

Reading Room is (202) 566-1744, and the telephone number for the Office of Research and Development Docket is (202) 566-1752. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Population-based Pilot Study of Children's Environmental Health in Support of The National Children's Study.

Abstract: The proposed study will be conducted by the Epidemiology and Biomarkers Branch, Human Studies Division, National Health and Environmental Effects Research Laboratory, Office of Research and Development, U.S. EPA. The U.S. EPA will conduct this research in partnership with the National Children's Study (NCS) Program Office at the National Institute of Child Health and Human Development (NICHD) as well as the other lead agencies of the NCS: the Centers for Disease Control and Prevention (CDC) and the National Institute of Environmental Health Sciences (NIEHS). This proposed data collection will pilot test logistics, protocols and procedures for the NCS, a long term study of the influence of environmental factors on child health

and development. The goal is to improve the efficiency of the implementation of NCS by testing procedures for population-based sampling and subject recruitment, proposed study logistics and estimates of subject burden, and evaluating data collection strategies including interviews and acquisition of biologic and environmental samples. Further details on the NCS, including the Study Plan, can be found at <http://www.nationalchildrensstudy.gov>.

Approximately 10,000 households will be screened and 2,740 women will be enrolled who meet eligibility criteria, primarily defined by age and likelihood of pregnancy. The schedule of visits follows the proposed NCS Study Plan. Briefly, women who are planning pregnancy will be visited bimonthly, women with lower likelihood of pregnancy will be visited once; pregnant women will have a home visit in the first trimester and a clinic visit in the second and third trimester. A hospital visit at birth is planned as well as home visits to follow-up with the mother and infant at 1, 6, 12, and 18 months of age. Data from interviews as well as biologic and environmental samples will address the relationship between common environmental factors and the physical and developmental growth of children. Qualitative assessments of the participants' perceptions about the study will be gathered at each visit to enhance the lessons that can be learned to aid the successful implementation of the NCS.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information varies depending on the eligibility and pregnancy status of women at the time of enrollment. Detailed estimates regarding the number of potential respondents and burden associated with each visit are provided in the EDOCKET. Approximately 10 minutes per household is required to determine potentially eligible occupants. Potentially eligible women are asked to complete a 10-minute screening interview. The estimated total burden for a fully participating woman ranges from 8 hours (for a woman enrolled at delivery) to 21 hours (for a "high likelihood" woman who receives all contacts in the preconception period)

over a three year period. The burden for husbands/partners is somewhat more consistent because they only receive one visit in each of the preconception, pregnancy, and childhood visit periods; each visit is approximately 1 hour. The burden for children ranges from 10 minutes at the birth visit to approximately 2 hours for full participation up to 18 months of age. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Women aged 18-40 years, pregnant women, their husbands or partners, and their children who live in selected areas of North Carolina.

Estimated Number of Respondents: 10,000.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 4,585.

Estimated Total Annual Cost: \$82,728. There are no annualized capital costs or O&M costs.

Changes in the Estimates: Not applicable; this is a new information collection.

Dated: September 6, 2005.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities; Submission for OMB Review and Approval; Comment Request; NSPS for Petroleum Refineries (Renewal), ICR Number 1054.09, OMB Number 2060-0022

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act, this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on November 30, 2005. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before October 20, 2005.

ADDRESSES: Submit your comments, referencing docket ID number OECA-2005-0016, to (1) EPA online using EDOCKET (our preferred method), by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code 2201T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Dan Chadwick, Compliance Assessment and Media Programs Division, Office of Compliance, 2223A, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-7054; fax number: (202) 564-0050; e-mail address: chadwick.dan@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 6, 2005 (70 FR 24020), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OECA-2005-0016, which is available for public viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for

the Enforcement and Compliance Docket and Information Center is: (202) 566-1752. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. When in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: NSPS for Petroleum Refineries (Renewal).

Abstract: This information collection request addresses Clean Air Act information collection requirements in standards published at 40 CFR part 60, subpart J, which have mandatory recordkeeping and reporting requirements. These regulations were proposed on June 11, 1973, promulgated on March 8, 1974, and they apply to the following affected facilities in petroleum refineries: Fluid catalytic cracking unit catalyst regenerators, fuel gas combustion devices, and Claus sulfur recovery plants of more than 20 long tons per day commencing construction, modification or reconstruction after the date of proposal. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. The frequency of the excess emissions report was changed from quarterly to semiannually on February 12, 1999 (64

FR 7465) They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Any owner/operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the United States Environmental Protection Agency (EPA) regional office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 50 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners and operators of petroleum refineries.

Estimated Number of Respondents: 132.

Frequency of Response: Semiannually, on occasion.

Estimated Total Annual Hour Burden: 14,134 hours.

Estimated Total Annual Costs: \$1,682,453, which includes \$0 annualized capital/startup costs, \$541,464 annual O&M costs, and \$1,140,989 in Respondent Labor costs.

Changes in the Estimates: Adjustment of burden hours added 2,183 hours, but was more than offset by Program Change decrease of 5,408 hours, so that the overall decrease in burden was 3,225 hours per year. This decrease is due to the removal of quarterly emission reporting requirements. Only semiannual emission reporting is required by the standards. The increase in O&M cost is due to use of a more accurate source for this information.

Dated: September 12, 2005.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities: Proposed Collection; Comment Request; Delisting the Fish Tainting Beneficial Use Impairment in the Saginaw River/Bay Area of Concern, EPA ICR Number 2199.01

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a proposed Information Collection Request (ICR) to the Office of Management and Budget (OMB). This is a request for a new collection. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before November 21, 2005.

ADDRESSES: Submit your comments, referencing docket ID number OEI-2005-0008, to EPA online using EDOCKET (our preferred method), by e-mail to oei.docket@epa.gov, or by mail to: Environmental Protection Agency, Office of Environmental Information Docket, Mail Code 28221T, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: James Schardt, Environmental Protection Agency, Great Lakes National Program Office, 77 W. Jackson Blvd (G-17J), Chicago, IL 60604; telephone number: (312) 353-5085; fax number: (312) 353-2018; e-mail address: schardt.james@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has established a public docket for this ICR under Docket ID number OEI-2005-0008, which is available for public viewing at the OEI Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752. Use EDOCKET to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA within 60 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Affected entities: Entities potentially affected by this action are members of the public, specifically local residents of the Saginaw Bay region of Michigan.

Title: Delisting the Fish Tainting Beneficial Use Impairment in the Saginaw River/Bay Area of Concern

Abstract: The 1988 Saginaw River/Bay RAP cited 12 impairments of the 14 categories specifically listed by the IJC for the Saginaw River/Bay AOC, including tainting of fish (*i.e.*, taste and odor concerns). Chemical odors and tastes associated with harvested fish were frequently reported from the 1940s

through the 1970s in the Saginaw and Tittabawassee Rivers, and in the Saginaw Bay. In the 1994 Remedial Action Plan Update, the Michigan Department of Natural Resources reported that no off-flavor was detected in taste tests conducted on fish taken from these waters. Since taste and odor complaints related to edible fish taken from both Saginaw River and Bay have disappeared in recent years, this project will distribute a voluntary survey to 7,680 local residents and anglers to determine if taste and odor problems in fish fillets have abated to the extent that delisting of the beneficial use impairment may be recommended for the Area of Concern (AOC). Results of the individual survey respondents will be confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Burden Statement: The voluntary survey instrument is expected to take .5 hours to review and complete per individual response. The targeted frequency of response is 20 percent, or 1,536 completed surveys. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the
