

activity and the location of the proposed activity, the number of potential harassment takings is estimated to be small. In addition, no take by injury and/or death is anticipated, and there is no potential for temporary or permanent hearing impairment as a result of the activities. No rookeries, mating grounds, areas of concentrated feeding, or other areas of special significance for marine mammals occur within or near the relocation route.

The principal measures undertaken to ensure that the barging operation will not have an adverse impact on subsistence activities is a CAA between FEX, the AEWC and the Whaling Captains Association, a Plan of Cooperation, and an operation schedule that will not permit barging operations during the traditional bowhead whaling season.

Determinations

NMFS has issued an IHA for the harassment of marine mammals incidental to FEX conducting a barging operation for approximately 20 days from West Dock, Prudhoe Bay Alaska, through the U.S. Beaufort Sea to Cape Simpson. This IHA is contingent upon incorporation of the previously mentioned mitigation, monitoring, and reporting requirements. NMFS has determined that this activity would result in the harassment of small numbers of bowhead whales, beluga whales, ringed seals, bearded seals and spotted seals; would have no more than a negligible impact on these marine mammal stocks; and would not have an unmitigable adverse impact on the availability of marine mammal stocks for subsistence since the previously described CAA has been signed.

Authorization

NMFS has issued an IHA to FEX L.P. to take a small number of marine mammals incidental to conducting a barging operation within the U.S. Beaufort Sea, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Dated: August 8, 2005.

James H. Lecky,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 072605B]

Endangered Species; File No. 1518

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that Carlos Diez, Departamento de Recursos Naturales y Ambientales de Puerto Rico, P.O. Box 9066600, San Juan, Puerto Rico 00906-6600, has been issued a permit to take hawksbill (*Eretmochelys imbricata*) and green (*Chelonia mydas*) sea turtles for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and

Southeast Region, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701; phone (727)824-5312; fax (727)824-5517.

FOR FURTHER INFORMATION CONTACT: Patrick Opay or Ruth Johnson, (301)713-2289.

SUPPLEMENTARY INFORMATION: On May 27, 2005, notice was published in the **Federal Register** (70 FR 30704) that a request for a scientific research permit to take hawksbill and green sea turtles had been submitted by the above-named individual. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 1518 authorizes Mr. Diez to study green and hawksbill sea turtles. The purpose of the research is to identify marine habitat, determine distribution and abundance, determine sex ratios, evaluate the extent of ingestion of marine debris, determine growth rates and sexual maturity, and quantify threats. Mr. Diez will annually capture up to 320 hawksbill and 250 green sea turtles by hand or entanglement net. All turtles will be measured, weighed, tagged, and blood sampled. A subset of animals will be lavaged and have transmitters attached to them. One leatherback sea turtle

could be incidentally captured during the course of the studies but would be released alive. The permit is issued for 5 years.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of any endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: August 8, 2005.

Stephen L. Leathery,

*Chief, Permits, Conservation and Education Division, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 080105B]

Endangered Species; File No. 1540

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that the South Carolina Department of Natural Resources, Marine Resources Division, P.O. Box 12559, Charleston, SC 29422-2559, has applied in due form for a permit to take loggerhead (*Caretta caretta*), Kemp's ridley (*Lepidochelys kempii*), green (*Chelonia mydas*), leatherback (*Dermochelys coriacea*), and hawksbill (*Eretmochelys imbricata*) sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or e-mail comments must be received on or before September 14, 2005.

ADDRESSES: The application and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and

Southeast Region, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701; phone (727)824-5312; fax (727)824-5309.

Written comments or requests for a public hearing on this application should be mailed to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources,

NMFS, 1315 East-West Highway, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

Comments may also be submitted by facsimile at (301)427-2521, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing email comments is *NMFS.Pr1Comments@noaa.gov*. Include in the subject line of the e-mail comment the following document identifier: File No. 1540.

FOR FURTHER INFORMATION CONTACT: Patrick Opay or Ruth Johnson, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The purpose of the proposed action is a continuation of Permit No. 1245 documentation of in-water relative abundances, size distributions, sex ratios, genetic contributions, and the health of sea turtles in coastal waters in the southeastern U.S. Up to 350 loggerhead, 50 Kemp's ridley, 10 green, 3 leatherback, and 5 hawksbill sea turtles would be captured annually using trawls. Turtles would be handled, blood sampled, measured, flipper and PIT tagged, photographed and subsequently released. A subsample of animals would have barnacles and keratin removed from their shells, have cloacal samples taken, be laproscopic and ultrasound examined, and have satellite transmitters attached to them. Up to 4 loggerhead, 1 Kemp's ridley, 1 green, 3 leatherback, and 5 hawksbill sea turtles may be accidentally killed during the research. The permit would be issued for 5 years.

Dated: August 5, 2005.

Jennifer Skidmore,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

FOR FURTHER INFORMATION CONTACT: Shane Guan or Carrie Hubard, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject permits are requested under the authority of the Endangered Species Act

of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

SCANA Services, Inc., sister company to South Carolina Electric & Gas Company (SCE&G), proposes to conduct a study of shortnose sturgeon in portions of the Santee River Basin in South Carolina (Saluda, Congaree, Broad, Wateree, and Santee Rivers) in support of SCE&G's efforts to acquire a new operating license from the Federal Energy Regulatory Commission (FERC) for the Saluda Hydroelectric Project (FERC No. 516). The purpose of the proposed study is to document shortnose sturgeon usage in areas downstream of the Saluda Hydroelectric Project which are within the historic range of the species, but have not been adequately sampled in recent history. A maximum of 15 adult and juvenile shortnose sturgeon would be captured with gill nets, examined, measured, weighed, PIT and dart tagged, a tissue sample collected for genetic analysis, and released annually. An estimated 100 shortnose sturgeon eggs and larvae would be lethally taken by using D-shaped or rectangular drift nets annually as part of the proposed study to determine if spawning is taking place. The permit is requested for a duration of 5 years, with work slated to begin in January 2006.

Dated: August 4, 2005.

Stephen L. Leathery,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.
