

any comments received for a proposed generic change to operating licenses and to either reconsider the change or to proceed with announcing the availability of the change for proposed adoption by licensees. Those licensees opting to apply for the subject change to operating licenses are responsible for reviewing the NRC staff's evaluation, referencing the applicable technical justifications, and providing any necessary plant-specific information. Each amendment application made in response to the notice of availability will be processed and noticed in accordance with applicable rules and NRC procedures.

This notice involves a change that deletes a requirement for licensees to report violations of other requirements (typically in License Condition 2.C) of a facility's operating license.

Applicability

This proposal to eliminate the reporting of violations of specific requirements (typically in License Condition 2.C) of facility operating licenses is applicable to any licensee that has such a provision in its facility operating license. The NRC staff notes that many operating licenses do not contain the requirement because it was never added or was removed by a license amendment before issuance of this notice. The CLIIP also addresses similar requirements if they exist in the Administrative Section of TS. The CLIIP does not address reporting requirements contained in operating licenses other than those specifically involving reports of violations of other requirements (typically in License Condition 2.C) of the facility operating license or requirements that restate the need to submit reports in accordance with 10 CFR 50.72, "Immediate notification requirements for operating nuclear power reactors," and 10 CFR 50.73, "Licensee event report system."

To efficiently process the incoming license amendment applications, the NRC staff requests each licensee applying for the changes using the CLIIP to provide the information identified in the model application posted on the NRC Web site.

Public Notices

In a notice in the **Federal Register** dated August 29, 2005 (70 FR 51098), the NRC staff requested comment on the use of the CLIIP to process requests to delete the subject reporting requirement in operating licenses. In addition, there have been multiple notices published for plant-specific amendment requests to adopt changes similar to those described in this notice.

The NRC staff's SE and model application may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records are accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Library component on the NRC Web site, (the Electronic Reading Room).

The NRC staff received two responses following the notice published August 29, 2005 (70 FR 51098), soliciting comments on the model SE and NSHC determination related to the elimination of the reporting requirement in operating licenses. The responses were from the Nuclear Energy Institute (NEI) in a letter dated September 28, 2005, and South Carolina Electric and Gas (SCE&G) in a letter dated September 26, 2005. Both letters supported the generic approach proposed in the notice and did not offer changes to the model SE or NSHC determination. The NRC staff finds that the previously published models remain appropriate references and has chosen not to republish the model SE and model NSHC determination in this notice. As described in the model application prepared by the NRC staff, licensees may reference in their plant-specific applications to delete the reporting requirement, the SE, NSHC determination, and environmental assessment previously published in the **Federal Register** (70 FR 51098; August 29, 2005).

Dated at Rockville, Maryland, this 25th day of October 2005.

For the Nuclear Regulatory Commission,
William D. Reckley,

Senior Project Manager, Section 1, Project Directorate IV, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-14335]

Issuer Delisting; Notice of Application of Del Monte Foods Company To Withdraw its Common Stock, \$.01 Par Value, From Listing and Registration on the Pacific Exchange, Inc.

October 31, 2005.

On September 28, 2005, Del Monte Foods Company, a Delaware corporation ("Issuer"), filed an application with the Securities and Exchange Commission ("Commission"), pursuant to Section 12(d) of the Securities Exchange Act of

1934 ("Act")¹ and Rule 12d2-2(d) thereunder,² to withdraw its common stock, \$.01 par value ("Security"), from listing and registration on the Pacific Exchange, Inc. ("PCX").

The Board of Directors ("Board") of the Issuer approved resolutions on June 30, 2005 to withdraw the Security from the PCX. The Issuer stated that the Board determined to withdraw the Security from PCX to reduce the cost and compliance efforts of maintaining the listing because: (i) Approximately 99% of the trading volume in the Security is effected on the New York Stock Exchange, Inc. ("NYSE") and only 1% is effected on PCX; and (ii) maintaining the listing on PCX involves cost and compliance efforts that are not warranted in light of the trading volume of the Security on PCX.

The Issuer stated in its application that it has complied with the applicable rules of PCX by providing PCX with the required documents governing the withdrawal of securities from listing and registration on PCX.

The Issuer's application relates solely to the withdrawal of the Security from listing on PCX and shall not affect its continued listing on NYSE or its obligation to be registered under Section 12(b) of the Act.³

Any interested person may, on or before November 21, 2005, comment on the facts bearing upon whether the application has been made in accordance with the rules of PCX, and what terms, if any, should be imposed by the Commission for the protection of investors. All comment letters may be submitted by either of the following methods:

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; Notice of Application of Sunoco, Inc. To Withdraw Its Common Stock, \$1.00 par value, From Listing and Registration on the Philadelphia Stock Exchange, Inc. File No. 1-06841

October 31, 2005.

On October 3, 2005, Sunoco, Inc., a Pennsylvania corporation ("Issuer"), filed an application with the Securities and Exchange Commission ("Commission"), pursuant to Section 12(d) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 12d2-2(d) thereunder,² to withdraw its common stock, \$1.00 par value ("Security"), from listing and registration on the Philadelphia Stock Exchange, Inc. ("Phlx" or "Exchange").

The Board of Directors ("Board") of the Issuer approved resolutions on September 1, 2005 to withdraw the Security from listing on the Exchange. The Issuer stated that the following reasons factored into the Board's decision to withdraw the Security from Phlx: (i) The Issuer maintains the principal listing for the Security on the New York Stock Exchange ("NYSE"); (ii) since the Sarbanes-Oxley Act of 2002, new, more stringent corporate governance rules have been adopted by various exchanges, including NYSE and Phlx; (iii) maintaining multiple listings and compliance with the rules and disclosure requirements of both NYSE and Phlx requires administrative time and internal costs; and (iv) the benefits

of continued listing on Phlx are outweighed by the administrative burden and internal cost of such listing.

The Issuer stated in its application that it has complied with the requirements of Phlx Rule 809 governing an issuer's voluntary withdrawal of a security from listing and registration by providing the required documents for withdrawal from Phlx. The Issuer's application relates solely to the withdrawal of the Security from listing on Phlx, and shall not affect its continued listing on NYSE or its obligation to be registered under Section 12(b) of the Act.³

Any interested person may, on or before November 21, 2005, comment on the facts bearing upon whether the application has been made in accordance with the rules of Phlx, and what terms, if any, should be imposed by the Commission for the protection of investors. All comment letters may be submitted by either of the following methods:
