BILLING CODE 4150-04-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Reporting of Pregnancy Success Rates From Assisted Reproductive Technology Programs

AGENCY: Centers for Disease Control and
Prevention (CDC), Department of Health
and Human Services (DHHS).

ACTION: Notice.

SUMMARY: The CDC is tasked with
implementing the Fertility Clinic
Success Rate and Certification Act of
1992 (FCSRCA), Public Law 102-493.
As mandated by this law CDC publishes
annual reports of pregnancy success
rates from ART clinics and embryo
laboratory certification status of these
clinics. Section 2(a) of Public Law 102-
493 (42 U.S.C. 263a-1) requires that
each assisted reproductive technology
(ART) program shall annually report to
the Secretary, through the Centers for
Disease Control and Prevention, (a)
pregnancy success rates achieved by
such ART programs, and (b) the identity
of each embryo laboratory used by such
ART programs, and whether the
laboratory is certified or has applied for
such certification under this act. Section
(6) states that the Secretary, through the
CDC, shall annually publish and
distribute to the States and the public,
pregnancy success rates reported to the
Secretary under section 2(a)(1) and, in
the case of an assisted reproductive
technology program which failed to
report one or more success rates as
required under such section, the name

of each such program and each pregnancy success rate which the program failed to report.

This Announcement includes information on the change in the data collection contractor and the change in the approved data reporting system for the 2004, 2005, 2006, 2007, and 2008 ART data reporting years in accordance with the FCSRCA. This Announcement supplements the September 1, 2000 and the February 5, 2004, notices.

SUPPLEMENTARY INFORMATION: CDC has contracted with Westat to develop a data reporting system and to collect annual clinic-specific and cycle-specific data from all practicing assisted reproductive technology clinics in the U.S. and its territories for the 2004, 2005, 2006, 2007, and 2008 ART data reporting years. The contract covers clinic tracking, data collection and quality assurance, and validation activities. As such, Westat is the new contractor for ART data collection for the 2004 through 2008 ART data reporting years.

The new Web-based data reporting system (developed by Westat) for the 2004, 2005, 2006, 2007, and 2008 ART data reporting years will be called the National ART Surveillance System (NASS). As such, NASS will be the only approved data reporting system for 2004 through 2008 ART data submissions. ART programs should be aware that Westat will develop and provide all necessary instruction materials for extracting and importing data from other electronic medical record systems into NASS and for checking imported data to ensure that it retains the accuracy and compatibility of the data entry system from which it was extracted.

The anticipated deadline for reporting is December 15 of the year 1 year subsequent to the reporting year in question. (For example, the anticipated deadline to report data on cycles initiated in 2004 is December 15, 2005.) An ART program will not be considered to be in compliance with the federal reporting requirements of FCSRCA if the ART program was in operation in the full year that is being reported, *i.e.*, the clinic was in operation after January 1 of the reporting year, and fails to submit a dataset to Westat in the required data reporting system (NASS) by the reporting deadline. ART programs considered to not be compliant with the federal reporting requirements of FCSRCA will be listed as non-reporters in the published report.

The data reporting activities and the amount and type of data collected will be similar to the current system

requirements outlined in the September 1, 2000 **Federal Register** notice (Volume 65, No. 171, pages 53310–53316). CDC has completely funded the data reporting activities for the 2004 through 2008 reporting years. Thus, ART programs will not be charged fees to obtain the new reporting system or to submit data using the new reporting system.

Validation activities for the 2004 through 2008 data reporting years will be similar to those described in the September 1, 2000 **Federal Register** notice (Volume 65, No. 171, pages 53310–53316). Westat will provide the necessary personnel to perform the validation site visits.

Each ART program should be aware that the Paperwork Reduction Act is applicable to this data collection. Under the Paperwork Reduction Act of 1995, a Federal agency shall not conduct or sponsor a collection of information from ten or more persons other than Federal employees, unless the agency has submitted a Standard Form 83, Clearance Request, to the Director of the Office of Management and Budget (OMB), and OMB has approved the collection of information. A person is not required to respond to a collection of information unless it displays a currently valid OMB control number. CDC has obtained OMB approval to collect this data under OMB control No. 0920–0556.

CDC will continue to provide information to all ART programs regarding data collection activities as information becomes available.

FOR FURTHER INFORMATION CONTACT: Victoria Wright, Assisted Reproductive Technology Epidemiology Unit at (770) 488–6384.

Dated: January 25, 2005.

James D. Seligman,

*Associate Director for Program Services,
Centers for Disease Control and Prevention.*

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 2005N–0029]

Agency Information Collection Activities; Proposed Collection; Comment Request; Infant Formula Recall Regulations

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on requirements related to the recall of infant formula.

DATES: Submit written or electronic comments on the collection of information by April 4, 2005.

ADDRESSES: Submit written comments to the Division of Dockets Management (HFA–305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. Submit electronic comments to <http://www.fda.gov/dockets/ecomments>. All comments should be identified with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Peggy Robbins, Office of Management Programs (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–1223.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on these topics: (1) Whether the proposed collection of information is necessary for the proper performance of FDA’s functions, including whether the information will have practical utility; (2) the accuracy of FDA’s estimate of the burden of the proposed collection of information, including the
