaluation of that area’s enabling legislation, resources and values, other visitor uses, and overall management objectives.

EFFECTIVE DATE: This rule is effective May 27, 2004.

ADDRESSES: Mail inquiries to the Superintendent, Amistad National Recreation Area, HRC 3 Box 5J, Del Rio, Texas 78840 or e-mail to amis@den.nps.gov.

FOR FURTHER INFORMATION CONTACT: Kym Hall, Special Assistant, National Park Service, 1849 C Street, NW., Room 3145, Washington, DC 20240. Phone: (202) 208–4206. E-mail: Kym_Hall@nps.gov.

SUPPLEMENTARY INFORMATION:

Background

Personal Watercraft Regulation

On March 21, 2000, the National Park Service published a regulation (36 CFR 3.24) on the management of personal watercraft (PWC) use within all units of the national park system (65 FR 15077). This regulation prohibits PWC use in all national park units unless the NPS determines that this type of water-based recreational activity is appropriate for the specific park unit based on the legislation establishing that park, the park’s resources and values, other visitor uses of the area, and overall management objectives. The regulation banned PWC use in all park units effective April 20, 2000, except that a grace period was provided for 21 lakeshores, seashores, and recreation areas. The regulation established a 2-year grace period following the final rule publication to provide these 21 park units time to consider whether PWC use should be allowed.

Description of Amistad National Recreation Area

Amistad National Recreation Area lies along the United States-Mexico border near Del Rio, Texas. The unit consists of 57,292 acres of land and water and is a man-made reservoir resulting from the construction of a dam at the confluence of Devils River and the Rio Grande. The reservoir is 1,117 feet above sea level at the normal conservation level, and the park boundary continues 83 miles northwest up the Rio Grande, 25 miles north up the Devils River, and 14 miles north up the Pecos River. The park boundary varies but is generally at the elevation mark of 1,144.3 feet above mean sea level, and the lake level fluctuates in relation to this. The international boundary between the United States and Mexico falls in the middle of the Rio Grande River. The International Boundary and Water Commission has placed buoys in the center of the channel for the first 28 miles but the reservoir is otherwise unmarked. The Mexico side of the reservoir does not have any protected status, thus the NPS does not generally consult with Mexican officials on matters such as boating management in a formal sense.

Amistad is home to a rich archeological record and world-class rock art. Within or immediately adjacent to park boundaries are four archeological districts and one site listed on the National Register of Historical Places.

Amistad National Recreation Area supports a wide variety of boating activities throughout the year, including PWC use, powerboating, waterskiing, houseboating, boat fishing, sightseeing by vessel, sailboating, sailboarding, canoeing, and kayaking. Amistad receives over 1,000,000 visitors a year and issues approximately 5,000 lake use permits annually.

Purpose of Amistad National Recreation Area

The purpose of Amistad National Recreation Area is to provide visitors and neighbors with opportunities and resources for safe, high-quality public outdoor recreation and use of Lake Amistad; to develop and maintain facilities necessary for the care and accommodation of visitors; and to support the concepts of stewardship and protection of resources and environmental sustainability by practicing and interpreting their application in a unit of the national park system.

Significance of Amistad National Recreation Area

According to Amistad's 2001–2005 strategic plan, the primary significance of Amistad National Recreation Area can be summarized as: (1) Offering diverse water-based recreational opportunities, especially fishing; (2) interpreting exceptional examples of Lower Pecos archeology and rock art and; (3) commemorating a water conservation partnership between the United States and Mexico.

Authority and Jurisdiction

Under the National Park Service's Organic Act of 1916 (Organic Act) (16 U.S.C. 1 *et seq.*) Congress granted the NPS broad authority to regulate the use of the Federal areas known as national parks. In addition, the Organic Act (16 U.S.C. 3) allows the NPS, through the Secretary of the Interior, to "make and publish such rules and regulations as he may deem necessary or proper for the use and management of the parks * * *

16 U.S.C. 1a–1 states, "The authorization of activities shall be conducted in light of the high public value and integrity of the National Park System and shall not be exercised in derogation of the values and purposes for which these various areas have been established * * *

NPS's regulatory authority over waters subject to the jurisdiction of the United States, including navigable waters and areas within their ordinary reach—as with the United States Coast Guard—is based upon the Commerce Clause of the U.S. Constitution. Additionally, NPS's regulatory authority over non-navigable waters administered by the NPS, is derived from the Property Clause. In regard to the NPS, Congress in 1976 directed the NPS to "promulgate and enforce regulations concerning boating and other activities on or relating to waters within areas of the National Park System, including waters subject to the jurisdiction of the United States * * *" (16 U.S.C. 1a–2(h)). In 1996 the NPS published a final rule (61 FR 35136, July 5, 1996) amending 36 CFR 1.2(a)(3) to clarify its authority to regulate activities within the National Park System boundaries occurring on waters subject to the jurisdiction of the United States.

PWC Use at Amistad National Recreation Area

The park began regularly documenting PWC use on July 4, 1992, but the earliest record is from March 1989, when a violation notice was issued to an operator for reckless and negligent behavior near a swim beach.

PWC use became more common between 1990–91, and in May 2001 park staff began collecting more specific PWC use data. The highest use generally occurs in summer from Friday through Sunday, and in 2001 ranged from as low as 1 PWC per day up to 35 per day. Park staff believes that PWC use is increasing at approximately 1.5% per year.

Data collected during 2001 and 2002 show that PWC users are a consistent part of the total boating population of the lake, and holidays show the highest amount of use. The highest PWC-use weekday was Wednesday, July 4, 2001 (a holiday), when 33 PWC trailers were observed parked at boat ramp parking lots throughout the recreation area. On that same day, 88 non-PWC boat trailers were observed in the same parking lots.

The highest use for a non-holiday weekend occurred on Saturday, June 23, 2001, when 26 PWC trailers were observed in parking lots throughout the recreation area, compared to 270 non-PWC boat trailers in the same parking lots. Visitors were attracted by the 12 largemouth black bass tournaments taking place at the lake that day and the pleasant weather conditions (bass tournaments occur every weekend during the summer). The highest holiday weekend use day was Sunday, May 26, 2002, when 38 PWC trailers (and 296 non-PWC boat trailers) were observed at launch ramps.

On busy summer weekends, PWC use can comprise between 8% and 20% of total boating activity. On summer weekdays this percentage tends to increase due to fewer out-of-town bass tournament fishermen on the lake. PWC use on summer weekdays can comprise between 19% and 40% of total boating activity in the evenings after 6:30 p.m., when local PWC owners visit the lake after work.

PWC use occurs primarily between May and September, with April and October also showing steady visitation. Weekday PWC users are primarily local residents who arrive after work, while weekend users come from areas farther away. PWC users are usually on the water all day on weekends. Park staff has indicated that PWC users generally operate for two to three hours on weekday evenings, and from four to eight hours on weekends. The increased amount of time in the water can be attributed to users taking turns riding one craft.

PWC operators have been observed traveling throughout the lake, either singly, in pairs, in small groups, or in association with a motorized vessel or houseboat. Within Amistad National Recreation Area, PWC use has been allowed wherever motorized vessels

have had access. This includes the arm of the Rio Grande, the Devils River, San Pedro Canyon, and the Pecos River.

Areas of heaviest PWC use are Devils River north of buoy P and San Pedro Canyon east of buoy A. Most of the personal watercraft launching from Rough Canyon travel up Devils River. In addition, many personal watercraft launching from Diablo East and Spur 454 travel up Devils River past buoy P. In contrast, only one or two personal watercraft travel up the Rio Grande past buoy 28. No PWC have been seen using the Pecos River.

The San Pedro arm of the lake (at the end of Spur 454) attracts a large number of PWC operators because it is one of the few areas where bystanders, usually friends and relatives of the PWC operators, can drive close to the shoreline to observe PWC activity or take turns riding. As a result, this location is one of the primary destinations for PWC operators. Another popular destination for PWC operators is the Indian Springs area in the upper Devils River section of the lake. While en route to Indian Springs, PWC operators tend to either travel in a direct line or explore some or all of the coves between their launch and destination points.

People who rent the 56- to 65-foot houseboats from Amistad Lake Marina often tow personal watercraft with the houseboat (two or three personal watercraft have been observed being towed). The vessels are permitted to travel to most areas, so PWC use is dispersed. These tagalongs are the only personal watercraft likely to use the upper Rio Grande area (north of buoy 28).

Notice of Proposed Rulemaking and Environmental Assessment

On October 22, 2003, the National Park Service published a Notice of Proposed Rulemaking (NPRM) for the operation of PWC at Amistad National Recreation Area (NRA) (68 FR 60304). The proposed rule for PWC use was based on alternative A in the Environmental Assessment (EA) prepared by NPS for Amistad NRA. The EA was available for public review and comment from April 3 to May 3, 2003, and the NPRM was available for public comment from October 22 to December 22, 2003.

The purpose of the environmental assessment was to evaluate a range of alternatives and strategies for the management of PWC use at Amistad to ensure the protection of park resources and values while offering recreational opportunities as provided for in the National Recreation Area's enabling

legislation, purpose, mission, and goals. The analysis assumed alternatives would be implemented beginning in 2002 and considered a 10-year period, from 2002 to 2012.

The environmental assessment evaluated three alternatives concerning the use of personal watercraft at Amistad National Recreation Area. Alternative A allows PWC use under an NPS special regulation in accordance with past park practices, and State regulations. That is, after the effective date of a final rule, PWC use would be the same as it was before November 7, 2002 when the park closed to PWC use under the service-wide regulations at 36 CFR 3.24. Alternative B continues PWC use under a special regulation, but specific limits and use areas would be defined. The no action alternative eliminates PWC use entirely within this national park system unit.

Based on the environmental analysis prepared for PWC use at Amistad National Recreation Area, alternative A is the preferred alternative and is also considered the environmentally preferred alternative because it best fulfills park responsibilities as trustee of this sensitive habitat; ensure safe, healthful, productive, and aesthetically and culturally pleasing surroundings; and attain a wider range of beneficial uses of the environment without degradation, risk of health or safety, or other undesirable and unintended consequences.

Summary of Comments

A proposed rule was published for public comment on October 22, 2003, with the comment period lasting until December 22, 2003. The National Park Service received 737 timely written responses regarding the proposed regulation. Of the responses, 673 were form letters in 3 separate formats and 64 were separate letters. Of the 64 separate letters, 59 were from individuals, 4 from organizations, and 1 from a business. Within the following discussion, the term "commenter" refers to an individual, organization, or public agency that responded. The term "comments" refers to statements made by a commenter.

General Comments

1. One commenter stated that the Environmental Assessment (EA) was headed toward a predetermined outcome.

NPS Response: At no time has there been a predetermined outcome. The staff, in the preparation of the Environmental Assessment, went through the National Environmental Policy Act (NEPA) process—identified

purpose, need, and objectives for taking action, conducted internal scoping, developed proposal, determined the appropriate pathway (Categorical Exemption (CE), EA, or Environmental Impact Statement (EIS)), and conducted public scoping through mailings.

If the EA process had discovered significant impacts from PWC use at Amistad, then an EIS would have been prepared. In addition, if the NPS had concluded that the impacts of PWC use of Amistad NRA were inappropriate based on the area's enabling legislation, resources and values, other visitor uses, and overall management objectives then NPS would have determined a different course of action. To the contrary the impacts discovered during the EA process revealed no significant reasons for not moving forward with the preferred alternative.

2. Several commenters stated that PWC should not be singled out for analysis and restriction.

NPS Response: The Environmental Assessment was not designed to determine if personal watercraft caused more environmental damage to park resources than other vessels, but rather to determine if personal watercraft use was consistent with the park's enabling legislation and otherwise appropriate. The NPS evaluated and chose the preferred alternative as the best regulatory approach in order to maintain the opportunities for various types of recreation while protecting the resources of Amistad National Recreation Area.

3. One commenter stated that the EA failed to use the best available data for the analysis and picked Alternative A without adequate scientific justification.

NPS Response: NPS believes it has properly assessed the impacts of personal watercraft on the resources of Amistad National Recreation Area using the best available data for the analysis. This analysis was done for every applicable impact topic consistent with the Council on Environmental Quality regulations (40 CFR 1502.22). Where data was lacking, best professional judgment prevailed using assumptions and extrapolations from scientific literature, other park units where personal watercraft are used, and personal observations of park staff.

The NPS believes that the environmental assessment is in full compliance with the National Environmental Policy Act, and the Finding of No Significant Impact (FONSI) demonstrates that decision has been adequately analyzed and explained.

4. One commenter stated that the NPS did not consult with and seek the

expertise of various agencies, which appears to violate the NPS' PWC regulations.

NPS Response: The final PWC regulation published by the NPS in March 2000 indicates that we intend to seek the expertise of the U.S. Environmental Protection Agency (EPA), OSHA and other relevant agencies and literature when deciding whether to allow continued PWC use in units of the National Park System. The Environmental Assessment references EPA and OSHA regulations and studies throughout. For example, the U.S. Environmental Protection Agency (EPA) website and the Texas Natural Resources Conservation Commission website were visited and Amistad information was retrieved for both air quality and water quality.

Phone calls were made or letters were sent to other Federal, State, local agencies including U.S. Fish and Wildlife, Texas Parks and Wildlife, Bureau of Reclamation, Texas Commission on Environmental Quality (the State agency charged with application of EPA regulations in Texas), International Boundary and Water Commission, Texas Archeology Society, and the U.S. Coast Guard. The EA was distributed to those listed on pages 156–158 of the EA. We feel we have conducted consultation as required by various Acts and Executive Orders as well as the intent of the March 2000 PWC regulations.

5. One commenter expressed concern about the use of Federal Aid in Sport Fish Restoration Act (FASFR) funds to construct boat launches and facilities.

NPS Response: There are no provisions within the preferred alternative for boat launches and facilities. Landing zones are designated by the NPS for access only by PWC users. No FASFR funds are used within the national recreation area to construct boat launches.

6. Several commenters stated that the decision violates the Organic Act and will result in the impairment of resources.

NPS Response: The "Summary of Laws and Policies" section in the "Environmental Consequences" chapter of the PWC Use EA summarizes the three overarching laws that guide the National Park Service in making decisions concerning protection of park resources. These laws, as well as others, are also reflected in the NPS Management Policies. An explanation of how the Park Service applied these laws and policies to analyze the effects of personal watercraft on Amistad Recreation Area resources and values can be found under "Impairment

Analysis" in the "Methodology" section.

An impairment is an impact that, in the professional judgement of the NPS manager, would harm the integrity of park resources or values. In the analysis used in the PWC Use EA, an impairment to a particular park resource or park value must rise to the magnitude of a major impact, as defined by factors such as context, duration, and intensity. For each resource topic, the Environmental Assessment establishes thresholds or indicators of magnitude of impact. An impact approaching a "major" level of intensity is one indication that impairment could result. For each impact topic, when the intensity approached "major," the park would consider mitigation measures to reduce the potential for "major" impacts, thus reducing the potential for impairment.

The PWC Use EA is a proactive measure to protect national recreation area resources from harm. The purpose of the EA is to assess the impacts of PWC use on identified resources within the recreation area boundaries. The National Park Service has determined that under the preferred alternative, Alternative A, there will be no negative impacts on park resources or values.

7. One commenter stated that the analysis lack site-specific data and there was no adequate justification for why the data was not collected.

NPS Response: NPS believes it has properly assessed the impacts of personal watercraft on the resources of Amistad National Recreation Area using the best available data for the analysis. This analysis was done for every applicable impact topic consistent with the Council on Environmental Quality regulations (40 CFR 1502.22). Where data was lacking, best professional judgment prevailed using assumptions and extrapolations from scientific literature, other park units where personal watercraft are used, and personal observations of park staff.

The NPS believes that the environmental assessment is in full compliance with the National Environmental Policy Act, and the Finding of No Significant Impact (FONSI) demonstrates that decision has been adequately analyzed and explained.

8. One commenter stated that the analysis did not adequately examine impacts to resources outside of Amistad and therefore failed to conduct a thorough and accurate analysis of the impact PWC pollution has on NRA resources.

NPS Response: Under NEPA, an Environmental Assessment must look at the cumulative impacts of any proposed

action in a regional context. On page 21 of the EA is a list of past, present and reasonably foreseeable future actions used to assess PWC contributions to overall impacts on a resource. The EA reviewed regional plans and developed a cumulative impacts analysis that is required under NEPA.

Comments Regarding Water Quality

9. One commenter stated that the analysis represents an outdated look at potential emissions from an overstated PWC population of conventional two-stroke engines, and underestimated the accelerating changeover to 4-stroke and newer two-stroke engines. The net effect is that the analysis overestimates potential PWC hydrocarbon emissions, including benzene and polycyclic aromatic hydrocarbons (PAHs), to the water at Amistad.

NPS Response: Assumptions regarding PWC use (32 per day in 2002 and 37 per day in 2012) were based on the average from the 6 highest use days May 2001 to July 2002 (EA page 90). The data can be considered a conservative estimate, but it is not "unrealistic" since it based on actual Amistad data. Despite these conservative estimates, impacts to water quality from personal watercraft are judged to be negligible to moderate for all alternatives evaluated. Cumulative impacts from personal watercraft and other outboard motorboats are expected to be negligible. If the assumptions used were less than conservative, the conclusions could not be considered protective of the environment, while still being within the range of expected use.

The assumption of all personal watercraft using 2-stroke engines in 2002 is recognized as conservative. It is protective of the environment yet follows the emission data available in CARB (1998) and Bluewater Network (2001) at the time of preparation of the EA. The emission rate of 3 gallons per hour at full throttle is a mid-point between 3 gallons in two hours (1.5 gallons per hour; NPS 1999) and 3.8 to 4.5 gallons per hour for an average 2000 model year personal watercraft (Personal Watercraft and Bluewater Network 2001). The assumption also is reasonable in view of the initiation of production line testing in 2000 (EPA 1997) and expected full implementation of testing by 2006 (EPA 1996).

Reductions in emissions used in the water quality impact assessment are in accordance with the overall hydrocarbon emission reduction projections published by the EPA (1996). EPA (1996) estimates a 52% reduction by personal watercraft by

2010 and a 68% reduction by 2015. The 50% reduction in emissions by 2012 (the future date used in the EA) is a conservative interpolation of the emission reduction percentages and associated years (2010 and 2015) reported by the EPA (1996) but with a one-year delay in production line testing (EPA 1997).

The estimate of 2.8 mg/kg for benzo(a)pyrene in gasoline used in the calculations is considered conservative, yet realistic, since it is within the range of concentrations measured in gasoline according to Gustafson *et al.* (1997).

10. One commenter stated that the analysis disregarded or overlooked relevant research regarding impacts to water quality from PWC use as well as the impact to downstream resources and long term site specific water quality data on PWC pollutants.

NPS Response: The protection of water quality within the national recreation area has been addressed in the EA in a conservative evaluation of surface water quality impacts. Because site-specific water quality data on organic compounds were not available for Amistad and collection of these data was beyond the scope of the EA, a conservative modeling approach was developed and applied to evaluate impacts to water quality from PWC and other motorized vessel use.

Estimated minimum threshold volumes of water were determined for the PWC use areas where concentrations of gasoline constituents discharged from personal watercraft and other outboard engines could potentially be toxic to aquatic organisms or humans. Using the estimated threshold volumes, volumes of the areas being evaluated, PWC and other motorized vessel high-use-day loadings of chemicals identified as constituents of gasoline, and water quality benchmarks, it is possible to identify potentially unacceptable impacts to human health or the environment. Chronic water quality benchmarks protective of aquatic populations and protective of human health were acquired from various sources, including USEPA water quality criteria.

The EA states that in 2002 under both Alternatives A and B, impacts to water quality in Amistad from PWCs on a high-use day would be negligible for all chemicals evaluated based on ecological benchmarks and human health benchmarks. In 2012, impacts would also be negligible based on all ecological and human health benchmarks. "Impairment" is clearly defined in the EA on page 91 and is the most severe of the five potential impact categories. The other impact categories starting

with the least severe are: negligible, minor, moderate, and major.

Comments Regarding Air Quality

11. One commenter stated that the analysis failed to mention the impact of PWC permeation losses on local air quality.

NPS Response: Permeation losses of VOCs from personal watercraft were not included in the calculation of air quality impacts primarily because these losses are insignificant relative to emissions from operating watercraft. Using the permeation loss numbers in the comment (estimated to be half the total of 7 grams of losses per 24 hours from the fuel system), the permeation losses per hour from are orders of magnitude less than emissions from operating personal watercraft. Therefore, including permeation losses would have no effect on the results of the air quality impact analyses. Also, permeation losses were not included because of numerous related unknown contributing factors such as number of number of personal watercraft refueling at the reservoir and the location of refueling (inside or outside of the airshed).

12. One commenter stated that the use of air quality data collected at Laredo, 150 miles from the NRA, in the analysis does not provide the best representation of air quality at the lake.

NPS Response: The Laredo monitoring station is the closest air quality monitoring site to the study area. The data from this site were discussed in the EA; however, these data were not used in the impact analysis. The analysis was based on the results of an EPA air emission model, which used estimated PWC and vessel usage at Amistad as inputs.

As stated above, the methodology for assessing air quality impacts was based on a combination of annual emission levels and the National Ambient Air Quality Standards (NAAQS), which are aimed at protection of the public. OSHA and NIOSH standards are intended primarily for workers and others exposed to airborne chemicals for specific time periods. The OSHA and NIOSH standards are not as suitable for application in the context of local and regional analysis of a park or recreational area as are the ambient standards, nor are they intended to protect the general public from exposure to pollutants in ambient air.

13. One commenter stated that the analysis failed to consider that the PWC companies have been rapidly converting from carbureted two-stroke engine models to direct injection two-stroke and four-stroke engine models and most PWC produced will meet the more

stringent California Air Resources Board (CARB) standards over time.

NPS Response: Assumptions regarding PWC use (32 per day in 2002 and 37 per day in 2012) were based on the average from the 6 highest use days May 2001 to July 2002 (EA page 90). The data can be considered a conservative estimate, but it is not "unrealistic" since it is based on actual Amistad data. Despite these conservative estimates, impacts to water quality from personal watercraft are judged to be negligible to moderate for all alternatives evaluated. Cumulative impacts from personal watercraft and other outboard motorboats are expected to be negligible. If the assumptions used were less than conservative, the conclusions could not be considered protective of the environment, while still being within the range of expected use.

The assumption of all personal watercraft using 2-stroke engines in 2002 is recognized as conservative. It is protective of the environment yet follows the emission data available in CARB (1998) and Bluewater Network (2001) at the time of preparation of the EA. The emission rate of 3 gallons per hour at full throttle is a mid-point between 3 gallons in two hours (1.5 gallons per hour; NPS 1999) and 3.8 to 4.5 gallons per hour for an average 2000 model year personal watercraft (Personal Watercraft and Bluewater Network 2001). The assumption also is reasonable in view of the initiation of production line testing in 2000 (EPA 1997) and expected full implementation of testing by 2006 (EPA 1996).

Reductions in emissions used in the water quality impact assessment are in accordance with the overall hydrocarbon emission reduction projections published by the EPA (1996). EPA (1996) estimates a 52% reduction by personal watercraft by 2010 and a 68% reduction by 2015. The 50% reduction in emissions by 2012 (the future date used in the EA) is a conservative interpolation of the emission reduction percentages and associated years (2010 and 2015) reported by the EPA (1996) but with a one-year delay in production line testing (EPA 1997).

The estimate of 2.8 mg/kg for benzo(a)pyrene in gasoline used in the calculations is considered conservative, yet realistic, since it is within the range of concentrations measured in gasoline according to Gustafson *et al.* (1997).

14. One commenter expressed concern that PWC emissions were declining faster than forecasted by the EPA. As the Sierra Report documents, in 2002, HC + NO_x emissions from the

existing fleet of PWC were already 23% lower than they were before the EPA regulations became effective, and will achieve reductions greater than 80% by 2012.

NPS Response: The U.S. EPA's data incorporated into the 1996 Spark Ignition Marine Engine rule were used as the basis for the assessment of air quality, and not the Sierra Research data. It is agreed that the Sierra Research data show a greater rate of emissions reductions than the assumptions in the 1996 Rule and in the EPA's NONROAD Model, which was used to estimate emissions. However, the Sierra Research report has not been used in the EA for reasons of consistency and conformance with the model predictions. Most States use the EPA's NONROAD Model for estimating emissions from a broad array of mobile sources. To provide consistency with State programs and with the methods of analysis used for other similar NPS assessments, the NPS has elected not to base its analysis on focused research such as the Sierra Report for assessing PWC impacts.

It is agreed that the Sierra Research report also provides data on "worst case" scenarios. However worst case or short-term scenarios were not analyzed for air quality impacts in this or other NPS EAs.

It is agreed that the relative quantity of HC + NO_x are a very small proportion of the county based emissions and that this proportion will continue to be reduced over time. The EA takes this finding into consideration in the analysis.

Improved PWCs may be used in increasing numbers; however the data of overall use of this engine type nationwide is not well established. For consistency and conformity in approach, the NPS has elected to rely on the assumptions in the 1996 S.I Engine Rule which are consistent with the widely used NONROAD emissions estimation Model. The outcome is that estimated emissions from combusted fuel may be in the conservative range, if compared to actual emissions.

15. Several commenters stated that research indicated that direct-injection two-stroke engines are dirtier than four-stroke engines.

NPS Response: It is agreed that two-stroke carbureted and two-stroke DI engines generally emit greater amounts of pollutants than four-stroke engines. Only 4 of the 20 PAHs included in the analyses were detected in water: Naphthalene, 2-methylnaphthalene, fluorene, and acenaphthylene. The discussion of toxicity of PAHs in the comment must be from another (unreferenced) document since this

discussion was not found in CARB (2001). It is agreed that some pollutants (BTEX and formaldehyde) were reported by CARB in the test tanks after 24 hours at approximately 50% the concentrations seen immediately following the test. No results for PAH concentrations after 24 hours were seen in the CARB (2001) results, but a discussion of sampling/analyses of PAHs in the six environmental compartments was presented.

EPA NONROAD model factors differ from those of CARB. As a result of the EPA rule requiring the manufacturing of cleaner PWC engines, the existing carbureted two-stroke PWC will, over time, be replaced with either two-stroke direct injection or 4-stroke PWCs and both are less-polluting engines. This replacement, with the anticipated resultant improvement in air quality, is parallel to that experienced in urban environments as the automobile fleet becomes cleaner over time.

16. One commenter stated that the use of the study by Kado, et. al. to suggest that the changeover from two-stroke carbureted to two-stroke direct injection engines may increase emissions of polycyclic aromatic hydrocarbons ("PAH") is in error.

NPS Response: The criteria for analysis of impacts from PWC to human health are based on the National Ambient Air Quality Standards (NAAQSs) for criteria pollutants, as established by the U.S. Environmental Protection Agency (EPA) under the Clean Air Act, and on criteria pollutant annual emission levels. This methodology was selected to assess air quality impacts for all NPS EAs to promote regional and national consistency, and identify areas of potential ambient standard exceedances. PAHs are not assessed specifically as they are not a criteria pollutant. However, they are indirectly included as a subset of Total Hydrocarbons (THC), which are assessed because they are the focus of the EPA's emissions standards directed at manufacturers of spark ignition marine gasoline engines (see 61 FR 52088; October 4, 1996). Neither peak exposure levels nor NIOSH nor OSHA standards are included as criteria for analyzing air quality related impacts, except where short-term exposure is included in a NAAQS.

As stated above, the methodology for assessing air quality impacts was based on a combination of annual emission levels and the NAAQSs, which are aimed at protection of the public. OSHA and NIOSH standards are intended primarily for workers and others exposed to airborne chemicals for specific time periods. The OSHA and

NIOSH standards are not as suitable for application in the context of local and regional analysis of a park or recreational area as are the ambient standards, nor are they intended to protect the general public from exposure to pollutants in ambient air.

The "Kado Study" (Kado *et al.* 2000) presented the outboard engine air quality portion of a larger study described in Outboard Engine and Personal Watercraft Emissions to Air and Water: A Laboratory Study (CARB 2001). In the CARB report, results from both outboards and personal watercraft (two-stroke and 4-stroke) were reported. The general pattern of emissions to air and water shown in CARB (2001) was two-stroke carbureted outboards and personal watercraft having the highest emissions, and 4-stroke outboard and personal watercraft having the lowest emissions. The only substantive exception to this pattern was in NO_x emissions to air—two-stroke carbureted outboards and personal watercraft had the lowest NO_x emissions, while the 4-stroke outboard had the highest emissions. Therefore, the pattern of emissions for outboards is generally applicable to personal watercraft and applicable to outboards directly under the cumulative impacts evaluations.

We agree with the technical statement and summation that adverse health risk to the public would be unlikely from exposure. The methodology for assessing air quality impacts is based on a combination of annual emission levels and the NAAQSs, which are aimed at protection of the public. OSHA and NIOSH standards are intended primarily for workers and others exposed to airborne chemicals for specific time periods. The OSHA and NIOSH standards are not as suitable for application in the context of local and regional analysis of a park or recreational area as are the ambient standards, nor are they intended to protect the general public from exposure to pollutants in ambient air.

Comments Regarding Soundscapes

17. One commenter stated that continued PWC use in the Amistad NRA will not result in sound emissions that exceed the applicable Federal or State noise abatement standards and technological innovations by the PWC companies will continue to result in substantial noise reductions.

NPS Response: The NPS concurs that on-going and future improvements in engine technology and design would likely further reduce the noise emitted from PWC. However, given the ambient noise levels in the recreation area, it is unlikely that the improved technology

could reduce all cumulative impacts beyond minor to moderate throughout the recreation area.

18. One commenter stated that there is no evidence that PWC noise adversely affects aquatic fauna or animals.

NPS Response: Typically PWC exhaust below or at the air/water transition areas, not above the water. Sound transmitted through the water is not expected to have more than negligible adverse impacts on fish (page 118 of the EA), and the EA does not state the PWC noise adversely affects underwater fauna.

19. One commenter stated that the NPS places too much hope in new technologies significantly reducing PWC noise, since there is little possibility that the existing fleet of more than 1.1 million machines (most of which are powered by conventional two-stroke engines) will be retooled to reduce noise.

NPS Response: The analysis of the preferred alternative states that noise from PWC would continue to have minor to moderate, temporary adverse impacts, and that impact levels would be related to the number of PWC and sensitivity of other visitors. This recognizes that noise will occur and will bother some visitors, but site-specific modeling was not needed to make this assessment. The availability of noise reduction technologies is also growing, and we are not aware of any scientific studies that show these technologies do not reduce engine noise levels. Also, the analysis did not rely heavily on any noise reduction technology. It recognizes that the noise from the operation of PWC will always vary, depending on the speed, manner of use, and wave action present.

Although PWC use does occur throughout the lake, it is concentrated more in certain areas, and this is noted in the soundscapes impact analysis that follows the introductory statements and assumptions listed on page 109 of the EA. The analysis of impacts states that "The distribution of personal watercraft during peak summer days would range between 16 to 18 at Diablo East, 7 to 8 at Rough Canyon, 5 to 6 at Spur 454, 3 to 4 at South Winds Marina, and 1 to 2 at Box Canyon." The analysis did not assume even distribution of PWC and predicted moderate impacts from concentrated PWC use in one area.

The noise annoyance costs in the "Drowning in Noise" study are recognized in the EA by the moderate impacts predicted, although no monetary costs are assigned. These costs would vary by type and location of user. Given the intended usage of the higher use marina/beach areas of Amistad and

visitor expectations and tolerances at these areas, it is unlikely that the PWC noise experienced there would meet the definition of "major" impact, as defined in the EA.

20. One commenter stated that there is a big difference in both actual noise and perceived noise from PWC than that from other motorized watercraft in that PWCs repeatedly leave the water, which magnifies noise. This constantly changing noise is often perceived as more disturbing than the constant noise from motorized vessels.

NPS Response: The noise levels of two PWC traveling together would be less than the NPS noise limit of 82 dB at 82 feet for all alternatives. Given that ambient sound levels range from 34 dBA to 50 dBA in the recreation area, the operation of PWC 50 feet from shore would still have minor adverse effects on the soundscape. In most locations natural sounds would prevail and motorized noise would be very infrequent or absent.

21. Two commenters stated that the analysis relied on new technologies proposed by the PWC industry for future noise impacts.

NPS Response: The analysis did not assume that PWC noise would be substantially reduced in the future, although it does recognize the newer machines, and those powered by 4-stroke engines, are expected to be quieter. The analysis does take into account continued noise from PWC and an increase in PWC numbers over time.

22. One commenter stated that the noise associated with PWC is more invasive due to the constantly fluctuating noise levels.

NPS Response: The EA discusses the fluctuating noise aspect of PWC operation in the Affected Environment section (page 49 of the EA), under "Responses to PWC Noise," and recognizes that the "irregular noise seems to be more annoying than that of a standard motorboat" to visitors. The analysis recognizes that different visitors will have different tolerance for PWC noise.

23. One commenter stated that the analysis did not include Drowning in Noise: Noise Costs of PWC in America and therefore the noise analysis under represents the actual impacts.

NPS Response: One of the initial tasks of the Amistad NRA study that is discussed in this Environmental Assessment and in previous responses was a literature search. Drowning in Noise: Noise Costs of Jet Skis in America was one of the many studies reviewed. The reference to that study (Komanoff and Shaw 2000) was discussed in the "Summary of Available

Research on the Effects of Personal Watercraft" section of the EA.

Comments Regarding Wildlife and Wildlife Habitat

24. Two commenters stated that the analysis lacked site-specific data for impacts to fish, wildlife, and threatened and endangered species at Amistad NRA.

NPS Response: The scope of the EA did not include site specific studies regarding potential effects of PWC use on wildlife species at Amistad National Recreation Area. Analysis of potential impacts of PWC use on wildlife at the national recreation area was based on best available data, input from park staff, and the results of analysis using that data.

25. One commenter stated that PWC use and human activities associated with their use may not be any more disturbing to wildlife species than any other type of motorized or non-motorized vessels. The commenter cites research by Dr. James Rodgers of the Florida Fish and Wildlife Conservation Commission, whose studies have shown that PWC are no more likely to disturb wildlife than any other form of human interaction. PWC posed less of a disturbance than other vessel types. Dr. Rodgers' research clearly shows that there is no reason to differentiate PWC from motorized boating based on claims on wildlife disturbance.

NPS Response: Based on the documents provided as part of this comment, it appears that personal watercraft are no more apt to disturb wildlife than are small outboard motorboats. In addition to this conclusion, Dr. Rodgers recommends that buffer zones be established, creating minimum distances between vessels (personal watercraft and outboard motorboats) and nesting and foraging waterbirds. In Amistad, under the Texas Water Safety Act, a 50-ft wide area along the shoreline is already established where the use of watercraft is restricted to flat wake speed only. With this restriction in mind, impacts to wildlife and wildlife habitat under all three alternatives were judged to be negligible at most locations along the shoreline.

26. One commenter stated that wildlife biologists are finding that PWC cause lasting impacts on fish and wildlife.

NPS Response: It is anticipated that more combustion-efficient engines in personal watercraft will reduce pollutant emissions to air and water in the same manner as increased efficiencies in automobile engines combined with catalytic converters and other technologies decreased the

amount and types of automobile exhaust emissions. EPA-sponsored evaluations of different personal watercraft engine designs and emissions concluded that emission reductions would result with implementation of the EPA emission standards for marine engines. The preferred alternative (Alternative A) provides protection of wildlife in the recreation area by prohibiting PWC from landing in areas with interior least tern nesting colonies from May 1 through August 31.

PAH toxicity to fish and wildlife species is a complicated topic because PAHs consist of dozens of different chemical compounds, each of which has substantially different toxicity characteristics in water, sediment, and soils, and toxicity varies dramatically among different fish and wildlife species. The ecological toxicity analysis for PAHs reported in the Environmental Assessment explains the chemical, physical, and biological conditions that were used to conduct the assessment of PAH effects to fish species.

Comments Regarding Visitor Use, Experience, and Safety

27. One commenter stated that the accident data used in the analysis was outdated and incorrect because PWC accidents are reported more often than other boating accidents.

NPS Response: The mediating factors described in the comment are recognized. However, these factors are unlikely to fully explain the large difference in percentages (personal watercraft are only 7.5% of registered vessels, yet they are involved in 36% of reported accidents). In other words, personal watercraft are 5 times more likely to have a reportable accident than are other vessels. This difference is even more significant when canoes and kayaks, which are not required to be registered but are included in the total number of accidents, are considered. Despite these national boating accident statistics, impacts of PWC use and visitor conflicts are judged to be negligible relative to swimmers and minor impact relative to other motorized vessels at the national recreation area.

28. One commenter stated that the analysis did not adequately address PWC fire hazards.

NPS Response: According to the National Marine Manufacturers Association, PWC manufacturers have sold roughly 1.2 million watercraft during the last ten years. Out of 1.2 million PWC sold the U.S. Coast Guard had only 90 reports of fires/explosions in the years from 1995–1999. This is less than 1% of PWC vessels having

reports of problems associated with fires/explosions. As far as the recall campaigns conducted by Kawasaki and Bombardier, the problems that were associated with fuel tanks were fixed. Kawasaki conducted a recall for potentially defective fuel filler necks and fuel tank outlet gaskets on 23,579 models from the years 1989 and 1990. The fuel tank problems were eliminated in Kawasaki's newer models, and the 1989 and 1990 models are most likely not in use anymore since life expectancy of a PWC is only five to seven years according to PWIA. Bombardier also did a recall for its 1993, 1994, and 1995 models to reassess possible fuel tank design flaws. However, the number of fuel tanks that had to be recalled was a very small percent of the 1993, 1994, and 1995 fleets because fuel tank sales only amounted to 2.16% of the total fleet during this period (Bombardier Inc.). The replacement fuel tanks differed from those installed in the personal watercraft subject to the recall in that the replacement tanks had revised filler neck radiuses, and the installation procedure now also requires revised torque specifications and the fuel system must successfully complete a pressure leak test. Bombardier found that the major factor contributing to PWC fires/explosions was over-torquing of the gear clamp. Bombardier was legally required by the U.S. Coast Guard to fix 9.72% of the recalled models. Out of 125,349 recalls, the company repaired 48,370 units, which was approximately 38% of the total recall, far exceeding their legal obligation to repair units with potential problems. Further fuel tank and engine problems that could be associated with PWC fires has been reduced significantly since the National Marine Manufacturers Association set requirements for meeting manufacturing regulations established by the U.S. Coast Guard. Many companies even choose to participate in the more stringent Certification Program administered by the National Marine Manufacturers Association (NMMA). The NMMA verifies annually, or whenever a new product is put on the market, vessel model lines to determine that they

satisfy not only the U.S. Coast Guard Regulations but also the more rigorous standards based on those established by the American Boat and Yacht Council.

29. One commenter stated that the analysis did not address impacts to other park visitors.

NPS Response: Adverse impacts of PWC use on other boaters is discussed in the EA (page 141 of the EA) under "PWC Users/Other Boater Conflicts." The impacts are expected to be minor to moderate adverse concentrated in the high use areas.

Comments Related to Cultural Resources

30. One commenter stated that the analysis refers to a potential concern that the ability of PWC operators to access remote areas of the park unit might make certain cultural, archeological and ethnographic sites vulnerable to looting or vandalism. However, there is no indication of any instances where these problems have occurred. Nor is there any reason to believe that PWC users are any more likely to pose these concerns than other park visitors who might access these same areas.

NPS Response: The EA was focused on the analysis of impacts from PWC use. PWC can make it easier to reach some remote upstream areas, compared to hiking to these areas, but we agree that the type of impacts to cultural resources from any users of remote areas of the park would be similar if they can reach these areas.

Comments Regarding Socioeconomics

31. One commenter stated that the analysis did not adequately assess socioeconomic impacts on the regional economy.

NPS Response: The number of recreational visits at Amistad National Recreation Area in calendar year 2000 was 1,234,506. In 2001 the recreational visits were 1,097,650, a reduction of 11%. The socioeconomic study did not address the future potential costs of environmental damage. The study looked at the potential effect that the ban would have on the local economy, and the potential effects on socio-economically disadvantaged groups.

The comment is correct in stating that the same level of analysis was not given to the future environmental costs.

Changes to the Final Rule

Based on the preceding comments and responses, the NPS has made no changes to the proposed rule language with regard to PWC operations.

Summary of Economic Analysis

Alternative A would permit PWC use as previously managed within the park before the November 2002 ban in accordance with the Superintendent's compendium. Alternative A is the preferred alternative. Under this alternative, a special regulation would reinstate PWC use in Amistad National Recreation Area wherever motorized vessels are authorized, which includes PWCs. Alternative B would permit PWC use with additional management restrictions on PWC users and concessioners. Alternative C is the no-action alternative and represents the baseline conditions for this economic analysis. Under that alternative, the November 2002 ban would be continued. All benefits and costs associated with Alternatives A and B are measured relative to that baseline.

The primary beneficiaries of Alternatives A and B include the individuals who would use PWCs within the park and the businesses that provide services to PWC users such as rental shops, restaurants, gas stations, and hotels. Additional beneficiaries include the individuals who use PWCs in areas outside the park where PWC users displaced from the park by the ban may have increased their use. Over a ten-year horizon from 2003 to 2012, the present value of benefits to PWC users is expected to range between \$1,394,600 and \$1,890,700, depending on the alternative analyzed and the discount rate used. The present value of benefits to businesses over the same timeframe is expected to range between \$20,300 and \$199,900. These benefit estimates are presented in Table 1. The amortized values per year of these benefits over the ten-year timeframe are presented in Table 2.

TABLE 1.—PRESENT VALUE OF BENEFITS FOR PWC USE IN AMISTAD NATIONAL RECREATION AREA, 2003–2012 (2001 \$)^a

	PWC users	Businesses	Total
Alternative A:			
Discounted at 3% ^b	\$1,890,700	\$28,800 to \$199,900	\$1,919,500 to \$2,090,600
Discounted at 7% ^b	\$1,549,600	\$23,600 to \$163,800	\$1,573,200 to \$1,713,400
Alternative B:			
Discounted at 3% ^b	\$1,701,600	\$24,800 to \$169,500	\$1,726,400 to \$1,871,100

TABLE 1.—PRESENT VALUE OF BENEFITS FOR PWC USE IN AMISTAD NATIONAL RECREATION AREA, 2003–2012 (2001 \$)^a

	PWC users	Businesses	Total
Discounted at 7% ^b	\$1,394,600	\$20,300 to \$138,900	\$1,414,900 to \$1,533,500

^a Benefits were rounded to the nearest hundred dollars, and may not sum to the indicated totals due to independent rounding.
^b Office of Management and Budget Circular A–4 recommends a 7% discount rate in general, and a 3% discount rate when analyzing impacts to private consumption.

TABLE 2.—AMORTIZED TOTAL BENEFITS PER YEAR FOR PWC USE IN AMISTAD NATIONAL RECREATION AREA, 2003–2012 (2001 \$)

	Amortized total benefits per year ^a
Alternative A:	
Discounted at 3% ^b	\$225,024 to \$245,082.
Discounted at 7% ^b	\$223,988 to \$243,950.
Alternative B:	
Discounted at 3% ^b	\$202,387 to \$219,350.
Discounted at 7% ^b	\$201,450 to \$218,336.

^a This is the present value of total benefits reported in Table 1 amortized over the ten-year analysis timeframe at the indicated discount rate.
^b Office of Management and Budget Circular A–4 recommends a 7% discount rate in general, and a 3% discount rate when analyzing impacts to private consumption.

The primary group that would incur costs under Alternatives A and B would be the park visitors who do not use PWCs and whose park experiences would be negatively affected by PWC use within the park. At Amistad National Recreation Area, non-PWC uses include boating, canoeing, fishing, and hiking. Additionally, the public could incur costs associated with impacts to aesthetics, ecosystem protection, human health and safety, congestion, nonuse values, and enforcement. However, these costs could not be quantified because of a lack of available data. Nevertheless, the magnitude of costs associated with PWC use would likely be greatest under Alternative A, and lower for Alternative B due to increasingly stringent restrictions on PWC use.

Because the costs of Alternatives A and B could not be quantified, the net benefits associated with those alternatives (benefits minus costs) also could not be quantified. While Alternative A would likely impose greater costs than Alternative B, it also would provide greater benefits as well. Given that, a quantification of the costs could reasonably result in Alternative A having the greatest level of net benefits.

Compliance With Other Laws

Regulatory Planning and Review (Executive Order 12866)

This document is a significant rule and has been reviewed by the Office of Management and Budget under Executive Order 12866.

(1) This rule will not have an effect of \$100 million or more on the economy.

It will not adversely affect in a material way the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities. The National Park Service has completed the report “Economic Analysis of Management Alternatives for Personal Watercraft in Amistad National Recreation Area” (MACTEC Engineering and Consulting, Inc. May 2004).

(2) This rule will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency. Actions taken under this rule will not interfere with other agencies or local government plans, policies or controls. This rule is an agency specific rule.

(3) This rule does not alter the budgetary effects of entitlements, grants, user fees, or loan programs or the rights or obligations of their recipients. This rule will have no effects on entitlements, grants, user fees, or loan programs or the rights or obligations of their recipients. No grants or other forms of monetary supplements are involved.

(4) This rule does raise novel legal or policy issues. This rule is one of the special regulations being issued for managing PWC use in National Park Units. The National Park Service published general regulations (36 CFR 3.24) in March 2000, requiring individual park areas to adopt special regulations to authorize PWC use. The implementation of the requirement of the general regulation continues to generate interest and discussion from the public concerning the overall effect

of authorizing PWC use and National Park Service policy and park management.

Regulatory Flexibility Act

The Department of the Interior certifies that this rulemaking will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This certification is based on a report entitled “Economic Analysis of Management Alternatives for Personal Watercraft in Amistad National Recreation Area” (MACTEC Engineering and Consulting, Inc., May 2004).

Small Business Regulatory Enforcement Fairness Act (SBREFA)

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This proposed rule:

- a. Does not have an annual effect on the economy of \$100 million or more.
- b. Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions.
- c. Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.–based enterprises to compete with foreign-based enterprises.

Unfunded Mandates Reform Act

This rule does not impose an unfunded mandate on State, local, or tribal governments or the private sector of more than \$100 million per year. The rule does not have a significant or

unique effect on State, local or tribal governments or the private sector. This rule is an agency specific rule and does not impose any other requirements on other agencies, governments, or the private sector.

Takings (Executive Order 12630)

In accordance with Executive Order 12630, the rule does not have significant takings implications. A taking implication assessment is not required. No taking of personal property will occur as a result of this rule.

Federalism (Executive Order 13132)

In accordance with Executive Order 13132, the rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment. This proposed rule only affects use of NPS administered lands and waters. It has no outside effects on other areas by allowing PWC use in specific areas of the park.

Civil Justice Reform (Executive Order 12988)

In accordance with Executive Order 12988, the Office of the Solicitor has determined that this rule does not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of the Order.

Paperwork Reduction Act

This regulation does not require an information collection from 10 or more parties and a submission under the Paperwork Reduction Act is not required. An OMB Form 83-I is not required.

National Environmental Policy Act

The National Park Service has analyzed this rule in accordance with the criteria of the National Environmental Policy Act and has prepared an Environmental Assessment (EA). The EA was available for public review and comment from April 9, 2003 to May 10, 2003. Additionally, a Finding of No Significant Impact (FONSI) was completed and signed on April 29, 2004. Copies of the environmental assessment and the FONSI may be downloaded at <http://www.nps.gov/amis/pwc.pdf> or obtained at park headquarters Monday through Friday, 8 a.m. to 5 p.m., just west of Del Rio at 4121 Hwy 90 W. Mail inquiries should be directed to: Amistad National Recreation Area, HCR 3 Box 5J, Del Rio, TX 78840, Phone (830) 775-7491.

Government-to-Government Relationship With Tribes

In accordance with the President's memorandum of April 29, 1994,

"Government to Government Relations with Native American Tribal Governments" (59 FR 22951) and 512 DM 2, we have evaluated potential effects on federally recognized Indian tribes and have determined that there are no potential effects. There are 17 tribes with historical ties to the lands of the Amistad NRA. However, none of those tribes have any current association with Amistad nor are there any tribes with close geographic ties to the area. Since any actions the park proposes in this rule are not expected to have any effects on these 17 tribes, no consultation has occurred.

Administrative Procedure Act

This final rule is effective upon publication in the **Federal Register**. In accordance with the Administrative Procedure Act, specifically, 5 U.S.C. 553(d)(1), this rule, 36 CFR 7.57(h), is exempt from the requirement of publication of a substantive rule not less than 30 days before its effective date.

As discussed in this preamble, the final rule is a part 7 special regulation for Amistad National Recreation Area that relieves the restrictions imposed by the general regulation, 36 CFR 3.24. The general regulation, 36 CFR 3.24, prohibits the use of PWC in units of the national park system unless an individual park area has designated the use of PWC by adopting a part 7 special regulation. The proposed rule was published in the **Federal Register** (68 FR 60305) on October 22, 2003, with a 60-day period for notice and comment consistent with the requirements of 5 U.S.C. 553(b). The Administrative Procedure Act, pursuant to the exception in paragraph (d)(1), waives the section 553(d) 30-day waiting period when the published rule "grants or recognizes an exemption or relieves a restriction." In this rule the NPS is authorizing the use of PWCs, which is otherwise prohibited by 36 CFR 3.24. As a result, the 30-day waiting period before the effective date does not apply to the Amistad National Recreation Area final rule.

The Attorney General's Manual on the Administrative Procedure Act explained that the "reason for this exception would appear to be that the persons affected by such rules are benefited by them and therefore need no time to conform their conduct so as to avoid the legal consequences of violation. The fact that an interested person may object to such issuance, amendment, or repeal of a rule does not change the character of the rule as being one 'granting or recognizing exemption or relieving restriction,' thereby exempting it from the thirty-day requirement." This rule is

within the scope of the exception as described by the Attorney General's Manual and the 30-day waiting period should be waived. See also, *Independent U.S. Tanker Owners Committee v. Skinner*, 884 F.2d 587 (DC Cir. 1989). In this case, the court found that paragraph (d)(1) is a statutory exception that applies automatically for substantive rules that relieves a restriction and does not require any justification to be made by the agency. "In sum, the good cause exception must be invoked and justified; the paragraph (d)(1) exception applies automatically" (884 F.2d at 591). The facts are that the NPS is promulgating this special regulation for the purpose of relieving the restriction, prohibition of PWC use, imposed by 36 CFR 3.24 and therefore, the paragraph (d)(1) exception applies to this rule.

In accordance with the Administrative Procedure Act, this rule is also excepted from the 30-day waiting period by the "good cause" exception in 5 U.S.C. 553(d)(3) and is effective upon publication in the **Federal Register**. As discussed above, the purpose of this rule is to comply with the 36 CFR 3.24 requirement for authorizing PWC use in park areas by promulgating a special regulation. "The legislative history of the APA reveals that the purpose for deferring the effectiveness of a rule under section 553(d) was 'to afford persons affected a reasonable time to prepare for the effective date of a rule or rules or to take other action which the issuance may prompt.' S. Rep. No. 752, 79th Cong., 1st Sess. 15 (1946); H.R. Rep. No. 1980, 79th Cong., 2d Sess. 25 (1946)." *United States v. Gavrilovic*, 551 F.2d 1099, 1104 (8th Cir. 1977). The persons affected by this rule are PWC users and delaying the implementation of this rule for 30 days will not benefit them; but instead will be counterproductive by denying them, for an additional 30 days, the benefits of the rule.

List of Subjects in 36 CFR Part 7

District of Columbia, National Parks, Reporting and recordkeeping requirements.

■ In consideration of the foregoing, the National Park Service amends 36 CFR part 7 as follows:

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

■ 1. The authority citation for part 7 continues to read as follows:

Authority: 16 U.S.C. 1, 3, 9a, 460(q), 462(k); Sec. 7.96 also issued under D.C. Code 8-137 (1981) and D.C. Code 40-721 (1981).

■ 2. Add new paragraph (d) to § 7.79 to read as follows:

§ 7.79 Amistad Recreation Area.

* * * * *

(d) *Personal Watercraft (PWC).*

(1) PWCs are allowed within Amistad National Recreation Area with the following exceptions:

(i) The following areas are closed to PWC use:

(A) Hidden Cave Cove (where marked by buoys), located on the Rio Grande.

(B) Painted Canyon (where marked by buoys), located on the Rio Grande.

(C) Seminole Canyon, starting 0.5 miles from the mouth of the Rio Grande.

(D) Government coves at Diablo East and Rough Canyon to include the water and shoreline to the top of the ridge/property line.

(E) All terrestrial cave and karst features.

(F) The Lower Rio Grande area below Amistad Dam.

(G) The water area extending 1000 feet out from the concrete portion of Amistad Dam.

(ii) PWC are prohibited from landing on any island posted as closed.

(2) The Superintendent may temporarily limit, restrict or terminate access to the areas designated for PWC use after taking into consideration public health and safety, natural and cultural resource protection, and other management activities and objectives.

Dated: May 21, 2004.

Paul Hoffman,

Deputy Assistant Secretary for Fish and Wildlife and Parks.

[FR Doc. 04-12053 Filed 5-26-04; 8:45 am]

BILLING CODE 4310-70-P

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 7

RIN 1024-AC97

Lake Meredith National Recreation Area, Personal Watercraft Use

AGENCY: National Park Service, Interior.

ACTION: Final rule.

SUMMARY: This rule designates areas where personal watercraft (PWC) may be used in Lake Meredith National Recreation Area, Texas. This rule implements the provisions of the National Park Service (NPS) general regulations authorizing park units to allow the use of PWC by promulgating a special regulation. Individual parks determine whether PWC use is appropriate based on an evaluation of

that park's enabling legislation, resources and values, other visitor uses, and overall management objectives.

DATES: *Effective Date:* This rule is effective May 27, 2004.

ADDRESSES: Mail inquiries to the Superintendent, Lake Meredith National Recreation Area, P.O. Box 1460, Fritch, TX 79036-1460, Fax: (806) 857-2319, e-mail: *LAMR_Superintendent@nps.gov*.

FOR FURTHER INFORMATION CONTACT: Kym Hall, Special Assistant, National Park Service, 1849 C Street, NW., Room 3145, Washington, DC 20240. Phone: (202) 208-4206. E-mail: *Kym_Hall@nps.gov*.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rulemaking and Environmental Assessment

On December 12, 2003, the National Park Service published a Notice of Proposed Rulemaking for the operation of PWC at Lake Meredith National Recreation Area (68 FR 17292). The proposed rule for PWC use was based on alternative B in the Environmental Assessment (EA) prepared by NPS for Lake Meredith NRA. The EA was available for public review and comment from March 10 to April 9, 2003, and the NPRM was available for public comment from December 12, 2003 to February 10, 2004.

The purpose of the Environmental Assessment was to evaluate a range of alternatives and strategies for the management of PWC use, ensuring the protection of park resources and values, and offering recreational opportunities as provided for in the National Recreation Area's enabling legislation, purpose, mission, and goals. The analysis assumed an alternative would be implemented beginning in 2002 and considered a 10-year use period, from 2002 to 2012. The Environmental Assessment evaluated three alternatives concerning the use of PWC at Lake Meredith National Recreation Area. Alternative A allows PWC use under a special regulation that includes certain current provisions of the Superintendent's Compendium. Alternative B allows continued PWC operation similar to alternative A, but use is further restricted to reduce conflicts between fishermen and PWC operators in lake areas and to protect water resources by designating and marking "Flat Wake" zones in a number of the canyons. In addition to the two alternatives for allowing restricted PWC use, a no-action alternative was considered that would continue the prohibition of all PWC use within the National Recreation Area. All three alternatives were evaluated with respect to PWC impacts on water quality, air

quality, soundscapes, wildlife and wildlife habitat, threatened, endangered, or special concern species, shoreline vegetation, visitor experience, visitor conflict and safety, and cultural resources.

Based on the Environmental Assessment, NPS determined that alternative B is the park's preferred alternative for managing PWC use. Alternative B is also considered the environmentally preferred alternative.

Summary of Comments

The proposed rule was published for public comment on December 12, 2003 (68 FR 69358), with the comment period lasting until February 10, 2004. The National Park Service received 2,870 timely written responses regarding the proposed regulation. Of the responses, 2,512 were form letters in 7 separate formats, 345 were signatures on a petition, and 14 were separate letters. Of the 14 separate letters, 9 were from individuals, 4 from organizations, and 1 from a public agency. Within the following discussion, the term "commenter" refers to an individual, organization, or public agency that responded. The term "comments" refers to statements made by a commenter.

General Comments

1. Several commenters, including Bluewater Network and the American Canoe Association, stated that the Environmental Assessment failed to use the best data available and picked Alternative B without adequate scientific justification.

NPS Response: None of the alternatives evaluated in the Environmental Assessment resulted in significant adverse or beneficial impacts. The NPS chose the preferred alternative, continued PWC use with restrictions, because it appears to meet the needs of most park visitors while continuing to protect the environment. If the EA process would have discovered significant impacts from PWC use at LAMR than an EIS would have been prepared or a different course of action would have been pursued. To the contrary the environmental impacts discovered during the EA process revealed no significant reasons for not moving forward with the preferred alternative. A summary of the NPS rulemaking and associated personal watercraft litigation is provided in chapter 1, Purpose of and Need for Action, Background, of the EA. NPS believes it has complied with the National Environmental Policy Act (NEPA) and has properly assessed the impacts of personal watercraft on the resources of Lake Meredith National

Recreation Area using the best available data for the analysis. This analysis was done for every applicable impact topic with the best available data, consistent with the Council on Environmental Quality regulations (40 CFR 1502.22). Where data was lacking, best professional judgment prevailed using assumptions and extrapolations from scientific literature, other park units where personal watercraft are used, and personal observations of park staff.

The NPS believes that the Environmental Assessment is in full compliance NEPA, and the Finding of No Significant Impact (FONSI) demonstrates that decision has been adequately analyzed and explained.

2. Several commenters stated that allowing PWC use with additional restrictions violates the park's enabling legislation and NPS mandate to protect resources from harm.

NPS Response: NPS analysis in the EA shows that PWC use will not violate the Lake Meredith National Recreation Area's enabling legislation or NPS' mandate to protect resources in the Organic Act. The authorizing legislation for Lake Meredith was considered when developing alternatives for the Environmental Assessment. The objective of the Environmental Assessment, as described in the "Purpose and Need" Chapter, was derived from the enabling legislation for Lake Meredith. As further stated in that chapter, a special analysis on the management of personal watercraft was also provided under each alternative to meet the terms of the settlement agreement between the Bluewater Network and the National Park Service. As required by NPS policies, the impacts associated with personal watercraft and other recreational uses are evaluated under each alternative to determine the adverse impacts, including the potential for impairment to park resources. The recreation area's enabling legislation also states that the "Secretary shall administer Lake Meredith National Recreation Area for general purposes of public outdoor recreation." The recreation area was established by Congress "to provide for public outdoor recreation use and enjoyment of the lands and waters associated with Lake Meredith in the State of Texas and to protect the scenic, scientific, cultural, and other values contributing to the public enjoyment of such lands and waters." The NPS must allow for appropriate public uses of the national recreation area while effectively managing park resources. The EA did not determine that any of the resource areas would be adversely impacted by the preferred alternative.

3. One commenter stated that in preparing the Environmental Assessment, the NPS did not adequately consult with and seek the expertise of various agencies, which appears to violate the NPS' PWC regulations.

NPS Response: The final PWC regulation published by the NPS in March 2000 indicates that we intend to seek the expertise of the U.S. Environmental Protection Agency (EPA), OSHA and other relevant agencies and literature when deciding whether to allow continued PWC use in units of the National Park System. The Environmental Assessment references EPA and OSHA regulations and studies throughout. For example, the EPA Web site was visited and LAMR information was retrieved and studied. EPA rated LAMR as a "IWI", #1 on the watershed health scale ("better quality/less vulnerability"). In addition, we sent out 123 letters to other federal, state, local agencies including U.S. Fish and Wildlife, Texas Parks and Wildlife, Bureau of Reclamation, Texas Commission on Environmental Quality (the state agency charged with application of EPA regulations in Texas), U.S. Coast Guard, Department of Energy/Pantex Environmental Division, U.S. Department of the Army Corps of Engineers, Quachita National Forest, numerous Indian tribes, several Audubon groups, Biodiversity Legal Foundation, Environmental Defense, Lake Meredith Aquatic and Wildlife Museum, Marina at Lake Meredith, several museums, Natural Resources Conservation Service, Texas Nature Conservancy, Wilderness Society, State and Federal representatives and senators, Canadian River Municipal Water Authority, Hutchison County Historical Commission, Groundwater Conservation District No. 3, Chamber of Commerce, Archeologists from Intermountain Support Office, Texas Archeology Society, Texas General Land Office, Palo Duro State Park. We feel we have conducted consultation as required by various Acts and Executive Orders as well as the intent of the March 2000 PWC regulations.

4. Several commenters stated that the decision violates the Organic Act and will result in the impairment of resources.

NPS Response: The "Summary of Laws and Policies" section in the "Environmental Consequences" chapter of the PWC Use EA summarizes the three overarching laws that guide the National Park Service in making decisions concerning protection of park resources. These laws, as well as others, are also reflected in the NPS Management Policies. An explanation of

how the Park Service applied these laws and policies to analyze the effects of personal watercraft on Lake Meredith National Recreation Area resources and values can be found under "Impairment Analysis" in the "Methodology" section.

An impairment is an impact that, in the professional judgement of the NPS manager, would harm the integrity of park resources or values. In the analysis used in the PWC use EA, an impairment to a particular park resource or park value must rise to the magnitude of a major impact, as defined by factors such as context, duration, and intensity. For each resource topic, the Environmental Assessments establish thresholds or indicators of magnitude of impact. An impact approaching a "major" level of intensity is one indication that impairment could result. For each impact topic, when the intensity approached "major," the park would consider mitigation measures to reduce the potential for "major" impacts, thus reducing the potential for impairment.

The National Park Service has determined that under the preferred alternative, Alternative B, there will be no negative impacts on park resources or values.

Comments Related to Water Quality

5. Several commenters stated that research indicated that direct-injection 2-stroke engines are dirtier than 4-stroke engines.

NPS Response: It is agreed that two-stroke carbureted and two-stroke DI engines generally emit greater amounts of pollutants than four-stroke engines. However, as a result of the EPA rule requiring the manufacturing of cleaner PWC engines, the existing carbureted two-stroke PWC will, over time, be replaced with either two-stroke direct injection or 4-stroke PWCs and both are less-polluting engines. This replacement, with the anticipated resultant improvement in air quality, is parallel to that experienced in urban environments as the automobile fleet becomes cleaner over time.

6. One commenter stated that the analysis disregarded or overlooked relevant research regarding impacts to water quality from PWC use as well as the impact to downstream resources and long term site specific water quality data on PWC pollutants.

NPS Response: The protection of water quality within the national recreation area has been addressed in the EA in a conservative evaluation of surface water quality impacts. Because site-specific water quality data on organic compounds were not available for Lake Meredith and collection of

these data was beyond the scope of the EA, therefore a conservative modeling approach was developed and applied to evaluate impacts to water quality from PWC and other motorized vessel use.

Estimated minimum threshold volumes of water were determined for the PWC use areas where concentrations of gasoline constituents discharged from personal watercraft and other outboard engines could potentially be toxic to aquatic organisms or humans. Using the estimated threshold volumes, volumes of the areas being evaluated, PWC and other motorized vessel high-use-day loadings of inorganic chemicals identified as constituents of gasoline, and water quality benchmarks, it is possible to identify potentially unacceptable impacts to human health or the environment. Chronic water quality benchmarks protective of aquatic populations and protective of human health were acquired from various sources, including USEPA water quality criteria.

The EA states that in 2002 under both Alternative A and B, impacts to water quality in Lake Meredith from PWCs on a high-use day would be negligible for all chemicals evaluated based on ecological benchmarks and human health benchmarks. In 2012, impacts would also be negligible based on all ecological and human health benchmarks. "Impairment" is clearly defined in the EA on page 75 and is the most severe of the five potential impact categories. The other impact categories starting with the least severe are: negligible, minor, moderate, and major.

7. One commenter stated that the analysis represents an outdated look at potential emissions from an overstated PWC population of conventional 2-stroke engines, and underestimated the accelerating changeover to 4-stroke and newer 2-stroke engines. The net effect is that the analysis overestimates potential PWC hydrocarbon emissions, including benzene and PAHs, to the water in Lake Meredith.

NPS Response: NPS agrees. The NPS water quality impact assessment utilized conservative (protective) assumptions where site-specific data were missing or incomplete. For some variables such as the number of PWC (total of 70), this number was based on the number of vessels expected on a high-use day. It can be considered a conservative estimate, but it is not "unrealistic" since it was based on State of Texas and Lake Meredith National Recreation Area data. Despite these conservative estimates, impacts to water quality from personal watercraft are judged to be negligible for all alternatives evaluated. Cumulative

impacts from personal watercraft and other outboard motorized vessels are expected to be negligible to moderate. If the assumptions used were less than conservative, the conclusions could not be considered protective of the environment, while still being within the range of expected use.

The assumption of all personal watercraft using 2-stroke engines in 2002 is recognized as conservative. It is protective of the environment yet follows the emission data available in CARB (1998) and Bluewater Network (2001) at the time of preparation of the EA. The emission rate of 3 gallons per hour at full throttle is a mid-point between 3 gallons in two hours (1.5 gallons per hour; NPS 1999) and 3.8 to 4.5 gallons per hour for an average 2000 model year personal watercraft (Personal Watercraft and Bluewater Network 2001). The assumption also is reasonable in view of the initiation of production line testing in 2000 (EPA 1997) and expected full implementation of testing by 2006 (EPA 1996).

Reductions in emissions used in the water quality impact assessment are in accordance with the overall hydrocarbon emission reduction projections published by the EPA (1996). EPA (1996) estimates a 52% reduction by personal watercraft by 2010 and a 68% reduction by 2015. The 50% reduction in emissions by 2012 (the future date used in the EA) is a conservative interpolation of the emission reduction percentages and associated years (2010 and 2015) reported by the EPA (1996) but with a one-year delay in production line testing (EPA 1997).

The NPS used emission reduction estimates from the EPA (1996) that are readily available for public review and not confidential sales information. Because the Sierra Research analysis is based on " * * * confidential sales information * * * ", the NPS cannot evaluate the assumptions in the Sierra Research analysis. The NPS did not "ignore" the manufacturers' confidential sales data.

Use of the Sierra information, if verified, could have potentially reduced the calculated water quality threshold volumes. However, impact estimates for personal watercraft are already negligible (EA pages 34 and 75-80), using the impact threshold descriptions provided on page 75 of the EA. Impacts to water quality from other motorized vessels are potentially more significant than those due to personal watercraft. Therefore, cumulative impacts from personal watercraft and other motorized vessels, which are negligible to moderate, would not be reduced

substantially by the inclusion of the Sierra emission reduction projections for personal watercraft.

8. One commenter stated that the water quality analysis uses assumptions that result in overestimation of potential PWC hydrocarbon emission to the water in Lake Meredith. For example benzo(a)pyrene concentrations in gasoline range from 0.19 to 2.8 mg/kg but the NPS chooses the highest figure for the analysis.

NPS Response: As stated in responses to earlier comments, protection of water quality in the national recreation area was addressed in a conservative evaluation. Therefore, the use of 2.8 mg/kg as an estimated concentration of benzo(a)pyrene in gasoline is a reasonable assumption that is in range of possible concentrations. Even with this and other conservative assumptions, impacts from PWC were determined to be negligible. Evaporation of benzene was not factored into the discussion because water quality impacts already were negligible and could not be reduced to a lower impact threshold.

Comments Related to Air Quality

9. One commenter stated that the analysis failed to mention the impact of PWC permeation losses on local air quality.

NPS Response: Permeation losses of VOCs from personal watercraft were not included in the calculation of air quality impacts primarily because these losses are insignificant relative to emissions from operating watercraft. Using the permeation loss numbers in the comment (estimated to be half the total of 7 grams of losses per 24 hours from the fuel system), the permeation losses per hour are orders of magnitude less than emissions from operating personal watercraft. Therefore, including permeation losses would have no effect on the results of the air quality impact analyses. Also, permeation losses were not included because of numerous related unknown contributing factors such as number of personal watercraft refueling at the reservoir and the location of refueling (inside or outside of the airshed).

10. One commenter stated that the use of air quality data from Amarillo, 45 miles from Lake Meredith, in the analysis does not provide the best representation of air quality at the lake.

NPS Response: The Amarillo monitoring station is the closest air quality monitoring site to the study area. The data from this site were discussed in the EA; however, these data were not used in the impact analysis. The analysis was based on the results of an

EPA air emission model, which used estimated PWC and vessel usage at Lake Meredith NRA as inputs.

11. One commenter expressed concern that PWC emissions were declining faster than forecasted by the EPA. As the Sierra Report documents, in 2002, HC + NO_x emissions from the existing fleet of PWC were already 23% lower than they were before the EPA regulations became effective, and will achieve reductions greater than 80% by 2012.

NPS Response: The U.S. EPA's data incorporated into the 1996 Spark Ignition Marine Engine rule were used as the basis for the assessment of air quality, and not the Sierra Research data. It is agreed that these data show a greater rate of emissions reductions than the assumptions in the 1996 Rule and in the EPA's NONROAD Model, which was used to estimate emissions. However, the Sierra Research report has not been used in the EA for reasons of consistency and conformance with the model predictions. Most states use the EPA's NONROAD Model for estimating emissions from a broad array of mobile sources. To provide consistency with state programs and with the methods of analysis used for other similar NPS assessments, the NPS has elected not to base its analysis on focused research such as the Sierra Report for assessing PWC impacts.

It is agreed that the Sierra Research report also provides data on "worst case" scenarios. However worst case or short-term scenarios were not analyzed for air quality impacts in this or other NPS EAs.

It is agreed that the relative quantity of HC + NO_x are a very small proportion of the county based emissions and that this proportion will continue to be reduced over time. The EA takes this finding into consideration in the analysis.

Improved PWCs may be used in increasing numbers; however the data of overall use of this engine type nationwide is not well established. For consistency and conformity in approach, the NPS has elected to rely on the assumptions in the 1996 S.I Engine Rule which are consistent with the widely used NONROAD emissions estimation Model. The outcome is that estimated emissions from combusted fuel may be in the conservative range, if compared to actual emissions.

Comments Related to Soundscapes

12. One commenter stated that continued PWC use in the Lake Meredith NRA will not result in sound emissions that exceed the applicable federal or state noise abatement

standards, and technological innovations by the PWC companies will continue to result in substantial sound reductions.

NPS Response: The EA provides an analysis of impacts of personal watercraft on many aspects of the environment. The level of impact predicted for many of the resources or values included in the assessment is negligible to minor, or minimal impact. However, in some cases moderate or potentially major impacts are predicted, and this is based on the specific resource or value affected and the impact threshold levels used in the analysis.

13. One commenter stated that the NPS places too much hope in new technologies significantly reducing PWC noise since there is little possibility that the existing fleet of more than 1.1 million machines (most of which are powered by conventional two-stroke engines) will be retooled to reduce noise.

NPS Response: The analysis of the preferred alternative states that noise from PWC would continue to have minor, short-term adverse impacts, and that impact levels would be related to number and type (age) of PWC and sensitivity of park visitors. This recognizes that noise will occur and will bother some visitors, but site-specific modeling was not needed to make this assessment. The availability of noise reduction technologies is also growing, and we are not aware of any scientific research that shows these technologies do not reduce engine noise levels to some extent. Also, the analysis did not rely heavily on any noise reduction technology. It recognizes that the noise from the operation of PWC will always vary, depending on the speed, manner of use, and wave action present.

Additionally, the average operating life of a PWC is 5 to 10 years, depending upon the source. As a result, it is expected that the majority of existing PWC will be replaced with quieter, new technology PWC in the near future.

Comments Related to Wildlife, Wildlife Habitat, and Threatened or Endangered Species

14. One commenter stated that the analysis lacked site-specific data for impacts to wildlife, fish, and threatened and endangered species at Lake Meredith.

NPS Response: The EA did not include site specific studies regarding potential effects of PWC use on wildlife species at Lake Meredith National Recreation Area. Analysis of potential impacts of PWC use on wildlife at the national recreation area was based on

best available data, input from park staff, and the results of analysis using that data.

15. One commenter stated that PWC use and human activities associated with their use may not be any more disturbing to wildlife species than any other type of motorized or non-motorized vessels. The commenter cites research by Dr. James Rodgers, of the Florida Fish and Wildlife Conservation Commission, whose studies have shown that PWC are no more likely to disturb wildlife than any other form of human interaction. PWC posed less of a disturbance than other vessel types. Dr. Rodgers' research clearly shows that there is no reason to differentiate PWC from motorized vessels based on claims on wildlife disturbance.

NPS Response: Based on the documents provided as part of this comment, it appears that personal watercraft are no more apt to disturb wildlife than are small outboard motorized vessels. In addition to this conclusion, Dr. Rodgers recommends that buffer zones be established, creating minimum distances between vessels (personal watercraft and outboard motorized vessels) and nesting and foraging waterbirds. In Lake Meredith National Recreation Area, a 50-foot wide area along the shoreline is already established under the Texas Water Safety Act where the use of personal watercraft is restricted to flat wake speed only. With this restriction in mind, impacts to wildlife and wildlife habitat under all three alternatives were judged to be negligible at most locations along the shoreline.

16. One commenter stated that wildlife biologists are finding that PWC cause lasting impacts to fish and wildlife.

NPS Response: It is anticipated that more combustion-efficient engines in personal watercraft will reduce pollutant emissions to air and water in the same manner as increased efficiencies in automobile engines combined with catalytic converters and other technologies decreased the amount and types of automobile exhaust emissions. EPA-sponsored evaluations of different personal watercraft engine designs and emissions concluded that emission reductions would result with implementation of the EPA emission standards for marine engine. The preferred alternative provides for further protection of wildlife in the recreation area. Establishing new flat wake zones under the preferred alternative (Alternative B) would reduce impacts to aquatic and shoreline species by reducing the discharge of fuel components into the water. These

reductions should indirectly benefit wildlife by reducing some of the contaminant loading of surface waters.

PAH toxicity to fish and wildlife species is a complicated topic because PAHs consists of dozens of different chemical compounds, each of which has substantially different toxicity characteristics in water, sediment, and soils, and toxicity varies dramatically among different fish and wildlife species. The ecological toxicity analysis for PAHs reported in the Environmental Assessment explains the chemical, physical, and biological conditions that were used to conduct the assessment of PAH effects to fish species.

Comments Related to Shoreline/ Submerged Aquatic Vegetation

17. One commenter stated that there has been no documentation of any adverse effects to shoreline vegetation from PWC use.

NPS Response: The NPS recognizes that scientists do not agree on the potential for impacts to aquatic vegetation from personal watercraft. However, personal watercraft, because of their design, can potentially operate in shallower water than conventional outboard motorized vessels, and it is not possible to say if all operators fully adhere to manufacturer's recommendations. Impacts to shoreline vegetation are expected to be negligible.

Comments Related to Visitor Experience, Visitor Conflict, and Safety

18. Several commenters stated that the NPS analysis downplayed the threat PWC pose to the visiting public.

NPS Response: According to the National Marine Manufacturers Association, PWC manufacturers have sold roughly 1.2 million personal watercraft during the last ten years. Out of 1.2 million PWC sold the U.S. Coast Guard had only 90 reports of fires/explosions in the years from 1995–1999. This is less than 1% of PWCs having reports of problems associated with fires/explosions. As far as the recall campaigns conducted by Kawasaki and Bombardier, the problems that were associated with fuel tanks were fixed. Kawasaki conducted a recall for potentially defective fuel filler necks and fuel tank outlet gaskets on 23,579 models from the years 1989 and 1990. The fuel tank problems were eliminated in Kawasaki's newer models, and the 1989 and 1990 models are most likely not in use anymore since life expectancy of a PWC is only five to seven years according to PWIA. Bombardier also did a recall for its 1993, 1994, and 1995 models to reassess possible fuel tank design flaws.

However, the number of fuel tanks that had to be recalled was a very small percent of the 1993, 1994, and 1995 fleets because fuel tank sales only amounted to 2.16% of the total fleet during this period (Bombardier Inc.). The replacement fuel tanks differed from those installed in the personal watercraft subject to the recall in that the replacement tanks had revised filler neck radiuses, and the installation procedure now also requires revised torque specifications and the fuel system must successfully complete a pressure leak test. Bombardier found that the major factor contributing to PWC fires/explosions was over-torquing of the gear clamp. Bombardier was legally required by the U.S. Coast Guard to fix 9.72% of the recalled models. Out of 125,349 recalls, the company repaired 48,370 units, which was approximately 38% of the total recall, far exceeding their legal obligation to repair units with potential problems.

Further fuel tank and engine problems that could be associated with PWC fires has been reduced significantly since the National Marine Manufacturers Association set requirements for meeting manufacturing regulations established by the U.S. Coast Guard. Many companies even choose to participate in the more stringent Certification Program administered by the National Marine Manufacturers Association (NMMA). The NMMA verifies annually, or whenever a new product is put on the market, vessel model lines to determine that they satisfy not only the U.S. Coast Guard Regulations but also the more rigorous standards based on those established by the American Boat and Yacht Council.

19. One commenter stated that the presence of PWC monopolizes the recreational environment and adversely impacts the wide range of diverse uses favored by a majority of visitors and therefore allowing PWC use is not the best course of action.

NPS Response: PWC account for approximately 20% of all watercraft used on Lake Meredith each year. Additionally, during 2001 PWC were approximately 2% of total Lake Meredith NRA visitation. None of the alternatives evaluated in the Environmental Assessment resulted in substantial adverse or beneficial impacts. The NPS chose the preferred alternative, Continued PWC Use with Restrictions, because it appeared to meet the needs of most park visitors while continuing to protect the environment.

20. One commenter stated that Alternative B would require more

permanent staff and vessels to enforce the new restrictions.

NPS Response: The NPS believes that operation of PWC in the recreation area would not require more staff than that required for increased monitoring of all vessels because (1) the number of PWC operating within the recreation area is small in comparison to the number of other motorized vessels, (2) the location of PWC operation is separated from most other visitors (excluding motorized vessels) and (3) the increased patrols necessary to monitor all boating traffic would increase the observed presence of policing such that all infractions would likely decrease.

21. One commenter stated that the conclusion that PWC use poses a health and safety risk "primarily to the operators" themselves is mistaken and the analysis does not adequately assess the safety threat posed to park visitors by PWC use.

NPS Response: Incidents involving vessels of all types, including personal watercraft, are reported to and logged by National Park Service staff. A very small proportion of incidents on the lake are estimated to go unreported. The accident data for the five-year period of 1997 through 2001 displays a consistent pattern and differs from nationally reported results for all vessels. In the "Visitor Conflicts and Visitor Safety" section of the "Affected Environment" chapter, it is reported that personal watercraft represent 20 percent of the vessels on the lake but did not exceed 3 percent of all vessel accidents over the five year time period.

22. Several commenters stated that there is no basis to impose flat wake restrictions on PWC only, as proposed in Alternative B, and doing so would endanger all boaters. For these reasons, any flat wake zones established under the special regulation in the 11 back coves (or any other areas) should be applied to all motorized vessels, not just PWC.

NPS Response: The proposed flat wake zones under Alternative B would apply to all motorized vessels. The description of Alternative B on p. 24 does not indicate that the flat wake zone applies only to PWC. However, vessels other than PWC are regulated through other mechanisms and are therefore not addressed in the language for this regulation.

23. One commenter stated that the accident data used in the analysis was outdated and incorrect because PWC accidents are reported more often than other boating accidents.

NPS Response: Incidents involving vessels of all types, including personal watercraft, are reported to and logged by

National Park Service staff. A very small proportion of incidents on the lake are estimated to go unreported. The accident data for the five-year period of 1997 through 2001 displays a consistent pattern and differs from nationally reported results for all vessels. In the "Visitor Conflicts and Visitor Safety" section of the "Affected Environment" chapter, it is reported that personal watercraft represent 20 percent of the vessels on the lake but did not exceed 3 percent of all vessel accidents over the five year time period.

Comments Related to Cultural Resources

24. One commenter stated that the analysis refers to a potential concern that the ability of PWC operators to access remote areas of the park unit might make certain cultural, archeological and ethnographic sites vulnerable to looting or vandalism. However, there is no indication of any instances where these problems have occurred. Nor is there any reason to believe that PWC users are any more likely to pose these concerns than canoeists, kayakers, hikers, or others who might access these same areas.

NPS Response: The EA was focused on the analysis of impacts from PWC use. PWC can make it easier to reach some remote upstream areas, compared to hiking to these areas, but we agree that the type of impacts to cultural resources from any users of remote areas

of the park would be similar if they can reach these areas.

Comments Related to Socioeconomics

25. Two commenters commented that the analysis did not adequately assess socioeconomic impacts on the regional economy.

NPS Response: The study looked at the potential effect that the ban would have on the local economy, and the potential effects on socio-economically disadvantaged groups. The socioeconomic study did not address the future potential costs of environmental damage. The preferred alternative does not include an elimination of PWC, but rather restrictions on area of use and speed. If a decrease in PWC use occurred due to the proposed restrictions, there could be some reductions in PWC-related revenues. However, given the low levels of PWC use at Lake Meredith and the fact that a total ban is not proposed, impacts on local and regional economics would not result in significant negative socioeconomic impacts.

Changes to the Final Rule

Based on the preceding comments and responses, the NPS has made no changes to the proposed rule language with regard to PWC operations.

Summary of Economic Impacts

Alternative A would permit PWC use as previously managed within the park before the November 2002 ban, while

Alternative B would permit PWC use with additional management strategies to reduce user conflicts and to protect water resources. Alternative B is the preferred alternative, and includes no-wake zones, PWC fueling requirements, and water quality monitoring. Alternative C is the no-action alternative and represents the baseline conditions for this economic analysis. Under that alternative, the November 2002 ban would be continued. All benefits and costs associated with Alternatives A and B are measured relative to that baseline.

The primary beneficiaries of Alternatives A and B include the individuals who would use PWCs within the park and the businesses that provide services to PWC users such as rental shops, restaurants, gas stations, and hotels. Additional beneficiaries include the individuals who use PWCs in areas outside the park where PWC users displaced from Lake Meredith by the ban may have increased their use. Over a ten-year horizon from 2003 to 2012, the present value of benefits to PWC users is expected to range between \$3,520,980 and \$4,676,120, depending on the alternative analyzed and the discount rate used. The present value of benefits to businesses over the same timeframe is expected to range between \$137,580 and \$1,012,360. These benefit estimates are presented in Table 1. The amortized values per year of these benefits over the ten-year timeframe are presented in Table 2.

TABLE 1.—PRESENT VALUE OF BENEFITS FOR PWC USE IN LAKE MEREDITH NATIONAL RECREATION AREA, 2003–2012 (2001 \$)^a

	PWC users	Businesses	Total
Alternative A:			
Discounted at 3% ^b	\$4,676,120	\$185,180 to \$1,012,360	\$4,861,300 to \$5,688,480.
Discounted at 7% ^b	3,706,280	\$146,770 to \$802,390	\$3,853,050 to \$4,508,670.
Alternative B:			
Discounted at 3% ^b	4,442,330	\$173,590 to \$941,220	\$4,615,920 to \$5,383,550.
Discounted 7% ^b	3,520,980	\$137,580 to \$746,010	\$3,658,560 to \$4,266,990.

^a Benefits were rounded to the nearest ten dollars, and may not sum to the indicated totals due to independent rounding.

^b Office of Management and Budget Circular A-4 recommends a 7% discount rate in general, and a 3% discount rate when analyzing impacts to private consumption.

TABLE 2.—AMORTIZED TOTAL BENEFITS PER YEAR FOR PWC USE IN LAKE MEREDITH NATIONAL RECREATION AREA, 2003–2012 (2001 \$)

	Amortized total benefits per year ^a
Alternative A:	
Discounted at 3% ^b	\$569,893 to \$666,863.
Discounted at 7% ^b	\$548,588 to \$641,933.
Alternative B:	
Discounted at 3% ^b	\$541,127 to \$631,116.
Discounted at 7% ^b	\$520,897 to \$607,523.

^a This is the present value of total benefits reported in Table 1 amortized over the ten-year analysis timeframe at the indicated discount rate.

^b Office of Management and Budget Circular A-4 recommends a 7% discount rate in general, and a 3% discount rate when analyzing impacts to private consumption.

The primary group that would incur costs under Alternatives A and B would be the park visitors who do not use PWCs and whose park experiences would be negatively affected by PWC use within the park. At Lake Meredith National Recreation Area, non-PWC uses include boating, canoeing, fishing, and hiking. Additionally, the public could incur costs associated with impacts to aesthetics, ecosystem protection, human health and safety, congestion, nonuse values, and enforcement. However, these costs could not be quantified because of a lack of available data. Nevertheless, the magnitude of costs associated with PWC use would likely be greatest under Alternative A, and lower for Alternative B due to increasingly stringent restrictions on PWC use.

Because the costs of Alternatives A and B could not be quantified, the net benefits associated with those alternatives (benefits minus costs) also could not be quantified. However, from an economic perspective, the selection of Alternative B as the preferred alternative was considered reasonable even though the quantified benefits are somewhat smaller than under Alternative A. That is because the costs associated with non-PWC use, aesthetics, ecosystem protection, human health and safety, congestion, and nonuse values would likely be greater under Alternative A than under Alternative B. Given that the quantified benefits of Alternatives A and B were similar, quantification of the costs could reasonably result in Alternative B having the greatest level of net benefits.

Compliance With Other Laws

Regulatory Planning and Review (Executive Order 12866)

This document is not a significant rule and has not been reviewed by the Office of Management and Budget under Executive Order 12866.

(1) This rule will not have an effect of \$100 million or more on the economy. It will not adversely affect in a material way the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities. The National Park Service has completed the report "Economic Analysis of Management Alternatives for Personal Watercraft in Lake Meredith National Recreation Area" (MACTEC Engineering and Consulting, Inc.) dated April 2004.

(2) This rule will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency. Actions taken under

this rule will not interfere with other agencies or local government plans, policies or controls. This rule is an agency specific rule.

(3) This rule does not alter the budgetary effects of entitlements, grants, user fees, or loan programs or the rights or obligations of their recipients. This rule will have no effects on entitlements, grants, user fees, or loan programs or the rights or obligations of their recipients. No grants or other forms of monetary supplements are involved.

(4) This rule does not raise novel legal or policy issues. This rule is one of the special regulations being issued for managing PWC use in National Park Units. The National Park Service published general regulations (36 CFR 3.24) in March 2000, requiring individual park areas to adopt special regulations to authorize PWC use. The implementation of the requirement of the general regulation continues to generate interest from the public concerning the overall effect of authorizing PWC use and National Park Service policy and park management but is not a significant controversy for this park.

Regulatory Flexibility Act

The Department of the Interior certifies that this rulemaking will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This certification is based on a report entitled "Economic Analysis of Management Alternatives for Personal Watercraft in Lake Meredith National Recreation Area" (MACTEC Engineering and Consulting, Inc. April 2004). The focus of this study was to document the impact of this rule on ten PWC related businesses in the vicinity of Lake Meredith that may be affected by any restriction of PWC use, including PWC dealerships, a PWC rental shop, and convenience stores offering PWC storage and other boating related services. This report found that the potential loss for these businesses as a result of this rule would be minimal, as PWC users account for a very small fraction of economic activity in the region.

Small Business Regulatory Enforcement Fairness Act (SBREFA)

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This rule:

- a. Does not have an annual effect on the economy of \$100 million or more.
- b. Will not cause a major increase in costs or prices for consumers,

individual industries, Federal, State, or local government agencies, or geographic regions.

c. Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Unfunded Mandates Reform Act

This rule does not impose an unfunded mandate on State, local, or tribal governments or the private sector of more than \$100 million per year. The rule does not have a significant or unique effect on State, local or tribal governments or the private sector. This rule is an agency specific rule and does not impose any other requirements on other agencies, governments, or the private sector.

Takings (Executive Order 12630)

In accordance with Executive Order 12630, the rule does not have significant takings implications. A taking implication assessment is not required. No taking of personal property will occur as a result of this rule.

Federalism (Executive Order 13132)

In accordance with Executive Order 13132, the rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment. This rule only affects use of NPS administered lands and waters. It has no outside effects on other areas by allowing PWC use in specific areas of the park.

Civil Justice Reform (Executive Order 12988)

In accordance with Executive Order 12988, the Office of the Solicitor has determined that this rule does not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of the Order.

Paperwork Reduction Act

This regulation does not require an information collection from 10 or more parties and a submission under the Paperwork Reduction Act is not required. An OMB Form 83-I is not required.

National Environmental Policy Act

The National Park Service has analyzed this rule in accordance with the criteria of the National Environmental Policy Act and has prepared an Environmental Assessment (EA). The EA was available for public review and comment March 10 to April 9, 2003. Additionally, a Finding of No Significant Impact (FONSI) was completed and signed on May 21, 2004.

A copy of the EA and the FONSI is available by contacting the Superintendent, Lake Meredith National Recreation Area, P.O. Box 1460, Fritch, TX 79036, or by downloading it from the Internet at <http://www.nps.gov/lamr>.

Government-to-Government Relationship With Tribes

In accordance with the President's memorandum of April 29, 1994, "Government to Government Relations with Native American Tribal Governments" (59 FR 22951) and 512 DM 2 have evaluated potential effects on federally recognized Indian tribes and have determined that there are no potential effects.

During the consultation process in late 2002, the NPS consulted with the tribes that claim some affiliation with Lake Meredith National Recreation Area, in writing about the development of this rule and the supporting Environmental Assessment. Those Tribes include the Wichita and Affiliated Tribes; Kiowa Indian Tribe of Oklahoma; Comanche Indian Tribe, Oklahoma; Cheyenne-Arapaho Tribe, Oklahoma; Caddo Indian Tribe of Oklahoma; Jicarilla Apache Tribe, NM; Mescalero Apache Tribe, NM; Apache Tribe of Oklahoma; and, the Fort Sill Apache Tribe of Oklahoma. To date no comments have been received from any of the Native American Tribes.

Administrative Procedure Act

This final rule is effective upon publication in the **Federal Register**. In accordance with the Administrative Procedure Act, specifically, 5 U.S.C. 553(d)(1), this rule, 36 CFR 7.57(h), is exempt from the requirement of publication of a substantive rule not less than 30 days before its effective date.

As discussed in this preamble, the final rule is a part 7 special regulation for Lake Meredith National Recreation Area that relieves the restrictions imposed by the general regulation, 36 CFR 3.24. The general regulation, 36 CFR 3.24, prohibits the use of PWC in units of the national park system unless an individual park area has designated the use of PWC by adopting a part 7 special regulation. The proposed rule was published in the **Federal Register** (68 FR 69358) on December 12, 2003, with a 60-day period for notice and comment consistent with the requirements of 5 U.S.C. 553(b). The Administrative Procedure Act, pursuant to the exception in paragraph (d)(1), waives the section 553(d) 30-day waiting period when the published rule "grants or recognizes an exemption or relieves a restriction." In this rule the NPS is authorizing the use of PWCs,

which is otherwise prohibited by 36 CFR 3.24. As a result, the 30-day waiting period before the effective date does not apply to the Lake Meredith National Recreation Area final rule.

The Attorney General's Manual on the Administrative Procedure Act explained that the "reason for this exception would appear to be that the persons affected by such rules are benefited by them and therefore need no time to conform their conduct so as to avoid the legal consequences of violation. The fact that an interested person may object to such issuance, amendment, or repeal of a rule does not change the character of the rule as being one 'granting or recognizing exemption or relieving restriction,' thereby exempting it from the thirty-day requirement." This rule is within the scope of the exception as described by the Attorney General's Manual and the 30-day waiting period should be waived. See also, *Independent U.S. Tanker Owners Committee v. Skinner*, 884 F.2d 587 (DC Cir. 1989). In this case, the court found that paragraph (d)(1) is a statutory exception that applies automatically for substantive rules that relieves a restriction and does not require any justification to be made by the agency. "In sum, the good cause exception must be invoked and justified; the paragraph (d)(1) exception applies automatically" (884 F.2d at 591). The facts are that the NPS is promulgating this special regulation for the purpose of relieving the restriction, prohibition of PWC use, imposed by 36 CFR 3.24 and therefore, the paragraph (d)(1) exception applies to this rule.

In accordance with the Administrative Procedure Act, this rule is also excepted from the 30-day waiting period by the "good cause" exception in 5 U.S.C. 553(d)(3) and is effective upon publication in the **Federal Register**. As discussed above, the purpose of this rule is to comply with the 36 CFR 3.24 requirement for authorizing PWC use in park areas by promulgating a special regulation. "The legislative history of the APA reveals that the purpose for deferring the effectiveness of a rule under section 553(d) was 'to afford persons affected a reasonable time to prepare for the effective date of a rule or rules or to take other action which the issuance may prompt.' S. Rep. No. 752, 79th Cong., 1st Sess. 15 (1946); H.R. Rep. No. 1980, 79th Cong., 2d Sess. 25 (1946)." *United States v. Gavrilovic*, 551 F.2d 1099, 1104 (8th Cir. 1977). The persons affected by this rule are PWC users and delaying the implementation of this rule for 30 days will not benefit them; but instead will be counterproductive by denying them, for

an additional 30 days, the benefits of the rule.

List of Subjects in 36 CFR Part 7

National Parks, Reporting and recordkeeping requirements.

■ In consideration of the foregoing, the National Park Service amends 36 CFR part 7 as follows:

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

■ 1. The authority citation for part 7 continues to read as follows:

Authority: 16 U.S.C. 1, 3, 9a, 460(q), 462(k); Sec. 7.96 also issued under DC Code 8-137 (1981) and DC Code 40-721 (1981).

■ 2. Section 7.57 is amended by revising the section heading and adding paragraph (h) to read as follows:

§ 7.57 Lake Meredith National Recreation Area.

* * * * *

(h) *Personal watercraft (PWC)*. (1) PWC may operate on Lake Meredith except in the following closed areas: stilling basin below Sanford Dam, within 750 feet of the Sanford Dam intake tower, and on the waters of the Canadian River.

(2) PWC may operate on Lake Meredith under the following conditions:

(i) Fueling of PWC is prohibited on the lake, except at the marina fuel dock with an attendant providing the fuel service, or onshore and out of the water.

(ii) Carrying of fuel in an external or portable container onboard a PWC is prohibited.

(iii) PWC may only be launched at designated launch sites established by the Superintendent in accordance with 36 CFR 1.5 and 1.7.

(iv) PWC may not operate at greater than flat wake speed in the following designated areas: North Turkey Creek, Bugbee Canyon, North Canyon, North Cove, South Canyon, Sexy Canyon, Amphitheater Canyon, the coves between day markers 9 and 11, Fritch Canyon, Short Creek, Evans Canyon and Canal Canyon. Flat wake areas are designated by buoys marked with "flat wake" or other similar markings. The location of those buoys may be adjusted by the Superintendent based on reservoir water levels.

(3) The Superintendent may temporarily limit, restrict or terminate access to the areas designated for PWC use after taking into consideration public health and safety, natural and cultural resource protection, and other management activities and objectives.

Dated: May 21, 2004.

Paul Hoffman,

Deputy Assistant Secretary for Fish and Wildlife and Parks.

[FR Doc. 04-12054 Filed 5-26-04; 8:45 am]

BILLING CODE 4310-3A-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[IL222-1a; FRL-7666-1]

Approval and Promulgation of Implementation Plans; Illinois

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency is approving a revision to the Illinois State Implementation Plan (SIP) for the Louis Berkman Company, doing business as the Swenson Spreader Company (Swenson). The Illinois Environmental Protection Agency (IEPA) requested on September 19, 2003, that EPA approve into the SIP an adjusted standard for the volatile organic material (VOM) content limit applicable to the painting operations at Swenson's plant located in Lindenwood, Ogle County, Illinois. EPA is approving this request because it satisfies the requirements of the Clean Air Act (Act).

DATES: This "direct final" rule is effective July 26, 2004, unless EPA receives written adverse comment by June 28, 2004. If written adverse comment is received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** and inform the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. IL-222, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *E-mail:* bortzer.jay@epa.gov.

- *Fax:* (312) 886-5824.

- *Mail:* J. Elmer Bortzer, Chief, Criteria Pollutant Section, Air Programs Branch, United States Environmental Protection Agency, Mailcode AR-18J, 77 West Jackson Boulevard, Chicago, Illinois 60604. In addition, please mail a copy of your comments on the information collection provisions to the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attn: Desk Officer for EPA, 725 17th St. NW., Washington, DC 20503.

- *Hand Delivery:* Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. IL-222. EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through regulations.gov, or e-mail. The federal regulations.gov website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional instructions on submitting comments, go to Unit I of the **SUPPLEMENTARY INFORMATION** section of this document.

Docket: All documents in the docket are listed in an index. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Publicly available docket materials are available in hard copy at the following address: United States Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. The Docket Facility is open during normal business hours, Monday through Friday, excluding legal holidays. We recommend that you telephone Christos Panos at (312) 353-8328, before visiting the Region 5 office.

FOR FURTHER INFORMATION CONTACT: Christos Panos, Environmental Engineer, Criteria Pollutant Section, Air Programs Branch, United States

Environmental Protection Agency, Region 5, Mailcode AR-18J, 77 West Jackson Boulevard, Chicago, Illinois 60604; telephone number: (312) 353-8328; fax number: (312) 886-5824; e-mail address: panos.christos@epa.gov.

SUPPLEMENTARY INFORMATION: This supplemental information section is organized as follows:

- I. General Information
 - A. Does This Action Apply to Me?
 - B. What Should I Consider As I Prepare My Comments for EPA?
 - 1. Submitting CBI
 - 2. Tips for Preparing Your Comments
 - II. Review of State Implementation Plan Revision
 - 1. What Is EPA Approving?
 - 2. Why Did the State Revise Its Rules?
 - 3. What Is EPA's Analysis of the State's Submittal?
 - 4. Did Illinois Hold a Public Hearing?
 - III. EPA's Review of the SIP Revision
 - IV. What Action Is EPA Taking?
 - V. Statutory and Executive Order Reviews

I. General Information

A. Does This Action Apply to Me?

No, this action applies to a single source, the Louis Berkman Company, doing business as the Swenson Spreader Company, in Lindenwood, Ogle County, Illinois. This rulemaking action merely approves an adjusted State standard into the SIP, making it federally enforceable under the Act.

B. What Should I Consider As I Prepare My Comments for EPA?

1. Submitting CBI. Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. Tips for Preparing Your Comments. When submitting comments, remember to:

- i. Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions—The Agency may ask you to respond to specific questions or organize comments by

referencing a Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns, and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Review of State Implementation Plan Revision

1. What Is EPA Approving?

We are approving into the Illinois SIP an adjusted standard for the emissions limit applicable to the painting operations at Swenson's plant located in Lindenwood, Ogle County, Illinois. Section 215.204(j)(2) of the Illinois Administrative Code establishes a limit for the miscellaneous metal parts and products category of 3.5 pounds of VOM¹ per gallon of coating (lbs VOM/gal) for air dried coating operations. The Illinois Pollution Control Board (IPCB) granted Swenson a ten year adjusted standard from section 215.204(j)(2) on May 7, 1998. Under the adjusted standard Swenson is limited to a monthly average of 4.75 lbs VOM/gal until May 7, 2008.

2. Why Did the State Revise Its Rules?

In the September 19, 2003 submission, IEPA requested that EPA approve revisions that are specific to Swenson's painting operations at its Lindenwood, Illinois plant. Swenson is an original equipment manufacturer of snow and ice control equipment. The primary purchaser of Swenson's products are federal, state, and local governmental agencies. Because many of these agencies specify the type of paint to use, the coatings Swenson uses to paint its products often have a VOM content greater than the state standard of 3.5 lb/gal.

¹ EPA generally uses the term "Volatile Organic Compounds (VOC)" to refer to volatile organic emissions. In Illinois' regulations, the State uses the term "Volatile Organic Material (VOM)" rather than VOC. The State's definition of VOM is equivalent to EPA's definition of VOC, and are interchangeable when discussing volatile organic emissions.

3. What Is EPA's Analysis of the State's Submittal?

Swenson manufactures snow and ice removal equipment at its Lindenwood, Ogle County, Illinois plant. Ogle County is in attainment of the ozone National Ambient Air Quality Standards (NAAQS). Part of the manufacturing process includes applying one or more coatings of paint. Section 215.204 of the Illinois Administrative Code (35 Ill. Adm. Code) governs VOM emissions from manufacturing plants. Specifically, 35 Ill. Adm. Code Section 215.204(j)(2) applies to Swenson. According to that section, VOM emissions from air-dried miscellaneous metal parts and products coatings may not exceed 3.5 lb/gal. Manufacturers that emit less than 25 tons of VOM per year are exempt from this limitation. EPA approved 35 Ill. Adm. Code Section 215.204 into the Illinois SIP on January 15, 1999, at 64 FR 2581.

In its request for an adjusted standard, Swenson states that the primary purchaser of its products are governmental agencies which often specify the type of paints to use and/or coating thicknesses to achieve on the products they order. Many of these paints contain more than 3.5 lbs VOM/gal and, therefore, do not comply with 35 Ill. Adm. Code Section 215.204(j)(2). In addition, the size and shape of its products make relatively high solvent use necessary for proper adhesion characteristics and the specified coating thicknesses cannot be achieved with water-based coatings. Swenson's average annual VOM emissions were 31.8 tons between 1992 and 1996.

Swenson filed its motion for an adjusted standard with the IPCB on October 11, 1996. In its petition, Swenson requested a VOM limit of 5.25 lb/gal monthly average for the first year, and a VOM limit of 5.00 lb/gal monthly average for the second year and beyond following the adjusted standard approval. Swenson based the higher VOM limit for the first year on its existing stocks of VOM paint. Swenson noted in its petition that the 5.00lb/gal limit is more stringent than the relief IPCB granted to a number of other companies in the past. Swenson filed an amendment to its petition on May 16, 1997. In the amended petition Swenson requested a VOM limit of 5.00 lb/gal monthly average for the first year, and a VOM limit of 4.75 lb/gal monthly average for the second year and beyond, following the adjusted standard approval.

On February 21, 1997, IEPA submitted to IPCB a recommendation to deny Swenson's petition. IEPA

commented that Swenson failed to prove that it is unable to comply with the requirements of section 215.204(j). Two public hearings were held before the IPCB, the first on April 17, 1997, in Oregon, Illinois, and the second on May 21, 1997, in Springfield, Illinois. Evidence was provided at these hearings about the feasibility of different emission reduction methods, including the installation of an afterburner or a powder coating system, and reformulating the paints it uses. Swenson justified the adjusted standard based upon its own technical support demonstrating that the 3.5 lbs VOM/gal limit is technically and economically infeasible. Swenson asserted that the installation of emissions control equipment would impose an unreasonable financial hardship on the company without providing a measurable environmental benefit to the area, and that the area has not had an exceedance of the ozone NAAQS.

Further, Swenson states that coatings that satisfy customer requirements and comply with 35 Ill. Adm. Code Section 215.204(j)(2) are currently unavailable.

In a December 4, 1997, Interim Opinion and Order, IPCB granted Swenson an adjusted standard to use coatings that contain, on a monthly average, 4.75 lbs VOM/gal, and made the following findings of fact and conclusions of law:

(1) Coatings that comply with 35 Ill. Adm. Code Section 215.204(j)(2) are not available for Swenson's specialty orders;

(2) The cost that Swenson would incur to comply with regulatory alternatives to 35 Ill. Adm. Code Section 215.204(j)(2) are unreasonable;

(3) The factors are substantially and significantly different from those that IPCB considered when adopting 35 Ill. Adm. Code Section 215.204(j)(2);

(4) An adjusted standard will not result in environmental or health effects substantially and significantly more adverse than those considered by IPCB in adopting 35 Ill. Adm. Code Section 215.204(j)(2); and,

(5) An adjusted standard is consistent with applicable Federal law.

IPCB stated that the adjusted standard will expire ten years from the date of IPCB's final order, since compliant coatings may become available and Swenson's customers may not always require noncompliant coatings. Further, IPCB required Swenson to file a plan for demonstrating compliance with the adjusted standard.

In Swenson's February 3, 1998, Compliance Plan, Swenson identified the following operational initiatives: requesting from paint suppliers reformulated paints with lower VOM

emissions; heating the paint lines to the spraying system and purchasing high efficiency electrostatic paint guns to lessen VOM emissions; and, recording all paint purchases and usage to track VOM emissions. To calculate the monthly average of VOM emissions, Swenson proposed to determine the total VOM in pounds delivered to the coating applicator each month and divide that amount by the number of coating gallons used that month. Swenson also identified that it is researching a single booth powder coating system to lower its VOM emissions while fulfilling its sales requirements.

On May 7, 1998, IPCB adopted a Final Opinion and Order, AS 97-5, granting the adjusted standard requested by Swenson. On June 12, 1998, IEPA filed a Motion to Reconsider the IPCB's Final Opinion and Order. The IPCB denied IEPA's motion on July 23, 1998. The IEPA filed an appeal of IPCB's July 23, 1998, order in the Second District Appellate Court of Illinois through the Illinois Attorney General Office. The Court affirmed IPCB's Final Opinions and Orders of May 7, 1998, and July 23, 1998, on November 19, 1999. IEPA formally submitted the adjusted standard for Swenson to EPA on September 19, 2003, as a site-specific revision to the Illinois SIP.

4. Did Illinois Hold a Public Hearing?

Swenson filed a petition for an adjusted standard with the IPCB on October 11, 1996. Notice of the petition was published in the Ogle County Life on October 21, 1996. IEPA filed a response to Swenson's petition on February 26, 1997. Two public hearings were held before the IPCB, the first on April 17, 1997, in Oregon, Illinois, and the second on May 21, 1997, in Springfield, Illinois.

III. EPA's Review of the SIP Revision

The EPA has identified VOM control levels that it presumes to constitute reasonably available control technology (RACT) for various categories of sources. However, case-by-case RACT determinations may be developed that differ from EPA's presumptive norm. The EPA will approve these RACT determinations as long as a demonstration is made that they satisfy the Act's RACT requirements based on adequate documentation of the economic and technical circumstances of the particular sources being regulated. To make this demonstration, it must be shown that the current SIP requirements do not represent RACT because pollution control technology necessary to reach the requirements is

not and cannot be expected to be reasonably available. The EPA will determine on a case-by-case basis whether this demonstration has been made, taking into account all the relevant facts and circumstances concerning each case. A demonstration must be made that reasonable efforts were taken to determine and adequately document the availability of complying coatings or other kinds of controls, as appropriate. If it is conclusively demonstrated that complying low-solvent coatings are unavailable, the EPA would consider an alternative RACT determination based on the lowest level of VOM control technically and economically feasible for the facility.

Based on the information and technical support IEPA provided in its submittal, the EPA finds that the SIP requirements are not technically or economically feasible for the Swenson Lindenwood facility, and that a limit of 4.75 lbs VOM/gal will not have a negative environmental impact in the area. Further, the adjusted standard will expire ten years from the date of IPCB's final order, since compliant coatings may become available and Swenson's customers may not always require noncompliant coatings. In its plan for demonstrating compliance with the adjusted standard Swenson identified the following operational initiatives: requesting from paint suppliers reformulated paints with lower VOM emissions; heating the paint lines to the spraying system and purchasing high efficiency electrostatic paint guns to lessen VOM emissions; and, recording all paint purchases and usage to track VOM emissions. Swenson also identified that it is researching a single booth powder coating system to lower its VOM emissions while fulfilling its sales requirements. As previously stated, Ogle County is in attainment of the ozone NAAQS. Approval of this requested SIP revision will not increase the historical VOM emission level from this source, and will not interfere with the maintenance of the ozone NAAQS in Ogle County. Therefore, EPA finds this SIP submittal approvable.

IV. What Action Is EPA Taking?

EPA is approving into the Illinois SIP an adjusted standard for the VOM content limit applicable to the painting operations at Swenson's plant located in Lindenwood, Ogle County, Illinois. The State submitted this SIP revision on September 19, 2003. Under the adjusted standard Swenson is limited to a monthly average of 4.75 lbs VOM/gal until May 7, 2008.

EPA views the approval of this SIP revision as noncontroversial, and anticipates no adverse comments. However, in a separate document in this **Federal Register** publication, EPA is proposing approval of the State Plan. Should adverse or critical written comments be filed, EPA will withdraw this direct final rule and address all public comments in a final rule based on the proposed rule published in the proposed rules section of this **Federal Register**. This approval action will be effective without further notice unless EPA receives relevant adverse written comment by June 28, 2004. Should EPA receive adverse or critical comments, it will publish a final rule informing the public that this action will not take effect. Any parties interested in commenting on this action should do so at this time. If no such comments are received, the public is advised that this action will be effective on July 26, 2004.

V. Statutory and Executive Order Reviews

Executive Order 12866: Regulatory Planning and Review

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget.

Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001).

Regulatory Flexibility Act

This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Unfunded Mandates Reform Act

Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4).

Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 13132: Federalism

This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act.

Executive Order 13045: Protection of Children From Environmental Health and Safety Risks

This rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

National Technology Transfer Advancement Act

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTA), 15 U.S.C. 272, requires federal agencies to use technical standards that are developed or adopted by voluntary consensus to carry our policy objectives, so long as such standards are not inconsistent with applicable law or otherwise impracticable. In reviewing program submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Act. Absent a prior existing requirement for the state to use voluntary consensus standards, EPA has no authority to disapprove a program submission for failure to use such standards, and it would thus be inconsistent with applicable law for EPA to use voluntary consensus standards in place of a program submission that otherwise satisfies the provisions of the Act. Therefore, the requirements of section 12(d) of the NTTA do not apply.

Civil Justice Reform

As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct.

Governmental Interference With Constitutionally Protected Property Rights

EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order, and has determined that the rule's requirements do not constitute a taking.

Paperwork Reduction Act

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, EPA promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 26, 2004. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: May 7, 2004.

Bharat Mathur,

Acting Regional Administrator, Region 5.

■ For the reasons stated in the preamble, part 52, chapter I, of title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

■ 2. Section 52.720 is amended by adding paragraph (c)(172) to read as follows:

§ 52.720 Identification of plan.

* * * * *

(c) * * *

(172) On September 19, 2003, Illinois submitted a site-specific revision to the State Implementation Plan which relaxes the volatile organic material (VOM) content limit for the coating operations at Louis Berkman Company, d/b/a/ the Swenson Spreader Company's Lindenwood, Ogle County, Illinois facility from 3.5 pounds VOM per gallon to a monthly average of 4.75 pounds VOM per gallon until May 7, 2008.

(i) Incorporation by reference. Order contained in a May 7, 1998, Opinion and Order of the Illinois Pollution Control Board, AS 97-5, effective May 7, 1998.

[FR Doc. 04-11925 Filed 5-26-04; 8:45 am]

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 261**

[FRL-7667-5]

Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Proposed Exclusion

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The EPA (also, "the Agency" or "we") in this preamble is granting a petition submitted by Bekaert Corporation (Bekaert) to exclude (or delist) a certain solid waste generated by its Dyersburg, Tennessee facility from

the lists of hazardous wastes. Sludge generated from the treatment of wastewaters generated from electroplating processes are listed as hazardous waste number F006 under the Resource Conservation and Recovery Act (RCRA).

Today's action conditionally excludes the petitioned waste from the list of hazardous wastes only if the waste is disposed of in a Subtitle D landfill which is permitted, licensed, or registered by a State to manage industrial solid waste.

DATES: *Effective Date:* This rule is effective on May 27, 2004.

ADDRESSES: The RCRA regulatory docket for this final rule, number R4DLP-0401-Bekaert, is located at the RCRA Enforcement and Compliance Branch, Waste Division, U.S. Environmental Protection Agency Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303, and is available for viewing from 8 a.m. to 4 p.m., Monday through Friday, excluding Federal holidays. Call Daryl Himes at (404) 562-8614 for appointments. The public may copy material from the regulatory docket at \$0.15 per page.

FOR FURTHER INFORMATION CONTACT: For general and technical information about this final rule, contact Daryl Himes, South Enforcement and Compliance Section, (Mail Code 4WD-RCRA), RCRA Enforcement and Compliance Branch, U.S. Environmental Protection Agency, Region 4, Sam Nunn Atlanta Federal Center, 61 Forsyth Street, SW., Atlanta, Georgia 30303 or call (404) 562-8614.

SUPPLEMENTARY INFORMATION: The information in this section is organized as follows:

- I. Background
 - A. What Is a Delisting Petition, and What Does It Require of Petitioner?
 - B. What Regulations Allow a Waste To Be Delisted?
- II. Bekaert's Delisting Petition
 - A. What Wastes Did Bekaert Petition the EPA To Delist?
 - B. What Information Must the Generator Supply?
 - C. What Information Did Bekaert Submit To Support this Petition?
- III. EPA's Evaluation and Final Rule
 - A. What Decision Is EPA Finalizing and Why?
 - B. What Are the Terms of This Exclusion?
 - C. When Is the Delisting Effective?
 - D. How Does This Action Affect the States?
- IV. Public Comments Received on the Proposed Exclusion
- V. Regulatory Impact
- VI. Regulatory Flexibility Act
- VII. Paperwork Reduction Act
- VIII. Unfunded Mandates Reform Act
- IX. Executive Order 13045
- X. Executive Order 13084
- XI. National Technology Transfer and Advancements Act

XII. Executive Order 13132 Federalism

I. Background

A. What Is a Delisting Petition, and What Does It Require of a Petitioner?

A delisting petition is a request from a facility to the EPA or an authorized State to exclude wastes from the list of hazardous wastes. The facility petitions the EPA because it does not consider the wastes hazardous under RCRA regulations.

In a delisting petition, the petitioner must show that wastes generated at a particular facility do not meet any of the criteria for which the waste was listed. The criteria for which the EPA lists a waste are in part 261 and further explained in the background documents for the listed waste.

In addition, under 40 CFR 260.22, a petitioner must prove that the waste does not exhibit any of the hazardous waste characteristics (ignitability, reactivity, corrosivity, and toxicity) and present sufficient information for the EPA to decide whether factors other than those for which the waste was listed warrant retaining it as a hazardous waste. (See part 261 and the background documents for the listed waste.)

Generators remain obligated under RCRA to confirm whether their waste remains nonhazardous based on the hazardous waste characteristics even if the EPA has "delisted" the waste.

B. What Regulations Allow a Waste To Be Delisted?

Under 40 CFR 260.20 and 260.22, a generator may petition the EPA to remove its wastes from hazardous waste control by excluding it from the lists of hazardous wastes contained in 40 CFR 261.31 and 261.32. Specifically, 40 CFR 260.20 allows any person to petition the Administrator to modify or evoke any provision of parts 260 through 266, 268, and 273 of Title 40 of the Code of Federal Regulations. 40 CFR 260.22 provides a generator the opportunity to petition the Administrator to exclude a waste on a "generator specific" basis from the hazardous waste lists.

II. Bekaert's Delisting Petition

A. What Wastes Did Bekaert Petition the EPA To Delist?

On October 28, 2002, Bekaert petitioned the EPA to exclude from the lists of hazardous waste contained in 40 CFR 261.31 and 261.32, a dewatered WWTP sludge generated from the facility located in Dyersburg, Tennessee. The waste (EPA Hazardous Waste No. F006) is generated by treating wastewater from the copper and zinc

electroplating of steel cords for the automobile tire industry. Specifically, in its petition, Bekaert requested that the EPA grant an exclusion for 1250 cubic yards per calendar year of dewatered WWTP sludge resulting from the treatment of waste waters from an electroplating operation at its facility.

B. What Information Must the Generator Supply?

A generator must provide sufficient information to allow the EPA to determine that the waste does not meet any of the criteria for which it was listed as a hazardous waste. In addition, where there is a reasonable basis to believe that factors other than those for which the waste was listed (including additional constituents) could cause the waste to be hazardous, the Administrator must determine that such factors do not warrant retaining the waste as hazardous.

C. What Information Did Bekaert Submit To Support This Petition?

To support its petition, Bekaert submitted detailed chemical and physical analysis of the dewatered WWTP sludge generated by its facility.

III. EPA's Evaluation and Final Rule

A. What Decision Is EPA Finalizing and Why?

Today the EPA is finalizing an exclusion for 1250 cubic yards per calendar year of dewatered WWTP sludge resulting from the treatment of waste waters from an electroplating operation at its facility in Dyersburg, Tennessee.

Bekaert petitioned EPA to exclude, or delist, the dewatered WWTP sludge because Bekaert believes that the petitioned waste does not meet the criteria for which it was listed and that there are no additional constituents or factors which could cause the waste to be hazardous. Review of this petition included consideration of the original listing criteria, as well as the additional factors required by the Hazardous and Solid Waste Amendments of 1984 (HSWA). See section 222 of HSWA, 42 United States Code (U.S.C.) 6921(f), and 40 CFR 260.22(d)(2)-(4).

On February 20, 2004, EPA proposed to exclude or delist Bekaert's dewatered WWTP sludge from the treatment of waste waters from an electroplating operation from the list of hazardous wastes in 40 CFR 261.31 and accepted public comment on the proposed rule (69 FR 7888). EPA received no comments on the proposed rule and for the reasons stated in both the proposal and this document, EPA believes that

Bekaert's waste should be excluded from hazardous waste control.

B. What Are the Terms of This Exclusion?

Bekaert must dispose of the WWTP sludge resulting from the treatment of waste waters from an electroplating operation at its facility in a Subtitle D landfill which is permitted, licensed, or registered by a state to manage industrial waste. Any amount of WWTP sludge which is generated in excess of 1250 cubic yards per calendar year is not considered delisted under this exclusion. This exclusion is effective only if all conditions contained in today's rule are satisfied.

C. When Is the Delisting Effective?

This rule is effective May 27, 2004. The Hazardous and Solid Waste Amendments of 1984 amended section 3010 of RCRA to allow rules to become effective in less than six months when the regulated community does not need the six-month period to come into compliance. This rule reduces rather than increases the existing requirements and, therefore, is effective immediately upon publication under the Administrative Procedure Act, pursuant to 5 U.S.C. 553(d).

D. How Does This Action Affect the States?

Because EPA is issuing today's exclusion under the Federal RCRA delisting program, only States subject to Federal RCRA delisting provisions would be affected. This would exclude States who have received authorization from the EPA to make their own delisting decisions.

EPA allows the States to impose their own non-RCRA regulatory requirements that are more stringent than the EPA's, under section 3009 of RCRA, 42 U.S.C. 6929. These more stringent requirements may include a provision that prohibits a Federally issued exclusion from taking effect in the State. Because a dual system (that is, both Federal (RCRA) and State (non-RCRA) programs) may regulate a petitioner's waste, the EPA urges petitioners to contact the state regulatory authority to establish the status of their wastes under the State law.

EPA has also authorized some states to administer a delisting program in place of the federal program to make state delisting decisions. Therefore, this exclusion does not apply in those authorized states. If Bekaert transports the petitioned waste to or manages the waste in any state with delisting authorization, Bekaert must obtain a delisting from that state before it can

manage the waste as nonhazardous in the state. Delisting petitions approved by the EPA Administrator under 40 CFR 260.22 are effective in the State of Tennessee only after the final rule has been published in the **Federal Register**.

IV. Public Comments Received on the Proposed Exclusion

No comments were received from the public pursuant to the proposed rule delisting this action.

V. Regulatory Impact

Under Executive Order 12866, the EPA must conduct an "assessment of the potential costs and benefits" for all "significant" regulatory actions.

The proposal to grant an exclusion is not significant, since its effect, if promulgated, would be to reduce the overall costs and economic impact of the EPA's hazardous waste management regulations. This reduction would be achieved by excluding waste generated at a specific facility from the EPA's lists of hazardous wastes, thus enabling a facility to manage its waste as nonhazardous.

Because there is no additional impact from this proposed rule, this proposal would not be a significant regulation, and no cost/benefit assessment is required. The Office of Management and Budget (OMB) has also exempted this rule from the requirement for OMB review under section (6) of Executive Order 12866.

VI. Regulatory Flexibility Act

Under the Regulatory Flexibility Act, 5 U.S.C. 601–612, whenever an agency is required to publish a general notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis which describes the impact of the rule on small entities (small businesses, small organizations, and small governmental jurisdictions). No regulatory flexibility analysis is required, however, if the Administrator or delegated representative certifies that the rule will not have any impact on small entities. This rule, if promulgated, will not have an adverse economic impact on small entities since its effect would be to reduce the overall costs of the EPA's hazardous waste regulations and would be limited to one facility. Accordingly, the EPA hereby certifies that this proposed regulation, if promulgated, will not have a significant economic impact on a substantial number of small entities. Therefore, this regulation does not require a regulatory flexibility analysis.

VII. Paperwork Reduction Act

Information collection and recordkeeping requirements associated with this proposed rule have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96 511, 44 U.S.C. 3501 *et seq.*) and have been assigned OMB Control Number 2050 0053.

VIII. Unfunded Mandates Reform Act

Under section 202 of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104–4, which was signed into law on March 22, 1995, the EPA generally must prepare a written statement for rules with Federal mandates that may result in estimated costs to State, local, and tribal governments in the aggregate, or to the private sector, of \$100 million or more in any one year.

When such a statement is required for the EPA rules under section 205 of the UMRA, the EPA must identify and consider alternatives. The alternatives must include the least costly, most cost-effective, or least burdensome alternative that achieves the objectives of the rule. The EPA must select that alternative, unless the Administrator explains in the final rule why it was not selected or it is inconsistent with law.

Before the EPA establishes regulatory requirements that may significantly or uniquely affect small governments, including tribal governments, it must develop under section 203 of the UMRA a small government agency plan. The plan must provide for notifying potentially affected small governments, giving them meaningful and timely input in the development of the EPA's regulatory proposals with significant Federal intergovernmental mandates, and informing, educating, and advising them on compliance with the regulatory requirements.

The UMRA generally defines a Federal mandate for regulatory purposes as one that imposes an enforceable duty upon state, local, or tribal governments or the private sector.

The EPA finds that this delisting decision is deregulatory in nature and does not impose any enforceable duty on any State, local, or tribal governments or the private sector. In addition, the proposed delisting decision does not establish any regulatory requirements for small governments and so does not require a small government agency plan under UMRA section 203.

IX. Executive Order 13045

The Executive Order 13045 is entitled "Protection of Children from

Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997). This order applies to any rule that the EPA determines (1) is economically significant as defined under Executive Order 12866, and (2) the environmental health or safety risk addressed by the rule has a disproportionate effect on children. If the regulatory action meets both criteria, the EPA must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the EPA. This proposed rule is not subject to Executive Order 13045 because this is not an economically significant regulatory action as defined by Executive Order 12866.

X. Executive Order 13084

Because this action does not involve any requirements that affect Indian Tribes, the requirements of section 3(b) of Executive Order 13084 do not apply. Under Executive Order 13084, the EPA may not issue a regulation that is not required by statute, that significantly affects or uniquely affects the communities of Indian tribal governments, and that imposes substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the tribal governments.

If the mandate is unfunded, the EPA must provide to the Office Management and Budget, in a separately identified section of the preamble to the rule, a description of the extent of the EPA’s prior consultation with representatives of affected tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation.

In addition, Executive Order 13084 requires the EPA to develop an effective process permitting elected and other representatives of Indian tribal governments to have “meaningful and timely input” in the development of

regulatory policies on matters that significantly or uniquely affect their communities of Indian tribal governments. This action does not involve or impose any requirements that affect Indian Tribes. Accordingly, the requirements of section 3(b) of Executive Order 13084 do not apply to this rule.

XI. National Technology Transfer and Advancement Act

Under section 12(d) of the National Technology Transfer and Advancement Act, the EPA is directed to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, business practices, etc.) developed or adopted by voluntary consensus standard bodies. Where available and potentially applicable voluntary consensus standards are not used by the EPA, the Act requires that the EPA provide Congress, through the OMB, an explanation of the reasons for not using such standards.

This rule does not establish any new technical standards and thus, the EPA has no need to consider the use of voluntary consensus standards in developing this final rule.

XII. Executive Order 13132 Federalism

Executive Order 13132, entitled “Federalism” (64 FR 43255, August 10, 1999) requires the EPA to develop an accountable process to ensure “meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications.” “Policies that have federalism implications” are defined in the Executive Order to include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.”

Under section 6 of Executive Order 13132, the EPA may not issue a

regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or the EPA consults with State and local officials early in the process of developing the proposed regulation. The EPA also may not issue a regulation that has federalism implications and that preempts State law unless the EPA consults with State and local officials early in the process of developing the proposed regulation.

This action does not have federalism implication. It will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, because it affects only one facility.

Lists of Subjects in 40 CFR Part 261

Environmental protection, Hazardous waste, Recycling, Reporting and recordkeeping requirements.

Authority: Section 3001(f) RCRA, 42 U.S.C. 6921(f).

Dated: May 18, 2004.

J. Scott Gordon,

Acting Director, Waste Management Division, Region 4.

■ For the reasons set out in the preamble, 40 CFR part 261 is amended as follows:

PART 261—IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

■ 1. The authority citation for part 261 continues to read as follows:

Authority: 42 U.S.C. 6905, 6912(a), 6921, 6922, and 6938.

■ 2. Tables 1, 2 and 3 of appendix IX of part 261 are amended by adding the following entry in alphabetical order in each table to read as follows:

Appendix IX to Part 261—Waste Excluded Under §§ 260.20 and 260.22.

Facility	Address	Waste description
Bekaert Corp	Dyersburg, TN	Dewatered wastewater treatment plant (WWTP) sludge (EPA Hazardous Waste Nos. F006) generated at a maximum rate of 1250 cubic yards per calendar year after May 27, 2004, and disposed in a Subtitle D landfill. For the exclusion to be valid, Bekaert must implement a verification testing program that meets the following paragraphs: (1) Delisting Levels: All leachable concentrations for those constituents must not exceed the maximum allowable concentrations in mg/l specified in this paragraph. Bekaert must use the leaching method specified at 40 CFR 261.24 to measure constituents in the waste leachate. (A) Inorganic Constituents TCLP (mg/l): Cadmium—0.672; Chromium—5.0; Nickel—127; Zinc—1260.0. (B) Organic Constituents TCLP (mg/l): Methyl ethyl ketone—200.0.

Facility	Address	Waste description
		<p>(2) Waste Holding and Handling:</p> <p>(A) Bekaert must accumulate the hazardous waste dewatered WWTP sludge in accordance with the applicable regulations of 40 CFR 262.34 and continue to dispose of the dewatered WWTP sludge as hazardous waste.</p> <p>(B) Once the first quarterly sampling and analyses event described in paragraph (3) is completed and valid analyses demonstrate that no constituent is present in the sample at a level which exceeds the delisting levels set in paragraph (1), Bekaert can manage and dispose of the dewatered WWTP sludge as nonhazardous according to all applicable solid waste regulations.</p> <p>(C) If constituent levels in any sample taken by Bekaert exceed any of the delisting levels set in paragraph (1), Bekaert must do the following: (i) notify EPA in accordance with paragraph (7) and (ii) manage and dispose the dewatered WWTP sludge as hazardous waste generated under Subtitle C of RCRA.</p> <p>(D) Quarterly Verification Testing Requirements: Upon this exclusion becoming final, Bekaert may begin the quarterly testing requirements of paragraph (3) on its dewatered WWTP sludge.</p> <p>(3) Quarterly Testing Requirements: Upon this exclusion becoming final, Bekaert may perform quarterly analytical testing by sampling and analyzing the dewatered WWTP sludge as follows:</p> <p>(A)(i) Collect four representative composite samples of the hazardous waste dewatered WWTP sludge at quarterly (ninety (90) day) intervals after EPA grants the final exclusion. The first composite sample may be taken at any time after EPA grants the final approval.</p> <p>(ii) Analyze the samples for all constituents listed in paragraph (1). Any roll-offs from which the composite sample is taken exceeding the delisting levels listed in paragraph (1) must be disposed as hazardous waste in a Subtitle C landfill.</p> <p>(iii) Within forty-five (45) days after taking its first quarterly sample, Bekaert will report its first quarterly analytical test data to EPA. If levels of constituents measured in the sample of the dewatered WWTP sludge do not exceed the levels set forth in paragraph (1) of this exclusion, Bekaert can manage and dispose the nonhazardous dewatered WWTP sludge according to all applicable solid waste regulations.</p> <p>(4) Annual Testing:</p> <p>(A) If Bekaert completes the quarterly testing specified in paragraph (3) above and no sample contains a constituent with a level which exceeds the limits set forth in paragraph (1), Bekaert may begin annual testing as follows: Bekaert must test one representative composite sample of the dewatered WWTP sludge for all constituents listed in paragraph (1) at least once per calendar year.</p> <p>(B) The sample for the annual testing shall be a representative composite sample (according to SW-846 methodologies) for all constituents listed in paragraph (1).</p> <p>(C) The sample for the annual testing taken for the second and subsequent annual testing events shall be taken within the same calendar month as the first annual sample taken.</p> <p>(5) Changes in Operating Conditions: If Bekaert significantly changes the process described in its petition or starts any processes that generate(s) the waste that may or could affect the composition or type of waste generated as established under paragraph (1) (by illustration, but not limitation, changes in equipment or operating conditions of the treatment process), it must notify the EPA in writing; it may no longer handle the wastes generated from the new process as nonhazardous until the wastes meet the delisting levels set in paragraph (1) and it has received written approval to do so from the EPA.</p> <p>(6) Data Submittals: Bekaert must submit the information described below. If Bekaert fails to submit the required data within the specified time or maintain the required records on-site for the specified time, the EPA, at its discretion, will consider this sufficient basis to reopen the exclusion as described in paragraph (7). Bekaert must:</p> <p>(A) Submit the data obtained through paragraph (3) to the Chief, North Section, RCRA Enforcement and Compliance Branch, Waste Division, U. S. Environmental Protection Agency Region 4, 61 Forsyth Street, SW., Atlanta, Georgia, 30303, within the time specified.</p> <p>(B) Compile records of analytical data from paragraph (3), summarized, and maintained on-site for a minimum of five years.</p> <p>(C) Furnish these records and data when either the EPA or the State of Tennessee request them for inspection.</p> <p>(D) Send along with all data a signed copy of the following certification statement, to attest to the truth and accuracy of the data submitted:</p> <p>“Under civil and criminal penalty of law for the making or submission of false or fraudulent statements or representations (pursuant to the applicable provisions of the Federal Code, which include, but may not be limited to, 18 U.S.C. 1001 and 42 U.S.C. 6928), I certify that the information contained in or accompanying this document is true, accurate and complete.</p> <p>As to the (those) identified section(s) of this document for which I cannot personally verify its (their) truth and accuracy, I certify as the company official having supervisory responsibility for the persons who, acting under my direct instructions, made the verification that this information is true, accurate and complete. If any of this information is determined by the EPA in its sole discretion to be false, inaccurate or incomplete, and upon conveyance of this fact to the company, I recognize and agree that this exclusion of waste will be void as if it never had effect or to the extent directed by the EPA and that the company will be liable for any actions taken in contravention of the company’s RCRA and CERCLA obligations premised upon the company’s reliance on the void exclusion.”</p>

Facility	Address	Waste description
*	*	<p>(7) Reopener:</p> <p>(A) If, anytime after disposal of the delisted waste Bekaert possesses or is otherwise made aware of any environmental data (including but not limited to leachate data or ground water monitoring data) or any other data relevant to the delisted waste indicating that any constituent identified for the delisting verification testing is at level higher than the delisting level allowed by the Regional Administrator or his delegate in granting the petition, then the facility must report the data, in writing, to the Regional Administrator or his delegate within ten (10) days of first possessing or being made aware of that data.</p> <p>(B) If either the quarterly or annual testing of the waste does not meet the delisting requirements in paragraph (1), Bekaert must report the data, in writing, to the Regional Administrator or his delegate within ten (10) days of first possessing or being made aware of that data.</p> <p>(C) If Bekaert fails to submit the information described in paragraphs (5), (6)(A) or (6)(B) or if any other information is received from any source, the Regional Administrator or his delegate will make a preliminary determination as to whether the reported information requires the EPA action to protect human health or the environment. Further action may include suspending, or revoking the exclusion, or other appropriate response necessary to protect human health and the environment.</p> <p>(D) If the Regional Administrator or his delegate determines that the reported information requires action the EPA, the Regional Administrator or his delegate will notify the facility in writing of the actions the Regional Administrator or his delegate believes are necessary to protect human health and the environment. The notification shall include a statement of the proposed action and a statement providing the facility with an opportunity to present information as to why the proposed the EPA action is not necessary. The facility shall have ten (10) days from the date of the Regional Administrator or his delegate's notice to present such information.</p> <p>(E) Following the receipt of information from the facility described in paragraph (6)(D) or (if no information is presented under paragraph (6)(D)) the initial receipt of information described in paragraphs (5), (6)(A) or (6)(B), the Regional Administrator or his delegate will issue a final written determination describing the EPA actions that are necessary to protect human health or the environment. Any required action described in the Regional Administrator or his delegate's determination shall become effective immediately, unless the Regional Administrator or his delegate provides otherwise.</p> <p>(8) Notification Requirements: Bekaert must do following before transporting the delisted waste:</p> <p>(A) Provide a one-time written notification to any State Regulatory Agency to which or through which it will transport the delisted waste described above for disposal, sixty (60) days before beginning such activities.</p> <p>(B) Update the one-time written notification if Bekaert ships the delisted waste into a different disposal facility.</p> <p>(C) Failure to provide this notification will result in a violation of the delisting variance and a possible revocation of the decision.</p>

 BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 0 and 11

[FCC 03-167]

Reorganization of the Enforcement Bureau and Establishment of the Office of Homeland Security

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission is revising its rules to promote more efficient and effective organizational structure and to promote homeland security. Specifically, the Commission is revising its rules to reflect the creation of the Office of Homeland Security within the

Enforcement Bureau, describe the Office's functions and delegated authority, and make other conforming changes. The Commission is also revising its rules to clarify how an Emergency Relocation Board will operate during times of emergency under the Commission's Continuity of Operations Plan (COOP) and setting out the line of succession to chair the Board when no Commissioner is available to serve on the Board.

DATES: These rule changes became effective on July 8, 2003.

FOR FURTHER INFORMATION CONTACT: Sharlene Lofty, Enforcement Bureau, Office of Homeland Security, at (202) 418-2761, or via the Internet at sharlene.lofty@fcc.gov.

SUPPLEMENTARY INFORMATION: On July 8, 2003, the Commission adopted an Order (FCC 03-167) revising its rules to reflect the reorganization of the Enforcement Bureau. Commissioner Copps issued a

separate statement when this action was taken. In order to promote a more efficient and effective organizational structure and to promote homeland security, the Commission created the Office of Homeland Security within the Enforcement Bureau. The Commission revised its rules to reflect the creation of the Office of Homeland Security, describe its functions and delegated authority, and make other conforming changes. Additionally, the Commission revised its rules to clarify the functions of an Emergency Relocation Board during times of emergency under the Commission's COOP and the line of succession to chair the Board.

Authority for the adoption of the foregoing revisions is contained in sections 4(i), 4(j), 5(b), 5(c), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 154(j), 155(b), and 303(r).

The amendments adopted herein pertain to agency organization,

procedure and practice. Consequently, the notice and comment provision of the Administrative Procedure Act contained in 5 U.S.C. 553(b) is inapplicable.

The Commission will not send a copy of this Order to the U.S. General Accounting Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A), because it concerns rules of agency organization, procedure, or practice that do not “substantially affect the rights or obligations of non-agency parties.” This Order does not contain proposed information collection requirements subject to the Paperwork Reduction Act of 1995, Pub. L. 104–13. Therefore it does not contain any proposed information collection burden “for small business concerns with fewer than 25 employees,” pursuant to the Small Business Paperwork Relief Act of 2002, Pub. L. 107–198, *see* 44 U.S.C. 3506(c)(4).

Accordingly, it is ordered that parts 0 and 11 of the Commission’s Rules, set forth in Title 47 of the Code of Federal Regulations, are amended as set forth in the rule changes.

Secretary.

Rule Changes

■ For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR parts 0 and 11 as follows:

PART 0—COMMISSION ORGANIZATION

■ 1. The authority citation for part 0 continues to read as follows:

Authority: Secs. 5, 48 Stat. 1068, as amended; 47 U.S.C. 155

■ 2. Section 0.11 is amended by adding paragraph (a)(11) to read as follows:

§ 0.11 Functions of the Office.

(a) * * *

(11) Develop and maintain the Commission’s Continuity of Operations Plan (COOP).

* * * * *

■ 3. Section 0.111 is amended by revising paragraphs (a)(22) and (c) to read as follows:

§ 0.111 Functions of the Bureau.

(a) * * *

(22) Advise the Commission or responsible Bureau or Office regarding the enforcement and homeland security implications of existing and proposed rules.

* * * * *

(c) Under the general direction of the Defense Commissioner, coordinate the homeland security activities of the Commission, including national security and emergency preparedness and defense mobilization, and provide support to the Defense Commissioner with respect to his or her participation in the Joint Telecommunications Resources Board, and the National Security Telecommunications Advisory Committee and other organizations. Recommend national emergency plans and preparedness programs covering Commission functions during national emergency conditions. Support the Chief of the Wireline Competition, International and Wireless Telecommunications Bureaus on matters involving assignment of Telecommunications Service Priority System priorities and in administration of that system. The Chief, Enforcement Bureau, or that person’s designee, acts as FCC Alternate Homeland Security and Defense Coordinator and principal to the National Communications System. Perform such alternate functions as may be delegated during a national emergency or following activation of the President’s war emergency powers as specified in section 706 of the Communications Act.

* * * * *

■ 4. Section 0.181 is amended by revising the undesignated center heading, the undesignated introductory paragraph and paragraphs (a), (b), (c), (e) and (f) to read as follows:

Homeland Security, Defense, and Emergency Preparedness Functions

§ 0.181 The Defense Commissioner.

The Defense Commissioner is designated by the Commission. The Defense Commissioner directs the homeland security, national security and emergency preparedness, and defense activities of the Commission and has the following duties and responsibilities:

(a) To keep the Commission informed as to significant developments in the field of homeland security, emergency preparedness, defense, and any related activities that involve formulation or revision of Commission policy in any area of responsibility of the Commission.

(b) To represent the Commission in homeland security, national security and emergency preparedness, and defense matters requiring conferences or communications with other governmental officers, departments, or agencies.

(c) To act as the Homeland Security and Defense Coordinator in representations with other agencies with respect to planning for the continuity of the essential functions of the Commission under emergency conditions.

* * * * *

(e) To serve as the principal point of contact for the Commission on all matters pertaining to the Department of Homeland Security.

(f) To take such measures as will assure continuity of the Commission’s functions under any foreseeable circumstances with a minimum of interruption. In the event of an emergency, the Defense Commissioner, in consultation with the Managing Director, will decide whether to activate the Commission’s Continuity of Operations Plan.

* * * * *

■ 5. Section 0.182 is amended by revising paragraphs (b), (c), (d), (e), and (f) to read as follows:

§ 0.182 Chief, Enforcement Bureau.

* * * * *

(b) In coordination with the Office of Managing Director, which has responsibility for developing the Commission’s Continuity of Operations Plan (COOP), acts as Alternate Homeland Security and Defense Coordinator in representations with other agencies with respect to planning for the continuity of the essential functions of the Commission under emergency conditions.

(c) Keeps the Defense Commissioner informed as to significant developments in the field of homeland security.

(d) Serves as the FCC’s representative on the National Communications System’s Committees.

(e) Under the general direction of the Defense Commissioner coordinates the homeland security, national security and emergency preparedness, and defense activities of the Commission, including, Continuity of Government Planning, the Emergency Alert System (EAS) and other functions as may be delegated during a national emergency or activation of the President’s war emergency powers as specified in section 706 of the Communications Act. Maintains liaison with FCC Bureaus/ Offices; represents the Defense Commissioner with other Government

agencies and organizations, the telecommunications industry and FCC licensees on homeland security matters; and, as requested, represents the Commission at meetings and conferences.

(f) Is authorized to declare that a temporary state of communications emergency exists pursuant to § 97.401(b) of this chapter and to act on behalf of the Commission with respect to the operation of amateur stations during such temporary state of communications emergency.

* * * * *

■ 6. Section 0.185 is amended by revising the undesignated introductory paragraph and paragraphs (a) and (d), and by adding paragraph (e) to read as follows:

§ 0.185 Responsibilities of the bureaus and staff offices.

The head of each of the bureaus and staff offices, in rendering assistance to the Chief, Enforcement Bureau in the performance of that person's duties with respect to homeland security, national security and emergency preparedness, and defense activities will have the following duties and responsibilities:

(a) To keep the Chief, Enforcement Bureau informed of the investigation, progress, and completion of programs, plans, or activities with respect to homeland security, national security and emergency preparedness, and defense in which they are engaged or have been requested to engage.

* * * * *

(d) To perform such other duties related to the Commission's homeland security, national security and emergency preparedness, and defense activities as may be assigned to them by the Commission.

(e) To serve as Homeland Security Liaison to the Enforcement Bureau or designate the Deputy Chief of the Bureau or Office as Homeland Security Liaison to the Enforcement Bureau.

■ 7. Section 0.186 is revised to read as follows:

§ 0.186 Emergency Relocation Board.

(a) As specified in the Commission's Continuity of Operations Plan and consistent with the exercise of the War Emergency Powers of the President as set forth in section 706 of the Communications Act of 1934, as amended, if the full Commission or a quorum thereof is unable to act, an Emergency Relocation Board will be convened at the Commission's Headquarters or other relocation site designated to serve as Primary FCC Staff to perform the functions of the

Commission. Relocation may be required to accommodate a variety of emergency scenarios. Examples include scenarios in which FCC headquarters is unavailable or uninhabitable; or many, if not all, agencies must evacuate the immediate Washington, DC, area. The FCC's Continuity of Operations Plan (COOP) includes the deliberate and pre-planned movement of selected key principals and supporting staff to a relocation facility. As an example, a sudden emergency, such as a fire or hazardous materials incident, may require the evacuation of FCC headquarters with little or no advance notice, but for only a short duration. Alternatively, an emergency so severe that FCC headquarters is rendered unusable and likely will be for a period long enough to significantly impact normal operations, may require COOP implementation. Nothing in this subsection shall be construed to diminish the authority of the Commission or its staff to perform functions of the Commission at the Commission's headquarters or other relocation site using existing authority provided for elsewhere in this Chapter.

(b) The Board shall comprise such Commissioners as may be present (including Commissioners available through electronic communications or telephone) and able to act. In the absence of the Chairman, the Commissioner present with the longest seniority in office will serve as acting Chairman. If no Commissioner is present and able to act, the person designated as next most senior official in the Commission's Continuity of Operations Plan will head the Board.

■ 8. Section 0.381 is revised to read as follows:

§ 0.381 Defense Commissioner.

The authority delegated to the Commission under Executive Orders 12472 and 12656 is redelegated to the Defense Commissioner.

■ 9. Section 0.387 is amended by revising paragraph (b) to read as follows:

§ 0.387 Other national security and emergency preparedness delegations; cross reference.

* * * * *

(b) For authority of the Chief of the Enforcement Bureau to declare a general communications emergency, see § 0.182(f).

PART 11—EMERGENCY ALERT SYSTEM (EAS)

■ 10. The authority citation for Part 11 continues to read as follows:

Authority: 47 U.S.C. 151, 154(i) and (o), 303(r), 544(g) and 606.

■ 11. Section 11.21 is amended by revising the undesignated introductory paragraph to read as follows:

§ 11.21 State and Local Area Plans and FCC Mapbook.

EAS plans contain guidelines which must be followed by broadcast and cable personnel, emergency officials and National Weather Service (NWS) personnel to activate the EAS. The plans include the EAS header codes and messages that will be transmitted by key EAS sources (NP, LP, SP and SR). State and local plans contain unique methods of EAS message distribution such as the use of RBDS. The plans must be reviewed and approved by the Director, Office of Homeland Security, Enforcement Bureau, prior to implementation to ensure that they are consistent with national plans, FCC regulations, and EAS operation.

* * * * *

■ 12. Section 11.43 is revised to read as follows:

§ 11.43 National level participation.

Entities that wish to voluntarily participate in the national level EAS may submit a written request to the Director, Office of Homeland Security, Enforcement Bureau.

■ 13. Section 11.47 is amended by revising paragraph (b) to read as follows:

§ 11.47 Optional use of other communications methods and systems.

* * * * *

(b) Other technologies and public service providers, such as DBS, low earth orbiting satellites, etc., that wish to participate in the EAS may contact the FCC's Office of Homeland Security, Enforcement Bureau, or their State Emergency Communications Committee for information and guidance.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1, 20, and 43

[CC Docket No. 99-301, FCC 04-81]

Local Competition and Broadband Reporting

AGENCY: Federal Communications Commission.

ACTION: Final rule; order on reconsideration.

SUMMARY: In this document, the Federal Communications Commission denies

the petition of Iowa Telecommunications Services, Inc. (Iowa Telecom), for reconsideration of the Commission's *Data Gathering Order* published Wednesday, April 12, 2000 (65 FR 19675). Iowa Telecom requested the Commission to adopt annual statistical sampling for certain rural telephone companies in lieu of reporting Form 477 data.

FOR FURTHER INFORMATION CONTACT: Thomas J. Beers, Deputy Chief, or John C. K. Hays, Senior Attorney, Industry Analysis and Technology Division, Wireline Competition Bureau, at (202) 418-0952.

SUPPLEMENTARY INFORMATION: Iowa Telecommunications Services, Inc. (Iowa Telecom), in a petition for reconsideration of the *Data Gathering Order*, asked the Commission to adopt annual statistical sampling for certain rural telephone companies in lieu of reporting Form 477 data. The Commission denied the petition finding that Iowa Telecom has not raised materially new or persuasive arguments beyond those considered in the *Data Gathering Order*, nor has it alleged substantially changed circumstances to justify the requested relief. Parties wishing to revisit these arguments more generally may do so in the context of the Notice of Proposed Rulemaking in WC Docket No. 04-141.

Ordering Clauses

It is further ordered that, pursuant to sections 1-5, 10, 11, 201-205, 215, 218-220, 251-271, 303(r), 332, 403, 502, and 503 of the Communications Act of 1934, as amended, 47 U.S.C. 151-155, 160, 161, 201-205, 215, 218-220, 251-271, 303(r), 332, 403, 502, and 503, section 706 of the Telecommunications Act of 1996, 47 U.S.C. 157 nt, and sections 1.106 and 1.429 of the Commission's rules, 47 CFR 1.106 and 1.429, the petition for reconsideration filed by Iowa Telecommunications Services, Inc. is *denied*.

It is further ordered that CC Docket No. 99-301 is *terminated*.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

BILLING CODE 6712-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 600 and 622

[Docket No. 031007250-4079-02; I.D. 091503E]

RIN 0648-A063

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Dolphin and Wahoo Fishery Off the Atlantic States

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues this final rule to implement the approved measures of the Fishery Management Plan for the Dolphin and Wahoo Fishery off the Atlantic States (FMP). For the dolphin and wahoo fishery in the exclusive economic zone (EEZ) off the Atlantic states (Maine through the east coast of Florida), this final rule will require vessel owners to obtain commercial vessel and charter vessel/headboat permits and, if selected, submit reports; require operators of commercial vessels, charter vessels, and headboats to obtain operator permits; require dealers to obtain permits and, if selected, submit reports; establish bag limits and a minimum size limit (dolphin only); close the longline fisheries in areas closed to the use of such gear for highly migratory pelagic species; prohibit sale without a commercial vessel permit; specify allowable gear; and establish a framework procedure by which the South Atlantic Fishery Management Council (Council) could establish and modify certain management measures in a timely manner. The FMP also specifies maximum sustainable yield (MSY), optimum yield (OY), the determinants of overfishing (maximum fishing mortality threshold (MFMT)) and overfished (minimum stock size threshold (MSST)), the management unit, the fishing year, and essential fish habitat (EFH) and EFH habitat areas of particular concern (EFH-HAPCs). In addition, NMFS informs the public of the approval by the Office of Management and Budget (OMB) of the collection-of-information requirements contained in this final rule and publishes the OMB control numbers for those collections. The intended effects are to conserve and manage dolphin and wahoo and to ensure that no new fisheries for dolphin and wahoo develop.

DATES: This final rule is effective June 28, 2004, except for the amendments to §§ 622.4(a)(1)(i)(E), 622.4(a)(2)(xii), 622.4(a)(4), 622.5(a)(1)(vi), 622.5(a)(2)(i), 622.5(b)(1), 622.5(c)(8), 622.39(f), 622.41(l)(2), 622.44(f), and 622.45(i) that are effective September 24, 2004 and the amendments to § 622.4(a)(5) and 622.4(i) that are effective November 23, 2004.

ADDRESSES: Copies of the Final Regulatory Flexibility Analysis (FRFA) may be obtained from NMFS, Southeast Regional Office, 9721 Executive Center Drive N., St. Petersburg, FL 33702.

Written comments regarding the burden-hour estimates or other aspects of the collection-of-information requirements contained in this final rule may be submitted to Robert Sadler, Southeast Region, NMFS, at the above address, and by e-mail to David_Rostker@omb.eop.gov, or fax to 202-395-7285.

FOR FURTHER INFORMATION CONTACT: Steve Branstetter, phone: 727-570-5305, fax: 727-570-5583, e-mail: Steve.Branstetter@noaa.gov.

SUPPLEMENTARY INFORMATION: The Council prepared the FMP under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

On September 26, 2003, NMFS announced the availability of the FMP and requested comments on it (68 FR 55573). NMFS published a proposed rule to implement the FMP and requested comments on the proposed rule through December 18, 2003 (68 FR 62267, November 3, 2003). NMFS partially approved the FMP on December 23, 2003; NMFS disapproved the restrictive qualifying criteria for a commercial vessel permit, commercial vessel permit transfer provisions, commercial trip limits for dolphin applicable to vessels with a commercial permit for Atlantic dolphin and wahoo, designation of sargassum as EFH, and the designation of sargassum as an EFH-HAPC. The rationale for the approved measures in the FMP is provided in the preamble to the proposed rule and is not repeated here.

Comments and Responses

NMFS received 75 letters from the public during the comment periods on the FMP and the proposed rule. The comments are summarized below along with NMFS' responses.

Comment 1: The FMP represents a much needed management strategy for the dolphin and wahoo stocks of the U.S. Atlantic Coast. This proactive strategy will maintain healthy stocks of dolphin and wahoo for all user and

interest groups. Recreational fishermen have not been restricted from catching large numbers of small dolphin, and the proposed bag and size limits will curb those excessive catches. Similarly, capping the commercial effort in this predominantly recreational fishery will ensure that the historical allocation is maintained between sectors. Prohibiting the sale of fish caught under the bag limit, without appropriate state and Federal commercial permits, will reduce the incentive for recreational fishermen to catch excess quantities of fish with the sole intent of selling the catch, and will reduce the potential for health issues from the sale of improperly handled and processed fish.

Response: The actions approved by NMFS effectively manage and conserve the dolphin and wahoo resources of the U.S. Atlantic Coast. This rule does not attempt to rectify a biological problem with the stocks; neither stock is overfished or approaching an overfished condition because of overfishing. The FMP has specific objectives to maintain healthy stocks of dolphin and wahoo, while optimizing social and economic benefits to the fishery.

Comment 2: The proposed 10–dolphin and 2–wahoo bag limits along with the 20–inch (50.8–cm) size limit for dolphin off Florida and Georgia are an appropriate first step to cap the current effort and participation in the fishery, but may be too lenient. A minimum size limit of 24 inches (61 cm) fork length for dolphin and at least 40 inches (102 cm) for wahoo would be more appropriate. A bag limit of five or less dolphin per person per day would be more appropriate.

Response: Alternative bag and size limits for dolphin and wahoo were considered but rejected. The intent is to cap, but not reduce, the current participation and catch in the dolphin and wahoo fishery. More restrictive and area-inclusive bag, boat, and size limits were projected to reduce the catch and landings in the recreational fishery. For wahoo, no size limits were proposed because of human safety issues associated with the release of wahoo and the subsequent potential for increased discard mortalities.

Comment 3: Recreational fishermen are already overburdened with regulations restricting their right to catch fish. Recreational fishermen should not be subject to catch restrictions or restrictions on their ability to sell their fish caught under the bag limit. The proposed prohibition of sale of fish caught under the bag limit will impact recreational anglers who supplement their low or fixed incomes from the incidental sale of their catch.

Response: The Magnuson-Stevens Act defines recreational fishing as fishing for sport or pleasure, and commercial fishing as fishing where the harvested catch is intended to enter commerce through sale, barter, or trade. In accordance with these definitions, NMFS has approved the prohibition of the sale of dolphin and wahoo without the appropriate state and Federal commercial vessel permits. The intent of the action is to deter recreational fishermen from targeting excessive amounts of dolphin or wahoo with the primary purpose of selling the excess portion of their catch to offset fishing trip expenses. This, in turn, will reduce the potential for excessive harvest and localized depletions of the stocks.

Comment 4: The current licensing and permitting requirements in the for-hire sector are already excessive, and additional permitting requirements for for-hire vessels are unnecessary and burdensome. The sale of dolphin caught under the recreational bag limit by the for-hire fleet represents a substantial contribution to the market. Without these sales, there would be little dolphin available, and the price for these fish would increase substantially. The for-hire sector should be allowed to continue to sell fish caught under the recreational bag limits to supplement the income from chartering the vessel without the need for additional permits.

Response: The Council is addressing the sale of recreationally caught fish on a species-by-species basis. NMFS approved the Council's proposed action to prohibit the sale of wahoo caught under the recreational bag limit. However, recognizing the importance of the sale of dolphin to the for-hire industry, NMFS approved the Council's proposed action to restrict the sale of dolphin caught under the bag limit. For-hire vessels operating as a charter, and that possess appropriate state and Federal commercial permits, will be allowed to continue to sell dolphin caught under the bag limit. In combination with the reporting requirements associated with the commercial vessel permit, NMFS and the Council will have the opportunity to better monitor the catch and landings in the fishery, and thus be able to make more informed decisions regarding the management of the stocks.

Comment 5: The ability to obtain a commercial vessel permit that will allow for-hire and commercial vessels to sell their catch should not be restricted by the proposed qualifying criteria. Catches of dolphin and wahoo are incidental to the catch of many other species. Annual catches and landings of these species by individual fishermen or

vessels are well below the proposed 250–pound (lb) (113–kg) criterion. Commercial and for-hire vessels should be allowed to sell their incidental catches of dolphin and wahoo without the need for a commercial permit.

Response: The intent of this action is to establish a permit system that capped, but that does not reduce, the current participation and catch in the dolphin and wahoo fishery. Additionally, the proposed qualifying criteria were intended to capture the historical participants in the fishery.

NMFS conducted a Supplemental Initial Regulatory Flexibility Analysis (SIRFA) to complement the RFA findings in the FMP. The SIRFA analysis examined current participation of vessels and their landings during the calendar years 2000 through 2002; after the control date of May 21, 1999. The SIRFA concluded that many small-time operators who currently participate in the dolphin and wahoo commercial fishery would not qualify for a permit, but several hundred vessels that have no demonstrated current or historical participation in the dolphin and wahoo fishery would qualify for the permit. On a related note, participants that do not qualify for a commercial vessel permit can only obtain a permit through transfer. The FMP states that transfers may only occur through the sale of the vessel for which the permit is issued. The FMP does not provide any rationale as to why such a restrictive method of transfer is necessary.

The proposed qualifying criteria for a commercial vessel permit does not adequately address historical and current participation in the fishery, as required by section 303(b)(6) of the Magnuson-Stevens Act. Additionally, the criteria are inconsistent with the Council's intent of capping the fishery and capturing the historical participants. Therefore, NMFS approved the requirement for a Federal vessel permit for commercial and for-hire vessels, but disapproved the proposed restrictive qualifying criteria to obtain a commercial vessel permit. With the disapproval of the qualifying criteria, these will be open-access permits with no transfer provisions. In combination with the reporting requirements associated with the commercial vessel and for-hire permit, this action will provide NMFS and the Council with the appropriate mechanism to monitor the catch and landings in the fishery, and thus be able to make more informed decisions regarding the management of the stocks.

Comment 6: Trip limits on dolphin are counter-productive to the economics of commercial harvest of these

incidentally caught species. Short trips, resulting from restrictive trip limits, would increase fixed production costs to the vessel owner and fishermen. Restrictive trip limits for dolphin would lead to regulatory discards once the quantity of fish is met during a trip. Trips with high quantities of landings of dolphin occur during a brief 4- to 6-week period in the late spring and early summer in the South Atlantic region. Current commercial landings of dolphin are far less than the proposed 1.5 million-lb (680,400-kg) or 13-percent cap on the commercial fishery, thus trip limits are likely to have economic impacts on the commercial fishery.

Response: The SIRFA conducted by NMFS, which examined the trips and landings of dolphin and wahoo, concluded that the majority of trips would not exceed the proposed trip limit for dolphin. However, for trips that did exceed the proposed trip limits, dolphin accounted for 16 to 33 percent of the value of the landings.

Although the Council was justifiably concerned that the commercial sector might rapidly expand its effort and landings in the dolphin fishery, the implementation of the time and area closures for the highly migratory species (HMS) fishery in the South Atlantic region in 2001 appears to have curtailed that potential. The existing data do not show that the commercial dolphin fishery is expanding, nor is such an expansion likely to occur. Commercial landings of dolphin (from both the for-hire and commercial sectors) have declined from peak landings of 2.2 million lb (997,920 kg) in 1995 and 1.5 million lb (680,400 kg) in 1997 to less than 1.0 million lb (453,600 kg).

The intent of this action is to cap the current participation and effort in the fishery. The Council rejected alternatives for several actions because of their potential to reduce current participation and effort. By capping the commercial fishery at 1.5 million lb (680,400 kg) or 13 percent of the total landings, NMFS has determined that a trip limit on dolphin, which is projected to reduce commercial landings, is unnecessarily burdensome and restrictive on that segment of the fishery at this time. Therefore, NMFS disapproved the proposed trip limit on dolphin.

By contrast, establishing a commercial trip limit of 500 lb (227 kg) for wahoo is not expected to have a significant effect on the current catch and effort in the fishery. The FMP indicates that an Atlantic-wide 500-lb (227-kg) commercial trip limit on wahoo is anticipated to have less than a 3-percent impact on commercial landings. The SIRFA analysis supports this finding, noting that more than 99 percent of all trips land less than 500 lb (227 kg) per trip. NMFS has approved the commercial trip limit for wahoo.

Comment 7: The conclusion of non-significance under Executive Order (E.O.) 12866 in the SIRFA differs from that under the Regulatory Flexibility Act (RFA) and the determination of the FMP and should be explained further in the final rule.

Response: The criteria under which significance is determined is different under E.O. 12866 and the RFA. Therefore, the finding of significance under the RFA has no direct bearing on the determination under E.O. 12866. Although the FMP, as proposed, is

projected to significantly reduce profits for a substantial number of small entities, as per the RFA analysis, it has been determined to not be significant because of the criteria in Section 3(F) of E.O. 12866.

Changes From the Proposed Rule

In accordance with the partial approval of the FMP measures, the following proposed amendments have been removed from this final rule: (1) The revisions to the transfer provisions in § 622.4(g)(1); (2) the addition of § 622.4(s) regarding restrictive commercial vessel permit eligibility criteria, special application procedures, and transfer restrictions; (3) the revision to the prohibitions in § 622.7(b); and (4) the commercial trip limits in § 622.44(f)(1)(i)—that paragraph has been restructured accordingly.

Explanation of Effective Dates

As indicated in the proposed rule (68 FR 62267, November 3, 2003), this final rule establishes a delayed effective date, September 24, 2004, for the commercial vessel, charter vessel/headboat, and dealer permit requirements and a delayed effective date, November 23, 2004, for the operator permit requirement. In addition, there are a number of other regulatory provisions in this final rule that are dependent, directly or indirectly, on those permit requirements and, therefore, must share the respective, delayed effective dates.

The following table lists those regulatory provisions that have effective dates different than the standard effective date, June 28, 2004, that applies to all other provisions of this final rule.

Affected Paragraph	Management Measure	Effective Date
§ 622.4(a)(1)(i)(E)	Charter/Headboat permit requirement	September 24, 2004.
§ 622.4(a)(2)(xii)	Commercial permit requirement	September 24, 2004.
§ 622.4(a)(4)	Dealer permit requirement	September 24, 2004.
§ 622.4(a)(5)	Operator permit requirement	November 23, 2004.
§ 622.4(i)	Requirement to display operator permit	November 23, 2004.
§ 622.5(a)(1)(vi)	Commercial vessel reporting requirement	September 24, 2004.
§ 622.5(a)(2)(i)	Commercial vessel reporting deadline	September 24, 2004.
§ 622.5(b)(1)	Charter/Headboat reporting requirement	September 24, 2004.
§ 622.5(c)(8)	Dealer reporting requirement	September 24, 2004.
§ 622.39(f)	Bag and possession limits	September 24, 2004.
§ 622.41(l)(2)	Sea turtle protection measures for longliners	September 24, 2004.
§ 622.44(f)	Commercial trip limits	September 24, 2004.
§ 622.45(i)	Restrictions on sale or purchase	September 24, 2004.

Classification

This proposed rule has been determined to be not significant for purposes of Executive Order 12866.

NMFS prepared an FRFA, based on the Regulatory Impact Review. A summary of the FRFA follows.

The Magnuson-Stevens Act provides the statutory basis for the rule. The objectives of the final rule are to address local reduction in fish abundance, market disruption, inter-sector conflict and reduced social and economic benefits. The final rule will create

permit requirements and trip, bag and size limits; specify allowable gear; place restrictions on recreational sales; establish reporting requirements; and establish a framework regulatory procedure to allow for timely implementation of certain potential

future actions. The final rule will apply to all entities that operate in the dolphin and wahoo fisheries.

Approximately 1,700–3,300 vessels and/or Florida Saltwater Product Licensees (SPLs) were identified with logbook-reported or trip-ticket reported commercial landings of dolphin and wahoo on the U.S. Atlantic Coast during at least one year of the 1996–2002 period. On average, the annual gross revenue by these entities varied from \$4,000 to \$123,000. Of these vessels, the larger vessels participate in the Atlantic HMS longline fishery and landed approximately ten times as much dolphin and wahoo as the smaller Southeast coastal fisheries vessels and the vessels with Florida SPLs. The smaller vessels, however, were relatively more dependent on revenue from the harvest of dolphin and wahoo.

The final rule will establish four types of permits to allow continued operation in the dolphin or wahoo fishery: A dealer permit, a commercial vessel permit, a for-hire vessel (charter vessel or headboat) permit, and an operator permit for either commercial or for-hire vessels. A for-hire vessel could possess both a commercial vessel permit and a for-hire vessel permit. Qualification for a vessel permit simply requires application. The requirements for the various permits and reporting do not require professional skills, and, therefore, may be deemed not to be onerous on the affected participants.

All of the 1,700–3,300 entities with logbook-reported or trip-ticket reported commercial landings of dolphin and wahoo on the U.S. Atlantic Coast during at least one year of the 1996–2002 period may be expected to obtain a commercial vessel permit. In addition, approximately 6,800 for-hire vessels on the U.S. Atlantic Coast have no demonstrated record of sale of dolphin and wahoo. These vessels may choose to obtain a for-hire vessel permit to harvest and possess, but may choose to not obtain a commercial vessel permit to sell, dolphin and wahoo caught in the U.S. Atlantic EEZ. Among for-hire fishing vessels, average revenues for charter vessels are estimated at \$26,000–\$69,000, while average revenues for headboats are estimated at \$123,000–\$300,000.

There are two general classes of small business entities that will be directly affected by the final rule: commercial fishing vessels and for-hire (charter vessel or headboat) fishing vessels. The Small Business Administration defines a small business that engages in charter fishing as a firm that is independently owned and operated, is not dominant in its field of operation, and has annual

receipts up to \$6.0 million per year. The revenue benchmark for a small business that engages in commercial fishing is a firm with receipts up to \$3.5 million. Based on the revenue profiles provided above, all commercial and for-hire entities operating in the dolphin and wahoo fisheries are considered small entities.

The requirements for the dealer, commercial-vessel, for-hire vessel, and operator permits are not expected to restrict qualification for these permits. Costs will be limited to the permit fee, which is not onerous and is not expected to substantially affect business profits.

The wahoo commercial trip limit is expected to reduce gross revenues by 6–8 percent for 10 vessels. This dollar loss in annual gross revenues, \$500–\$1,400 per vessel, translates directly into a loss in profits assuming no change in prices, trip costs and fishing effort.

The allowable gear restriction is expected to reduce fishery profits for an unknown number of vessels by \$11,000 a year in total for all vessels combined. The \$11,000 estimate reflects the value of dolphin and wahoo landed by gear types that will no longer be allowed under the final rule. Since available data do not allow the identification of the number of vessels this would impact, it is not possible to determine the average annual revenues of these vessels.

The prohibition on the sale of recreationally caught dolphin and wahoo, except for for-hire vessels that possess the necessary state and Federal commercial permits, is not expected to adversely impact gross revenues or profits of small entities. Available data suggest that sales by for-hire vessels are from vessels that are additionally legally permitted to operate as commercial vessels. Further, there is no evidence to indicate that angler demand for for-hire services will decline as a result of recreational sales restrictions.

The framework procedure is not expected to have any direct impacts on participants or profits since it merely establishes a structure for possible future action. Additionally, specifying the fishing year will have no impact on fishing behavior and, therefore, have no impact on business profits.

The impact of the recreational dolphin and wahoo bag limits, and recreational dolphin minimum size limits on for-hire profits cannot be determined. Although the approved bag and size limits are expected to restrict the harvest behavior of some recreational anglers, there are insufficient data to establish the impact of these measures on angler demand for

for-hire services and, hence, revenues or profits.

The dolphin minimum size limit is expected to reduce ex-vessel revenues of commercial fishing operations that operate off Georgia and Florida by approximately 3 percent.

The prohibition of surface and pelagic longline gear for dolphin and wahoo during time and area closures in the South Atlantic is not expected to result in any reduction in profits for current participants. It is not expected that any vessels would attempt to operate in this manner since they would have to give up their more valuable HMS permit in order to do so. Available data indicate that such vessels cannot profitably operate exclusively harvesting dolphin and wahoo.

A number of public comments received addressed the rule's economic impact. Those comments were addressed elsewhere in this document (see comments 5, 6, and 7). No changes were made in the final rule as a result of such comments.

Following is a discussion of alternatives that were not adopted in the final rule.

Rejected alternatives regarding the permit requirement would have: (1) imposed permit-qualification criteria, or (2) not required vessel permits (no-action alternative). Under the alternative that would have required permit-qualification criteria, losses for the 387–1,998 entities that would not have been expected to meet the criteria for a commercial vessel permit are estimated at 4–32 percent of annual gross revenue on average. The dollar loss in gross revenue translates into loss in vessel profit, assuming no change in prices, trip costs, and fishing effort. Individually, these non-qualifying entities had annual gross revenues from fishing that ranged from less than \$10 to \$70,000 or more, and annual landings of dolphin and wahoo that ranged from less than 10 lb (4.5 kg) to 4,000 lb (1,814 kg) or more. It is estimated that 58–476 out of these 387–1,998 entities could have been driven out of business, assuming a 50 percent-loss-in-gross criterion.

Approximately 1,300 vessels would have been expected to meet the commercial vessel dolphin-wahoo permit qualification criteria. This total includes vessels that exclusively operate as commercial vessels as well as those for-hire vessels that meet the commercial vessel permit requirements. All of these 1,300 vessels have documented Atlantic Coast landings of dolphin and wahoo, and most would have qualified on the basis of already having Federal permits for commercial

fishing in the EEZ for snapper-grouper, king mackerel, or swordfish, as specified in the proposed FMP. An owner would also have qualified for a commercial vessel permit if he/she derived at least 25 percent of his/her earned income, or at least \$10,000, from commercial or for-hire fishing during one of the 3 calendar years 1996, 1997, or 1998, and the owner can document that he/she owned a vessel that landed and sold at least 250 lb (113 kg) of dolphin and/or wahoo harvested from the Atlantic during one of the 3 calendar years 1996, 1997, 1998, or during the period January 1, 1999, through May 21, 1999.

Among the estimated 1,300 vessels discussed above, only a few would have been expected to qualify for a commercial permit on the basis of meeting the 250-lb (113-kg) and \$10,000 criteria. The number of vessels that would have qualified under the 250-lb (113-kg) and 25-percent earned income from fishing criteria cannot be determined since information on total earned income is unavailable.

As many as 900 additional vessels might have met the qualification criteria on the basis of having Federal permits for commercial fishing in the EEZ for snapper-grouper, king mackerel, or swordfish. However, these vessels do not have documented Atlantic Coast landings of dolphin or wahoo, and, therefore, there may have been no incentive to obtain a permit, although applications might have been submitted for speculative purposes. The number of vessels with snapper-grouper, king mackerel, or swordfish permits has declined over time because each of these three permits is either under a moratorium or limited access program, and no new vessels can enter the fisheries, except via transfer and purchase of existing permits.

The rejected alternatives respecting the sale of recreationally-caught fish include: (1) unregulated sale (no-action alternative), (2) a 3–5 year phase-out of sale by for-hire vessels with necessary commercial permits, and (3) no sale, whereas the approved alternative would allow sale by for-hire vessels with the necessary commercial permits. The final rule would have less economic impact on small entities than the 3–5 year phase-out and no-sale alternatives. Compared with the no-action alternative, the final rule is not expected to have a significant economic impact on for-hire vessels. Available data suggest that sales by for-hire vessels are from legally permitted commercial vessels. Further, there is no evidence to indicate that angler demand for for-hire

services will decline as a result of the sales restrictions.

Rejected alternatives to implementing a commercial trip limit for dolphin would: (1) establish a 1,000/3,000-lb (454/1,361-kg) trip limit or (2) specify a trip limit of from 1,000 to 5,000 lb (454 to 2,268 kg). Both alternatives would be expected to cause direct negative economic impacts. A 1,000/3,000-lb (454/1,361-kg) trip limit would be expected to result in an annual loss of \$96,000. A 1,000-lb (454-kg) trip limit would result in an expected loss of \$157,000 per year, while 3,000-lb (1,361-kg) and 5,000-lb (2,268-kg) trip limits would result in losses of \$50,000 and \$22,000 per year, respectively. Each alternative is, therefore, more restrictive than the final rule.

Only a status quo measure (no-action alternative) was considered as an alternative to the commercial wahoo trip limit. Since maintaining the status quo would impose no new restriction, the adverse impact of the approved measure would be avoided. However, annual landings of wahoo have been close to the estimated maximum sustainable yield and NMFS determined that the approved alternative would best meet the objectives of the FMP.

Rejected alternatives to the dolphin bag and/or boat limits would provide: (1) no bag or boat limit (no-action alternative), (2) a boat limit of 18–60 fish, (3) a daily bag limit of 5–10 fish per person, excluding captain and crew on for-hire vessels, or (4) a daily bag limit of 10 fish per person or 60 fish per boat, whichever is less (with the 60 fish boat limit not applying north of 39° N. latitude (Delaware Bay, Delaware)). The final rule will establish a bag limit of 10 fish per person per day, or 60 fish per vessel, whichever is less, with the vessel limit not applying to headboats. For wahoo, the rejected alternatives would provide: (1) no bag limit (no action alternative), or (2) a bag limit of 2 fish per person per day, excluding captain and crew, whereas the approved alternative will establish a bag limit of 2 fish per person per day.

Rejected alternatives to the minimum size (fork length) limit for dolphin would provide: (1) no minimum size (no-action alternative), or (2) an 18–24 inch (46–61 cm) minimum size, whereas the approved alternative would establish a 20-inch (51-cm) minimum size for Florida and Georgia, and no minimum size limit farther north.

The impact of other alternatives to establish recreational dolphin and wahoo bag limits, and dolphin minimum size limits on for-hire profits cannot be determined. Although the

approved bag and size limits are expected to restrict the harvest behavior of some recreational anglers, there are insufficient data to establish the impact of these measures on angler demand for for-hire services and, hence, revenues or profits. While the approved alternative for minimum size limits for dolphin is expected to reduce ex-vessel revenue in Georgia and Florida for commercial vessels when compared with the no-action option, the approved alternative covers just the EEZ off Georgia and Florida, whereas the rejected alternatives would apply to the entire Atlantic EEZ. The rejected alternative would cover a larger area than the approved action and, therefore, would be more restrictive. Further, although an 18- or 19-inch (46- or 48-cm) minimum size limit would be less restrictive than the approved 20-inch (51-cm) minimum size, the rejected alternative would also allow for a minimum size limit that is more restrictive than the approved action, i.e., limits greater than 20 inches (51 cm). NMFS determined that the respective approved alternatives for the bag and size limits would best meet the objectives of the FMP.

Copies of the FRFA are available upon request (see **ADDRESSES**).

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a currently valid OMB control number.

This final rule contains collection-of-information requirements subject to review and approval by OMB under the PRA. These requirements have been approved by OMB under OMB control numbers 0648–0487 for the permit-related requirements, 0648–0013 for the dealer reporting requirements, and 0648–0371 for the vessel reporting requirements. The estimated public reporting burdens are as follows: 20 minutes for a charter vessel/headboat permit application or commercial vessel permit application; 60 minutes for commercial vessel records including a listing of landings; 5 minutes for a request to add the commercial vessel permit or charter vessel permit to a vessel already holding other vessel permits; 5 minutes for a dealer permit application; 60 minutes for an operator permit application; 12 minutes for a vessel catch and effort report; 2 minutes per form to prepare a no-fishing report; and 15 minutes for a dealer monthly report of dolphin and wahoo receipts and prices.

The requirement for a commercial vessel or charter vessel/headboat permit automatically makes the permit holder subject to a requirement that the vessel display its official number. This requirement has been approved by OMB under OMB control number 0648-0358. The reporting burden for the display of a vessel's official number is estimated at 45 minutes per response.

The estimates of public reporting burdens for these collections of information include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding these or any other aspects of the collections of information to NMFS and OMB (see ADDRESSES).

List of Subjects

50 CFR Part 600

Administrative practice and procedure, Confidential business information, Fisheries, Fishing, Fishing vessels, Foreign relations, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Statistics.

50 CFR Part 622

Fisheries, Fishing, Puerto Rico, Reporting and recordkeeping requirements, Virgin Islands.

Dated: May 20, 2004.

John Oliver,

Deputy Assistant Administrator for Operations, National Marine Fisheries Service.

■ For the reasons set out in the preamble, 50 CFR parts 600 and 622 are amended as follows:

PART 600—MAGNUSON-STEVENS ACT PROVISIONS

■ 1. The authority citation for part 600 continues to read as follows:

Authority: 5 U.S.C. 561 and 16 U.S.C. 1801 *et seq.*

■ 2. In § 600.10, add the definitions “Automatic reel” and “pelagic longline” in alphabetical order to read as follows:

§ 600.10 Definitions.

* * * * *

Automatic reel means a reel that remains attached to a vessel when in use from which a line and attached hook(s) are deployed. The line is payed out from and retrieved on the reel electrically or hydraulically.

* * * * *

Pelagic longline means a longline that is suspended by floats in the water column and that is not fixed to or in contact with the ocean bottom.

* * * * *

■ 3. In § 600.725, in paragraph (v) table, under heading “I. New England Fishery Management Council (NEFMC),” add entry 24; under heading “II. Mid-Atlantic Fishery Management Council (MAFMC),” add entry 28; and under heading “III. South Atlantic Fishery Management Council,” add entry 24; new entries are added in numerical order to read as follows:

§ 600.725 General prohibitions.

* * * * *

(v) * * *

Fishery	Authorized gear types
I. New England Fishery Management Council (NEFMC)	
24. Dolphin/wahoo fishery (FMP managed by SAFMC)	Automatic reel, bandit gear, handline, pelagic longline, rod and reel, spear (including powerheads).
II. Mid-Atlantic Fishery Management Council (MAFMC)	
28. Dolphin/wahoo fishery (FMP managed by SAFMC)	Automatic reel, bandit gear, handline, pelagic longline, rod and reel, spear (including powerheads).
III. South Atlantic Fishery Management Council (SAFMC)	
24. Dolphin/wahoo fishery (FMP)	Automatic reel, bandit gear, handline, pelagic longline, rod and reel, spear (including powerheads).

PART 622—FISHERIES OF THE CARIBBEAN, GULF, AND SOUTH ATLANTIC

■ 1. The authority citation for part 622 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

■ 2. In § 622.1, the first sentence of paragraph (b) is revised, and in Table 1, the entry “FMP for the Dolphin and Wahoo Fishery off the Atlantic States” is added in alphabetical order to read as follows:

§ 622.1 Purpose and scope.

* * * * *

(b) This part governs conservation and management of species included in the FMPs in or from the Caribbean, Gulf, Mid-Atlantic, South Atlantic, or Atlantic EEZ, as indicated in Table 1 of this section. * * *

TABLE 1—FMPs IMPLEMENTED UNDER PART 622

FMP title	Responsible fishery management council(s)	Geographical area
FMP for the Dolphin and Wahoo Fishery off the Atlantic States	SAFMC	Atlantic

■ 3. In § 622.2, in the definition of “Coastal migratory pelagic fish,” paragraph (4) is revised; the definition of “Dealer” is revised; and definitions of “Atlantic,” “Dolphin,” “North Atlantic,” “Pelagic longline,” and “Wahoo” are added in alphabetical order to read as follows:

§ 622.2 Definitions and acronyms.

* * * * *

Atlantic means the North Atlantic, Mid-Atlantic, and South Atlantic.

* * * * *

Coastal migratory pelagic fish * * * (4) Dolphin, *Coryphaena hippurus* (Gulf of Mexico only).

* * * * *

Dealer, in addition to the definition specified in § 600.10 of this chapter, means the person who first receives rock shrimp harvested from the EEZ or dolphin or wahoo harvested from the Atlantic EEZ upon transfer ashore.

Dolphin means the species *Coryphaena equiselis* or *C. hippurus*, or a part thereof, in the Atlantic. (See the definition of *Coastal migratory pelagic fish* for dolphin in the Gulf of Mexico.)

* * * * *

North Atlantic means the Atlantic Ocean off the Atlantic coastal states from the boundary between the United States and Canada to the boundary between the New England Fishery Management Council and the MAFMC, as specified in § 600.105(a) of this chapter.

* * * * *

Pelagic longline means a longline that is suspended by floats in the water column and that is not fixed to or in contact with the ocean bottom.

* * * * *

Wahoo means the species *Acanthocybium solandri*, or a part thereof, in the Atlantic.

* * * * *

■ 4. In § 622.4, the first sentence of paragraph (a)(4) is revised, and

paragraphs (a)(1)(i)(E), and (a)(2)(xii) are added; and paragraph (a)(5), and the last sentence of paragraph (i) are revised to read as follows:

§ 622.4 Permits and fees.

- (a) * * *
(1) * * *
(i) * * *

(E) Atlantic dolphin and wahoo. (See paragraph (a)(5) of this section for the requirements for operator permits in the dolphin and wahoo fishery.)

* * * * *

- (2) * * *

(xii) *Atlantic dolphin and wahoo.* (A) For a person aboard a vessel to be eligible for exemption from the bag and possession limits for dolphin or wahoo in or from the Atlantic EEZ or to sell such dolphin or wahoo, a commercial vessel permit for Atlantic dolphin and wahoo must be issued to the vessel and must be on board, except as provided in paragraph (a)(2)(xii)(B) of this section. (See paragraph (a)(5) of this section for the requirements for operator permits in the Atlantic dolphin and wahoo fishery).

(B) The provisions of paragraph (a)(2)(xii)(A) of this section notwithstanding, a fishing vessel, except a vessel operating as a charter vessel or headboat, that does not have a commercial vessel permit for Atlantic dolphin and wahoo but has a Federal commercial vessel permit in any other fishery, is exempt from the bag and possession limits for dolphin and wahoo and may sell dolphin and wahoo, subject to the trip and geographical limits specified in § 622.44(f)(2). (A charter vessel/headboat permit is not a commercial vessel permit.)

* * * * *

(4) *Dealer permits.* For a dealer to receive Gulf reef fish, golden crab harvested from the South Atlantic EEZ, South Atlantic snapper-grouper, rock shrimp harvested from the South Atlantic EEZ, dolphin or wahoo harvested from the Atlantic EEZ, or wreckfish, a dealer permit for Gulf reef fish, golden crab, South Atlantic snapper-grouper, rock shrimp, Atlantic dolphin and wahoo, or wreckfish, respectively, must be issued to the dealer. * * *

(5) *Operator permits.* (i) The following persons are required to have operator permits:

(A) An operator of a vessel that has or is required to have a valid permit for South Atlantic rock shrimp issued under this section.

(B) An operator of a vessel that has or is required to have a charter vessel/

headboat or commercial permit for Atlantic dolphin and wahoo issued under this section.

(ii) A person required to have an operator permit under paragraph (a)(5)(i) of this section must carry on board such permit and one other form of personal identification that includes a picture (driver's license, passport, etc.).

(iii) An owner of a vessel that is required to have a permitted operator under paragraph (a)(5)(i) of this section must ensure that at least one person with a valid operator permit is aboard while the vessel is at sea or offloading.

(iv) An owner of a vessel that is required to have a permitted operator under paragraph (a)(5)(i) of this section and the operator of such vessel are responsible for ensuring that a person whose operator permit is suspended, revoked, or modified pursuant to subpart D of 15 CFR part 904 is not aboard that vessel.

* * * * *

(i) * * * An operator of a vessel in a fishery in which an operator permit is required must present his/her operator permit and one other form of personal identification that includes a picture (driver's license, passport, etc.) for inspection upon the request of an authorized officer.

* * * * *

■ 5. In § 622.5, paragraphs (a)(1)(vi) and (c)(8) are added, and the first sentence of paragraph (a)(2)(i) and paragraph (b)(1) are revised to read as follows:

§ 622.5 Recordkeeping and reporting.

* * * * *

- (a) * * *

- (1) * * *

(vi) *Atlantic dolphin and wahoo.* The owner or operator of a vessel for which a commercial permit for Atlantic dolphin and wahoo has been issued, as required under § 622.4 (a)(2)(xii), or whose vessel fishes for or lands Atlantic dolphin or wahoo in or from state waters adjoining the Atlantic EEZ, who is selected to report by the SRD must maintain a fishing record on a form available from the SRD and must submit such record as specified in paragraph (a)(2) of this section.

(2) *Reporting deadlines.* (i) Completed fishing records required by paragraphs (a)(1)(i), (ii), (iv), and (vi) of this section must be submitted to the SRD postmarked not later than 7 days after the end of each fishing trip. * * *

* * * * *

(b) *Charter vessel/headboat owners and operators—(1) Coastal migratory pelagic fish, reef fish, snapper-grouper, and Atlantic dolphin and wahoo.* The

owner or operator of a vessel for which a charter vessel/headboat permit for Gulf coastal migratory pelagic fish, South Atlantic coastal migratory pelagic fish, Gulf reef fish, South Atlantic snapper-grouper, or Atlantic dolphin and wahoo has been issued, as required under § 622.4(a)(1), or whose vessel fishes for or lands such coastal migratory pelagic fish, reef fish, snapper-grouper, or Atlantic dolphin or wahoo in or from state waters adjoining the applicable Gulf, South Atlantic, or Atlantic EEZ, who is selected to report by the SRD must maintain a fishing record for each trip, or a portion of such trips as specified by the SRD, on forms provided by the SRD and must submit such record as specified in paragraph (b)(2) of this section.

* * * * *

- (c) * * *

(8) *Atlantic dolphin and wahoo.* (i) A dealer who has been issued a permit for Atlantic dolphin and wahoo, as required under § 622.4(a)(4), and who is selected by the SRD must provide information on receipts of Atlantic dolphin and wahoo and prices paid on forms available from the SRD. The required information must be submitted to the SRD at monthly intervals postmarked not later than 5 days after the end of each month. Reporting frequencies and reporting deadlines may be modified upon notification by the SRD.

(ii) For the purposes of paragraph (c)(8)(i) of this section, in the states from Maine through Virginia, or in the waters off those states, "SRD" means the Science and Research Director, Northeast Fisheries Science Center, NMFS, (see Table 1 of § 600.502 of this chapter), or a designee.

(iii) On demand, a dealer who has been issued a dealer permit for Atlantic dolphin and wahoo, as required under § 622.4(a)(4), must make available to an authorized officer all records of offloadings, purchases, or sales of dolphin and wahoo.

* * * * *

■ 6. In § 622.35, the section heading is revised and paragraph (h) is added to read as follows:

§ 622.35 Atlantic EEZ seasonal and/or area closures.

* * * * *

(h) *Dolphin/wahoo closed areas.* (1) If pelagic longline gear is on board a vessel, a person aboard such vessel may not fish for or retain a dolphin or wahoo—

(i) In the Northeastern United States closed area from June 1 through June 30 each year. The Northeastern United States closed area is that portion of the

EEZ between 40° N. lat. and 39° N. lat. from 68° W. long. to 74° W. long.

(ii) In the Charleston Bump closed area from February 1 through April 30 each year. The Charleston Bump closed area is that portion of the EEZ off North Carolina, South Carolina, and Georgia between 34° N. lat. and 31° N. lat. and west of 76° W. long.

(iii) In the East Florida Coast closed area year round. The East Florida Coast closed area is that portion of the EEZ off Georgia and the east coast of Florida from the inner boundary of the EEZ at 31° N. lat.; thence due east to 78° W. long.; thence by a rhumb line to 28°17' N. lat., 79°12' W. long.; thence proceeding in a southerly direction along the outer boundary of the EEZ to 24° N. lat.; thence due west to 24° N. lat., 81°47' W. long.; thence due north to the innermost boundary of the EEZ at 81°47' W. long.

(2) A vessel is considered to have pelagic longline gear on board when a power-operated longline hauler, a mainline, floats capable of supporting the mainline, and gangions with hooks are on board. Removal of any one of these elements constitutes removal of pelagic longline gear.

(3) If a vessel is in a closed area during a time specified in paragraph (h)(1) of this section with pelagic longline gear on board, it is a rebuttable presumption that fish on board such vessel were taken with pelagic longline gear in the closed area.

■ 7. In § 622.37, paragraph (h) is added to read as follows:

§ 622.37 Size limits.

* * * * *

(h) *Dolphin in the Atlantic off Florida and off Georgia*—20 inches (50.8 cm), fork length.

■ 8. In § 622.38, paragraph (a) is revised to read as follows:

§ 622.38 Landing fish intact.

* * * * *

(a) The following must be maintained with head and fins intact: Cobia, king mackerel, and Spanish mackerel in or from the Gulf, Mid-Atlantic, or South Atlantic EEZ, except as specified for king mackerel in paragraph (g) of this section; dolphin and wahoo in or from the Atlantic EEZ; South Atlantic snapper-grouper in or from the South Atlantic EEZ, except as specified in paragraph (h) of this section; yellowtail snapper in or from the Caribbean EEZ; and finfish in or from the Gulf EEZ, except as specified in paragraphs (c) and (d) of this section. Such fish may be eviscerated, gilled, and scaled, but must

otherwise be maintained in a whole condition.

* * * * *

■ 9. In § 622.39, paragraph (f) is added to read as follows:

§ 622.39 Bag and possession limits.

* * * * *

(f) *Atlantic dolphin and wahoo*. Bag and possession limits are as follows:

(1) Dolphin—10, not to exceed 60 per vessel, whichever is less, except, on board a headboat, 10 per paying passenger.

(2) Wahoo—2.

■ 10. In § 622.41, paragraph (c)(1)(v) is revised and paragraph (l) is added to read as follows:

§ 622.41 Species specific limitations.

* * * * *

(c) * * *

(1) * * *

(v) Cobia in the Mid-Atlantic and South Atlantic EEZ and little tunny in the South Atlantic EEZ south of 34°37.3' N. lat.—automatic reel, bandit gear, handline, rod and reel, and pelagic longline.

* * * * *

(l) *Atlantic dolphin and wahoo*—(1) *Authorized gear*. The following are the only authorized gear types in the fisheries for dolphin and wahoo in the Atlantic EEZ: Automatic reel, bandit gear, handline, pelagic longline, rod and reel, and spearfishing gear (including powerheads). A person aboard a vessel in the Atlantic EEZ that has on board gear types other than authorized gear types may not possess a dolphin or wahoo.

(2) *Sea turtle protection measures applicable to pelagic longliners*. The owner or operator of a vessel for which a commercial permit for Atlantic dolphin and wahoo has been issued, as required under § 622.4(a)(2)(xii), and that has on board a pelagic longline must post inside the wheelhouse the sea turtle handling and release guidelines provided by NMFS. Such owner or operator must also comply with the sea turtle bycatch mitigation measures, including gear requirements and sea turtle handling requirements, as specified in § 635.21(c)(5)(i) and (ii) of this chapter, respectively. For the purpose of this paragraph, a vessel is considered to have pelagic longline gear on board when a power-operated longline hauler, a mainline, floats capable of supporting the mainline, and leaders (gangions) with hooks are on board. Removal of any one of these elements constitutes removal of pelagic longline gear.

■ 11. In § 622.44, paragraph (f) is added to read as follows:

§ 622.44 Commercial trip limits.

* * * * *

(f) *Atlantic dolphin and wahoo*. (1) The trip limit for wahoo in or from the Atlantic EEZ is 500 lb (227 kg). This trip limit applies to a vessel that has a Federal commercial permit for Atlantic dolphin and wahoo, provided that the vessel is not operating as a charter vessel or headboat.

(2) The trip limit for a vessel that does not have a Federal commercial vessel permit for Atlantic dolphin and wahoo but has a Federal commercial vessel permit in any other fishery is 200 lb (91 kg) of dolphin and wahoo, combined, provided that all fishing on and landings from that trip are north of 39° N. lat. (A charter vessel/headboat permit is not a commercial vessel permit.)

■ 12. In § 622.45, paragraph (i) is added to read as follows:

§ 622.45 Restrictions on sale/purchase.

* * * * *

(i) *Atlantic dolphin and wahoo*. (1) A person may sell dolphin or wahoo harvested in the Atlantic EEZ only if it is harvested by a vessel that has a commercial permit for Atlantic dolphin and wahoo, as required under § 622.4(a)(2)(xii)(A), or by a vessel authorized a 200-lb (91-kg) trip limit for dolphin or wahoo, as specified in § 622.44(f)(2), and only to a dealer who has a permit for Atlantic dolphin or wahoo, as required under § 622.4(a)(4).

(2) In addition to the provisions of paragraph (i)(1) of this section, a person may not sell dolphin in excess of the bag limit or any wahoo harvested in the Atlantic EEZ by a vessel while it was operating as a charter vessel or headboat.

(3) Dolphin or wahoo harvested in the Atlantic EEZ may be purchased only by a dealer who has a permit for Atlantic dolphin and wahoo and only from a vessel authorized to sell dolphin or wahoo under paragraph (i)(1) or (i)(2) of this section.

■ 13. In § 622.48, paragraph (m) is added to read as follows:

§ 622.48 Adjustment of management measures.

* * * * *

(m) *Atlantic dolphin and wahoo*. Biomass levels, age-structured analyses, MSY, OY, ABC, TAC, trip limits, minimum sizes, gear regulations and restrictions, permit requirements, seasonal or area closures, sub-zones and their management measures, overfishing definitions and other status determination criteria, time frame for recovery of Atlantic dolphin or wahoo if overfished, fishing year (adjustment not to exceed 2 months), authority for

the RA to close a fishery when a quota is reached or is projected to be reached

or reopen a fishery when additional quota becomes available, definitions of

essential fish habitat, and essential fish habitat HAPCs or Coral HAPCs.

BILLING CODE 3510-22-S

Proposed Rules

Federal Register

Vol. 69, No. 103

Thursday, May 27, 2004

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 2003–NM–172–AD]

RIN 2120–AA64

Airworthiness Directives; BAE Systems (Operations) Limited Model BAe 146 and Avro 146–RJ Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to certain BAE Systems (Operations) Limited Model BAe 146 and Avro 146–RJ series airplanes. This proposal would require replacing the existing bellows inlet duct of the auxiliary power unit (APU) system with a new, improved rectangular metallic bellows inlet duct. This action is necessary to prevent air from the APU bay being ingested into the flight deck and passenger cabin resulting in poor air quality and, if the air is contaminated, possible incapacitation of the flightcrew and passengers. This action is intended to address the identified unsafe condition.

DATES: Comments must be received by June 28, 2004.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM–114, Attention: Rules Docket No. 2003–NM–172–AD, 1601 Lind Avenue, SW., Renton, Washington 98055–4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays. Comments may be submitted via fax to (425) 227–1232. Comments may also be sent via the Internet using the following address: 9-anm-nprmcomment@faa.gov. Comments sent via fax or the Internet must contain

“Docket No. 2003–NM–172–AD” in the subject line and need not be submitted in triplicate. Comments sent via the Internet as attached electronic files must be formatted in Microsoft Word 97 or 2000 or ASCII text.

The service information referenced in the proposed rule may be obtained from British Aerospace Regional Aircraft American Support, 13850 Mclearn Road, Herndon, Virginia 20171. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington.

FOR FURTHER INFORMATION CONTACT:

Todd Thompson, Aerospace Engineer, International Branch, ANM–116, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055–4056; telephone (425) 227–1175; fax (425) 227–1149.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this action may be changed in light of the comments received.

Submit comments using the following format:

- Organize comments issue-by-issue. For example, discuss a request to change the compliance time and a request to change the service bulletin reference as two separate issues.
- For each issue, state what specific change to the proposed AD is being requested.
- Include justification (*e.g.*, reasons or data) for each request.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this

proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this action must submit a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket Number 2003–NM–172–AD.” The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM–114, Attention: Rules Docket No. 2003–NM–172–AD, 1601 Lind Avenue, SW., Renton, Washington 98055–4056.

Discussion

The Civil Aviation Authority (CAA), which is the airworthiness authority for the United Kingdom, notified the FAA that an unsafe condition may exist on certain BAE Systems (Operations) Limited Model BAe 146 and Avro 146–RJ series airplanes. The CAA advises that the existing auxiliary power unit (APU) inlet duct and sealing configuration has been found to be unreliable in service. This condition, if not corrected, could result in air from the APU bay being ingested into the flight deck and passenger cabin resulting in poor air quality and, if the air is contaminated, possible incapacitation of the flightcrew and passengers.

Explanation of Relevant Service Information

BAE Systems (Operations) Limited has issued Modification Service Bulletin SB.49–036–36019E, Revision 4, dated April 30, 2003. The service bulletin describes procedures for replacing the existing rubber bellows inlet duct and sealing configuration of the APU system, with a new, improved rectangular metallic bellows inlet duct, which incorporates an improved seal and clamp configuration. The procedures include instructions for degreasing and priming the mating surfaces of the new duct. Accomplishment of the actions specified in the service bulletin is intended to adequately address the identified unsafe condition. The CAA classified this service bulletin as mandatory and issued British airworthiness directive 007–04–2003 to

ensure the continued airworthiness of these airplanes in the United Kingdom.

FAA's Conclusions

These airplane models are manufactured in the United Kingdom and are type certificated for operation in the United States under the provisions of section 21.29 of the Federal Aviation Regulations (14 CFR 21.29) and the applicable bilateral airworthiness agreement. Pursuant to this bilateral airworthiness agreement, the CAA has kept the FAA informed of the situation described above. The FAA has examined the findings of the CAA, reviewed all available information, and determined that AD action is necessary for products of this type design that are certificated for operation in the United States.

Explanation of Requirements of Proposed AD

Since an unsafe condition has been identified that is likely to exist or develop on other airplanes of the same type design registered in the United States, the proposed AD would require accomplishment of the actions specified in the service bulletin described previously, except as discussed below.

Difference Between the Service Information and Proposed AD

The service bulletin specifies to submit certain information to the manufacturer. This AD does not include such a requirement.

Clarification of Compliance Time

Operators should note that the British airworthiness directive and the service bulletin both specify to replace the APU bellows inlet duct at the next scheduled APU removal or the next "C-check," whichever is first. Because maintenance and "C-check" schedules vary among operators, this proposed AD would require accomplishment of the replacement within 24 months or 4,000 flight cycles after the effective date of the AD, whichever is first. We find that compliance within 24 months or 4,000 flight cycles after the effective date of this AD is appropriate for affected airplanes to continue to operate without compromising safety.

Cost Impact

We estimate that 54 airplanes of U.S. registry would be affected by this proposed AD, that it would take approximately 2 work hours per airplane to accomplish the proposed replacement, and that the average labor rate is \$65 per work hour. Required parts would cost approximately \$4,500 per airplane. Based on these figures, the

cost impact of the proposed AD on U.S. operators is estimated to be \$250,020, or \$4,630 per airplane.

The cost impact figure discussed above is based on assumptions that no operator has yet accomplished any of the proposed requirements of this AD action, and that no operator would accomplish those actions in the future if this AD were not adopted. The cost impact figures discussed in AD rulemaking actions represent only the time necessary to perform the specific actions actually required by the AD. These figures typically do not include incidental costs, such as the time required to gain access and close up, planning time, or time necessitated by other administrative actions.

Regulatory Impact

The regulations proposed herein would not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this proposal would not have federalism implications under Executive Order 13132.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption

ADDRESSES.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

BAE Systems (Operations) Limited (Formerly British Aerospace Regional Aircraft): Docket 2003–NM–172–AD.

Applicability: Model 146 series airplanes with Modification HCM30027A, HCM36019A, or HCM30373A installed; and Model Avro 146–RJ series airplanes with Modification HCM36019A or HCM30373A installed; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent air from the auxiliary power unit (APU) bay being ingested into the flight deck and passenger cabin resulting in poor air quality and, if the air is contaminated, possible incapacitation of the flightcrew and passengers, accomplish the following:

Replacement of Rubber Bellows Inlet Duct

(a) Within 24 months or 4,000 flight cycles after the effective date of this AD, whichever is first: Replace the existing rubber bellows inlet duct and sealing configuration of the APU system, with a new, improved rectangular metallic bellows inlet duct, which incorporates an improved seal and clamp configuration, per the Accomplishment Instructions of BAE Systems (Operations) Limited Modification Service Bulletin SB.49–036–36019E, Revision 4, dated April 30, 2003. Although the service bulletin specifies to submit certain information to the manufacturer, this AD does not include such a requirement.

Alternative Methods of Compliance

(b) In accordance with 14 CFR 39.19, the Manager, International Branch, ANM–116, Transport Airplane Directorate, FAA, is authorized to approve alternative methods of compliance for this AD.

Note 1: The subject of this AD is addressed in British airworthiness directive 007–04–2003.

Issued in Renton, Washington, on May 18, 2004.

Kevin M. Mullin,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 2003–NM–69–AD]

RIN 2120–AA64

Airworthiness Directives; McDonnell Douglas Model MD–11 and –11F Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the superseding of an existing airworthiness directive (AD), applicable to certain McDonnell Douglas Model MD-11 and MD-11F airplanes, that currently requires replacing terminal strips and supports above the main cabin area and avionics compartment with new strips and supports, as applicable. That AD also requires performing an inspection to detect arcing damage of the surrounding structure of the terminal strips and electrical cables in the avionics compartment, and repairing or replacing any damaged component with a new component. This action would expand the applicability of the existing AD to include additional airplanes. For certain airplanes, this action also would require replacement of the terminal board for the applicable item numbers in the aft passenger compartment. The actions specified by the proposed AD are intended to prevent electrical arcing caused by power feeder cable terminal lugs grounding against terminal strip support brackets, which could result in smoke and fire in the main cabin or avionics compartment. This action is intended to address the identified unsafe condition.

DATES: Comments must be received by July 12, 2004.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-114, Attention: Rules Docket No. 2003-NM-69-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays. Comments may be submitted via fax to (425) 227-1232. Comments may also be sent via the Internet using the following address: *9-anm-nprmcomment@faa.gov*. Comments sent via fax or the Internet must contain "Docket No. 2003-NM-69-AD" in the subject line and need not be submitted in triplicate. Comments sent via the Internet as attached electronic files must be formatted in Microsoft Word 97 or 2000 or ASCII text.

The service information referenced in the proposed rule may be obtained from Boeing Commercial Airplanes, Long Beach Division, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Data and Service Management, Dept. C1-L5A (D800-0024). This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at

the FAA, Los Angeles Aircraft Certification Office, 3960 Paramount Boulevard, Lakewood, California.

FOR FURTHER INFORMATION CONTACT: Brett Portwood, Aerospace Engineer, Systems and Equipment Branch, ANM-130L, FAA, Los Angeles Aircraft Certification Office, 3960 Paramount Boulevard, Lakewood, California 90712-4137; telephone (562) 627-5350; fax (562) 627-5210.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this action may be changed in light of the comments received.

Submit comments using the following format:

- Organize comments issue-by-issue. For example, discuss a request to change the compliance time and a request to change the service bulletin reference as two separate issues.
- For each issue, state what specific change to the proposed AD is being requested.
- Include justification (*e.g.*, reasons or data) for each request.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this action must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 2003-NM-69-AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM-114, Attention: Rules Docket No.

2003-NM-69-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.

Discussion

On August 23, 2002, the FAA issued AD 2002-14-09, amendment 39-12809 (67 FR 47647, July 19, 2002), applicable to certain McDonnell Douglas Model MD-11 and -11F airplanes, to require replacing terminal strips and supports above the main cabin area and avionics compartment with new strips and supports, as applicable. That AD also requires performing an inspection to detect arcing damage of the surrounding structure of the terminal strips and electrical cables in the avionics compartment, and repairing or replacing any damaged component with a new component. That action was prompted by reports of arcing between the power feeder cables and support brackets of the terminal strips on airplanes previously modified per the existing AD. The requirements of that AD are intended to prevent electrical arcing caused by power feeder cable terminal lugs grounding against terminal strip support brackets, which could result in smoke and fire in the main cabin or avionics compartment.

Actions Since Issuance of Previous Rule

Since the issuance of that AD, the airplane manufacturer has informed the FAA that it inadvertently omitted airplanes having manufacturer's fuselage number (MSN) 0585 through 0605 inclusive from the effectivity listing of McDonnell Douglas Alert Service Bulletin MD11-24A178, Revision 01, dated December 17, 2001 (which was referenced in AD 2002-14-09 as an appropriate source of service information for accomplishing the required actions). We have determined that these additional airplanes are subject to the unsafe condition identified in that AD.

In addition, after consulting with the airplane manufacturer, we have determined that the replacement required by paragraph (a) of AD 2002-14-09 (reference McDonnell Douglas Alert Service Bulletin MD11-24A150, dated March 25, 1999) does not adequately preclude arcing between the power feeder cables and terminal strip support brackets. That action replaced one problematic terminal strip in the main cabin with two three-studded terminal strips in one location (applicable to airplanes having manufacturer's fuselage numbers 0585 and subsequent). The airplane manufacturer has developed a six-studded terminal strip that provides increased clearance to further minimize the possibility of chafing. This new,

improved terminal strip would replace all three-studded terminal strips in certain locations of the main cabin. Because the six-studded terminal strips were not installed on airplanes during production, additional airplanes beyond those with three-studded terminal strips are subject to this new replacement.

Explanation of Relevant Service Information

We have reviewed and approved Revision 02 of Boeing Alert Service Bulletin MD11-24A178, dated March 11, 2003, which revises the effectivity of Revision 01 of the service bulletin by adding 21 additional manufacturer's serial numbers (MSN). The replacement, inspection, and corrective actions if necessary, specified in Revision 02 are essentially identical to those described in Revision 01 of the service bulletin.

We have also reviewed and approved McDonnell Douglas Alert Service Bulletin MD11-24A177, dated July 18, 2003, and have reviewed Boeing Service Bulletin Information Notice MD11-24A177 IN 01, dated August 7, 2003. The service bulletin describes procedures for replacement of the terminal board for the applicable item numbers in the aft passenger compartment. The information notice revises service kits numbers specified in paragraph 2.B., "Post-Warranty" of this service bulletin.

Accomplishment of the actions specified in the applicable service bulletins is intended to adequately address the identified unsafe condition.

Explanation of Requirements of Proposed Rule

Since an unsafe condition has been identified that is likely to exist or develop on other products of this same type design, the proposed AD would supersede AD 2002-14-09 to continue to require replacement of terminal strips in the avionics compartment with new strips. The proposed AD also would continue to require an inspection to detect arcing damage of the surrounding structure of the terminal strips and electrical cables in the avionics compartment, and repair or replacement of any damaged component with a new component. In addition, the proposed AD would expand the applicability of the existing AD to include additional airplanes. For certain airplanes, the proposed AD also would require accomplishment of the actions specified in McDonnell Douglas Alert Service Bulletin MD11-24A177 described previously; except as discussed below.

Differences Between Proposed AD and Service Bulletin

Operators should note that Revision 02 of Boeing Alert Service Bulletin MD11-24A178 specifies to repair damaged structure per the Structural Repair Manual (SRM). However, the SRM does not provide procedures for repair of certain structural material. Therefore, this proposed AD would require the repair of damaged structure that is not covered in the SRM to be done per a method approved by us.

Model MD-11F airplanes are not specifically identified by model name in the effectivity of Revision 02 of Boeing Alert Service Bulletin MD11-24A178 or McDonnell Douglas Alert Service Bulletin MD11-24A177. However, those airplanes are identified by manufacturer's fuselage numbers. Therefore, the applicability of this proposed AD specifies both MD-11 and -11F airplanes.

Although Revision 02 of Boeing Alert Service Bulletin MD11-24A178 describes procedures for reporting inspection findings to the airplane manufacturer, this proposed AD would not require that action.

Changes to Requirements of Existing AD/Effect on the Proposed AD

Since the language in Note 3 of AD 2002-14-09 is regulatory in nature, that note has been redesignated as paragraph (b) of this proposed AD.

We have reviewed the figures we have used over the past several years to calculate AD costs to operators. To account for various inflationary costs in the airline industry, we find it necessary to increase the labor rate used in these calculations from \$60 per work hour to \$65 per work hour. The cost impact information, below, reflects this increase in the specified hourly labor rate.

Cost Impact

There are approximately 154 airplanes of the affected design in the worldwide fleet listed in Boeing Alert Service Bulletin MD11-24A178. The FAA estimates that 61 airplanes of U.S. registry would be affected by this proposed AD. The cost estimate for those airplanes is as follows:

1. The actions that are currently required by AD 2002-14-09 and retained in this proposed take approximately 3 or 4 work hours per airplane (depending on airplane configuration) to accomplish, at an average labor rate of \$65 per work hour. Required parts cost approximately \$1,142 per airplane. Based on these figures, the cost impact of the currently

required actions on U.S. operators is estimated to be \$1,337 or \$1,420 per airplane (depending on airplane configuration).

2. For Group 3 and 4 airplanes identified in Boeing Alert Service Bulletin MD11-24A178, the new actions that are proposed in this AD action would take approximately 4 (kit/part number SA11240178-3) or 5 (kit/part number SA11240178-5) work hours per airplane to accomplish, at an average labor rate of \$65 per work hour. Required parts would cost approximately \$3,031 (kit/part number SA11240178-3) or \$617 per airplane (kit/part number SA11240178-5). Based on these figures, the cost impact of these new proposed requirements of this AD on U.S. operators is estimated to be \$3,291 (kit/part number SA11240178-3) or \$942 (kit/part number SA11240178-5) per airplane.

There are approximately 103 airplanes of the affected design in the worldwide fleet listed in McDonnell Douglas Alert Service Bulletin MD11-24A177. The FAA estimates that 33 airplanes of U.S. registry would be affected by this proposed AD.

For airplanes identified in Boeing Alert Service Bulletin MD11-24A177, the new replacement that is proposed in this AD action would take approximately between 1 and 3 work hours per airplane to accomplish, at an average labor rate of \$65 per work hour. Required parts would cost approximately between \$114 and \$876 per airplane. Based on these figures, the cost impact of the new proposed replacement requirements of this AD on U.S. operators is estimated to be between \$5,907 and \$35,343, or between \$179 and \$1,071 per airplane.

The cost impact figures discussed above are based on assumptions that no operator has yet accomplished any of the current or proposed requirements of this AD action, and that no operator would accomplish those actions in the future if this AD were not adopted. The cost impact figures discussed in AD rulemaking actions represent only the time necessary to perform the specific actions actually required by the AD. These figures typically do not include incidental costs, such as the time required to gain access and close up, planning time, or time necessitated by other administrative actions. The manufacturer may cover the cost of replacement parts associated with this proposed AD, subject to warranty conditions. Manufacturer warranty remedies may also be available for labor costs associated with this proposed AD. As a result, the costs attributable to the

proposed AD may be less than stated above.

Regulatory Impact

The regulations proposed herein would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this proposal would not have federalism implications under Executive Order 13132.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-12809 (67 FR 47647, July 19, 2002), and by adding a new airworthiness directive (AD), to read as follows:

McDonnell Douglas: Docket 2003-NM-69-AD. Supersedes AD 2002-14-09, Amendment 39-12809.

Applicability: Model MD-11 and -11F airplanes, as listed in Boeing Alert Service Bulletin MD11-24A178, Revision 02, dated March 11, 2003, and McDonnell Douglas Alert Service Bulletin MD11-24A177, dated July 18, 2003; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent electrical arcing caused by power feeder cable terminal lugs grounding against terminal strip support brackets, which could result in smoke and fire in the main cabin or avionics compartment, accomplish the following:

Certain Requirements of AD 2002-14-09, Amendment 39-12809

Replacement, Inspection, and Corrective Action if Necessary

(a) For airplanes listed in the effectivity of McDonnell Douglas Alert Service Bulletin MD11-24A178, Revision 01, dated December 17, 2001; Within 18 months after August 23, 2002 (the effective date AD 2002-14-09, amendment 39-12809), do the actions specified in paragraphs (a)(1) and (a)(2) of this AD per the service bulletin.

(1) Replace the applicable terminal strips in the avionics compartment with new terminal strips (including inspecting wires for damage, repairing any damaged wire, and removing the nameplate); and

(2) Perform a general visual inspection to detect arcing damage of the surrounding structure of the terminal strips and electrical cables in the avionics compartment. If any damage is detected, before further flight, repair or replace any damaged component with a new component, per the service bulletin; except if the type of structural material of the surrounding structure that has been affected is not covered in the Structural Repair Manual, repair per a method approved by the Manager, Los Angeles Aircraft Certification Office (ACO), FAA.

Note 1: For the purposes of this AD, a general visual inspection is defined as "A visual examination of an interior or exterior area, installation, or assembly to detect obvious damage, failure, or irregularity. This level of inspection is made under normally available lighting conditions such as daylight, hangar lighting, flashlight, or drop-light, and may require removal or opening of access panels or doors. Stands, ladders, or platforms may be required to gain proximity to the area being checked."

(b) Accomplishment of the replacement, inspection, and corrective action, before the effective date of this AD, per McDonnell Douglas Alert Service Bulletin MD11-24A178, dated May 14, 2001, is considered acceptable for compliance with the applicable actions specified in paragraph (a) of this AD.

New Requirements of This AD

Replacement, Inspection, and Corrective Action if Necessary

(c) For Groups 3 and 4 airplanes listed in the effectivity of Boeing Alert Service Bulletin MD11-24A178, Revision 02, dated March 11, 2003; Within 18 months after the effective date of this AD, do the actions specified in paragraphs (c)(1) and (c)(2) of this AD per the Accomplishment Instructions of the service bulletin. Although the service bulletin specifies to report inspection findings to the airplane manufacturer, this AD does not include such a requirement.

(1) Replace the applicable terminal strips in the avionics compartment with new terminal strips (including inspecting wires

for damage, repairing any damaged wire, and removing the nameplate); and

(2) Perform a general visual inspection to detect arcing damage of the surrounding structure of the terminal strips and electrical cables in the avionics compartment. If any damage is detected, before further flight, repair or replace any damaged component with a new component, per the service bulletin; except if the type of structural material of the surrounding structure that has been affected is not covered in the Structural Repair Manual, repair per a method approved by the Manager, Los Angeles ACO, FAA.

(d) For airplanes listed in McDonnell Douglas Alert Service Bulletin MD11-24A177, dated July 18, 2003; Within 18 months after the effective date of this AD, replace the terminal board for the applicable item numbers in the aft passenger compartment, per the Accomplishment Instructions of the service bulletin.

Note 2: Boeing Service Bulletin Information Notice MD11-24A177 IN 01, dated August 7, 2003, revises service kits numbers specified in paragraph 2.B., "Post-Warranty" of McDonnell Douglas Alert Service Bulletin MD11-24A177, dated July 18, 2003.

Alternative Methods of Compliance

(e)(1) In accordance with 14 CFR 39.19, the Manager, Los Angeles ACO, FAA, is authorized to approve alternative methods of compliance for this AD.

(2) Alternative methods of compliance, approved previously per AD 2002-14-09, amendment 39-12809, are approved as alternative methods of compliance with paragraph (a) of this AD.

Issued in Renton, Washington, on May 18, 2004.

Kevin M. Mullin,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[IL222-1b; FRL-7666-2]

Approval and Promulgation of Implementation Plans; Illinois

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: We are proposing to approve a revision to the Illinois State Implementation Plan (SIP) for the Louis Berkman Company, doing business as the Swenson Spreader Company (Swenson). The Illinois Environmental Protection Agency requested on September 19, 2003, that EPA approve an adjusted standard for the volatile organic material content limit

applicable to the painting operations at Swenson's plant located in Lindenwood, Ogle County, Illinois.

In the rules section of this **Federal Register**, EPA is approving the SIP revision as a direct final rule without prior proposal, because EPA views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If EPA receives no adverse comments in response to this proposed rule, EPA will take no further action on this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received on or before June 28, 2004.

Comments may also be submitted electronically or through hand delivery/courier, please follow the detailed instructions described in the Addresses Section and Part(I)(B) of the Supplementary Information section of the related direct final rule which is published in the Rules section of this **Federal Register**.

ADDRESSES: Written comments should be sent to: J. Elmer Bortzer, Chief, Criteria Pollutant Section, Air Programs Branch, United States Environmental Protection Agency, Mailcode AR-18J, 77 West Jackson Boulevard, Chicago, Illinois 60604. bortzer.jay@epa.gov.

FOR FURTHER INFORMATION CONTACT: Christos Panos, Environmental Engineer, Criteria Pollutant Section, Air Programs Branch, United States Environmental Protection Agency, Mailcode AR-18J, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 353-8328. panos.christos@epa.gov.

SUPPLEMENTARY INFORMATION: For additional information, see the Direct Final notice which is located in the Rules section of this **Federal Register**. Copies of the request and the EPA's analysis are available for inspection at the above address. (Please contact Christos Panos at (312) 353-8328 before visiting the Region 5 office.)

Dated: May 7, 2004.

Bharat Mathur,

Acting Regional Administrator, Region 5.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[Region 2 Docket No. R02-OAR-2004-NJ-0001, FRL-7667-7]

Finding of Failure To Implement a State Implementation Plan; New Jersey Portions of the New York—Northern New Jersey—Long Island and Philadelphia—Wilmington—Trenton Nonattainment Areas; Ozone

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to find that New Jersey has not fully implemented the 1-hour Ozone State Implementation Plan that EPA approved for two nonattainment areas, the New Jersey portions of the New York—Northern New Jersey—Long Island nonattainment area and the Philadelphia—Wilmington—Trenton nonattainment area. If EPA finalizes this proposed determination, New Jersey will be required to correct the identified deficiencies within 18 months of a final determination, or the first set of sanctions will be imposed pursuant to sections 179(a) and (b) of the Clean Air Act and 40 CFR 52.31.

DATES: Comments must be received on or before June 28, 2004.

ADDRESSES: Submit your comments, identified by Regional Material in EDocket (RME) ID Number R02-OAR-2004-NJ-0001 by one of the following methods:

1. Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

2. Agency Web site: <http://docket.epa.gov/rmepub/> Regional Material in EDocket (RME), EPA's electronic public docket and comment system, is EPA's preferred method for receiving comments. Once in the system, select "quick search," then key in the appropriate RME Docket identification number. Follow the on-line instructions for submitting comments.

3. E-mail: Werner.Raymond@epa.gov.

4. Fax: (212) 637-3901.

5. Mail: "RME ID Number R02-OAR-2004-NJ-0001", Raymond Werner, Chief, Air Programs Branch, Environmental Protection Agency, Region 2 Office, 290 Broadway, 25th Floor, New York, New York 10007-1866.

6. Hand Delivery or Courier. Deliver your comments to: Raymond Werner,

Chief, Air Programs Branch, Environmental Protection Agency, Region 2 Office, 290 Broadway, 25th Floor, New York, New York 10007-1866. Such deliveries are only accepted during the Regional Office's normal hours of operation. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30 excluding Federal holidays.

Instructions: Direct your comments to Regional Material in EDocket (RME) ID Number R02-OAR-2004-NJ-0001. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://docket.epa.gov/rmepub/>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through Regional Material in EDocket (RME), regulations.gov, or e-mail. The EPA RME Web site and the federal regulations.gov Web site are "anonymous access" systems, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through RME or regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the electronic docket are listed in the Regional Material in EDocket (RME) index at <http://docket.epa.gov/rmepub/>. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in RME or in hard copy at the Air Programs Branch, Environmental Protection

Agency, Region 2 Office, 290 Broadway, 25th Floor, New York, New York 10007-1866. EPA requests that if at all possible, you contact the contact listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30 excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Paul R. Truchan, Air Programs Branch, Environmental Protection Agency, 290 Broadway, 25th Floor, New York, New York 10007-1866, (212) 637-3711 or truchan.paul@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What Is Required by the Clean Air Act of Areas Classified as Nonattainment for Ozone and How Do These Requirements Apply to New Jersey?

Section 182 of the Clean Air Act (Act) identifies specific requirements for State Implementation Plans (SIP) for areas classified as nonattainment for the 1-hour ozone standard. Section 182 also establishes schedules for submission of SIP revisions to EPA by the states. The specific requirements and deadlines vary depending upon the severity of the ozone problem. This action applies to the New Jersey portion of two severe ozone nonattainment areas: the New York-Northern New Jersey-Long Island Area, and the Philadelphia-Wilmington-Trenton Area. For purposes of this action these areas will be referred to as, respectively, the Northern New Jersey ozone area and the Trenton ozone area. The counties located within the Northern New Jersey area are: Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, and Union. The counties within the Trenton area are: Burlington, Camden, Cumberland, Gloucester, Mercer, and Salem. Under section 182(c)(2) and (d) of the Act, states with severe nonattainment areas were required to submit by November 15, 1994 demonstrations of how the areas would attain the 1-hour standard. In addition, states needed to demonstrate how they would achieve reductions in volatile organic compound (VOC) emissions of nine percent for each three-year period until the attainment year, this latter requirement is called the rate-of-progress plan. In some cases, oxides of nitrogen (NO_x) emission reductions can be substituted for the required VOC emission reductions.

States are required to develop any additional measures to further reduce emissions that are required to attain the

air quality standard by the attainment deadlines specified in the Act. On December 16, 1999 (64 FR 70380), EPA proposed approval of New Jersey's SIP demonstrating attainment of the 1-hour ozone standard for the two nonattainment areas, if, among other things, the State submitted an enforceable commitment to adopt additional control measures to fill an emission reduction shortfall identified by EPA in its review. To assist several states, including New Jersey, in developing additional emission control strategies, the Ozone Transport Commission (OTC) developed model rules to control emissions from six types of sources and estimated emission reduction benefits that would be achieved from implementing these model rules. These model rules are commonly referred to as the Ozone Transport Commission measures, or OTC measures. These model rules were designed for use by states in developing their own regulations to achieve the additional VOC and NO_x emission reductions needed to eliminate these shortfalls.

On February 4, 2002 (67 FR 5152), EPA approved New Jersey's 1-hour ozone attainment demonstration SIP. This approval was based, in part, on enforceable commitments made by New Jersey in a SIP revision dated April 26, 2000. New Jersey committed to adopt additional control measures by October 31, 2001, to close the shortfalls in emission reductions identified by EPA. New Jersey indicated, as part of its commitment, that it expected the additional emission reductions would be achieved by adopting measures recommended during the OTC process which was completed on March 31, 2001.

In a letter dated December 11, 2001, New Jersey provided an update on the rulemaking schedule, which was to be published in the New Jersey Register, that included the six OTC measures. Based on this information, EPA proceeded with a final rulemaking approval of New Jersey's 1-hour ozone attainment demonstration SIP even after New Jersey missed the October 31, 2001 deadline, because at that time, EPA determined New Jersey was making sufficient progress to support approval of the commitment.

II. What Portion of the Approved SIP Is EPA Finding New Jersey Is Not Fully Implementing?

While New Jersey has made progress in implementing its ozone SIP, the State has missed the deadline to adopt and submit the additional control measures necessary to meet the emission

reduction shortfall. The State indicated in its September 12, 2001 SIP revision, that the six OTC measures would result in sufficient emission reductions to meet the EPA identified emission shortfalls. To date, four control measures have been adopted and submitted as SIP revisions, but are insufficient by themselves to provide the emission reductions needed to attain the one hour ozone standard. Consequently, EPA is proposing to find that New Jersey is not fully implementing its approved attainment demonstration SIP because it has not met its commitment to adopt additional control measures, by October 31, 2001, which are needed to attain the 1-hour ozone standard.

III. What Are the Consequences if EPA Makes Final This Proposed Finding of Failure To Implement?

Under the authority of section 179(a)(4) of the Act, if EPA makes a finding that provisions of an approved plan are not being implemented, then the deficiencies identified in the finding must be corrected within 18 months of the final finding or sanctions will begin to apply. There are two types of sanctions: Highway Sanctions (section 179(b)(1)) and Offset Sanctions (section 179(b)(2)).

EPA promulgated, at 40 CFR part 52, regulations to implement the sanction requirements of section 179 of the Act. 40 CFR 52.31(d)(1) provides that the offset sanction apply when a state has not corrected the deficiencies identified in the finding within 18 months of the effective date of the final finding. This sanction requires any entity or individual that is subject to nonattainment new source review and is constructing a new facility or modifying an existing facility over a certain size to reduce emissions in the area in which it is located by two tons for every one ton of VOC and/or NO_x that the new/modified facility will emit.

The current offset ratio in the two New Jersey nonattainment areas for VOC and NO_x is 1.3 to 1. If EPA takes final action making a finding of failure to implement and New Jersey has not corrected the deficiencies identified in the final finding within 18 months of the effective date of that finding, then the 2 to 1 offset sanction will apply in the Northern New Jersey ozone area and the Trenton ozone area.

40 CFR 52.31(d)(1) further provides that the section 179(b)(2) highway sanction will apply if New Jersey does not correct the deficiencies identified in the finding within six months after the offset sanction is imposed. This sanction prohibits the U.S. Department

of Transportation from approving or funding all but a few specific types of transportation projects.

The sanctions time clock will be stopped or imposed sanctions lifted only if EPA determines, after an opportunity for public comment, that the deficiencies which resulted in today's failure to implement finding have been corrected. The time clock may be stayed or the imposition of sanctions may be deferred based on a proposed determination that the State has corrected the implementation deficiencies (40 CFR 52.31(d)(4)). EPA will be working with New Jersey to correct this deficiency as quickly as possible to ensure that sanctions need not be imposed.

IV. Statutory and Executive Order Reviews

A. Executive Order 12866, Regulatory Planning and Review

The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866, entitled "Regulatory Planning and Review."

B. Paperwork Reduction Act

This action does not impose an information collection burden under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* No information is required to be collected, EPA is just proposing to find that the State is not fully implementing its approved SIP. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

C. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA), as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), 5 U.S.C. 601 *et seq.*, generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedure Act or any other statute unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental jurisdictions.

For purposes of assessing the impacts of today's rule on small entities, small entity is defined as: (1) A small business that is based on SBA size standards; (2) a small governmental jurisdiction that is a government of a city, county, town, school district or special district with a population of less than 50,000; and (3) a small organization that is any not-for-profit enterprise which is independently owned and operated and is not dominant in its field.

After considering the economic impacts of today's proposed rule on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities. This proposed rule will not impose any requirements on small entities. The sanctions provided for pursuant to section 179(b) for failure to implement under section 110 apply only to new or modified major stationary sources subject to section 173 of the Clean Air Act.

D. Unfunded Mandates Reform Act

Under sections 202 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated costs to state, local, or tribal governments in the aggregate; or to the private sector, of \$100 million or more. Under section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the finding of failure to implement action proposed does not include a Federal mandate that may result in estimated costs of \$100

million or more to either state, local, or tribal governments in the aggregate, or to the private sector. This Federal action proposes to find failure to implement pre-existing requirements under state or local law, and imposes no new requirements on the state. Accordingly, no additional costs to state, local, or tribal governments, or to the private sector, result from this action.

E. Executive Order 13132, Federalism

Federalism (64 FR 43255, August 10, 1999) revokes and replaces Executive Orders 12612 (*Federalism*) and 12875 (*Enhancing the Intergovernmental Partnership*). Executive Order 13132 requires EPA to develop an accountable process to ensure "meaningful and timely input by state and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is defined in the Executive Order to include regulations that have "substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government." Under Executive Order 13132, EPA may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by state and local governments, or EPA consults with state and local officials early in the process of developing the proposed regulation. EPA also may not issue a regulation that has federalism implications and that preempts state law unless the Agency consults with state and local officials early in the process of developing the proposed regulation.

This rule will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, because it does not establish any new requirement with which the state must comply nor does it alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. Rather, consistent with the Clean Air Act requirements, this action proposes that the state is not complying with provisions already approved in the SIP. Thus, the requirements of section 6 of the Executive Order do not apply to this rule.

F. Executive Order 13175, Coordination With Indian Tribal Governments

Executive Order 13175, entitled "Consultation and Coordination with Indian Tribal Governments" (65 FR 67249, November 9, 2000), requires EPA to develop an accountable process to ensure "meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications." This proposed rule does not have tribal implications. It will not have substantial direct effects on tribal governments, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified in Executive Order 13175, entitled "Consultation and Coordination with Indian Tribal Governments" (65 FR 67249, November 6, 2000). Thus, Executive Order 13175 does not apply to this rule.

G. Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks

Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997), applies to any rule that: (1) Is determined to be "economically significant" as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency.

This rule is not subject to Executive Order 13045 because it does not involve decisions intended to mitigate environmental health or safety risks.

H. Executive Order 13211, Actions That Significantly Affect Energy Supply, Distribution, or Use

This rule is not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new

regulation. To comply with NTTAA, EPA must consider and use "voluntary consensus standards" (VCS) if available and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

The VCS are inapplicable to this action. Today's action does not require the public to perform activities conducive to the use of VCS.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1, 20, and 43

[WC Docket No. 04-141, FCC 04-81]

Local Telephone Competition and Broadband Reporting

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: In this document, the Federal Communications Commission seeks comment about whether it should extend and modify the FCC Form 477 local competition and broadband data gathering program, established by the Commission's *Data Gathering Order* published Wednesday, April 12, 2000 (65 FR 19675).

DATES: Comments are due on or before June 28, 2004, and reply comments are due on or before July 28, 2004. Written comments on the proposed information collections must be submitted by the public, Office of Management and Budget (OMB), and other interested parties on or before July 28, 2004.

ADDRESSES: All filings must be sent to the Commission's Secretary, Marlene H. Dortch, Office of the Secretary, Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554. In addition to filing comments with the Secretary, a copy of any Paperwork Reduction Act (PRA) comments on the information collection(s) contained herein should be submitted to Judith B. Herman, Federal Communications

Commission, Room 1-C804, 445 12th Street, SW., Washington, DC 20554, or via the Internet to *Judith-B.Herman@fcc.gov*, and to Kristy L. LaLonde, OMB Desk Officer, Room 10234 NEOB, 725 17th Street, NW., Washington, DC 20503 via the Internet to *Kristy.L.LaLonde@omb.eop.gov* or by fax to (202) 395-5167. Parties are also requested to send two additional paper copies of their filings to Mikelle Mora, Industry Analysis and Technology Division, 455 Twelfth Street, SW., Sixth Floor, Washington DC 20554.

FOR FURTHER INFORMATION CONTACT:

Ellen Burton, Assistant Chief, James Eisner, Senior Economist, or Thomas J. Beers, Deputy Chief, Industry Analysis and Technology Division, Wireline Competition Bureau, at (202) 418-0940. For additional information concerning the information collection(s) contained in this document, contact Judith B. Herman at (202) 418-0214, or via the Internet at *Judith-B.Herman@fcc.gov*.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rulemaking (NPRM) in WC Docket No. 04-141, adopted on March 31, 2004, and released on April 16, 2004. The full text of this document is available on the Commission's Web site Electronic Comment Filing System and for public inspection Monday through Thursday from 8 a.m. to 4:30 p.m. and Friday from 8 a.m. to 11:30 a.m. in the FCC Reference Center, Room CY-A257, 445 Twelfth Street, SW., Washington, DC 20554. Alternative formats are available to persons with disabilities by contacting Brian Millin at (202) 418-7426 or TTY (202) 418-7365. The full text of the NPRM may also be purchased from the Commission's duplicating contractor, Qualex International, Room CY-B402, 445 Twelfth Street, SW., Washington, DC 20554, telephone (202) 863-2893, facsimile (202) 863-2898, or e-mail at *qualexint@aol.com*. This NPRM contains proposed information collection(s) subject to the Paperwork Reduction Act of 1995 (PRA). It has been submitted to the Office of Management and Budget (OMB) for review under the PRA. OMB, the general public, and other Federal agencies are invited to comment on the proposed information collections contained in this proceeding.

Paperwork Reduction Act

This NPRM contains a proposed information collection. The Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and the Office of Management and Budget (OMB) to

comment on the information collection(s) contained in this NPRM, as required by the Paperwork Reduction Act of 1995, Public Law 104–13. Public and agency comments are due at the same time as other comments on this NPRM; OMB notification of action is due 60 days from date of publication of this NPRM in the **Federal Register**. Comments should address: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

OMB Control Number: 3060–0816.

Title: “Local Telephone Competition and Broadband Reporting, WC Docket No. 04–141”.

Form No.: FCC Form 477.

Type of Review: Revision of Existing Collection.

Respondents: Business or Not-for-profit institutions, including small businesses.

Number of Respondents: Up to 478.

Estimated Time Per Filer Per Year: 122.2 person-hours.

Total Annual Burden: Up to 58,418 person-hours.

Cost to Respondents: \$0.

These estimates are for the proposed information collection set out in the Draft FCC Form 477 that appears at the end of this Summary. The NPRM additionally invites comment on lowering or eliminating one or more of the current mandatory reporting thresholds and on collecting more detailed data about high-speed connections in service in particular ZIP Codes. By comparison to the above estimate, the estimated Total Annual Burden would be 7 percent larger if the current mandatory threshold to report broadband data were eliminated. The estimated Total Annual Burden would be 36 percent higher if the current mandatory thresholds to report broadband data and local telephone data were eliminated. If the current mandatory reporting thresholds were retained, the estimated Total Annual Burden would be 30 percent higher if filers were required to report counts of broadband connections in service, by technology, in particular ZIP Codes, and the estimated Total Annual Burden would be 109 percent higher if filers were required to report counts of broadband connections in service, by

technology and by speed, in particular ZIP Codes. If the current mandatory thresholds to report broadband and local telephone data were eliminated and filers were required to report counts of broadband connections in service, by technology and by speed, in particular ZIP Codes, the estimated Total Annual Burden would be 132 percent higher.

Needs and Uses: The information collection is a proposed modification of an already authorized program. As before, the program will be used by the Commission to gather information on the state of the development of local telephone competition and broadband deployment. Without such information, the Commission faces significant difficulty in assessing the development of these markets and, therefore, is less able to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended.

Summary of the Notice of Proposed Rulemaking

1. In the *Data Gathering Order*, the Commissions established a reporting program (using the FCC Form 477) to collect basic information about two critical areas of the communications industry: the deployment of broadband services and the development of local telephone service competition. In this Notice of Proposed Rulemaking (Notice), we seek comment about specific proposals to improve the program, including gathering more granular data from broadband service providers and extending the program for five years beyond its currently designated sunset in March 2005. The information collected in this program helps the Commission and the public understand the extent of local telephone competition and broadband deployment, which is important to the nation's economic, educational, and social well-being. The proposals on which we seek comment here attempt to further that goal while minimizing burdens on marketplace competitors and innovators.

2. Form 477 includes separate sections on broadband deployment, local telephone service competition, and mobile telephone service provision. Entities are required to report only when they meet or exceed defined reporting thresholds and, then, are only required to complete those portions of the form for which they meet or exceed the reporting thresholds. Entities that meet a threshold file data on a state-by-state basis. Facilities-based providers of broadband connections and local exchange carriers (LECs) also report a list of ZIP Codes in which they serve

end users, for each state for which they complete a form. In the case of broadband connections, reporting entities include incumbent and competitive LECs, cable companies, operators of terrestrial and satellite wireless facilities, municipalities, and any other facilities-based provider of broadband connections to end users.

3. The Commission's reports based on Form 477 data have demonstrated steady progress in the development of local telephone service competition as well as nationwide broadband deployment. In section 706 reports, the Commission has concluded that broadband is being deployed in a reasonable and timely fashion. However, the Commission has also recognized that there are certain areas where additional information would be extremely useful in identifying and tracking broadband developments, including rural areas. Also the emergence of competing platforms in recent years to deliver high-speed services, and a steady improvement in mass-market acceptance of services suggest that refining our reporting requirements for broadband providers would yield useful information to inform policymaking in this important, rapidly changing area.

4. Broadband Reporting. We propose extending the Form 477 program for five years beyond the current scheduled sunset to support our study of broadband deployment pursuant to section 706 of the 1996 Act. We believe that our efforts to assess broadband availability have been substantially aided by analysis of the data collected by the Form 477 to date. We note, however, that we and reporting entities have now had four years' experience with the Form 477 program. Based on our experience with the Form 477 program to date, we propose to expand the program's scope to capture some additional data that could allow us to more precisely analyze availability (*i.e.*, beyond the subscribership proxy utilized by the current version of the Form 477). We propose to implement the modified reporting requirements with the filing of December 31, 2004 data on March 1, 2005, subject to OMB approval of the revised form. Our proposed broadband reporting revisions, set out in the draft Form 477 and instructions, include: more detailed reporting about the deployment of technologies to serve mass-market broadband end users, particularly cable modem and DSL connections; more detailed tracking, over time, of marketplace adoption of increasingly fast broadband connections; and more detailed tracking of marketplace

adoption of new broadband technologies. We seek comment on the potential benefits and burden of these revisions.

5. With respect particularly to the proposed categorization of broadband connections by technology and by information transfer rates set out in the draft Form 477 and instructions, we seek comment on the appropriateness of the proposed categories from technical and marketplace perspectives. We also seek specific comment on whether we should modify our reporting instructions to require filers to categorize broadband connections according to the information transfer rates actually observed by end users and what operational issues, if any, this would pose. Ideally, providers would accurately inform consumers about the range of broadband service options available in the marketplace, including actual service "speeds," and our information collection similarly would track actual provision of particular speeds in the marketplace. Are there any existing, administratively workable industry standards or practices for measuring typical or actual speeds delivered to end users (as opposed to peak or optimum speeds)? Is there an administratively feasible way to have broadband providers measure and report speeds that are achieved on facilities within those providers' control—specifically, from the end user premises to the edge of the provider's network? What would be the pros and cons of modifying our reporting requirements to require the provision of such information?

6. Local Service Competition Reporting. We also believe that it is important to continue to monitor local service competition developments, particularly following the recent conclusion of our section 271 proceedings allowing the Bell Operating Companies (BOCs) full entry into all domestic long distance markets. We propose to extend the Form 477 program to collect wireline and mobile local telephone data for five years beyond the currently-scheduled sunset in March 2005. While we believe that the amount and quality of local telephone competition data currently collected by the Form 477 are generally adequate for monitoring local service competition developments, we note that consumers increasingly can choose among telephone service offerings that permit both local and long distance calling, often for a single price. We therefore propose, as set out in the draft Form 477 and instructions, to require carriers to report the extent to which they are also the end user's default

interstate long distance carrier. We seek comment on the benefits and burdens of these proposed modifications. We also seek comment on whether clarification of current requirements, as also set out in the draft Form 477 and instructions, is needed to assist filers in completing these parts of the form. We also welcome comments addressing any and all aspects of the local telephone parts of Form 477, including substantive provisions.

7. Reporting High-Speed Connections by Technology and "Speed Tiers." We seek comment on whether we should require filers to specify the number of high-speed connections, by technology, in particular ZIP Codes. We also seek comment on whether we should require filers to report, for each ZIP Code, the number of connections provided in various "speed tiers," and whether that information should be reported separately by technology. This information "alone and in combination with Census data "would better enable us to track the marketplace acceptance of broadband. It would add yet more detail to the picture of competition between established providers of cable modem and DSL-based services, and emerging providers. Commenters should specifically address whether the benefits that would come from this reporting requirement would outweigh the additional costs that may be imposed on carriers. We also invite comments that discuss, with specificity, ways in which we could more closely align our broadband reporting methodology with the ways facilities-based broadband providers typically measure availability for the financial community and internal purposes, and thereby obtain a more detailed picture of competitive broadband deployment and service availability.

8. Reporting Thresholds. We seek comment on whether eliminating or lowering the reporting threshold for broadband data (*i.e.*, at least 250 high-speed lines (or wireless channels) in a state connecting end users to the Internet) would yield significantly improved data about broadband development, particularly in rural areas. Commenters that support lowering the threshold should specify what the threshold should be. We believe that the current data collection misses several hundred small facilities-based providers, *e.g.*, rural incumbent LECs, wireless Internet service providers, and municipalities. Also, we note that the few small facilities-based providers that currently file Form 477 on a voluntary basis find that only a few questions apply to their situations. This suggests that, as a practical matter, additional

reporting burdens for many small providers would be small, which was not evident when the Commission initiated the Form 477 data collection. We therefore seek comment on the benefits of the more complete picture of broadband deployment that would be achieved if all facilities-based providers were required to report broadband data, and request that parties identify with specificity any associated burdens. We encourage any party that argues that we should adopt a sampling methodology, as an alternative to eliminating the broadband reporting threshold, to provide a detailed and complete sample design.

9. We seek comment on whether we should adopt a lower threshold for reporting local telephone competition data, and if so, what that threshold should be. Commenters should address whether a specific lower threshold would yield an improved picture of local telephone service competition, particularly in less densely populated states, justify their proposed threshold, and identify with specificity any associated burdens.

10. Confidentiality Issues. We seek comment on whether we could modify our policies regarding publication of data without jeopardizing legitimate claims of confidentiality. In this Notice, we do not propose to change existing policy regarding the overall protection we afford Form 477 data in connection with competitively sensitive information. Given the entry of competitive LECs, wireless providers, and others into local telephone service markets, the proliferating deployment of broadband services nationwide, and the dynamism of communications markets generally, however, we seek comment on whether historical aggregated information from our data collection remains competitively sensitive after the passage of time, such as a year or two. For example, aggregated data as of June 30, 2003 that we masked (by substituting an asterisk for the true value) in our most recent publications, may not be considered competitively sensitive after June 30, 2005. We seek comment on whether a comparable report published after June 30, 2005 could include the true values of these aggregated June 30, 2003 data without causing competitive harm to any Form 477 filer. If so, should our publication procedures be modified so that the maximum amount of non-competitively sensitive Form 477 information is made publicly available in a timely manner, for use by policymakers, academic researchers and industry analysts, and other members of the general public? Commenters should address whether

this change in publication procedures would undermine companies' willingness to answer our broadband data requests fully and promptly, with a minimum of procedural challenges.

11. **Sharing Data with State Commissions.** We seek comment on whether we should modify any of our other policies regarding data use. In the *Data Gathering Order*, the Commission indicated that it intended to share state-specific Form 477 data, subject to appropriate conditions, with state commissions. It noted that such sharing could advance useful regulatory review of developing local service competition and broadband deployment trends. This would serve the public interest generally, but would also assist this Commission particularly by encouraging additional expert review of the accuracy and completeness of submitted information and its use in our reports. To date, we have entered into ten arrangements with state agencies, all of which have agreed to our confidentiality requirements. We propose to continue such arrangements with state agencies in the future. We invite comment about the value of this program.

12. **Impact on Small Entities and Other Issues.** We seek comment on all the changes discussed in this Notice, including all specific changes set out in the draft Form 477 and instructions. We also seek comment on our continuing use of reporting thresholds for both local telephone and broadband data. We are coordinating possible small business size standard issues with the U.S. Small Business Administration. We seek comment on ways by which we can limit burdens imposed on providers, prevent the dissemination of competitively-sensitive information, and limit our data collection, wherever possible, to information that providers routinely keep in the ordinary course of business or that is easily derived from their records. We look forward to working closely with all participants to minimize burdens wherever possible, particularly with regard to smaller providers that may have limited resources.

13. Finally, we intend to explore whether to conduct or commission a consumer survey to develop a better understanding of consumer adoption and usage of broadband services. We welcome input on what questions should be included in such a survey.

Procedural Matters

Initial Regulatory Flexibility Analysis

1. As required by the Regulatory Flexibility Act (RFA), the Commission has prepared this present Initial

Regulatory Flexibility Analysis (IRFA) of the possible significant economic impact on small entities by the policies and rules proposed in the Notice of Proposed Rulemaking in WC Docket No. 04-141 (Notice). Written public comments are requested on this IRFA. Comments must be identified as responses to the IRFA and must be filed by the deadlines for comments on this Notice, which are set out in paragraph 16 of the Notice. The Commission will send a copy of this Notice, including this IRFA, to the Chief Counsel for Advocacy of the Small Business Administration (SBA). In addition, this Notice and IRFA (or summaries thereof) will be published in the **Federal Register**.

I. Need for, and Objectives of, the Proposed Action

2. The Commission has initiated this Notice to seek comment about specific proposals to improve its Form 477 local competition and broadband data gathering program and to extend the program for five years beyond its currently designated sunset in March 2005. The Commission adopted the Form 477 in spring 2000 to help the Commission and the public understand the extent of local telephone service competition and broadband services deployment, which is important to the nation's economic, educational, and social well-being. The proposals in this Notice on which the Commission seeks comment attempt to further that goal while minimizing burdens on marketplace competitors and innovators. In particular, the Commission asks whether collecting more granular data from broadband service providers would more effectively support its study of broadband deployment pursuant to section 706 of the 1996 Act. The Commission also seeks to assist filers of local telephone data by clarifying certain current requirements.

II. Legal Basis

3. The legal basis for the action as proposed for this rulemaking is contained in sections 1-5, 10, 11, 201-205, 215, 218-220, 251-271, 303(r), 332, 403, 502, and 503 of the Communications Act of 1934, as amended, 47 U.S.C. 151-155, 160, 161, 201-205, 215, 218-220, 251-271, 303(r), 332, 403, 502, and 503 and pursuant to section 706 of the Telecommunications Act of 1996, 47 U.S.C. 157 nt.

III. Description and Estimate of the Number of Small Entities to Which the Proposed Action May Apply

4. The RFA directs agencies to provide a description of and, where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted. To estimate the number of small entities that may be affected by the proposed rules, we first consider the statutory definition of "small entity" under the RFA. The RFA generally defines "small entity" as having the same meaning as the term "small business," "small organization," and "small governmental jurisdiction." In addition, the term "small business" has the same meaning as the term "small business concern" under the Small Business Act, unless the Commission has developed one or more definitions that are appropriate to its activities. Under the Small Business Act, a "small business concern" is one that: (1) Is independently owned and operated; (2) is not dominant in its field of operation; and (3) meets any additional criteria established by the SBA.

5. The most reliable source of information regarding the total numbers of certain common carrier and related providers nationwide, as well as the number of commercial wireless entities, appears to be the data that the Commission publishes in its Trends in Telephone Service report. The SBA has developed small business size standards for wireline and wireless small businesses within the three commercial census categories of Wired Telecommunications Carriers, Paging, and Cellular and Other Wireless Telecommunications. Under these categories, a business is small if it has 1,500 or fewer employees. Below, using the above size standards and others, we discuss the total estimated numbers of small businesses that might be affected by our actions.

6. We have included small incumbent LECs in this present RFA analysis. As noted above, a "small business" under the RFA is one that, *inter alia*, meets the pertinent small business size standard (e.g., a wired telecommunications carrier having 1,500 or fewer employees), and "is not dominant in its field of operation." The SBA's Office of Advocacy contends that, for RFA purposes, small incumbent LECs are not dominant in their field of operation because any such dominance is not "national" in scope. We have therefore included small incumbent LECs in this RFA analysis, although we emphasize that this RFA action has no effect on Commission analyses and

determinations in other, non-RFA contexts.

7. Wired Telecommunications Carriers. The SBA has developed a small business size standard for Wired Telecommunications Carriers, which consists of all such companies having 1,500 or fewer employees. According to Census Bureau data for 1997, there were 2,225 firms in this category, total, that operated for the entire year. Of this total, 2,201 firms had employment of 999 or fewer employees, and an additional 24 firms had employment of 1,000 employees or more. Thus, under this size standard, the great majority of firms can be considered small.

8. Incumbent Local Exchange Carriers (LECs). Neither the Commission nor the SBA has developed a size standard for small businesses specifically applicable to incumbent local exchange services. The closest applicable size standard under SBA rules is for Wired Telecommunications Carriers. Under that size standard, such a business is small if it has 1,500 or fewer employees. According to Commission data, 1,337 carriers reported that they were engaged in the provision of local exchange services. Of these 1,337 carriers, an estimated 1,032 have 1,500 or fewer employees and 305 have more than 1,500 employees. Consequently, the Commission estimates that most providers of incumbent local exchange service are small businesses that may be affected by the rules and policies adopted herein.

9. Competitive Local Exchange Carriers (CLECs). Neither the Commission nor the SBA has developed a size standard for small businesses specifically applicable to providers of competitive exchange services or to competitive access providers or to "Other Local Exchange Carriers," all of which are discrete categories under which TRS data are collected. The closest applicable size standard under SBA rules is for Wired Telecommunications Carriers. Under that size standard, such a business is small if it has 1,500 or fewer employees. According to Commission data, 609 companies reported that they were engaged in the provision of either competitive access provider services or competitive local exchange carrier services. Of these 609 companies, an estimated 458 have 1,500 or fewer employees and 151 have more than 1,500 employees. In addition, 51 carriers reported that they were "Other Local Exchange Carriers." Of the 51 "Other Local Exchange Carriers," an estimated 50 have 1,500 or fewer employees and one has more than 1,500 employees. Consequently, the

Commission estimates that most providers of competitive local exchange service, competitive access providers, and "Other Local Exchange Carriers" are small entities that may be affected by the rules and policies adopted herein.

10. Interexchange Carriers (IXCs). Neither the Commission nor the SBA has developed a size standard for small businesses specifically applicable to interexchange services. The closest applicable size standard under SBA rules is for Wired Telecommunications Carriers. Under that size standard, such a business is small if it has 1,500 or fewer employees. According to Commission data, 261 companies reported that their primary telecommunications service activity was the provision of interexchange services. Of these 261 companies, an estimated 223 have 1,500 or fewer employees and 38 have more than 1,500 employees. Consequently, the Commission estimates that the majority of interexchange service providers are small entities that may be affected by the rules and policies adopted herein.

11. Cellular Licensees. The SBA has developed a small business size standard for Cellular and Other Wireless Telecommunication, which consists of all such firms having 1,500 or fewer employees. According to Census bureau data for 1997, there were 977 firms in this category, total, that operated for the entire year. Of this total, 965 firms had employment of 999 or fewer employees, and an additional 12 firms had employment of 1,000 employees or more. Thus under this size standard, the majority of firms can be considered small.

12. Broadband Personal Communications Service. The broadband Personal Communications Service (PCS) spectrum is divided into six frequency blocks designated A through F, and the Commission has held auctions for each block. The Commission defined "small entity" for Blocks C and F as an entity that has average gross revenues of \$40 million or less in the three preceding calendar years. For Block F, an additional classification for "very small business" was added and is defined as an entity that, together with its affiliates, has average gross revenues of not more than \$15 million for the preceding three calendar years. These standards defining "small entity" in the context of broadband PCS auctions have been approved by the SBA. No small businesses, within the SBA-approved small business size standards bid successfully for licenses in Blocks A and B. There were 90 winning bidders

that qualified as small entities in the Block C auctions. A total of 93 small and very small business bidders won approximately 40 percent of the 1,479 licenses for Blocks D, E, and F. On March 23, 1999, the Commission re-auctioned 347 C, D, E, and F Block licenses. There were 48 small business winning bidders. On January 26, 2001, the Commission completed the auction of 422 C and F Broadband PCS licenses in Auction No. 35. Of the 35 winning bidders in this auction, 29 qualified as "small" or "very small" businesses. Based on this information, the Commission concludes that the number of small broadband PCS licenses will include the 90 winning C Block bidders, the 93 qualifying bidders in the D, E, and F Block auctions, the 48 winning bidders in the 1999 re-auction, and the 29 winning bidders in the 2001 re-auction, for a total of 260 small entity broadband PCS providers, as defined by the SBA small business size standards and the Commission's auction rules. Consequently, the Commission estimates that 260 broadband PCS providers are small entities that may be affected by the rules and policies adopted herein.

13. Narrowband Personal Communications Services. To date, two auctions of narrowband personal communications services (PCS) licenses have been conducted. For purposes of the two auctions that have already been held, "small businesses" were entities with average gross revenues for the prior three calendar years of \$40 million or less. Through these auctions, the Commission has awarded a total of 41 licenses, out of which 11 were obtained by small businesses. To ensure meaningful participation of small business entities in future auctions, the Commission has adopted a two-tiered small business size standard in the Narrowband PCS Second Report and Order. A "small business" is an entity that, together with affiliates and controlling interests, has average gross revenues for the three preceding years of not more than \$40 million. A "very small business" is an entity that, together with affiliates and controlling interests, has average gross revenues for the three preceding years of not more than \$15 million. The SBA has approved these small business size standards. In the future, the Commission will auction 459 licenses to serve Metropolitan Trading Areas (MTAs) and 408 response channel licenses. There is also one megahertz of narrowband PCS spectrum that has been held in reserve and that the Commission has not yet decided to release for

licensing. The Commission cannot predict accurately the number of licenses that will be awarded to small entities in future actions. However, four of the 16 winning bidders in the two previous narrowband PCS auctions were small businesses, as that term was defined under the Commission's Rules. The Commission assumes, for purposes of this analysis, that a large portion of the remaining narrowband PCS licenses will be awarded to small entities. The Commission also assumes that at least some small businesses will acquire narrowband PCS licenses by means of the Commission's partitioning and disaggregation rules.

14. 220 MHz Radio Service—Phase I Licensees. The 220 MHz service has both Phase I and Phase II licenses. Phase I licensing was conducted by lotteries in 1992 and 1993. There are approximately 1,515 such non-nationwide licensees and four nationwide licensees currently authorized to operate in the 220 MHz band. The Commission has not developed a small business size standard for small entities specifically applicable to such incumbent 220 MHz Phase I licensees. To estimate the number of such licensees that are small businesses, we apply the small business size standard under the SBA rules applicable to "Cellular and Other Wireless Telecommunications" companies. This standard provides that such a company is small if it employs no more than 1,500 persons. According to Census Bureau data for 1997, there were 977 firms in this category, total, that operated for the entire year. Of this total, 965 firms had employment of 999 or fewer employees, and an additional 12 firms had employment of 1,000 employees or more. If this general ratio continues in the context of Phase I 220 MHz licensees, the Commission estimates that nearly all such licensees are small businesses under the SBA's small business size standard.

15. 220 MHz Radio Service—Phase II Licensees. The 220 MHz service has both Phase I and Phase II licenses. The Phase II 220 MHz service is a new service, and is subject to spectrum auctions. In the 220 MHz Third Report and Order, we adopted a small business size standard for "small" and "very small" businesses for purposes of determining their eligibility for special provisions such as bidding credits and installment payments. This small business size standard indicates that a "small business" is an entity that, together with its affiliates and controlling principals, has average gross revenues not exceeding \$15 million for the preceding three years. A "very small business" is an entity that, together with

its affiliates and controlling principals, has average gross revenues that do not exceed \$3 million for the preceding three years. The SBA has approved these small business size standards. Auctions of Phase II licenses commenced on September 15, 1998, and closed on October 22, 1998. In the first auction, 908 licenses were auctioned in three different-sized geographic areas: three nationwide licenses, 30 Regional Economic Area Group (EAG) Licenses, and 875 Economic Area (EA) Licenses. Of the 908 licenses auctioned, 693 were sold. Thirty-nine small businesses won licenses in the first 220 MHz auction. The second auction included 225 licenses: 216 EA licenses and 9 EAG licenses. Fourteen companies claiming small business status won 158 licenses.

16. Rural Radiotelephone Service. The Commission has not adopted a size standard for small businesses specific to the Rural Radiotelephone Service. A significant subset of the Rural Radiotelephone Service is the Basic Exchange Telephone Radio System (BETRS). The Commission uses the SBA's small business size standard applicable to "Cellular and Other Wireless Telecommunications," *i.e.*, an entity employing no more than 1,500 persons. There are approximately 1,000 licensees in the Rural Radiotelephone Service, and the Commission estimates that there are 1,000 or fewer small entity licensees in the Rural Radiotelephone Service that may be affected by the rules and policies adopted herein.

17. Air-Ground Radiotelephone Service. The Commission has not adopted a small business size standard specific to the Air-Ground Radiotelephone Service. We will use SBA's small business size standard applicable to "Cellular and Other Wireless Telecommunications," *i.e.*, an entity employing no more than 1,500 persons. There are approximately 100 licensees in the Air-Ground Radiotelephone Service, and we estimate that almost all of them qualify as small under the SBA small business size standard.

18. Fixed Microwave Services. Fixed microwave services include common carrier, private operational-fixed, and broadcast auxiliary radio services. At present, there are approximately 22,015 common carrier fixed licensees and 61,670 private operational-fixed licensees and broadcast auxiliary radio licensees in the microwave services. The Commission has not created a size standard for a small business specifically with respect to fixed microwave services. For purposes of this analysis, the Commission uses the SBA small business size standard for the

category "Cellular and Other Telecommunications," which is 1,500 or fewer employees. The Commission does not have data specifying the number of these licensees that have more than 1,500 employees, and thus are unable at this time to estimate with greater precision the number of fixed microwave service licensees that would qualify as small business concerns under the SBA's small business size standard. Consequently, the Commission estimates that there are up to 22,015 common carrier fixed licensees and up to 61,670 private operational-fixed licensees and broadcast auxiliary radio licensees in the microwave services that may be small and may be affected by the rules and policies adopted herein. We noted, however, that the common carrier microwave fixed licensee category includes some large entities.

19. Offshore Radiotelephone Service. This service operates on several UHF television broadcast channels that are not used for television broadcasting in the coastal areas of states bordering the Gulf of Mexico. There are presently approximately 55 licensees in this service. We are unable to estimate at this time the number of licensees that would qualify as small under the SBA's small business size standard for "Cellular and Other Wireless Telecommunications" services. Under that SBA small business size standard, a business is small if it has 1,500 or fewer employees.

20. Wireless Communications Services. This service can be used for fixed, mobile, radiolocation, and digital audio broadcasting satellite uses. The Commission established small business size standards for the wireless communications services (WCS) auction. A "small business" is an entity with average gross revenues of \$40 million for each of the three preceding years, and a "very small business" is an entity with average gross revenues of \$15 million for each of the three preceding years. The SBA has approved these small business size standards. The Commission auctioned geographic area licenses in the WCS service. In the auction, there were seven winning bidders that qualified as "very small business" entities, and one that qualified as a "small business" entity. We conclude that the number of geographic area WCS licensees affected by this analysis includes these eight entities.

21. Satellite Services. The SBA has developed a small business size standard for Satellite Telecommunications, which consists of all such firms having \$12.5 million or

less in annual receipts. According to Census Bureau data for 1997, in this category there was a total of 324 firms that operated for the entire year. Of this total, 273 firms had annual receipts of under \$10 million, and an additional twenty-four firms had receipts of \$10 million to \$24,999,999. Thus, under this size standard, the majority of firms can be considered small.

22. In addition to the estimates provided above, we consider certain additional entities that may be affected by the data collection from broadband service providers. Because section 706 requires us to monitor the deployment of broadband regardless of technology or transmission media employed, we anticipate that some broadband service providers will not provide telephone service. Accordingly, we describe below other types of firms that may provide broadband services, including cable companies, MDS providers, and utilities, among others.

23. Cable Television Relay Service. This service includes transmitters generally used to relay cable programming within cable television system distribution systems. The SBA has defined a small business size standard for Cable and Other Program Distribution, consisting of all such companies having annual receipts of no more than \$12.5 million. According to Census Bureau data for 1997, there were 1,311 firms in the industry category Cable and Other Program Distribution, total, that operated for the entire year. Of this total, 1,180 firms had annual receipts of \$10 million or less, and an additional 52 firms had receipts of \$10 million or more but less than \$25 million. Thus, under this standard, we estimate that the majority of providers in this service category are small businesses that may be affected by the rules and policies proposed in the Notice.

24. Cable System Operators (Rate Regulation Standard). The Commission has developed, with SBA approval, its own definition of a small cable system operator for purposes of rate regulation. Under the Commission's rules, a "small cable company" is one serving fewer than 400,000 subscribers nationwide. Based on our most recent information, we estimate that there were 1,439 cable operators that qualified as small cable companies at the end of 1995. Since then, some of those companies may have grown to serve over 400,000 subscribers, and others may have been involved in transactions that caused them to be combined with other cable operators. The Commission's rules define a "small system," for purposes of rate regulation, as a cable system with

15,000 or fewer subscribers. The Commission does not request nor does the Commission collect information concerning cable systems serving 15,000 or fewer subscribers, and thus is unable to estimate, at this time, the number of small cable systems nationwide.

25. Cable System Operators (Telecom Act Standard). The Communications Act, as amended, also contains a size standard for a small cable system operator, which is "a cable operator that, directly or through an affiliate, serves in the aggregate fewer than 1 percent of all subscribers in the United States and is not affiliated with any entity or entities whose gross annual revenues in the aggregate exceed \$250,000,000." The Commission has determined that there are 68,500,000 subscribers in the United States. Therefore, an operator serving fewer than 685,000 subscribers shall be deemed a small operator if its annual revenues, when combined with the total annual revenues of all of its affiliates, do not exceed \$250 million in the aggregate. Based on available data, we find that the number of cable operators serving 685,000 subscribers or less totals approximately 1,450. Although it seems certain that some of these cable system operators are affiliated with entities whose gross annual revenues exceed \$250,000,000, we are unable at this time to estimate with greater precision the number of cable system operators that would qualify as small cable operators under the definition in the Communications Act.

26. Multipoint Distribution Service, Multichannel Multipoint Distribution Service, and ITFS. Multichannel Multipoint Distribution Service (MMDS) systems, often referred to as "wireless cable," transmit video programming to subscribers using the microwave frequencies of the Multipoint Distribution Service (MDS) and Instructional Television Fixed Service (ITFS). In connection with the 1996 MDS auction, the Commission established a small business size standard as an entity that had annual average gross revenues of less than \$40 million in the previous three calendar years. The MDS auctions resulted in 67 successful bidders obtaining licensing opportunities for 493 Basic Trading Areas (BTAs). Of the 67 auction winners, 61 met the definition of a small business. MDS also includes licensees of stations authorized prior to the auction. In addition, the SBA has developed a small business size standard for Cable and Other Program Distribution, which includes all such companies generating \$12.5 million or less in annual receipts. According to

Census Bureau data for 1997, there were a total of 1,311 firms in this category, total, that had operated for the entire year. Of this total, 1,180 firms had annual receipts of under \$10 million and an additional 52 firms had receipts of \$10 million or more but less than \$25 million. Consequently, we estimate that the majority of providers in this service category are small businesses that may be affected by the rules and policies adopted herein. This SBA small business size standard also appears applicable to ITFS. There are presently 2,032 ITFS licensees. All but 100 of these licenses are held by educational institutions. Educational institutions are included in this analysis as small entities. Thus, we tentatively conclude that at least 1,932 licensees are small businesses.

27. Local Multipoint Distribution Service. Local Multipoint Distribution Service (LMDS) is a fixed broadband point-to-multipoint microwave service that provides for two-way video telecommunications. The auction of the 1,030 Local Multipoint Distribution Service (LMDS) licenses began on February 18, 1998 and closed on March 25, 1998. The Commission established a small business size standard for LMDS licenses as an entity that has average gross revenues of less than \$40 million in the three previous calendar years. An additional small business size standard for "very small business" was added as an entity that, together with its affiliates, has average gross revenues of not more than \$15 million for the preceding three calendar years. The SBA has approved these small business size standards in the context of LMDS auctions. There were 93 winning bidders that qualified as small entities in the LMDS auctions. A total of 93 small and very small business bidders won approximately 277 A Block licenses and 387 B Block licenses. On March 27, 1999, the Commission re-auctioned 161 licenses; there were 40 winning bidders. Based on this information, we conclude that the number of small LMDS licenses consists of the 93 winning bidders in the first auction and the 40 winning bidders in the re-auction, for a total of 133 small entity LMDS providers.

28. Electric Power Generation, Transmission and Distribution. This industry group comprises establishments primarily engaged in generating, transmitting, and/or distributing electric power. Establishments in this industry group may perform one or more of the following activities: (1) Operate generation facilities that produce electric energy; (2) operate transmission systems that convey the electricity from

the generation facility to the distribution system; and (3) operate distribution systems that convey electric power received from the generation facility or the transmission system to the final consumer. The SBA has developed a small business size standard for the category of Electric Power Generation, Transmission and Distribution. Under that standard, a firm is small if, including its affiliates, its total electric output for the preceding fiscal year did not exceed 4 million megawatt hours. According to Census Bureau data for 1997, there were 1,519 firms in this category that operated for the entire year. Census data do not track electric output and we have not determined how many of these firms fit the SBA definition for small, with fewer than 4 million megawatt hours of electric output. Consequently, the Commission estimates that all 1,519 firms may be considered small by the SBA definition.

IV. Description of Proposed Reporting, Recordkeeping, and Other Compliance Requirements

29. The Notice proposes to extend the data collection for five years and to adopt changes to the Form 477 that will affect reporting, recordkeeping, and other compliance requirements. These changes are described below. Additionally, the Notice seeks comment on (1) requiring filers to report the number of high-speed connections in service, by technology and by speed, in particular ZIP Codes, (2) requiring more—or all—facilities-based providers to report information about high-speed connections on Form 477, and (3) requiring more carriers to report local telephone competition data.

30. The proposed changes to the Form 477 would:

- Require filers reporting high-speed cable modem connections also to report their best estimate of the percentage of mass-market end-user premises in the filer's service area, in that state, to which high-speed cable modem service is available over the filer's own facilities.

- Similarly, require filers reporting high-speed DSL connections also to report their best estimate of the percentage of mass-market end-user premises in the filer's service area, in that state, to which high-speed DSL service is available over the filer's own facilities.

- Require filers to report the percentage of connections that have information transfer rates exceeding 200 kilobits per second (kbps) in both directions and rates in the faster direction that are, respectively: (1) Greater than 200 kbps and less than 2.5

megabits per second (mbps); (2) greater than or equal to 2.5 mbps and less than 10 mbps; (3) greater than or equal to 10 mbps and less than 25 mbps; (4) greater than or equal to 25 mbps and less than 100 mbps; and (5) greater than or equal to 100 mbps. (Currently, filers report the percentage of high-speed connections that are faster than 2 mbps in both directions.)

- In place of the current requirement that all filers report high-speed connections over "other traditional wireline including symmetric xDSL technology" at the end-user location, require filers to report high-speed connections separately for "symmetric xDSL" and for "other traditional wireline" (e.g., T-1/DS1) technologies.

- Require filers to report ZIP Code lists separately for asymmetric xDSL, symmetric xDSL, cable modem, satellite, terrestrial wireless, electric power line, and (as a single category) other technologies including fiber to the home. (Currently, filers report a single list of ZIP Codes in which the filer has at least one subscriber to high-speed service without indicating the type of technology used.)

- Require filers to estimate the percentage of reported high-speed connections that have information transfer rates exceeding 200 kbps in both directions, and that are used by residential and small business end users.

- Require reporting competitive LECs explicitly to distinguish their use of unbundled network element (UNE) loops from their use of the UNE-Platform, and explicitly to report their resale of other carriers' services. (Currently, competitive LECs report their use of all types of UNEs together, and competitive LECs' resale of other carriers' retail services must be estimated, as a residual, from other data they report.)

- Require providers of local telephone service to report the extent to which they are also the end user's default interstate long distance carrier.

V. Steps Taken To Minimize Significant Economic Impact on Small Entities, and Significant Alternatives Considered

31. The RFA requires an agency to describe any significant alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives: (1) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule

for small entities; (3) the use of performance, rather than design, standards; and (4) an exemption from coverage of the rule, or any part thereof, for small entities.

32. The Notice seeks comment, in light of four year's experience since the adoption of the reporting program, on ways that the Commission might improve this data gathering effort. The Notice asks whether the collection of more granular data would enhance the Commission's ability to understand the status and degree of broadband deployment pursuant to section 706 of the 1996 Act. At the same time, the Notice seeks comment on ways by which the Commission can limit burdens imposed on providers, particularly with regard to smaller providers that may have limited resources, prevent the dissemination of competitively-sensitive information, and limit the data collection, wherever possible, to information that providers routinely keep in the ordinary course of business of that is easily derived from their records. The proposed changes to the Form 477 set forth in the Notice would minimize additional reporting burden by (1) focusing direct questions about service availability on the two major mass-market high-speed services and (2) allowing providers of those services to estimate state-level service availability using methodologies they may already employ to inform the investment community about system-wide service availability. As a practical matter, any additional reporting burdens on small entities should be minimal. The few small facilities-based broadband service providers that currently file Form 477 on a voluntary basis find that only a few questions apply to their situation.

33. The Notice asks whether eliminating—or lowering—the reporting threshold for broadband data (i.e., at least 250 high-speed lines (or wireless channels) in a state connecting end users to the Internet) would yield significantly improved data about broadband deployment, particularly in rural areas, and requests that parties identify with specificity any associated burdens. The Notice similarly asks about the benefits and specific associated burdens of lowering the reporting threshold for local telephone competition data (i.e., at least 10,000 local telephone service lines (or wireless channels), or at least 10,000 mobile telephone service subscribers, in a state). At the same time, the Notice expressly states the Commission's desire and intention to work closely with service providers, including small entities, to minimize burdens wherever

possible, particularly for smaller providers that may have limited resources.

VI. Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules

34. The current FCC Form 477 and the FCC Form 325 (Annual Report of Cable Systems) collect data on cable modem and cable-telephony service subscribers. The Form 325, however, focuses on cable physical system (PSID) data. A Form 325 is required from each PSID that has at least 20,000 subscribers and from a random sample of PSIDs that have fewer than 20,000 subscribers. The data are associated on the form with other aspects of physical system operation to give a complete picture of related aspects of PSID operation. By contrast, the requirement to report cable modem service connections on Form

477 applies to holding companies whose subsidiaries and affiliates provide, in total, at least 250 high-speed connections to end users in a particular state, and the requirement to report cable-telephony lines applies when the holding company provides at least 10,000 local telephone service lines in a particular state. Form 325 collects information as of June 30 of each year. Form 477 collects data as of June 30 and December 31. This Notice seeks comment on whether all facilities-based providers should be required to report information about high-speed connections on Form 477, which, for its intended purposes, focuses on and is analyzed on a holding company rather than PSID basis.

Ordering Clauses

Accordingly, *it is ordered* that, pursuant to sections 1–5, 10, 11, 201–

205, 215, 218–220, 251–271, 303(r), 332, 403, 502, and 503 of the Communications Act of 1934, as amended, 47 U.S.C. 151–155, 160, 161, 201–205, 215, 218–220, 251–271, 303(r), 332, 403, 502, and 503, and section 706 of the Telecommunications Act of 1996, 47 U.S.C. 157 nt, this notice, with all attachments, is *adopted*.

It is further ordered that the Commission's Consumer and Governmental Affairs Bureau, Reference Information Center, *shall send* a copy of this Notice of Proposed Rulemaking, including the Initial Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

Draft FCC Form 477 and Instructions

BILLING CODE 6712-01-P

FCC Form 477 -- Local Telephone Competition and Broadband Reporting Cover Page: Name & Contact Information

OMB NO: 3060-0816

EXPIRATION DATE: / /

December 31, 2004

All filers must complete items 1 - 11 of this Cover Page. Data as of:

1. Filing status
 Click and select from drop-down list

2. Company
 Click and select from drop-down list

3. Indicate the category that best describes the operations covered by this filing.

 Click and select from drop-down list

4. Filers must report separate data for ILEC and non-ILEC operations.
 Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.

 Click and select from drop-down list

5. Use the following drop-down box to select the name of your parent or controlling entity. If you are not affiliated with any other filer, select your company name. Select "not shown" if no appropriate name appears in the list. See Instructions Section IV-B-1 for information on preparing file names.

 Click and select from drop-down list

If you selected "not shown" above, then provide the following:
 Parent or controlling entity name (if none, enter company name).

6. State.
 Click and select from drop-down list

7. Contact person (person who prepared the data contained below).

8. Contact person telephone number and e-mail address.
 phone
 e-mail

9. Indicate whether this is an original or revised filing.

 Click and select from drop-down list

10. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.

 Click and select from drop-down list

11. Indicate if this is a complete file or a redacted version of a complete file.

 Click and select from drop-down list

Please review instructions before completing form.

Reminders:

1) Ensure files are virus free by using up-to-date virus detection software. Filers are encouraged to submit files via e-mail (address: FCC477@fcc.gov).

2) If you are filing original or revised data for an earlier semi-annual reporting period, do not use this particular form (which is only for data as of December 31, 2004). See reminder 4.

3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL2002, files whose structure has been altered, and files with improper names will have to be refilled.

4) If you have questions about the form, contact the Wireline Competition Bureau, Industry Analysis and Technology Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.

5) You must submit a Certification Statement signed by an officer of your company. A single statement may cover all files submitted. See Instructions sections IV & V.

6) If you request non-disclosure of some data, you must file a separate version of the form with such information redacted. See Instructions sections IV.B and IV.C for information on preparing a redacted file.

7) Name your files as specified in Instructions section IV.B.1. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "x" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example >>> SST#D04name.XLS

FCC Form 477 -- Local Telephone Competition and Broadband Reporting Part I: Broadband

OMB NO: 3060-0816

EXPIRATION DATE: ___/___/___

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more lines or wireless channels in the state that connect end users to the Internet at information transfer rates exceeding 200 kbps in at least one direction. For this purpose, include connections provided over your own local loop facilities or over lines or wireless channels you provisioned to enable information transfer at the end-user location at rates exceeding 200 kbps in at least one direction. See instructions for definitions of "broadband", "end user", "residential & small business", "own local loop facilities", and "mass-market end user premises".

If you provide data in Part I, you must provide in Part V specified lists of the 5-digit Zip Codes of the end-user locations to which you provide the broadband connections reported herein. See instructions.

Data as of December 31, 2004

A. Lines and wireless channels connecting end users to the Internet that you provided over your own local loop facilities, or over UNE loops or other lines and wireless channels that you obtained from unaffiliated entities and equipped as broadband, categorized by technology at the end-user location.

	Percentages of lines and wireless channels reported in (a), and																			
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)	(j)										
Total connections to end users (information transfer rates exceeding 200 kbps in at least one direction)																				
Used by residential & small business end users																				
Provided over your own local loop facilities or the wireless last-mile equivalent																				
Billed (or incorporated in a service billed) to end users by you, or your affiliates or agents																				
Used by residential & small business end users																				
Used by residential & small business end users																				
Have information transfer rates in the faster direction greater than 200 kbps and less than 2.5 mbps																				
Have information transfer rates in the faster direction greater than or equal to 2.5 mbps and less than 10 mbps																				
Have information transfer rates in the faster direction greater than or equal to 10 mbps and less than 25 mbps																				
Have information transfer rates in the faster direction greater than or equal to 25 mbps and less than 100 mbps																				
Have information transfer rates in the faster direction greater than or equal to 100 mbps																				

- 1 - 1. Asymmetric xDSL.
- 1 - 2. Symmetric xDSL.
- 1 - 3. Other traditional wireline.
- 1 - 4. Cable modem.
- 1 - 5. Optical carrier (fiber to the end user).
- 1 - 6. Satellite.
- 1 - 7. Terrestrial wireless fixed.
- 1 - 8. Terrestrial wireless mobile.
- 1 - 9. Electric power line.
- 1 - 10. All other technologies. Report specific technology and the corresponding number of connections in the comment section of Part IV.

Note: In Part I, report actual counts. Do not report voice-grade equivalent measures.

Note: Filers that report a non-zero value in column (a) of Line A.1-1, in column (a) of Line A.1-2, or in column (a) of Line A.1-4 must also complete Part I.B.

FCC Form 477 -- Local Telephone Competition and Broadband Reporting Part I: Broadband (continued)

OMB NO: 3060-0816

EXPIRATION DATE: / /

For the purposes of completing Part I-B, mass-market end-user premises include residential living units and also individual living units in such institutional settings as college dormitories and nursing homes. Mass-market premises also include small businesses to the extent that you consider small business end users to be target customers for broadband services you (including affiliates and agents) primarily design for, and market to, residential end users.

(a)
Estimated % of mass-market end-user premises

B. Report your best estimate of the percentage of mass-market end-user premises in your service area, in this state, to which broadband connections are available over your own local loop facilities.

I - 11. xDSL (asymmetric or symmetric).

I - 12. Cable modem.

FCC Form 477 -- Local Telephone Competition and Broadband Reporting Part III: Mobile Local Telephone

OMB NO: 3060-0816

EXPIRATION DATE: / /

[-----]

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers", "own facilities", and "default interstate long distance carrier".

Data as of December 31, 2004

A. Mobile voice telephony subscribers in service and served over your own facilities. (Include directly billed subscribers, pre-paid subscribers, and subscribers served via resellers.)

(a) Network telephone service subscribers	(b) Percentage of subscribers reported in (a) that are directly billed or pre-paid subscribers	(c) Percentage of subscribers reported in (a) that are directly billed or pre-paid subscribers AND for which you (including affiliates) are the default interstate long distance carrier
--	---	---

III - 1. Cellular, PCS & other mobile telephony.

Note: In Part III, count a subscriber as a mobile handset, car-phone or other revenue-generating active voice unit that has a unique phone number and that can place and receive calls from the public switched network. Subscriber counts by state should be based on the area codes of the phone numbers provided to subscribers.

FCC Form 477, Instructions for March 1, 2005 Filing (of data as of 12/31/04).
OMB No: 3060-0816; Expiration Date: xx/xx/xxxx.

Estimated Average Burden Hours Per Response: 15 Hours.

Instructions for Local Telephone Competition and Broadband Reporting Form (FCC Form 477)

I. Purpose

The FCC Form 477 collects information on the deployment of broadband, local telephone and mobile telephony services from providers of these services. Data obtained from this form will be used to describe competition for local telecommunications services and deployment of broadband services. See *Local Telephone Competition and Broadband Reporting*, Order, FCC xx-xxx (rel. xx xx, xxxx) for additional information about this collection.

II. Who Must File This Form?

Three types of communications service providers must file this form:

- **Providers of Broadband Services:** Facilities-based broadband providers (including incumbent and competitive LECs, cable companies, fixed wireless providers, terrestrial and satellite mobile wireless providers, MMDS providers, utilities, municipalities, and others) must complete and file the applicable portions of this form for each state in which the filer (including all commonly-owned and commonly-controlled entities) provides 250 or more broadband lines (or wireless channels) that terminate at an end-user location and connect the end user to the Internet. For purposes of this information collection, broadband lines (or wireless channels) carry information, at the end-user location, at information transfer rates exceeding 200 kilobits per second (kbps) in at least one direction. Note that, for purposes of this information collection, we also refer to "broadband" lines as "high-speed" lines. The applicable portions of the form are: (1) The Cover Page; (2) Part I; (3) Part IV (if necessary); and Part V. The term "state" includes the District of Columbia and the "Territories and possessions."

Note: An entity is considered a "facilities-based" broadband provider if it provides broadband lines (as defined above) over facilities that it (including all commonly-owned and commonly-controlled entities) owns or provisions/equips as broadband. More specifically, facilities-based providers include entities that provide broadband connections to end-user premises over their own local loop facilities, or over unbundled network elements (UNEs), special access

lines, and other leased lines and wireless channels that they obtain from unaffiliated entities and equip as broadband.

- **Providers of Local Telephone Services:** Incumbent and competitive local exchange carriers (LECs) must complete and file the applicable portions of the form for each state in which they provide 10,000 or more "voice-grade equivalent lines (or wireless channels)." For purposes of determining whether this threshold applies, the filer (including all commonly-owned and commonly-controlled entities) need only consider the sum of the number of voice-grade equivalent lines (or wireless channels) that would be reported in Line A.II-1(a), Line B.II-2(a), and Line B.II-3(a) of the form. The applicable portions of the form are: (1) The Cover Page; (2) Part II; (3) Part IV (if necessary); and Part V.

- **Providers of Mobile Telephony Services:** Facilities-based providers of mobile telephony services (see 47 CFR 20.15(b)(1)) must complete and file the applicable portions of this form for each state in which they serve 10,000 or more mobile telephony subscribers. Entities providing mobile telephony services using spectrum obtained via lease or other agreement with a Band Manager must also complete the applicable portions of this form. The applicable portions of the form are: (1) The Cover Page; (2) Part III; (3) Part IV (if necessary).

Note: Mobile telephony is defined as real-time, two-way switched voice service that is interconnected with the public switched network using an in-network switching facility that enables the provider to reuse frequencies and accomplish seamless handoff of subscriber calls.

Important Note for All Providers about Calculating Reporting Thresholds: Reporting thresholds are calculated based collectively on all commonly-owned and commonly-controlled affiliates operating in a given state. [See 47 U.S.C. 153(1) (establishing a 10% equity interest as indicia of ownership).] That is, a provider must report for each state in which it and all affiliates collectively meet reporting thresholds. Such affiliates are, nevertheless, permitted to file forms for such states either combined or separately—at their discretion.

III. Line-by-Line Instructions for Completing FCC Form 477

(Note: Key terms that appear in this section are summarized in VI. Glossary of Selected Terms Appearing on FCC Form 477.)

A. Cover Page—Name and Contact Information (All Filers)

Line 1: Select from the drop-down menu the applicable filing status.

Line 2: Provide the name of the entity whose data is contained in the form. (If the filer has a holding company or controlling entity with a different name, that name must be reported in Line 5 of the Cover Page.)

Line 3: Select the category that best describes the type of technology that you use to provide services. Choose from Cable Coaxial, Fiber, Fixed Wireless, Mobile Wireless, Reseller, Satellite, Wireline Local Exchange Carrier, or Other.

Line 4: In general, you can combine operations in a state or report them separately. However, entities that are, or are affiliated with, an incumbent LEC must complete and file separate forms for their incumbent LEC and non-incumbent LEC operations. All filers should indicate whether this filing is for an incumbent LEC filing or a non-incumbent LEC filing.

Line 5: You must provide a single name, such as a holding company name, so that all affiliated or commonly-controlled entities can be identified. See "Important Note for All Providers about Calculating Reporting Thresholds," above, for more information on which entities should be considered to be affiliated or commonly-controlled. The Excel 2002 spreadsheet version of the form (preferred) has a drop down box with standardized names. The Lotus 123 spreadsheet version of the form has a list of standardized names. If your holding company or controlling entity's name is not in the list, enter that name in the space provided. (If you have no holding company or controlling entity, enter in Line 5 the same name as you entered in Line 2.)

Line 6: File a separate form for each state in which you meet the filing threshold. In this line, indicate the state for which you are filing data. The term "state" is defined to include the District of Columbia and the "Territories and possessions." See 47 U.S.C. 153(40).

Line 7: Provide a contact name for the person who prepared this filing.

Line 8: Provide the telephone number and e-mail address for the contact person listed in Line 7.

Line 9: File a revised form if you discover mistakes. Use Line 9 to indicate whether this filing is an original or a revised filing.

Line 10: Indicate whether you request non-disclosure of some or all of the information reported in the Form 477. You may request non-disclosure if you believe that this information is

privileged and confidential and that public disclosure of such information would likely cause substantial harm to the competitive position of the filer. Note that if you request non-disclosure of some or all of the data, you must also file a redacted version of the form (in which the specific items of data you believe to be privileged and confidential are redacted, as explained below in Sections IV-B and IV-C of the instructions).

Line 11: Indicate whether this file is a complete file or a redacted version of a complete file. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.

B. Part I.A.: Broadband (Broadband Providers Only)

Include in Part I.A.: In this section, facilities-based broadband providers report information about their broadband lines/wireless channels (for purposes of this section "lines") in service to end users. End users are residential, business, institutional and government entities who use broadband services for their own purposes and who do not resell such services to other entities or incorporate such services into retail Internet-access services that they market to end users. (Note that an Internet Service Provider is not an "end user" for purposes of Part I of FCC Form 477.) The end users of retail services delivered over the lines reported in Part I may be billed by the filer (including affiliates), by an agent of the filer, or by an unaffiliated entity. For purposes of this information collection, broadband lines carry information between the Internet and the end-user location at information transfer rates exceeding 200 kbps in at least one direction. (For purposes of this information collection, we also refer to "broadband" lines as "high-speed" lines.) In categorizing lines as "broadband," filers should consider the end user's authorized maximum usage ("speed") on that connection. Filers must report wired broadband lines provisioned over "local loop" facilities owned by the filer (including affiliates), as well as broadband lines provisioned over UNEs, special access lines, and other leased lines that the filer obtains from an unaffiliated entity and equips as broadband. Filers also must report broadband lines that they provision over the wireless last-mile equivalent of the local loop. Do not convert into voice-grade equivalent measures any lines reported in Part I.

Exclude in Part I.A.: Broadcast cable television service and other multi-channel video programming; video-on-demand type service unless it is

bundled with Internet-type access or uses Internet-type delivery protocols; and channelized services which restrict the customer to both transmitting and receiving data at 200 kbps or less. Exclude lines that connect two locations of the same large-business or other end-user entity (not to be reported anywhere on FCC Form 477) and special access and private line services that you believe are used for exchange telephone service (to be reported in Part II-C). Where a filer does not know whether a high-capacity line or wireless channel is being used as a broadband line or as a telephone service line, the filer should report that line in Part II, on Line C.II-6. If you provide a line to an unaffiliated filer who is likely to include services provided over that line in its own report (for example, because the unaffiliated filer equips the line or UNE as broadband), then that line should be reported in Part II-C of your filing.

Lines in Part I.A.

Report broadband lines on Lines A.I-1 through A.I-9 based on the technology employed by the part of the line that actually connects to the end-user premises. If different technologies are used in the two directions of information transfer ("downstream" and "upstream"), report the line in the technology category for the higher-rate direction. Count only lines that are in service connecting the end user to the Internet, including lines over which you (including affiliates or agents) provide an Internet-access service to the end user and lines over which an unaffiliated entity (which is not your agent) provides an Internet-access service to the end user.

Line A.I-1: Report the number of broadband lines provided over asymmetric xDSL technologies. Do not convert these lines into a voice-grade equivalent measure.

Line A.I-2: Report the number of broadband lines provided over symmetric xDSL technologies. Do not convert these lines into a voice-grade equivalent measure.

Line A.I-3: Report the number of broadband lines provided over other traditional wireline facilities. Do not include broadband lines provided over symmetric xDSL service, but report such lines in Line A.I-2. Do not convert these lines into a voice-grade equivalent measure.

Line A.I-4: Report the number of broadband lines provided over coaxial carrier systems including hybrid fiber-coaxial systems (*i.e.*, "cable modem" connections). Do not convert these lines into a voice-grade equivalent measure.

Line A.I-5: Report the number of broadband lines provided over optical carrier terminations at the end-user premises. Note that broadband lines that are provisioned over optical fiber facilities used elsewhere in the network should not be reported in this category. For example, lines provisioned as "fiber to the curb" do not qualify (because, by using a non-fiber "drop," they are not "fiber to the home.") Do not convert these lines into a voice-grade equivalent measure.

Line A.I-6: Report the number of broadband lines provided over satellite facilities. Do not convert these lines into a voice-grade equivalent measure.

Line A.I-7: Report the number of broadband lines provided over terrestrial fixed wireless facilities (whether using licensed or unlicensed spectrum). Do not convert these lines into a voice-grade equivalent measure.

Line A.I-8: Report the number of broadband lines provided over terrestrial mobile wireless facilities (whether using licensed or unlicensed spectrum). Do not convert these lines into a voice-grade equivalent measure.

Line A.I-9: Report the number of broadband lines provided over electric power lines. Do not convert these lines into a voice-grade equivalent measure.

Line A.I-10: Report the number of broadband lines provided over all other technologies. Do not convert these lines into a voice-grade equivalent measure. Note that the filer must identify each specific technology used to provide the lines reported in Line A.I-10, and the corresponding number of connections for each specific technology, in the comment section of Part IV of FCC Form 477.

Columns in Part I.A.

General Note about Reporting Percentage Breakouts: Parts I, II, and III of Form 477 direct filers to provide percentages breakouts for specific line counts. If disaggregated counts exist for another purpose, then these must be used to calculate the requested percentage breakouts. However, filers are not expected to calculate percentages based on exhaustive counts performed solely for this task. Rather, where disaggregated counts do not exist, filers may provide good faith estimates of percentages based on the best information available to the filer. For example, if there is a pricing distinction between services provided to residential, small business, and large business customers, then billing information may be used to estimate the percentage of lines provided to residential and small business customers. In the absence of such

information, however, filers should rely on studies done for other purposes, such as marketing and business plan information, demographic data, *etc.* A filer should conduct limited special studies only in the event that it cannot provide estimates of percentage breakouts that it reasonably expects to be accurate within plus or minus five percentage points.

Column (a): Report the total number of broadband lines (*i.e.*, connections in service to end users that carry information, at the end-user location, at information transfer rates exceeding 200 kbps in at least one direction) as described in each of Lines A.I-1 through A.I-10, above.

Column (b): Report the percentage of total lines reported in column (a) that are in service to residential and small business end users (as opposed to large business, institutional, or other end users). In Part I of FCC Form 477, classify lines as being used by residential and small business end users if the end user has a broadband connection of a type (as indicated by, *e.g.*, information transfer rates, features, and price) that is most typically associated with (*i.e.*, primarily designed for, or marketed to) residential end users.

Column (c): Report the percentage of total lines reported in column (a) that are provided over your own local loop facilities, or the wireless last-mile equivalent, connecting to the end user's premises. Count as your own such facilities, those wired local loop facilities that you (including your affiliates) owned, those wireless connections to end-user premises that are deployed over unlicensed spectrum or spectrum for which you hold a license, manage, or have obtained the right to use via lease or other arrangement with a Band Manager, and facilities you obtained the right to use from unaffiliated entities as dark fiber or satellite transponder capacity (and that you used as part of your own system). Do not include, in column (c), broadband lines that you provided over UNEs, special access lines, and other leased lines that you obtained from an unaffiliated entity and equipped as broadband.

Column (d): Report the percentage of total lines reported in column (a) that are billed (or incorporated in a service billed) to end users by the filer (including affiliates) or by the filer's agents. Do not include in this percentage any lines reported in column (a) that are billed to an unaffiliated Internet Service Provider (ISP) that has incorporated the filer's broadband service into a premium Internet-access

service marketed under the unaffiliated ISP's own name.

Note on columns (e)-(j) of Part I.A: The percentages reported in columns (e)-(j) of Part I.A refer, in each case, to lines that carry information, at the end-user location, at information transfer rates exceeding 200 kbps in both directions. In categorizing lines in this manner, filers should consider the end user's authorized maximum usage ("speed") on that connection.

Column (e): Report the percentage of total lines reported in column (a) that carry information, at the end-user location, at information transfer rates exceeding 200 kbps in both directions and that are used by residential and small business end users. (As noted in instructions for column (b), above, classify lines as "residential and small business" if the end user has in service a broadband connection of a type most typically associated with residential end users.)

Column (f): Report the percentage of total lines reported in column (a) that carry information, at the end-user location, at information transfer rates exceeding 200 kbps in both directions and, in the faster direction, at rates greater than 200 kbps and less than 2.5 mbps.

Column (g): Report the percentage of total lines reported in column (a) that carry information, at the end-user location, at information transfer rates exceeding 200 kbps in both directions and, in the faster direction, at rates greater than or equal to 2.5 mbps and less than 10 mbps.

Column (h): Report the percentage of total lines reported in column (a) that carry information, at the end-user location, at information transfer rates exceeding 200 kbps in both directions and, in the faster direction, at rates greater than or equal to 10 mbps and less than 25 mbps.

Column (i): Report the percentage of total lines reported in column (a) that carry information, at the end-user location, at information transfer rates exceeding 200 kbps in both directions and, in the faster direction, at rates greater than or equal to 25 mbps and less than 100 mbps.

Column (j): Report the percentage of total lines reported in column (a) that carry information, at the end-user location, at information transfer rates exceeding 200 kbps in both directions and, in the faster direction, at rates greater than or equal to 100 mbps.

C. Part I.B.: Broadband (Providers of Asymmetric xDSL Connections, Symmetric xDSL Connections, or Cable Modem Connections Only)

Lines in Part I.B.

Filers that report xDSL (asymmetric or symmetric) connections in Part I.A and filers that report cable modem connections in Part I.A must complete Part I.B.

Line B.I-11: Complete column (a) of Line B.I-11 if there is a non-zero entry in column (a) of Line A.I-1 or in column (a) of Line A.I-2.

Line B.I-12: Complete column (a) of Line B.I-12 if there is a non-zero entry in column (a) of Line A.I-4.

Columns in Part I.B.

Column (a): Report in column (a) your best estimate of the percentage of mass-market end-user premises in your service area, in this state, to which broadband lines were available over your own local loop facilities, as of the date specified for a particular filing (*e.g.*, as of December 31, 2004, for the filing due March 1, 2005). Mass-market end user premises include residential living units (*e.g.*, single family dwellings and individual households in multiple dwelling units such as apartments, condominiums, mobile home parks, *etc.*) and also individual living units in such institutional settings as college dormitories and nursing homes. Mass-market end-user premises also include small businesses to the extent that you consider small business end users to be target customers for broadband services that you (including your affiliates), or your agents, primarily design for, or market to, residential end users. Guidance on generating a "best estimate": Rather than setting out detailed methodologies to which filers must adhere in reporting estimated service availability by state, we intend to rely on best practices in the cable and local exchange industries to provide us with carefully considered estimates. Filers should note the following points. (1) If your "franchise area" or "traditional service area" (as those terms would be understood by the relevant municipal or state regulatory body) includes areas to which your existing plant has not been "built out," you must include—in the denominator of the fraction that generates your best-estimate percentage—an estimate of the number of mass-market end-user premises that are located in those non-built out areas. Thus, for example, the number of mass-market end-user premises in a cable TV franchise area may be larger than the number of "video homes passed" by a cable system

operating in that franchise area. (2) The best estimate of service availability should not require degradation, outside of normal operating parameters, of the service quality of the filer's most heavily purchased type(s) of mass-market broadband connection. (3) Filers should take into account rule-of-thumb lessons from the experience of deploying particular broadband services in similar areas (e.g., differences between actual and theoretical availability of xDSL service to mass-market end-user premises in areas in which the service already has been deployed, such as may arise due from loop-conditioning factors and loop lengths).

D. Part II: Wireline and Fixed Wireless Local Telecommunications (Local Telephone Service Providers Only)

Include in Part II: Report all local exchange service lines (or wireless channels) and all lines (or wireless channels) that are used for exchange access services that you do not report in Part I. (Hereafter, for purposes of this section, we use the terms "local exchange lines" or "lines.") See "Note for reporting channelized service" and definition of "voice telephone service," below.

Exclude in Part II: Do not report in Part II lines not yet in service, lines used for interoffice trunking, lines that connect two locations of the same customer, company official lines, or lines that you provide as a broadband service reported in Part I. Do not report in Part II transport lines between your switching center and Internet protocol, ATM or circuit switched networks, where you already are reporting the portion of the line between the end user and your switching center, even if you multiplexed those lines and provided higher capacity lines between your switching center and those networks. Note for reporting channelized service: In Part II-A and Part II-B, providers are to report voice-grade equivalent lines. Count as one voice-grade equivalent line: traditional analog POTS lines, Centrex-CO extensions, and Centrex-CU trunks. Count lines based on how they are charged to the customer rather than how they are physically provisioned. That is, when a customer is charged for channelized service, report the number of activated, charged-for channels rather than the theoretical capacity of the line. Examples: Count Basic Rate Integrated (BRI) Services Digital Network (ISDN) lines as two voice-grade equivalent lines. Report 8 voice-grade equivalent lines if a customer is charged for 8 trunks that happen to be provisioned over a DS1 circuit. If a customer is charged for a fully-channelized DS1

circuit, report 24 voice-grade equivalent lines. Lines reported in Part II-C, however, should not be reported in voice-grade equivalents, but should reflect actual circuit counts. Note for competitive LECs providing local exchange service over hybrid fiber-coaxial cable television systems: If you cannot determine the number of lines from your records, you are permitted to report the number of subscribers.

Lines in Part II

In Lines A.II-1 (service provided to end users) and Lines B.II-2 through B.II-3 (service provided to other carriers), report voice-grade equivalent lines used to provide voice telephone service. By "voice telephone service," we mean local exchange or exchange access services that allow end users to originate and/or terminate local telephone calls on the public switched network, whether used by the end user for voice telephone calls or for other types of calls carried over the public switched network (for example, lines used for facsimile equipment or lines used occasionally or exclusively for "dial-up" connection to the Internet). Filers report voice telephone service in terms of voice-grade equivalent lines. Thus, a voice-grade equivalent line directly connects an end user to a carrier and allows the end user to originate and/or terminate local telephone calls on the public switched network. Voice-grade equivalent lines include high capacity lines that are channelized to provide voice-grade service. See "Note for reporting channelized service," above.

Line A.II-1: Report total voice-grade equivalent lines you provided—that is, billed—directly to end-user consumers. Include lines provided to end users by your agents or under traditional marketing arrangements. For example, include lines provided to shared-tenant service providers. Note that an Internet Service Provider (ISP) may be an end user of local exchange service lines.

Line B.II-2: Report total voice-grade equivalent lines you provided to unaffiliated telecommunications carriers under a Total Service Resale arrangement (i.e., provided pursuant to section 251(c)(4) of the Communications Act of 1934, as amended).

Line B.II-3: Report total voice-grade equivalent lines you provided to unaffiliated telecommunications carriers under other resale arrangements, including reselling Centrex/Centron.

In Lines C.II-4 through C.II-6, report the actual number of lines billed to the customer (i.e., reflecting actual circuit counts). Do not convert into voice-grade equivalent measures any high capacity

lines reported on Lines C.II-4 through C.II-6. As noted in the instructions for Part I, where a provider does not know whether a high capacity line is being used as a broadband line or as a telephone service line, it should report that line on Line C.II-6, rather than in Part I of its filing. Also, if you provide a line to another filer who is likely to include broadband services provided over that line in its own report (for example, because the other filer equips the line or UNE as broadband), then that line should be reported in Part II-C of your filing, not in Part I.

Line C.II-4: Report lines that you provided to unaffiliated telecommunications carriers under an unbundled network element (UNE) loop arrangement, where you do not provide switching for the line. Include the high frequency portion of the loop if sold as a UNE. Do not convert any high capacity lines provided under such UNE arrangements into voice-grade equivalent measures.

Line C.II-5: Report lines that you provided to unaffiliated telecommunications carriers under a UNE loop arrangement, where you also provide switching for the line (i.e., "UNE-Platform"). Do not convert any high capacity lines provided under such UNE arrangements into voice-grade equivalent measures.

Line C.II-6: Report connections not reported in Part I (i.e., as broadband) that are either special access or private lines and that connect an end-user premises to a telecommunications carrier. Note that for lines reported on Line C.II-6, your customer may be either an end user or another telecommunications carrier. Do not convert lines reported on Line C.II-6 into voice-grade equivalent measures.

Columns in Part II

Column (a): For Lines A.II-1 (service provided to end users), and Lines B.II-2 through B.II-3 (service provided to other carriers), report voice-grade equivalent lines used to provide local exchange services.

For Lines C.II-4 through C.II-6 (UNEs, and special access and private lines not provided as broadband), report the number of circuits (i.e., not the voice-grade equivalent of those circuits) that are used for local exchange or exchange access services that you do not report in Part I.

Note: See note above, page 5, about reporting data on percentages.

Column (b): Where indicated (i.e., for Line A.II-1), report the percentage of the lines reported in column (a) for which you (including affiliates) are the default

interstate long distance carrier, *i.e.*, the (facilities-based or reseller) carrier to which an interstate long distance call is routed automatically, without the use of any access code by the end user.

Column (c): Where indicated (*i.e.*, for Lines A.II-1, A.II-2, and A.II-3), report the percentage of the lines reported in column (a) that are used for "residential and small business" service. In Part II of FCC Form 477, consider your own end-user customer to be "residential and small business" if you provide fewer than four (4) voice-grade equivalent lines to that customer location. Also, consider any lines you provide to a shared-tenant service provider in an apartment building to be residential and small business lines. For end-user lines you provide to other carriers as Total Service Resale (*i.e.*, in Line A.II-2.) or under other resale arrangements such as resold Centrex/Centron (*i.e.*, in Line A.II-3.), classify lines as "residential and small business" if the carrier orders fewer than four (4) voice-grade equivalent lines for its use in serving a particular end user. If such information on the number of voice-grade lines to the end user is not available, you may estimate a comparable classification based on tariffs or on marketing information, such as demographic information associated with the geographic areas where the lines are provided.

Column (d): Where indicated (*i.e.*, for Line A.II-1) report the percentage of the lines reported in column (a) that are used for "residential and small business" service and for which you (including affiliates) are the default interstate long distance carrier.

Column (e): Report the percentage of the lines reported in column (a) that are provided over your own local loop facilities, or the wireless last-mile equivalent, connecting to the end user's premises. Count as your own such facilities, those wired local loop facilities that you (including your affiliates) owned, those wireless connections to end-user premises that are deployed over spectrum for which you hold a license, manage, or have obtained the right to use via lease or other agreement with a Band Manager, and facilities you obtained the right to use from unaffiliated entities as dark fiber or satellite transponder capacity (and that you used as part of your own system). Do not include, in column (c), lines provided over UNE loops that you obtained from an unaffiliated carrier.

Note for competitive LECs that own telephone switches: A competitive LEC should include, in column (e), a line for which it provided its own switching only if it also owned (as just discussed)

the local loop facilities that connect to the end user's premises.

Column (f): Report the percentage of lines reported in column (a) that are provided over UNE loops obtained from an unaffiliated carrier without also obtaining UNE switching from that carrier.

Column (g): Report the percentage of lines reported in column (a) that are provided over UNE-Platform (*i.e.*, the combination of loop UNE, switching UNE, and transport UNE) obtained from an unaffiliated carrier.

Column (h): Report the percentage of lines reported in column (a) that are provided by reselling an unaffiliated carrier's retail service, including Centrex/Centron as well as other retail services.

Column (i): Report the percentage of lines reported in column (a) that are delivered over coaxial cable facilities used in the part of the line that connects to the end-user premises ("cable telephony").

Column (j): Report the percentage of lines reported in column (a) that are delivered over fixed wireless facilities used in the part of the line that connects to the end-user premises.

E. Part III: Mobile Local Telephone (Mobile Telephony Providers Only)

Line A. III-1: Report all mobile voice telephony subscribers served over your own facilities that give customers the ability to place or receive calls from the public switched telephone network. (See column (a), below, for how to count subscribers.) Include: Satellite, cellular, and PCS telephone service and other terrestrial mobile services; and, units in service that combine voice telephone with other services. Report subscribers that you (including affiliates) serve using spectrum for which you hold a license, manage, or have obtained the right to use via lease or other agreement with a Band Manager. Do not report any subscribers that you serve by reselling an unaffiliated carrier's mobile telephone service.

Note: Exclude mobile services that customers cannot use to directly place calls to subscribers of ordinary telephone service, such as dispatch services and one-way or two-way paging services. Also exclude voice services that permit communications between only a narrow range of locations such as automobile units that permit drivers to communicate only with a specific road service.

Column (a): Report the total number of mobile voice telephony subscribers in the state that are served over your own facilities. Count as a subscriber a mobile handset, car-phone, or other revenue-generating, active, voice unit that has a

unique phone number and that can place and receive calls from the public switched network. Include in column (a) subscribers that you (including affiliates) bill directly (including through agents), pre-paid subscribers, and subscribers served via unaffiliated mobile telephone service resellers. Subscriber counts by state should be based on the area codes of the phone numbers provided to subscribers.

Column (b): Report the percentage of subscribers in column (a) that you bill directly (including through agents) or serve on a pre-paid basis. Do not include subscribers that are billed by an unaffiliated mobile telephone service reseller.

Column (c): Report the percentage of subscribers in column (a) that you bill directly (including through agents) or serve on a pre-paid basis and for which you (including affiliates) are the default interstate long distance carrier. For purposes of this reporting requirement, a default interstate long distance carrier is the (facilities-based or reseller) carrier to which an interstate long distance call is routed automatically, without the use of any access code by the end user.

F. Part IV: Explanations and Comments (All Filers, As Necessary)

Filers that must report: If there is a non-zero entry in column (a) of Line A.I-10, the filer must identify each specific technology used to provide the broadband connections reported in Line A.I-10, and the corresponding number of connections for each specific technology, in the comment section of Part IV.

Other filers: Complete Part IV to furnish relevant explanatory information with your data. For example, an explanation should be provided if a percentage figure has changed noticeably from earlier filings. In Part IV, filers should identify the Part and Line to which their comment applies in the columns provided.

G. Part V: ZIP Code Listings (Broadband Providers and Local Telephone Service Providers)

Line V-1: Report, in the appropriate column, the 5-digit ZIP Codes—for this state—in which you provide at least one of the broadband connections reported in Part I or at least one of the voice grade telephone services reported in Part II.

Column (a)-(g): If you file broadband information in Part I, you must provide, for each individual technology indicated by the column head, a list of ZIP Codes in the state in which you provide at least one of the broadband connections reported in Part I.

Column (h): If you file local exchange service information in Part II, you must provide a list of ZIP Codes in the state in which you have customers for your local exchange telephone service. Providers of mobile telephony services that report data in Part III should not report this ZIP Code information.

Note: These ZIP Code lists should correspond to areas in which service is actually being used by customers, including "point ZIP Codes" (i.e., a ZIP Code assigned to a particular customer). The list should not include authorized territory in which you have no customers in service, planned build-out, location of facilities, etc. The list can be based on engineering information (such as maps showing actual service territory) or on billing information, such as the ZIP Codes of actual customers. If the latter approach is selected, please review the resulting list and delete any ZIP Codes which clearly are out of your service territory and which appear only because the billing address is likely different from the service address.

IV. General Information

A. Where and When To File

1. When To File

Service providers that meet the reporting thresholds must file the FCC Form 477 semi-annually:

- March 1st of each year: providers must file data as of December 31 of the preceding year.
- September 1st of each year: providers must file data as of June 30 of the same year.

2. Where To File

All filers must deliver to the FCC the signed, original paper copy of the Certification Statement. The Certification Statement is the single page that constitutes Section V of these Instructions. Filers must deliver completed Form 477(s) to the FCC on electronic media. Paper copies of completed Form 477s may not be submitted. Acceptable electronic media are spreadsheet files attached to an e-mail message, or one or more IBM format compact discs or 3.5-inch floppy diskettes containing such files. The latter should be clearly labeled to identify contents by (at a minimum): FCC Form 477 (12/31/04 data), name of filer, whether the item contains "complete" or (if relevant) "redacted" versions of Form 477, and the states for which data are included. In all cases, filers should use up-to-date virus detection software to ensure that electronic media are virus-free.

Attention: The United States Postal Service (USPS) requires all First Class, Priority, and Express Mail addressed to the ZIP Code in which the FCC Headquarters is located to be irradiated

(cleaned) prior to delivery. Because the irradiation process can have an adverse effect on electronic media (e.g., compact discs and floppy diskettes), the Commission encourages filers to submit Form 477 using one of the following alternatives, preferably e-mail. (Use only one filing method; do not make duplicate filings.) Because requirements for overnight, hand, or messenger delivery may change, filers who choose not to use e-mail should consult the Office of the Secretary (<http://www.fcc.gov/osec>) for the most current information about address and other delivery requirements.

E-mail: Filers are encouraged to deliver completed Form 477(s) as attachments to one or more e-mail messages sent to FCC477@fcc.gov. Filers submitting multiple files are encouraged to use a zip utility to compress them into one "complete" file and (if relevant) one "redacted" file. The subject field of the e-mail should contain the following phrase: FCC Form 477 due 3/1/05. If multiple e-mails must be sent, the subject line should so indicate; for example: FCC Form 477 due 3/1/05 (message 1 of 3). Filers submitting Form 477(s) by e-mail may deliver the signed, original paper copy of the Certification Statement by USPS first-class mail addressed to: FCC FORM 477 (ATTN: WCB/IATD, Room 6-A220), Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554. (Alternatively, filers may deliver the signed, original copy of the Certification Statement by one of the following methods.)

Overnight delivery service other than USPS Express Mail or Priority Mail: Compact discs, or floppy diskettes, containing completed Form 477(s)—accompanied by the signed, original copy of the Certification Statement—may be delivered by an overnight delivery service other than USPS Express Mail or Priority Mail (e.g., UPS, DHL, Federal Express). Such deliveries must be addressed and delivered to: FCC FORM 477 (ATTN: WCB/IATD, Room 6-A220), Federal Communications Commission, 9300 East Hampton Drive, Capitol Heights, MD 20743. Filers who want a confirmation of receipt may include a stamped, self-addressed envelope and a photocopy of the Certification Statement, which will be receipt-stamped and returned by mail.

Hand delivery or messenger delivery: Local hand and messenger deliveries directed to the Commission's Secretary are accepted at 236 Massachusetts Avenue, NE., Suite 110, Washington, DC 20002. All Form 477 filing materials delivered to this location must be

clearly identified to be re-directed to: FCC FORM 477 (ATTN: WCB/IATD, Room 6-A220).

A filer who is unable to use one of the three delivery methods should contact the Industry Analysis and Technology Division, Wireline Competition Bureau, at (202) 418-0940 or via TTY at (202) 417-0484.

B. How To File

1. Preparation of Data Files

You must file your local competition and broadband deployment data using the electronic version of Form 477 that is available at <http://www.fcc.gov/formpage.html> or by purchase from the FCC's duplicating contractor, Qualex International at (202) 863-2893; fax (202) 863-2898; TTY (202) 863-2897; e-mail qualexint@aol.com. Form 477 will change over time, and filers must obtain the latest version for each filing period. Filers should also obtain the latest version of Instructions for Form 477.

The electronic version of Form 477 is provided in two formats: Excel 2002 and Lotus 123 Version 5. The Excel 2002 version contains drop-down boxes and some edit checks. The Lotus version should be usable in most spreadsheet programs. Once you complete a filing, name the file in accordance with instructions provided below. If you wish to assert confidentiality for any information provided in the filing, you must provide a redacted version of the file, renamed in accordance with the instructions provided below. If you do not provide a redacted version of the file using the proper file names, you risk having confidential information released.

Note: If you are required to complete a particular Part of Form 477, answer all the questions within that Part; if a particular question in that Part does not apply to you, enter the number "0" (zero) as your response. (If you are not required to complete a particular Part of Form 477, you may leave all cells in that particular Part blank.) For non-zero entries, enter all digits of the number. You may not move cells, insert or delete rows, or change the validation or formatting characteristics of any cell. If the FCC cannot load your files into its databases as a result of modifications to the file, you will be required to correct and resubmit those files. Filers must save each Form 477 as a separate spreadsheet file. Do not submit multiple Form 477 worksheets within a single Excel 2002 workbook or as multiple levels in a single Lotus file. (Filers choosing to submit Form 477(s) on a floppy diskette(s), or compact disc(s), may place multiple spreadsheet files on a single diskette or compact disc.)

Each file name must adhere to the following convention:

SST#Hyearname.XLS or
SST#Hyearname.WK4; where:

SS is the two letter post office
abbreviation for the state.

T is a single character representing
principal filing type. Since
incumbent ILEC (ILEC) data must be
filed separately from non-ILEC data,
this convention distinguishes the
files. In addition, this character is
used to distinguish refiled and
redacted data. Use the following
codes:

A = original filing for non-ILEC
operations

B = original filing for ILEC operations

C = original redacted filing for non-
ILEC operations

D = original redacted filing for ILEC
operations

E = revised filing for non-ILEC
operations

F = revised filing for ILEC operations

G = revised redacted filing for non-
ILEC operations

H = revised redacted filing for ILEC
operations

is a "sequence number" (*i.e.*, 1, 2, 3,
etc.) to be used to differentiate what
would otherwise be identically
named files when the file names are
constructed according to the
convention specified here. If no
such redundancy of file names
occurs, use the number "1" in place
of the character "#".

H is the half of the year of the data being
filed. *Use:* "J" for data as of June 30
"D" for data as of December 31

year is the last two digits of the year of
the data being filed (*e.g.*, for the
filing due March 1, 2005, reported
data will be as of December 31,
2004, so 2004 = 04).

name is the name identified on Line 2
of the Cover Page of Form 477. If
you use software that limits file
names to 8 characters plus a three
character file extension, then use a
one-character name abbreviation
and identify that name in the
Certification Statement.

Example: NCB1D04BellSouth.XLS or
NCB1D04BellSouth.WK4.

2. Additional Directions for Filing

Filers must submit the original,
signed paper copy of the Certification
Statement (which is the single page that
constitutes Section V of these
Instructions). The Certification
statement must be signed in ink by an
officer of the filer of one of the legal
entities whose data is included. An
officer is a person who occupies a
position specified in the articles of
incorporation (or partnership
agreement), and would typically be
president, vice president for operations,
vice president for finance, comptroller,
treasurer or a comparable position. If the
filer is a sole proprietorship, the owner
must sign the certification.

C. Requesting Confidentiality

Some information from the FCC Form
477 may be made publicly available.
Any respondent to this form may submit
a request that information on the FCC
Form 477 not be made routinely
available for public inspection by so
indicating on Line 10 of the Cover Page
of the form and on the Certification
Statement. See also 47 CFR 0.457, 0.459,
1.7001(d), 43.11(c); *Examination of the
Current Policy Concerning the
Treatment of Confidential Information*

*Submitted to the Commission, FCC 98-
184 (rel. Aug. 4, 1998).* Respondents
seeking confidential treatment of data in
an electronic file must provide a
separate version of that file in which the
specific items of data the filer believes
to be privileged and confidential are
redacted. Note that a redacted file must
be given a different name from the
complete version of the file, as specified
above. Redacted data should be replaced
with xxxxxx (**Note:** enter precisely six
x's) in the redacted version of the file.

D. Obligation To File Revisions

Filers must submit a revised form if
the filer discovers a significant error in
the data. For counts, a difference
amounting to 5 percent of the filed
number must be refiled. For
percentages, a difference of 5 percentage
points is significant and must be refiled.
Revisions should consist of a
certification statement and one or more
electronic files. Carriers should refile all
data for a state if one or more data
element must be revised. A refiled Form
477 spreadsheet should contain all
appropriate data for the state, not just
the corrected figures. Note that files
containing revisions must be given
different names from the original filings,
as specified above, Section IV-B.1.

E. Compliance

Service providers that are required to
file the Form 477 but fail to do so may
be subject to enforcement action under
sections 502 and 503 of the
Communications Act and any other
applicable law, 47 U.S.C. 502, 503.

FEDERAL COMMUNICATIONS COMMISSION

VI. Glossary of Selected Terms Appearing on FCC Form 477

The following selected terms are noted on FCC Form 477. The filer must interpret these terms in the specific context of the detailed reporting instructions, above. All terms are as defined for the specific purposes of this information collection.

Part I: Broadband

Broadband: Lines (or wireless channels) that terminate at an end user location, connect the end user to the Internet, and carry information—at the end-user location—at information transfer rates exceeding 200 kilobits per second (kbps) in at least one direction.

End user: Residential, business, institutional and government entities who use services for their own purposes and who do not resell such services to other entities. (For purposes of this information collection, an Internet Service Provider is not an “end user” of a broadband connection.)

Local loop: For purposes of this data collection, the “last mile” facilities (either wired or wireless) between a central office and the end-user premises in a telephone network, a node and the end-user premises in a cable network, or the analogous portion of the facilities of other providers of telephone service or broadband connections.

Mass-market end user premises: Residential living units (e.g., single family dwellings and individual households in multiple dwelling units such as apartments, condominiums, mobile home parks, etc.) and also individual living units in such institutional settings as college dormitories and nursing homes. Also includes small businesses to the extent that the filer considers small business end users to be target customers for broadband services that the filer (including affiliates), or the filer’s agents, primarily design for, or market to, residential end users.

Own local loop facilities: Those local loop facilities that the filer (including affiliates) actually owned as well as facilities that the filer obtained the right to use from unaffiliated entities as dark fiber or satellite transponder capacity (and that the filer used as part of its own system). For the purposes of Part I of this data collection, the term does not include unbundled network element (UNEs), special access lines, and other leased lines the filer obtained from an unaffiliated entity and equipped as broadband.

Residential and small business: For the purposes of Part I of Form 477, end users that have a broadband connection

of a type (as indicated by, e.g., information transfer rates, features, and price) that is most typically associated with (i.e., primarily designed, marketed to, and purchased by) residential end users.

Part II: Wireline and Fixed Wireless Local Telephone

Default interstate long distance carrier: The (facilities-based or reseller) carrier to which an interstate long distance call is routed automatically, without the use of any access code by the end user.

End user: Residential, business, institutional and government entities who use services for their own purposes and who do not resell such services to other entities.

Local loop: See the definition provided for Part I, above.

Own local loop facilities: Those local loop facilities connecting to end-user premises that the filer (including affiliates) actually owned as well as facilities the filer obtained the right to use from unaffiliated entities as dark fiber or satellite transponder capacity (and that the filer used as part of its own system). For the purposes of Part II of this data collection, the term does not include telephone lines provided over UNE loops that the filer obtained from an unaffiliated carrier.

Residential and small business: For the purposes of Part II of Form 477, lines in service to end-user locations to which the filer provides fewer than four (4) voice-grade equivalent lines. Also, the term includes any lines the filer (or its affiliate or agent) provides to a shared-tenant service provider in an apartment building.

UNE-Platform: The combination of unbundled network elements (UNEs) consisting of loop UNE, switching UNE, and transport UNE. (Unbundled network elements are defined in the FCC Rules. See 47 CFR 51.319.)

Voice-grade equivalent: Generally, the number of DS0 (64 kbps) lines/channels in a higher-capacity circuit. In the specific context of Part II of Form 477, see “Note for reporting channelized service” in the detailed instructions, above.

Voice telephone service: Local exchange or exchange access services that allow end users to originate and/or terminate local telephone calls on the public switched network, whether used by the end user for voice telephone calls or for other types of calls carried over the public switched network (for example, lines used for facsimile equipment or lines used occasionally or exclusively for “dial-up” connection to the Internet).

Part III: Mobile Local Telephone

Default interstate long distance carrier: The (facilities-based or reseller) carrier to which an interstate long distance call is routed automatically, without the use of any access code by the end user.

Mobile voice telephony subscribers: A mobile handset, car-phone, or other revenue-generating, active, voice unit that has a unique phone number and that can place and receive calls from the public switched network.

Own facilities: Spectrum for which the filer (including affiliates) holds a license, manages, or has obtained the right to use via lease or other agreement with a Band Manager.

VII. Disclosure, Privacy Act, Paperwork Reduction Act Notice

The Privacy Act of 1974 and the Paperwork Reduction Act of 1995 require that when we ask you for information, we must first tell you our legal right to ask for the information, why we are asking for it, and how it will be used. We must also tell you what could happen if we do not receive it and whether your response is voluntary, required to obtain a benefit, or mandatory under the law. See Privacy Act of 1974, Pub. L. 93-579, December 31, 1974, 5 U.S.C. 552a (e)(3), and the Paperwork Reduction Act of 1995, Pub. L. 104-13, 44 U.S.C. 3501, *et seq.*

Our legal right to ask for this information is sections 1.7000-1.7002, 20.15, 43.01, 43.11 of the Federal Communications Commission’s rules. 47 CFR 1.7000-1.7002, 20.15, 43.01, 43.11. Your response is mandatory.

This collection of information stems from the Commission’s authority under sections 4(i), 201, 218-220, 251-252, 303(r), 332, and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 201, 218-220, 251-252, 303(r), 332, and 403, and section 706 of the Telecommunications Act of 1996. The data in the worksheet will be used to monitor the deployment of broadband services and the development of local telephone service competition. Selected information provided in the worksheet will be made available to the public in a manner consistent with the Commission’s rules and orders. We have estimated that each response to this collection of information will take, on average, xx hours. Note that many companies will file multiple responses and that this estimated average reflects the fact that many companies will be required to file only a single service count that should be readily available from internal company records. Our estimate includes

the time to read the instructions, look through existing records, gather and maintain the required data, enter the data in a Form 477 spreadsheet, prepare a floppy diskette or compact disc (if the filer decides to submit completed Form 477(s) by a method other than e-mail) and certification, and actually file the report. If you have any comments on this estimate, or how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, AMD-PER, Washington, DC 20554, Paperwork Reduction Project (3060-0816). We also will accept your comments via the Internet if you send them to Judith-B.Herman@fcc.gov. Do not send completed FCC form 477 to this address. Remember—You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid Office of Management and Budget (OMB) control number. This collection has been assigned an OMB control number of 3060-0816.

The Commission is authorized under the Communications Act of 1934, as amended, to collect the personal information we request in this form. If we believe there may be a violation or potential violation of a statute or a Commission regulation, rule, or order, your filing may be referred to the Federal, State, or local agency responsible for investigating, prosecuting, enforcing, or implementing the statute, rule, regulation, or order. In certain cases, the information in your worksheet may be disclosed to the Department of Justice, court, or other adjudicative body when (a) the Commission; or (b) any employee of the Commission; or (c) the United States government, is a party to a proceeding before the body or has an interest in the proceeding.

Reporting entities failing to file the worksheet in a timely fashion may be subject to penalties under the Communications Act, including sections 502 and 503(b).

BILLING CODE 6712-01-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018-AH55

Endangered and Threatened Wildlife and Plants; Proposed Reclassification From Endangered to Threatened Status for the Mariana Fruit Bat from Guam, and Proposed Threatened Status for the Mariana Fruit Bat from the Commonwealth of the Northern Mariana Islands

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; reopening of comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), pursuant to the Endangered Species Act of 1973, as amended (Act), provide notice of the reopening of the comment period on the proposed threatened status for the Mariana fruit bat (*Pteropus mariannus mariannus*) throughout its range, to allow peer reviewers and all interested parties to submit comments on the proposal. Comments already submitted on the March 26, 1998, proposed rule need not be resubmitted as they will be fully considered in the final determination.

DATES: Comments from all interested parties must be received by June 28, 2004.

ADDRESSES: Comments and materials concerning the proposal should be sent to the Assistant Field Supervisor, Pacific Islands Fish and Wildlife Office, U.S. Fish and Wildlife Service, 300 Ala Moana Boulevard, Room 3-122, P.O. Box 50088, Honolulu, HI 96850. For further instructions on commenting, refer to the Public Comments Solicited section of this notice.

FOR FURTHER INFORMATION CONTACT: Gina Shultz, Assistant Field Supervisor, at the above address (telephone 808/792-9400; facsimile 808/792-9580).

SUPPLEMENTARY INFORMATION:

Background

On March 26, 1998, we published a proposed rule to reclassify the Mariana fruit bat from endangered to threatened on Guam and list the Mariana fruit bat

as threatened in the Commonwealth of the Northern Mariana Islands (CNMI) (63 FR 14641).

This subspecies of the Mariana fruit bat is found throughout the Mariana Archipelago, which includes both the United States Territory of Guam and the CNMI. In the CNMI, the Mariana fruit bat occurs primarily on private and Commonwealth lands, including inhabited and uninhabited islands. On Guam, it is known to roost primarily on Federal lands and to forage widely throughout the island. Currently, fewer than 100 individual Mariana fruit bats remain on Guam and several thousand individuals are distributed among the islands of the CNMI. The Mariana fruit bat and its habitats have been impacted or are now threatened by one or more of the following: illegal hunting, predation by introduced predators such as brown treesnakes (*Boiga irregularis*), rats, and feral cats; habitat loss to agriculture and development; habitat degradation or destruction by feral ungulates; disturbance from human activities; natural disasters or random environmental events such as hurricanes; fire; vandalism; and inconsistent enforcement of territorial and Federal laws and international conventions to protect this species. The best available scientific and commercial information indicates that the Mariana fruit bats in the CNMI and Guam represent one population, but also recognizes that the survival of these bats on Guam continues to be threatened by a variety of factors. However, when viewed in the context of representing a portion of the entire Mariana fruit bat population in the Mariana Islands, rather than as a distinct population as previously thought, reclassification from endangered to threatened is appropriate and biologically justified. Therefore, proposing to list the entire population of *Pteropus mariannus mariannus* as threatened throughout its range, including bats in both the CNMI and Guam, retains an appropriate level of protection for this bat on Guam while increasing the overall protection to the Mariana fruit bat throughout the Mariana Islands.

In our March 26, 1998, proposed rule and associated notifications, we requested that all interested parties submit comments, data, or other information that might contribute to the development of a final rule. A 60-day comment period closed on May 26, 1998. On May 29, 1998, we reopened the public comment period until July 10, 1998. A legal notice containing this information also was published in the Marianas Variety on June 8, 1998. We held public hearings on June 24, 1998,

at the Pacific Garden Hotel on Saipan, and on June 25, 1998, at the Rota Resort on Rota. Pursuant to a settlement agreement approved by the United States District Court for the District of Hawaii on August 21, 2002, the Service must make a final decision on this proposal by December 31, 2004 (*Center for Biological Diversity v. Norton*, Civil No. 99-00603 (D. Haw.)).

Public Comments Solicited

We are reopening the comment period until the date specified in **DATES** section above. The reopening of the comment period gives additional time for all interested parties to consider the proposed rule's information and submit comments on the proposal. Comments from the public regarding the proposed rule are sought, especially concerning:

(1) Biological, commercial trade, or other relevant data concerning any

threat (or lack thereof) to the Mariana fruit bat;

(2) The location of any additional populations of the Mariana fruit bat;

(3) Additional information on the range, distribution, and population size of this species; and

(4) Current or planned activities in the areas inhabited by the Mariana fruit bat and the possible impacts of these activities on this species.

You may hand deliver, send by mail, or transmit by facsimile written comments and information to the Assistant Field Supervisor (*see ADDRESSES* section above), facsimile 808/792-9580.

Comments and materials received, as well as supporting documentation used in preparation of the March 26, 1998, proposal to reclassify the Mariana fruit bat from endangered to threatened on Guam and to list this species as

threatened in the CNMI, will be available for inspection, by appointment, during normal business hours at our Pacific Islands Fish and Wildlife Office at the Honolulu address given above.

Author

The primary author of this notice is Holly Freifeld (*see ADDRESSES* section above).

Authority

The authority for this action is the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*).

Dated: May 19, 2004.

Marshall Jones,

Acting Director, Fish and Wildlife Service.

Notices

Federal Register

Vol. 69, No. 103

Thursday, May 27, 2004

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Notice of the USDA Technology and eGovernment Advisory Council Meeting

AGENCY: Office of the Chief Information Officer, USDA.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, 5 U.S.C. App 2, the United States Department of Agriculture announces a meeting of the USDA Technology and eGovernment Advisory Council. The Council will advise the Secretary and the Chief Information Officer in planning and developing strategies for technology and eGovernment Initiatives. The purpose of the meeting is to discuss USDA information technology investments as well as the current status and future of eGovernment Initiatives.

DATES: The USDA Technology and eGovernment Advisory Council will meet on June 9, 2004 from 4 p.m. to 5:30 p.m.; and June 10, 2004 from 8 a.m. to 4 p.m. Written comments for the public record will be welcomed before or up to two weeks after the meeting and should be submitted to the Contact Person in this notice. All comments will become part of the official record of the Advisory Council.

ADDRESSES: The meeting will take place at the Jamie L. Whitten Building, Room 104A, 1400 Independence Ave., SW., Washington, DC. 20250. Please send written comments to the Contact Person identified herein at: Office of the Chief Information Officer, 1400 Independence Ave., SW., Room 405W, Jamie L. Whitten Building, United States Department of Agriculture, Washington, DC 20250; and electronic comments to the Contact Person at: sandy.facinoli2@usda.gov.

FOR FURTHER INFORMATION CONTACT: Sandy Facinoli, Designated Federal

Official, USDA Technology and eGovernment Advisory Council; telephone: (202) 720-2786; fax: (202) 205-2831.

SUPPLEMENTARY INFORMATION: On Tuesday and Wednesday, June 9, 2004 from 4 p.m. to 5:30 p.m.; and June 10, 2004 from 8 a.m. to 4 p.m., the USDA Technology and eGovernment Advisory Council will hold a meeting at the Jamie L. Whitten Building, United States Department of Agriculture, 1400 Independence Ave. SW., Washington, DC 20250. A copy of the agenda may be obtained by sending a request to the Contact Person in this notice.

The Council meeting will be open to the public on June 10, 2004 from 10 a.m. to 12 p.m., and from 1:30 p.m. to 3 p.m. Members of the public will be asked to register at the door. The meeting will be closed to the public on June 9, 2004 from 4 p.m. to 5:30 p.m.; and on June 10, 2004 from 8 a.m. to 10 a.m. and from 3 p.m. to 4 p.m. so that the Council can conduct administrative matters.

Due to a delay, this notice could not be published at least 15 days prior to the meeting date. The meeting will be held as scheduled because of the significant sacrifice rescheduling would require of Council members who have adjusted their schedules to accommodate the proposed meeting date.

Scott Charbo,

Chief Information Officer.

BILLING CODE 3410-11-M

DEPARTMENT OF AGRICULTURE

Forest Service

Notice of Sanders County Resource Advisory Committee Meeting

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: Pursuant to the authorities in the Federal Advisory Committee Act (Pub. L. 92-463) and under the Secure Rural Schools and Community Self-Determination Act of 2000 (Pub. L. 106-393) the Lolo and Kootenai National Forests' Sanders County Resource Advisory Committee will meet on June 24 at 6:30 p.m. in Thompson Falls, Montana for a business meeting. The meeting is open to the public.

DATES: June 24, 2004.

ADDRESSES: The meeting will be held at the Thompson Falls Courthouse, 1111 Main Street, Thompson Falls, MT 59873.

FOR FURTHER INFORMATION CONTACT: Brian Avery, Designated Forest Official (DFO), District Ranger, Cabinet Ranger District, Kootenai National Forest at (406) 827-3533.

SUPPLEMENTARY INFORMATION: Agenda topics include receiving project proposals, reviewing project status and receiving public comment. If the meeting time or location is changed, notice will be posted in the local newspapers, including the Clark Fork Valley Press, Sanders County Ledger, Daily Interlake, Missoulian, and River Journal.

Dated: May 19, 2004.

Brian Avery,

Designated Federal Official, District Ranger, Cabinet Ranger District.

BILLING CODE 3410-11-M

DEPARTMENT OF AGRICULTURE

Forest Service

Tuolumne County Resource Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Tuolumne County Resource Advisory Committee will meet on June 14, 2004, at the City of Sonora Fire Department, in Sonora, California. The purpose of the meeting is to review 12 project submittals based on presentations made by project proponents.

DATES: The meeting will be held June 14, 2004, from 12 p.m. to 3 p.m.

ADDRESSES: The meeting will be held at the City of Sonora Fire Department located at 201 South Shepherd Street, in Sonora, California (CA 95370).

FOR FURTHER INFORMATION CONTACT: Pat Kaunert, Committee Coordinator, USDA, Stanislaus National Forest, 19777 Greenley Road, Sonora, CA 95370 (209) 532-3671; e-mail pkauner@fs.fed.us.

SUPPLEMENTARY INFORMATION: Agenda items to be covered include: (1) Presentation of nine Forest Service, and three non-Forest Service project

submittals by project proponents, with follow-up question and answer sessions. Time allocated for each presentation and question/answer session is 12 minutes; (2) Discussion on outreach needs for new applicants for RAC membership; (3) Public comment on meeting proceedings. This meeting is open to the public.

Dated: May 20, 2004.

Tom Quinn,

Forest Supervisor.

BILLING CODE 3410-ED-M

DEPARTMENT OF AGRICULTURE

Forest Service

Willamette Province Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Willamette Province Advisory Committee (PAC) will meet in Eugene, Oregon. The purpose of the meeting is to discuss issues pertinent to the implementation of the Northwest Forest Plan (NFP) and to provide advice to federal land managers in the Province. The specific topics to be covered at the meeting include research and NFP projects in the Central Cascades Adaptive Management Area, initial results of the 2004 Province Implementation monitoring, and information sharing.

DATES: The meeting will be held June 17, 2004.

ADDRESSES: The meeting will be held at the Oregon Community Credit Union, 2880 Chad Drive, Eugene, Oregon. Send written comments to Neal Forrester, Willamette Province Advisory Committee, c/o Willamette National Forest, P.O. Box 10607, Eugene, Oregon 97440, (541) 225-6436 or electronically to nforrester@fs.fed.us.

FOR FURTHER INFORMATION CONTACT: Neal Forrester, Willamette National Forest, (541) 225-6436.

SUPPLEMENTARY INFORMATION: The meeting is open to the public. Committee discussion is limited to PAC members. However, persons who wish to bring matters to the attention of the Committee may file written statements with the PAC staff before or after the meeting. A public forum will be provided and individuals will have the opportunity to address the PAC. Oral comments will be limited to three minutes.

Dated: May 21, 2004.

Dallas J. Emch,

Forest Supervisor, Willamette National Forest.

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Technical Service Provider (TSP) Training

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Natural Resources Conservation Service (NRCS) National Employee Development Center (NEDC) is announcing a forthcoming meeting to discuss and plan for Technical Service Provider (TSP) training development activity. Emphasis of the meeting will be on identifying fill gaps that exist for individuals to receive training and become proficient in a variety of technical areas for which training opportunities are not readily available. The meeting will also propose methods for filling such gaps.

DATES: The meeting will be held June 23-25, 2004, at the Millennium Hotel in St. Louis, Missouri. The meeting will begin on Wednesday, June 23rd at 1 p.m. It will conclude on Friday, June 25th at 12 p.m. A block of rooms at the hotel has been reserved for this meeting. When making reservations to attend this meeting, advise the hotel that you are attending the NRCS TSP Training Workshop. Reservations should be made not later than May 28, 2004.

ADDRESSES: The Millennium Hotel is located at 200 South Fourth Street, Saint Louis, Missouri. Telephone: 314-241-9500.

FOR FURTHER INFORMATION CONTACT:

Questions about this meeting should be directed to Jerry Williams, Agricultural Economist—NEDC, at 817-509-3259; or Charles H. Lander, National Agronomist, at 202-690-0249.

SUPPLEMENTARY INFORMATION: This meeting is designed to bring together organizations, agencies, and other entities interested in developing TSP training courses or materials, and/or in providing training to TSPs and individuals who wish to become TSPs. The meeting will focus on areas that are currently considered gaps for TSP related training, and on developing a plan for TSP training development

activity. The plan will identify the technical areas for which training opportunities are needed, propose methods through which interested entities and NRCS can collaborate together to develop TSP training materials and opportunities for specific technical areas.

Dated: May 20, 2004.

Helen V. Huntington,

Federal Register Liaison, Natural Resources Conservation Service.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 1335]

Approval of Expansion of Manufacturing Authority Within Foreign—Trade Zone 210 Port Huron, Michigan; Cross Hüller-North America (Machine Tools)

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u)(the Act), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, Cross Hüller-North America, operator of FTZ 210—Site 2, has requested authority under Section 400.32(b)(1) of the Board's regulations, requesting an expansion of the scope of manufacturing authority to include new foreign-origin components used in the production of metalworking machine tools under zone procedures within FTZ 210, Port Huron, Michigan (Docket 42-2003, filed 8-25-2003);

Whereas, pursuant to 15 CFR 400.32(b)(1), the Commerce Department's Assistant Secretary for Import Administration has the authority to act for the Board in making such decisions on new manufacturing/processing activity under certain circumstances, including situations where the proposed activity is the same, in terms of products involved, to activity recently approved by the Board (§ 400.32(b)(1)(i)); and,

Whereas, the FTZ Staff has reviewed the proposal, taking into account the criteria of Section 400.31, and the Executive Secretary has recommended approval;

Now, therefore, the Assistant Secretary for Import Administration, acting for the Board pursuant to section 400.32(b)(1), concurs in the recommendation and hereby approves the request subject to the Act and the

Board's regulations, including section 400.28.

Signed at Washington, DC, this 19th day of May 2004.

James J. Jochum,

Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Dennis Puccinelli,

Executive Secretary.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 1334]

Expansion of Foreign-Trade Zone 181; Akron/Canton, OH Area

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Northeast Ohio Trade & Economic Consortium, grantee of Foreign-Trade Zone No. 181, submitted an application to the Board for authority to expand FTZ 181 in the Akron/Canton, Ohio area, within and adjacent to the Cleveland Customs port of entry (FTZ Docket 40-2003, filed 8/15/2003; amended 11/25/03 to withdraw the proposed deletion of 7 acres in the southern portion of the Akron-Canton Regional Airport);

Whereas, notice inviting public comment was given in the **Federal Register** (68 FR 51549, 8/27/2003) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and the Board's regulations are satisfied, and that the proposal is in the public interest;

Now, therefore, the Board hereby orders:

The application to expand FTZ 181 is approved, subject to the Act and the Board's regulations, including section 400.28, and further subject to the Board's standard 2,000-acre activation limit for the overall zone project, and to a sunset provision that would terminate Site 7 on December 31, 2009, unless the site is activated during that period pursuant to 19 CFR part 146 of the U.S. Customs regulations.

Signed at Washington, DC, this 19th day of May 2004.

James J. Jochum,

Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Dennis Puccinelli,

Executive Secretary.

DEPARTMENT OF COMMERCE

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part.

SUMMARY: The Department of Commerce has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with April anniversary dates. In accordance with the Department's regulations, we are initiating those administrative reviews. The Department of Commerce also received a request to revoke one antidumping duty order in part.

EFFECTIVE DATE: May 27, 2004.

FOR FURTHER INFORMATION CONTACT: Holly A. Kuga, Office of AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW.,

Washington, DC 20230, telephone: (202) 482-4737.

SUPPLEMENTARY INFORMATION:

Background

The Department has received timely requests, in accordance with 19 CFR 351.213(b)(2002), for administrative reviews of various antidumping and countervailing duty orders and findings with April anniversary dates. The Department also received a timely request to revoke in part the antidumping duty order on Certain Steel Concrete Reinforcing Bars from Turkey.

Initiation of Reviews:

In accordance with section 19 CFR 351.221(c)(1)(i), we are initiating administrative reviews of the following antidumping and countervailing duty orders and findings. We intend to issue the final results of these reviews not later than April 30, 2005.

¹ Case inadvertently omitted from previous initiation notice.

² If one of the named companies does not qualify for a separate rate, all other exporters of automotive replacement glass windshields from the People's Republic of China who have not qualified for a separate rate are deemed to be covered by this review as part of the single PRC entity of which the named exporters are a part.

³ If one of the named companies does not qualify for a separate rate, all other exporters of brake rotors from the People's Republic of China who have not qualified for a separate rate are deemed to be covered by this review as part of the single PRC entity of which the named exporters are a part.

⁴ If one of the named companies does not qualify for a separate rate, all other exporters of non-malleable cast iron pipe fittings from the People's Republic of China who have not qualified for a separate rate are deemed to be covered by this review as part of the single PRC entity of which the named exporters are a part.

Countervailing Duty Proceedings

None.

Suspension Agreements

None.

During any administrative review covering all or part of a period falling between the first and second or third and fourth anniversary of the publication of an antidumping duty order under section 351.211 or a determination under section 351.218(f)(4) to continue an order or suspended investigation (after sunset review), the Secretary, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine, consistent with *FAG Italia S.p.A. v. United States*, 291 F.3d 806 (Fed. Cir. 2002), as appropriate, whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must include the name(s) of the exporter or producer for which the inquiry is requested.

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305.

These initiations and this notice are in accordance with section 751(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1675(a)), and 19 CFR 351.221(c)(1)(i).

Dated: May 21, 2004.

Holly A. Kuga,

Acting Deputy Assistant Secretary, Group II for Import Administration.

International Trade Administration

[A-357-812]

Honey From Argentina: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") has conducted an

administrative review of the antidumping duty order on honey from Argentina produced and/or exported by Asociacion de Cooperativas Argentinas ("ACA"), HoneyMax S.A. ("HoneyMax"), Nexco S.A. ("Nexco"), Seylinco S.A. ("Seylinco"), and TransHoney S.A. ("TransHoney"). The period of review ("POR") is May 11, 2001, to November 30, 2002. Based on our analysis of comments received, the margin calculation for these final results differ slightly from the preliminary results for Seylinco. The margin calculation for these final results are listed below in the "Final Results of Review" section.

EFFECTIVE DATE: May 27, 2004.

FOR FURTHER INFORMATION CONTACT:

Angela Strom for Asociacion de Cooperativas Argentinas ("ACA") and Nexco S.A. ("Nexco"), Brian Sheba for HoneyMax S.A. ("HoneyMax") and Seylinco S.A. ("Seylinco"), David Cordell for TransHoney S.A. ("TransHoney"), or Donna Kinsella, Enforcement Group III, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Room 7866, Washington,

DC 20230; telephone (202) 482-2704, (202) 482-0145, (202) 482-0408, (202) 482-0194 respectively.

SUPPLEMENTARY INFORMATION:

Background

This notice concerns the final results of the first review of the antidumping duty order on honey from Argentina. See *Notice of Final Determination of Sales at Less Than Fair Value; Honey from Argentina*, 66 FR 50611 (Oct. 4, 2001). The review covers sales of honey exported by five exporters: Asociacion de Cooperativas Argentinas (“ACA”), HoneyMax S.A. (“HoneyMax”), Nexco S.A. (“Nexco”), Seylinco S.A. (“Seylinco”), and TransHoney S.A. (“TransHoney”) (collectively, “the respondents”), over the period of May 11, 2001 through November 30, 2002.

On December 31, 2002, the American Honey Producers Association and the Sioux Honey Association (collectively “petitioners”) requested an administrative review of the antidumping duty order on honey from Argentina in response to the Department’s notice of opportunity to request a review published in the **Federal Register**. See *Notice of Antidumping Duty Order: Honey from Argentina*, 66 FR 63672 (Dec. 10, 2001). The petitioners requested the Department conduct an administrative review of entries of subject merchandise made by 21 Argentine producers/exporters. In addition, the Department received requests for review from 9 Argentine exporters. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 68 FR 3009 (Jan. 22, 2003).

The Department initiated the review for all companies. On January 17, 2003, petitioners withdrew their request for review of 14 companies and the Department granted this request. See *Notice of Partial Rescission of Antidumping Duty Administrative Review*, 68 FR 13895 (Mar. 21, 2003).

Based on withdrawals of request for review from Compania Apicola Argentina S.A. and Mielar S.A., the Department rescinded the review with respect to these two companies. See *Notice of Partial Rescission of Antidumping Duty Administrative Review*, 68 FR 25568 (May 13, 2003). On August 13, 2003, Radix S.R.L. (“Radix”) and Compania Europeo Americana S.A. (“CEASA”), submitted letters of withdrawal of request for review. On the same date, petitioners also submitted a letter of withdrawal of request for review with respect to Radix and CEASA. The Department granted these requests and subsequently rescinded the

review with respect to Radix and CEASA. See *Notice of Partial Rescission of Antidumping Duty Administrative Review*, 68 FR 52386 (Sept. 3, 2003).

Pursuant to the time limits for administrative reviews set forth in section 751(a)(3)(A) of the Tariff Act of 1930, as amended (“the Act”), the original time limit for the preliminary results of review was September 2, 2003. On July 23, 2003, we extended the time limit for the preliminary results of review to December 8, 2003. See *Honey From Argentina; Extension of Time Limit for Preliminary Results of Administrative Review*, 68 FR 43491 (Jul. 23, 2003). On November 26, 2003, the Department further extended the time limit for the preliminary results of review to December 31, 2003. See *Honey From Argentina; Extension of Time Limit for Preliminary Results of Administrative Review*, 68 FR 66399 (Nov. 26, 2003).

On January 6, 2004, the Department published the preliminary results of the antidumping duty order on honey from Argentina. See *Honey from Argentina: Preliminary Results of Antidumping Duty Administrative Review*, 69 FR 621 (Jan. 6, 2004) (“*Preliminary Results*”). Since publication of the preliminary results, we invited parties to comment.

Respondents submitted comments on the preliminary results as follows: ACA on February 6, 2004; HoneyMax on February 5, 2004; Nexco on February 5, 2004; Seylinco on February 5, 2004. TransHoney did not file comments. Petitioners filed comments on the preliminary results on February 6, 2004, and rebuttal comments on February 13, 2004. The respondents filed the following rebuttal comments to petitioners’ February 6, 2004, comments: ACA on February 12, 2004, Nexco on February 12, 2004, Seylinco on February 12, 2004, and TransHoney on February 12, 2004. HoneyMax did not file rebuttal comments.

We also invited parties to comment on our post-preliminary sales below cost analysis for HoneyMax. HoneyMax submitted initial comments on the Department’s cost analysis on March 31, 2004, and corrected comments on April 2, 2004. Petitioners submitted comments on April 5, 2004. Petitioners submitted rebuttal comments on April 7, 2004 and HoneyMax submitted rebuttal comments on April 8, 2004.

Scope of the Review

The merchandise under review is honey from Argentina. For purposes of this review, the products covered are natural honey, artificial honey containing more than 50 percent natural honey by weight, preparations of natural

honey containing more than 50 percent natural honey by weight, and flavored honey. The subject merchandise includes all grades and colors of honey whether in liquid, creamed, comb, cut comb, or chunk form, and whether packaged for retail or in bulk form.

The merchandise under review is currently classifiable under subheadings 0409.00.00, 1702.90.90, and 2106.90.99 of the *Harmonized Tariff Schedule of the United States* (HTSUS). Although the HTSUS subheadings are provided for convenience and CBP purposes, the Department’s written description of the merchandise under this order is dispositive.

Analysis of Comments Received

The Department has received comments from respondents and petitioners, all of which are addressed in the “Issues and Decision Memorandum” from Joseph A. Spetrini, Deputy Assistant Secretary, Import Administration, to James J. Jochum, Assistant Secretary, Import Administration, dated May 21, 2004 (“*Decision Memorandum*”), which is hereby adopted by this notice. Attached to this notice as an Appendix is a list of the issues that respondents and petitioners have raised and to which we have responded in the *Decision Memorandum*. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum, which is on file in the Department’s Central Records Unit, located at 14th Street and Constitution Avenue, NW., Room B-099. In addition, a complete version of the *Decision Memorandum* can be accessed directly on the Import Administration Web site at <http://ia.ita.doc.gov/frn/index.html>. The paper copy and electronic version of the *Decision Memorandum* are identical in content.

Changes Since the Preliminary Results

Based on our analysis of comments received and findings at verification, we have made certain changes in the margin calculation. These changes are noted in various sections of the *Decision Memorandum*, accessible in B-099 and on the World Wide Web at <http://ia.ita.doc.gov/frn/index.html>.

Final Results of Review

We determine that the following dumping margins exist for the period May 11, 2001 through November 30, 2002.

Manufacturer/exporter	Weighted average margin (percentage)
Asociación de Cooperativas Argentinas	0
HoneyMax S.A	0
Nexco S.A	0.87
Seylinco S.A	0.60
TransHoney S.A	0

Assessment

The Department shall determine, and U.S. Customs and Border Protection (Customs) shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates. The Department will issue appropriate assessment instructions directly to Customs within 15 days of publication of these final results of review. With respect to constructed export price sales, we divided the total dumping margins for the reviewed sales by the total entered value of those reviewed sales for each importer. We will direct Customs to assess the resulting assessment rate against the entered Customs values for the subject merchandise on each of the importer's entries during the POR.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) For the companies named above, the cash deposit rates will be the rates for these firms shown above, except that, for exporters with *de minimis* rates (*i.e.*, less than 0.5 percent) no deposit will be required; (2) for previously-reviewed producers and exporters with separate rates, the cash deposit rate will be the company-specific rate established for the most recent period for which they were reviewed; and (3) for all other producers and exporters, the rate will be 36.59 percent, the "all others" rate established in the less than fair value investigation. *See Notice of Final Determination of Sales at Less Than Fair Value; Honey From Argentina*, 66 FR 50611 (Oct. 4, 2001). These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the

reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation, which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 20, 2004.

James J. Jochum,

Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

Unfair Trade Practices Task Force

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Request for public comment—Unfair Trade Practices Task Force.

SUMMARY: The Department of Commerce is requesting public comment on the work of the newly established Unfair Trade Practices Task Force. To help the Task Force establish its initial priorities, the Department is asking the public and representatives of the manufacturing sector to identify unfair trade practices of greatest concern that are deserving of the Task Force's attention.

DATES: Written comments and electronic files must be received on or before 5 p.m., eastern daylight savings time, June 28, 2004.

ADDRESSES: Persons wishing to comment should file a signed original and six copies of each set of comments by the deadline specified above. Written comments should be sent to Ronald Lorentzen, Acting Director, Office of Policy, Import Administration, Room 3713, Department of Commerce, 14th Street and Constitution Ave., NW., Washington, DC 20230. Comments should be limited to 20 pages or less.

All comments responding to this notice will be a matter of public record and will be available for public inspection and copying at Import Administration's Central Records Unit, Room B-099, between the hours of 8:30 a.m. and 5 p.m. on business days. The Department will not accept comments accompanied by a request that a part or all of the material be treated confidentially because of its business proprietary nature or for any other reason. The Department will return such comments and materials to the persons submitting the comments and will not consider them.

The Department requires that comments be submitted in written form, but also recommends submission of comments in electronic form to accompany the required paper copies. Comments filed in electronic form should be submitted either by e-mail to the webmaster below, or on CD-ROM, as comments submitted on diskettes are likely to be damaged by postal radiation treatment. Electronic files should state "Comments on Unfair Trade Practices Task Force" in the subject line. Comments received in electronic form will be made available to the public in Portable Document Format (PDF) on the

Internet at the Import Administration web site at the following address: <http://ia.ita.doc.gov/>. Any questions concerning file formatting, document conversion, access on the Internet, or other electronic filing issues should be addressed to Andrew Lee Beller, Import Administration Webmaster, at (202) 482-0866, or at the e-mail address: webmaster-support@ita.doc.gov.

FOR FURTHER INFORMATION CONTACT: Ronald Lorentzen or Kelly Parkhill at (202) 482-4412.

SUPPLEMENTARY INFORMATION: On January 16, 2004, Secretary of Commerce Donald L. Evans issued "Manufacturing in America, A Comprehensive Strategy to Address the Challenges to U.S. Manufacturers". This report identifies the major economic, commercial and regulatory challenges facing the manufacturing sector, and recommends a number of steps that the Administration and the Congress could take to help strengthen the sector's ability to compete in the global market place and create jobs in the United States.

As part of this effort, the Department of Commerce recently established an Unfair Trade Practices Task Force within Import Administration to pursue the elimination of foreign unfair trade practices that prejudice or adversely affect U.S. commercial interests. To assist the Task Force in formulating its initial priorities, the Department is asking the public and representatives of the manufacturing sector to identify those unfair trade practices of greatest concern and impact. The Department is interested in receiving comments on all types of foreign unfair trade practices, including those practices which currently may not be subject to specific or adequate trade disciplines, as well as comments on the underlying market distortions that may have contributed to or resulted from the practice in question. Where appropriate, the Department also welcomes any suggestions on the most effective ways in which the Task Force can assist in addressing the particular unfair trade practices identified.

Dated: May 20, 2004.

James J. Jochum,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 052404B]

Proposed Information Collection; Comment Request; Pacific Tuna Fisheries Logbook

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before July 26, 2004.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Svein Fougner, Sustainable Fisheries Division, Southwest Region, NMFS, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802, telephone 562-980-4040, (or via Internet at: svein.fougner@noaa.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

United States participation in the Inter-American Tropical Tuna Commission (IATTC) results in certain recordkeeping requirements for U.S. fishermen who fish in the IATTC's area of management responsibility. These fishermen must maintain a log of all operations conducted from the fishing vessel, including the date, noon position, and the tonnage of fish aboard the vessel, by species. The logbook form provided by the IATTC is universally used by U.S. fishermen to meet this recordkeeping requirement, as permitted by the regulations. The information in the logbooks includes areas and times of operation and catch and effort by area. Logbook data are used in stock assessments and other research concerning the fishery. If the data were not collected or if erroneous

data were provided, the IATTC assessments would likely be incorrect and there would be an increased risk of overfishing or inadequate management of the fishery.

II. Method of Collection

Vessel operators maintain bridge logs on a daily basis, and the forms are either mailed to the IATTC or to NMFS at the completion of each trip. The data are processed and maintained as confidential by the IATTC.

III. Data

OMB Number: 0648-0148.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households, business or other for-profit organizations.

Estimated Number of Respondents: 20.

Estimated Time Per Response: 5 minutes.

Estimated Total Annual Burden Hours: 129.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: May 21, 2004.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

[Docket No. 021028257-2257-01]

**Announcement of Additional Funding Opportunities From FY04
Announcement of Opportunity**

AGENCY: Office of Ocean Exploration, National Oceanic and Atmospheric Administration (NOAA), Commerce.
ACTION: Notice.

SUMMARY: NOAA's Office of Ocean Exploration (OE) publishes this notice to announce that an application submitted in response to the NOAA Ocean Exploration Initiative Fiscal Year (FY) 2003 is being considered for funding with monies available through the FY04 solicitation. The rationale for this is as follows. The proposal under consideration for funding was well reviewed in FY03 and met the mission and goals of this office. However, funds and other essential resources were not available in FY03 to conduct the work proposed. Because the work was so well matched to the OE program goals, a programmatic decision was made to revisit and recommend funding for this proposal with FY04 funds.

FOR FURTHER INFORMATION CONTACT: Randi Neff, OE Program Grants Coordinator, NOAA Office of Ocean Exploration, 301-713-9444, facsimile 301-713-4252, or submit inquiries via e-mail to the Frequently Asked Questions address: oar.oe.FAQ@noaa.gov. A copy of this notice will be posted on the Ocean Explorer Website, which can be found at <http://oceanexplorer.noaa.gov>.

Dated: May 24, 2004.

Marine Mammals; File Nos. 226-1752 and 116-1742

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permits.

SUMMARY: Notice is hereby given that the following public display permits have been issued: Theater of the Sea, 84721 Overseas Highway, Islamorada, FL 33036 (File No. 226-1752) for the importation of one bottlenose dolphin (*Tursiops truncatus*) and Sea World, Inc., 7007 Sea World Drive, Orlando, FL 32821 (File No. 116-1742) for the importation of one beluga whale (*Delphinapterus leucas*).

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376;

File No. 116-1742: Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; phone (562)980-4001; fax (562)980-4018; and

File No. 226-1752: Southeast Region, NMFS, 9721 Executive Center Drive North, St. Petersburg, FL 33702-2432; phone (727)570-5301; fax (727)570-5320.

FOR FURTHER INFORMATION CONTACT: Jennifer Skidmore or Jill Lewandowski, (301)713-2289.

SUPPLEMENTARY INFORMATION: On April 16, 2004, notice was published in the **Federal Register** (69 FR 20602) that a request for a public display permit to import one adult, male bottlenose dolphin had been submitted by Theater of the Sea and a request for a public display permit to import one adult, female beluga whale had been submitted by Sea World, Inc. The requested permits have been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[I.D. 051704G]

Endangered Species; File No. 1486

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of application.

SUMMARY: Notice is hereby given that Harold M. Brundage, Environmental Research and Consulting, Inc., 112 Commons Court, Chadds Ford, PA 19317, has applied in due form for a permit to take shortnose sturgeon (*Acipenser brevirostrum*) for purposes of scientific research.

DATES: Written, telefaxed, or e-mail comments must be received on or before June 28, 2004.

ADDRESSES: The application and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376; and Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298; phone (978)281-9200; fax (978)281-9371.

Written comments or requests for a public hearing on this application should be mailed to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

Comments may also be submitted by facsimile at (301)713-0376, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing email comments is NMFS.Pr1Comments@noaa.gov. Include in the subject line of the e-mail comment the following document identifier: File No. 1475.

FOR FURTHER INFORMATION CONTACT: Jennifer Jefferies or Amy Sloan, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act

of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

The purpose of the project is to conduct research and monitoring of shortnose sturgeon in the Delaware River/Estuary and the Chesapeake Bay. Researchers would characterize habitat use, relative abundance, juvenile recruitment, and temporal and spatial distributions of this species through the following research methodologies: capture via trawls and gillnets, measure, genetic sampling, PIT and floy T-bar tagging, and release of 970 juvenile and 2470 adult shortnose sturgeon throughout the Delaware River/Estuary and 30 juvenile and 100 adult shortnose sturgeon in the Chesapeake Bay, annually. In addition, a subset of 30 juveniles and 30 adults annually in the Delaware River/Estuary would also have internal ultrasonic transmitters implanted. An accidental mortality request of 25 juvenile and 25 adult fish is requested over the life of the permit. The researchers are requesting authorization for these activities for five years.

Dated: May 24, 2004.

Stephen L. Leathery,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510–22–S

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before July 26, 2004.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or

Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, *e.g.* new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or recordkeeping burden. OMB invites public comment. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: May 24, 2004.

Angela C. Arrington,

Leader, Regulatory Information Management Group, Office of the Chief Information Officer.

Office of the Undersecretary

Type of Review: New.

Title: Reading First Implementation Evaluation.

Frequency: Biennially.

Affected Public: State, local, or tribal gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 8,250.

Burden Hours: 4,125.

Abstract: The proposed data collection is necessary to complete a national evaluation of Reading First. The purpose of this evaluation is to assess how the Reading First program is being implemented in a nationally representative sample of Reading First schools. The Reading Implementation Evaluation will use surveys of teachers, literacy coaches, and principals to answer the evaluation questions.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 2546. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202–4700. Requests may also be electronically mailed to the

Internet address OCIO_RIMG@ed.gov or faxed to 202–245–6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Katrina Ingalls at her e-mail address Katrina.Ingalls@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: U.S. Department of Energy.

ACTION: Notice and Request for Comments.

SUMMARY: The Department of Energy (DOE), pursuant to the Paperwork Reduction Act of 1995, intends to extend for three years, an information collection package with the Office of Management and Budget (OMB). The Department's Office of Environment, Safety and Health information collection package, 1910–5105, allows the Department and its contractors to provide management control and oversight over health and safety programs concerning worker exposure to ionizing radiation. Comments are invited on: (a) Whether the extended collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Comments regarding this proposed information collection must be received on or before July 26, 2004. If you anticipate difficulty in submitting comments within that period, contact one of the persons listed in the **ADDRESSES** section as soon as possible.

ADDRESSES: Written comments may be sent to:

Dr. Judith D. Foulke, Office of Worker Protection Policy and Programs (EH–52), Building 270/CC, Office of Environment, Safety and Health, U.S.

Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585-1290; or by fax at (301) 903-7773 or by e-mail at Judy.Foulke@eh.doe.gov.

Susan L. Frey, Director, Records Management Division, (IM-11), Germantown Bldg., Office of the Chief Information Officer, U.S. Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585-1290, or by fax at (301) 903-9061 or by e-mail at sharon.evelin@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to the two individuals specified in the ADDRESSES section.

SUPPLEMENTARY INFORMATION: This package contains: (1) Current OMB Number: OMB No. 1910-5105; (2) Package Title: Occupational Radiation Protection; (3) Type of Review: Renewal; (4) Purpose: the recordkeeping and reporting requirements that comprise this information collection will permit DOE and its contractors to provide management control and oversight over health and safety programs concerning worker exposure to ionizing radiation; (5) Respondents: 35 DOE management and operating contractors and 15 other contractors; (6) Estimated Number of Burden Hours: 50,000 following each revision of 10 CFR 835 and 5000 for other years.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Publication No. 104-13) (44 U.S.C. 3501 *et seq.*).

Issued in Washington, DC on May 21, 2004.

Susan L. Frey,

Director, Records Management Division, Office of the Chief Information Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Office of Environmental Management Site-Specific Advisory Board Renewal

Pursuant to Section 14(a)(2)(A) of the Federal Advisory Committee Act (Pub. L. No. 92-463), in accordance with Title 41 of the Code of Federal Regulations, section 102-3.65(a), and following consultation with the Committee Management Secretariat, General Services Administration, notice is hereby given that the Environmental Management Site-Specific Advisory Board has been renewed for a two-year period beginning May 16, 2004. The Environmental Management Site-

Specific Advisory Board will provide advice and recommendations to the Assistant Secretary for Environmental Management.

The Board provides the Assistant Secretary for Environmental Management (EM) with information, advice, and recommendations concerning issues affecting the EM program at various sites. These site-specific issues include clean-up standards and environmental restoration; waste management and disposition; stabilization and disposition of non-stockpile nuclear materials; excess facilities; future land use; long-term stewardship; risk assessment and management; and science and technology activities.

Furthermore, the renewal of the Environmental Management Site-Specific Advisory Board has been determined to be essential to the conduct of Department of Energy business and to be in the public interest in connection with the performance of duties imposed on the Department of Energy by law and agreement. The Board will operate in accordance with the provisions of the Federal Advisory Committee Act, and rules and regulations issued in implementation of those Acts.

Further information regarding this Advisory Board may be obtained from Ms. Sandra L. Waisley at (202) 586-3087.

Issued in Washington, DC on May 17, 2004.

James N. Solit,

Advisory Committee Management Officer.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 12056-001]

Trinity River Authority of Texas; Notice of Surrender of Preliminary Permit

May 20, 2004.

Take notice that Trinity River Authority of Texas, permittee for the proposed Lake Livingston Dam Project, has requested that its preliminary permit be terminated. The permit was issued on September 27, 2001, and would have expired on August 31, 2004.¹ The project would have been located on the Trinity River in San

Jacinto, Polk, Walker, and Trinity Counties, Texas.

The permittee filed the request on April 21, 2004, and the preliminary permit for Project No. 12056 shall remain in effect through the 30th day after issuance of this notice unless that day is a Saturday, Sunday, part-day holiday that affects the Commission, or legal holiday as described in section 18 CFR 385.2007, in which case the effective date is the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR part 4, may be filed on the next business day.

Linda Mitry,

Acting Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EC04-110-000, et al.]

Michigan Electric Transmission Company, LLC, et al.; Electric Rate and Corporate Filings

May 19, 2004.

The following filings have been made with the Commission. The filings are listed in ascending order within each docket classification.

1. Michigan Electric Transmission

[Docket Nos. EC04-110-000 and ER04-847-000]

Take notice that on May 17, 2004, Michigan Electric Transmission Company, LLC (METC) submitted an application under sections 203 and 205 of the Federal Power Act, 16 U.S.C. 824b and 824d and parts 33 and 35 of the Commission's regulations, 18 CFR parts 33 and 35, for approval to transfer undivided ownership interests in certain of METC's extra high voltage transmission facilities to the Michigan South Central Power Agency (MSCPA) and Michigan Public Power Agency (MPPA) (jointly, the Michigan Agencies) and for approval or acceptance of (1a) a new MSCPA 2004 Transmission Ownership and Operating Agreement between METC and MSCPA; and (2) a new MPPA 2004 Transmission Ownership and Operating Agreement between METC and MPPA (collectively, 2004 O&O Agreements). METC seeks an effective date for the 2004 O&O Agreements of the closing date of the transfers described above.

Comment Date: June 8, 2004.

¹96 FERC ¶ 62,322.

2. Calpine King City Cogen, LLC

[Docket No. EG04-69-000]

Take notice that on May 18, 2004, Calpine King City Cogen, LLC (Applicant) filed with the Federal Energy Regulatory Commission an application for determination of exempt wholesale generator status pursuant to part 365 of the Commission's regulations.

Applicant states that it is a Delaware limited liability company, operates a 120 megawatt natural gas-fired combined cycle electric generating facility located in King City, Monterey County, California.

Applicant further states that copies of the application were served upon the United States Securities and Exchange Commission and California Public Utilities Commission.

Comment Date: June 8, 2004.

3. Florida Power & Light Company

[Docket No. ER93-465-033]

Take notice that on May 14, 2004, Florida Power & Light Company filed a compliance filing in accordance with the Commission's order issued December 16, 2003, in Docket No. ER93-465-033, Florida Power & Light Co., 105 FERC ¶ 61,287 (2003), order on reh'g, 106 FERC ¶ 61,204 (2004).

Comment Date: June 4, 2004.

4. Southern California Water Company

[Docket No. EL02-129-002]

Take notice that on May 7, 2004, Southern California Water Company, (SCWC) tendered for filing a refund report in compliance with the Commission's Letter Order issued March 26, 2004, in Docket No. EL02-129-000 (106 FERC ¶ 61,305).

SCWC states that a copy of this filing has been served by mail on Mirant Americas Energy Marketing, L.P. and the California Public Utilities Commission.

Comment Date: May 28, 2004.

5. Pacific Gas and Electric Company, Complaint v. California Independent System Operator Corporation, Respondent

[Docket No. EL04-103-000]

Take notice that on May 18, 2004, Pacific Gas and Electric Company (PG&E) tendered for filing with the Commission pursuant to rule 206 of the Commission's rules of practice and procedure, 18 CFR 385.206, a Complaint Requesting Relief. PG&E filed the Complaint against California Independent System Operator Corporation (CAISO) and requests the Commission to establish an investigation into unjust and

unreasonable cost allocation, but hold such proceeding in abeyance for a period of six months pending consideration of an expected CAISO tariff amendment which would provide a basis for reallocating such unjust and unreasonable costs.

Comment Date: June 7, 2004.

6. Mirant Kendall, LLC

[Docket No. ER04-650-001]

Take notice that on May 10, 2004, Mirant Kendall, LLC (Mirant Kendall) submitted, pursuant to the Commission's Letter Order issued May 6, 2004, notification of approval of the Bankruptcy Court for Mirant Kendall to enter into the Substation Agreement on April 7, 2004.

Comment Date: June 4, 2004.

7. Reliant Energy Aurora, LP

[Docket No. ER04-662-001]

Take notice that on May 14, 2004 Reliant Energy Aurora, LP (Aurora) filed an amended Black Start Service Agreement between Reliant Energy Aurora, LP and Commonwealth Edison to conform with Order 614. Aurora states that this filing is made in compliance with a Letter Order issued April 30, 2004, in Docket No. ER04-662-000.

Aurora states that copies of this filing were served upon persons designated on the official service list compiled by the Secretary in this proceeding and the parties to the agreement.

Comment Date: June 4, 2004.

8. California Independent System Operator Corporation

[Docket No. ER03-683-005]

Take notice that on May 17, 2004, the California Independent System Operator Corporation (ISO) submitted a filing to comply with the "Order on Compliance Filing" issued April 16, 2004, in Docket Nos. ER03-683-002 and 003, 107 FERC ¶ 61,042, and the "Order on Rehearing" issued April 16, 2004, in Docket No. ER03-683-001, 107 FERC ¶ 61,028.

The ISO states that it has served copies of this filing upon all parties on the official service list for the above-referenced proceeding. In addition, the ISO states that it is posting the filing on the ISO home page.

Comment Date: June 7, 2004.

9. Ohms Energy Company, LLC.

[Docket No. ER04-848-000]

Take notice that on May 17, 2004, Ohms Energy Company, LLC. (OEC) petitioned the Commission for acceptance of OEC Rate Schedule FERC No. 1; the granting of certain blanket approvals, including the authority to

sell electricity at market-based rates; and the waiver of certain Commission regulations. OEC states that it intends to engage in wholesale electric power and energy purchases and sales as a marketer. OEC requests that the rate schedule be effective 60 days after filing, or the date the Commission issues an order accepting the rate schedule, whichever occurs first.

Comment Date: June 7, 2004.

10. GenWest, LLC

[Docket No. ER04-849-000]

Take notice that on May 14, 2004, GenWest, LLC (GenWest) submitted a tariff for Emergency Redispatch Service. GenWest requests an effective date of May 17, 2004.

GenWest states that a copy of this filing was served upon Public Utility Commission of Nevada, Nevada Power Company, and Southern Nevada Water Authority.

Comment Date: June 4, 2004.

11. PJM Interconnection, L.L.C.

[Docket No. ER04-851-000]

Take notice that on May 14, 2004, PJM Interconnection, L.L.C. (PJM), tendered for filing an executed Transition Service Agreement with Exelon Generation Company, L.L.C. (ExGen), for use solely in connection with a dynamic schedule to the Hannibal, Ohio facility of Ormet Primary Aluminum Corporation (Ormet). PJM states that the agreement ratifies, amends, and replaces, effective May 15, 2004, the unexecuted service agreement filed by PJM in this proceeding on April 30, 2004. PJM further states that the service agreement is intended solely as a short-term transitional agreement to accommodate continuation for a few months of the unique arrangements that were in place for service to Ormet prior to the integration of Commonwealth Edison Company (ComEd) into PJM. PJM requests that the Commission waive certain otherwise applicable provisions of its tariff to accommodate continuation of this dynamic schedule through its short remaining term. PJM requests that the agreement be accepted effective May 15, 2004, and therefore requests waiver of the 60-day notice requirement.

PJM states that copies of this filing were served upon ExGen and the state commissions in the PJM region.

Comment Date: June 4, 2004.

Standard Paragraph

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC

20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502-8222 or TTY, (202) 502-8659. Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Magalie R. Salas,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2543-000]

Clark Fork and Blackfoot, LLC; Notice of Scoping Meetings and Soliciting Scoping Comments

May 20, 2004.

Take notice that the following scoping meetings will be held by staff of the Federal Energy Regulatory Commission (Commission), where the Commission will solicit comments in anticipation of an application to surrender the license for the Milltown Dam Project:

a. *Type of Application:* It is anticipated that after the Environmental Protection Agency has completed its Record of Decision on its proposed cleanup plan for the Milltown Reservoir, Clark Fork and Blackfoot, LLC (licensee for the Milltown Dam Project) would file an application for surrender of the project license, pursuant to Commission rules and regulations.

b. *Project No.:* 2543.

c. *Licensee:* Clark Fork and Blackfoot, LLC.

d. *Name of Project:* Milltown Dam Project.

e. *Location:* Confluence of the Clark Fork River and the Blackfoot River in Missoula County, Montana.

f. *To Be Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)-825(r).

g. *Applicant Contact:* William W. Thompson, PE, Senior Engineer, NorthWestern Energy, 40 East Broadway, Butte, MT 59701.

h. *FERC Contact:* Robert Grieve at (202) 502-8752, or robert.grieve@ferc.gov.

i. *Deadline for Filing Scoping Comments:* June 21, 2004.

All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Scoping comments may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

i. On May 17, 2004, the U.S. Environmental Protection Agency (EPA) and the Montana Department of Environmental Quality (DEQ) released a Revised Proposed Plan for the Milltown Reservoir Sediments Operable Unit of the Milltown Reservoir Superfund Site. The EPA has scheduled meetings for June 9 and 10, 2004, to accept comments on the plan. Those comments will play a role in the EPA's Record of Decision (ROD) for the Milltown Reservoir, expected this fall. Subsequent to EPA's ROD, the Commission anticipates Clark Fork and Blackfoot, LLC will file an application for surrender of its license for the Milltown Dam Project, pursuant to 18 CFR 6.1. To expedite the process, Commission staff will be present at EPA's scheduled public meetings to solicit comments from the public on the anticipated surrender application.

j. *Scoping Process:* The Commission intends to prepare either an Environmental Assessment (EA) or an Environmental Impact Statement (EIS) on the anticipated surrender application in accordance with the National Environmental Policy Act. The EA or EIS will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

Scoping Meetings

The EPA noticed its meetings on May 17, 2004. We invite all interested agencies, non-governmental organizations, Native American tribes, and individuals to attend one or more of the meetings and to assist the Commission staff in identifying the scope of environmental issues to be analyzed in the EA or EIS. The times and locations of these meetings are as follows:

Wednesday, June 9, 2004, Bonner School Gym, 9045 Highway 200, Bonner, Montana. Open house: 6-7 p.m. Public meeting: 7-10 p.m.

Thursday June 10, 2004, Opportunity Community Center, Hauser and Stewart (kitty-corner from Solan's grocery), Opportunity, Montana. Open house: 6-7 p.m. Public meeting: 7-10 p.m.

At the scoping meetings, the Commission staff will: (1) Summarize the procedures by which the Commission will process the anticipated surrender application; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the EA or EIS, including viewpoints in opposition to, or in support of; (4) determine the resource issues to be addressed in the EIS; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

Procedures

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meeting and to assist the staff in defining and clarifying the issues to be addressed in an EA or EIS.

Linda Mitry,

Acting Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Application To Amend Project Boundary and Soliciting Comments, Motions To Intervene, and Protests

May 20, 2004.

Take notice that the following application has been filed with the

Commission and is available for public inspection:

a. *Application Type*: Amendment to remove project lands from the project boundary.

b. *Project No.*: 1490–035.

c. *Date Filed*: March 24, 2004.

d. *Applicant*: Brazos River Authority.

e. *Name of Project*: Morris Sheppard Hydroelectric Project.

f. *Location*: The project is located on the Possum Kingdom Reservoir on the Brazos River in Palo Pinto County, Texas. This project does not occupy any Federal or tribal lands.

g. *Filed Pursuant to*: Federal Power Act, 16 U.S.C. 791(a), 825(r), 799 and 801.

h. *Applicant Contact*: Mr. Phillip J. Ford, General Manager/CEO, Brazos River Authority, 4600 Cobbs Drive, P.O. Box 7555, Waco, TX 76714–7555, (254) 761–3100.

i. *FERC Contact*: Any questions on this notice should be addressed to Patricia W. Gillis at (202) 502–8735, or e-mail address: patricia.gillis@ferc.gov.

j. *Deadline for Filing Comments and or Motions*: June 21, 2004.

All documents (original and eight copies) should be filed with: Ms. Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please include the project number (P–1490–035) on any comments or motions filed. Comments, protests, and interventions may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages e-filings.

k. *Description of Request*: Brazos River Authority (Authority) is seeking Commission authorization to sell and remove from the project boundary, approximately 33 acres of project lands (located in the middle portion of Possum Kingdom Reservoir approximately 18 river miles upstream from the Morris Sheppard Dam). These lands are part of one of the 28 recreational areas approved as part of the Authority's Recreation Plan in 1991 (59 FERC ¶ 62,162). The Authority would retain a 75-foot buffer strip at the site within the project boundary for public access. The removed lands would be sold to a private developer for condominium construction.

l. *Locations of the Application*: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 502–8371. This filing may also be

viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, call 1–866–208–3676 or e-mail FERCOnlineSupport@ferc.gov, for TTY, call (202) 502–8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene*—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of rules of practice and procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents*—Any filings must bear in all capital letters the title "COMMENTS", "RECOMMENDATIONS FOR TERMS AND CONDITIONS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

p. *Agency Comments*—Federal, State, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an

agency's comments must also be sent to the Applicant's representatives.

Linda Mitry,

Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–7667–6]

Notice of Open Meeting, Environmental Financial Advisory Board, Workshop on Financial Assurance Mechanisms

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The United States Environmental Protection Agency's Environmental Financial Advisory Board (EFAB) will hold an open meeting of its Preventing Future Non-Funded Abandoned Sites Project Workshop.

EFAB is chartered with providing analysis and advice to the EPA Administrator and program offices on issues relating to environmental finance. The purpose of this meeting is for the EFAB to collect information and ideas with respect to a number of important financial assurance topics. The first day of the workshop will examine the financial test for self-insurance and corporate guarantees, corporate sibling guarantees, and disclosure issues. The second day will focus on a number of insurance issues, including the strengths and pitfalls of insurance, insurer ratings and capitalization requirements, and captive insurance. Each day will be structured to address the issues via a series of panel discussions involving experts from federal and state governments; finance, banking, and accounting firms; insurance companies and brokers; business and industry; the legal community; and environmental organizations.

The meeting is open to the public, but seating may be limited. Because of building security requirements, all members of the public who wish to attend this meeting must register in advance, no later than Thursday, June 10, 2004.

DATES: June 14, 2004 from 9 a.m.–5 p.m., and June 15, 2004 from 9 a.m.–4:30 p.m.

ADDRESSES: ConEdison, 4 Irving Place, 19th Floor, New York, NY 10003.

FOR FURTHER INFORMATION CONTACT: To register for the meeting or get further

information, please contact Timothy McProuty, U.S. EPA, at 202-564-4996 or mcprouty.timothy@epa.gov.

Dated: May 17, 2004.

Joseph Dillon,

Director, Office of Enterprise Technology and Innovation.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

May 18, 2004.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this

opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before June 28, 2004. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments regarding this Paperwork Reduction Act submission to Judith B. Herman, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to Judith-B.Herman@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202-418-0214 or via the Internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:
OMB Control No.: 3060-1058.
Title: FCC Wireless

Telecommunications Bureau Application or Notification for Spectrum Leasing Arrangement.
Form No: FCC Form 603-T.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local and tribal government.

Number of Respondents: 1,490.

Estimated Time Per Response: 4 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Total Annual Burden: 7,453 hours.

Total Annual Cost: \$1,221,860.

Privacy Act Impact Assessment: Not applicable.

Needs and Uses: The required application and notifications will provide the Commission with useful information about spectrum usage and helps to ensure that licensees and lessees are complying with Commission interference and non-interference related policies and rules. Similar information and verification requirements have been used in the past for licensees operating under authorizations, and such requirements will serve to minimize interference, verify lessees are legally and technically qualified to hold licenses, and ensure compliance with Commission rules. The Commission sought and received emergency clearance for the FCC Form 603-T and their rules in January 2004. The Commission is now seeking extension (no change) for this information collection in order to obtain the full three year clearance.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[DA 04-1405]

Announcement of Next Meeting Date and Agenda of Consumer Advisory Committee

AGENCY: Federal Communications Commission.

ACTION: Announcement of meeting.

SUMMARY: This document announces the next meeting date and agenda of the Consumer Advisory Committee whose purpose is to make recommendations to the Federal Communications Commission ("Commission") regarding consumer issues within the jurisdiction of the Commission and to facilitate the participation of consumers (including people with disabilities and underserved populations, such as Native Americans and persons living in rural areas) in proceedings before the Commission.

DATES: The next meeting of the Committee will take place on Friday, June 18, 2004, from 9 a.m. to 4 p.m.

ADDRESSES: Federal Communications Commission, 445 12th Street, SW., Room TW-C305, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Scott Marshall, 202-418-2809 (voice),

202-418-0179 (TTY) or e-mail:
scott.marshall@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Public Notice* DA 04-1405 released May 19, 2004. The Commission announced the next meeting date and meeting agenda of its Consumer Advisory Committee.

Purpose and Functions

The purpose of the Committee is to make recommendations to the Commission regarding consumer issues within the jurisdiction of the Commission and to facilitate the participation of consumers (including people with disabilities and underserved populations, such as Native Americans and persons living in rural areas) in proceedings before the Commission.

Meeting Agenda

At its June 18, 2004 meeting, the Committee will (1) receive briefings by FCC staff regarding Agency activities; (2) receive a progress report from its Broadband Working Group; and (3) receive a briefing by its Homeland Security working group regarding problems and solutions raised at the March 25th homeland security disability summit. The Committee will also discuss truth in billing issues with representatives of public and private stakeholders. Time will be allotted between 10 a.m. and 12 p.m. for working group breakout sessions.

A copy of the May 19, 2004, *Public Notice* is available in alternate formats (Braille, cassette tape, large print or diskette) upon request. It is also posted on the Commission's Web site at <http://www.fcc.gov/cgb/cac>. Meeting minutes will be available for public inspection at the FCC headquarters building and will be posted on the Commission's Web site at <http://www.fcc.gov/cgb/cac>.

The Committee meeting will be open to the public and interested persons may attend the meeting and communicate their views. Members of the public will have an opportunity to address the Committee on issues of interest to them and the Committee. Written comments for the Committee may also be sent to the Committee's Designated Federal Officer, Scott Marshall.

The meeting site is fully accessible to people using wheelchairs or other mobility aids. Meeting agendas and handouts will be provided in accessible format; sign language interpreters, open captioning, and assistive listening devices will be provided on site. The meeting will be webcast with open captioning at <http://www.fcc.gov/cgb/>

cac. Request other reasonable accommodations for people with disabilities as early as possible; please allow at least 5 days advance notice. Include a description of the accommodation you will need including as much detail as you can. Also include a way we can contact you if we need more information. Last minute requests will be accepted, but may be impossible to fill. Send an e-mail to: fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice), 202-418-0432 (TTY).

Federal Communications Commission.

K. Dane Snowden,

Chief, Consumer & Governmental Affairs Bureau.

FEDERAL RESERVE SYSTEM

Notice of Proposals to Engage in Permissible Nonbanking Activities or to Acquire Companies that are Engaged in Permissible Nonbanking Activities

The companies listed in this notice have given notice under section 4 of the Bank Holding Company Act (12 U.S.C. 1843) (BHC Act) and Regulation Y (12 CFR Part 225) to engage *de novo*, or to acquire or control voting securities or assets of a company, including the companies listed below, that engages either directly or through a subsidiary or other company, in a nonbanking activity that is listed in § 225.28 of Regulation Y (12 CFR 225.28) or that the Board has determined by Order to be closely related to banking and permissible for bank holding companies. Unless otherwise noted, these activities will be conducted throughout the United States.

Each notice is available for inspection at the Federal Reserve Bank indicated. The notice also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether the proposal complies with the standards of section 4 of the BHC Act. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 10, 2004.

A. Federal Reserve Bank of Chicago (Patrick Wilder, Assistant Vice President) 230 South LaSalle Street, Chicago, Illinois 60690-1414:

1. *Marshall & Ilsley Corporation*, Milwaukee, Wisconsin; to acquire indirectly through its wholly-owned subsidiary, Metavante Corporation, 100 percent of the voting shares of NYCE Corporation, Montvale, New Jersey, and thereby indirectly acquire Everlink Payment Services, Inc., a majority-owned subsidiary of NYCE operating in Canada, and therefore engage in certain data processing activities abroad, pursuant to section 225.28(b)(14)(i) of Regulation Y.

2. *Marshall & Ilsley Corporation*, Milwaukee, Wisconsin; to acquire indirectly through its wholly-owned subsidiary, Metavante Corporation, 100 percent of the voting shares of Advanced Financial Solutions, Inc., and thereby indirectly acquire all of the limited liability company interests of CheckClear L.L.C., and Medical Banking Exchange L.L.C., all located in Oklahoma City, Oklahoma, and thereby engage in certain data processing activities, pursuant to section 225.28(b)(14)(i) of Regulation Y.

B. Federal Reserve Bank of Cleveland (Nadine W. Wallman, Assistant Vice President) 1455 East Sixth Street, Cleveland, Ohio 44101-2566:

1. *Wesbanco, Inc., and WOCC, Inc.*, both of Wheeling, West Virginia; to acquire Western Ohio Financial Corporation, and thereby indirectly acquire Cornerstone Bank, both of Springfield, Ohio, and thereby engage in operating a savings association, pursuant to section 225.28(b)(4)(ii) of Regulation Y. Comments on this application must be received by June 21, 2004.

Board of Governors of the Federal Reserve System, May 21, 2004.

Robert deV. Frierson,

Deputy Secretary of the Board.

BILLING CODE 4163-19-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Initiatives To Educate State Legislatures About Priority Public Health Issues

Announcement Type: New.

Funding Opportunity Number: 04157.

Catalog of Federal Domestic

Assistance Number: 93.283.

Key Dates:

Letter of Intent Deadline: June 17, 2004.

Application Deadline: July 12, 2004.

I. Funding Opportunity Description

Authority: This program is authorized under sections 301(a), and 317(k)(2) of the Public Health Service Act [42 U.S.C. 241(a) and 247b(k)(2)], as amended.

Purpose: The purposes of this program announcement are to identify and implement national educational initiatives to address the need for accurate, comprehensive, and timely public health information for state legislatures through informational forums and other communication channels to address current and emerging public health concerns of state legislatures including barriers to effective public health.

These activities shall not be intended to support or defeat particular state legislation.

Priority areas for these activities are prevention, early detection, and control of disease, injury, and disability, and the strengthening of state and local public health agencies.

This program addresses "Healthy People 2010" focus areas of birth defects, developmental disabilities and health for people with disabilities; chronic disease and related risk factors; environmental health; Human Immuno Deficiency Virus (HIV), sexually transmitted diseases (STD) and Tuberculosis (TB); infectious disease; injury and violence prevention; immunization; occupational safety and health; public health practice and infrastructure. In addition, this program addresses emergency preparedness and response; genomics; health issues facing older Americans, and health disparities.

Measurable outcomes of the program will be in alignment with one (or more) of the following performance goals for the Centers for Disease Control and Prevention:

A. Increase Legislators awareness and understanding of current and emerging public health activities and issues.

B. Assist in identifying state specific and national public health initiatives.

C. Increase understanding and knowledge of public health initiatives among state legislators.

D. Support understanding the public health missions, objectives, and activities of the Centers, Institutes, and Offices at the Centers for Disease Control and Prevention (CDC).

Activities: Recipient activities are divided into two categories: core and categorical. Core activities provide for cross-cutting activities or subject-specific activities. Categorical activities are subject area specific. Specific core and categorical activities should not be duplicative.

Recipient Core Activities: Each core activity should reflect the interests of a minimum of three CDC programs with special emphasis on the following: National Center for Birth Defects and Developmental Disabilities; National Center for Chronic Disease Prevention and Health Promotion; National Center for Environmental Health; National Center for HIV, STD and TB Prevention; National Immunization Program; Office of Terrorism, Preparedness and Emergency Response; and Public Health Practice Program Office. Priority focus areas for year one core activities should reflect the public health mission and objectives of CDC (<http://www.cdc.gov>).

a. Identify and address national and state public health activities and concerns that affect program decision-making and planning activities. Assess the status of legislative trends in public

health on a quarterly basis. At a minimum conduct quarterly education updates for state legislatures on public health activities.

b. Develop and coordinate public health educational and information sharing activities with state and local health department contacts, including public health experts, to ensure that organization members from each state legislature are aware of public health issues, programs, and activities in their state or region.

c. Enhance relationships with and consult with key organizations to inform state legislators about prevention and public health activities and goals.

d. Respond to legislative requests about prevention and public health activities and issues and provide public health experts with a compendium of contact inquiries on a quarterly basis.

e. Examine existing research in order to develop and distribute publications tailored to the information needs of state legislators on public health disease control and prevention in order to educate state legislators about relevant policy and program activities and challenges to effective public health.

f. Provide forums for state health officials, state policy makers, and state legislative staff to share ideas and learn about public health activities and challenges to effective public health.

g. Develop or use existing capabilities to effectively communicate and share public information including electronic posting and dissemination of information and services for legislators, other stakeholders, and the general public about emerging and current public health activities and challenges to effective public health.

h. Ensure CDC core activities are complementary and do not duplicate categorical activities. To ensure maximum efficiency, activities related to public health and education funded by other organizations is also coordinated with the activities funded under this program announcement.

i. Conduct workshops on priority public health activities and challenges to effective public health at national health conferences and through other venues.

j. Plan, conduct, and evaluate (using both process and outcome measures), an annual meeting in the most cost efficient location to facilitate the exchange of public information between public health experts, legislators, and their staff.

k. Provide a forum and/or publication for newly-elected state legislators, so they can learn about priority public health activities and barriers to effective public health.

l. Develop and measure outcome indicators for all major activities funded under this program announcement.

Recipient Categorical Activities: Priority focus areas for year one categorical activities should reflect the public health mission and objectives for each of the following centers and programs: The National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP); National Center for Environmental Health (NCEH), National Center for HIV, STD and TB prevention (NCHSTP); The National Center on Birth Defects and Developmental Disabilities (NCBDDD); National Immunization Program (NIP); and Adolescent and School Health (DASH). Specific activities for each funding source are indicated after the activity. Each categorical project contains multiple activities as outlined below, a description of each lettered activity follows the list.

Categorical project	Activities
DASH	b,c,d,h,i
NCCDPHP	a,b,c,d,e,f,g
NCBDDD	a,b,c,d,e,f,g
NCEH	a,b,c,e,f
NCHSTP	a,b,c,d,e,f,g,j
NIP	a,b,c,d,e,f,g

Activities (As referenced above):

a. Collaborate with key organizations to provide public health prevention and control information for state legislators. (NCCDPHP, NCBDDD, NCEH, NCHSTP, NIP)

b. Create, update, publicize, and maintain electronic services and other communication venues to inform legislators, other stakeholders, and the general public about emerging and current public health activities and barriers to effective public health. (all funding sources)

c. Examine existing research in order to develop and distribute publications tailored to the information needs of legislators on public health disease prevention and public health in order to educate legislators' about relevant public health activities and barriers to effective public health. (all funding sources)

d. Identify information sharing opportunities for state legislators and legislative staff, state government employees, and other key figures so they can discuss current and emerging public health related activities and concerns. (DASH, NCCDPHP, NCBDDD, NCHSTP, NIP)

e. Identify and address national and state public health activities and concerns that affect program decision-making and planning activities. At a minimum, conduct quarterly public

health educational updates for state policymakers on public health activities and barriers to effective public health. (NCCDPHP, BDDHBB, NCEH, HIV and STD, NIP)

f. Examine existing research to identify the critical barriers to effective public health facing state legislatures and remain apprised of key public health activities and concerns as they relate to states and state legislatures. (NCCDPHP, BDDHBB, NCEH, HIV and STD, NIP)

g. Coordinate activities with state and local health department contacts, including public health experts, to ensure that organization members from each state legislature are aware of public health activities, programs, and activities in their state or region. (NCCDPHP, NCBDDD, NCHSTP, NIP)

The below activities apply to adolescent and school health funding ONLY:

h. Participate in a sufficient number of meetings of the joint work groups on social marketing of positive messages for HIV prevention and school health; teen pregnancy prevention; and adolescent and/or school health to effectively communicate accurate and up to date public health prevention information.

i. Ensure that financial information for the 50 state School Health funded Project's including the block grant funding and state legislative appropriations information is current and accurate.

The below activity applies to NCHSTP funding ONLY:

j. Develop, update, and disseminate, as needed, HIV educational information and materials for newly elected state legislators and staff that can be easily accessed via the organization's Web site and other communication venues.

In a cooperative agreement, CDC staff is substantially involved in the program activities, above and beyond routine grant monitoring.

CDC Activities for this program are as follows:

a. Provide up-to-date information that includes diffusion of best practices and current research and data in public health.

b. Provide programmatic consultation, guidance, and technical assistance related to program planning, implementation and evaluation; assessment of program objectives; and dissemination of successful strategies, experiences and evaluation reports regarding public health programs and policies.

c. Assist in the evaluation of program activities.

d. Collaborate in the planning and support of workshops, conferences, and other professional gatherings that serve a public health purpose, and as appropriate, provide speakers for meetings.

e. Provide analytical expertise and assist in preparation of material for publication that includes information on public health activities.

f. Coordinate with national, state, and local education, health, and social service agencies, as well as other relevant organizations, in planning and conducting national strategies designed to strengthen programs to prevent disease and promote health.

g. Provide technical assistance regarding the scope, development, and accomplishment of activities undertaken as part of the cooperative agreement.

h. Convene CDC steering committees to consult with grantee in all aspects of program implementation and evaluation, educational materials development and dissemination.

II. Award Information

Type of Award: Cooperative Agreement. CDC involvement in this program is listed in the Activities Section Above.

Fiscal Year Funds: 2004.

Approximate Total Funding: \$1,176,427.

Core: \$270,000.

Categorical: \$906,427.

Project 1: National Center for Chronic Disease Prevention and Health Promotion: \$525,000.

Project 2: Division of Adolescent and School Health: \$150,000.

Project 3: National Center on HIV, STD and TB Prevention: \$87,427.

Project 4: National Center for Environmental Health: \$40,000.

Project 5: National Immunization Program: \$134,000.

Project 6: National Center on Birth Defects and Developmental Disabilities: \$30,000.

Approximate Number of Awards: 1.

Approximate Average Award: \$1,176,427 (This amount is for the first 12 month period and includes both direct and indirect costs.)

Floor of Award Range: None.

Ceiling of Award Range: None.

Estimated Award Date: September 1, 2004.

Budget Period Length: 12 months.

Project Period Length: Three years.

Throughout the project period, CDC's commitment to continuation of awards will be conditioned on the availability of funds, evidence of satisfactory progress by the recipient (as documented in required reports), and

the determination that continued funding is in the best interest of the Federal Government.

III. Eligibility Information

Eligible applicants are national; non-profit; non-partisan or bipartisan organizations that consist of requisite memberships representing legislatures from all 50 states. The applicant organizations provide information, education, publications, and networking forums to state legislators, committees and their staff.

Note: Pub. L. 104–65 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan or any other form.

Limited competition is justified under this program announcement due to the limited number of organizations having expertise interacting with all 50 state legislatures on existing and emerging public health issues.

III.2. Cost Sharing or Matching

Matching funds are not required for this program.

III.3. Other

If your application is incomplete or non-responsive to the requirements listed in this section, it will not be entered into the review process. You will be notified that your application did not meet submission requirements.

Timely submission of a letter of intent (LOI) is required to be eligible for this program. See sections IV.2., IV.3., and IV.6. of this announcement for more information on LOI submission.

Applicants should have at least five years experience in educating and informing state legislators and their staff from all 50 state legislatures on public health issues and use a variety of information technologies and resources to communicate the information to the state legislatures. The applicant should document eligibility by providing a concise summary that clearly describes:

(a) The organization's status as a national, non-profit, non-partisan or bipartisan organization that consists of requisite legislature memberships representing legislatures from all 50 states;

(b) the organization's experience in educating, informing and communicating with state legislators from all 50 state legislatures on public health issues. Sample materials produced can be provided in the appendices.

Note: Title 2 of the United States Code section 1611 states that an organization

described in section 501(c)(4) of the Internal Revenue Code that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, or loan.

IV. Application and Submission Information

IV.1. Address To Request Application Package

To apply for this funding opportunity use application form PHS 5161. Application forms and instructions are available on the CDC Web site, at the following Internet address: <http://www.cdc.gov/od/pgo/forminfo.htm>.

If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Procurement and Grants Office Technical Information Management Section (PGO–TIM) staff at: 770–488–2700. Application forms can be mailed to you.

IV.2. Content and Form of Submission

Letter of Intent (LOI):

A letter of intent (LOI) is required from all potential applicants for the purpose of determining eligibility and planning the competitive review process. Failure to submit a LOI will preclude you from submitting an application. Your LOI must be written in the following format:

- Maximum number of pages: two.
- Font size: 12-point un-reduced.
- Double-spaced.
- Paper size: 8.5 by 11 inches.
- Page Margin Size: one inch.
- Printed only on one side of page.
- Written in English, avoid jargon.

Your LOI must contain the following information:

- The program announcement title and number;
- The applicant's status as a national, non-profit, and bipartisan organization;
- The applicant's constituency is elected officials and their staff in the legislative branch from all 50 states; and
- The applicant's experience in providing education, research, and information to the elected officials and their staff from all 50 state legislatures on a broad array of public health issues.

Application: You must submit a project narrative with your application forms. The narrative must be submitted in the following format:

- Maximum number of pages: 125—If your narrative exceeds the page limit, only the first pages which are within the page limit will be reviewed. This includes forms and budget justification.
- Font size: 12 point un-reduced.
- Double-spaced.
- Paper size: 8.5 by 11 inches.
- Page margin size: one inch.

- Printed only on one side of page, double-spaced.
- Held together only by rubber bands or metal clips, not bound in any other way.

Your narrative should address activities to be conducted over the entire project period, and must include the following items in the order listed:

1. Executive Summary

Describe prior public health experience working with state legislators and legislators' staff from all 50 states. Describe the level of capacity and ability to conduct national programs and activities related to promoting education, awareness, and information dissemination on public health initiatives for state legislatures. Document your capacity to accomplish the purpose of this program announcement by providing a concise summary that clearly describes:

(a) The organization's status as a national; non-profit; non-partisan or bipartisan organization that consists of requisite legislature memberships representing legislatures from all 50 states;

(b) The organization's experience and demonstrated outcomes in educating, informing, and communicating with state legislators from all 50 state legislatures on public health issues. Sample materials produced can be provided in the appendices.

2. Background and Need

Describe the need for the proposed activities and the context in which the work will be conducted. Provide descriptions of the constituent population and how your organization will play a significant role in public health, either by direct or indirect impact.

3. Method

For each of the proposed project areas, submit a plan that describes the methodologies for conducting awardee activities outlined in the Activities sections. Identify strategies and activities for increasing the applicant's involvement in promoting and supporting public health programs over the next three years.

Explain how planned activities relate to the purpose of this program announcement. The plan should identify and establish a timeline for the completion of each component or major activity.

4. Goals and Objectives

For each of the proposed project areas, list goals specifically related to program requirements and indicate

expected program outcomes at the end of the three-year project period. Provide objectives that are specific, measurable, feasible, and time phased to be accomplished during the 12-month budget period. Objectives should relate directly to the project goals and recipient activities.

Describe goals and objectives in narrative form and provide a timetable, with specific activities and expected outcomes that are related to each objective during the 12-month budget period. Indicate when each activity will occur, as well as when preparations for activities will occur. Also indicate who will be responsible for each activity and identify staff assigned to each activity.

5. Project Management and Staffing Plan

For each of the proposed project areas:

a. Describe the proposed staffing for the project and submit job descriptions illustrating the level of organizational responsibility for professional staff that will be assigned to the project.

b. In the application appendices, include a curriculum vitae for each professional staff member named in the proposal.

c. Describe the organization's structure and function; how that structure will support the accomplishment of the proposed public health activities at the state level; and the organization's methods of current communication with all 50 state legislatures.

6. Evaluation Plan

For each of the project areas, describe how activities and their impact will be evaluated. Describe how progress toward meeting project objectives will be monitored.

The evaluation plan should address measures considered critical to determine the success of the plan outlined by the applicant, and results should be used for improvement of the intended plan.

7. Budget and Accompanying Justification

For each of the project areas, provide a separate detailed line-item budget and narrative justification describing operating expenses consistent with the proposed objectives and planned activities.

Provide a precise description for each budget item and itemize calculations when appropriate. Provide a summary budget for the total requested. The budget and accompanying justification will not be counted in the stated page limit.

Additional information may be included in the application appendices. The appendices will not be counted toward the narrative page limit. This additional information includes:

- Curriculum Vitae.
- Job Descriptions.
- Organizational Charts.
- Any other supporting

documentation.

You are required to have a Dun and Bradstreet Data Universal Numbering System (DUNS) number to apply for a grant or cooperative agreement for the Federal government. The DUNS number is a nine-digit identification number, which uniquely identifies business entities. Obtaining a DUNS number is easy and there is no charge. To obtain a DUNS number, access <http://www.dunandbradstreet.com> or call 1-866-705-5711.

For more information, see the CDC Web site at: <http://www.cdc.gov/od/pgo/funding/pubcomm.htm>. If your application form does not have a DUNS number field, please write your DUNS number at the top of the first page of your application, and/or include your DUNS number in your application cover letter.

Additional requirements that may require you to submit additional documentation with your application are listed in section "VI.2. Administrative and National Policy Requirements."

IV.3. Submission Dates and Times

LOI Submission Date: June 17, 2004.

CDC requires that you send a LOI if you intend to apply for this program. The LOI will be used to gauge the level of interest in this program, to determine applicant eligibility, and to allow CDC to plan the application review.

Application Deadline Date: July 12, 2004.

Explanation of Deadlines: LOIs and Applications must be received in the CDC Procurement and Grants Office by 4 p.m. eastern time on the deadline date. If you send your LOI or application by the United States Postal Service or commercial delivery service, you must ensure that the carrier will be able to guarantee delivery of the LOI or application by the closing date and time. If CDC receives your LOI or application after closing due to: (1) Carrier error, when the carrier accepted the package with a guarantee for delivery by the closing date and time, or (2) significant weather delays or natural disasters, you will be given the opportunity to submit documentation of the carrier's guarantee.

This announcement is the definitive guide on LOI and application format,

content, and deadlines. It supersedes information provided in the application instructions. If your LOI or application does not meet the deadline above, it will not be eligible for review, and will be discarded. You will be notified that you did not meet the submission requirements.

CDC will not notify you upon receipt of your LOI or application. If you have a question about the receipt of your application, first contact your courier. If you still have a question, contact the PGO-TIM staff at: 770-488-2700. Before calling, please wait two to three days after the application deadline. This will allow time for applications to be processed and logged.

IV.4. Intergovernmental Review of Applications

Executive Order 12372 does not apply to this program.

IV.5. Funding Restrictions

Restrictions, which must be taken into account while writing your budget, are as follows:

- Funds may be spent for reasonable program purposes, including personnel, travel, supplies, and services.

- Equipment may be purchased, with appropriate justification, including cost comparison of purchase with lease. Although contracts with other organizations are allowable, the recipient of this grant must perform a substantial portion of activities for which funds are requested.

- Cooperative agreement funds may not supplant existing funds from any other public or private source.

- Funds may not be expended for construction, renovation of existing facilities, or relocation of headquarters or affiliates.

- Funds may not be used for clinical services.

- If you are requesting indirect costs in your budget, you must include a copy of your indirect cost rate agreement. If your indirect cost rate is a provisional rate, the agreement must be less than 12 months of age.

- Pre-award costs will not be reimbursed.

Guidance for completing your budget can be found on the CDC Web site, at the following Internet address: <http://www.cdc.gov/od/pgo/funding/budgetguide.htm>.

IV.6. Other Submission Requirements

LOI Submission Address: Submit your LOI by express mail or delivery service to: Technical Information Management—PA04157, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146.

Application Submission Address:

Submit the original and two hard copies of your application by mail or express delivery service to: Technical Information Management—PA04157, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146.

LOIs and applications may not be submitted electronically at this time.

V. Application Review Information*V.1. Criteria*

You are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of this announcement. Measures must be objective and quantitative, and must measure the intended outcome. These measures of effectiveness must be submitted with the application and will be an element of evaluation.

Your application will be evaluated against the following evaluation criteria (100 points total):

1. Goals and Objectives (30 Points)

For each of the proposed project areas, does the applicant's plan for achieving the proposed activities appear realistic, feasible and relate to the programmatic requirements and purposes of this program announcement? Are short-term (one year) and long-term (three year) objectives specific, time-phased, measurable, realistic and related to identified needs?

2. Project Management and Staffing (20 Points)

For each of the proposed project areas, does the proposed staffing, organizational structure, job descriptions and curricula vitae for both proposed and current staff, indicate past experience in carrying out similar programs, and the ability to carry out the purposes of the current program?

3. Method (20 Points)

For each of the proposed project areas, does the applicant describe the methodologies for carrying out the recipient activities as outlined in the activities section of this announcement with a corresponding timeline for the completion of each major activity?

4. Evaluation Plan (20 Points)

For each of the proposed project areas, does the proposed evaluation plan address progress toward meeting goals and objectives, assess impact, and appear to be reasonable and feasible?

5. Background and Need (10 Points)

Does the applicant describe the need for the proposed activities and the context in which the work will be conducted? Does the applicant describe how their organization will play a significant role in public health among their target population?

6. Budget and Justification (Not Scored)

For each of the proposed project areas, is the budget reasonable and consistent with the purpose and activities of the program? Does the applicant provide a summary budget for all activities?

V.2. Review and Selection Process

Applications will be reviewed for completeness by the Procurement and Grants Office (PGO) staff and for responsiveness by The National Center for Chronic Disease Prevention and Control. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process.

Applicants will be notified that their application did not meet submission requirements.

Applications submitted for this Part will be reviewed by an independent objective review panel appointed by CDC that will evaluate each application against the "V.1. Criteria" section above.

No funding preference factors will affect the award.

V.3. Anticipated Announcement Award Date

September 1, 2004.

VI. Award Administration Information*VI.1. Award Notices*

Successful applicants will receive a Notice of Grant Award (NGA) from the CDC Procurement and Grants Office. The NGA shall be the only binding, authorizing document between the recipient and CDC. The NGA will be signed by and authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application.

Unsuccessful applicants will receive notification of the results of the application review by mail.

VI.2. Administrative and National Policy Requirements:

45 CFR Part 74 and Part 92

For more information on the Code of Federal Regulations, see the National Archives and Records Administration at the following Internet address: <http://www.access.gpo.gov/nara/cfr/cfr-table-search.html>.

The following additional requirements apply to this project:

- AR-8 Public Health System Reporting Requirements
- AR-9 Paperwork Reduction Act Requirements
- AR-10 Smoke-Free Workplace Requirements
- AR-11 Healthy People 2010
- AR-12 Lobbying Restrictions
- AR-14 Accounting System Requirements
- AR-15 Proof of Non-Profit Status

Additional information on these requirements can be found on the CDC Web site at the following Internet address: <http://www.cdc.gov/od/pgo/funding/ARs.htm>.

VI.3. Reporting Requirements

You must provide CDC with the original, plus two hard copies of the following reports:

1. Interim progress report, no less than 90 days before the end of the budget period. The progress report will serve as your non-competing continuation application, and must contain the following elements:

- a. Current Budget Period Activities Objectives.
- b. Current Budget Period Financial Progress.
- c. New Budget Period Program Proposed Activity Objectives.
- d. Detailed Line-Item Budget and Justification.
- e. Additional Requested Information.
- f. Measures of Effectiveness.

2. Financial status report and annual progress report, no more than 90 days after the end of the budget period.

3. Final financial and performance reports, no more than 90 days after the end of the project period.

These reports must be sent to the Grants Management Specialist listed in the "Agency Contacts" section of this announcement.

VII. Agency Contacts

For general questions about the announcement, contact: Technical Information Management, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146, Telephone: 770-488-2700.

For program technical assistance, contact: Jennifer Tucker, 4770 Buford Highway, MS K-40, Atlanta, GA 30341, Telephone: 770-488-6454, E-mail: jrt5@cdc.gov.

For business management and budget assistance, contact: LaKasa Wyatt, Contract Specialist, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146, Telephone: 770-488-2728, E-mail: lgw5@cdc.gov.

Dated: May 21, 2004.

William P. Nichols,

*Acting Director, Procurement and Grants
Office, Centers for Disease Control and
Prevention.*

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Tuberculosis Elimination and Laboratory Cooperative Agreements

Program Announcement Type: New.

Program Announcement Number:

05003.

Catalog of Federal Domestic

Assistance Number: 93.116.

Application Deadline: July 26, 2004.

I. Funding Opportunity Description

I.1. Authority

This program is authorized under section 317 E of the Public Health Service Act, (42 U.S.C. 247, b-6), as amended.

I.2. Purpose

A. TB Prevention and Control

The purpose of the Tuberculosis (TB) Elimination Cooperative Agreement Program is to assist the current efforts of State and local TB programs to prevent, control, and eventually eliminate TB in the United States. Financial assistance is provided to TB programs to ensure that program needs for the core TB prevention and control activities are met. This program addresses the "Healthy People 2010" focus area of Immunization and Infectious Diseases in conjunction with the Government Performance and Results Act of 1993 (GPRA).

Funds are available for recipients to address the core TB prevention and control activities (*i.e.*, completion of therapy, contact investigation, TB surveillance, TB public health laboratory, human resource development, and program evaluation).

Measurable outcomes of program progress will be in alignment with all of the following performance goal(s) for the National Center for HIV, STD, and TB Prevention (NCHSTP):

(1) Increase the percentage of TB patients who complete a course of curative TB treatment within 12 months of initiation of treatment (some patients require more than 12 months).

(2) Increase the percentage of TB patients with initial positive cultures

who also are tested for and receive drug susceptibility results.

(3) Increase the percentage of infected contacts of infectious cases that are placed on treatment for latent TB infection (LTBI) and complete a treatment regimen.

(4) Increase the percentage of other high-risk infected persons who are placed on treatment for LTBI and complete a treatment regimen.

(5) Increase the percentage of immigrants and refugees designated as Class A, B1, or B2 who are appropriately evaluated and treated. Refer to the following Web link, pages 2-6, for classification descriptions. <http://www.cdc.gov/ncidod/dq/pdf/ds-forms-instructions.pdf>.

(6) For jurisdictions with greater than 50 reported cases of TB occurring annually in U.S.-born African Americans, decrease the case rate.

(7) Increase the proportion of adults with TB who have been tested for HIV.

The highest priority TB prevention and control activities are the following activities: Finding all cases of active TB and ensuring, through appropriate case management, completion of therapy; finding and evaluating persons who have had contact with infectious TB patients, identifying those with TB and LTBI, and completing treatment of TB disease and LTBI; conducting program evaluation; ensuring human resource development through internal project training and education; and conducting TB surveillance and TB public health laboratory activities that are essential to addressing these priorities. Each of these activities is essential to effective TB prevention and control, and they are mutually reinforcing. Thus, they constitute a "package" of core activities. These activities should be carried out by all TB prevention and control programs, taking precedence over lower priority activities. Lower priority activities are those such as targeted testing and treatment of LTBI in high risk populations.

State TB programs differ in the level of services and resources they provide to local programs and the amount of authority they have over local program activities. Regardless of these differences, state programs should work closely with their local TB programs to ensure that program activities are carried out appropriately and program objectives are met. States should provide leadership and technical assistance to the local programs in assessing program needs, setting local objectives, measuring performance, identifying problems, and designing interventions. In addition, State TB programs should facilitate resolution of

inter-jurisdictional challenges (such as ensuring continuity of case management and treatment of persons with active TB who move between jurisdictions).

Directly funded cities should work closely with the state TB program to facilitate consistency on statewide issues, minimize duplication of efforts, and share all reports that are sent to Centers for Disease Control and Prevention (CDC) with the State TB program.

B. Regional TB Training and Medical Consultation Centers (RTMCCs)

Additional funds are available for the establishment of geographically distributed regional training and medical consultation centers.

The first major activity of the Regional TB Training and Medical Consultation Centers (RTMCC) is to increase human resource development for the prevention and control of TB through education and training activities. RTMCCs will serve as centers of excellence within their assigned regions by providing innovative and quality human resource approaches in two areas:

(1) Training courses and technical assistance to others developing and providing TB courses.

(2) Educational and training material product development.

Human resource development activities at RTMCCs should include:

- Developing and enhancing relationships with State and local public health agencies for TB control, as well as other partners (*see below* for a list of potential partners).

- Expanding capacities to provide professional education and training in tuberculosis to State and local health agencies and other partners.

- Working with State and local public health agencies to identify training needs of public health workers and private providers.

- Working with State and local public health agencies to assess and monitor specific training needs in TB.

- Developing competency-based education and training courses.

- Collaborating with State and local health agencies to develop methods for evaluating the effectiveness of the training activities.

- Identifying and sharing best practices, models, and innovative approaches to TB practices through the development of courses and materials.

- Assuring accountability through frequent monitoring and evaluation of RTMCC activities and materials.

The RTMCCs should work closely with local, State, and regional representatives from TB programs as

well as with other partners that include, but are not limited to, the following:

- Tuberculosis Education and Training Network (TB ETN) members.
- TB education and training focal points of other grantees funded under this announcement.
- Additional partners (should include, but are not limited to the following organizations, agencies and groups within the geographic catchment area: Health Resources and Services Administration (HRSA) primary care centers; AIDS education and training centers; STD training centers; private providers; medical, nursing, and public health schools and associations; regional TB controller associations; and TB advisory councils).

The second major activity of the RTMCCs is to increase the capacity for appropriate medical evaluation and management of persons with TB disease and infection in their assigned region. RTMCCs will:

- Develop and implement a medical consultation service for their assigned region.
- Develop and implement a plan to maintain and increase the capacity of the region to appropriately evaluate and medically manage persons with TB disease and infection.

C. TB Public Health Laboratory

Effective treatment and control of TB require that timely and reliable TB laboratory services be available to clinicians and TB controllers. Delays in the laboratory confirmation of TB and reporting of drug-susceptibility results lead to delays in initiation of therapy, prolonged infectiousness, inappropriate therapy, and missed opportunities to prevent transmission. As part of the Centers for Disease Control and Prevention's (CDC) response to the threat of multidrug-resistant tuberculosis (MDR-TB), (National Action Plan to Combat MDR-TB), cooperative agreement funds were provided to strengthen public health laboratories and an increased emphasis was placed on providing laboratory results in a timely manner. During the past decade, laboratories made tremendous strides in improving test performance. These improvements contributed to the resumption in the decline of the incidence of TB and the decrease in MDR-TB cases nationwide.

To reach the goal of eliminating TB in the U.S., the recent improvements in laboratory testing must be translated into improvements in TB treatment, prevention, and control. The critical next step will be to develop an integrated system that ensures timely laboratory testing and timely flow of

information among laboratorians, clinicians, and TB controllers. Public health laboratories must take a leadership role to develop such a system and improve communication among laboratorians, clinicians, and TB controllers. Keys to providing timely, reliable laboratory services include (1) understanding the structure, performance, and cost of the current network of service providers and users, (2) developing a referral and information network to ensure reliable testing and the timely flow of specimens and information, and (3) using quality improvement principles to evaluate and improve the performance of the laboratory service network.

In recognition of this critical need, the primary purpose of the FY05-FY09 Laboratory Upgrade Component of the TB Elimination Cooperative Agreements will be to build on past improvements to facilitate development of a system to provide timely and reliable laboratory testing for TB treatment and control efforts. To assist laboratories in this endeavor, Laboratory Upgrade funds will be awarded based on plans for, and progress toward, (1) meeting CDC recommended turnaround times (Tenover, *et al.* 1993. *J. Clin. Microbiol.* 31:767-770 and Styrt, *et al.* 1997. *J. Clin. Microbiol.* 35:1401), (2) accomplishing the Healthy People 2010 TB Laboratory goal (laboratory confirmation of a case of tuberculosis within 48 hours of specimen receipt for 75 percent of cases that are ultimately culture-confirmed), and (3) developing a system that ensures optimal use of laboratory services and effective reporting of information.

To accomplish this goal and sustain past improvements, Laboratory Upgrade Program funds will be awarded in FY05 to eligible applicants, with one-third of these funds going toward accomplishing each of the three laboratory component objectives listed below.

Component 1: Meeting Recommended Turnaround Times

Many recipient laboratories have already met the recommendations for activities and turnaround times. Continued support is needed to sustain the improvements and to enable all laboratories to meet all recommendations. Because the cost of accomplishing this component depends on the number of tests performed, funds for this component will be distributed on a "per patient reported basis".

Component 2: Accomplishing the Healthy People 2010 Goal

On the surface, this goal appears to be a daunting challenge for the public

health laboratory both on the technical level and budgetary level. However, technologies are readily available on the market that could accomplish this goal and the cost of incorporating such technologies may not be as high as many fear. Much of the anticipated cost comes from the idea that any new test would inevitably be a test that must be added to whatever testing the laboratory is currently doing. To counter this, laboratories should consider novel testing algorithms that might enable cost-effective incorporation of new tests into their testing algorithm and workflow. Laboratories considering a new testing algorithm should consult with clinicians and TB controllers as to the acceptability of a new testing algorithm and should collect data to allow the performance and cost of the new testing algorithm to be compared to the current testing algorithm. Because the cost of accomplishing this component depends on the number of tests performed, funds for this component will be distributed on a "per patient reported basis".

Component 3: Developing an Integrated System That Ensures Timely Laboratory Testing and Timely Flow of Information

To provide guidance for accomplishing this goal, the Association of Public Health Laboratories (APHL) and CDC commissioned a Task Force on the Future of TB Laboratory Services. The Task Force included representatives from APHL, CDC, public health laboratories, hospital and commercial laboratories, and the National TB Controllers Association (NTCA). Its charge was to define and address issues critical to those who perform TB testing and those who use the test results and to develop recommendations for improving TB treatment and control through optimal use of laboratory services and effective reporting and tracking of information. The report of this task force will be made available to applicants. It provides guidance on specific action items and performance measures necessary to develop and implement an integrated system for providing laboratory services. Because the cost of accomplishing this component should be about the same for each program, funds for this component will be distributed on a "per program" basis (*i.e.*, an equal amount to each recipient).

I.3. Awardee Activities

Awardee activities for this program are as follows:

A. TB Prevention and Control

(1) Treatment and Case Management of Persons With Active TB

- Ensure case management and treatment of persons with active TB through the use of adherence-promoting measures such as cohort analysis, outreach staff, extensive application of directly observed therapy, incentives, and enablers.

- Assess reasons for non-adherence with TB treatment, both for patients not completing therapy and for patients with delayed completion of therapy. Devise individual and programmatic interventions to increase completion of therapy and improve timely completion of therapy.

- Assess adequacy and appropriateness of therapy for each patient by reviewing initial regimen, susceptibility results, adherence, and response to therapy. Therapy should be consistent with American Thoracic Society/Infectious Disease Society of America/Centers for Disease Control and Prevention guidelines. Refer to the following Web link for more information. <http://www.cdc.gov/nchstp/tb/>.

- Collaborate with HIV/AIDS programs to ensure that all newly diagnosed TB cases are counseled and tested for HIV and referred for HIV services if found to be HIV positive.

- Collaborate with substance abuse and homeless programs to ensure all newly diagnosed TB cases are evaluated and treated for TB.

- Ensure that immigrants and refugees classified as A, B1, or B2 are located promptly and evaluated and treated appropriately. Refer to "Medical Examination of Aliens and Technical Instructions", page six, at the following Web link. <http://www.cdc.gov/ncidod/dq/panel.htm>.

- Develop and implement the appropriate use of the Binational TB Card and appropriate referral systems for patients who may receive care along the U.S.-Mexico border or who may cross the border while under treatment for TB.

- Ensure that effective interventions are implemented to identify foreign-born and U.S. minorities at highest risk for developing TB and that they are evaluated and treated for TB or TB infection.

- Establish a systematic process to routinely evaluate case management activities to ensure optimal program performance.

(2) Contact Investigation

- Ensure that contact investigation activities are initiated and completed

promptly, including interviewing TB cases to identify contacts, evaluating contacts for latent TB infection and disease, and ensuring infected contacts begin and complete an appropriate course of treatment for latent TB infection.

- Assess reasons for cases with no contacts identified or a low number (*e.g.*, less than three) of contacts identified, delays in interviewing cases or evaluating contacts, and low completion of preventive therapy rates, and devise strategies for improvement. Combine epidemiologic data with TB genotyping results, where appropriate, to confirm or identify previously unidentified transmission links between TB cases and use genotyping results to evaluate the completeness of contact investigations.

- Cooperative agreement recipients will submit data from contact investigations in the Aggregate Reports for Tuberculosis Program Evaluation (ARPE): Follow-up and Treatment of Contacts to Tuberculosis Cases, in accordance with the schedule in Attachment 2 (or via such reports that will supercede ARPEs as developed and agreed between CDC and the National Tuberculosis Controllers Association.)

(3) TB Surveillance/Reporting

- Enhance identification, reporting, and follow-up of TB cases and suspects by establishing liaisons with appropriate reporting sources such as hospitals, clinics (*e.g.*, TB and HIV/AIDS clinics), laboratories performing tests for mycobacteria, selected physicians (*e.g.*, pulmonary and infectious disease sub-specialists), correctional facilities, community and migrant health centers, pharmacies, and other public and private facilities providing care to populations with or at risk for TB. States should provide periodic feedback to reporting sources, and at least annually provide a written report summarizing TB surveillance data.

- Develop and implement active surveillance activities to ensure complete and timely reporting of TB cases and suspects. At minimum, ongoing active laboratory surveillance should be conducted in all areas to ensure complete reporting of all TB cases and suspects with positive acid-fast bacilli (AFB) smears and cultures for *M. tuberculosis* complex.

- Maintain a registry of TB cases that the jurisdiction will include in its morbidity total that contains at a minimum the elements to produce data for the national TB case report, Report of Verified Case of Tuberculosis (RVCT). All local jurisdictions should also have

at least a log, if not a registry, that contains key demographic and clinical information on each reported TB suspect. It is also recommended that TB cases receiving diagnostic, treatment, or contact investigation services in the local jurisdiction, although not included in the annual morbidity total, be included in the TB registry.

- Incorporate quality assurance policies and procedures into the maintenance operations of the TB registry to ensure complete and reliable data.

- Routinely analyze (*e.g.*, quarterly) TB surveillance data to monitor trends, detect potential outbreaks, and define high-risk groups, and produce and disseminate at least an annual report summarizing current data and trends.

- Routinely (*e.g.*, annually) evaluate programmatic performance by using TB surveillance data to assist in compiling supporting evidence to determine the extent to which program objectives are being met and also to assist in developing strategies for improvement.

- Ensure that TB surveillance data are kept confidential and that all data files are secure. Policies and procedures must be in place to protect the confidentiality of all surveillance case reports and files. Policies and procedures to protect HIV test results must conform to the confidentiality requirements of the state and local HIV/AIDS programs.

- Report all TB cases to be included in the annual morbidity total to the CDC according to a schedule agreed upon each year, generally monthly, and at least annually. TB case data will be reported to CDC using the RVCT form via an electronic format that conforms to Public Health Information Network (PHIN) and/or National Electronic Disease Surveillance System (NEDSS) messaging standards, or prior to the complete transition to NEDSS for national TB reporting, using the CDC provided software, the Tuberculosis Information Management System (TIMS).

- Periodically (*e.g.*, at least every two years) evaluate the completeness of reporting of TB cases to the surveillance system by identifying and investigating at least one population-based secondary data source (*e.g.*, statewide laboratory record review, pharmacy review, hospital discharge data review) to find potentially unreported TB cases. Potential TB cases identified during the evaluation must be verified through review of medical records, physician interviews, or patient interviews. Reasons for non-reporting of TB cases should be determined and a plan for

improvement developed and implemented.

- Collaborate with the HIV/AIDS program to conduct at least annual TB and AIDS registry matches to ensure completeness of reporting of HIV and TB co-infected patients to both surveillance systems. Investigate and verify all TB cases reported to the HIV/AIDS program and not reported to the TB program. Update the TB registry as indicated.

- Periodically (*e.g.*, annually) assess reasons for incomplete HIV results on the RVCT for each verified case of TB. Determine if patients were not tested for HIV or were tested but results not reported to the TB program. Develop and implement plans for improvement.

- Periodically (*e.g.*, annually), evaluate the validity of RVCT data, focusing particularly on drug susceptibility test results and other laboratory data, by comparing TB registry data to original data sources. Develop and implement plans for improvement.

- Establish a systematic process to routinely evaluate activities related to surveillance and reporting to ensure optimal program performance.

(4) Human Resource Development

States and big city TB programs receiving funding should assign someone to serve as a focal point for training within the TB program. This person should be (or become) an active participant in the Tuberculosis Education and Training Network (TB ETN) in order to increase and develop knowledge and skills, increase awareness of resources available, and actively participate in determining needs and developing high priority resources for TB control and elimination. States and big cities receiving funding should develop a Training/Human Resource Strategy Plan to:

- Establish and improve existing in-service TB training and human resource development.

- Establish evaluation strategies to improve existing systems and to identify ongoing training and human resource needs.

- Establish and improve patient education and communications capacity within the program.

- Coordinate training related to TB control with training for other disease control interventions such as HIV/AIDS and STD.

- Target other health care providers or organizations serving high-risk populations.

Technical assistance on developing a state or local Training and Human

Resource Strategy Plan will be provided via the TB ETN and/or the RTMCCs after award of funds. Utilization of funds for training external to the TB program (*e.g.*, National Jewish Clinical Course, or a RTMCC Course) should be limited to courses that cannot be delivered by the TB program as determined by course content and job responsibilities of the participant; this external training need must be specified in the Training/Human Resource Strategy Plan.

For identified high priority needs, such as an outbreak or identified case in a high-risk setting, additional funding and assistance may be provided as needed via the DTBE Outbreak Response Plan. Organizations, programs such as state TB control programs with training capacity, or one of the RTMCCs could be utilized via a contract method to deliver training and human resource development in this low incidence area to address identified outbreak response needs.

(5) Program Evaluation Activities

All grantees should actively engage in self-evaluation to ensure that their findings guide the program in making necessary changes to more effectively carry out their mission of TB prevention and control.

- By Fall of 2005, all grantees will be required to submit to CDC an evaluation plan that explains their process for program assessment, defines the methods used for program self-evaluation, and how they plan to provide technical assistance to local programs that grantees should actively engage in self-evaluation and use findings to guide the program in making necessary changes to more effectively carry out their mission of TB prevention and control. Findings should also be used to evaluate the effectiveness of their own TB efforts. The evaluation plan should be based on a systematic approach, such as that provided in the CDC's Framework for Program Evaluation in Public Health [MMWR 1999:48 (No. RR11)]. Refer to Web link: <http://www.cdc.gov/mmwr/preview/mmwrhtml/rr4811a1.htm>.

- All evaluation efforts should ensure that the diverse perspectives of relevant stakeholders (*e.g.*, TB program staff and managers, other service providers, patients and community representatives) are represented throughout the process. Grantees should also cultivate partnerships to expand their evaluation capacity.

- All grantees will use core performance measurements to assess program performance.

- As part of their evaluation plan, all grantees should select the performance measurements to evaluate their program's performance and provide baseline program data for selected indicators. The selected performance measurements must include, but are not limited to:

- TB Cases: the proportion that complete treatment within 12 months (among those with rifampin-sensitive TB).

- Contacts: the proportion of eligible contacts that start treatment, and of those who start treatment, the proportion that complete treatment.

- Immigrants and Refugees: the estimated proportion of immigrants and refugees classified as A, B1, or B2 eligible for treatment who start treatment, and of those who start treatment, the proportion that complete treatment.

- Case rates of African Americans (U.S.-born black non-Hispanic).

- Surveillance: the percentage of TB case reports in which 90 percent of the core data items are complete.

- In consultation with the CDC program consultants, grantees will set benchmarks and timelines for each selected measurement. In addition, as part of the grantees' evaluation plan, local and state indicators should be selected from a library of program indicators (or use locally tailored indicators of program performance) that reflect the demographic features of the TB in their jurisdiction, the resources available, and the capacity of the program to implement changes. Findings from the evaluation should be used to guide program development.

- Annually thereafter, grantees will submit, as part of the cooperative agreement continuation application, progress report data supporting progress toward meeting their goal for each program indicator. Where a goal has not been met, the grantee should provide an analysis of the factors leading to non-achievement of their objective and a plan and timeline for making progress toward achieving the objective. Monitoring progress toward meeting the self-designated goals for the program indicators will be the responsibility of the grantee in conjunction with the CDC program consultant.

- Project areas are accountable for achieving the target levels of performance established in their plans. If a project area fails to achieve their target, the project will need to submit as part of subsequent year funding applications, a plan to improve performance and achieve objectives.

B. RTMCCs

(1) Training and Technical Assistance

- Spend approximately 50 percent of their total effort and resources on training courses and training technical assistance, with primary emphasis on state and big city TB programs in their assigned geographic region. Each RTMCC, although part of the national network, will primarily serve a specific geographic region.

- Provide core courses based on a standardized curriculum developed in collaboration with the CDC and other RTMCCs. These courses should include, but are not limited to, program management training, supervisor training, outbreak response planning, case management, and program evaluation.

- Develop specialty courses, in addition to the core courses, that are unique to the needs of the region served or the area of expertise of the RTMCC.

- Both core and specialty course development should occur in consultation with CDC and be derived from recommendations and needs assessments from multiple sources, including: (1) CDC identified needs and priorities; (2) local and regional needs assessments; (3) the National Strategic Plan for Education and Training; and (4) new and existing national guidelines.

- Provide at least 400 hours of training each year. Training can take place at the RTMCC, but at least 30 percent of the training should take place in other settings, preferably in other states and in conjunction with regional TB controllers' association meetings.

- The RTMCCs should strive to develop the training capacity of local and state TB programs. In this activity, the RTMCCs will provide technical assistance, but will not be the principal organizer of training activities. As such, the RTMCCs will be responsible for the development of facilitator-led training materials for use by these programs, as well as the provision of technical assistance on how to utilize and fully implement these materials to build capacity within the TB programs.

- Conduct on-going evaluation of all courses and document the results of their evaluations in annual reports. Evaluation should include measuring appropriate process indicators (e.g., trainee demographics, quality of training), immediate training outcomes (e.g., changes in knowledge, attitudes, and skills) and where possible, long-range impact (e.g., changes in provider practice behavior, changes in service delivery).

- Each RTMCC must demonstrate the capacity and plans to host Mini-

Fellowship trainings each year. The purpose of the Mini-Fellowship is to provide participants with first hand knowledge and experience about the role of public health agencies in carrying out TB control activities.

- RTMCCs should provide education and training consultation and technical assistance on an ongoing basis to all partners. This technical assistance can be provided via telephone, e-mail, or written consultation. Technical assistance can also be provided on site for less experienced training coordinators or where greater needs and fewer resources are available.

- The RTMCCs will be expected to work collaboratively with each other and CDC by participating in monthly conference calls, annual meetings, and ongoing consultations.

(2) Educational and Training Material Product Development

- Spend approximately 30 percent of their resources on educational and training material development, including materials used in training courses sponsored by the RTMCC. Submit to CDC proposals for development of materials that can be used regionally and nationally. Develop proposals based on previously discussed criteria.

- Emphasis of product development should be to increase the capacity of local and state TB program personnel, TB training focal points, and TB ETN members to deliver high quality, competency based training and education. Facilitator led training materials should be a special focus of product development.

- Submit to CDC proposals for development of materials that can be used regionally and nationally. Develop proposals based on previously discussed criteria and collaboration and input from CDC and other RTMCCs.

- Utilize distance learning strategies in course or product development. Create materials in multiple formats (e.g., print and electronic formats) to meet the varied needs of the intended target audiences.

- RTMCCs will be responsible for initial production and distribution of products. For products that are needed in large quantities, RTMCCs can submit these products through the CDC/ Division of Tuberculosis Elimination (DTBE) clearance process. If approved, DTBE will be responsible for printing and distribution of these materials.

- Develop and maintain a Web site containing, at minimum, a list of courses and materials offered by the RTMCC, as well as ordering information. In addition, electronic

versions (HTML and PDF) of products developed by the RTMCC should also be posted on the Web site.

Note: Materials developed by the RTMCCs must be in the public domain and cannot be copyrighted. Furthermore, CDC reserves the right to make additional changes to materials or products produced by the RTMCCs that will be distributed nationally.

- RTMCCs should acquire or make provisions to award continuing education credits, including Continuing Medical Education (CME), Continuing Nursing Education (CNE), Continuing Education Units (CEU), and Continuing Health Education Credits (CHES) when possible and appropriate for training and educational products.

(3) Medical Consultation

- Spend approximately 20 percent of their time and resources on activities related to medical consultation, including the activities listed below.

- Provide real-time medical consultation, in the region assigned by CDC, to physicians and other providers of medical care on the diagnosis and treatment of TB disease, including MDR-TB. Consultation should also be provided on the diagnosis and treatment of LTBI, including persons presumed to be infected with drug resistant strains of *M. tuberculosis*.

- Develop a strategy to appropriately promote this medical consultation service to healthcare providers in the assigned region.

- Evaluate the effectiveness of medical consultation service and document the results of the evaluation in the annual reports.

- Conduct a needs assessment in the assigned region for current and future needs for consultation related to the medical evaluation and management of persons with TB disease and LTBI. (Year 1 of the funding period.)

- Develop a regional plan, in consultation with regional TB control programs, CDC, and other interested parties to address current and future regional needs for consultation related to the medical evaluation and management of TB disease and infection in the assigned region. (Years 1 and 2 of the funding period.)

- Implement relevant sections of regional plan in consultation with regional TB control programs and CDC. (Years 3–5 of funding period.)

C. TB Public Health Laboratory

(1) Develop and implement plans to ensure availability of reliable, timely TB laboratory services and to meet or make progress towards meeting CDC recommended turnaround times

(Tenover, *et al.* 1993. *J. Clin. Microbiol.* 31:767–770 and Styrt, *et al.* 1997. *J. Clin. Microbiol.* 35:1401). Use recommended methods for the isolation, identification, and susceptibility testing for *M. tuberculosis* complex appropriate to the individual laboratory's workload and experience. Ensure rapid reporting of results (smear, culture, susceptibility results) to the TB control program and to the submitting health care provider.

(2) Develop and implement plans to meet, or make progress towards meeting, the Healthy People 2010 TB Laboratory goal. The goal is laboratory confirmation of a case of tuberculosis within 48 hours of specimen receipt for 75 percent of cases that are ultimately culture-confirmed.

(3) Develop and implement plans to create a system to provide timely and reliable laboratory testing for TB treatment and control efforts. Key steps will include to (a) assess the structure, performance, and cost of the current network of laboratory service providers and users, (b) develop a referral and information network to ensure reliable testing and the timely flow of specimens and information, and (c) use quality improvement principles to continually evaluate and improve the performance of the laboratory service network.

I.4. CDC Activities

In a cooperative agreement, CDC staff is substantially involved in the program activities, above and beyond routine grant monitoring.

CDC activities for this program are as follows:

A. TB Prevention and Control

- Provide consultation and technical assistance in setting priorities, establishing partnerships, and planning, conducting, and evaluating TB prevention and control activities.

- Provide up-to-date information on the recommendations and guidelines for diagnosis, treatment, follow-up, surveillance, and prevention of TB.

- Provide assistance to improve systems that monitor surveillance, prevention and control activities.

- Facilitate the technological and methodological transfer of successful prevention and intervention models among project areas, *e.g.*, workshops, conferences, written communications.

- Assist recipients in monitoring program evaluation/performance, setting and meeting objectives, implementing methods, and complying with cooperative agreement requirements and other funding issues, through various methods including telephone consultation, site visits (and

expanded site visits when appropriate), and site visit reports.

- Provide consultation and technical assistance for tuberculosis outbreaks, including on-site support of investigations when requested by the state health department.

- Provide technical assistance in assessing and prioritizing training and education needs and in planning, implementing and evaluating training and education activities.

- Coordinate cross-program collaborative approaches to HIV, STD and TB prevention and intervention when indicated and appropriate.

- Support individual recipients by providing technical assistance in the development and evaluation of new or innovative approaches to TB control, including behavioral or health systems interventions.

- Establish and maintain effective working relationships with a TB elimination advisory committee for the purpose of formulating and implementing a plan for the elimination and interruption of transmission of TB.

- Provide tools, educational materials, and technical assistance to help implement the national program evaluation initiative.

B. RTMCCs

- Within three months of funding (notice of grant award), CDC will convene a meeting of all funded RTMCCs to outline a comprehensive plan for collaboration between the RTMCCs and CDC.

- Provide consultation and technical assistance in setting priorities, establishing partnerships, and planning, conducting, and evaluating training and medical consultation activities and education and training materials.

- Conduct annual site visits to review training capabilities and products, advise on instructional design and curriculum and product content, provide technical assistance, and review resource allocations and budgets.

- Participate in regularly scheduled telephone conference calls.

- Monitor program implementation, project management, and evaluation activities.

- Provide up-to-date information on the CDC/ATS recommendations and guidelines for diagnosis, treatment, surveillance, and prevention of TB.

- Facilitate the technological and methodological transfer of successful training and medical consultation models among the project areas.

- Facilitate collaboration between the RTMCCs and TB control programs in their designated geographic region.

- Serve as a liaison with the clearance process and the Management Analysis

Services Office (MASO) for printing and distribution of educational products to be printed and distributed by CDC.

C. TB Public Health Laboratory

- Provide consultation and technical assistance in setting priorities, establishing partnerships, and planning, conducting, and evaluating TB laboratory activities.

- Provide up-to-date information on the recommendations and guidelines for diagnostic mycobacteriology and TB Laboratory services.

- Provide assistance to improve systems or networks that provide TB laboratory services.

- Facilitate the technological and methodological transfer of successful laboratory service models among project areas, *e.g.*, workshops, conferences, written communications.

- Assist recipients in monitoring program evaluation and performance, setting and meeting objectives, implementing methods, and complying with cooperative agreement requirements and other funding issues, through various methods including telephone consultation, site visits (and expanded site visits when appropriate), and site visit reports.

- Provide technical assistance for participation in the program for DNA genotyping of *M. tuberculosis* isolates.

- Provide consultation and technical assistance for laboratory aspects of tuberculosis outbreaks and for laboratory investigations, including on-site support of investigations when requested by the state health department.

- Support individual recipients by providing technical assistance in the development and evaluation of new or innovative approaches to providing TB Laboratory services.

- Establish and maintain effective working relationships with laboratory advisory committees including the Association of Public Health Laboratories for the purpose of formulating and implementing a plan for the provision of reliable tuberculosis laboratory services.

II. Award Information

Type of Award: Cooperative agreement. (CDC involvement in this program is listed in section "I.4. CDC Activities" above.)

Fiscal Year Funds: FY 2005.

A. TB Prevention and Control

Approximate Total Funding: \$85.0 million. Approximately \$83 million will be available in FY2005 for core TB prevention and control activities (completion of therapy, contact

investigation, and TB surveillance). Approximately \$2 million in additional funds are expected to be available in FY2005 for training, education, and human resource development.

Approximate Number of Awards: 68.

Approximate Average Award:

\$1,200,000. (This amount is for the first 12-month period, and includes both direct and indirect costs.) Programs reporting 50 or fewer TB cases annually will receive \$20,000 in supplemental funding for TB training and education. Programs reporting 51–500 TB cases annually will receive \$30,000 in supplemental funding for TB training and education. Programs reporting greater than 500 cases annually will receive \$50,000 in supplemental funding for TB training and education.

Floor of Award Range: \$50,000.

Ceiling of Award Range: \$15,000,000.

Anticipated Award Date: January 1, 2005.

Budget Period: 12 months.

Project Period Length: Five Years.

B. RTMCCs

Approximate Total Funding: \$7.5 million.

Approximate Number of Awards: 3–5.

Approximate Average Award:

\$1,500,000. (This amount is for the first 12-month period, and includes both direct and indirect costs.)

Floor of Award Range: \$1,500,000.

Ceiling of Award Range: \$2,500,000.

Anticipated Award Date: January 1, 2005.

Budget Period: 12 months.

Project Period Length: Five years.

C. TB Public Health Laboratory

Approximate Total Funding: \$7.9 million.

Approximate Number of Awards: 62.

Approximate Average Award:

\$130,000. (This amount is for the first 12-month period, and includes both direct and indirect costs.) Laboratory Upgrade Program funds will be awarded in FY05 as follows: 80 percent of FY05 funds will be awarded based on FY04 funding level (*i.e.*, each recipient will receive 80 percent of their FY04 base funds) and the remaining 20 percent of FY05 funds will be distributed to recipients on a “per patient reported to the TB control program” or a “per program” basis with one-third of these funds going toward accomplishing each of the three laboratory component objectives.

Floor of Award Range: \$5,000.

Ceiling of Award Range: \$960,000.

Anticipated Award Date: January 1, 2005.

Budget Period: 12 months.

Project Period Length: Five years.

Throughout the project period, CDC’s commitment to continuation of awards will be conditioned on the availability of funds, evidence of satisfactory progress by the recipient (as documented in required reports), and the determination that continued funding is in the best interest of the Federal government.

III. Eligibility Information

III.1. Eligible Applicants

A. TB Prevention and Control

Applications may be submitted by health departments of States or their *bona fide* agents, including the District of Columbia; the Commonwealths of Puerto Rico, Virgin Islands, and Northern Mariana Islands; American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau; and the cities of Baltimore, Chicago, Detroit, Houston, Los Angeles, New York, Philadelphia, San Diego, and San Francisco. The nine cities were the only original sites funded by CDC TB Cooperative Agreement dollars. When CDC expanded TB funding to State and territorial TB programs, the agency continued to fund the cities as separate project areas with the concurrence of the States in which they are located.

A *bona fide* agent is an agency/ organization identified by the State as eligible to submit an application under the State eligibility in lieu of a State application. If you are applying as a *bona fide* agent of a State or local government, you must provide a letter from the State as documentation of your status. Place this documentation behind the first page of your application form.

B. RTMCCs

See III.1.A. above.

C. TB Public Health Laboratory

See III.1.A. above.

III.2. Cost Sharing or Matching

Matching funds are not required for this program.

III.3. Other

If your application is incomplete or non-responsive to the requirements listed in this section, it will not be entered into the review process. You will be notified that your application did not meet submission requirements.

If you request a funding amount greater than the ceiling of the award range, your application will be considered non-responsive, and will not be entered into the review process. You will be notified that your application

did not meet the submission requirements.

Note: Title 2 of the United States Code 1611 states that an organization described in section 501(c)(4) of the Internal Revenue code that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, or loan.

IV. Application and Submission Information

IV.1. Address To Request Application Package

To apply for this funding opportunity, use application form CDC 1246. Application forms and instructions are available on the CDC Web site, at the following Internet address: <http://www.cdc.gov/od/pgo/forminfo.htm>.

If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Procurement and Grants Office Technical Information Management Section (PGO–TIM) staff at: 770–488–2700. Application forms can be mailed to you.

IV.2. Content and Form of Submission Application

You must submit a project narrative with your application forms. The narrative must be submitted in the following format:

- Maximum number of pages: There is a maximum of 30 pages for TB Prevention and Control Activities, 30 pages for the Regional TB Training and Medical Consultation Centers, and 10 pages for the TB Public Health Laboratory. If your narrative exceeds the page limit, only the pages which are within the page limit will be reviewed. Budget justifications will not be counted in the stated page limits.
- Number all pages sequentially.
- Include a table of contents.
- Font size: 12 point un-reduced.
- Single spaced.
- Paper size: 8.5 by 11 inches.
- Page margin size: One inch.
- Header on each page: Program name, grant number.
- Printed only on one side of page.
- Held together only by rubber bands or metal clips; not bound in any other way.

Your narrative should address activities to be conducted over the entire project period. Use the information in the Awardee Activities (section I.3.) and Application Review Criteria (section V.1.) sections to develop the application content, and you must include the following items in the order listed.

A. TB Prevention and Control Activities

- Program need.
- Objectives.
- Methods.
- Evaluation.
- Budget Justification (not included in narrative page limit).

B. RTMCCs

- Introduction/Program Description.
- Methods: Training, Technical Assistance and Educational/Training Product Development.
- Methods: Medical Consultation.
- Evaluation.
- Objectives.
- Budget Justification (not included in narrative page limit).

C. TB Public Health Laboratory

The President's Management Initiative requires that programs that receive Federal funds include in their proposals clearly stated goals and objectives for which the program will be held accountable and performance measures by which progress toward accomplishment of goals can be assessed. For the Laboratory Upgrade Program, applicants are requested to describe realistic achievable goals for each of the key components of the program. Although the ultimate goals for each component of the Laboratory Upgrade Program are described in this announcement, it is not anticipated that all programs will be able to accomplish all goals in the first year of the cooperative agreement, or perhaps, even during the 5-year project period. Therefore, programs are encouraged to set time-phased, realistic, achievable goals and describe appropriate milestones toward achieving the ultimate goals. Performance measures should be described that will allow assessment of progress towards each of the goals and/or milestones set by the program.

Provide a report describing the number of confirmed TB cases for which the laboratory provided any test result to the TB control program that was used to complete the RVCT form during each of the three calendar years preceding the application and the current (partial) year. For the FY05 application, report the numbers for the full calendar years of 2001, 2002, and 2003, and any available data for 2004. For a case to be counted, the laboratory must have reported to the TB control program at least one of the following pieces of information: isolation of *M. tuberculosis* from a patient specimen; identification of *M. tuberculosis* from a specimen, culture, or referred isolate; or drug susceptibility results from a culture or referred isolate.

Include a description of the current laboratory activities and performance, which should include the following:

(1) A brief description of the methods used in the laboratory, and include work load and work flow in the laboratory and any written policies to eliminate redundant or unnecessary testing. The description of the laboratory work load in 2003 and 2004 (to date) should include the following (this can be in a tabular form):

(a) Number of patients for whom the laboratory confirmed an initial diagnosis of TB by culturing *M. tuberculosis* from a primary patient specimen (e.g., sputum, CSF, biopsy, etc.).

(b) Number of patient specimens processed and cultured.

(c) Number of patients for whom cultures were processed for mycobacterial identification testing, and/or whose isolates were referred to other laboratories for identification testing.

(d) Number of patients whose specimens produced cultures containing any species of *Mycobacterium*.

(e) Number of patients whose specimens produced cultures containing *M. tuberculosis*.

(f) Number of patients for whom *M. tuberculosis* drug susceptibility tests were performed and/or whose isolates were referred to other laboratories for susceptibility testing.

(g) Number of patients for whom nucleic acid amplification tests confirmed the presence of *M. tuberculosis* in a primary patient specimen.

(2) A brief description of progress towards meeting CDC recommendations as described in Tenover, *et al.* and Styrt, *et al.* Each of the following recommendations should be addressed in the narrative, including laboratory methods used and current turnaround times (TAT) for initial diagnostic specimens described in the narrative or in a tabular form:

(a) Promote rapid delivery of specimens to the laboratory (goal TAT is 24 hours from collection of specimen).

(b) Use fluorescent acid-fast staining and promptly transmit results by phone, FAX, or electronically. (goal TAT is 24 hours from receipt of specimen).

(c) Inoculate a liquid medium as one of the primary cultures.

(d) Identify growth as acid-fast and use rapid methods to identify isolates as *M. tuberculosis* as soon as possible (goal TAT is 14–21 days from receipt of specimen).

(e) Determine the susceptibilities of initial *M. tuberculosis* isolates to primary drugs in a rapid culture system

(goal TAT is 21–28 days from receipt of specimen).

(f) Report the results of drug susceptibility testing to the clinician as soon as they are available by phone, FAX, or electronically.

(3) Describe baseline activities and any progress on accomplishing the Healthy People 2010 goal of the laboratory confirmation of TB within 48 hours of specimen receipt for 75 percent of TB cases that are ultimately culture-confirmed.

(a) Number and percent of specimens received by the laboratory within 24 hours of collection.

(b) Number of patient specimens tested using rapid detection and identification tests (e.g., MTD tests or nucleic acid amplification tests).

(c) Number of patients for whom laboratory confirmation of TB was provided within 48 hours.

(d) Number of patients for whom the laboratory confirmed TB by isolation of *M. tuberculosis* from a patient specimen.

(4) An update on TB public health laboratory recipient activities to include a description of any modifications to Laboratory goals and objectives, any obstacles encountered and/or reasons for failing to meet established objectives, future plans and objectives, and other pertinent information, such as laboratory facility or staffing changes, high costs for performance of objectives, plans to minimize costs, etc.

Component 1: Accomplishment of CDC Recommended Laboratory Activities and Turnaround Times

- Program need.
- Objectives.
- Methods.
- Evaluation.
- Budget Justification. (See below for additional guidance.)

Component 2: Accomplishment of the Healthy People 2010 TB Laboratory Goal

- Program need.
- Objectives.
- Methods.
- Evaluation.
- Budget Justification. (See below for additional guidance.)

Component 3: Development of a System To Provide Timely and Reliable Laboratory Testing in Support of TB Treatment and Control Efforts

- Program need.
- Objectives.
- Methods.
- Evaluation.
- Budget Justification. (See below for additional guidance.)

For the Public Health Laboratory portion, two budget proposals are

requested: (1) Budget reflecting true needs: a combined budget should be provided that includes all projected costs associated with conducting all components of the Laboratory Upgrade Component. A combined budget is requested because some activities support more than one component. (2) Budget reflecting anticipated funding level. A combined budget reflecting the anticipated funding level should be provided. Applicants should assume that they will receive 80 percent of their base award for the FY04 TB Cooperative Agreement plus \$50 per patient reported for Component 1 (recommended activities and turnaround times) plus \$50 per patient reported for Component 2 (Healthy People 2010 goal) plus \$6000 for Component 3 (laboratory system development). Please note that the amounts for Components 1 and 2 will be awarded based on the average yearly number (3-year average) of confirmed TB cases for which the laboratory provided any test result to the TB control program that was used to complete the RVCT form. The precise "per patient reported" amount is not yet known and will depend on the total number of cases reported on by all recipient laboratories in the U.S. If one assumes that the public health laboratories report information on all culture-positive cases within their TB programs, funds for Components 1 and 2 would be awarded at \$50 per patient reported. Funds available for Component 3 will depend on the number of technically acceptable applications received. The \$6,000 assumes that all laboratories will submit acceptable proposals.

In addition to the information provided in the sample guideline, please include the following specific for the Laboratory Upgrade program:

Salaries and Wages

For each TB lab position for which full or partial funding is requested, indicate whether the position is "continuation funding" or "new request for funding". If the position is a "new request for funding", state whether the position is new to this program or a continuation position previously funded by another source (describe source), and provide complete justification for the need to establish a new position based on specific program objectives.

Equipment

Laboratory equipment should be listed in priority order, with the first item being of highest priority. Provide a justification of the need for the equipment. Items of equipment are considered one-time expenditures

separate from the base budget; therefore, funding decisions will be based primarily on the availability of funds and the priority of needs based on the justifications provided.

Supplies

When requesting TB lab upgrade supplies, consolidate them by relevant item groups (e.g., (a) Microscopy, (b) Liquid Culture, (c) Identification, (d) Drug Testing, etc.) with the dollar amounts for each group. Do not use item groups such as Miscellaneous Lab Supplies or General Office Supplies. These type of items are not appropriate for funding under this program. Provide justification for each item and relate to specific laboratory activities.

Travel

Dollars requested for travel for TB lab staff should be justified for reasons pertaining to specific program objectives (e.g., training in TB Lab Upgrade recommended activities, site visits to develop a laboratory network). Please provide details about the training course(s) in the justification. Meeting and conference attendance are not considered training under this lab upgrade program.

For All Activities

Indirect Costs

Provide the date of the most recent indirect cost rate agreement, the rate or percentage, and the cost on which the rate is computed. Please attach a copy of the most recent and/or current indirect cost rate agreement. Indirect costs cannot be requested at a percentage greater than the approved rate, but can be requested at a percentage less than the approved rate.

Direct Assistance

You may request Federal personnel as direct assistance (DA), based on an identified need and pending the availability of funds. DA funding will be administered separately and *will not* be a part of your base award. To request a Federal assignee for new position, provide sufficient information for CDC to develop and grade a position description.

To request new direct-assistance assignees, include:

- Number of assignees requested.
- Description of the position, proposed duties, and supervisory responsibilities.
- Ability or inability to hire locally with financial assistance.
- Justification for request.
- Organizational chart and name of intended supervisor;

f. Opportunities for training, education, and work experiences for assignees.

g. Description of assignee's access to computer equipment for communication with CDC (e.g., personal computer at home, personal computer at workstation, shared computer at workstation on site, shared computer at a central office).

h. A signed Agreement to Detail form.

State and Local Contributions

As part of the application process, the grantee will be required to provide the amounts of State and local contributions for TB prevention, control, and elimination by budget category. Refer to Attachment 5.

Additional information may be included in the application appendices. The appendices will not be counted toward the narrative page limit. This additional information should be limited to the following:

- Letters of Support.
- Organizational Charts.

Any additional materials will not be reviewed.

You are required to have a Dun and Bradstreet Data Universal Numbering System (DUNS) number to apply for a grant or cooperative agreement from the Federal government. The DUNS number is a nine-digit identification number, which uniquely identifies business entities. Obtaining a DUNS number is easy and there is no charge. To obtain a DUNS number, access <http://www.dunandbradstreet.com> or call 1-866-705-5711. For more information, see the CDC Web site at: <http://www.cdc.gov/od/pgo/funding/pubcomm.htm>. If your application does not have a DUNS number field, please write your DUNS number at the top of the first page of your application, and/or include your DUNS number in your application cover letter.

Additional requirements that may necessitate you to submit additional documentation with your application are listed in section "VI.2. Administrative and National Policy Requirements."

IV.3. Submission Dates and Times

Application Deadline Date: July 26, 2004.

Explanation of Deadlines: Applications must be received in the CDC Procurement and Grants Office by 4 p.m. eastern time on the deadline date. If you send your application by the United States Postal Service or commercial delivery service, you must ensure that the carrier will be able to guarantee delivery of the application by the closing date and time. If CDC

receives your application after closing due to: (1) carrier error, when the carrier accepted the package with a guarantee for delivery by the closing date and time, or (2) significant weather delays or natural disasters, you will be given the opportunity to submit documentation of the carrier's guarantee. If the documentation verifies a carrier problem, CDC will consider the application as having been received by the deadline.

This program announcement is the definitive guide on application format, content, and deadlines. It supercedes information provided in the application instructions. If there are discrepancies between the application form instructions and the program announcement, adhere to the guidance in the program announcement.

IV.4. Intergovernmental Review of Applications

Your application is subject to Intergovernmental Review of Federal Programs, as governed by Executive Order (EO) 12372. This order sets up a system for state and local governmental review of proposed federal assistance applications. You should contact your state single point of contact (SPOC) as early as possible to alert the SPOC to prospective applications, and to receive instructions on your state's process. Click on the following link to get the current SPOC list: <http://www.whitehouse.gov/omb/grants/spoc.html>.

IV.5. Funding Restrictions

Restrictions that must be taken into account while writing your budget are as follows:

Categorical funds are awarded for a specifically defined purpose and may not be used for any other purpose or program. Emphasis must be given to directing the majority of funds to first-line TB control activities. Funds may be used to support personnel and to purchase equipment, supplies, and services directly related to project activities. Funds may not be used to supplant State or local health department funds or for inpatient care or construction of facilities. Funds may not be used to purchase drugs for treatment.

If you are requesting indirect costs in your budget, you must include a copy of your indirect cost rate agreement. If your indirect cost rate is a provisional rate, the agreement should be less than 12 months of age.

Awards will not allow reimbursement of pre-award costs. Guidance for completing your budget can be found in

attachment 2 of this announcement as posted on the CDC Web site.

IV.6. Other Submission Requirements

Application Submission Address: submit the original and two hard copies of your application by mail or express delivery service to: Technical Information Management-PA# 05003, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341.

Applications may not be submitted electronically at this time.

V. Application Review Information

V.1. Criteria

You are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of this announcement. Measures must be objective and quantitative, and must measure the intended outcome. These measures of effectiveness must be submitted with the application and will be an element of evaluation.

Each activity category will be reviewed and scored separately. Specific criteria for each activity category are as follows:

A. TB Prevention and Control Activities

All technically acceptable applications will be funded for TB prevention and control activities. The following criteria will be used to evaluate applications for their technical acceptability.

(1) Objectives: (30 percent) The proposed program objectives are measurable, specific, time-phased, and related to the recipient activities, program purpose, and program need, and the proposed progress toward the applicable national TB objectives is appropriate and feasible.

(2) Methods: (30 percent) The proposed strategies and activities are appropriate and feasible to achieve the stated program and applicable national objectives.

(3) Program need: (20 percent) The applicant demonstrates program need for TB prevention and control activities in terms of annual number of reported TB cases (and case rates), TB suspects (patients started on TB treatment but later determined not to be a TB case) per verified case, and Class A, B1, and B2 notifications. In addition, the program demonstrates the contribution of factors, such as HIV prevalence, drug resistance and multidrug resistance rates, TB in U.S.-born minorities, foreign-born

persons, the homeless, and substance abusers, and the presence of barriers to achieving the applicable national TB program objectives.

(4) Evaluation: (20 percent) The evaluation plan is appropriate for measuring progress toward project and national TB objectives and identifying contributing factors when objectives are not met.

(5) Budget: (reviewed, not scored) The budget is reasonable, clearly justified, consistent with the demonstrated need and proposed activities, and likely to lead to program success.

B. Regional TB Training and Medical Consultation Centers

These projects will be evaluated individually against the following criteria by an independent review group appointed by CDC. Funding preference will be given to applicants that ensure geographic distribution of centers.

(1) Methods: Training, Technical Assistance, and Educational/Training Product Development (40 percent). The extent to which the applicant provides: (a) A description of planned activities to determine the training and education needs of state and local health department staff, health care providers, and prevention specialists involved in TB control and elimination activities, including a description of the proposed process to update the training needs of target audiences in their coverage area; (b) a plan for acquiring CME, CEU, CNE, and CHES appropriate for trainees; (c) a description of available facilities and equipment for training and education; (d) a plan to produce course materials and for providing resources to trainees; (e) the proposed approach to developing the training plan based on the center's capability and the needs assessment, that will provide at least 400 hours of instruction per year; (f) a description of their ability to provide courses using distance learning technology; (g) a description of plans for providing technical assistance to training focal points, TB ETN members, and other trainers; and (h) a plan for the development of high priority educational and training materials, including the subject matter of the material, target audience, format, development process, and marketing and distribution.

(2) Methods: Medical Consultation (20 percent). The extent to which the applicant provides: (a) A description of the plan to determine the current and future needs for medical consultation in the jurisdictions in their assigned region in regard to appropriate medical evaluation and treatment of persons with active TB disease and latent TB

infection; (b) a description of and the appropriateness and quality of the plans to provide needed medical consultation; (c) a description of the plan to have physicians with appropriate expertise available to provide to consults; (d) a description of the infrastructure available to support medical consultation activities; and (e) a description of the plan to market their medical consultation services.

(3) Evaluation: (15 percent). The extent to which the applicant provides: (a) a plan for utilizing program evaluation data to provide continuous quality improvement of training activities and material development processes; (b) a plan for conducting evaluation activities that determine the impact, outcomes, and utilization of training activities and educational materials; and (c) a plan to evaluate the effectiveness and impact of medical consultation services.

(4) Introduction/Program Description: (15 percent). The extent to which the applicant provides: (a) a history of training experience and provision of technical assistance in training and education, and experience in product development; (b) a history of experience in providing TB medical consultation; (c) position descriptions for proposed RTMCC staff, including credentials and appropriate experience; (d) a proposed protocol for collaborating with regional, State, and local TB control programs, other RTMCCs, CDC, and TB-ETN members; and (e) a letter of endorsement from each university/college or health department partner stating their intent to participate in the RTMCC.

(5) Objectives: (10 percent) The extent to which the applicant provides specific, measurable, time-phased, realistic objectives.

(6) Budget: (reviewed, not scored): The extent to which the budget is reasonable, clearly justified, and consistent with the proposed plan.

C. TB Public Health Laboratory

All technically acceptable applications will be funded for TB Public Health Laboratory activities. The following criteria will be used to evaluate applications for their technical acceptability.

Component 1: Accomplishment of CDC recommended laboratory activities and turnaround times.

(1) Objectives (30 percent): Measurable, specific, time-phased, relevant, realistic objectives for attaining or maintaining CDC recommended laboratory activities and turnaround times are described and related to the recipient activities, program purpose,

and program need. The timeline for the proposed progress toward the laboratory objectives is appropriate and feasible.

(2) Evaluation (30 percent): Specific performance measures and milestones are clearly described. The evaluation plan is appropriate for measuring progress toward objectives and identifying contributing factors when objectives are not met.

(3) Program need (20 percent): The applicant demonstrates a need for upgrading laboratory activities in terms of the current performance of the laboratory with respect to recommended activities and turnaround times and the annual number of confirmed TB cases for which the laboratory provided any test result that was used to complete the RVCT form. The recommendations are described above and in Tenover, *et al.* 1993. *J. Clin. Microbiol.* 31:767-770 and Styrt, *et al.* 1997. *J. Clin. Microbiol.* 35:1401.

(4) Methods (20 percent): The proposed strategies and activities are appropriate and feasible to achieve the stated objectives.

(5) Budget (not scored): The budget is reasonable, clearly justified, consistent with the demonstrated need and proposed activities, and likely to lead to success.

Component 2: Accomplishment of the Healthy People 2010 TB Laboratory goal.

(1) Objectives (30 percent): Measurable, specific, time-phased, relevant, realistic objectives for attaining or maintaining the Healthy People 2010 TB Laboratory goal are described and related to the recipient activities, program purpose, and program need. The timeline for the proposed progress toward the laboratory objectives is appropriate and feasible. Short term goals may include efforts to promote rapid delivery of specimens to the laboratory or rapid testing for a subset of patients or specimens; and long term goals may include accomplishment of the Healthy People 2010 TB Laboratory goal.

(2) Evaluation (30 percent): Specific performance measures and milestones are clearly described. The evaluation plan is appropriate for measuring progress toward objectives and identifying contributing factors when objectives are not met.

(3) Program need (20 percent): The applicant demonstrates a need for attaining or maintaining the Healthy People 2010 TB Laboratory goal in terms of the current performance of the laboratory and annual number of patients for whom the program laboratory confirmed an initial diagnosis of tuberculosis by culturing

M. tuberculosis from a primary patient specimen. The goal is laboratory confirmation of a case of tuberculosis within 48 hours of specimen receipt for 75 percent of cases that are ultimately culture-confirmed.

(4) Methods (20 percent): The proposed strategies and activities are appropriate and feasible to achieve the stated laboratory objectives.

(5) Budget (not scored): The budget is reasonable, clearly justified, consistent with the demonstrated need and proposed activities, and likely to lead to success.

Component 3. Development of a system to provide timely and reliable laboratory testing in support of TB treatment and control efforts.

(1) Objectives (30 percent): Measurable, specific, time-phased, relevant, realistic objectives for developing a system to provide timely and reliable laboratory testing in support of TB treatment and control efforts are described and related to the recipient activities, program purpose, and program need. The timeline for the proposed progress toward the laboratory objectives is appropriate and feasible. Short term objectives may include assessing the structure, performance, and cost of the current network of laboratory service providers and users; medium term goals may include developing a referral and information network to ensure reliable testing and the timely flow of specimens and information; and long term goals may include using quality improvement principles to continually evaluate and improve the performance of the laboratory service network.

(2) Evaluation (30 percent): Specific performance measures and milestones are clearly described. The evaluation plan is appropriate for measuring progress toward objectives and identifying contributing factors when objectives are not met.

(3) Program need (20 percent): The applicant demonstrates a need for developing a system to provide timely and reliable laboratory testing in support of TB treatment and control efforts.

(4) Methods (20 percent): The proposed strategies and activities are appropriate and feasible to achieve the stated laboratory objectives.

(5) Budget (not scored): The budget is reasonable, clearly justified, consistent with the demonstrated need and proposed activities, and likely to lead to success.

Protection of Human Subjects from Research Risks: Does the application adequately address the requirements of title 45 CFR part 46 for the protection

of human subjects? This will not be scored; however, an application can be disapproved if the research risks are sufficiently serious and protection against risks is so inadequate as to make the entire application unacceptable.

V.2. Review and Selection Process

Applications will be reviewed for completeness by the Procurement and Grants Office (PGO) staff, and for responsiveness by NCHSTP/DTBE. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified that their application did not meet submission requirements.

An objective review panel will evaluate complete and responsive applications according to the criteria listed in the "V.1. Criteria" section above.

V.3. Anticipated Announcement and Award Dates

Awardees will be notified on or before January 1, 2005.

VI. Award Administration Information

VI.1. Award Notices

Successful applicants will receive a Notice of Grant Award (NGA) from the CDC Procurement and Grants Office. The NGA shall be the only binding, authorizing document between the recipient and CDC. The NGA will be signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application.

Unsuccessful applicants will receive notification of the results of the application review by mail.

VI.2. Administrative and National Policy Requirements

45 CFR part 74 and part 92.

For more information on the Code of Federal Regulations, see the National Archives and Records Administration at the following Internet address: <http://www.access.gpo.gov/nara/cfr/cfr-table-search.html>.

The following additional requirements apply to this project:

- AR-1 Human Subjects Requirements.
- AR-2 Requirements for Inclusion of Women and Racial and Ethnic Minorities in Research.
- AR-4 HIV/AIDS Confidentiality Provisions.
- AR-5 HIV Program Review Panel Requirements.
- AR-6 Patient Care.
- AR-7 Executive Order 12372 Review.

- AR-9 Paperwork Reduction Act Requirements.
- AR-10 Smoke-Free Workplace Requirements.

- AR-11 Healthy People 2010.
- AR-12 Lobbying Restrictions.

Additional information on these requirements can be found on the CDC Web site at the following Internet address: <http://www.cdc.gov/od/pgo/funding/ARs.htm>.

VI.3. Reporting Requirements

A. TB Prevention and Control Activities

You must provide CDC with an original and two hard copies of:

(1) Annual Progress Report: The annual progress report summarizes the activities conducted during the previous budget period and documents the impact federally funded items have had in the achievement or progress of the goals and objectives of the project. This report is due 90 days after the end of the budget period (March 31). The annual progress report shall include:

- (a) Brief project description.
- (b) Overall program performance and progress of approved recipient activities as measured against the recipient activities outlined in the program's approved application and any subsequent amendments. Narrative describing major accomplishments in prevention and control activities in the project area. In addition, include a table with five years trends for all national objectives.

(c) Measures of Effectiveness: The grantee shall provide objective and measurable indicators that demonstrate the accomplishment of the various identified objectives of the award agreement. When a project is not meeting the specified objectives, a written discussion shall be included concerning how the activities were evaluated, the obstacles identified, and the proposed strategies to address the identified problem(s). It is recommended that the following format be utilized to convey this information:

- Objective:
- Status: (Met, Ongoing, Unmet)
- Discussion:

(d) Overall Program Budget Issues: Identify any issues that may have or have had an impact on successful program performance.

(e) Financial Status Report due no more than 90 days after the end of the budget period.

(2) Interim Progress Report/Non-Competing Continuation Application: The Interim Progress report details the programmatic and fiscal activities conducted during the current budget period and documents the proposed

activities and objectives for the upcoming new budget period. Current budget period activities are considered those activities initiated since the beginning of the current budget period to the date of the interim progress report. New budget period proposed activities are those for the following year's budget period. Submission of the completed Interim Progress Report and information requested in the Solicitation of Non-Competing Continuation Notification letter (see Attachment 4) shall constitute the grantee's non-competing continuation application. This report is due 90 days prior to the end of the budget period (September 30). The principal investigator shall sign the Interim Progress report. The project director and business office official shall sign the accompanying detailed budget and budget justification. The Interim Progress Report shall include:

(a) Current Budget Period Activities Objectives: For each objective, list the status, and provide a brief written discussion. Include in this discussion for each objective a description of lessons learned, barriers encountered, and how the barriers were addressed. Include a discussion of the reasons why goals were not met. Problems, delays, or adverse conditions, which materially impair the ability to meet the objectives of the award, shall be included in the discussion with a statement of action taken or contemplated and any assistance needed to resolve the situation. It is recommended that the following format be utilized:

- Objective:
- Status: (Met, Ongoing, or Unmet)
- Discussion:

(b) Current Budget Period Financial Progress: Provide an estimate of the overall obligations for the current budget period.

i. If unobligated funds are anticipated at the end of the current budget period based on the current rate of obligation, provide detailed actions to be taken to obligate the estimated unobligated amount before the end of the current budget period, including the identification of vacant positions or contracts that have not been executed. If it is anticipated that the estimated unobligated amount will not be obligated by the end of the current budget period, the grantee can request that these unobligated funds be carried over to the new budget period if those unobligated funds are still required to support the program.

ii. If it is estimated that insufficient funding remains to support the project to the end of the current budget period, provide detailed justification of the

shortfall and the anticipated or taken actions to bring the obligations in line with the authorized funding level, or request supplemental funds.

(c) New Budget Period Program Proposed Activity Objectives:

List new proposed objectives for the upcoming budget period. These proposed objectives must support the intent of the original program announcement. Each objective shall be time-phased, measurable, and have a performance or outcome measure by which the success of the objectives can be assessed. For each objective, list proposed activities that will be implemented to accomplish the objective. Provide a timeline for objective accomplishment. If there is a redirection of activities, the grantee shall identify, justify and explain the methodology for the implementation of the redirection. The detailed line-item budget to support this proposed new budget period program activity, as requested in the Solicitation of Non-Competing Continuation Notification letter, shall be attached to the interim progress report.

(3) Final Financial Status Report and Final Progress Report due no more than 90 days after the end of the project period.

These reports must be mailed to the Grants Management or Contract Specialist listed in the "Agency Contacts" section of this announcement.

B. Regional TB Training and Medical Consultation Centers

(1) Additional supporting documentation: As part of the annual TB Cooperative Agreement progress report (in a separate section), the grantee will be required to provide additional RTMCC supporting documentation in the following areas:

(a) List of regional training courses and medical consultation provided during the year.

(b) Evaluation data—Reports should include measuring appropriate process indicators (e.g., trainee demographics, quality of training, distribution of products, Web use), immediate training outcomes (e.g., changes in knowledge, attitudes, and skills) and where possible, long-range impact (e.g., changes in provider practice behavior, changes in service delivery).

(c) Resource allocation—amount of human resource time (percent) and dollar expenditure for training, education, and medical and technical consultation activity should be provided. In addition, resource allocation for printing, travel, consultation services, and supplies should be provided. Breakdown of each

RTMCC employee's percent effort on varied RTMCC activities.

(d) Summary of product distribution (including Web trends for Web-based products) and other evaluation data.

(e) Status of stated objectives.

(f) Strategies for marketing training, educational materials, and medical consultation services.

(g) Status of regional needs assessment for training and education and medical consultation including timelines for implementation of plans.

(h) Results of evaluations conducted on center activities.

(i) Listing of RTMCC activities not funded by CDC, and RTMCC employee efforts on such activities.

(2) Annual Progress Report: Refer to the Annual Progress Report section above, for reporting requirements.

(3) Interim Progress Report/Non-Competing Continuation Application: Refer to the Interim Progress Report/Non-Competing Continuation Application section above, for reporting requirements.

C. TB Public Health Laboratory

(1) Annual Progress Report: Refer to the Annual Progress Report section above, for reporting requirements.

(2) Interim Progress Report/Non-Competing Continuation Application: Refer to the Interim Progress Report/Non-Competing Continuation Application section above, for reporting requirements.

VII. Agency Contacts

For general questions about this announcement, contact:

Technical Information Management Section, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341. Telephone: 770-488-2700.

For program technical assistance, contact: Zachary Taylor, MD, MS, Project Officer, Division of Tuberculosis Elimination, Centers for Disease Control and Prevention, 1600 Clifton Rd., NE., Atlanta, GA 30333. Telephone: 404-639-8126, e-mail: ZTaylor@cdc.gov.

For financial, grants management, or budget assistance, contact: Jesse Robertson, Grants Management Specialist, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341. Telephone: 770-488-2747, e-mail: JRobertson@cdc.gov.

Dated: May 21, 2004.

William P. Nichols,

Acting Director, Procurement and Grants Office, Centers for Disease Control and Prevention.

[FR Doc. 04-11999 Filed 5-26-04; 8:45 am]

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Guide to Community Preventive Services (GCPS) Task Force

In accordance with section 10(a) (2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following meeting:

NAME: Task Force on Community Preventive Services.

TIMES AND DATES: 8 a.m.–6:15 p.m., June 9, 2004. 8 a.m.–12:30 p.m., June 10, 2004.

PLACE: The Crowne Plaza Ravinia, 4355 Ashford Dunwoody Road, Atlanta, Georgia 30346-1521, telephone (770) 395-7700.

STATUS: Open to the public, limited only by the space available.

PURPOSE: The mission of the Task Force is to develop and publish a Guide to Community Preventive Services, which is based on the best available scientific evidence and current expertise regarding essential public health services and what works in the delivery of those services.

MATTERS TO BE DISCUSSED: Agenda items include: briefings on administrative information, options for handling insufficient evidence, and dissemination of Community Guide findings. The Task Force will also consider reviews of evidence and possible recommendations on school-based interventions for violence prevention, reducing structural barriers to cancer screening, folic acid fortification and supplementation, partner counseling and referral services for HIV prevention, and environmental and policy approaches to promoting physical activity.

Agenda items are subject to change as priorities dictate.

CONTACT PERSON OR ADDITIONAL

INFORMATION: Peter Briss, M.D., M.P.H., Chief, Community Guide Branch, Division of Prevention Research and Analytic Methods, Epidemiology Program Office, CDC, 1600 Clifton Road, M/S E-90, Atlanta, Georgia, telephone (404) 498-6180.

Persons interested in reserving a space for this meeting should call (770) 498-6180 by close of business on June 7, 2004.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee

management activities, for both CDC and the Agency for Toxic Substances and Disease Registry.

Dated: May 21, 2004.

Joseph E. Salter,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

[FR Doc. 04-12000 Filed 5-26-04; 8:45 am]

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 2003N-0575]

Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; 2004 National Tracking Survey of Prescription Drug Information

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Fax written comments on the collection of information by June 28, 2004.

ADDRESSES: OMB is still experiencing significant delays in the regular mail, including first class and express mail, and messenger deliveries are not being accepted. To ensure that comments on the information collection are received, OMB recommends that written

comments be faxed to the Office of Information and Regulatory Affairs, OMB, Attn: Fumie Yokota, Desk Officer for FDA, FAX: 202-395-6974.

FOR FURTHER INFORMATION CONTACT:

Karen Nelson, Office of Management Programs (HFA-250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-1482.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

2004 National Tracking Survey of Prescription Drug Information—(OMB Control Number 0910-0279)—Extension

2004 National Tracking Survey of Prescription Drug Information Provided to Patients

FDA implements the provisions of the Federal Food, Drug, and Cosmetic Act (the act) designed to assure the adequate labeling of prescription (Rx) drugs. Under section 502(a) of the act (21 U.S.C. 352(a)), a drug product is misbranded if its labeling is false or misleading in any particular, and under section 201(n) of the act (21 U.S.C. 321(n)), a drug's labeling is misleading if its labeling or advertising fails to reveal material facts. FDA also has the authority to collect this information under Title VI of Public Law 104-180 (Related Agencies and Food and Drug Administration) section 601 (Effective Medication Guides), which directs the development of "a mechanism to assess periodically * * * the frequency with which the [oral and written prescription] information is provided to consumers."

To assure that Rx drugs are not misbranded, FDA has historically asserted that adequate labeling requires

certain information be provided to patients. In 1982, when FDA revoked a planned initiative to require mandatory patient package inserts for all Rx drugs in favor of private sector initiatives, the agency indicated that it will periodically conduct surveys to evaluate the availability of adequate patient information on a nationwide basis. In addition, FDA has been responsible for setting and tracking Healthy People 2010 goals for the receipt of medication information by patients.

Surveys of consumers about their receipt of Rx drug information were carried out in 1992, 1994, 1996, 1998, and 2001. This notice is in regard to conducting the survey in 2004.

The survey is conducted by telephone on a national random sample of adults who received a new prescription for themselves or a household member within the past 4 weeks. The interview assesses the extent to which information was received from the doctor, the pharmacist, and other sources. Survey respondents are also asked attitudinal questions, and demographic and other background characteristics are obtained. The survey enables FDA to determine the frequency with which such information is provided to consumers. Without this information, the agency would be unable to assess the degree to which adequate oral patient information about Rx drugs is provided.

Respondents to this collection of information are adults (18 years or older) in the continental United States who have obtained a new (non-refill) prescription at a pharmacy for themselves or a member of their household in the last 4 weeks.

FDA estimates the burden of this collection of information as follows:

TABLE 1.—ESTIMATED ANNUAL REPORTING BURDEN¹

Year	No. of Respondents	Annual Frequency per Response	Total Annual Responses	Hours per Response	Total Hours
Screener					
2004	15,319	1	15,319	.02	306
Survey					
2004	1,000	1	1,000	.32	320

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

This total estimate of 626 total annual burden hours is based on the 2001 survey administration, in which 15,319 potential respondents were contacted to obtain 1,000 interviews.

In the **Federal Register** of January 27, 2004 (69 FR 3921), FDA published a 60-day notice requesting public comment on the information collection provisions. One comment was received.

The comment was received from the National Council on Patient Information and Education, which is a consortium of organizations, public agencies, and consumer groups seeking to promote

adequate patient information about medications. The comment from the National Council on Patient Information and Education states the Council's support for FDA to conduct this survey, citing usefulness of the results to the Council's goals.

Dated: May 21, 2004.

Jeffrey Shuren,

Assistant Commissioner for Policy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 2003N-0404]

Agency Information Collection Activities; Announcement of Office of Management and Budget Approval; Human Tissue Intended for Transplantation

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a collection of information entitled "Human Tissue Intended for Transplantation" has been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995.

FOR FURTHER INFORMATION CONTACT: JonnaLynn P. Capezzuto, Office of Management Programs (HFA-250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-4659.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of January 26, 2004 (69 FR 3585), the agency announced that the proposed information collection had been submitted to OMB for review and clearance under 44 U.S.C. 3507. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. OMB has now approved the information collection and has assigned OMB control number 0910-0302. The approval expires on May 31, 2007. A copy of the supporting statement for this information collection is available on the Internet at <http://www.fda.gov/ohrms/dockets>.

Dated: May 21, 2004.

[Docket No. 2004N-0046]

Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Orphan Drug Products

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995. **DATES:** Fax written comments on the collection of information by June 28, 2004

ADDRESSES: OMB is still experiencing significant delays in the regular mail, including first class and express mail, and messenger deliveries are not being accepted. To ensure that comments on the information collection are received, OMB recommends that written comments be faxed to the Office of Information and Regulatory Affairs, OMB, Attn: Fumie Yokota, Desk Officer for FDA, FAX: 202-395-6974.

FOR FURTHER INFORMATION CONTACT: Jonna Capezzuto, Office of Management Programs (HFA-250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-4659.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Orphan Drug Products—(OMB Control Number 0910-0167)—Extension

Sections 525 through 528 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360aa through 360dd) give FDA statutory authority to do the following: (1) Provide recommendations on investigations required for approval of marketing applications for orphan drugs, (2) designate eligible drugs as orphan drugs, (3) set forth conditions under

which a sponsor of an approved orphan drug obtains exclusive approval, and (4) encourage sponsors to make orphan drugs available for treatment on an "open protocol" basis before the drug has been approved for general marketing. The implementing regulations for these statutory requirements have been codified under part 316 (21 CFR part 316) and specify procedures that sponsors of orphan drugs use in availing themselves of the incentives provided for orphan drugs in the act and sets forth procedures FDA will use in administering the act with regard to orphan drugs. Section 316.10 specifies the content and format of a request for written recommendations concerning the nonclinical laboratory studies and clinical investigations necessary for approval of marketing applications. Section 316.12 provides that, before providing such recommendations, FDA may require results of studies to be submitted for review. Section 316.14 contains provisions permitting FDA to refuse to provide written recommendations under certain circumstances. Within 90 days of any refusal, a sponsor may submit additional information specified by FDA. Section 316.20 specifies the content and format of an orphan drug application, which includes requirements than an applicant document that the disease is rare (affects fewer than 200,000 persons in the United States annually) or that the sponsor of the drug has no reasonable expectation of recovering costs of research and development of the drug. Section 316.26 allows an applicant to amend the application under certain circumstances. Section 316.30 requires submission of annual reports, including progress reports on studies, a description of the investigational plan, and a discussion of changes that may affect orphan status. The information requested will provide the basis for an FDA determination that the drug is for a rare disease or condition and satisfies the requirements for obtaining orphan drug status. Secondly, the information will describe the medical and regulatory history of the drug. The respondents to this collection of information are biotechnology firms, drug companies, and academic clinical researchers.

In the **Federal Register** of February 24, 2004 (69 FR 8447) FDA published a 60-day notice requesting public comment on the information collection provisions. No comments were received.

FDA estimates the burden of this collection of information as follows:

TABLE 1.—ESTIMATED ANNUAL REPORTING BURDEN¹

21 CFR Section	No. of Respondents	Annual Frequency of response	Total Annual Responses	Hours per Response	Total Hours
316.10, 316.12, and 316.14	3	1	3	130	390
316.20, 316.21, and 316.26	138	2.0	276	130	35,880
316.22	22	1	22	2	44
316.27	5	1	5	4	20
316.30	500	1	500	2	1,000
316.36	.2	3	.6	15	9
Total					37,343

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

The information requested from respondents represents, for the most part, an accounting of information already in possession of the applicant. It is estimated, based on the frequency of requests over the past 13 years that 138 persons or organizations per year will request orphan drug designation and that no requests for recommendations on design of preclinical or clinical studies will be received. Based upon FDA experience over the last decade, FDA estimates that the effort required to prepare applications to receive consideration for sections 525 and 526 of the act (§§ 316.10, 316.12, 316.20, and 316.21) is generally similar and is estimated to require an average of 95 hours of professional staff time and 30 hours of support staff time per application. Estimates of annual activity and burden for foreign sponsor nomination of a resident, agent, change in ownership or designation, and inadequate supplies of drug in exclusivity, are based on total experience by FDA with such requests since 1983.

Dated: May 21, 2004.

Jeffrey Shuren,

Assistant Commissioner for Policy.

Food and Drug Administration

[Docket No. 2004N–0026]

Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Human Cells, Tissues, and Cellular and Tissue-Based Products; Establishment Registration and Listing

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Fax written comments on the collection of information by June 28, 2004.

ADDRESSES: OMB is still experiencing significant delays in the regular mail, including first class and express mail, and messenger deliveries are not being accepted. To ensure that comments on the information collection are received, OMB recommends that written comments be faxed to the Office of Information and Regulatory Affairs, OMB, Attn: Fumie Yokota, Desk Officer for FDA, FAX: 202–395–6974.

FOR FURTHER INFORMATION CONTACT: JonnaLynn Capezzuto, Office of Management Programs (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–4659.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed

collection of information to OMB for review and clearance.

Human Cells, Tissues, and Cellular and Tissue-Based Products; Establishment Registration and Listing—(OMB Control Number 0910–0469)—Extension

Under section 361 of the Public Health Service Act (the PHS Act) (42 U.S.C. 264), FDA may issue and enforce regulations necessary to prevent the introduction, transmission, or spread of communicable diseases between the States or from foreign countries into the States. As derivatives of the human body, all human cells, tissues, and cellular and tissue-based products (HCT/Ps) pose some risk of carrying pathogens that could potentially infect recipients or handlers. The regulations in part 1271 (21 CFR part 1271) require domestic and foreign establishments that recover, process, store, label, package, or distribute any HCT/P, or that perform screening or testing of the cell or tissue donor to register with FDA (§ 1271.10(b)(1)) and submit a list of each HCT/P manufactured (§ 1271.10(b)(2)). Section 1271.21(a) requires the initial establishment registration, and § 1271.25(a) and (b) identifies the required initial registration and HCT/P listing information. Section 1271.21(b) requires an annual update of the establishment registration. Section 1271.21(c)(ii) requires establishments to submit HCT/P listing updates when an HCT/P is changed as described in § 1271.25(c). Section 1271.25(c) identifies the required HCT/P listing update information. Section 1271.26 requires establishments to submit an amendment if ownership or location of the establishment changes.

FDA requires the use of a registration and listing form (Form FDA 3356; “Establishment Registration and Listing for Human Cells, Tissues, and Cellular

and Tissue-Based Products (HCT/Ps);” <http://forms.psc.gov/forms/FDA/fda.html>) (§§ 1271.22 and 1271.25) to submit the required information. To further facilitate the ease and speed of submissions, electronic submission is accepted electronically at <http://www.fda.gov/cber/tissue/tisreg.htm>.

Sections 207.20, 207.26, 207.30 (approved under OMB control number 0910–0045), and 807.22(a) and (b) (approved under OMB control number 0910–0387) (21 CFR 207.20, 207.26, 207.30, and 807.22(a) and (b)) already require establishments that manufacture drugs or devices to submit to FDA initial establishment registration and product listing, as well as annual establishment registration, product listing updates, and location and ownership amendments. Sections 207.20(f) and 807.20(d) (21 CFR 807.20(d)) require that manufacturers of HCT/P drugs (subject to review under an application submitted under section 505 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 355) or under a biological products license application under section 351 of the PHS Act (42 U.S.C. 262)) and devices (subject to premarket review or notification, or exempt from notification, under an application submitted under the device provisions

of the act or under a biological product license application under section 351 of the PHS Act) submit this registration and listing information using Form FDA 3356 instead of the multiple forms identified under parts 207 and 807. Therefore these establishments (FDA estimates a total of 67 (1 + 66) respondents as shown in table 1 of this document) will incur only a one-time burden to transition from the use of several forms to the use of one form.

Respondents to this information collection are establishments that recover, process, store, label, package, or distribute any HCT/P, or perform donor screening or testing. In table 2 of this document, based on information from FDA’s database system for the fiscal year (FY) 2003, there are 1,003 establishments that have registered and listed with FDA. This number includes 552 establishments manufacturing conventional or ocular HCT/Ps, which are currently required to register and list with FDA. The remaining 451 establishments are manufacturers of hematopoietic stem cells derived from peripheral or cord blood, and reproductive cells and tissue. Although these establishments currently are not required to register and list, some have registered voluntarily and are therefore included in the burden estimate. Based

on information from FDA’s database for FY 2002, there were 484 listing updates and 12 location/ownership amendments. When registration and listing requirements are implemented for all HCT/P establishments, i.e., when sections 207.20(f), 807.20(d), and 1271.3(d)(2) are effective, FDA estimates in table 1 of this document that approximately 367 (300 + 66 + 1) HCT/P establishments would initially register and list in addition to the 1,003 currently registered establishments.

The burden estimates for the initial registration and listing and average hours per response are based on institutional experience with comparable reporting provisions for drugs, including biological products; devices; information from industry representatives and trade organizations; and data provided by the Eastern Research Group, a consulting firm hired by FDA to prepare an economic analysis of the potential economic impact on sperm banks and other reproductive tissue facilities.

In the **Federal Register** of January 29, 2004 (69 FR 4303), FDA published a 60-day notice requesting public comment on the information collection provisions. No comments were received.

FDA estimates the burden of this collection of information as follows:

TABLE 1.—ESTIMATED INITIAL (ONE-TIME) REPORTING BURDEN¹

21 CFR Section	Form FDA 3356	No. of Respondents	Annual Frequency per Response	Total Annual Responses	Hours per Response	Total Hours
207.20(f)	Change to form 3356	1	1	1	0.5	0.5
801.70(d)		66	1	66	0.5	33
1271.10(b)(1) and (b)(2), 1271.21(a), and 1271.25(a) and (b)	Initial registration and listing	300	1	300	0.75	225
Total						258.5

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

TABLE 2.—ESTIMATED INITIAL (ONE-TIME) REPORTING BURDEN¹

21 CFR Section	Form FDA 3356	No. of Respondents	Annual Frequency per Response	Total Annual Responses	Hours per Response	Total Hours
1271.10(b)(1) and 1271.21(b)	Annual registration	1,003	1	1,003	0.5	501.5
1271.10(b)(2), 1271.21(c)(ii), and 1271.25(c)	Listing update	484	1	484	0.5	242
1271.26	Registration amendment	12	1	12	0.25	3
Total						746.5

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

Dated: May 21, 2004.

Jeffrey Shuren,

Assistant Commissioner for Policy.

[FR Doc. 04-12011 Filed 5-26-04; 8:45 am]

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 84N-0102]

Cumulative List of Orphan Drug and Biological Designations

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of the cumulative list of orphan drug and biological designations as of December 31, 2003. FDA has announced the availability of previous lists, which are updated monthly, identifying the drugs and biologicals granted orphan designation under the Federal Food, Drug, and Cosmetic Act (the act).

ADDRESSES: Copies of the cumulative list of orphan drug and biological designations are available from the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852, and the Office of Orphan Products Development (HF-35), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-3666.

FOR FURTHER INFORMATION CONTACT: Jeffrey Fritsch, Office of Orphan Products Development (HF-35), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-3666.

SUPPLEMENTARY INFORMATION: FDA's Office of Orphan Products Development (OPD) reviews and takes final action on applications submitted by sponsors seeking orphan designation of their drug or biological under section 526 of the act (21 U.S.C. 360bb). In accordance with this section of the act which requires public notification of designations, FDA maintains a cumulative list of orphan drug and biological designations. This list includes the name of the drug or biological, the specific disease/condition for which the drug or biological is designated, and information about the sponsor such as the name, address, telephone, and contact.

At the end of each calendar year, the agency publishes a cumulative list of orphan drug and biological designations current through the calendar year. The list that is the subject of this notice is the cumulative list of orphan drug and biological designations through December 31, 2003, and, therefore, brings the April 15, 2003 (68 FR 18247) publication up to date. This list is available upon request from the Division of Dockets Management (see **ADDRESSES**). Those requesting a copy should specify Docket No. 84N-0102, which is the docket number for this document. In addition, the list is updated monthly and is available upon request from OPD or FDA's Division of Dockets Management (see **ADDRESSES**). The current list is also available on the Web site, <http://www.fda.gov/orphan>.

The orphan designation of a drug or biological applies only to the sponsor who requested the designation. Each sponsor interested in developing a drug or biological for an orphan indication must apply for orphan designation in order to obtain exclusive marketing rights. Any request for designation must be received by FDA before the submission of a marketing application for the proposed indication for which designation is requested (21 CFR 316.23). Copies of the orphan drug regulations (21 CFR part 316) (57 FR 62076, December 29, 1992) and explanatory background materials for use in preparing an application for orphan designation may be obtained from OPD (see **ADDRESSES**).

The names of the drugs and biologicals shown in the cumulative list of orphan designations may change upon marketing approval/licensing, reflecting the established, proper name approved by FDA. Because drugs and biologicals not approved/licensed for marketing are investigational, the appropriate established, proper name has not necessarily been assigned.

Dated: May 19, 2004.

Jeffrey Shuren,

Assistant Commissioner for Policy.

[FR Doc. 04-11948 Filed 5-26-04; 8:45 am]

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Request for Nominations for Voting Members on Public Advisory Panels or Committees

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is requesting nominations for voting members to serve on certain device panels of the Medical Devices Advisory Committee, the National Mammography Quality Assurance Advisory Committee, the Device Good Manufacturing Practice Advisory Committee, and the Technical Electronic Products Radiation Safety Standards Committee in the Center for Devices and Radiological Health. Nominations will be accepted for current vacancies and those that will or may occur through August 31, 2005.

FDA has a special interest in ensuring that women, minority groups, and individuals with disabilities are adequately represented on advisory committees and, therefore, encourages nominations of qualified candidates from these groups.

DATES: Because scheduled vacancies occur on various dates throughout each year, no cutoff date is established for the receipt of nominations. However, when possible, nominations should be received at least 6 months before the date of scheduled vacancies for each year, as indicated in this document.

ADDRESSES: Send all nominations and curricula vitae to the following contact persons:

1. *For the device panels:* Nancy J. Pluhowski, Center for Devices and Radiological Health (HFZ-400), Food and Drug Administration, 9200 Corporate Blvd., Rockville, MD 20850, 301-594-2022, e-mail: NJP@CDRH.FDA.GOV.

2. *For the National Mammography Quality Assurance Advisory Committee, excluding consumer representatives:* Charles A. Finder, Center for Devices and Radiological Health (HFZ-240), Food and Drug Administration, 1350 Piccard Dr., Rockville, MD 20850, e-mail: CAF@CDRH.FDA.GOV.

3. *For health professionals, industry representatives and government representatives for the Device Good Manufacturing Practice Advisory Committee:* Sharon Kalokerinos, Center for Devices and Radiological Health (HFZ-300), Food and Drug Administration, 2094 Gaither Rd., Rockville, MD 20850, e-mail: SMK@CDRH.FDA.GOV.

4. *For government representatives and industry representatives for the Technical Electronic Product Radiation Safety Standards Committee:* Richard V. Kaczmarek, Center for Devices and Radiological Health (HFZ-240), Food and Drug Administration, 1350 Piccard Dr., Rockville, MD 20850, RVK@CDRH.FDA.GOV.

FOR FURTHER INFORMATION CONTACT:

Kathleen L. Walker, Center for Devices and Radiological Health (HFZ-17), Food and Drug Administration, 2098 Gaither Rd., Rockville, MD 20850, 301-594-1283, ext. 114, e-mail: KLW@CDRH.FDA.GOV.

SUPPLEMENTARY INFORMATION:**I. Vacancies**

FDA is requesting nominations of voting members for vacancies listed as follows:

1. *Anesthesiology and Respiratory Therapy Devices Panel*: Two vacancies occurring November 30, 2004; anesthesiologists, pulmonary medicine specialists, or other experts who have specialized interests in ventilatory support, pharmacology, physiology, or the effects and complications of anesthesia.

2. *Circulatory System Devices Panel*: Three vacancies occurring June 30, 2004; interventional cardiologists, electrophysiologists, invasive (vascular) radiologists, vascular and cardiothoracic surgeons, and cardiologists with special interest in congestive heart failure.

3. *Ear, Nose, and Throat Devices Panel*: Three vacancies occurring October 31, 2004; otologists, neurotologists, audiologists, hearing scientists and electrophysiologists.

4. *Gastroenterology and Urology Devices Panel*: Three vacancies occurring December 31, 2004; urologists and nephrologists.

5. *General and Plastic Surgery Devices Panel*: One vacancy occurring August 31, 2004, two vacancies occurring August 31, 2005; general surgeons, plastic surgeons, thoracic surgeons, abdominal surgeons, pelvic surgeons and reconstructive surgeons, biomaterials experts, laser experts, wound healing experts or endoscopic surgery experts.

6. *General Hospital and Personal Use Devices Panel*: Three vacancies occurring December 31, 2004; internists, pediatricians, neonatologists, endocrinologists, gerontologists, nurses, biomedical engineers or microbiologists/infection control practitioners or experts.

7. *Hematology and Pathology Devices Panel*: Three vacancies immediately, one vacancy occurring February 28, 2005; hematologists (benign and/or malignant hematology), hematopathologists (general and special hematology, coagulation and hemostasis, and hematological oncology), gynecologists with special interests in gynecological oncology, cytopathologists, and molecular biologists with special interests in

development of predictive and prognostic biomarkers.

8. *Immunology Devices Panel*: Two vacancies occurring February 28, 2005; persons with experience in medical, surgical, or clinical oncology, internal medicine, clinical immunology, allergy, molecular diagnostics, or clinical laboratory medicine.

9. *Microbiology Devices Panel*: Three vacancies occurring February 28, 2005; infectious disease clinicians, e.g., pulmonary disease specialists, sexually transmitted disease specialists, pediatric infectious disease specialists, experts in tropical medicine and emerging infectious diseases, mycologists; clinical microbiologists and virologists; clinical virology and microbiology laboratory directors, with expertise in clinical diagnosis and in vitro diagnostic assays, e.g., hepatologists; molecular biologists.

10. *Neurological Devices Panel*: Two vacancies occurring November 30, 2004; neurosurgeons (cerebrovascular and pediatric), neurologists (stroke, pain management and movement disorders), interventional neuroradiologists, psychiatrist, biostatisticians.

11. *Obstetrics and Gynecology Devices Panel*: Two vacancies occurring January 31, 2005; experts in perinatology, embryology, reproductive endocrinology, pediatric gynecology, gynecological oncology, operative hysteroscopy, pelviscopy, electrosurgery, laser surgery, assisted reproductive technologies, contraception, postoperative adhesions, and cervical cancer and colposcopy; biostatisticians and engineers with experience in obstetrics/gynecology devices; urogynecologists; experts in breast care; experts in gynecology in the older patient; experts in diagnostic (optical) spectroscopy; experts in midwifery; labor and delivery nursing.

12. *Ophthalmic Devices Panel*: Three vacancies occurring October 31, 2004; ophthalmologists specializing in cataract and refractive surgery and surgical retina, in addition to vision scientists, optometrists, and biostatisticians practiced in ophthalmic clinical trials.

13. *Orthopaedic and Rehabilitation Devices Panel*: Two vacancies occurring August 31, 2005; doctors of medicine or philosophy with experience in tissue engineering, biomaterials or tribology; orthopedic surgeons experienced with prosthetic ligament devices, joint implants, or spinal devices; physical therapists experienced in spinal cord injuries, neurophysiology, electrotherapy, and joint biomechanics; rheumatologists; biomedical or biomechanical engineers.

14. *Radiological Devices Panel*: Two vacancies occurring January 31, 2005; a medical physicist with experience in the calibration, design and use of diagnostic and therapeutic devices, and an interventional radiologist with experience in the imaging, evaluation and treatment of patients with various types of diseases and malignancies.

15. *National Mammography Quality Assurance Advisory Committee*: Five vacancies occurring January 31, 2005; one interpreting physician, one radiological technologist, one medical physicist, and two other health professionals whose clinical practice, research specialization, or professional expertise includes a significant focus on mammography.

16. *Device Good Manufacturing Practice Advisory Committee*: Six vacancies immediately; three government representatives, two industry representatives, and one health professional; one vacancy occurring May 31, 2005; one health professional.

17. *Technical Electronic Product Radiation Safety Standards Committee*: Three vacancies immediately, two government representatives and one industry representative.

II. Functions**A. Medical Devices Advisory Committee**

The committee reviews and evaluates data on the safety and effectiveness of marketed and investigational devices and makes recommendations for their regulation. The panels engage in a number of activities to fulfill the functions the Federal Food, Drug, and Cosmetic Act (the act) envisions for device advisory panels. With the exception of the Medical Devices Dispute Resolution Panel, each panel, according to its specialty area performs the following duties: (1) Advises the Commissioner of Food and Drugs (the Commissioner) regarding recommended classification or reclassification of devices into one of three regulatory categories; (2) advises on any possible risks to health associated with the use of devices; (3) advises on formulation of product development protocols; (4) reviews premarket approval applications for medical devices; (5) reviews guidelines and guidance documents; (6) recommends exemption of certain devices from the application of portions of the act; (7) advises on the necessity to ban a device; and (8) responds to requests from the agency to review and make recommendations on specific issues or problems concerning the safety and effectiveness of devices. With the exception of the Medical Devices Dispute Resolution Panel, each

panel, according to its specialty area, may also make appropriate recommendations to the Commissioner on issues relating to the design of clinical studies regarding the safety and effectiveness of marketed and investigational devices.

The Dental Products Panel also functions at times as a dental drug panel. The functions of the dental drug panel are to evaluate and recommend whether various prescription drug products should be changed to over-the-counter status and to evaluate data and make recommendations concerning the approval of new dental drug products for human use.

The Medical Devices Dispute Resolution Panel provides advice to the Commissioner on complex or contested scientific issues between FDA and medical device sponsors, applicants, or manufacturers relating to specific products, marketing applications, regulatory decisions and actions by FDA, and agency guidance and policies. The panel makes recommendations on issues that are lacking resolution, are highly complex in nature, or result from challenges to regular advisory panel proceedings or agency decisions or actions.

B. National Mammography Quality Assurance Advisory Committee

The functions of the committee are to advise FDA on the following topics: (1) Developing appropriate quality standards and regulations for mammography facilities; (2) developing appropriate standards and regulations for bodies accrediting mammography facilities under this program; (3) developing regulations with respect to sanctions; (4) developing procedures for monitoring compliance with standards; (5) establishing a mechanism to investigate consumer complaints; (6) reporting new developments concerning breast imaging which should be considered in the oversight of mammography facilities; (7) determining whether there exists a shortage of mammography facilities in rural and health professional shortage areas and determining the effects of personnel on access to the services of such facilities in such areas; (8) determining whether there will exist a sufficient number of medical physicists after October 1, 1999; and (9) determining the costs and benefits of compliance with these requirements.

C. Device Good Manufacturing Practice Advisory Committee

The functions of the committee are to review proposed regulations for issuance regarding good manufacturing

practices governing the methods used in, and the facilities and controls used for manufacture, packaging, storage, installation, and servicing of devices, and make recommendations regarding the feasibility and reasonableness of those proposed regulations. The committee also reviews and makes recommendations on proposed guidelines developed to assist the medical device industry in meeting the good manufacturing practice requirements, and provides advice with regard to any petition submitted by a manufacturer for an exemption or variance from good manufacturing practice regulations.

Section 520 of the act (21 U.S.C. 360(j)), as amended, provides that the Device Good Manufacturing Practice Advisory Committee shall be composed of nine members as follows: (1) three of the members shall be appointed from persons who are officers or employees of any Federal, State, or local government; (2) two shall be representatives of interests of the device manufacturing industry; (3) two shall be representatives of the interests of physicians and other health professionals; and (4) two shall be representatives of the interests of the general public.

D. Technical Electronic Product Radiation Safety Standards Committee

The function of the committee is to provide advice and consultation on the technical feasibility, reasonableness, and practicability of performance standards for electronic products to control the emission of radiation from such products. The committee may recommend electronic product radiation safety standards for consideration.

Section 534(f) of the act (21 U.S.C. 360kk(f)), as amended by the Safe Medical Devices Act of 1990, provides that the Technical Electronic Product Radiation Safety Standards Committee include five members from governmental agencies, including State or Federal Governments, five members from the affected industries, and five members from the general public, of which at least one shall be a representative of organized labor.

III. Qualifications

A. Panels of the Medical Devices Advisory Committee

Persons nominated for membership on the panels shall have adequately diversified experience appropriate to the work of the panel in such fields as clinical and administrative medicine, engineering, biological and physical sciences, statistics, and other related

professions. The nature of specialized training and experience necessary to qualify the nominee as an expert suitable for appointment may include experience in medical practice, teaching, and/or research relevant to the field of activity of the panel. The particular needs at this time for each panel are listed in section I of this document. The term of office is up to 4 years, depending on the appointment date.

B. National Mammography Quality Assurance Advisory Committee

Persons nominated for membership should be physicians, practitioners, and other health professionals, whose clinical practice, research specialization, or professional expertise include a significant focus on mammography and individuals identified with consumer interests. Prior experience on Federal public advisory committees in the same or similar subject areas will also be considered relevant professional expertise. The particular needs at this time for this committee are listed in section I of this document. The term of office is up to 4 years, depending on the appointment date.

C. Device Good Manufacturing Practice Advisory Committee

Persons nominated for membership as a government representative or health professional should have knowledge of or expertise in any one or more of the following areas: quality assurance concerning the design, manufacture, and use of medical devices. To be eligible for selection as a representative of the general public or industry, nominees should possess appropriate qualifications to understand and contribute to the committee's work. The particular needs at this time for this committee are listed in section I of this document. The term of office is up to 4 years, depending on the appointment date.

D. Technical Electronic Product Radiation Safety Standards Committee

Persons nominated must be technically qualified by training and experience in one or more fields of science or engineering applicable to electronic product radiation safety. The particular needs at this time for this committee are listed in section I of this document. The term of office is up to 4 years, depending on the appointment date.

IV. Nomination Procedures

Any interested person may nominate one or more qualified persons for

membership on one or more of the advisory panels or advisory committees. Self-nominations are also accepted. Nominations shall include complete curriculum vitae of each nominee, current business address and telephone number, and shall state that the nominee is aware of the nomination, is willing to serve as a member, and appears to have no conflict of interest that would preclude membership. FDA will ask the potential candidates to provide detailed information concerning such matters as financial holdings, employment, and research grants and/or contracts to permit evaluation of possible sources of conflict of interest.

This notice is issued under the Federal Advisory Committee Act (5 U.S.C. app. 2) and 21 CFR part 14 relating to advisory committees.

Dated: May 20, 2004.

Peter J. Pitts,
Associate Commissioner for External Relations.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 2003M-0462]

Medical Devices Regulated by the Center for Biologics Evaluation and Research; Availability of Safety and Effectiveness Summaries for Premarket Approval Applications

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is publishing a list of premarket approval applications (PMAs) that have been approved by the Center for Biologics Evaluation and Research (CBER). This list is intended to inform the public of the availability of safety and effectiveness summaries of approved PMAs through the Internet and the agency's Division of Dockets Management.

ADDRESSES: Submit written requests for copies of summaries of safety and effectiveness to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. Please cite the appropriate docket number as listed in table 1 of this document when submitting a written request. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the summaries of safety and effectiveness.

FOR FURTHER INFORMATION CONTACT: Nathaniel L. Geary, Center for Biologics Evaluation and Research (HFM-17), Food and Drug Administration, 1401 Rockville Pike, suite 200N, Rockville, MD 20852-1448, 301-827-6210.

SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of January 30, 1998 (63 FR 4571), FDA published a final rule that revised 21 CFR 814.44(d) and 814.45(d) to discontinue individual publication of PMA approvals and denials in the **Federal Register**, providing instead to post this information on the Internet at <http://www.fda.gov>. In addition, the regulations provide that FDA publish a

quarterly list of available safety and effectiveness summaries of PMA approvals and denials that were announced during the quarter. FDA believes that this procedure expedites public notification of these actions because announcements can be placed on the Internet more quickly than they can be published in the **Federal Register**, and FDA believes that the Internet is accessible to more people than the **Federal Register**.

In accordance with section 515(d)(4) and (e)(2) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(4) and (e)(2)), notification of an order approving, denying, or withdrawing approval of a PMA will continue to include a notice of opportunity to request review of the order under section 515(g) of the act. The 30-day period for requesting reconsideration of an FDA action under § 10.33(b) (21 CFR 10.33(b)) for notices announcing approval of a PMA begins on the day the notice is placed on the Internet. Section 10.33(b) provides that FDA may, for good cause, extend this 30-day period. Reconsideration of a denial or withdrawal of approval of a PMA may be sought only by the applicant; in these cases, the 30-day period will begin when the applicant is notified in writing by FDA of its decision.

The following is a list of PMAs approved by CBER for which summaries of safety and effectiveness were placed on the Internet from October 1, 2003, through December 31, 2003. There were no denial actions during the period. The list provides the manufacturer's name, the product's generic name or the trade name, and the approval date.

TABLE 1.—LIST OF SAFETY AND EFFECTIVENESS SUMMARIES FOR APPROVED PMAS MADE AVAILABLE OCTOBER 1, 2003, THROUGH DECEMBER 31, 2003

PMA No./Docket No.	Applicant	Trade Name	Approval Date
BP 000023/02003M-0462	MedMira Laboratories, Inc.	MedMira Reveal Rapid HIV-1 Antibody Test	Apr. 16, 2003

II. Electronic Access

Persons with access to the Internet may obtain the documents at <http://www.fda.gov/cber/products.htm>.

Dated: May 20, 2004.

Jesse Goodman,
Director, Center for Biologics Evaluation and Research.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Dermatologic and Ophthalmic Drugs Advisory Committee; Notice of Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

This notice announces a forthcoming meeting of a public advisory committee of the Food and Drug Administration

(FDA). The meeting will be open to the public.

Name of Committee: Dermatologic and Ophthalmic Drugs Advisory Committee.

General Function of the Committee: To provide advice and recommendations to the agency on FDA's regulatory issues.

Date and Time: The meeting will be held on August 27, 2004, from 8 a.m. to 5:30 p.m.

Location: Food and Drug Administration, CDER Advisory

Committee Conference Room, 5630 Fishers Lane, rm. 1066, Rockville, MD.

Contact Person: Kimberly Littleton Topper, Center for Drug Evaluation and Research (HFD-21), Food and Drug Administration, 5600 Fishers Lane (for express delivery, 5630 Fishers Lane, rm. 1093) Rockville, MD 20857, 301-827-7001, e-mail: topperk@cder.fda.gov, or FDA Advisory Committee Information Line, 1-800-741-8138 (301-443-0572 in the Washington, DC area), code 3014512534. Please call the Information Line for up-to-date information on this meeting.

Agenda: The committee will discuss new drug application (NDA) 21-756, pegaptanib sodium injection (proposed tradename, Macugen) by Eyetech Pharmaceuticals, Inc., indicated for the treatment of exudative (wet) age-related macular degeneration.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person by August 13, 2004. Oral presentations from the public will be scheduled between approximately 1 p.m. and 2 p.m. Time allotted for each presentation may be limited. Those desiring to make formal oral presentations should notify the contact person by August 13, 2004, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation.

Persons attending FDA's advisory committee meetings are advised that the agency is not responsible for providing access to electrical outlets.

FDA welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Kimberly Littleton Topper at least 7 days in advance of the meeting.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: May 20, 2004.

Peter J. Pitts,

Associate Commissioner for External Relations.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Manufacturing Subcommittee of the Advisory Committee for Pharmaceutical Science; Notice of Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

This notice announces a forthcoming meeting of a public advisory committee of the Food and Drug Administration (FDA). The meeting will be open to the public.

Name of Committee: Manufacturing Subcommittee of the Advisory Committee for Pharmaceutical Science.

General Function of the Subcommittee: To provide advice and recommendations to the agency on FDA's regulatory issues.

Date and Time: The meeting will be held on July 20 and 21, 2004, from 8:30 a.m. to 5 p.m.

Location: Center for Drug Evaluation and Research Advisory Committee Conference Room, rm. 1066, 5630 Fishers Lane, Rockville, MD.

Contact Person: Hilda Scharen, Center for Drug Evaluation and Research (HFD-21), Food and Drug Administration, 5600 Fishers Lane (for express delivery, 5630 Fishers Lane, rm. 1093), Rockville, MD 20857, 301-827-7001, e-mail: SCHARENH@cder.fda.gov, or FDA Advisory Committee Information Line, 1-800-741-8138 (301-443-0572) in the Washington, DC area), code 3014512539. Please call the Information Line for up-to-date information on this meeting.

Agenda: On July 20, 2004, the subcommittee will address the following issues: (1) Receive topic updates for ongoing activities pertaining to manufacturing science and quality by design; and (2) discuss and provide comment on a Current Good Manufacturing Practice (cGMP) risk model being developed at FDA. On July 21, 2004, the subcommittee will address the following issues: (1) Discuss and provide comments on a cGMP and quality system approach for the production of investigational new drugs (INDs) and (2) discuss and provide comments on manufacturing science and risk-based questions for new drug application chemistry, manufacturing and controls (NDA CMC) review process.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending

before the subcommittee. Written submissions may be made to the contact person by July 13, 2004. Oral presentations from the public will be scheduled between approximately 1 p.m. and 1:30 p.m. on July 20, 2004, and between approximately 11:30 a.m. and 12 noon on July 21, 2004. Time allotted for each presentation may be limited. Those desiring to make formal oral presentations should notify the contact person before July 13, 2004, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation.

Persons attending FDA's advisory committee meetings are advised that the agency is not responsible for providing access to electrical outlets.

FDA welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Hilda Scharen at least 7 days in advance of the meeting.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: May 20, 2004.

Peter J. Pitts,

Associate Commissioner for External Relations.

[FR Doc. 04-11945 Filed 5-26-04; 8:45 am]

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Proposed Collection: Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Pub. L. 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of proposed projects being developed for submission to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain copy of the data collection plans and draft instruments, call the

HRSA Reports Clearance Officer on (301) 443-1129.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Ryan White Comprehensive AIDS Resources Emergency (CARE) Act: CARE Act Data Report (CADR) Form: (OMB No. 0915-0253)—Revision.

The CARE Act Data Report (CADR) form was created in 1999 by HRSA's

HIV/AIDS Bureau. It is designed to collect information from grantees and their subcontracted service providers, who are funded under Titles I, II, III, and IV of the Ryan White CARE Act of 1990, as amended by the Ryan White CARE Act Amendments of 1996 and 2000 (codified under Title XXVI of the Public Health Services Act). All Titles of the CARE Act specify HRSA's responsibilities in the administration of grant funds, the allocation of funds, the evaluation of programs for the population served, and the improvement of the quantity and quality of care. Accurate records of the providers receiving CARE Act funding, the services provided, and the clients served continue to be critical to the implementation of the legislation and thus are necessary for HRSA to fulfill its responsibilities. CARE Act grantees are required to report aggregate data to HRSA annually. The CADR form is used by grantees and their subcontracted

service providers to report data on seven different areas: service provider information, client information, counseling and testing services, medical services, and other services provided/clients served, demographic information, and the Health Insurance Program. The primary purposes of the CADR are to: (1) Characterize the organizations from which clients receive services; (2) provide information on the number and characteristics of clients who receive CARE Act services; and (3) enable HAB to describe the type and amount of services a client receives. In addition to meeting the goal of accountability to the Congress, clients, advocacy groups, and the general public, information collected on the CADR is critical for HRSA, State, and local grantees, and individual providers to assess the status of existing HIV-related service delivery systems.

The response burden for grantees is estimated as:

Title under which grantee is funded	Number of grantee respondents	Responses per grantee	Hours to coordinate receipt of data reports	Total hour burden
Title I Only	51	1	40	2,040
Title II Only	59	1	40	2,360
Title III Only	365	1	20	7,300
Title IV Only	90	1	20	1,800
Subtotal	565	13,500

The response burden for service providers is estimated as:

Title under which grantee is funded	Number of respondents	Responses per provider	Hours per response	Total hour burden
Title I Only	976	1	26	25,376
Title II Only	857	1	26	22,282
Title III Only	166	1	44	7,304
Title IV Only	122	1	42	5,124
Funded under more than one title	681	1	50	34,050
Subtotal	2,802	94,136
Total for providers and grantees	3,367	107,636

Send comments to Susan G. Queen, Ph.D., HRSA Reports Clearance Officer, Room 14-45, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: May 20, 2004.

Tina M. Cheatham,
Director, Division of Policy Review and Coordination.

[FR Doc. 04-12012 Filed 5-26-04; 8:45 am]

BILLING CODE 4165-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Government-Owned Inventions; Availability for Licensing

AGENCY: National Institutes of Health, Public Health Service, DHHS.

ACTION: Notice.

SUMMARY: The inventions listed below are owned by an agency of the U.S. Government and are available for

licensing in the U.S. in accordance with 35 U.S.C. 207 to achieve expeditious commercialization of results of federally-funded research and development. Foreign patent applications are filed on selected inventions to extend market coverage for companies and may also be available for licensing.

ADDRESSES: Licensing information and copies of the U.S. patent applications listed below may be obtained by writing to the indicated licensing contact at the Office of Technology Transfer, National

Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, Maryland 20852-3804; telephone: 301/496-7057; fax: 301/402-0220. A signed Confidential Disclosure Agreement will be required to receive copies of the patent applications.

AT8, a Hybridoma Cell Line Producing a Monoclonal Antibody (MAb) Specific for Ly49G, a Mouse Natural Killer (NK) Cell Receptor

Andrew J. Makriganis (NCI).
DHHS Reference No. E-131-2004/0—
Research Material.

Licensing Contact: Cristina
Thalhammer-Reyero; 301/435-4507;
thalhamc@mail.nih.gov.

This MAb is useful for identifying and isolating specific subpopulations of mouse NK cells using flow cytometry and fluorescence activated cell sorting (FACS). The AT8 antibody is also useful as a reagent to study the innate immune system using mouse models. This antibody has been described in Makriganis *et al.*, "Independent Control of *Ly49g* Alleles: Implications for NK Cell Repertoire Selection and Tumor Cell Killing," *J. Immunol.* 2004 172:1414-1425.

Materials and Methods for Inhibiting Wip1

Dmitry Bulavin, Galina BeLova, Albert J. Fornace, Jr. (NCI).

U.S. Patent Application filed 12 Mar 2004 (DHHS Reference No. E-340-2003/0-US-01), a CIP of PCT/US03/08997 filed 21 Mar 2003, which published as WO 03/083103 on 01 Oct 2003 (DHHS Reference No. E-002-2002/0-PCT-02).

Licensing Contact: Jesse S. Kindra; 301/435-5559; *kindraj@mail.nih.gov.*

Wild-type p53-induced phosphatase 1 (Wip1) is a MG²⁺-dependent serine/threonine protein phosphatase that is expressed in response to ionizing or ultra-violet radiation in a manner that is dependent on the tumor suppressor gene product p53. Wip1 has been shown to dephosphorylate and inactivate p38 MAP kinase, which in its activated state functions to activate p53 for the induction of apoptosis and transcription in response to environmental stress, thereby rendering Wip1 anti-apoptotic.

Further studies have indicated that Wip1 is a candidate proto-oncogene involved in tumorigenesis. Therefore, Wip1 represents an attractive new target for cancer therapy. Accordingly, the present invention relates to methods and compositions of inhibiting Wip1 in a cell. Inhibition of Wip1 would be expected to reduce tumor cell viability either alone or in combination with cytotoxic agents.

Genes Expressed in Prostate Cancer and Methods of Use

Ira Pastan, Tapan Bera, and Byungkook Lee (NCI).

U.S. Provisional Patent Application No. 60/461,399 filed 08 Apr 2003 (DHHS Reference No. E-148-2003/0-US-01); PCT Application has been filed.

Licensing Contact: Brenda Hefti; 301/435-4632; *heftib@mail.nih.gov.*

This invention is a novel gene, called New Gene Expressed in Prostate (NGEP). This gene appears to be expressed only in prostate. This gene has two known splice variants of significantly different size. The shorter splice variant encodes a cytoplasmic protein, while the longer splice variant encodes a plasma membrane protein.

This patent application contains claims to the polypeptide, NGEP, nucleotides encoding NGEP, antibodies that bind NGEP polypeptides, and methods of using these polypeptides, polynucleotides, and antibodies.

The presence of the protein on the cell surface and the selective expression in prostate and prostate cancer make this a potential target for prostate cancer diagnostics and therapeutics. Potential therapeutics could be gene-based, vaccines, antibodies, or immunoconjugates. Further information can be obtained by viewing a recent publication by the inventors (PNAS v.104 no.9, p.3050-3064, March 2, 2004).

BASE, a New Cancer Gene, and Uses Thereof

Ira Pastan, Kristi Eglund, James Vincent, Byungkook Lee, and Robert Strausberg (NCI).

PCT Application No. PCT/US03/39476 filed 10 Dec 2003 (DHHS Reference No. E-321-2002/0-PCT-02).

Licensing Contact: Brenda Hefti; 301/435-4632; *heftib@mail.nih.gov.*

The present invention identifies a new gene expressed in breast cancers. The gene undergoes alternative splicing, and is expressed as one of two polypeptides. Both splice variants appear to be secreted proteins, and therefore good potential therapeutic targets. The patent application claims BASE polypeptides, nucleic acids, gene therapy and vaccine uses, and antibodies. This novel gene target might be useful as a breast cancer marker for diagnostics, or as a target for breast cancer therapeutics.

IL-21 Critically Regulates Immunoglobulin Production

Warren J. Leonard, Katsutoshi Ozaki, and Rosanne Spolski (NHLBI).

U.S. Provisional Patent Application 60/393,215 filed 01 Jul 2002 (DHHS

Reference No. E-211-2002/0-US-01); PCT/US03/20370 filed 26 Jun 2003, which published as WO 04/003156 on 08 Jan 2004 (DHHS Reference No. E-211-2002/0-PCT-02).

Licensing Contact: Brenda Hefti; 301/435-4632; *heftib@mail.nih.gov.*

The invention includes a mouse in which the IL-21 receptor gene is disrupted by homologous recombination, the disruption being sufficient to prevent expression of the IL-21 receptor and thus to inhibit the action of IL-21. The invention also includes a mouse in which both the IL-21 receptor gene and the IL-4 gene are simultaneously disrupted in fashions being sufficient to inhibit the action of IL-21 and the production of IL-4. In a homozygous state, these mutations produce a mouse that has diminished B cell function.

This invention also relates to the use of agents that inhibit the interaction of IL-21 with the IL-21 receptor to modulate an immune response. This invention may be used to alter B cell activity, to treat a subject with Job's disorder, to treat an allergic reaction in a subject, or prevent an allergic reaction in a subject.

Novel Anti-CD30 Antibodies and Recombinant Immunotoxins Containing Disulfide-Stabilized Fv Fragments

Ira H. Pastan *et al.* (NCI).

U.S. Provisional Application No. 60/387,293 filed 07 Jun 2002 (DHHS Reference No. E-135-2002/0-US-01); PCT Application No. PCT/US03/18373 filed 07 Jun 2003, which published as WO 03/104432 on 18 Dec 2003 (DHHS Reference No. E-135-2002/1-PCT-01).

Licensing Contact: Brenda Hefti; 301/435-4632; *heftib@mail.nih.gov.*

The present invention discloses the creation of new anti-CD30 stalk antibodies and anti-CD30 dsFv-immunotoxins, which have shown good cytotoxic activity.

CD30 is a member of the tumor necrosis factor receptor super family. It is an excellent target due to its high expression in malignant Reed Sternberg cells of Hodgkin's Lymphoma (HL) and in anaplastic large cell lymphomas (ALCL), and due to its expression in only a small subset of normal lymphocytes. Previous attempts to target CD30 include the scFv immunotoxin Ki-4 that has shown specific binding to CD30-positive lymphoma cell lines and killed target cells.

The immunotoxins of the present invention are more stable and have higher affinity for CD30 than their predecessors. Research thus far has

shown that the dsFv-immunotoxins are able to kill a variety of CD30-positive lymphoma cell lines in vitro as well as CD30-transfected A431 cells via specific binding to CD30.

As claimed in this patent application, some of the antibodies do not bind to CD30 released from cells, although they do bind to cell associated CD30. This enhancement further increases the ability of immunotoxins and other immunoconjugates to target and treat lymphomas expressing CD30.

Dated: May 20, 2004.

Steven M. Ferguson,

Director, Division of Technology Development and Transfer, Office of Technology Transfer, National Institutes of Health.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Cancer Institute; Notice of Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act, as amended (5 U.S.C. appendix 2), notice is hereby given of a meeting of the National Cancer Institute Board of Scientific Advisors.

The meeting will be open to the public, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting.

Name of Committee: National Cancer Institute Board of Scientific Advisors.

Date: June 24-25, 2004.

Time: June 24, 2004, 8 a.m. to 6 p.m.

Agenda: Director's Report; Ongoing and New Business; Reports of Program Review Group(s); and Budget Presentation; Reports of Special Initiatives; RFA and RFP Concept Review; and Scientific Presentations.

Place: National Institutes of Health, Building 31, C Wing, 6 Floor, Conference Rm. 10, 9000 Rockville Pike, Bethesda, MD 20892.

Time: June 25, 2004, 8:30 a.m. to 1 p.m.

Agenda: Ongoing and New Business; Reports of Program Review Group(s); and Budget Presentation; Reports of Special Initiatives; RFA and RFP Concept Review; and Scientific Presentations.

Place: National Institutes of Health, Building 31, C Wing, 6 Floor, Conference Rm. 10, 9000 Rockville Pike, Bethesda, MD 20892.

Contact Person: Paulette S. Gray, PhD, Executive Secretary, Acting Director, Division of Extramural Activities, National Cancer Institute, National Institutes of Health, 6116 Executive Boulevard, 8th Floor, Rm. 8141, Bethesda, MD 20892, 301-496-4218.

Any interested person may file written comments with the committee by forwarding the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has instituted stringent procedures for entrance into the building by non-government employees. Persons without a government I.D. will need to show a photo I.D. and sign-in at the security desk upon entering the building.

Information is also available on the Institute's/Center's homepage: <http://deainfo.nci.nih.gov/advisory/bsa.htm>, where an agenda and any additional information for the meeting will be posted when available.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

**[WO-250-1231-EB-24 1A and OMB Control
Number 1004-0119]**

Information Collection Submitted to the Office of Management and Budget Under the Paperwork Reduction Act

The Bureau of Land Management (BLM) has sent a request to extend the current information collection to the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). On February 7, 2003, the BLM published a notice in the **Federal Register** (68 FR 6507) requesting comment on this information collection. The comment period ended on April 8, 2003. BLM received no comments. You may obtain copies of the collection of information and related forms of explanatory material by contacting the BLM Information Collection Clearance Officer at the telephone number listed below.

The OMB must respond to this request within 60 days but may respond after 30 days. For maximum consideration your comments and suggestions on the requirements should be directed within 30 days to the Office of Management and Budget, Interior Department Desk Officer (1004-0119), at OMB-OIRA via facsimile to (202) 395-6566 or e-mail to OIRA_DOCKET@omb.eop.gov. Please provide a copy of your comments to the Bureau Information Collection Clearance Officer (WO-630), Bureau of Land Management, Eastern States Office, 7450 Boston Blvd., Springfield, Virginia 22153.

Nature of Comments: We specifically request your comments on the following:

1. Whether the collection of information is necessary for the proper functioning of the BLM, including whether the information will have practical utility;
2. The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;
3. Ways to enhance the quality, utility and clarity of the information we collect; and
4. Ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

Title: Special Recreation Application and Permit (43 CFR 2930).

OMB Control Number: 1004-0119.

Bureau Form Number: 2930-1 (formerly 8370-1).

Abstract: Respondents supply identifying information on proposed commercial, competitive, or individual recreational use when required to determine the eligibility for a permit. BLM uses this information to authorize the requested use and determine the appropriate fees. BLM also uses this information to tabulate recreation use data for the annual Federal Recreation Fee Report as required by the Land and Water Conservation Act.

Frequency: On occasion.

Description of Respondents: Recreation visitors to areas of the public lands and related waters where BLM requires special recreation permits.

Estimated Completion Time: 30 minutes.

Annual Responses: 31,000.

Filing Fee Per Response: 0.

Annual Burden Hours: 15,500.

Bureau Clearance Officer: Michael Schwartz, (202) 452-5033.

Dated: March 16, 2004.

Michael H. Schwartz,

*Bureau of Land Management, Information
Collection Clearance Officer.*

BILLING CODE 4310-84-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WY-920-1320-EL, WYW154001]

Notice of Competitive Coal Lease Sale, Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of competitive coal lease sale.

SUMMARY: Notice is hereby given that certain coal resources in the NARO South Tract described below in Campbell and Converse Counties, WY, will be offered for competitive lease by sealed bid in accordance with the provisions of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 181 *et seq.*).

DATES: The lease sale will be held at 10 a.m., on Tuesday, June 29, 2004. Sealed bids must be submitted on or before 4 p.m., on Monday, June 28, 2004.

ADDRESSES: The lease sale will be held in the First Floor Conference Room (Room 107), of the BLM Wyoming State Office, 5353 Yellowstone Road, P.O. Box 1828, Cheyenne, WY 82003. Sealed bids must be submitted to the Cashier, BLM Wyoming State Office, at the address given above.

FOR FURTHER INFORMATION CONTACT:

Mavis Love, Land Law Examiner, or Robert Janssen, Coal Coordinator, at 307-775-6258, and 307-775-6206, respectively.

SUPPLEMENTARY INFORMATION: This coal lease sale is being held in response to a lease by application (LBA) filed by Powder River Coal Company of Gillette, WY. The coal resources to be offered consist of all reserves recoverable by surface mining methods in the following-described lands located along the county line in southeastern Campbell County and northeastern Converse County approximately five miles east of State Highway 59, 14 miles south of State Highway 450, and adjacent to the Burlington Northern Santa Fe/Union Pacific joint rail line:

- T. 41 N., R. 70 W., 6th PM, Wyoming
 Sec. 19: Lots 6-11, 12(S^{1/2}), 13-20;
 Sec. 20: Lots 5(S^{1/2}), 6(S^{1/2}), 7(S^{1/2}), 8(S^{1/2}), 9-16;
 Sec. 21: Lots 5(S^{1/2}), 12, 13;
 Sec. 28: Lots 3-6, 11, NE^{1/4}SW^{1/4};
 Sec. 29: Lots 1-12;
 Sec. 30: Lots 5-12;
 T. 41 N., R. 71 W., 6th P.M, Wyoming
 Sec. 23: Lots 8(S^{1/2}), 9;
 Sec. 24: Lots 1, 5(S^{1/2}), 6(S^{1/2}), 7(S^{1/2}), 8-16;
 Sec. 25: Lots 1-4, 9-10, 12(N^{1/2}).

Containing 2,956.725 acres, more or less.

The tract is adjacent to Federal coal leases held by the North Antelope Rochelle Mine to the northeast and by the Antelope Mine to the south and west. It is also adjacent to additional unleased Federal coal to the north.

All of the acreage offered has been determined to be suitable for mining except lands within 100 feet of the joint rail line right-of-way. Other features such as the county road, pipelines, and power lines can be moved to permit coal recovery. Numerous oil and/or gas wells have been drilled on the tract. The estimate of the bonus value of the coal lease will include consideration of the future production from these wells. An economic analysis of this future income stream will determine whether a well is bought out and plugged prior to mining or re-established after mining is completed. Small portions of the surface estate of the tract are owned by the North Antelope Rochelle Mine and the Antelope Mine, but most of the surface estate is owned by private individuals.

The tract contains surface mineable coal reserves in the Wyodak seam currently being recovered in the adjacent, existing mines. On the tract, the Wyodak seam is generally split into the Anderson and Canyon seams. The upper Anderson seam averages about 37 feet thick and the lower Canyon seam

averages about 34 feet thick on the LBA. Burn lines near the southern and eastern boundaries of the LBA tract mark the approximate limits of the coal seams. The overburden depths range from about 95-260 feet thick on the LBA. The interburden between the Anderson and Canyon seams ranges from 5-115 feet thick on the LBA.

The tract contains an estimated 297,469,000 tons of mineable coal. This estimate of mineable reserves includes the Anderson and Canyon seams mentioned above but does not include any tonnage from localized seams or splits containing less than 5 feet of coal. The total mineable stripping ratio (BCY/Ton) of the coal is about 2.8:1. Potential bidders for the LBA should consider the recovery rate expected from thick seam, multiple seam, and burn line mining. The NARO South LBA coal is ranked as subbituminous C. The overall average quality on an as-received basis is 8929 BTU/lb with about 0.2% sulfur and 2% sodium in the ash. These quality averages place the coal reserves near the high end of the range of coal quality currently being mined in the Wyoming portion of the Powder River Basin.

The tract in this lease offering contains split estate lands. There are qualified surface owners as defined in the regulations at 43 CFR 3400.0-5. Consent granted by the qualified surface owners has been filed with and verified by the BLM. The lands included in the consent are shown below:

- T. 41 N., R. 70 W., 6th P.M., Wyoming
 Sec. 19: Lots 6-11, 12(S^{1/2}), 13, 14, 19, 20;
 Sec. 30: Lots 5, 6;
 T. 41 N., R. 71 W., 6th P.M., Wyoming
 Sec. 24: Lots 5(S^{1/2}), 6(S^{1/2}), 7(S^{1/2}), 8-11, 13-16.

The purchase price of the consent is \$10.00 and an overriding royalty of three percent (3%) of the gross realization of all coal mined and sold from the subject property.

The tract will be leased to the qualified bidder of the highest cash amount provided that the high bid equals the fair market value of the tract. The minimum bid for the tract is \$100 per acre or fraction thereof. No bid that is less than \$100 per acre, or fraction thereof, will be considered. The bids should be sent by certified mail, return receipt requested, or be hand delivered. The Cashier will issue a receipt for each hand-delivered bid. Bids received after 4 p.m., on Monday, June 28, 2004, will not be considered. The minimum bid is not intended to represent fair market value. The fair market value of the tract will be determined by the Authorized Officer after the sale. The lease issued as a result of this offering will provide

for payment of an annual rental of \$3.00 per acre, or fraction thereof, and of a royalty payment to the United States of 12.5 percent of the value of coal produced by strip or auger mining methods and 8 percent of the value of the coal produced by underground mining methods. The value of the coal will be determined in accordance with 30 CFR 206.250.

Bidding instructions for the tract offered and the terms and conditions of the proposed coal lease are available from the BLM Wyoming State Office at the addresses above. Case file documents, WYW154001, are available for inspection at the BLM Wyoming State Office.

Phillip C. Perlewitz,

Acting Deputy State Director, Minerals and Lands.

BILLING CODE 4310-22-P

DEPARTMENT OF THE INTERIOR**Bureau of Land Management**

[WY-957-04-1910-BJ-4467]

Notice of Filing of Plats of Survey, Wyoming

AGENCY: Bureau of Land Management, Interior.

SUMMARY: The Bureau of Land Management (BLM) is scheduled to file the plats of surveys of the lands described below thirty (30) calendar days from the date of this publication in the BLM Wyoming State Office, Cheyenne, Wyoming.

FOR FURTHER INFORMATION CONTACT: Bureau of Land Management, 5353 Yellowstone Road, P.O. Box 1828, Cheyenne, Wyoming 82003.

SUPPLEMENTARY INFORMATION: These surveys were executed at the request of the Bureau of Indian Affairs and are necessary for the managements of lands. The lands surveyed are:

The plat and field notes representing the dependent resurvey of a portion of the North boundary and subdivisional lines, and the subdivision of section 3, Township 1 North, Range 4 East, Wind River Meridian, Wyoming, was accepted May 18, 2004.

The plat and field notes representing the dependent resurvey of a portion of the subdivision of section 23, and the survey of the subdivision of section 23, and the metes and bound survey of Parcels G and H, section 23, Township 1 South, Range 1 West, Wind River Meridian, Wyoming, was accepted May 18, 2004.

The plat and field notes representing the dependent resurvey of a portion of the South boundary, and the subdivisional lines, and the subdivision of section 35, Township 2 North, Range 4 East, Wind River Meridian, Wyoming, was accepted May 18, 2004.

The plat and field notes representing the dependent resurvey of portions of the South and West boundaries and subdivisional lines, and the subdivision of section 31, Township 2 North, Range 3 East, Wind River Meridian, Wyoming, was accepted May 18, 2004.

The plat and field notes representing the dependent resurvey of a portion of the subdivisional lines, and a portion of the subdivision of section 17, and the survey of the subdivision of section 17, and the metes and bounds survey of Lots 5 and 6, section 17, Township 2 South, Range 1 East, Wind River Meridian, Wyoming, was accepted May 18, 2004.

Copies of the preceding described plats and field notes are available to the public at \$1.10 each.

Dated: May 20, 2004.

John P. Lee,

Chief Cadastral Surveyor, Division of Support Services.

BILLING CODE 4467-22-P

INTERNATIONAL TRADE COMMISSION

[Inv. Nos. 337-TA-491 and 337-TA-481 (consolidated)]

Certain Display Controllers and Products Containing Same and Certain Display Controllers With Upscaling Functionality and Products Containing Same; Notice of Commission Determinations To Extend the Target Date for Completion of the Investigation and the Deadline for Determining Whether To Review a Final Initial Determination; Notice of Consolidation of Investigations

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to extend the target date for completion of Certain Display Controllers and Products Containing Same, Inv. No. 337-TA-491 until August 20, 2004, and to extend the deadline for review of the presiding administrative law judge's ("ALJ's") final initial determination ("ID") issued on April 14, 2004, in that investigation until July 6, 2004. The Commission has

also determined to consolidate Certain Display Controllers and Products Containing Same, Inv. No. 337-TA-491, with Certain Display Controllers with Upscaling Functionality and Products Containing Same, Inv. No. 337-TA-481.

FOR FURTHER INFORMATION CONTACT:

Clara Kuehn, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 205-3012. Copies of all nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202-205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted Inv. No. 337-TA-491, Certain Display Controllers and Products Containing Same ("the 491 investigation"), on April 14, 2003, based on a complaint filed on behalf of Genesis Microchip (Delaware) Inc. ("complainant") of Alviso, Calif. 68 FR 17,964 (Apr. 14, 2003). The complaint, as supplemented, alleged violations of section 337 of the Tariff Act of 1930 in the importation into the United States, sale for importation, and sale within the United States after importation of certain display controllers and products containing same by reason of infringement of claims 13 and 15 of U.S. Patent No. 6,078,361; claims 19-22 of U.S. Patent No. 5,953,074 ("the '074 patent"); and claims 1 and 9 of U.S. Patent No. 6,177,922 ("the '922 patent"). The notice of investigation named three respondents: Media Reality Technologies, Inc. of Taipei, Taiwan; Media Reality Technologies, Inc. of Sunnyvale, Calif. (collectively "MRT"); and Trumpion Microelectronics, Inc. ("Trumpion") of Taipei City, Taiwan. Id.

On June 20, 2003, the ALJ issued an ID (Order No. 5) amending the complaint and notice of investigation to add MStar Semiconductor, Inc. ("MStar") as a respondent, additional claims of the '074 patent, and claims 1-3, 5, 6, 9, 12, 13, 16, 17, 33-36, 38, and 39 of U.S. Patent No. 5,739,867. That ID

was not reviewed by the Commission. 68 FR 44,967 (July 31, 2003).

On November 10, 2003, the ALJ issued an ID (Order No. 38) granting complainant's motion to terminate the 491 investigation with respect to Trumpion, the '922 patent, and the '074 patent. That ID was not reviewed by the Commission.

On January 6, 2004, a tutorial session was held. An evidentiary hearing was held on January 6-15, 20, and February 2-3, 2004. On April 14, 2004, the ALJ issued his final ID, findings of fact and conclusions of law, and recommended determination on remedy and bonding in the 491 investigation.

Complainant Genesis, respondents MRT, MStar, and the Commission investigative attorney each petitioned for review of portions of the final ID. All parties filed responses to the petitions for review. The Commission has determined to extend the deadline for determining whether to review the final ID until July 6, 2004.

The Commission instituted Certain Display Controllers with Upscaling Functionality and Products Containing Same, Inv. No. 337-TA-481 ("the 481 investigation") on October 18, 2002, based on a complaint filed by Genesis naming Trumpion, Media Reality Technologies, Inc. of Sunnyvale, Calif., and SmartASIC, Inc. of San Jose, Calif. as respondents. 67 FR 64411. On January 14, 2003, the ALJ issued an ID terminating respondent SmartASIC from the investigation on the basis of a settlement agreement. That ID was not reviewed by the Commission. The final ID in the 481 investigation ("the 481 final ID") issued on October 20, 2003. 68 FR 69719. On December 5, 2003, the Commission determined to review the 481 final ID in part. *Id.* On review of the 481 final ID, the Commission remanded the 481 investigation to the ALJ. 69 FR 3602 (Jan. 26, 2004). The remand order provided that the ALJ is to issue his findings by May 20, 2004, and set a schedule for the filing by the parties of comments on the ALJ's findings and response comments. The remand order also extended the target date for completion of the 481 investigation to August 20, 2004.

The 481 and 491 investigations are closely related in terms of the products, the parties, and patents involved. Although the 481 investigation was instituted on October 18, 2002, about six months prior to institution of the 491 investigation, due to the remand of the 481 investigation to the ALJ, the two investigations are now on similar time schedules. The Commission has determined to extend the target date for completion of the 491 investigation

from July 14, 2004, to the target date for completion of the 481 investigation, *i.e.*, until August 20, 2004, and has also determined to consolidate the two investigations. The parties may include comments on the effect, if any, of such consolidation in their comments on the ALJ's remand findings in Inv. No. 337-TA-481.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in sections 201.7(a), 210.42(h)(2), and 210.51(a) of the Commission's Rules of Practice and Procedure (19 CFR 201.7(a), 210.42(h)(2), 210.51(a)).

Issued: May 21, 2004.

By order of the Commission.

Marilyn R. Abbott,

Secretary.

[FR Doc. 04-12014 Filed 5-26-04; 8:45 am]

BILLING CODE 7820-02-P

DEPARTMENT OF JUSTICE

Notice of Lodging of a Consent Decree Under the Resource Conservation and Recovery Act

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that on May 7, 2004, a proposed Consent Decree in *United States of America v. Heartland Cement Company, Inc., and Rinco Inc.*, Civil Action No. 04-1144-JTM, was lodged with the United States District Court for the District of Kansas.

The Complaint, which was filed by the United States on behalf of the Environmental Protection Agency, alleges that Heartland Cement Company, Inc., and Rinco Inc., violated regulations promulgated under the Resource Conservation and Recovery Act at Heartland's cement manufacturing facility in Independence, Kansas. Specifically, the Complaint alleges that hazardous waste at the facility was not properly characterized; three waste containers were not completely closed; the lining of the secondary containment around a waste tank had holes; and several pieces of equipment lack tags or other identifying marks. The Complaint seeks the imposition of a civil penalty. The Consent Decree requires the defendants to pay a civil penalty in the amount of \$111,668.00.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General,

Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. Heartland Cement Co., Inc. and Rhineco Inc.*, D.J. Ref. No. 90-7-1-06933.

The Consent Decree may be examined at the Office of the United States Attorney, 301 N. Main St., Suite 1200, Wichita, Kansas 67202, and at U.S. EPA Region 7, 901 N. 5th St., Kansas City, Kansas 66101. During the public comment period, the Consent Decree may also be examined on the following Department of Justice Web site, <http://www.usdoj.gov/enrd/open.html>. A copy of the Consent Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$5.25 (25 cents per page reproduction cost) payable to the U.S. Treasury.

Robert E. Maher, Jr.,

Assistant Chief, Environment Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

Under 28 CFR 50.7 notice is hereby given that on May 13, 2004, a proposed consent decree in *United States v. David L. Rieker*, Civil Action No. 8:03-CV-647-T-26MAP was lodged with the United States District Court for the Middle District of Florida, Tampa Division.

In this action, brought pursuant to section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act ("the Act"), 42 U.S.C. 9607, the United States sought reimbursement for response costs incurred by EPA at the Dave Chemical Removal Action Site ("Site") located in Tampa, Hillsborough County, Florida, against David L. Rieker, the owner and operator of the Site at the time of disposal. Under the decree, Settling Defendant will make a one-time payment of \$100,000, based on his limited ability to pay, to resolve his

liability for EPA costs incurred to clean up the Site.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. David L. Rieker*, D.J. Ref. 90-11-3-08032.

The proposed consent decree may be examined at the Office of the United States Attorney, Middle District of Florida, Tampa Division, 400 North Tampa Street, Room 3200, Tampa, Florida 33602, and at U.S. EPA Region IV, Atlanta Federal Building, 61 Forsyth Street, Atlanta, Georgia 30303. During the public comment period, the proposed consent decree may also be examined on the following Department of Justice Web site, <http://www.usdoj.gov/enrd/open.html>. A copy of the proposed consent decree may be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$5.25 (25 cents per page reproduction cost) payable to the U.S. Treasury.

Ellen M. Mahan,

Assistant Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Pursuant to the Clean Water Act

In accordance with 28 CFR 50.7, 38 FR 19029, notice is hereby given that on May 3, 2004, a Consent Decree was lodged with the United States District Court for the District of Connecticut in *United States v. Town of Branford*, Civil Action No. 3:04-cv-00735 (JCH). A complaint was also filed simultaneously with the lodging of the Consent Decree. In the complaint the United States, on behalf of the U.S. Environmental Protection Agency (EPA), alleges that the defendant Town of Branford ("the Town") violated the Clean Water Act, 33 U.S.C. 1251, *et seq.*, ("CWA") in connection with the City's operation of

its publicly-owned treatment works. The complaint alleges that the Town discharged untreated wastewater to navigable waters through point sources other than those authorized by the Town's permit. The consent decree requires the Town to pay a civil penalty of \$300,000—\$150,000 to the State of Connecticut and \$150,000 to the United States—and to perform injunctive relief to achieve compliance with the Clean Water Act.

The Department of Justice will receive comments relating to the proposed Consent Decree for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, Department of Justice, P.O. Box 7611, Washington, D.C. 20044, and should refer to *United States v. Town of Branford*, D.J. Ref. 90-5-1-1-07632.

The proposed consent decree may be examined at the office of the United States Attorney, 157 Church Street, New Haven, Connecticut 06510, and at the Region I office of the Environmental Protection Agency, One Congress Street, Suite 1100, Boston, Massachusetts 02114. During the public comment period, the Consent Decree may also be examined on the following Department of Justice Web site, <http://www.usdoj.gov/enrd/open.html>. A copy of the proposed consent decree may also be obtained by mail from the Department of Justice Consent Decree Library, P.O. Box 7611, Washington, D.C. 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy, please enclose a check (there is a 25 cent per page reproduction cost) in the amount of \$11.00 payable to the "U.S. Treasury."

Ronald G. Gluck,

Assistant Chief, Environmental Enforcement Section, Environment & Natural Resources Division.

BILLING CODE 4410-15-M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Clean Water Act

Notice is hereby given that on May 12, 2004, a proposed Consent Decree in *United States, et al. v. Wal-Mart Stores, Inc.*, Case No. 04-301 was lodged with the United States District Court for the District of Delaware.

In this action the United States sought civil penalties and injunctive relief arising from Wal-Mart's failure to comply with the regulations and permits governing the discharge of storm water at twenty-four construction sites in nine states. The Consent Decree provides that Wal-Mart will undertake a comprehensive management and oversight system to ensure that contractors building Wal-Mart stores, Sam's Club stores, and Wal-Mart Supercenters will comply with all applicable permits and regulations. In addition, the Consent Decree requires payment of a civil penalty of \$3.1 million and performance of a supplemental environmental project comprised of the purchase and protection of wetlands or similar areas.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States, et al. v. Wal-Mart Stores, Inc.* D.J. Ref. 90-5-1-1-4510/3.

The Consent Decree may be examined at the Office of the United States Attorney, District of Delaware, P.O. Box 2046, Wilmington, Delaware 19899 and at U.S. EPA Region 8, 999 18th Street, Denver, Colorado 80202. A copy of the Consent Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$14.25 (25 cents per page reproduction cost) payable to the U.S. Treasury.

Karen Dworkin,

Assistant Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-M

DEPARTMENT OF LABOR

Employment and Training Administration

Submitted for Public Comment and Recommendations: Reemployment Services

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration (ETA) is soliciting comments concerning the proposed three-year extension of the information collection request (ICR) for reemployment services reporting. A copy of the proposed ICR can be obtained by contacting the office listed below in the address section of this notice.

DATES: Submit comments on or before July 26, 2004.

ADDRESSES: Anthony D. Dais, U.S. Department of Labor, Employment and Training Administration, Office of Workforce Investment, U.S. Employment Services, Room S-4231, 200 Constitution Avenue, NW., Washington DC 20210, (202-693-2784—not a toll free number) and Internet address: dais.anthony@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Since Program Year (PY) 2001 the budget for Wagner-Peyser Act State Workforce Agencies (SWAs) has allocated funds for reemployment services to Unemployment Insurance claimants. Under Office of Management and Budget (OMB) 1205-0424, SWAs have submitted annual plans and reports each program year to ETA. ETA is requesting extension of the authorization to require SWAs to submit an annual plan narrative and a progress report for each program year. These materials will assist ETA in reviewing the appropriateness of the selected

activities for reemployment services and determining whether the purpose of the funds was achieved. Specific reporting is necessary to adequately evaluate the reemployment services activities separately from regular employment and training program operations and recordkeeping.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

This is a request for Office of Management and Budget (OMB) approval of an extension to an existing collection of information previously approved for activities funded through reemployment services allotments, from current end date of December 31, 2004, to a new end date of December 31, 2007.

Type of Review: Extension without change.

Agency: Employment and Training Administration.

Title: Reemployment Services Plan and Report.

OMB Number: 1205-0424

Affected Public: State government.

Form	Number of respondents	Responses per year	Total responses	Hours per response	Total burden hours
Annual Plan	54	1	54	40	2,160
Progress Report	54	1	54	16	864
Totals	54	2	108	56	3,024

Total Respondents: 54.
Frequency: Annual.
Total Responses: 108.
Average Time per Response: 56 hours.
Total Burden Hours: 3,024.
Total Burden Cost (Capital/Startup): 0.

Total Burden Cost (Operating/Maintaining): \$108.

Dated: May 20, 2004.

Grace Kilbane,

Administrator, Office of Workforce Investment.

BILLING CODE 4510-30-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (04-071)]

NASA Advisory Council, Planetary Protection Advisory Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council (NAC), Planetary Protection Advisory Committee (PPAC).

DATES: Thursday, June 10, 2004, 8:30 a.m. to 5:30 p.m., Friday, June 11, 2004, 8:30 a.m. to 5 p.m.

ADDRESSES: National Aeronautics and Space Administration, 300 E Street, SW., Room 9H40, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Ms. Marian Norris, Code SB, National Aeronautics and Space Administration, Washington, DC 20546, (202) 358-4452, e-mail mnorris@nasa.gov.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the capacity of the room. The agenda for the meeting includes the following topics:

- Mars Forward Contamination
- Missions to Outer Planets
- Sample Return Planning
- Standard Methods for Microbial Enumeration
- The Vision for Space Exploration and Planetary Protection

Attendees will be requested to sign a register and to comply with NASA security requirements, including the presentation of a valid picture ID, before receiving an access badge. Foreign nationals attending this meeting will be required to provide the following information: full name; gender; date/place of birth; citizenship; visa/green card information (number, type, expiration date); passport information (number, country, expiration date); employer/affiliation information (name of institution, address, country, phone); title/position of attendee. To expedite admittance, attendees can provide identifying information in advance by contacting Marian Norris via e-mail at mnorris@nasa.gov or by telephone at (202) 358-4452.

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants.

R. Andrew Falcon,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

BILLING CODE 7510-01-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency has submitted to OMB for approval the information collection described in this notice. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted to OMB at the address below on or before June 28, 2004 to be assured of consideration.

ADDRESSES: Comments should be electronically mailed to: Jonathan_P._Womer@omb.eop.gov; or faxed to 202-395-5806, Attn: Mr. Jonathan Womer, Desk Officer for NARA.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-837-3213.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on March 11, 2004 (69 FR 11667 and 11668). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Item Approval Request List.

OMB number: 3095-0025.

Agency form number: NA Form 14110 and 14110A.

Type of review: Regular.

Affected public: Business or for-profit, nonprofit organizations and institutions, Federal, State and local government agencies, and individuals or households.

Estimated number of respondents: 2,816.

Estimated time per response: 15 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 704 hours.

Abstract: The information collection is prescribed by 36 CFR 1254.72. The collection is prepared by researchers who cannot visit the appropriate NARA research room or who request copies of records as a result of visiting a research room. NARA offers limited provisions to obtain copies of records by mail and requires requests to be made on prescribed forms for certain bodies of records. NARA uses the Item Approval Request List form to track reproduction requests and to provide information for customers and vendors.

Dated: May 20, 2004.

L. Reynolds Cahoon,

Assistant Archivist for Human Resources and Information Services.

[FR Doc. 04-12005 Filed 5-26-04; 8:45 am]

BILLING CODE 7515-01-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before July 12, 2004. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means:

Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001.

E-mail: records.mgt@nara.gov.

FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must

provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Paul M. Wester, Jr., Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-3120. E-mail: records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records.

Further information about the disposition process is available on request.

Schedules Pending:

1. Department of Defense, National Geospatial-Intelligence Agency (N1-537-04-1, 6 items, 3 temporary items). Files accumulated by individual members of agency committees. Also included are electronic copies of documents created using word processing and electronic mail. Proposed for permanent retention are recordkeeping copies of mission program and policy files, agreement files, and committee files accumulated by the committee's sponsor or secretariat. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

2. Department of Homeland Security, Transportation Security Administration (N1-560-04-6, 5 items, 5 temporary items). Subject and reference files accumulated by the Office of Legislative Affairs. Also included are electronic copies of records created using electronic mail and word processing.

3. Department of Justice, Federal Bureau of Prisons (N1-129-04-01, 4 items, 4 temporary items). Inputs, outputs, data files, and documentation associated with an electronic system that contains financial and accounting data for payable and receivable accounts, factory inventories, production schedules, and other management information relating to Federal Prison Industries.

4. Department of Justice, Federal Bureau of Prisons (N1-129-04-2, 4 items, 4 temporary items). Inputs, outputs, data files, and documentation associated with the National Institute of Correction's Registrar Database, which is used to administer training programs.

5. Department of Justice, Federal Bureau of Prisons (N1-129-04-3, 4 items, 4 temporary items). Inputs, outputs, data files, and documentation associated with the National Institute of Correction's Information Center Library Database, which serves as the library's online catalog.

6. Department of Justice, Federal Bureau of Prisons (N1-129-04-4, 5 items, 5 temporary items). Inputs, outputs, data files, and documentation associated with the National Institute of Correction's Information Center Requestor Database, which is used to manage requests for information. Also included are electronic copies of records created using electronic mail and word processing.

7. Department of Justice, Federal Bureau of Prisons (N1-129-04-5, 4 items, 4 temporary items). Inputs,

outputs, data files, and documentation associated with the National Institute of Correction's Information Center Research Databases, which contain information concerning corrections facilities and corrections programs.

8. Department of the Treasury, Bureau of the Public Debt (N1-53-04-2, 1 item, 1 temporary item). Daily accounting transactions processed by the Customer Accounting Branch. Included are records relating to such matters as staledated and returned payments, redemption of accrual savings bonds and income bonds, and other financial transactions.

9. Department of the Treasury, Bureau of the Public Debt (N1-53-04-3, 2 items, 2 temporary items). Records maintained at Federal Reserve Banks relating to the savings bond program consisting of bond owners' change of address requests and documents relating to payroll savings bonds arrangements between companies and the Government.

10. Department of the Treasury, Bureau of the Public Debt (N1-53-04-4, 2 items, 2 temporary items). Security copies of retired savings securities maintained as scanned images or on microfilm.

11. Department of the Treasury, Bureau of the Public Debt (N1-53-04-5, 1 item, 1 temporary item). Forms used to certify whether or not departing employees have removed non-record documents when they separate from the agency.

12. Department of the Treasury, Bureau of Engraving and Printing (N1-318-04-24, 41 items, 40 temporary items). Records relating to environmental matters, safety, and employee health. Records relate to such subjects as waste management, lead abatement, hazardous material removal, employee accident reporting, and clean air emissions reporting. Also included are records created using electronic mail and word processing. Proposed for permanent retention are recordkeeping copies of environmental assessment reports.

13. Office of Personnel Management, Center for Federal Investigative Services (N1-478-04-1, 2 items, 2 temporary items). Files relating to investigations. This schedule reduces the retention period of these records, which were previously approved for disposal.

Dated: May 19, 2004.

Michael J. Kurtz,

*Assistant Archivist for Records Services—
Washington, DC.*

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Advisory Committee on the Records of Congress; Meeting

AGENCY: National Archives and Records Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, the National Archives and Records Administration (NARA) announces a meeting of the Advisory Committee on the Records of Congress. The committee advises NARA on the full range of programs, policies, and plans for the Center for Legislative Archives in the Office of Records Services.

DATES: June 7, 2004 from 10 a.m. to 11 a.m.

ADDRESSES: The U.S. Capitol Building, Room S-219, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Richard H. Hunt, Director; Center for Legislative Archives; (202) 501-5350.

SUPPLEMENTARY INFORMATION:

Agenda

Capitol Visitor Center Orientation Film;
Electronic Records Archives;
Senate Legislative Information Project;
Pilot of Document Management System for Senate Offices and the Ohio Congressional Archives;
Activities report of the Center for Legislative Archives; and
Other current issues and new business.

The meeting is open to the public.

Dated: May 21, 2004.

Mary Ann Hadyka,

Committee Management Officer.

BILLING CODE 7515-01-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (P.L. 95-541)

AGENCY: National Science Foundation.

ACTION: Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, P.L. 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title

45 Part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by June 28, 2004. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Nadene G. Kennedy at the above address or (703) 292-7405

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas as requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

The applications received are as follows:

1. *Applicant:* Permit Application No. 2005-005, Ron Naveen, President, Oceanites, Inc., P.O. Box 15259, Chevy Chase, MD 20825.

Activity for Which Permit is Requested: Enter Antarctic Specially Protected Area. The applicant plans to continue his work of conducting site surveys/censuses of heavily visited tourist sites located in the Antarctic Peninsula. Access to the sites will be via expedition tour ships and the Royal Navy vessel *HMS Endurance*. The applicant also plans to enter ASPA 128 (Western Shore of Admiralty Bay, King George Island), and ASPA 149 (Cape Shirreff, Livingston Island) on occasion when logistics considerations may necessitate a visit to, or coordination with, researchers working at those sites.

Location: Antarctica Peninsula visitor sites, ASPA 128—Western Shore of Admiralty Bay, King George Island, and ASPA 149—Cape Shirreff, Livingston Island.

Dates: September 1, 2004 to August 31, 2008.

2. *Applicant:* Permit Application No. 2005-006, Rudolf S. Scheltema, Biology Department, Woods Hole Oceanographic Institution, Woods Hole, MA 02543.

Activity for Which Permit is Requested: Introduce non-indigenous species to Antarctica. The applicant plans to import algal cultures (*Thalassiorira pseudomonas*, *Isochrysis galbana*, and *Dunaliella teriolecta*) to be used in rearing the larvae of indigenous benthic invertebrates collected in Antarctic waters. The living larvae taken from Zooplankton samples are to be reared in the ship's laboratory using the three unicellular species of algae as a source of food. The study will deal with the identification of larvae and life history of benthic invertebrates in the region of the South Shetland Islands. After completion of the study the algal cultures will be disposed of by heat sterilization.

Location: South Shetland Islands region.

Dates: November 22, 2004 to December 23, 2004.

Nadene G. Kennedy,
Permit Officer, Office of Polar Programs.
[FR Doc. 04-11942 Filed 5-26-04; 8:45 am]

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* NRC Form 136, "Security Termination Statement"; NRC Form 237, "Request for Access Authorization"; and NRC Form 277, "Request for Visit".

3. *The form number if applicable:* NRC Form 136; NRC Form 237; and NRC Form 277.

4. *How often the collection is required:* On occasion.

5. *Who will be required or asked to report:* NRC Form 136, any employee of 68 licensees and 7 contractors, who have been granted an NRC access authorization; NRC Form 237, any employee of approximately 68 licensees and 7 contractors who will require an NRC access authorization. NRC Form 277, any employee of 2 current NRC contractors who holds an NRC access authorization, and needs to make a visit to NRC, other contractors/licensees or government agencies in which access to classified information will be involved or unescorted area access is desired.

6. *An estimate of the number of annual responses:* NRC Form 136: 225; NRC Form 237: 420; and NRC Form 277: 6.

7. *The estimated number of annual respondents:* NRC Form 136: 75; NRC Form 237: 75; and NRC Form 277: 2.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* NRC Form 136: 23; NRC Form 237: 84; and NRC Form 277: 1.

9. *An indication of whether section 3507(d), Pub. L. 104-13 applies:* N/A.

10. *Abstract:* The NRC Form 136 affects the employees of licensees and contractors who have been granted an NRC access authorization. When access authorization is no longer needed, the completion of the form apprizes the respondents of their continuing security responsibilities. The NRC Form 237 is completed by licensees, NRC contractors or individuals who require an NRC access authorization. The NRC Form 277 affects the employees of contractors who have been granted an NRC access authorization and require verification of that access authorization and need-to-know in conjunction with a visit to NRC or another facility.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC World Wide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by June 28, 2004. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date. OMB Desk Officer, Office of Information and Regulatory Affairs (3150-0049; -0050; and -0051), NEOB-

10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3087.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-259, 50-260, and 50-296]

Tennessee Valley Authority; Notice of Extension of the Scoping Comment Period for the Environmental Impact Statement for the License Renewal of Browns Ferry Nuclear Plant, Units 1, 2, and 3

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has extended the public comment period for the draft plant-specific supplement to the "Generic Environmental Impact Statement (GEIS), NUREG-1437," regarding the renewal of operating licenses DPR-33, DPR-52, and DPR-68 for an additional 20 years of operation at the Browns Ferry Nuclear Plant, Units 1, 2, and 3 (BFN).

The application for renewal was received on January 6, 2004, pursuant to 10 CFR part 54. A notice of receipt and availability of the application, which included the environmental report (ER), was published in the **Federal Register** on January 13, 2004, (69 FR 1012). A notice of intent to prepare an environmental impact statement and conduct scoping process (69 FR 11462) and a notice of acceptance for docketing and notice of opportunity for hearing (69 FR 11460) regarding renewal of the facility operating license were published in the **Federal Register** on March 10, 2004. The purpose of this notice is to inform the public that the U.S. Nuclear Regulatory Commission (NRC) has extended the comment period on the environmental scope of the BFN license renewal review in response to a request from a member of the public. In view of the importance of meaningful stakeholder input on the environmental scope of the BFN license renewal review, the NRC has decided to extend the comment period.

Any interested party may submit comments on the environmental scope of the BFN license renewal review for

consideration by the NRC staff. To be certain of consideration, comments on the draft supplement to the GEIS and the proposed action must be received by June 4, 2004. Comments received after the due date will be considered if it is practical to do so, but the NRC staff is able to assure consideration only for comments received on or before this date. Written comments on the environmental scope of the BFN license renewal review should be sent to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59 U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Comments may also be delivered to the NRC, Room T-6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:45 a.m. to 4:15 p.m. on Federal workdays. Electronic comments may be sent by the Internet to the NRC at BrownsFerryEIS@nrc.gov. All comments received by the Commission, including those made by Federal, State, and local agencies, Indian tribes, or other interested persons, will be made available electronically and accessible through ADAMS at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS, or encounter problems in accessing the documents located in ADAMS, should contact the NRC's Public Document Room reference staff at 1-800-397-4209, or (301) 415-4737, or by e-mail to pdr@nrc.gov.

FOR FURTHER INFORMATION CONTACT: Dr. Michael T. Masnik, License Renewal and Environmental Impacts Program, Division of Regulatory Improvement Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Dr. Masnik may also be contacted at the aforementioned telephone number or e-mail address.

Dated at Rockville, Maryland, this 20th day of May, 2004.

For the Nuclear Regulatory Commission.

K. Steven West,

Acting Program Director, License Renewal and Environmental Impacts Program, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

[FR Doc. 04-11990 Filed 5-26-04; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Meeting of the ACRS Subcommittee on Plant Operations; Notice of Meeting

The ACRS Subcommittee on Plant Operations meeting on June 10, 2004, Region III, 2443 Warrenville Road, Lisle, Illinois.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Thursday, June 10, 2004—8:30 a.m. Until the Conclusion of Business

The Subcommittee will hear presentations by and hold discussions with representatives of the NRC Region III staff and other interested persons regarding matters related to plant and the region's operations. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Members of the public desiring to provide oral statements and/or written comments should notify the Designated Federal Official, Ms. Maggalean W. Weston (telephone 301-415-3151) five days prior to the meeting, if possible, so that appropriate arrangements can be made. Electronic recordings will be permitted.

Further information regarding this meeting can be obtained by contacting the Designated Federal Official between 8 a.m. and 5:30 p.m. (e.t.). Persons planning to attend this meeting are urged to contact the above named individual at least two working days prior to the meeting to be advised of any potential changes to the agenda.

Dated: May 20, 2004.

Ralph Caruso,

Acting Associate Director for Technical Support, ACRS/ACNW.

[FR Doc. 04-11988 Filed 5-26-04; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Notice of Opportunity To Comment on Model Safety Evaluation on Technical Specification Improvement Regarding Revision to the Control Rod Scram Time Testing Frequency in STS 3.1.4, "Control Rod Scram Times" for General Electric Boiling Water Reactors Using the Consolidated Line Item Improvement Process

AGENCY: Nuclear Regulatory Commission.

ACTION: Request for comment.

SUMMARY: Notice is hereby given that the staff of the Nuclear Regulatory Commission (NRC) has prepared a model safety evaluation (SE) relating to changing the testing frequency for the surveillance requirement (SR) in Standard Technical Specifications (STS) 3.1.4, "Control Rod Scram Times." The proposed change revises the test frequency of SR 3.1.4.2, control rod scram time testing, from "120 days cumulative operation in MODE 1" to "200 days cumulative operation in MODE 1" via changes to the NUREG-1433 (BWR/4) and NUREG-1434 (BWR/6). The Owners Group participants in the Technical Specification Task Force (TSTF) proposed this change to the STS in the Improved Standard Technical Specifications Change Traveler TSTF-460, Revision 0¹. This notice also includes a model no significant hazards consideration (NSHC) determination relating to this matter.

The purpose of these models is to permit the NRC to efficiently process amendments to incorporate this change into plant-specific Technical Specifications (TSs) for General Electric (GE) boiling water reactors (BWRs). Licensees of nuclear power reactors to which the models apply could request amendments conforming to the models. In such a request, a licensee should confirm the applicability of the SE and NSHC determination to its reactor. The NRC staff is requesting comments on the model SE and model NSHC determination before announcing their availability for referencing in license amendment applications.

DATES: The comment period expires June 28, 2004. Comments received after this date will be considered if it is practical to do so, but the Commission

¹ In conjunction with the proposed change, technical specifications (TS) requirements for a bases control program, consistent with the TS Bases Control Program described in Section 5.5 of the applicable vendor's standard TS, shall be incorporated into the licensee's TS, if not already in the TS.

is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Comments may be submitted either electronically or via U.S. mail.

Submit written comments to: Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mail Stop: T-6 D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Hand deliver comments to: 11545 Rockville Pike, Rockville, Maryland, between 7:45 a.m. and 4:15 p.m. on Federal workdays.

Copies of comments received may be examined at the NRC's Public Document Room, One White Flint North, Public File Area O1-F21, 11555 Rockville Pike (first floor), Rockville, Maryland.

Comments may be submitted by electronic mail to CLIP@nrc.gov.

FOR FURTHER INFORMATION CONTACT: Bhalchandra Vaidya, Mail Stop: O-7D1, Division of Licensing Project Management, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone (301) 415-3308, or William Reckley at (301) 415-1323.

SUPPLEMENTARY INFORMATION:

Background

Regulatory Issue Summary 2000-06, "Consolidated Line Item Improvement Process for Adopting Standard Technical Specification Changes for Power Reactors," was issued on March 20, 2000. The Consolidated Line Item Improvement Process (CLIP) is intended to improve the efficiency and transparency of NRC licensing processes. This is accomplished by processing proposed changes to the STS in a manner that supports subsequent license amendment applications. The CLIP includes an opportunity for the public to comment on proposed changes to the STS following a preliminary assessment by the NRC staff and a finding that the change will likely be offered for adoption by licensees. This notice is soliciting comment on a proposed change to the SR in STS 3.1.4 "Control Rod Scram Times." The proposed change revises the test frequency of SR 3.1.4.2, control rod scram time testing, from "120 days cumulative operation in MODE 1" to "200 days cumulative operation in MODE 1" via changes to the NUREG-1433 and NUREG-1434 for the GE STS. The CLIP directs the NRC staff to evaluate any comments received for a proposed change to the STS and to either reconsider the change or proceed with announcing the availability of the

change for proposed adoption by licensees. Those licensees opting to apply for the subject change to TSs are responsible for reviewing the staff's evaluation, referencing the applicable technical justifications, and providing any necessary plant-specific information. Each amendment application made in response to the notice of availability would be processed and noticed in accordance with applicable rules and NRC procedures.

NUREG-1433, SR 3.1.4.2 states, "Verify, for a representative sample, each tested control rod scram time is within the limits of Table 3.1.4-1 with reactor steam dome pressure \geq [800] psig." NUREG-1434, SR 3.1.4.2 states, "Verify, for a representative sample, each tested control rod scram time is within the limits of Table 3.1.4-1 with reactor steam dome pressure \geq [950] psig." Both SRs have a frequency of "120 days cumulative operation in MODE 1." The proposed change revises the frequency to "200 days cumulative operation in MODE 1." The Bases are revised to reference the new frequency and to reduce the percentage of the tested rods which can be "slow" from 20 percent to 7.5 percent.

Industry operating experience has shown the control rod scram times to be highly reliable. For example, at the Grand Gulf Nuclear Station, out of 7,660 control rod insertion tests, only 12 control rods have been slower than the insertion time limit (with the exception of test data from an anomalous cycle). The control rod drive system has shown to be highly reliable. This high reliability supports the extension of the surveillance frequency from 120 days of cumulative operation in Mode 1 to 200 days. The current TS Bases states that the acceptance criteria have been met if 20 percent or fewer of the random sample control rods that are tested within the 120-day surveillance period are found to be slow. The Bases are revised to change the control rod insertion time acceptance criterion for percentage of slow rods allowed, reducing the value to 7.5 percent of the random at-power surveillance sample when the surveillance period is extended to 200 cumulative days of operation in Mode 1. The more restrictive 7.5 percent acceptance criterion for testing the random sample is consistent with the TS 3.1.4 objective of ensuring that no more than a small percentage of control rods are slow at any given time.

Applicability

This proposed change to revise the TS testing frequency for the SR 3.1.4.2 in

STS 3.1.4 is applicable to GE BWR/4s and BWR/6s².

To efficiently process the incoming license amendment applications, the staff requests each licensee applying for the changes addressed by TSTF-460 using the CLIP to address the plant-specific verifications identified in the model SE. Namely, each licensee submitting amendments to extend the surveillance frequency should demonstrate the reliability of the control rod insertion system based on historical control rod scram time test data, and by the more restrictive acceptance criterion for the number of slow rods allowed during at-power surveillance testing.

The CLIP does not prevent licensees from requesting an alternative approach or proposing the changes without the requested verifications. Variations from the approach recommended in this notice may, however, require additional review by the NRC staff and may increase the time and resources needed for the review.

Public Notices

This notice requests comments from interested members of the public within 30 days of the date of publication in the **Federal Register**. Following the staff's evaluation of comments received as a result of this notice, the staff may reconsider the proposed change or may proceed with announcing the availability of the change in a subsequent notice (perhaps with some changes to the SE or proposed NSHC determination as a result of public comments). If the staff announces the availability of the change, licensees wishing to adopt the change will submit an application in accordance with applicable rules and other regulatory requirements. The staff will in turn issue for each application a notice of consideration of issuance of amendment to facility operating license(s), a proposed NSHC determination, and an opportunity for a hearing. A notice of issuance of an amendment to operating license(s) will also be issued to announce the revised requirements for each plant that applies for and receives the requested change.

Proposed Safety Evaluation

Nuclear Regulatory Commission,
Office of Nuclear Reactor Regulation,
Consolidated Line Item Improvement,
Technical Specification Task Force

² Although TSTF-460 includes 200 days in brackets indicating a plant-specific value, proposed changes exceeding 200 days will require additional review and may result in the proposed amendment being processed using routine review procedures instead of using the CLIP.

(TSTF) Change TSTF-460, "Control Rod Scram Time Testing Frequency."

1.0 Introduction

By application dated [Date], [Licensee] (the licensee) requested changes to the Technical Specifications (TSs) for [facility]. The proposed changes would revise TS testing frequency for the surveillance requirement (SR) in TS 3.1.4, "Control Rod Scram Times."

These changes are based on Technical Specifications Task Force (TSTF) change traveler TSTF-460 (Revision 0) that has been approved generically for the boiling water reactor (BWR) Standard TSs, NUREG-1433 (BWR/4) and NUREG-1434 (BWR/6) by revising the frequency of SR 3.1.4.2, control rod scram time testing, from "120 days cumulative operation in MODE 1" to "200 days cumulative operation in MODE 1." A notice announcing the availability of this proposed TS change using the consolidated line item improvement process was published in the **Federal Register** on [DATE] (XX FR XXXXXX).

2.0 Regulatory Evaluation

The TS governing the control rod scram time surveillance is intended to assure proper function of control rod insertion. Following each refueling outage, all control rod scram times are verified. In addition, periodically during power operation, a representative sample of control rods is randomly selected to be partially inserted to verify the insertion speed. A representative sample is defined as a sample containing at least 10 percent of the total number of control rods. The current TS stipulates that no more than 20 percent of the control rods in this representative sample can be "slow" during the post outage testing. With more than 20 percent of the sample declared to be "slow" per the criteria in Table 3.1.4-1, additional control rods are tested until this 20 percent criterion (e.g., 20 percent of the entire sample size) is satisfied, or until the total number of "slow" control rods (throughout the core, from all surveillances) exceeds the Limiting Condition for Operation limit. For planned testing, the control rods selected for the sample should be different for each test. The acceptance criterion for at-power surveillance testing has been redefined from 20 percent to 7.5 percent. This tightened acceptance criterion for at-power surveillance aligns with the TS 3.1.4 requirement for the total control rods allowed to have scram times exceeding the specified limit.

The proposed change does not affect any current operability requirements and the test frequency being revised is not specified in regulations. As a result, no regulatory requirements or criteria are affected.

3.0 Technical Evaluation

3.1 Statement of Proposed Changes

NUREG-1433, SR 3.1.4.2 states, "Verify, for a representative sample, each tested control rod scram time is within the limits of Table 3.1.4-1 with reactor steam dome pressure \geq [800] psig." NUREG-1434, SR 3.1.4.2 states, "Verify, for a representative sample, each tested control rod scram time is within the limits of Table 3.1.4-1 with reactor steam dome pressure \geq [950] psig." Both SRs have a frequency of "120 days cumulative operation in MODE 1." The proposed change revises the frequency to "200 days cumulative operation in MODE 1." The Bases are revised to reference the new frequency and to reduce the percentage of the tested rods which can be "slow" from 20 percent to 7.5 percent.

3.2 Evaluation of Proposed Change

Over the course of the operating life of [Plant Name], the control rod insertion time test results have shown the control rod scram rates to be highly reliable. During [XXX] years of operation, out of [XXX] control rod insertion tests, only [XXX] control rods have been slower than the insertion time limit. The extensive historical database substantiates the claim of high reliability of the [Plant Name] control rod drive system. The current TS requires that 10 percent of the [XXX] control rods, or [XXX] rods, be tested via random sampling every 120 cumulative days of operation in Mode 1.

The current TS states that the acceptance criteria have been met if 20 percent or fewer of the random sample control rods that are tested are found to be slow. The acceptance criterion has been re-defined for at-power surveillance testing from 20 percent to 7.5 percent when the surveillance period is extended to 200 cumulative days of operation in Mode 1. This tightened acceptance criterion for at-power surveillance aligns with the TS 3.1.4 requirement for the total control rods allowed to have scram times exceeding the specified limit.

The licensee will incorporate the revised acceptance criterion value of 7.5 percent into the TS Bases at the next periodic update in accordance with

their Bases Control Program and as a condition of this license amendment.³

The NRC staff considers the extended surveillance interval to be justified by the demonstrated reliability of the control rod insertion system, based on historical control rod scram time test data, and by the more restrictive acceptance criterion for the number of slow rods allowed during at-power surveillance testing. The NRC staff finds the proposed TS change acceptable.

4.0 State Consultation

In accordance with the Commission's regulations, the [State] State official was notified of the proposed issuance of the amendments. The State official had [choose one: (1) no comments, or (2) the following comments—with subsequent disposition by the staff].

5.0 Environmental Consideration

The amendment changes a requirement with respect to the installation or use of a facility component located within the restricted area as defined in 10 CFR Part 20 and changes surveillance requirements. The NRC staff has determined that the amendments involve no significant increase in the amounts and no significant change in the types of any effluents that may be released offsite, and that there is no significant increase in individual or cumulative occupational radiation exposure. The Commission has previously issued a proposed finding that the amendments involve no significant hazards consideration, and there has been no public comment on such finding (XX FR XXXXX). Accordingly, the amendment meets the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9). Pursuant to 10 CFR 51.22(b) no environmental impact statement or environmental assessment need be prepared in connection with the issuance of the amendment.

6.0 Conclusion

The Commission has concluded, based on the considerations discussed above, that: (1) There is reasonable assurance that the health and safety of the public will not be endangered by the operation in the proposed manner, (2) such activities will be conducted in

compliance with the Commission's regulations, and (3) the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public.

Proposed No Significant Hazards Consideration Determination

Description of Amendment Request: The proposed amendment changes the Technical Specification (TS) testing frequency for the surveillance requirement (SR) in TS 3.1.4, "Control Rod Scram Times". The proposed change revises the test frequency of SR 3.1.4.2, control rod scram time testing, from "120 days cumulative operation in MODE 1" to "200 days cumulative operation in Mode 1."

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), an analysis of the issue of no significant hazards consideration is presented below:

1. Does the change involve a significant increase in the probability or consequences of an accident previously evaluated?

Response: No.

The proposed change extends the frequency for testing control rod scram time testing from every 120 days of cumulative Mode 1 operation to 200 days of cumulative Mode 1 operation. The frequency of surveillance testing is not an initiator of any accident previously evaluated. The frequency of surveillance testing does not affect the ability to mitigate any accident previously evaluated, as the tested component is still required to be operable. Therefore, the proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Does the change create the possibility of a new or different kind of accident from any accident previously evaluated?

Response: No.

The proposed change extends the frequency for testing control rod scram time testing from every 120 days of cumulative Mode 1 operation to 200 days of cumulative Mode 1 operation. The proposed change does not result in any new or different modes of plant operation. Therefore, the proposed change does not create the possibility of a new or different kind of accident from any previously evaluated.

3. Does the proposed change involve a significant reduction in a margin of safety?

Response: No.

The proposed change extends the frequency for testing control rod scram

time testing from every 120 days of cumulative Mode 1 operation to 200 days of cumulative Mode 1 operation. The proposed change continues to test the control rod scram time to ensure the assumptions in the safety analysis are protected. Therefore, the proposed change does not involve a significant reduction in a margin of safety.

Based on the above, the proposed change presents no significant hazards consideration under the standards set forth in 10 CFR 50.92(c), and accordingly, a finding of "no significant hazards consideration" is justified.

Dated in Rockville, Maryland, this 20th day of May, 2004.

For the Nuclear Regulatory Commission.

Robert A. Gramm,

Chief, Section 1, Project Directorate IV, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

OFFICE OF MANAGEMENT AND BUDGET

Public Availability of Fiscal Year (FY) 2003 Agency Inventories Under the Federal Activities Inventory Reform Act of 1998 (Public Law 105-270) ("FAIR Act")

AGENCY: Office of Management and Budget; Executive Office of the President.

ACTION: Notice of public availability of agency inventory of activities that are not inherently governmental and of activities that are inherently governmental.

SUMMARY: In accordance with the FAIR Act, agency inventories of activities that are not inherently governmental are now available to the public from the agencies listed below for FY 2003. The FAIR Act requires that OMB publish each fiscal year an announcement of public availability of agency inventories of activities that are not inherently governmental. After review and consultation with OMB, agencies are required to make their inventories available to the public. Agencies have also included activities that are inherently governmental. This is the third release of the FAIR Act inventories for FY 2003. Interested parties who disagree with the agency's initial judgment can challenge the inclusion or the omission of an activity on the list of activities that are not inherently governmental and, if not satisfied with this review, may demand a higher agency review/appeal.

³ Conditioning of the license amendment is accomplished by including wording similar to the following in the implementation language (typically included as item 3) in the Amendment of Facility Operating License:

This license amendment is effective as of its date of issuance and shall be implemented within [XX] days from the date of issuance. The licensee shall incorporate during the next periodic update into the TS Bases Section the changes described in its application dated [Date].

The Office of Federal Procurement Policy has made available a FAIR Act User's Guide through its Internet site: <http://www.whitehouse.gov/OMB/>

[procurement/fair-index.html](#). This User's Guide will help interested parties review FY 2003 FAIR Act inventories

and gain access to agency inventories through agency web-site addresses.

Joshua B. Bolten,
Director.

SECURITIES AND EXCHANGE COMMISSION

Sunshine Act; Meeting

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meeting during the week of May 31, 2004:

An Open Meeting will be held on Wednesday, June 2, 2004 at 10 a.m. in Room 1C30, the William O. Douglas Room.

The subject matter of the Open Meeting scheduled for Wednesday, June 2, 2004 will be:

1. The Commission will consider whether to propose new Regulation B, which, among other things, would

re designate and amend definitions and exemptions relating to the exceptions for banks from the definition of "broker" in the Securities Exchange Act of 1934 adopted by the Commission on an interim final basis in 2001 and provide additional exemptions for banks from this definition.

For further information, please contact Joseph Corcoran (202) 942-0756 or Brice Prince at (202) 942-0759.

At times, changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact:

The Office of the Secretary at (202) 942-7070.

Dated: May 25, 2004.

Jill M. Peterson,
Assistant Secretary.

BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 35-27847]

Filings Under the Public Utility Holding Company Act of 1935, as Amended ("Act")

May 21, 2004.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated under the Act. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed

transaction(s) summarized below. The application(s) and/or declaration(s) and any amendment(s) is/are available for public inspection through the Commission's Branch of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by June 15, 2004, to the Secretary, Securities and Exchange Commission, Washington, DC 20549-0609, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for hearing should identify specifically the issues of facts or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After June 15, 2004, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

Connecticut Light and Power Company, et al. (70-9905)

The Connecticut Light and Power Company ("CL&P"), a wholly owned electric utility subsidiary of Northeast Utilities, a public utility holding company, and CL&P Receivables Corporation ("CRC"), a wholly-owned special purpose subsidiary of CL&P, both located at 107 Selden Street, Berlin, Connecticut 06037-5457, have filed a declaration under section 12(c) and rules 46 and 54 of the Act.

By orders dated September 29, 1997 and October 15, 2001 (Holding Co. Act Release Nos. 26761 and 27453) ("Orders"), the Commission authorized CL&P to organize CRC to engage in an accounts receivable purchase and sale program through July 8, 2004, and to, among other things, permit CRC to pay CL&P dividends out of capital from time-to-time to achieve the optimum balance of capital to achieve economic efficiency ("Program"). CL&P and CRC now propose to extend the Program through July 3, 2007, under the same terms and conditions.

The Program consists of two agreements. Under the first agreement, between CL&P and CRC ("Company Agreement"), CL&P sells or transfers as equity contributions from time-to-time all eligible categories of its billed and unbilled accounts received ("Receivables") and related assets ("Related Assets") to CRC. The purchase price paid by CRC for any Receivables and Related Assets takes into account historical loss statistics on CL&P's

receivables pool and the purchaser's ("Purchaser") cost of funds. Under the second agreement ("CRC Agreement"), CRC sells fractional undivided interests ("Receivable Interests") in the Receivables to the Purchaser from time-to-time.

The availability of Receivables and Related Assets varies from time-to-time in accordance with electric energy use by CL&P's customers. As a result of this and certain other factors, the funds CRC has available to make a purchase at any time may not match the cost of Receivables and Related Assets available. The Program includes certain mechanisms to accommodate this mismatch. When the amount of Receivables and Related Assets originated by CL&P exceeds the amount of cash CRC has available, either CRC will make the purchase and owe the balance of the purchase price to CL&P on a deferred basis (the unpaid portion will accrue interest or the purchase price will involve a discount to reflect the deferral), or CL&P will make a capital contribution to CRC in the form of the Receivables and Related Assets for which CRC lacks purchase price funds at that time. Conversely, if CRC develops a substantial cash balance (due to collections of previously transferred Receivables exceeding the balance of newly created Receivables available for purchase), CRC will likely dividend the excess cash to CL&P. These dividends may represent a return of previous capital contributions by CL&P to CRC. Through these mechanisms, CRC does not itself retain substantial cash balances at any time and substantially all cash realized from the collection of the Receivables (net of the costs of the program and any reductions in the outstanding balance of Receivable Interests) is made available to CL&P.

CL&P and CRC will continue to be obligated to reimburse the Purchaser and its agent ("Agent") for various costs and expenses associated with the Company Agreement and the CRC Agreement upon extension of the Program. CRC will also continue to be required to pay to the Agent certain fees for services in connection with these agreements.

CL&P is working with the parties to the agreements to extend the Program through July 3, 2007. CRC may, following written notice to the Agent, terminate in whole or reduce in part the unused portion of its purchase limit in accordance with the terms and conditions of the CRC Agreement. The CRC Agreement allows the Purchaser to assign all of its rights and obligations under the CRC Agreement (including its Receivable Interests and the obligations

to fund Receivable Interests) to other persons. However, any assignment will not change the nature of the obligations of CL&P or CRC under the Company Agreement and the CRC Agreement.

Allegheny Energy Inc. (70-10178)

Allegheny Energy Inc. ("Allegheny"), a registered holding company, 10435 Downsville Pike, Hagerstown, Maryland 21740, has filed an application-declaration ("Application") under sections 6(a)2 and 7 of the Act and rule 54 under the Act.

Allegheny proposes to eliminate a stockholder protection rights plan ("Plan") previously authorized by the Commission by order dated July 23, 1999 (Holding Co. Act Release No. 27052) ("Plan Order"). Under the Plan, the Allegheny Board of Directors ("Board") declared a dividend of one right ("Right") for each outstanding share of Allegheny common stock, par value \$1.25 per share ("Common Stock"), payable to all stockholders of record on May 16, 2000. Allegheny now proposes to eliminate these Rights and terminate the Plan.

Allegheny initially adopted the Plan in order to discourage abusive takeover tactics and to ensure that each shareholder is treated fairly in any transaction involving an acquisition of control over Allegheny. The Plan was implemented according to a rights agreement ("Rights Agreement") between Allegheny and ChaseMellon Shareholder Services, Inc. ("Rights Agent"). In particular, the Rights Agreement was designed to create the possibility that Allegheny's stockholders, by exercising their Rights, would be able to increase substantially the cost of acquiring more than 15% of Allegheny's outstanding Common Stock.

Shareholder proposals were submitted at Allegheny's annual meetings in May of 2001 and 2002, seeking to make the adoption or maintenance of a "poison pill" subject to shareholder approval. Each year, the proposal received the affirmative vote of more than 50 percent of the votes cast; therefore, the Nominating and Corporate Governance Committee of the Board reconsidered the appropriateness of the Plan and, in July 2003, recommended to the Board that the Rights and the Plan be terminated. The Board approved that recommendation.

I. Description of Rights Being Eliminated

A. Exercise Price

The Rights created under the Rights Agreement entitle the holders to purchase one share of Common Stock at

a pre-determined exercise price ("Exercise Price"), subject to adjustment. The Rights, currently held by owners of Allegheny's Common Stock, are not exercisable and cannot be traded without the outstanding shares of Common Stock until the occurrence of a triggering event, which is described below. At that time, the Rights would become exercisable and certificates ("Rights Certificates") representing the Rights would be distributed and would be traded independently of outstanding shares. However, the Rights would not entitle the holder to make a discounted purchase of shares of Allegheny's Common Stock or of the common stock of the person acquiring Allegheny until the occurrence of a Flip-in or Flip-over event, which are described below.

B. Triggering Events

The Rights Agreement provides that the Rights will not become exercisable (*i.e.*, Common Stock could not be purchased at the Exercise Price) until the earlier of (i) the first date, or a later date as the Board may from time to time fix, of public announcement by Allegheny that any person or group ("Acquiring Person") acquires beneficial ownership of 15% or more of Allegheny's outstanding Common Stock ("Flip-in Date") and (ii) 10 days (unless extended by the Board) after any person or group commences a tender or exchange offer which would, upon its consummation, result in that person or group becoming an Acquiring Person ("Flip-over Trigger").

C. Flip-In

Upon the occurrence of a Flip-in Date, the holders of the Rights, other than an Acquiring Person and certain transferees, whose Rights will become void, would immediately have the right to receive, for each Right exercised, Common Stock having a market value equal to two times the Exercise Price then in effect. At its option, the Board may, at any time after the Flip-In Date but before the acquirer acquires more than 50% of Common Stock, elect to exchange all Rights which have not become null for Common Stock at a ratio of one share for each Right.

D. Flip-Over

On or after the Flip-in Date, and prior to (i) Allegheny being acquired by another person or entity not controlled by Allegheny ("Acquirer") in a merger or other business combination transaction in which the Common Stock is exchanged for securities or other property and the Acquirer receives different treatment than all other holders of Common Stock, or (ii) 50%

or more of Allegheny's consolidated assets or earnings power being sold or transferred to an Acquirer, Allegheny is obligated under the Plan to enter into a supplemental agreement with the Acquirer for the benefit of the holders of the Rights providing that each holder of a Right (except Rights which previously were to be voided as set forth above) would be entitled to receive, for each Right exercised, common stock of the Acquirer having a market value equal to two times the Exercise Price then in effect.

E. Redemption of Rights

The Rights could be redeemed, as a whole, at the discretion of the Board, at a Redemption Price of \$.01 per Right, subject to adjustment. The Redemption Price shall be paid, at Allegheny's option, in cash, shares of Common Stock or other equivalent Allegheny securities, at any time prior to the close of business on the date that any person became an Acquiring Person. The Rights expire at the close of business 10 years from the date of the Rights Agreement, unless earlier redeemed or exchanged by Allegheny as described below.

F. Exchange of Shares for Rights

At any time after a Flip-in Date and prior to the time that any person (other than Allegheny and certain related entities), together with its affiliates and associates, become the beneficial owner of 50% or more of the outstanding shares of Common Stock, the Board could direct the exchange of shares of Common Stock for all of the Rights (other than Rights which have become void) at the exchange ratio of one share of Common Stock per Right, subject to adjustment.

G. Adjustment To Exercise Price

The Exercise Price payable and the number of shares of Common Stock (or other securities, as the case may be) issuable upon exercise of the Rights were subject to adjustment from time to time to prevent dilution (i) in the event of a stock dividend on, or a subdivision or combination of, the Common Stock, or (ii) upon the distribution to holders of the Common Stock of securities or assets (excluding regular periodic cash dividends) whether by dividend, reclassification, recapitalization or otherwise.

H. Termination of the Plan and the Rights Agreement

The Plan provides that Allegheny may amend the Plan without the approval of any holders of Rights prior to the Flip-In Date. Since Allegheny no longer intends that the Rights be exercisable

under the Plan or the Rights Agreement, Allegheny proposes to terminate the Rights by notice to the Rights Agent as provided in Amendment 1 to the Plan. Upon the termination of the Rights, the Plan and the Rights Agreement will be terminated. To the extent required under the Act, Allegheny requests authorization to terminate the Rights, the Plan, and the Rights Agreement.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49747; File No. SR-Amex-2003-89]

Self-Regulatory Organizations; Order Approving Proposed Rule Change and Amendments No. 1, 2, 3, 4, 5, and 6 Thereto and Notice of Filing and Order Granting Accelerated Approval to Amendment No. 7 to the Proposed Rule Change by the American Stock Exchange LLC To Implement a New Options Trading Platform Known as the Amex New Trading Environment or ANTE

May 20, 2004.

I. Introduction

On October 7, 2003, the American Stock Exchange LLC ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² a proposed rule change to adopt new rules for the implementation of its new options trading platform known as the Amex New Trading Environment or ANTE. On November 17, 2003, December 17, 2003, February 9, 2004, March 2, 2004, March 18, 2004, and March 24, 2004, the Exchange submitted Amendments No. 1, 2, 3, 4, 5, and 6 to the proposed rule change.³ The proposed rule change and

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ See letters from Claire P. McGrath, Senior Vice President and Deputy General Counsel, Amex, to Nancy Sanow, Assistant Director, Division of Market Regulation ("Division"), Commission, dated November 14, 2003 ("Amendment No. 1"); December 16, 2003 ("Amendment No. 2"); February 5, 2004 ("Amendment No. 3"); March 1, 2004 ("Amendment No. 4"); March 17, 2004 ("Amendment No. 5"); and March 23, 2004, replacing Form 19b-4 in its entirety ("Amendment No. 6").

Amendments No. 1, 2, 3, 4, 5, and 6 were published for comment in the **Federal Register** on March 31, 2004.⁴ The Commission received no comment letters with respect to the proposal, as amended. On April 19, 2004, the Amex filed Amendment No. 7 to the proposed rule change.⁵ This order approves the proposed rule change and Amendments No. 1, 2, 3, 4, 5 and 6; grants accelerated approval to Amendment No. 7 to the proposed rule change; and solicits comments from interested persons on Amendment No. 7.

II. Description of the Proposal

The Exchange proposes to implement a new trading environment (referred to hereinafter as "ANTE" or the "ANTE System") to replace many of its existing floor trading systems. Initially, ANTE would be used for the trading of standardized options on the Exchange, but would be expanded to include all of the Exchange's current and future product lines—Exchange-Traded Funds, equities and single stock futures.⁶ The ANTE System would replace many of the Exchange's current systems, including the automated quotation calculation system and specialist "book" functions such as limit order display, automatic order execution, and allocation of trades. Each floor participant would have electronic access to the ANTE System.⁷

A. ANTE Central Book and ANTE Display Book

The functions currently available in the AODB would be split between the ANTE Central Book and the ANTE Display Book. The Central Book would contain what was formerly known as the "specialist's limit order book" and would provide for the matching and execution of eligible orders similar to

the current Auto Match and Auto-Ex Systems. The Display Book would be similar to the "Acknowledgement Box" currently found in the AODB and would contain orders awaiting manual handling.⁸ Market and marketable limit orders routed to the Exchange would be sent to either the Central Book or the Display Book depending on whether the size of the order is within the size eligible for automatic matching in the Central Book (referred to as the "auto-match size"). As discussed in greater detail below, the Options Trading Committee would establish the auto-match size for each option class.⁹

B. Quote Calculation and Dissemination

Specialists and registered options traders would be able to calculate quotations using either their own proprietary automatic quotation systems or an Exchange-provided automatic quotation system. Both specialists and registered options traders would have the ability to stream quotations for each option series they trade. While specialists would continue to be required to disseminate quotations in all series of the option classes they trade, registered options traders would be able to choose whether to stream quotes with size in all or select series of the option classes they trade or join the specialist's quote.

The ANTE System would collect all of the quotes submitted by the specialist and each registered options trader, and would determine the best bid and best offer for dissemination as the Amex Best Bid and Offer ("ABBO").¹⁰ The Exchange's market data system would

continue to submit only one quote per series to the Options Price Reporting Authority. Each quote entered would have a specific participant identifier to allow the ANTE System to allocate directly contracts executed at the best bid or best offer to those participants quoting at the ABBO at the time the execution occurs. Furthermore, the ANTE System would allocate to each registered options trader only the amount of executed contracts indicated in their quote size.

C. Trading Outside the ANTE System

The Exchange would continue to maintain its floor-based auction market so that orders of size, complex orders, solicited orders, facilitation orders and other types of orders as determined by the order flow providers could potentially receive price improvement and be exposed to the auction market environment. Orders not eligible for execution through the ANTE System and orders represented by a floor broker at the specialist's post would trade in the same manner and pursuant to the same rules as they do today. Crowd trades or trades that occur outside the ANTE System would be allocated to registered options traders in the same manner as such trades are allocated today.¹¹ Paragraph (l) of Amex Rule 950-ANTE, Commentary .03 would be revised to reflect that it remains the specialist's obligation to allocate executed contracts when an execution has occurred outside the ANTE System.¹²

D. Rollout of the ANTE System

The Exchange currently anticipates to begin its rollout of the ANTE System on or about May 24, 2004 and to complete the rollout by the end of the third quarter of 2005.¹³ The Exchange plans to roll out the ANTE System on a specialist's post-by-specialist's post basis. Assuming the ANTE System performs well at the three initial specialist posts, by the end of June 2004, option classes on additional specialist's posts would begin to be rolled-out, and

⁴ See Securities Exchange Act Release No. 49465 (March 24, 2004), 69 FR 16990 ("Notice").

⁵ See letter from Claire P. McGrath, Senior Vice President and Deputy General Counsel, Amex, to Nancy Sanow, Assistant Director, Division, Commission, dated April 16, 2004, replacing the proposed rule text in its entirety ("Amendment No. 7"). In Amendment No. 7, the Exchange made minor clarifying changes to the text of proposed Amex Rule 951-ANTE, Commentary .01.

⁶ The Exchange seeks the approval of new rules and the amendment of current rules to implement ANTE in options only. Additional filings would be submitted to the Commission when the Exchange seeks to expand ANTE to other product lines.

⁷ Floor brokers would access the ANTE system through the Booth Automated Routing System ("BARS"); specialists would access the ANTE System through the Central and Display Books, described below, which would provide the functions of the existing quote calculation system (known as "XTOPS") and the Amex Options Display Book ("AODB") in one integrated system; and registered options traders would access the ANTE System through handheld devices.

⁸ Registered options traders would be able to view both the Display Book and the Central Book on their hand-held devices, giving them a complete view of the limit order book and all pending orders in each option series they trade.

⁹ Under the ANTE System, an order greater than the established auto-match size would be routed to the Display Book for an immediate execution by the specialist, at the disseminated price, up to the disseminated size. Market and marketable limit orders less than or equal to the disseminated size and less than or equal to the auto-match size would be sent to the Central Book for automatic matching and execution against the disseminated quote and allocation to the appropriate party. Orders less than or equal to the disseminated size and greater than the auto-match size would be routed to the Display Book. Orders greater than the disseminated size and less than or equal to the auto-match size would be routed to the Central Book for a partial execution up to the disseminated size.

¹⁰ The ANTE System would never allow a locked or crossed market to occur in the ABBO. Proposed Amex Rule 933-ANTE, (f)(i)(E) provides that orders otherwise eligible for automatic matching and execution may not receive automatic matching during certain market activities, including whenever the ABBO crosses or locks the National best bid or offer ("NBBO") and causes an inversion in the quote, except as provided in Amex Rule 941-ANTE (e) for orders sent through the Options Intermarket Linkage.

¹¹ See Amex Rule 950-ANTE (l), Commentary .03.

¹² Specialists would be obligated to use best efforts to attempt to ensure that the registered options trader responsible for announcing the best bid or offer during a crowd trade be appropriately allocated executed contracts in accordance with the participation provisions found in Amex Rule 950-ANTE (d), Commentary .07.

¹³ The Exchange has changed its implementation dates and the time frame for the roll out of the ANTE System initially proposed in the Notice from March 1, 2004 to May 24, 2004. Telephone conversation between Claire P. McGrath, Senior Vice President and Deputy General Counsel, Amex, and Jennifer Colihan, Special Counsel, Division, Commission, on May 20, 2004.

by the end of July 2004, it is anticipated that three additional specialists' posts and another 200 classes would be rolled-out. The Exchange expects that by the end of the January 2005, the 300 most actively traded option classes would be trading on the ANTE System. Additional specific plans for the roll out are being developed by the Exchange with the intention to have all equity and index option classes trading on the ANTE System by the second quarter of 2005. Once rolled out, the new system would be used for all option classes traded on the Exchange.¹⁴

III. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning Amendment No. 7, including whether Amendment No. 7 is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-Amex-2003-89 on the subject line.

Paper comments:

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-Amex-2003-89. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written

communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing also will be available for inspection and copying at the principal office of the Amex. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-Amex-2003-89 and should be submitted on or before June 17, 2004.

IV. Discussion

After careful review, the Commission finds that the proposed rule change, as amended, is consistent with the Act and the rules and regulations promulgated thereunder applicable to a national securities exchange and, in particular, with the requirements of section 6(b) of the Act.¹⁵ Specifically, the Commission finds that approval of the proposed rule change, as amended, is consistent with section 6(b)(5) of the Act¹⁶ in that it is designed to facilitate transactions in securities; to prevent fraudulent and manipulative acts and practices; to promote just and equitable principles of trade; to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities; to remove impediments to and perfect the mechanism of a free and open market and a national market system; and in general, to protect investors and the public interest.

A. Quoting Function for ANTE Participants and Firm Quotations

Under the proposal, specialists and registered options traders would be able to calculate quotations using either their own proprietary automatic quotation systems or an Exchange provided automatic quotation system and have the ability to stream quotations for each option series in which they trade. While specialists would be required to disseminate quotations in all series of the option classes they trade, registered options traders would be able to either

stream their own quotes or join the specialist's disseminated quotation in some or all of his assigned classes or series. If registered options traders join the specialist's quote, they would have the ability to manually improve a quote on a series by series basis. The Commission believes that allowing registered options traders to automatically generate their own quotes across all series in a class should enhance intramarket competition on the Exchange.

Furthermore, whether entering their own quotes or joining the specialist's quote, registered options traders using the ANTE hand held devices would be required to specify the size of each quote they submit or join. As executed contracts are allocated to registered options traders at the ABBO, their quote size would decrement so that they would never be allocated more than their indicated quote size. Once the indicated quote size is depleted, the registered options trader would need to replenish the quote size before being allocated additional executed contracts. The Commission believes that this ability to indicate their size for quotes in each option series should allow registered options traders to manage their exposure to the market and compete more effectively. Registered options traders also would have to be physically present at the specialist's post on the floor of the Exchange whenever they use the ANTE System to enter quotes, join the specialist's quote, or enter an order in an option class through the ANTE System.

In addition, proposed Rule 958A-ANTE would provide: (i) that the registered options traders inputting their own quotes, either manually on a series by series basis or through the use of an Exchange-provided or proprietary automated quote calculation system, would be considered the responsible broker or dealer for the purposes of the rule; and (ii) while the responsible broker or dealer would continue to be required to quote a minimum of ten contracts, customer limit orders representing the best bid or offer may be disseminated at less than ten contracts. The Commission believes that the proposed provisions are consistent with the obligations imposed upon responsible brokers or dealers under the requirements of the Commission's Quote Rule.¹⁷

As noted above, the ANTE System would never allow a locked or crossed market to occur at the ABBO. The Exchange proposes under Amex Rule

¹⁴ During the roll-out period, while the Exchange has option classes trading on both systems, current rules (as they are amended from time to time) would apply to those option classes continuing to trade on its current system, while the ANTE rules (as they are amended from time to time) would apply to those option classes trading on the new trading system. Once the roll-out of ANTE is complete, the amendments to the Exchange's options rules reflecting the implementation of ANTE would replace, where applicable, the corresponding provisions in Amex Rules 900 through 958A. Once the roll-out period has ended and all option classes are trading on the ANTE System, the Exchange would submit a filing pursuant to Rule 19b-4 under the Act, which would delete rules that would not be applicable to the Exchange's then current trading environment.

¹⁵ 15 U.S.C. 78f(b). In approving this proposal, the Commission has considered the proposed rule's impact on efficiency, competition and capital formation. 15 U.S.C. 78c(f).

¹⁶ 15 U.S.C. 78f(b)(5).

¹⁷ Rule 11Ac1-1 under the Act, 17 CFR 240.11Ac1-1 ("Quote Rule").

951-ANTE, Commentary .01 that if a quote is submitted that would lock or cross the ABBO, the ANTE System would either: (i) revise the bid or the offer by the minimum price variant(s) so that the ABBO is not locked or crossed; or (ii) if the ABBO represents an off-floor limit order, the ANTE System would execute the order and allocate the trade pursuant to the post trade allocation process.¹⁸ The Commission believes that providing for the execution of off-floor limit orders against a quote that would lock or cross the ABBO should contribute to a fair and orderly market because such orders would receive executions as soon as there is interest available at the limit order price or better.

B. Obligations of Registered Options Traders

Under proposed Amex Rule 958-ANTE, the Exchange would review registered options traders' written applications to trade option classes on the ANTE System and assign classes to each registered options traders based upon the following factors: (i) The preference of applicants; (ii) assuring that financial resources available to a registered options trader enable him to satisfy the obligations set forth in Amex Rule 958-ANTE with respect to each class of option contracts to which he is assigned; (iii) the applicant's expertise in option trading; (iv) the applicant's prior market performance; and (v) the impact of the number of registered options traders assigned in an option class or classes on the Exchange's quotation system capacity.¹⁹

Although the Exchange could suspend or terminate any assignment of a registered options trader under this Rule and make additional assignments, the Exchange has clarified and the Commission notes that, pursuant to Article II, Section 3 of the Amex Constitution, registered options traders would have the right to appeal any

Exchange determination made in accordance with this Rule.²⁰

In addition to the trading activity requirements in their assigned classes, registered options traders would have an electronic quoting requirement. Any registered options trader who transacts electronically more than 20% of its contract volume in an assigned option class and not through open outcry measured over a calendar quarter would be obligated to maintain continuous two-sided quotations for at least ten contracts in a percentage of series in that option class commencing the next calendar quarter as specified in the rules.

Registered options traders whose electronically transacted contract volume is less than 20% in a given option class would not have an electronic quoting obligation in any specific number of series in that option class. Moreover, for the first 90 days after an option class begins trading on the ANTE System, registered options traders would not have to comply with the electronic quoting requirement set forth in Amex Rule 958-ANTE (h)(iii)(A).

In summary, registered options traders would, pursuant to Amex Rule 958-ANTE, be obligated to: (i) Apply for an assignment of options classes to trade on the ANTE System; (ii) continue to have 50% of their trading activity each quarter in their assigned classes; (iii) make competitive bids and offers as reasonably necessary to contribute to the maintenance of a fair and orderly market; (iv) maintain a continuous two-sided market in a specified percentage of series in those classes in which the registered options trader has electronically transacted more than 20% of his contract volume; (v) disseminate a size of at least 10 contracts with each quote; and (vi) be physically present at the specialist's post on the floor of the Exchange where the option class is traded in order to quote (either by joining the specialist's quote or streaming his own quotes) or submit orders in that option class.

Because registered options traders receive certain benefits for carrying out their duties, the Commission believes that they should have an affirmative obligation to hold themselves out as willing to buy and sell options for their

own account on a regular or continuous basis to justify this favorable treatment. In this regard, the Commission believes that Amex's proposed Rule 958-ANTE would impose such affirmative obligations on ANTE registered options traders.

C. Limit Order Display Feature

The Exchange proposes to develop on a one-year pilot program basis a quote assist feature in ANTE to help the specialist display limit orders immediately upon receipt. The ANTE System would automatically display eligible limit orders within a configurable time that could be set on a class-by-class basis. In proposed Amex Rule 950(g)-ANTE, Commentary .01, Amex proposes to require a specialist to maintain and keep active the ANTE limit order quote assist feature. The Exchange would establish the time frame within which the quote assist feature would display eligible customer limit orders. The specialist could deactivate the quote assist feature provided Floor Official approval is obtained. Such approval would be required to be obtained no later than three minutes after deactivation. If the specialist does not receive approval within three minutes after deactivation, the Exchange would review the matter as a regulatory issue.²¹ The Exchange commits to documenting all instances where a Floor Official has granted approval. Moreover, the Exchange commits to conducting surveillance designed to detect whether specialists as a matter of course rely on the ANTE quote-assist feature to display all eligible limit orders.

The Commission believes that the quote assist feature should help to ensure that eligible customer limit orders are displayed within the required time period then in effect. The Commission notes that the specialist could be violating his due diligence obligation if he excessively relies on the quote assist feature to display eligible limit orders without attempting to address the orders immediately. Accordingly, during this pilot program, the Commission expects the Exchange to document all instances where a Floor Official has granted approval and to conduct surveillance designed to detect whether specialists as a matter of course rely on the ANTE quote-assist feature to display all eligible limit orders.

Since, according to the Exchange, the ANTE System initially would not be

¹⁸ If the ANTE System revises the quote as discussed in (i), a notification would be sent to the ANTE Participant (specialist or registered options trader) submitting the quote.

¹⁹ In addition, with respect to the factor relating to the potential impact on the Exchange's quotation system capacity, the Commission notes that Amex represents that to the extent that the Exchange places limitations on registered options traders' assignments based on concerns about capacity restraints, such limits must be objectively determined and submitted as a proposed rule change to the Commission for approval pursuant to section 19(b) of the Act. 15 U.S.C. 78s(b). See letter from Claire McGrath, Senior Vice President and Deputy General Counsel, Amex, to Kelly Riley, Division, Commission, dated May 20, 2004.

²⁰ During the first six months that an option class is on the ANTE System, a registered options trader applying for an assignment in that option class should be guaranteed an assignment in such class, provided for at least the immediately preceding calendar year the registered options trader: (i) Has been a member of the Exchange; (ii) has maintained a continuous presence as a registered options trader in such option class; and (iii) has met the requirements of Amex Rule 958-ANTE.

²¹ The Exchange represents that Floor Officials could grant approval only in instances when there is an unusual influx of orders or movement of the underlying that would result in gap pricing or other unusual circumstances.

able to produce data that would identify for surveillance purposes when the specialist has relied upon the quote assist feature to display a customer limit order versus when the specialist displayed the customer limit order prior to the quote assist time frame,²² the Commission expects the Exchange to run its limit order display exception report to detect any impermissible reliance on the quote assist feature, and to report to the Commission every three months the statistical data it uses to make this determination. The Commission notes that the pilot program for the quote assist feature would expire on the first anniversary of Commission approval of the ANTE System.

D. Automatic Matching and Execution in the Central Book

The Exchange proposes that the ANTE Central Book provide for the automatic matching and execution of eligible market and marketable limit orders at the ABBO, provided that there is no better market at another options exchange and the order is less than the auto-match size. Orders for the accounts of public customers would be eligible for automatic matching and execution in all option classes trading on the ANTE System, provided such order sizes are within the auto-match size. However, as currently provided, the Options Trading Committee would determine on a class-by-class basis whether orders for the accounts of broker-dealers and competing market makers would be eligible for automatic matching and execution. The Options Trading Committee would also continue to determine the maximum order size eligibility for broker-dealer and competing market maker accounts.

The Exchange also proposes under Amex Rule 933-ANTE (c)(2) that non-broker-dealer customer orders would be eligible for automatic matching and execution at the current best bid or offer displayed by another options exchange (automatic price matching) and automatic price improvement pursuant to Commentary .01, while broker-dealer orders would not be so eligible. The Commission believes that excluding broker-dealer orders from the automatic price-matching feature of ANTE is consistent with the Act. Nevertheless, the Commission notes that the Linkage Plan requires Amex members to avoid trading through better prices on other markets, including when executing orders on behalf of broker-dealers.

Under the proposal, orders greater than the disseminated size and less than or equal to the auto-match size would be routed to the Central Book for a partial execution up to the disseminated size. Any contracts remaining in a partially executed order would be handled by the specialist. Orders greater than the disseminated size and greater than the auto-match size would be routed to the Display Book. Furthermore, if the ABBO is not at the NBBO and the order is not eligible for automatic price matching at the NBBO as set forth in Amex Rule 933-ANTE, Commentary .01(b), the order would be routed to the specialist for handling through the Options Intermarket Linkage.

The Commission believes that the various types of executions available through the ANTE System, whether via the Central Book or Display Book, should allow ANTE Participants to provide more efficient and immediate executions, subject to priority and allocation principles.

E. Specialist's Emergency Quote

Since at all times during the trading day a quote with size would be required to be disseminated for each option series, the Exchange proposes in Amex Rule 933-ANTE, Commentary .03 for a Specialist's Emergency Quote process in the ANTE System. The Specialist's Emergency Quote would be calculated continuously and would be disseminated whenever an execution results in the disseminated bid or offer size decrementing to zero, and would continue to be disseminated until the specialist refreshes his bid or offer with size, a registered options trader disseminates a better bid or offer, or a limit order is received that betters the Specialist's Emergency Quote. However, the Specialist's Emergency Quote would not be disseminated if there is a better bid or offer already being disseminated by a registered options trader or represented by a limit order. Furthermore, the specialist could establish the Specialist's Emergency Quote parameters as often as the start of every trading day.²³

Since the Specialist's Emergency Quote would not represent a bid or offer created using the theoretical value calculated by the specialist's automated quote calculation system, the Exchange believes that the specialist would have an incentive to refresh his previous quote size or update his quote as quickly as possible, and expects that the

Specialist's Emergency Quote would be disseminated only for short periods of time before it is replaced by the specialist or other market participants. The Commission notes that the Specialist's Emergency Quote would be consistent with the specialist's obligation under exchange rules to continuously quote.

F. Priority and Allocation

The Exchange also proposes in Amex Rule 935-ANTE the manner in which the ANTE System would allocate executed contracts to non-broker-dealer customers, broker-dealers, competing market makers, specialists and registered options traders.²⁴ Under the proposal, non-broker-dealer customer orders at the ABBO would always have priority over all other market participants in the ANTE System. Multiple public customer orders in ANTE at the ABBO would be ranked for allocation purposes based on time priority. An ANTE Participant quoting alone at the ABBO would be allocated all contracts executed at his disseminated bid or offer up to the disseminated size. When more than one ANTE Participant is quoting or has orders at the ABBO, executed contracts would be automatically allocated as follows: (i) All non-broker-dealer customer orders would be allocated first; (ii) specialist participating in the quote would be allocated executed contracts in accordance with the specialist participation schedule set forth in Amex Rule 935-ANTE; and (iii) remaining executed contracts would be allocated to broker-dealers and competing market makers as one ANTE Participant, and registered options traders as individual ANTE Participants in accordance with provisions also set forth in Amex Rule 935-ANTE.

The Exchange also proposes in Amex Rule 935-ANTE (b) that ANTE Participants and floor brokers representing customer orders be able to trade with orders in the Central Book. Under the proposal, executed contracts would be allocated to single or multiple ANTE Participants provided they have submitted their orders within five seconds of the initial ANTE Participant's submission. The ANTE Participant that first submits the order to trade with the order in the Central Book would be allocated executed contracts up to a size established on a class-by-class basis by the Options

²² The Exchange represents that this information would be available by the end of the second quarter of 2004.

²³ Under proposed Amex Rule 933-ANTE, Commentary .03, the specialist would be required to establish for each option series emergency quote parameters, which shall be retained by the ANTE System.

²⁴ In addition, Quick Trade, an allocation system in place today to aid in allocating executed contracts, would continue to exist in the ANTE System to assist in the allocation of executed contracts resulting from transactions occurring outside the ANTE System in the trading crowd.

Trading Committee and referred to as the "Take Size."²⁵ The Options Trading Committee would review and in some cases revise the assigned "Take Sizes" on a periodic basis, but would not change a "Take Size" during the course of a trading day.

Since the ANTE System initially would not be able to provide floor brokers representing a customer order in the trading crowd with the ability to participate in the post allocation of orders taken off the Central Book,²⁶ the Amex would require: (i) The specialist to disengage the post trade allocation feature in the options series represented by the floor broker's customer order, provided the floor broker has alerted the specialist that he is working a customer order in a specified series; (ii) once the floor broker's customer order has been executed or the floor broker leaves the trading crowd, the specialist to re-engage the post trade allocation feature; (iii) the floor broker to alert the specialist within the five-second timeframe whenever he wants to participate on behalf of his customer in the post trade allocation of orders taken off the specialist's book; (iv) floor brokers to keep a written record of when they have alerted a specialist that they want to participate in the post trade allocation; and (v) the specialist to add the customer's interest being represented by the floor broker in the post trade allocation whenever appropriate.²⁷ While the specialist would be required to keep track of the floor broker's allocation, the Commission expects the Exchange to ensure that the ANTE System is providing an auditable record of which ANTE Participants successfully submitted orders during the five-second period and were therefore entitled to participate in post trade allocation of executed contracts. The Commission finds Amex's proposal to allow the specialist to represent the floor broker's

customer interest to be a reasonable, temporary solution.

G. Automated Opening, Re-Opening and Closing Rotations

The Exchange proposes under Amex Rule 918-ANTE for an automated and orderly process for the opening, re-opening after a trading halt, and closing of all option classes. The automated opening, re-opening, and closing rotations would be held in the same manner. The Exchange would require that the specialist always submit a two-sided quote for each option series to be used in the opening and closing sessions. Registered options traders would be able to view the same information as the specialist in the opening and closing session windows and participate in the rotations. To participate at the opening and the closing rotations, registered options traders could either: (i) Submit quotes for use during the automated opening and closing rotations; (ii) join the specialist's quote; or (iii) submit limit orders on a series by series basis.²⁸

Prior to the opening rotation, the ANTE System would receive all pre-opening orders, orders on the book from the previous trading day, and a theoretical quote based on the previous closing price for each option series he trades. After the underlying stock opens, the options specialist would be able to open the overlying options by accessing the opening session window and allowing the submission of quotes and orders that have been entered. During the activation of the opening session window, no additional quotes, orders, or cancellations would be permitted until the series opens. Under the proposal, the ANTE System would automatically pair-off the opening orders at a suggested price based on previous day and pre-opening limit orders and the specialist's and registered options traders' theoretical quotes. In those situations when the ANTE System is unable to determine an appropriate opening price, the system would present the series to the specialist for the manual setting of an opening price in that series. Once opened, orders and quote updates again would be permitted and active trading could begin.

Unlike the current Amex Rule 918(a)(4), which provides for a closing rotation to be held on the last trading day for expiring option series, the ANTE System under proposed Amex Rule

918-ANTE(a)(4) would require an automated closing rotation to be held in all option series at the end of every trading day. The Exchange proposes to use the automated closing rotation to execute at-the-close orders received by the Exchange prior to the close. If no at-the-close orders are received in a particular option series, then the ANTE System's automated closing rotation would simply close trading in that series. Orders could be entered, modified or canceled into the ANTE System up to 4:02 p.m., or 4:15 p.m. for options on Exchange Traded Fund Shares when the underlying Fund Share ceases trading at 4:15 p.m. Under proposed Amex Rule 918-ANTE, Commentary .01(f), quotes could be submitted up until the commencement of the rotation in such series, and the closing rotation could begin once the underlying security has closed.

The Commission believes that the proposed rules governing the automated opening, re-opening and closing rotations provide a reasonable process by which ANTE Participants would access and participate in the rotations and are consistent with the Act.

H. Application of "Effect v. Execute" Exemption From Section 11(a) of the Act

Section 11(a) of the Exchange Act²⁹ prohibits a member of a national securities exchange from effecting transactions on that exchange for its own account, the account of an associated person, or an account over which it or its associated person exercises discretion (collectively, "covered accounts") unless an exception applies. In addition to the exceptions set forth in the statute, Rule 11a2-2(T)³⁰ provides exchange members with an exemption from this prohibition. Known as the "effect versus execute" rule, Rule 11a2-2(T) permits an exchange member, subject to certain conditions, to effect transactions for covered accounts by arranging for an unaffiliated member to execute the transactions on the exchange. To comply with the rule's conditions, a member (i) Must transmit the order from off the exchange floor; (ii) may not participate in the execution of the transaction once it has been transmitted to the member performing the execution;³¹ (iii) may not be affiliated with the executing member; and (iv) with respect to an account over which the member has investment discretion,

²⁵ The Options Trading Committee would consider the option's liquidity and the size of the trading crowd in determining the appropriate "Take Size" for each option class. The Exchange represents that the Options Trading Committee's authority to establish the Take Size for a given options class will not be used in a discriminatory manner.

²⁶ Proposed Commentary .01 to Amex Rule 935(b)-ANTE sets forth that the ANTE System would provide floor broker's with greater functionality accessing the Central Book by March 31, 2005 or such later date as established by the Exchange and submitted to the Commission pursuant to section 19(b) of the Act.

²⁷ To accomplish an allocation to the floor broker's order, the specialist could, on a series-by-series basis, shut off the automated post trade allocation feature and manually allocate the executed contracts.

²⁸ Under Amex Rule 918-ANTE, Commentary .01(b), registered options traders would not be able to submit market orders in the automated opening rotation.

²⁹ 15 U.S.C. 78k(a).

³⁰ 17 CFR 240.11a2-2(T).

³¹ The member, however, may participate in clearing and settling the transaction.

neither the member nor its associated person may retain any compensation in the connection with effecting the transaction except as provided in the Rule.

In a letter dated May 20, 2004,³² the Amex represents that transactions effected on ANTE satisfy the conditions of Rule 11a2-2(T). Based on these representations, the Commission finds that the order execution algorithm of ANTE complies with the requirements of section 11(a) of the Exchange Act and Rule 11a2-2(T) thereunder.

In particular, the Amex states that ANTE "will place all users of the Exchange's ANTE System, members and non-members, on the 'same footing'" and that "at no time following the submission of an order will a broker-dealer who enters an order retain any ability to control the timing of an execution or otherwise enjoy the kind of special order-handling advantages inherent in being on an exchange floor." Specifically, orders sent to ANTE will be transmitted from remote locations (via the member interface) directly to ANTE by electronic means. Once an order is submitted to ANTE, the order is executed against another order based on an established matching algorithm. As the Amex explains, the execution does not depend on the broker-dealer but rather upon what other orders are entered into ANTE at or around the same time as the subject order, what orders are on the specialist's book and where the order is ranked based on the price-time priority ranking algorithm. Accordingly, members do not control or influence the result or timing of orders submitted to ANTE. Finally, Amex represents that ANTE will continue the program currently in place, which allows orders for the accounts of broker-dealers to be eligible for execution through the Exchange's Auto-Ex system. The Commission notes that the staff of the Division previously provided interpretive guidance to the Amex regarding its Auto-Ex system.³³ Based on Amex's representations, the staff believed that the execution of broker-dealer orders in the Amex Auto-Ex system satisfied the effect v. execute rule.

Based on the Amex's representations regarding ANTE, the Commission finds that ANTE's electronic order submission and execution process also satisfies the

³² See letter from Claire McGrath, Senior Vice President and Deputy General Counsel, Amex, to Kelly Riley, Division, Commission, dated May 20, 2004.

³³ See letter from Paula R. Jenson, Deputy Chief Counsel, Division, Commission, to Jeffrey P. Burns, Assistant General Counsel, Amex, dated July 9, 2002.

four conditions of Rule 11a2-2(T).³⁴ First, all orders are electronically submitted through remote terminals off the exchange floor. Second, because a member relinquishes control of its order after it is submitted to ANTE and will not be able to influence or guide the execution of its order, the member would not be participating in the execution of its order. Third, although the rule contemplates having an order executed by an exchange member who is not affiliated with the member initiating the order, the Commission recognizes that this requirement is satisfied when automated exchange facilities are used.³⁵ Fourth, the Amex states that members that rely on Rule 11a2-2(T) for a managed account transaction must comply with the limitations on compensation set forth in the rule.

V. Accelerated Approval of Amendment No. 7

The Commission finds good cause for approving Amendment No. 7 to the proposed rule change prior to the thirtieth day after the amendment is published for comment in the **Federal Register** pursuant to section 19(b)(2) of the Act.³⁶ Amendment No. 7 addresses

³⁴ The Commission and its staff, on numerous occasions, have considered the application of Rule 11a2-2(T) to electronic trading and order routing systems. See, e.g., Securities Exchange Act Release Nos. 49068 (January 13, 2004) (Order approving the Boston Options Exchange as an options trading facility of the Boston Stock Exchange); 44983 (October 25, 2001) (Order approving the Archipelago Exchange as the equities trading facility of PCX Equities Inc.); 29237 (May 31, 1991) (regarding NYSE's Off-Hours Trading Facility); 15533 (January 29, 1979) (regarding the Amex Post Execution Reporting System, the Amex Switching System, the Intermarket Trading System, the Multiple Dealer Trading Facility of the Cincinnati Stock Exchange, the PCX's Communications and Execution System, and the Phlx's Automated Communications and Execution System); and 14563 (March 14, 1978) (regarding the NYSE's Designated Order Turnaround System). See also Letter from Larry E. Bergmann, Senior Associate Director, Division, Commission, to Edith Hallahan, Associate General Counsel, Phlx (March 24, 1999) (regarding Phlx's VWAP Trading System); letter from Catherine McGuire, Chief Counsel, Division, Commission, to David E. Rosedahl, PCX (November 30, 1998) (regarding Optimark); and Letter from Brandon Becker, Director, Division, Commission, to George T. Simon, Foley & Lardner (November 30, 1994) (regarding Chicago Match).

³⁵ In considering the operation of automated execution systems operated by an exchange, the Commission noted that while there is no independent executing exchange member, the execution of an order is automatic once it has been transmitted into the systems. Because the design of these systems ensures that members do not possess any special or unique trading advantages in handling their orders after transmitting them to the exchange, the Commission has stated that executions obtained through these systems satisfy the independent execution requirement of Rule 11a2-2(T). See Securities Exchange Act Release No. 15533 (January 29, 1979).

³⁶ 15 U.S.C. 78s(b)(2).

concerns raised by Commission staff by clarifying in proposed Amex Rule 951-ANTE, Commentary .01 that if the bid or offer of a specialist or registered options trader locks or crosses the ABBO, the ANTE System would revise the bid by the minimum price variations so that the bid or offer submitted does not lock or cross the ABBO, provided, however, if the ABBO represents an off-floor limit order, the ANTE System would execute the order and allocate the trade pursuant to the post trade allocation process. The Commission believes that the proposed change in Amendment No. 7, which provides for a clearer understanding of the operation in the ANTE System of Amex Rule 951-ANTE, Commentary .01, raises no new issues of regulatory concern and, therefore, believes that accelerated approval of Amendment No. 7 is appropriate.

VI. Conclusion

For the foregoing reasons, the Commission finds that the proposed rule change, as amended, is consistent with the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, with section 6(b)(5) of the Act.³⁷

It is therefore ordered, pursuant to section 19(b)(2) of the Act,³⁸ that the proposed rule change (SR-Amex-2003-89) and Amendments No. 1, 2, 3, 4, 5 and 6 thereto are approved, and that Amendment No. 7 thereto is approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.³⁹

Margaret H. McFarland,
Deputy Secretary.

BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49742; File No. SR-BSE-2004-20]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Boston Stock Exchange, Inc. Relating to Its Boston Options Exchange Trading Rules

May 19, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934

³⁷ 15 U.S.C. 78f(b)(5).

³⁸ 15 U.S.C. 78s(b)(2).

³⁹ 17 CFR 200.30-3(a)(12).

("Act"),¹ and Rule 19b-4² thereunder, notice is hereby given that on May 14, 2004, the Boston Stock Exchange ("BSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the BSE. The Exchange has designated this proposal as constituting a stated policy, practice, or interpretation with respect to the meaning, administration, or enforcement of an existing rule of the Boston Options Exchange ("BOX") facility of the BSE pursuant to section 19(b)(3)(A)(i) of the Act,³ and Rule 19b-4(f)(1) thereunder,⁴ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to clarify a section of the BOX rules relating to market opening procedures. The text of the proposed rule change is set forth below. Proposed new language is in *italics*.

Rules of the Boston Stock Exchange

Rules of the Boston Options Exchange Facility

Trading of options contracts on BOX.
Chapter V Doing Business on BOX

Sec. 9 Opening the Market

(a)-(d) No change.

(e) Opening Match.

(i) Complex Orders and contingency orders do not participate in the Opening Match or in the determination of the opening price. The BOX Trading Host will establish the opening price at the time of the Opening Match. The opening price is the TOP at the moment of the Opening Match. The BOX Trading Host will process the series of a class in a random order, starting at the first round minute after the opening for trading of the underlying *security in the primary market*, and at each round minute thereafter. If the opening of a particular class is to occur within 15 seconds of the next round minute, the opening of that class will take place at the next subsequent round minute after the round minute that is 15 or less seconds away (*i.e.*, within 75 seconds). In

determining the priority of orders to be filled, the BOX Trading Host will give priority to Market-on-Opening orders first, then to Limit Orders whose price is better than the opening price, and then to resting orders on the BOX Book at the opening price. One or more series of a class may not open because of conditions cited in paragraph (f) of this Section 9.

* * * * *

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The BSE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The BSE proposes to provide clarifying language to Section 9 of Chapter V of the BOX Rules relating to guidelines regarding market opening procedures. Currently, the language of Chapter V, Section 9 states that BOX will process the opening starting at the first round minute after the opening of trading of the underlying security. The Exchange now seeks to add clarifying language to indicate that the opening of trading must occur on the security's primary market. This would ensure that the price received is, in most instances, the most reliable opening price available, and will serve to assist in a fair and orderly opening on BOX.

2. Statutory Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Act,⁵ in general, and Section 6(b)(5) of the Act,⁶ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and protect investors and the public interest by standardizing procedures during market openings.

⁵ 15 U.S.C. 78f(b).

⁶ 15 U.S.C. 78f(b)(5).

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A)(i) of the Act⁷ and subparagraph (f)(1) of Rule 19b-4⁸ thereunder because it constitutes a stated policy, practice, or interpretation with respect to the meaning, administration, or enforcement of an existing rule of the BOX facility of the BSE. Accordingly, the proposal has taken effect upon filing with the Commission. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-BSE-2004-20 on the subject line.

Paper comments:

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-BSE-2004-20. This file number should be included on the subject line if e-mail is used. To help the

Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing also will be available for inspection and copying at the principal office of the BSE. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-BSE-2004-20 and should be submitted by June 17, 2004.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁹

Margaret H. McFarland,
Deputy Secretary.

BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49754; File No. SR-ISE-2003-22]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change and Amendment No. 1 Thereto by the International Securities Exchange, Inc., Relating to Permanent Approval of the Pilot Program for Quotation Spreads

May 21, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on September 24, 2003, the International Securities Exchange, Inc. ("ISE" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II, and III below, which Items have been

prepared by the ISE.³ On May 20, 2004, the ISE filed Amendment No. 1 to the proposed rule change. The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

On March 19, 2003, the Commission approved an ISE proposal to establish a pilot program permitting the allowable quotation spread for options on up to 50 equity securities to be \$5, regardless of the price of the bid ("Pilot Program").⁴ The Pilot Program was extended several times, most recently until June 29, 2004, and expanded to include all equity options trading on the ISE.⁵ The ISE proposes to make the Pilot Program permanent and to expand the Pilot Program to include index options as well as equity options. The text of the proposed rule change appears below. Additions are italicized; deletions are bracketed.

* * * * *

Rule 803. Obligations of Market Makers

* * * * *

(b) Appointment. With respect to each options class to which a market maker is appointed under Rule 802, the market maker has a continuous obligation to engage, to a reasonable degree under the existing circumstances, in dealings for his own account when there exists, or it is reasonably anticipated that there will exist, a lack of price continuity, a temporary disparity between the supply of and demand for a particular options contract, or a temporary distortion of the price relationships between options contracts of the same class. Without limiting the foregoing, a market maker is expected to perform the following

³ See letter from Michael J. Simon, Senior Vice President and General Counsel, ISE, to Nancy Sanow, Assistant Director, Division of Market Regulation ("Division"), Commission, dated May 19, 2004 and accompanying Form 19b-4 ("Amendment No. 1").

⁴ See Securities Exchange Act Release No. 47532, 68 FR 14728 (March 26, 2003) (order approving File No. SR-ISE-2001-15) ("Pilot Program Approval Order").

⁵ See Securities Exchange Act Release Nos. 48514 (September 22, 2003), 68 FR 55685 (September 26, 2003) (notice of filing and immediate effectiveness of File No. SR-ISE-2003-21) (extending the Pilot Program through January 31, 2004); 49149 (January 29, 2004) 69 FR 05627 (notice of filing and immediate effectiveness of File No. SR-ISE-2004-02) (extending the Pilot Program through March 31, 2004); and 49509 (March 31, 2004) 69 FR 18411 (April 7, 2004), (notice of filing and immediate effectiveness of File No. SR-ISE-2004-10) (extending the Pilot Program through June 29, 2004, and expanding the Pilot Program to include all equity options listed on the ISE) ("Pilot Expansion Notice").

activities in the course of maintaining a fair and orderly market:

* * * * *

(4) To price options contracts fairly by, among other things, bidding and offering so as to create differences of no more than \$5 between the bid and offer following the opening rotation in an equity or index options contract. Prior to the opening rotation, spread differentials shall be no more than ¼ of \$1 between the bid and offer for each options contract for which the bid is less than \$2, no more than ⅓ of \$1 where the bid is at least \$2 but does not exceed \$5, no more than ½ of \$1 where the bid is more than \$5 but does not exceed \$10, no more than ¾ of \$1 where the bid is more than \$10 but does not exceed \$20, and no more than \$1 where the bid is \$20 or greater, provided that the Exchange may establish differences other than the above for one or more options series. The bid/offer differentials stated above shall not apply to in-the-money options series where the underlying securities market is wider than the differentials set forth above. For these series, the bid/ask differential may be as wide as the quotation on the primary market of the underlying security.

* * * * *

Supplementary Material to Rule 803

[.01 Pursuant to paragraph (b)(4) of Rule 803, during a pilot period expiring on June 29, 2004, all options classes may be quoted with a difference not to exceed \$5 between the bid and offer regardless of the price of the bid.]

[.02] .01 A Primary Market Maker must act with due diligence in handling orders of Public Customers and must accord priority to such orders addressed pursuant to paragraph (c) of this Rule over the Primary Market Maker's principal orders.

* * * * *

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the ISE included statements concerning the purpose of, and basis for, the proposed rule change, and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The ISE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

⁹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The ISE's rules contain maximum quotation spread requirements that vary from \$.25 to \$1.00, depending on the price of the option. On March 19, 2003, the Commission approved a proposal to establish a six-month Pilot Program in which the allowable quotation spread for options on up to 50 underlying equity securities would be \$5, regardless of the price of the bid.⁶ The Pilot Program has been extended several times, most recently until June 29, 2004, and has been expanded to include all equity options listed on the ISE.⁷

As required by the Pilot Program Approval Order, the ISE submitted to the Commission a report detailing the ISE's experience with the Pilot Program, which provided data regarding the 50 options initially included in the Pilot Program ("Initial Pilot Report"). The ISE will provide the Commission with an updated Pilot Program report that covers all of the equity options classes in the expanded Pilot Program by June 15, 2004.

The ISE believes that the Pilot Program has been successful. The ISE notes that its Initial Pilot Report provides all of the information the Commission requested in the Pilot Program Approval Order. The Initial Pilot Report lists the Pilot Program options, details the quotation spreads in these options during the initial six-month Pilot Program period, and discusses the ISE's overall experience during the Pilot Program, as well as any problems the ISE experienced during the Pilot Program. According to the ISE, the Initial Pilot Report indicates that quotation spreads in the 50 equity options initially included in the Pilot Program were virtually unchanged when compared to pre-Pilot Program trading. When compared to non-Pilot Program options, the ISE notes that the options included in the Pilot Program actually had relatively narrower spreads during the Pilot Program compared to the pre-Pilot Program period.

The purpose of the proposal is to make the Pilot Program permanent and to apply the relaxed spread requirements to all ISE-listed equity and index options. The one adjustment that the ISE is proposing to the structure of the Pilot Program is to apply the Pilot Program's relaxed spread requirements

only after the opening in an option to assure fair and orderly markets at the opening. The ISE states that during the operation of the Pilot Program the ISE observed some indications that the relaxed spread requirements were having a negative effect on the quality of the ISE's market opening. Accordingly, the ISE issued a Regulatory Information Circular ("RIC") informing market makers that, for the Pilot Program options, they should quote pursuant to the traditional spread requirements for the opening.⁸ Consistent with this position, the relaxed quotation requirements in the proposal would become operative immediately following the opening rotation.

2. Statutory Basis

The ISE believes that the proposed rule change is consistent with the requirement under section 6(b)(5) of the Act that an exchange have rules that are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism for a free and open market and a national market system, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The ISE believes that the proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The ISE has not solicited, and does not intend to solicit, comments on the proposed rule change. The ISE has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-ISE-2003-22 on the subject line.

Paper Comments

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-ISE-2003-22. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing also will be available for inspection and copying at the principal office of the ISE. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-ISE-2003-22 and should be submitted on or before June 17, 2004.

⁶ See Pilot Program Approval Order, *supra* note 4.

⁷ See Pilot Expansion Notice, *supra* note 5.

⁸ See ISE RIC 2003-08, "Bid/Ask Spreads—\$5 Maximum Pilot Program Policy Change."

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁹

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49752; File No. SR-NASD-2004-055]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change and Amendment Nos. 1 and 2 Thereto by the National Association of Securities Dealers, Inc. Related to Clarification of the Price/Time Execution Algorithm in SuperMontage

May 21, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on March 29, 2004, the National Association of Securities Dealers, Inc. (“NASD”), through its subsidiary, The Nasdaq Stock Market, Inc. (“Nasdaq”), submitted to the Securities and Exchange Commission (“Commission” or “SEC”) the proposed rule change as described in items I, II, and III below, which items have been prepared by Nasdaq. On May 10, 2004, Nasdaq filed Amendment No. 1 to the proposed rule change.³ Nasdaq filed Amendment No. 2 to the proposed rule change on May 20, 2004.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change

Nasdaq proposes to clarify rule language describing the operation of the price/time execution algorithm in the Nasdaq Market Center system when using the “I” anti-internalization qualifier. Nasdaq will implement the proposed rule change immediately.

⁹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ See letter from Mary M. Dumbar, Vice President and Deputy General Counsel, Nasdaq to Katherine A. England, Assistant Director, Division of Market Regulation (“Division”), Commission, dated May 7, 2004 (“Amendment No. 1”). Amendment No. 1 replaces the original 19b-4 in its entirety.

⁴ See letter from Mary M. Dumbar, Vice President and Deputy General Counsel, Nasdaq to Katherine A. England, Assistant Director, Division, Commission, dated May 20, 2004 (“Amendment No. 2”). Amendment No. 2 makes technical changes to the rule text.

Below is the text of the proposed rule change. Proposed new language is *italics*; proposed deletions are in [brackets].

* * * * *

4710. Participant Obligations in the Nasdaq Market Center

(a) No Change.
(b) Non-Directed Orders
(1) General Provisions—A Quoting Market Participant in a Nasdaq Market Center eligible security, as well as Order Entry Firms, shall be subject to the following requirements for Non-Directed Orders:

(A) No Change.
(i) through (iv) No Change.
(B) Processing of Non-Directed Orders—Upon entry of a Non-Directed Order into the system, the Nasdaq Market Center will ascertain who the next Quoting Market Participant or Order Entry Firm in queue to receive an order is and shall deliver an execution to Quoting Market Participants or Order Entry Firms that participate in the automatic-execution functionality of the system, or shall deliver a Liability Order to Quoting Market Participants that participate in the order-delivery functionality of the system. Non-Directed Orders entered into the Nasdaq Market Center system shall be delivered to or automatically executed against Quoting Market Participants’ or Order Entry Firms’ Displayed Quotes/Orders and Reserve Size, in strict price/time priority, as described in the algorithm contained in subparagraph (b)(B)(i) of this rule. The individual time priority of each Quote/Order submitted to the Nasdaq Market Center shall be assigned by the system based on the date and time such Quote/Order was received. Reminders of Quote/Orders reduced by execution, if retained by the system, shall retain the time priority of their original entry. For purposes of the execution algorithm described below, “Displayed Quotes/Orders” shall also include any odd-lot, odd-lot portion of a mixed-lot, or any odd-lot remainder of a round-lot(s) reduced by execution, share amounts that while not displayed in the quotation montage of the Nasdaq Market Center, remain in system and available for execution.

(i) Execution Algorithm—Price/Time—The system will access interest in the system in the following priority and order:

a. through c. No Change.
(ii) Exceptions—The following exceptions shall apply to the above execution parameters:
a. If a Nasdaq Quoting Market Participant or Order Entry Firm enters a Non-Directed Order into the system,

before sending such Non-Directed Order to the next Quoting Market Participants in queue, the Nasdaq Market Center will first attempt to match off the order against the Nasdaq Quoting Market Participant’s or Order Entry Firm’s own Quote/Order if the participant is at the best bid/best offer in Nasdaq. Nasdaq Quoting Market Participants and Order Entry Firms may avoid any attempted automatic system matching permitted by this paragraph through the use of an anti-internalization qualifier (AIQ) quote/order flag containing the following values: “Y” or “I”, subject to the following restrictions:

Y—if the Y value is selected, the system will execute the flagged quote/order solely against attributable and non-attributable quotes/orders (displayed and reserve) of [Nasdaq] Quoting Market Participants and Order Entry Firms other than the party entering the AIQ “Y” flagged quote/order. If the only available trading interest is that of the same party that entered the AIQ “Y” flagged quote/order, the system will not execute at an inferior price level, and will instead return the latest entered of those interacting quote/orders (or unexecuted portions thereof) to the entering party; provided, however, that in the case of a Discretionary Order interacting with a bid/offer entered by the system pursuant to Rule 4710(b)(5), the Discretionary Order (or unexecuted portions thereof) will be returned.

I—if the I value is selected, the system will execute against all available trading interest, including the quote/orders of the Order Entry Firm or Nasdaq Quoting Market Participant that entered the AIQ “I” flagged order *based on the price/time execution algorithm* [in price/time priority].

b. through f. No Change.
(C) through (D) No Change.
(2) through (8) No Change.
(c) through (e) No Change.

* * * * *

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in item IV below. Nasdaq has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On February 11, 2004, the Commission approved SR-NASD-2003-128 containing Nasdaq's proposal to eliminate the price/size and price/time with fee consideration execution algorithms from the SuperMontage system.⁵ One rule change approved at that time was a modification to NASD Rule 4710(b)(1)(B)(ii)(a) relating to the use of the "I" anti-internalization qualifier and the price time execution algorithm of the system. Language added to that rule indicated that use of the I anti-internalization qualifier would result in processing of quotes/orders in price/time priority. This rule change clarifies that the system processes quotes/orders in conformity with the price/time execution algorithm described in NASD Rule 4710(b)(1)(B)(i).

In addition, this proposal also removes the term "Nasdaq" from the rule language describing the operation of the "Y" anti-internalization qualifier to make clear that orders entered with that designation interact with any resting quotes/orders of UTP Exchanges residing in the system. The use of the defined term Nasdaq Quoting Market Participant gives the incorrect impression that orders entered into the system with the Y qualifier will not execute against the party entering that order and will also only interact with quotes/orders of Nasdaq ECNs, Nasdaq Market Makers, Order-Entry Firms and ITS/CAES market makers. By removing the term Nasdaq, the rule will correctly indicate that the use of the Y qualifier only inhibits interaction with the quote/order of the party entering the Y-flagged order and that such orders remain free to interact with the quotes/orders of all other Nasdaq Market Center participants (market makers, ECNs, order-entry firms, UTP exchanges and ITS/CAES market makers.)

2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with section 15A of the Act,⁶ in general, and with section 15A(b)(6) of the Act,⁷ in particular, in that the proposed rule

change is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change has been filed by Nasdaq pursuant to section 19(b)(3)(A) of the Act⁸ and subparagraph (f)(6) of Rule 19b-4 thereunder.⁹ Because the foregoing proposed rule change: (1) Does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) does not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of the investors and the public interest, it has become effective pursuant to section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6)¹¹ thereunder.

A proposed rule change filed under Rule 19b-4(f)(6)¹² normally does not become operative prior to 30 days after the date of filing. However, pursuant to Rule 19b-4(f)(6)(iii), the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. Nasdaq has requested that the Commission waive both five-day notice and the 30-day operative delay specified in Rule 19b-4(f)(6)(iii).¹³

The Commission believes that waiving the five-day notice and the 30-day operative delay is consistent with the protection of investors and the

public interest¹⁴ because it will allow Nasdaq to clarify rule language regarding the Nasdaq Market Center system. For these reasons, the Commission designates the proposed rule change as effective and operative on May 20, 2004.¹⁵ At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such proposed rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NASD-2004-055 on the subject line.

Paper Comments

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-NASD-2004-055. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the

⁵ See Securities Exchange Act Release No. 49220 (February 11, 2004), 69 FR 7836 (February 19, 2004). The SuperMontage System has since been renamed The Nasdaq Market Center. See SR-NASD-2004-76 (filed on an immediately effective basis on May 5, 2004).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49746; File No. SR-NASD-2004-081]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the National Association of Securities Dealers, Inc. Relating to Unit Listing Standards

May 20, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 17, 2004, the National Association of Securities Dealers, Inc. ("NASD"), through its subsidiary, The Nasdaq Stock Market, Inc. ("Nasdaq"), filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by Nasdaq. Nasdaq filed the proposed rule change pursuant to section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(6) thereunder,⁴ which renders the proposal effective upon filing.⁵ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

² 17 CFR 240.19b-4.

³ 15 U.S.C. 78s(b)(1).

⁴ 17 CFR 240.19b-4.

⁵ Nasdaq asked the Commission to waive the 30-day operative delay. See Rule 19b-4(f)(6)(iii). 17 CFR 240.19b-4(f)(6)(iii).

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Nasdaq proposes to amend the listing standards for units. Below is the text of the proposed rule change. Proposed new language is underlined; proposed deletions are in brackets.⁶

* * * * *

Rule 4420. Quantitative Designation Criteria

(a)-(g) no change.

(h) Units

(1) Initial and Continued Inclusion Requirements

(a) All units shall have at least one equity component. All components of such units shall satisfy the requirements for initial and continued listing under Rules 4420 and 4450, as applicable, or, in the case of debt components, satisfy the requirements of 4420(h)(1)(b).

(b) All debt components of a unit, if any, shall meet the following requirements:

(i) the debt issue must have an aggregate market value or principal amount of at least \$5 million;

(ii) the issuer of the debt security must have equity securities listed on the Nasdaq National Market; and

(iii) in the case of convertible debt, the equity into which the debt is convertible must itself be subject to real-time last sale reporting in the United States, and the convertible debt must not contain a provision which gives the company the right, at its discretion, to reduce the conversion price for periods of time or from time to time unless the company establishes a minimum period of ten business days within which such price reduction will be in effect.

(c) All components of the unit shall be issued by the same issuer. All units and issuers of such units shall comply with the initial and continued inclusion requirements under Rules 4420 and 4450, as applicable.

(2) Minimum Inclusion Period and Notice of Withdrawal

In the case of units, the minimum period for inclusion of the units shall be 30 days from the first day of inclusion, except the period may be shortened if the units are suspended or withdrawn for regulatory purposes. Issuers and underwriters seeking to withdraw units from inclusion must provide Nasdaq with notice of such intent at least 15 days prior to withdrawal.

([2]3) Disclosure Requirements for Units

⁶ The proposal is marked against the rule text of the current NASD manual, which is available on www.nasdaq.com. There are no other pending rule filings that would affect the text of this rule.

Each Nasdaq National Market issuer of units shall include in its prospectus or other offering document used in connection with any offering of securities that is required to be filed with the Commission under the federal securities laws and the rules and regulations promulgated thereunder a statement regarding any intention to delist the units immediately after the minimum inclusion period. *The issuer of a unit shall further provide information regarding the terms and conditions of the components of the unit (including information with respect to any original issue discount or other significant tax attributes of any component) and the ratio of the components comprising the unit. An issuer shall also disclose when a component of the unit is separately listed on Nasdaq. These disclosures shall be made on the issuer's website, or if it does not maintain a website, in its annual report provided to unit holders. An issuer shall also immediately publicize through, at a minimum, a public announcement through the news media, any change in the terms of the unit, such as changes to the terms and conditions of any of the components (including changes with respect to any original issue discount or other significant tax attributes of any component), or to the ratio of the components within the unit. Such public notification shall be made as soon as practicable in relation to the effective date of the change.*

* * * * *

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change, and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Nasdaq has recently received inquiries about listing of units comprised of common stock and subordinated notes, sometimes referred to as Income Deposit Securities or IDS's.

Listing standards for these securities have been approved for the American Stock Exchange LLC ("Amex") and the New York Stock Exchange, Inc. ("NYSE"). Nasdaq now proposes listing standards for such units that are substantially similar to the standards of these other markets. In particular, Nasdaq proposes to require that all units shall have at least one equity component, and that all components must meet the Nasdaq National Market initial and continued inclusion requirements under Nasdaq Rules 4420 and 4450, or in the case of debt components, meet certain specified standards including: an aggregate market value or principal amount of at least \$5 million; a requirement that the debt issuer have equity listed on Nasdaq; and in the case of convertible debt, limitations on changes to conversion prices and a last sale reporting requirement for the equity into which the debt is convertible. In that regard, real time last sale reporting must be available for the underlying equity security, and it will not be sufficient that a unit containing the equity security is subject to last sale reporting. In addition, all components of the unit shall be issued by the same issuer, and all units and the issuer of such units shall be required to comply with the initial and continued inclusion requirements under Nasdaq Rules 4420 and 4450, as applicable.

An issuer would be required to provide information regarding the terms and conditions of the components of the unit on a Web site, or if it does not maintain a Web site, in its annual report provided to unit holders. In addition, an issuer would be required to disclose when a component of the unit is separately listed on Nasdaq. The proposal would also require an issuer to immediately publicize through, at a minimum, a public announcement through the news media, any change in the terms of a listed unit, such as changes to the terms and conditions of any of the components or to the ratio of components within the unit. Nasdaq believes that this heightened disclosure requirement is appropriate to ensure that sufficient information regarding the attributes of these securities is publicly available on a timely basis.

2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with the provisions of Section 15A of the Act,⁷ in general and with section 15A(b)(6) of the Act,⁸ in particular, in that it will

promote just and equitable principles of trade, facilitate transactions in securities, remove impediments to and perfect the mechanism of a free and open market and a national securities system, and protect investors and the public interest. Specifically, the proposed rule change will permit the listing of units comprised of equity and debt components on Nasdaq.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing proposed rule change has become effective upon filing on May 17, 2004 pursuant to section 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6) thereunder¹⁰ because the proposal: (1) Does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) does not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest; provided that the self-regulatory organization has given the Commission written notice of its intent to file the proposed rule change at least five business days prior to the filing date of the proposed rule change.¹¹

Nasdaq has asked the Commission to waive the 30-day operative delay. The Commission believes waiving the 30-day operative delay is consistent with the protection of investors and the public interest. The Commission notes that it recently approved similar proposals by the Amex and NYSE, which Nasdaq's proposal is based upon.¹² The Amex and NYSE proposals

were published for comment and the Commission received no comments on them.¹³ Finally, the Commission does not believe Nasdaq's proposal raises any new regulatory issues. For these reasons, the Commission designates the proposal to be effective and operative upon filing of the proposal on May 17, 2004 with the Commission.¹⁴

At any time within 60 days of the filing of the amended proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the proposed rule change. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NASD-2004-081 on the subject line.

Paper Comments

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-NASD-2004-081. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the

⁹ 15 U.S.C. 78s(b)(3)(A).

¹⁰ 17 CFR 240.19b-4(f)(6).

¹¹ As required under Rule 19b-4(f)(6)(iii), Nasdaq provided the Commission with written notice of its intent to file the proposed rule change at least five business days prior to the filing date.

¹² See Securities Exchange Act Release No. 48666 (October 21, 2003); 68 FR 61239 (October 27, 2003) (SR-Amex-2003-83); Securities Exchange Act

Release No. 49515 (April 1, 2004); 69 FR 19592 (April 13, 2004) (SR-NYSE-2004-17).

¹³ See *id.*

¹⁴ For purposes only of accelerating the operative date of this proposal, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

⁷ 15 U.S.C. 78o-3.

⁸ 15 U.S.C. 78o-3(6).

provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing also will be available for inspection and copying at the principal office of Nasdaq. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NASD-2004-081 and should be submitted on or before June 17, 2004.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁵

Margaret H. McFarland,
Deputy Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster #3575]

State of Texas

Robertson County and the contiguous counties of Brazos, Burleson, Falls, Leon, Limestone, Madison and Milam in the State of Texas constitute a disaster area due to severe storms and flooding that occurred on May 13, 2004. Applications for loans for physical damage as a result of this disaster may be filed until the close of business on July 20, 2004, and for economic injury until the close of business on February 21, 2005, at the address listed below or other locally announced locations: U.S. Small Business Administration, Disaster Area 3 Office, 14925 Kingsport Road, Fort Worth, TX 76155-2243.

The interest rates are:

	Percent
For Physical Damage:	
Homeowners with credit available elsewhere	5.750
Homeowners without credit available elsewhere	2.875
Businesses with credit available elsewhere	5.500
Businesses and non-profit organizations without credit available elsewhere	2.750
Others (including non-profit organizations) with credit available elsewhere	4.875
For Economic Injury:	
Businesses and small agricultural cooperatives without credit available elsewhere	2.750

The number assigned to this disaster for physical damage is 357511 and for economic injury the number is 9ZE500. (Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008.)

Dated: May 21, 2004.

Hector V. Barreto,
Administrator.

DEPARTMENT OF STATE

[Public Notice 4725]

30-Day Notice of Proposed Information Collection: Form DS-156K, Nonimmigrant Fiance(e) Visa Application; OMB Control Number 1405-0096

AGENCY: Department of State.
ACTION: Notice.

SUMMARY: The Department of State has submitted the following information collection request to the Office of Management and Budget (OMB) for approval in accordance with the Paperwork Reduction Act of 1995. Comments should be submitted to OMB within 30 days of the publication of this notice.

The following summarizes the information collection proposal submitted to OMB:

Type of Request: Extension of currently approved collection.

Originating Office: Bureau of Consular Affairs, Department of State (CA/VO).

Title of Information Collection: Nonimmigrant Fiance(e) Visa Application.

Frequency: Once per respondent.

Form Number: DS-156K.

Respondents: Aliens applying for a nonimmigrant visa to enter the U.S. as the fiancé(e) of a U.S. citizen.

Estimated Number of Respondents: 35,000 per year.

Average Hours Per Response: 1 hour.

Total Estimated Burden: 35,000 hours per year.

Public comments are being solicited to permit the agency to:

- Evaluate whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the reporting burden on those who are to respond, including through the use of automated collection techniques or other forms of technology.

FOR FURTHER INFORMATION CONTACT: Copies of the proposed information collection and supporting documents may be obtained from Brendan Mullarkey of the Office of Visa Services, U.S. Department of State, 2401 E St., NW., RM L-703, Washington, DC 20520, who may be reached on 202-663-1166. Public comments and questions should be directed to the State Department Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20530, who may be reached on 202-395-7860.

Dated: May 13, 2004.

Catherine Barry,

Acting Deputy Assistant Secretary of State for Visa Services, Bureau of Consular Affairs, Department of State.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Salt Lake County, UT

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Withdrawal of the Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that a Final Environmental Impact Statement (EIS) will not be prepared for transportation improvements in the corridor at 2000 East (Highland Drive) in Salt Lake County, Utah.

FOR FURTHER INFORMATION CONTACT: Gregory S. Punske, P.E., Environmental Program Manager, FHWA, Utah Division, 2520 West 4700 South, Suite 9A, Salt Lake City, UT 84118, Telephone (801) 963-0182; or Lars Anderson, Utah Department of Transportation (UDOT), 2010 South 2760 West, Salt Lake City, UT 84104, Telephone (801) 887-3470.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the UDOT and the City of Sandy, Utah have elected not to prepare a Final EIS for transportation improvements in the corridor at 2000 East (Highland Drive) from 9400 South in the city of Sandy, Utah, to Interstate 15 between 11400 South and 14600 South in the city of Draper, Utah. The original Notice of Intent for this project was published on

¹⁵ 17 CFR 200.30-3(a)(12).

October 1, 1996. A Draft EIS was circulated on October 22, 1998. The FHWA, in cooperation with the UDOT and the City of Sandy, Utah; have elected not to pursue the project and terminate the EIS process. Comments or questions concerning this action should be directed to FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Issued on: May 20, 2004.

DEPARTMENT OF THE TREASURY

Submission for OMB Review; Comment Request

May 21, 2004.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 11000, 1750 Pennsylvania Avenue, NW Washington, DC 20220.

DATES: Written comments should be received on or before June 28, 2004, to be assured of consideration.

Internal Revenue Service (IRS)

OMB Number: 1545-0754.

Regulation Project Number: LR-255-81 Final.

Type of Review: Extension.

Title: Substantiation of Charitable Contributions.

Description: Congress intended that the IRS prescribe rules and requirements to assure substantiation and verification of charitable contributions. The regulations serve these purposes.

Respondents: Individuals or households, Business or other for-profit.

Estimated Number of Recordkeepers: 26,000,000.

Estimated Burden Hours

Recordkeepers: 5 minutes.

Estimated Total Reporting/Recordkeeping Burden: 2,158,000 hours.

OMB Number: 1545-0786.

Regulation Project Number: INTL-50-86 Final (TD 8110).

Type of Review: Extension.

Title: Sanctions on Issuers and Holders of Registration-Required Obligations Not in Registered Form.

Description: The Internal Revenue Service needs the information in order to ensure that purchasers of bearer obligations are not U.S. persons (other than those permitted to hold obligations under section 165(j)) and to ensure that U.S. persons holding bearer obligations properly report income and gain on such obligations. The people reporting will be institutions holding bearer obligations.

Respondents: Business or other for-profit.

Estimated Number of Respondents: 1,000.

Estimated Burden Hours Respondent: 3 minutes.

Frequency of response: On occasion.

Estimated Total Reporting Burden: 39,742 hours.

OMB Number: 1545-0823.

Regulation Project Number: FI-221-83 NPRM and FI-100-83 Temporary.

Type of Review: Extension.

Title: Indian Tribal Governments Treated As States For Certain Purposes.

Description: The regulations provide that if the governing body of a tribe, or its subdivision, is not designated as an Indian tribal government or subdivision

thereof for purpose of sections 7701(a)(40) and 7871, it may apply for a ruling from the IRS.

Respondents: State, Local or Tribal Government.

Estimated Number of Respondents: 25.

Estimated Burden Hours Respondent: 1 hour.

Frequency of response: Other (once).

Estimated Total Reporting Burden: 25 hours.

OMB Number: 1545-1132.

Regulation Project Number: INTL-536-89 Final.

Type of Review: Extension.

Title: Registration Requirements with Respect to Certain Debt Obligations; Application of Repeal of 30 Percent Withholding by Tax Reform Act of 1984.

Description: The Internal Revenue Service needs the information in order to ensure that purchasers of bearer obligations are not U.S. persons (other than those permitted to hold obligations under section 165(j)) and to ensure that U.S. persons holding bearer obligations properly report income and gain on such obligations.

Respondents: Business or other for-profit.

Estimated Number of Respondents/Recordkeeping: 5,000.

Estimated Burden Hours Respondent/Recordkeepers: 10 minutes.

Frequency of response: On occasion, Annually.

Estimated Total Reporting/Recordkeeping Burden: 852 hours.

Clearance Officer: Glenn P. Kirkland, Internal Revenue Service, Room 6411-03, 1111 Constitution Avenue, NW, Washington, DC 20224, (202) 622-3428.

OMB Reviewer: Joseph F. Lackey, Jr., Office of Management and Budget, Room 10235, New Executive Office Building, Washington, DC 20503, (202) 395-7316.

Part II

Department of the Treasury

Office of Foreign Assets Control

**31 CFR Chapter V
Alphabetical Listing of Blocked Persons,
Specially Designated Nationals, Specially
Designated Terrorists, Specially
Designated Global Terrorists, Foreign
Terrorist Organizations, and Specially
Designated Narcotics Traffickers; Final
Rule**

DEPARTMENT OF THE TREASURY**Office of Foreign Assets Control****31 CFR Chapter V****Alphabetical Listing of Blocked Persons, Specially Designated Nationals, Specially Designated Terrorists, Specially Designated Global Terrorists, Foreign Terrorist Organizations, and Specially Designated Narcotics Traffickers**

AGENCY: Office of Foreign Assets Control, Treasury.

ACTION: Amendment of final rule.

SUMMARY: The Treasury Department is amending appendix A to 31 CFR chapter V to (1) reflect the addition or removal, since it was last published, of the names of individuals and entities subject to the various economic sanctions programs administered by the Treasury's Office of Foreign Assets Control and (2) provide updated identifying and clarifying information for certain individuals and entities included in the appendix. The Treasury Department also is amending the notes to the appendices to 31 CFR chapter V to reflect the revisions to appendix A and changes in the status of several programs.

DATES: *Effective Date:* May 20, 2004.

FOR FURTHER INFORMATION CONTACT: Office of Foreign Assets Control, Department of the Treasury, Washington, DC 20220, tel.: 202/622-2520.

SUPPLEMENTARY INFORMATION:**Electronic and Facsimile Availability**

This file is available for download without charge in ASCII and Adobe Acrobat readable (*.PDF) formats at GPO Access. GPO Access supports HTTP, FTP, and Telnet at fedbbs.access.gpo.gov. It may also be accessed by modem dialup at 202/512-1387 followed by typing "/GO/FAC." Paper copies of this document can be obtained by calling the Government Printing Office at 202-512-1530. Additional information concerning the programs of the Office of Foreign Assets Control is available for download from the Office's Internet Home Page at: <http://www.treas.gov/ofac> or via FTP at ofacftp.treas.gov. Facsimiles of information are available through the Office's 24-hour fax-on-demand service: call 202/622-0077 using a fax machine, a fax modem, or (within the United States) a touch-tone telephone.

Background

Appendix A to 31 CFR chapter V contains the names of blocked persons, specially designated nationals, specially designated terrorists, specially designated global terrorists, foreign terrorist organizations, and specially designated narcotics traffickers designated pursuant to the various economic sanctions programs administered by the Office of Foreign Assets Control ("OFAC"). This appendix is periodically amended to reflect the names of individuals and entities added to, or removed from, the list. This appendix also is periodically amended to provide updated identifying and clarifying information, as well as alternative spellings and additional aliases, for certain individuals and entities included on the list.

Note 7 to the appendices to chapter V of Title 31 of the Code of Federal Regulations states, in relevant part, that frequently updated information on OFAC designations is provided for examination or downloading on OFAC's Internet site (<http://www.treas.gov/ofac>). Among other data, the internet site posts changes in designations and identifying information, and provides country-by-country lists of names. Information is also available by fax through OFAC's fax-on-demand system at 202/622-0077 and on various information systems serviced by OFAC. Updated information on OFAC designations should be consulted before engaging in transactions subject to the economic sanctions programs in chapter V.

Appendix A of chapter V of Title 31 of the Code of Federal Regulations conforms to the format used on OFAC's website to present the information on Specially Designated Nationals and Blocked Persons. This amendment reflects the complete list of persons identified in OFAC's Specially Designated Nationals and Blocked Persons list as of April 13, 2004. Changes after that date are not reflected in this document.

Because the regulations involve a foreign affairs function, Executive Order 12866 and the provisions of the Administrative Procedure Act (5 U.S.C. 553), requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date, are inapplicable. Because no notice of proposed rulemaking is required for this rule, the Regulatory Flexibility Act (5 U.S.C. 601-612) does not apply.

■ For the reasons set forth in the preamble, and under the authority of 3 U.S.C. 301; 50 App. U.S.C. 1-44; 21 U.S.C. 1901-1908; 8 U.S.C. 1189; 18

LIST OF PUBLIC LAWS

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "PLUS" (Public Laws Update Service) on 202-741-6043. This list is also available online at http://www.archives.gov/federal_register/public_laws/public_laws.html.

The text of laws is not published in the **Federal Register** but may be ordered in "slip law" (individual pamphlet) form from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone, 202-512-1808). The text will also be made available on the Internet from GPO Access at <http://www.gpoaccess.gov/plaws/index.html>. Some laws may not yet be available.

S. 2315/P.L. 108-228

To amend the Communications Satellite Act of 1962 to extend the deadline for the INTELSAT initial public offering. (May 18, 2004; 118 Stat. 644)
Last List May 10, 2004

Public Laws Electronic Notification Service (PENS)

PENS is a free electronic mail notification service of newly

enacted public laws. To subscribe, go to <http://listserv.gsa.gov/archives/publaws-l.html>

Note: This service is strictly for E-mail notification of new laws. The text of laws is not available through this service.

PENS cannot respond to specific inquiries sent to this address.
