Fishing of the Exclusive Economic Zone Off Alaska; Groundfish, Crab, Salmon, and Scallop Fisheries of the Bering Sea and Aleutian Islands Management Area and Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Announcement of availability of proposed amendments to fishery management plans; request for comments.

SUMMARY: The North Pacific Fishery Management Council (Council) has submitted Amendments 78 and 65 to the Fishery Management Plan (FMP) for Groundfish of the Bering Sea and Aleutian Islands Management Area (BSAIAL), Amendments 73 and 65 to the FMP for Groundfish of the Gulf of Alaska (GOA), Amendments 16 and 12 to the FMP for Bering Sea/Aleutian Islands King and Tanner Crabs, Amendments 7, 9, and 11 to the FMP for the Scallop Fishery Off Alaska, and Amendments 7 and 6 to the FMP for Salmon Fisheries in the Exclusive Economic Zone Off the Coast of Alaska. These amendments, if approved, would revise the FMPs by identifying and authorizing protection measures for essential fish habitat (EFH) and habitat areas of particular concern (HAPCs) in all five FMPs and update the biological and management information in the scallop FMP. This action is necessary to revise the descriptions of EFH in the FMPs based on the best available scientific information and to protect areas that have important habitat features for the sustainability of managed fish stocks. This action also is necessary to provide an updated FMP for scallop fishery management. This action is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the FMPs, and other applicable laws. Comments from the public are welcome.

DATES: Comments on the amendments must be received by close of business on April 7, 2006.

ADDRESSES: Send comments to Sue Salveson, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region, NMFS, Attn: Records Officer. Comments may be submitted by:
• Mail: P.O. Box 21668, Juneau, AK 99802.
• Hand delivery: 709 West 9th Street, Room 420A, Juneau, AK.

SUPPLEMENTARY INFORMATION: The Magnuson-Stevens Act requires that the Council submit any FMP amendment it considers necessary to provide for conservation and enhancement of EFH. These amendments, if approved, would revise the FMPs by identifying and authorizing protection measures for essential fish habitat (EFH) and habitat areas of particular concern (HAPCs) in all five FMPs and update the biological and management information in the scallop FMP. This action is necessary to revise the descriptions of EFH in the FMPs based on the best available scientific information and to protect areas that have important habitat features for the sustainability of managed fish stocks. This action also is necessary to provide an updated FMP for scallop fishery management. This action is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the FMPs, and other applicable laws. Comments from the public are welcome.

Section 303(a)(7) of the Magnuson-Stevens Act requires that each FMP describe and identify EFH, minimize to the extent practicable the adverse effects of fishing on EFH, and identify other measures to promote the conservation and enhancement of EFH. The Council adopted the EFH and HAPC amendments in February 2005. If approved by NMFS, these amendments would revise the FMPs by updating the description and identification of EFH, changing the identification of HAPCs, and authorizing protection measures for...
